

ACCOUNTING

"I knew attending SUNY Orange would open many doors for me when I was ready to graduate. The A.S. Accounting program prepared me very well for transferring and assimilating to a four-year institution. I credit this level of readiness to the committed faculty and various resources the College has to offer. The professors make themselves approachable and go out of their way to help each student."

Chris Skoog

Why Accounting?

Accounting is the fundamental information system used to record, report and analyze financial information throughout the business world. The field of accounting offers careers in public accounting, private business, not-for-profit organizations or government entities. You can choose from the following fields or even develop your own. The choice is up to you.

- CPA (certified public accountant)
- CMA (certified mgmt. accountant)
- General accountant
- Tax accountant
- Forensic accountant
- Financial analyst
- Financial planner
- Accounting assistant
- Sole proprietor

Why Accounting at SUNY Orange?

The answer is simple: success and cost! For more than 50 years, we have been sending students to upper division accounting programs. Our outstanding success rate for transfer students completing a bachelor's degree along with our tremendously affordable tuition rates, makes SUNY Orange the logical place to start on the road to the accounting career you desire. We offer three accounting program choices, an A.S. degree for transfer to a four-year college or university, an A.A.S. degree for students who desire to seek employment after a shorter period of education, or a one-year accounting procedures certificate. We are small enough to give you individual attention and experienced enough to give you individual encouragement.

TOP 5 REASONS YOU SHOULD STUDY Accounting AT SUNY ORANGE

- ⇒ Small classes, credentialed faculty, individual attention and available online coursework.
- ⇒ Nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP).
- ⇒ Software applications with QuickBooks and Microsoft Office.
- ⇒ Internship experience for those who want to build their resumes.
- ⇒ Graduates can transfer to accredited accounting programs to pursue CPA licensure, or to Franklin University to pursue an online bachelor's degree in Accounting.
