Overview of Institutional Effectiveness Plan
Heather Perfetti, VPAA

President Richards introduced VP Perfetti who gave an overview of the Institutional Effectiveness Plan and how it fits in with the Strategic Priorities approved by the board for 2009-2014. A year from now, at the BOT retreat, the Strategic Priorities of the College will be reviewed for 2015-2019 Strategic plan.

VP Perfetti gave a thorough review of the Institutional Effectiveness Plan. The IE Plan is a way to examine the institution and look at areas for improvement while also celebrating the successes. It is an ongoing process incorporated into the College’s planning and assessment.

The following items were reviewed by VP Perfetti:

- Institutional Effectiveness is the “systematic, explicit and documented process of measuring performance against mission in ALL aspects of an institution”
- Institutional Effectiveness is measured for:
  - Clarification of Mission
  - Improvement
  - Identification of Priorities
  - Planning and Decision Making
  - Enhancement of Reputation
  - Historical Record
  - Accreditation Requirement
  - Accountability to Constituencies
  - Information for Prospective and Current Students
- College Goals, Strategic Priorities, Master Plans, Annual Reports and the IE Plan are all tied together.
- Successes are celebrated, commitment is made to continuous improvement, and conversations take place about where the College needs to improve when measurements show a need for improvement.
- The College goals were reviewed along with the 27 Adopted measures in the Institutional Effectiveness plan.
- VP Perfetti asked the board for other areas of data that they feel may have surfaced during their conversations and the following was discussed:
  - Reverse Transfer
  - Recruiting to Communities that do not have College-going history addressing diversity of communities?
    - VP Broadie noted that this is a focus of the Admissions Office
  - Better capturing where the College’s engagement is in the community (i.e. Faculty and Staff involvement in their communities, attendance at Cultural Affairs events, etc.) Trustee Murphy discussed the many ways that Faculty and Staff contribute to their communities and that capturing, compiling and sharing this information would be very helpful.
- Trustee Mokotoff and Trustee Murphy noted that marketing for cultural affairs events, perhaps in the local churches and community, would be helpful.
- Other items reviewed:
  - Graduation Rates
  - Continuing & Adult Professional Education (CAPE)
  - Community College Survey of Student Engagement (CCSSE)
  - Benchmarking for each Institutional Effectiveness Measure, tracking data for 3 years.
- The Cycle of Planning, Assessment, Resource Allocation and the role of the board was discussed and a presentation will be done for the board in the fall.
and spring semesters prior to Middle States visits from Dr. Hoy (October) and the Review team (April.) Trustee Ullrich asked if the assessment of institutional effectiveness presented to the board in the Spring will be tied in with the budget processing so that the budget reflects what is being discovered in the assessment of IE. VP Perfetti noted that this is the ultimate goal and processes are in place at the College to do this.

- AY 2013-2014 will be the first year that the Institutional Plan will be in full implementation and sharing critical information with the board for decision-making will be done.
- The three major areas of focus for AY 2013-2014 are:
  - Institutional Effectiveness Plan: Cabinet will meet in July to delve into data available and how to use the data within units going forward and this will be brought back to the board.
  - Strategic Planning: The College will be engaged with Strategic Planning and this will include the board. The process will be introduced to the faculty and staff in the fall and throughout AY 2013-2014 there will be activities to renew the Strategic Plan. The Strategic Plan will be presented to the board in June 2014.
  - Middle States Self-Study Efforts continue for AY 2013-2014.
- The Middle States Preliminary Visit with Dr. Hoy is scheduled for October 29, 2013
- The Middle States Team visit is scheduled for April 6 – April 9, 2014
- A discussion ensued regarding the intense rigor of the Middle States process preparation and all it entails. Trustee Anthonisen requested a chronology of how the College has done over the years and in comparison to sister colleges. VP Perfetti will prepare a report showing the College's past Middle States results including a comparison to other colleges. President Richards reminded everyone that America has the only higher education system in the world that is self-regulated and the team consists of colleagues from other colleges within the Middle States region. This is a very important review and will help the college plan for the future.

XI. BOARD DISCUSSION:

- Trustee Flaherty introduced Alex De La Rosa, the student trustee for AY 2013-2014.
- Chair Wolfe noted that at the 2011 retreat much time was spent on what the college would look like 20 years from now and that was addressed during the year. Most of the board’s goals have been reached and requests from the board have been addressed at each board meeting. The Academic presentations will hopefully continue next year.
- Trustee Murphy discussed student housing scenarios at some other schools noting that there is another dimension to the student housing concern with regard to needs for students and allocation of resources, such as counseling, food services and much more. This brings another dynamic to student housing and she expressed the importance of the community college’s unique mission to be economically feasible. Trustee Krahulik noted the competition we now have with 4-year schools and the need to find strategies to keep tuition low. Trustee Ullrich noted that the budget is optimistic but we will not be able to sustain what we have without alternative sources of revenue. Trustee Anthonisen said that he sees a totally different campus 30 years out. Chair Wolfe stated that the Housing Feasibility Study will be done by October.
- Foundation Board member, Nick Ilobre, expressed that the Foundation Board and the College are reaping the benefits of bringing the Foundation and the Board together for discussions. The Foundation Board concerns are the same as the Board of Trustees’ and the Foundation’s support of the Academic area has been strengthened and aligned providing consistency.
VP Ross noted that Enrollment in Newburgh has continued to grow but is beginning to level off. Academic Affairs will be looking at unique and innovative programs housed at the Newburgh Campus.

VP Cazzetta noted that Alumni outreach is a focus of Institutional Advancement and the Alumni area has been working with Career Services providing outreach to individual alumni who may have internship opportunities. This will support VP Broadie’s efforts to build the Career and Internship services program. In addition, Alumni can support the College in recruitment efforts, especially those who have been successful.

Chair Wolfe asked the board if the Tuesday, 4 PM meeting date is still acceptable and all agreed.

Trustee Mokotoff was presented with a cake and all sang Happy Birthday for her 95th birthday!!
