**Message from the President**

An institution of higher education established by authority of the State University of New York and sponsored by the County of Orange

An Equal Opportunity/Affirmative Action College

**Mission, Vision, Values**

An institution of higher education established by authority of the State University of New York and sponsored by the County of Orange

An Equal Opportunity/Affirmative Action College

**Founded 1950**

An institution of higher education established by authority of the State University of New York and sponsored by the County of Orange

An Equal Opportunity/Affirmative Action College
Dear Student:

On behalf of the faculty and staff at SUNY Orange, I welcome your interest in the College and encourage you to investigate all that SUNY Orange has to offer as you navigate the next phase of your academic journey.

I imagine your educational goals and aspirations to be quite different from those of your fellow students, but I am convinced the College is uniquely positioned to address your specific academic needs, both now and in the future. Our first-class faculty is motivated and creative, our staff caring and dedicated. Everyone at SUNY Orange is committed to helping you reach your goals.

Our course offerings are diverse and challenging, all aimed at creating a broad foundation upon which you can build. Our students are among the best-prepared and highest achievers when they transfer to a senior college or university, often outperforming students who began their careers at that particular institution. In the workforce, our alumni are leaders and innovators.

True to the College's mission, you'll find a SUNY Orange education is distinguished by intellectual rigor, with a focus on personal enrichment and enhanced citizenship. We believe SUNY Orange students graduate with a deep appreciation of culture, an understanding of their place in history and a broadened sense of their role in an evolving democratic society. A SUNY Orange degree can also create a wealth of possibilities for economic and personal prosperity.

Throughout your tenure on campus, you will be supported by a qualified and understanding staff of advisors and counselors who will answer any questions you may have about the College's programs, services, courses, scholarships and financial aid. You can trust that their assistance will put you in the best possible position to succeed.

Our campus also boasts a vibrant array of student organizations and initiatives, as well as a successful athletic program, that may interest you. There is no better way to assure a well-rounded educational experience than to become active in one of these organizations, where you will further develop the ideals of teamwork and leadership.

I look forward to seeing you on campus throughout the coming semesters, but I will be most honored should I have the opportunity to shake your hand as you accept your SUNY Orange diploma during an upcoming Commencement ceremony.

Very truly yours,

President
Mission
We are a community of learners dedicated to reaching out to all citizens of Orange County to enrich their lives through the highest-quality education possible. Intellectual rigor, personal commitment and enhanced citizenship distinguish a SUNY Orange education which will enhance students’ economic opportunities, deepen their appreciation of culture and of their place in history while broadening their sense of responsibility in a democratic society.

Vision
We will be the best college in the SUNY System, the college of choice for all Orange County citizens. We welcome all as individuals, ensure academic and intellectual challenge, and mentor all in a caring, support-ive environment. Students will remember the College as one of their most richly rewarding experiences, the compass that guides their continued development. We consistently renew our promise to be a most rigorous and caring academic institution, to provide visionary leadership, and to create a symphony of opportunity for personal and professional growth. We aspire to be the most efficient in shepherding public resources and to be a strategic force in enhancing the quality of life in Orange County and beyond.

Values
As community college educators, our professional lives are informed by shared values of mutual respect, integrity in the rigorous and honest pursuit of academic inquiry, and a commitment to the highest stan-dards of excellence in all we do. We further value a spirited dedication to service, a celebration of culturally rich campus environments, and the gathering of our community of the most varied mixture of maturity, ethnicity, patterns of thought, language and spiritual-ity. Our sense of ethical and democratic responsibility bonds us to one another. All those who come here will experience at SUNY Orange a sense of belonging to a special community of learners and will speak with pride of our openness and inspiration in the creation of the strongest sense of local and global community.

About SUNY Orange
Orange County Community College has touched the lives of countless numbers of the county’s 350,000 residents through its credit programs, non-credit programming and cultural events. As the needs of the community grow, the College will continue to play a significant role as the county strives to face the challenges and to profit from the opportunities that await it.

The College has earned its reputation as a pioneer and innovator in meeting the needs of its students and the area it primarily serves. Orange County Community College was the first two-year college in the nation to offer the associate degree nursing program and studies in electron microscopy, and in 1982, the College was the first community college to plan and co-sponsor with local chambers of commerce a business institute.

Accredited by Middle States Association of Colleges and Schools, academic credits can be earned through full- or part-time study in the day, evening or weekend. The College offers three degrees—the Associate in Arts, Associate in Science and Associate in Applied Science. The College also offers extensive technical programs in career fields (with transfer options) and one-year certificates.

Public and private four-year colleges actively seek our graduates for transfer into baccalaureate programs. In cooperation with other educational agencies, the College also presents programs for academically gifted high school seniors, for business and professional people, and by special arrangement with local chambers of commerce a business institute.

Public and private four-year colleges actively seek our graduates for transfer into baccalaureate programs. In cooperation with other educational agencies, the College also presents programs for academically gifted high school seniors, for business and professional people, and by special arrangement with nearby universities for graduate students. More than 450,000 people have enrolled in a wide range of credit and non-credit classes at the Middletown campus, the Newburgh campus and satellite locations across Orange County.

Consistent with its mission to meet the higher education needs of students, the College is noted for its commitment to ensuring student success. With the support of our caring faculty and staff, each of our students has the ability to achieve his or her academic and career goals. Advising, counseling, and career guidance and exploration are available to all students, as well as co-curricular and leadership opportunities that serve to complement the academic experience.

In addition to offering formal instruction to students during the day, evening and weekend, the College engages in a variety of other activities. It sponsors a series of cultural events, lectures and artistic performances for students, staff and faculty, and to which the public is invited.

Mission
We are a community of learners dedicated to reaching out to all citizens of Orange County to enrich their lives through the highest-quality education possible. Intellectual rigor, personal commitment and enhanced citizenship distinguish a SUNY Orange education which will enhance students’ economic opportunities, deepen their appreciation of culture and of their place in history while broadening their sense of responsibility in a democratic society.

Our sense of ethical and democratic responsibility bonds us to one another. All those who come here will experience at SUNY Orange a sense of belonging to a special community of learners and will speak with pride of our openness and inspiration in the creation of the strongest sense of local and global community.
The Middletown Campus

From its original configuration of two buildings—a mansion and carriage house—in 1950, the SUNY Orange Middletown campus has grown to its present core of 37 acres that houses 14 buildings. The College’s beautiful and picturesque grounds are landscaped with trees and flowers indigenous to the region, while many paths and sidewalks have been added. The mansion, called Morrison Hall in honor of its donors, now houses administrative and faculty offices. A magnificent example of turn-of-the-century craftsmanship, Morrison Hall contains beautiful wood carving, mosaic work, stenciling, ornate marble fireplaces and a large stained glass window designed by Louis Tiffany.

Horton Hall, the former carriage house, now provides instructional space for chemistry and geology.

Expansion over the years has infused the campus with significant additions. The Hudson Hall, Harriman Hall and the Bio-Medical Technology Building contain classrooms, lecture halls, laboratories and faculty offices. The Sarah Wells building houses faculty offices and child care services. Orange Hall features a well-equipped theater as well as rehearsal rooms and performance space. The Library, with its capacity to accommodate 700 patrons, contains over 95,000 print and non-print resources, videotapes, computer software and compact disc collections.

The George F. Shepard Student Center houses a cafeteria and dining room, the College bookstore and nearly every student support function at the College. The Physical Education building contains classrooms and an exercise room. Adjacent to the building are soccer and softball fields and tennis courts.

The College recently opened the Gilman Center for International Education, which features renovations to the space that was once a working laboratory for the College’s education students.

The Middletown campus is located in downtown Middletown with breathtaking views of the Hudson River. Certiﬁed as a branch campus by both the State University of New York and the New York State Education Department, it offers selected academic degree programs entirely in Newburgh, enabling students in those programs to complete all of their degree requirements at the SUNY Orange Middletown campus. The full degree programs available in Newburgh include business management, criminal justice, criminal justice-police, human services, health professions, as well as biology, chemistry, physics, telecommunications, architecture, criminal justice, cyber security and visual communications. In addition to its credit courses and programs, the Newburgh campus provides a variety of non-credit courses, certificate programs and personal enrichment classes, as well as a number of grant-funded programs that enable students to access free or discounted services such as internet connectivity and software programs.

Plans are currently under way for a new Science, Engineering and Technology Center. The College’s beautiful and picturesque grounds are landscaped with trees and flowers indigenous to the region, while many paths and sidewalks have been added. employment and training initiatives and a program in ESL, all under the direction of the College’s Continuing and Professional Education Department (CAPE). The Newburgh campus is also home to the Center for Youth Development funded through the New York State Education Department Liberty Partnership Program, offering academic support services, counseling, workforce preparation, mentoring, cultural enrichment and parental involvement activities to junior high school youths attending the Newburgh Enlarged City School District and Enlarged City School District of Middletown.

SUNY Orange operates a free daily shuttle service between its Newburgh and Middletown campuses.

Satellite Locations
Credit and non-credit courses are also offered at Monroe-Woodbury, Port Jervis and Warwick Valley high schools, enabling individuals to take courses toward a degree, expand their job skills or access personal enrichment classes closer to home or work. Students may choose from courses in psychology, physical education, business, criminal justice, math, and English, to name a few. A selection of non-credit computer, leisure, personal enrichment classes, and photography courses are also offered throughout the semester.

Committed to Student Success
Students enter SUNY Orange with a variety of goals, including: seeking an associate’s degree, transferring to a four-year institution, acquiring skills and knowledge for employment opportunities, and personal enrichment.

The College demonstrates its commitment to students’ success by providing comprehensive services that include individualized assistance in advising, counseling, tutoring and mentoring. Nearly every College service features some form or component aimed at helping students complete a successful stay at SUNY Orange.

In addition, the College continually evaluates and revises its list of academic offerings in order to provide students with the latest curricula, contemporary new degree programs and relevant certificate programs.

First-time, full-time students at SUNY Orange have a one year retention rate of 65 percent. On average, 16 percent of first-time, full-time students graduate within 3 years. Of the Fall 2006, first-time, full-time students, 12.4 percent transferred to a four year college or university with approximately 8 percent of students transferring to a SUNY institution.

Data Source: Retention/graduation/transfert of first-time, full-time cohort entering in Fall 2006, State University of New York (SUNY) and National Student Clearinghouse (NSC)

State University of New York
Orange County Community College is a two-year unit of the State University of New York.

SUNY’s 64 statewide campuses bring educational opportunity within commuting distance of virtually all New York citizens and comprise the nation’s largest, centrally managed system of public higher education.

When founded in 1948, SUNY consisted of 29 state-operated, but unaffiliated, institutions. Since then, SUNY has grown to a point where its impact is felt educationally, culturally and economically throughout the state.

academic programs and workforce training throughout Orange, Ulster, Sullivan and Rockland counties. The four member colleges develop and offer two-year degrees in such areas as cyber security, emergency management, fire protection technology, paramedic services, wind turbine technology, and green building maintenance and management. A wide range of continuing education certification programs are also available. Students participate in Consortium programs from their “home” college via online learning and interactive television video rooms.

**SUNY Orange**

Founded in 1950 as the first county-sponsored community college in the SUNY system, Orange County Community College is fully accredited by the Middle States Association of Colleges and Schools. Admissions Procedures and Requirements

Admission to SUNY Orange is open to all graduates of an accredited and/or registered high school. Accreditation is awarded by one of several regional accrediting agencies, such as Middle States. A high school may also be registered with the state department of education where it is located. Once formally admitted to the College in a degree program, students may choose to pursue their degree on a full-time (12 credits or more per semester) or part-time (less than 12 credits) basis.

In order to receive financial aid, students must be accepted and enrolled into one of the College’s degree programs. Formal admission to the College assures students that their course requirements for completion of degree or certificate programs will not change, even in the event that the College revises its program requirements during the student’s period of study. Upon admission, students will be assigned an academic advisor and gain priority in registering for courses at an early date. In addition, the College will complete a thorough appraisal of transfer credits that may have been earned from another college or university, or through advanced placement or other examinations.

Application Deadlines

Following are application deadlines for all SUNY Orange programs. All dates listed occur during the previous academic semester (or earlier in some instances). Application forms, all related transcripts and documentation must be received prior to the date listed in order for full consideration to be given to a prospective student. For information on application guidelines specific to a particular program, review the Admission Process section immediately following this listing of deadlines.

Fall Semester

Feb 1: Dental Hygiene, Medical Laboratory Technology, Nursing, Occupational Therapy Assistant, Physical Therapist Assistant and Radiologic Technology

May 1: Honors program

June 1: International students

Students in Orange County may also contact their high school guidance counselor for access to a SUNY Orange Viewbook and application. To consider an application, the Admissions Office must also receive an official copy of the student’s high school transcript.

Application Fees

Admission applications from prospective full-time, part-time, first-time and transfer students must be accompanied by a $30 non-refundable check made payable to Orange County Community College. Students applying for readmission must submit a $20 non-refundable fee.

All other degree and certificate programs

Admissions procedures and requirements for specific programs are listed in the Admissions Process section immediately following this listing of deadlines.

Summer Sessions

May 1: Honors Program (for all sessions)

Two weeks prior to the start of each session:

Other degree and certificate programs

Students wishing to enroll for summer classes who also want to be considered for Health Professions programs in the Fall must submit their application for the Fall semester and meet the Feb. 1 deadline listed above.

The Admission Process

The Application

Students may apply for admission on a full-time or part-time basis. First-time and transfer students are welcome. There are several ways to apply for admission. Students may apply online at www.sunyorange.edu (click the “Prospective Students” link), or may request an application and accompanying College Viewbook by phone, through the mail or in person by contacting the Admissions Office at:

Middletown Campus

115 South Street

Middletown, NY 10940

(845) 341-4030

Newburgh Campus

Kaplan Hall Student Services Central

Newburgh, NY 12550

(845) 341-4902

Students applying for readmission must submit a $20 non-refundable fee.

All other degree and certificate programs

Students you may also contact their high school guidance counselor for access to a SUNY Orange Viewbook and application. To consider an application, the Admissions Office must also receive an official copy of the student’s high school transcript.

Application Fees

Admission applications from prospective full-time, part-time, first-time and transfer students must be accompanied by a $30 non-refundable check made payable to Orange County Community College. Students applying for readmission must submit a $20 non-refundable fee.

Admissions Procedures and Requirements

The College Placement Assessment Test

All students who are accepted as degree-seeking students are required to take the College Placement Assessment Test or to obtain an Assessment waiver, prior to registering for courses. This assessment determines college-level skills in reading, writing and mathematics and assists the College in placing students in courses at the appropriate level. There is a $25 fee to take the Assessment.

The College Placement Assessment is computerized, and untimed (except for the essay portion). Students may only take the Assessment once. Students with disabilities may make special arrangements by contacting the College’s Office of Disability Services at 341-4077.

New York State Department of Health

Mandatory Proof of Immunization

New York State Public Health Law requires that all students born on or after Jan. 1, 1957, who wish to enroll for six or more credits in any one semester, provide proof of immunity to measles, mumps and rubella. Acceptable proof of immunity requires two dates of measles immunization, one of rubella and one of mumps, all given after one’s 1st birthday. In addition, all students, regardless of age must sign and return the College’s Meningitis Response Form certifying they have received the information about meningococcal disease and have either received or waived the vaccine.

Students will not be allowed to register for classes until they have submitted their immunization records to the College’s Health Services Office, showing proof of at least one measles immunization.

Immunizations are not provided on campus. They are available free of charge to prospective college students through the Orange County Department of Health. For a copy of the clinic schedule or if you believe that you qualify for an exemption based on medical or religious reasons, or have any further questions about these requirements, please call Health Services at 341-4870.

Health Professions Applicants

Students interested in applying for admission to one of SUNY Orange’s Health Professions programs are subject to a different admission process with earlier deadlines and more stringent entrance requirements.

The particular admission requirements for the College’s Health Professions are listed alongside the respective program’s descriptive text later in this catalog. For additional information on a particular Health Professions program, see the following list:

- Dental Hygiene—page 92
- Medical Laboratory Technology—page 132
- Nursing—page 136
- Occupational Therapy Assistant—page 140
- Physical Therapist Assistant—page 146
- Radiologic Technology—page 146

Application Process for Health Professions

Upon receipt of a student’s application to one of the Health Professions programs, the College will forward an admission packet for your program choice, which includes all of the requirements, paperwork and instructions on how to proceed. For additional information, students may access the College web site at www.sunyorange.edu, or attend an Admissions Group Information Session.

All students accepted into a Health Professions program must successfully complete an annual physical examination which includes a Tuberculosis screening. A drug screen and background check are also required once the student has been accepted. Information about this requirement will be distributed to students upon acceptance.

Physical Examination Requirements

Students must complete the form which is provided by the College’s Meningitis Response Form indicating they have received the information about meningococcal disease and have either received or waived the vaccine.

Students will not be allowed to register for classes until they have submitted their immunization records to the College’s Health Services Office, showing proof of at least one measles immunization.

Immunizations are not provided on campus. They are available free of charge to prospective college students through the Orange County Department of Health. For a copy of the clinic schedule or if you believe that you qualify for an exemption based on medical or religious reasons, or have any further questions about these requirements, please call Health Services at 341-4870.

NOTE: The Health Professions regulations exceed the immunization requirements that you may have
already met for prior attendance at the college. Health professions students must have an annual physical examination, an annual screening for Tuberculosis, a current Tetanus immunization, as well as blood work for serological proof of immunity to Measles, Mumps, Rubella and Varicella, regardless of age and/or prior immunization or disease history. Your health care practitioner is required to sign a statement, that to the best of their knowledge, you are free from any physical or mental impairment which would pose a potential risk to patients, or might interfere with the performance of your duties. Students must also either complete the Hepatitis B vaccine series or sign an annual waiver declining the Hep B vaccine. It is highly recommended that all Health Professions students complete the Hepatitis B vaccine series as a safe and effective way of preventing Hepatitis B infection.

Any questions regarding the specific health requirements for your program should be directed to the Chair of that department. You should contact the College Health Services Office at 845-341-4870 if you have any other questions regarding the completion of your physical.

College Credits for Current High School Students

Academically qualified high school students in their junior or senior year have two options for earning college credits at the College Experience Program (CEP) and the Community College in the High School (CCHS) Program.

College Experience Program (CEP)
The College Experience Program allows students to take credit courses on the SUNY Orange campus in Middletown, at the Newburgh campus or at one of the College’s other satellite locations. Credits earned while participating in the College Experience Program may be applied toward degree at SUNY Orange or may be transferred to another college or university. An admission interview is required for both the applicant and parent/guardian as part of the admission decision. All interviews are done at the Middletown campus Admissions Office.

For an application/brochure see your high school guidance counselor or call the Admissions Office. Accepted College Experience Program students must be registered prior to the first day of classes in the semester for which they have applied and must register in the Admissions Office on the Middletown campus.

Program Guidelines
Part-time participation in the program is open to high school juniors and seniors, while only seniors may take part on a full-time basis. The part-time classification allows students to take eight credits or less (one to two courses) per semester and up to 3-4 credits per summer session. High school seniors wishing to participate on a full-time basis must take at least four courses (12-15 credits) per semester and six credits in a summer session.

To be eligible, a student must meet the following:

- Juniors need a minimum combined course average (cumulative GPA) of 85 in all Regents courses, and a minimum score of 85 on the NYS Regents Exam that corresponds to their SUNY Orange CEP course.
- Seniors need a minimum combined course average of 90 (cumulative GPA) in all Regents courses and a minimum score of 90 on the NYS Regents Exam that corresponds to their SUNY Orange CEP course.
- To be full-time (12 credits or more), or to study English as a part-time student, you must be a senior and have earned an 85 or higher on the NYS English Language Arts Exam (Regents).
- If you are enrolled in the CCHS program and wish to be concurrently enrolled in the CEP, you may take no more than 15 credits total.

Application Process
Following are the steps required to apply for the College Experience Program:

- Fill out, and submit to, the Admissions Office, the College Experience Program Application indicating the courses that you wish to take at SUNY Orange. The application must be signed by a parent/guardian and guidance counselor. Students must reapply each semester. It is NOT necessary for the applicant and parent/guardian to come after the first interview.
- Request from your guidance counselor an official high school transcript and a letter of recommendation indicating your ability to do college work (to be submitted with application).
- If the college courses will be applied toward high school graduation, the letter must include the following for full-time and part-time students: “a New York State high school diploma from High School will be issued to upon successful completion of the following specific courses:” The SUNY Orange courses required for high school graduation are:
  - Course Number
  - Course Title

College Experience Program Application indicating the courses that you wish to take at SUNY Orange. The application must be signed by a parent/guardian and guidance counselor.   - Course Number
  - Course Title
Important Program Information

- Students must follow the same application procedures for every semester they wish to attend (parent interview excluded).
- Applications and interviews for the College Experience Program will be handled in Middletown only.
- If you take six credits or more, you must provide proof of immunity to measles, mumps and rubella to the campus Health Services Center. Any questions, call 341-4870.
- Applicants to the College Experience Program should not take the College Placement Assessment.
- Courses failed in high school, and SUNY Orange developmental and ESL courses, cannot be taken within the scope of this program.
- Students attending SUNY Orange as part of the College Experience Program will be unable to receive financial aid, whether they carry a full or part-time load of credits within the program.
- Students will be assigned an academic advisor in the Admissions Office in Middletown. The advisor assists in course selection and registration and provides other advisement or help as needed.
- Enrollment in specific courses will depend upon availability at time of registration.
- Courses may not be audited as part of this program.
- Students in this program must be accepted and registered prior to the first day of classes for that semester.
- If you are physically and/or learning disabled, please contact the Office of Disability Services at 341-4077.
- College Experience Program participants who intend to continue studying at SUNY Orange after they receive their high school diploma should formally apply for admission to the College (degree-seeking admission) by filing a regular admission application during their senior year.

Community College in the High School Program

The Community College in the High School Program gives qualified high school juniors and seniors the opportunity to take college courses for credit in their own high schools. For more information please refer to page 14 in this Catalog.

24 Credit Hour Program

The 24 Credit Hour Program allows students to earn their high school equivalency diploma based on earned college credits than can be applied toward their college degree. Students who have not earned a high school diploma or an equivalency diploma are eligible for the program. Students in the program must complete 24 college-level credits while maintaining a C (2.0) cumulative average.

Upon successful completion of the program, students may apply to the New York State Department of Education for a high school equivalency diploma.

Once they acquire their high school equivalency diploma, students may apply those 24 credits toward completion of a degree or certificate program at SUNY Orange.

To be eligible for the 24 Credit Hour Program, students must meet the following criteria:
- be a New York State resident at the time of application;
- be 17 years of age or older; and
- be a member of a high school class that has graduated or be officially withdrawn from high school for one year. Students are required to attend a mandatory admissions information session to explain the program and ability to benefit; a requirement students must meet in order to be eligible for financial aid.
- The 24 required credits are broken down into the following areas:
  - Six credits in English language arts, which include writing, speaking and reading (literature)
  - Three credits in mathematics
  - Three credits in natural science
  - Three credits in social science
  - Three credits in humanities
  - Six credits in courses within the degree program under which you’ve enrolled

Applications for this program are available online at www.sunyorange.edu or by contacting the Admissions Office at the Middletown or Newburgh campuses.

Home Schooled Students

If you have been home schooled, the NYS Department of Education has identified ways you can obtain a high school diploma, or the equivalent, so that you have the credentials to apply to college. Home schooled students who wish to gain admission to, and enroll at, SUNY Orange must meet one of the criteria listed below:

Home Schooled Students Criteria and Credentials

- If you have submitted quarterly reports and curriculum plans to the NYS Department of Education, you may have completed the substantial equivalent of a four-year high school course as certified in a letter by the district’s superintendent of schools. This letter would serve as the equivalent of a high school diploma.
- You may have previously earned, and been granted, a degree from a college or university accredited by one of the six regional accrediting agencies.* If so, you have what New York State would consider the equivalent of a high school diploma and would then be able to apply for admission to SUNY Orange.

The 24 Credit Hour Program allows students to earn their high school equivalency diploma based on earned college credits than can be applied toward their college degree. Students who have not earned a high school diploma or an equivalency diploma are eligible for the program. Students in the program must complete 24 college-level credits while maintaining a C (2.0) cumulative average.

Upon successful completion of the program, students may apply to the New York State Department of Education for a high school equivalency diploma.

Once they acquire their high school equivalency diploma, students may apply those 24 credits toward completion of a degree or certificate program at SUNY Orange.

To be eligible for the 24 Credit Hour Program, students must meet the following criteria: be a New York State resident at the time of application; be 17 years of age or older; and be a member of a high school class that has graduated or be officially withdrawn from high school for one year. Students are required to attend a mandatory admissions information session to explain the program and ability to benefit; a requirement students must meet in order to be eligible for financial aid.

Home Schooled Students

If you have been home schooled, the NYS Department of Education has identified ways you can obtain a high school diploma, or the equivalent, so that you have the credentials to apply to college. Home schooled students who wish to gain admission to, and enroll at, SUNY Orange must meet one of the criteria listed below:

Home Schooled Students Criteria and Credentials

- If you have submitted quarterly reports and curriculum plans to the school district in which you reside, you may have completed the substantial equivalent of a four-year high school course as certified in a letter by the district’s superintendent of schools. This letter would serve as the equivalent of a high school diploma.
- You may have previously earned, and been granted, a degree from a college or university accredited by one of the six regional accrediting agencies.* If so, you have what New York State would consider the equivalent of a high school diploma and would then be able to apply for admission to SUNY Orange.
You may have a High School Equivalency Diploma. If you are applying for a student visa (F-1), or if you are a citizen, permanent resident or have a Tourist Visa (B-1, B-2), U.S. immigration law states that you are not permitted to enroll in a full course of study.

You may have a High School Equivalency Diploma. If you are enrolled at SUNY Orange, the College is mandated by law, via the Student and Exchange Visitor Information System (SEVIS), to collect and report information for the U.S. Citizenship and Immigration Services (USCIS).

You may be accepted by the College to complete The 24 Credit Hour Program as a recognized candidate for a college-level degree or certificate.

Admissions Procedures and Requirements

Adults and SUNY Orange

Adult students who are preparing for a new career, seeking an upgrade in employment or looking to enrich themselves, are encouraged to attend SUNY Orange on a full-time or part-time basis. The College offers class schedules during the day, evening and weekend that are accessible on the campuses in Middletown, Newburgh or at one of our other satellite locations.

Adult students who have taken courses elsewhere may transfer those credits back to SUNY Orange if the courses are applicable to that student’s selected degree program.

SUNY Orange has articulation agreements with a number of other colleges and universities, which allow students who have completed coursework here to move on to a four year college. The College also hosts a growing number of online courses and is committed to expanding technology to help foster students’ academic growth and access.

For an appointment to discuss your educational plans, call the Admissions Office or visit the College website at www.sunyorange.edu.

College Level Entrance Examinations (CLEP), Regents College Examinations (RCE) and Advanced Placement Examinations (AP)

There are three examinations that may assist students in receiving college credit for work experience or learning done outside of the college setting.

Students can earn college credit by taking and passing the College Level Examination Program (CLEP) Subject Examinations offered by the College Board. The Regents College Examinations (RCE) can be taken through the New York State Proficiency Examination Program. High school students who have completed advanced placement courses may acquire college credit by taking the College Board’s Advanced Placement Examinations (AP).

To receive credit for any of these examinations, four conditions must be met:

• You must be formally admitted to SUNY Orange
• The credit to be awarded must be applicable to your degree program
• Your scores must be at least equal to the Mean Score for a C (2.0) as recommended by the American Council on Education (ACE) for the CLEP subject area in which you were tested.
• Official test results must be sent directly to the College.

Additional restrictions, or conditions, for each program are as follows:

• In order to receive credit for any composition or literature exam through the CLEP Program, you must also take the optional essay portion of the Subject Examination. The essay must be submitted to SUNY Orange’s Department of English and Foreign Languages for evaluation.
• Credit is awarded for English only if the credit-granting scores recommended by ACE are substantiated by the essay evaluation.
• Similarly, the essay component of the AP English Language and Composition examination must be submitted for evaluation by the Department of English and Foreign Languages before credit may be awarded for scores of 3 or better.

Attending as a Non-degree Seeking Student

Students with a high school diploma or high school equivalency degree may apply to the College for part-time study without applying for formal admission into a program. Students may complete up to 11.5 credits as a non-degree-seeking part-time student before they are required to apply for formal admission to the College. However, students who have not applied for admission to a degree program are unable to apply for financial aid.

Full-time or part-time degree-seeking students who have been formally admitted receive priority in course registration, as well as the assistance of a faculty advisor.

Multiple Degrees

Students may earn more than one degree at SUNY Orange, as long as they meet the following criteria:

• The areas in which the degrees are earned are determined to be separate and distinct by relevant department chairpersons and approved by the College’s vice president for academic affairs.
• A minimum of 15 credits not required by, nor applied to, the first degree are completed at SUNY Orange.

Students can earn multiple Associate in Science degrees, or multiple Associate in Applied Science degrees, or an Associate in Arts degree and an Associate in Science degree. However, only one Associate in Arts degree may be awarded because of its separate and distinct nature from other programs. The Associate in Arts in International Studies may be awarded as a second Associate in Arts degree.

General education courses with a grade of D-minus or better from the first degree apply toward any additional degree. Effective from Fall 1992, grades from courses transferred from the first degree are applied to the additional degree and are included in the average of the additional degree.

• In order to receive credit for any composition or literature exam through the CLEP Program, you must also take the optional essay portion of the Subject Examination. The essay must be submitted to SUNY Orange’s Department of English and Foreign Languages for evaluation.
• Credit is awarded for English only if the credit-granting scores recommended by ACE are substantiated by the essay evaluation.
• Similarly, the essay component of the AP English Language and Composition examination must be submitted for evaluation by the Department of English and Foreign Languages before credit may be awarded for scores of 3 or better.

Attending as a Non-degree Seeking Student

Students with a high school diploma or high school equivalency degree may apply to the College for part-time study without applying for formal admission into a program. Students may complete up to 11.5 credits as a non-degree-seeking part-time student before they are required to apply for formal admission to the College. However, students who have not applied for admission to a degree program are unable to apply for financial aid.

Full-time or part-time degree-seeking students who have been formally admitted receive priority in course registration, as well as the assistance of a faculty advisor.

Multiple Degrees

Students may earn more than one degree at SUNY Orange, as long as they meet the following criteria:

• The areas in which the degrees are earned are determined to be separate and distinct by relevant department chairpersons and approved by the College’s vice president for academic affairs.
• A minimum of 15 credits not required by, nor applied to, the first degree are completed at SUNY Orange.

Students can earn multiple Associate in Science degrees, or multiple Associate in Applied Science degrees, or an Associate in Arts degree and an Associate in Science degree. However, only one Associate in Arts degree may be awarded because of its separate and distinct nature from other programs. The Associate in Arts in International Studies may be awarded as a second Associate in Arts degree.

General education courses with a grade of D-minus or better from the first degree apply toward any additional degree. Effective from Fall 1992, grades from courses transferred from the first degree are applied to the additional degree and are included in the average of the additional degree.

Admissions Procedures and Requirements

Admissions Procedures and Requirements

Adults and SUNY Orange

Adult students who are preparing for a new career, seeking an upgrade in employment or looking to enrich themselves, are encouraged to attend SUNY Orange on a full-time or part-time basis. The College offers class schedules during the day, evening and weekend that are accessible on the campuses in Middletown, Newburgh or at one of our other satellite locations.

Adult students who have taken courses elsewhere may transfer those credits back to SUNY Orange if the courses are applicable to that student’s selected degree program.

SUNY Orange has articulation agreements with a number of other colleges and universities, which allow students who have completed coursework here to move on to a four year college. The College also hosts a growing number of online courses and is committed to expanding technology to help foster students’ academic growth and access.

For an appointment to discuss your educational plans, call the Admissions Office or visit the College website at www.sunyorange.edu.

College Level Entrance Examinations (CLEP), Regents College Examinations (RCE) and Advanced Placement Examinations (AP)

There are three examinations that may assist students in receiving college credit for work experience or learning done outside of the college setting.

Students can earn college credit by taking and passing the College Level Examination Program (CLEP) Subject Examinations offered by the College Board. The Regents College Examinations (RCE) can be taken through the New York State Proficiency Examination Program. High school students who have completed advanced placement courses may acquire college credit by taking the College Board’s Advanced Placement Examinations (AP).

To receive credit for any of these examinations, four conditions must be met:

• You must be formally admitted to SUNY Orange
• The credit to be awarded must be applicable to your degree program
• Your scores must be at least equal to the Mean Score for a C (2.0) as recommended by the American Council on Education (ACE) for the CLEP subject area in which you were tested.
• Official test results must be sent directly to the College.

Additional restrictions, or conditions, for each program are as follows:

• In order to receive credit for any composition or literature exam through the CLEP Program, you must also take the optional essay portion of the Subject Examination. The essay must be submitted to SUNY Orange’s Department of English and Foreign Languages for evaluation.
• Credit is awarded for English only if the credit-granting scores recommended by ACE are substantiated by the essay evaluation.
• Similarly, the essay component of the AP English Language and Composition examination must be submitted for evaluation by the Department of English and Foreign Languages before credit may be awarded for scores of 3 or better.

Attending as a Non-degree Seeking Student

Students with a high school diploma or high school equivalency degree may apply to the College for part-time study without applying for formal admission into a program. Educational Partnerships

the cumulative grade point average. Grades from transfer courses are not calculated in the cumulative grade point average.

Students enrolled in an additional degree program prior to Fall 1992 may petition the vice president for academic affairs for permission to apply grades from the first degree to the current degree.

As many additional associate degrees as desired may be earned. However, students are encouraged to discuss career and transfer options with advisors or counselors before beginning progress toward an additional associate degree.

SUNY Transfer Guarantee

An opportunity to continue full-time study at a four-year State University college is guaranteed to all New York residents who transfer directly from a SUNY or CUNY two-year college with an A.A. or A.S. degree. To be eligible you must:

1. File your application with SUNY by March 1 for Fall admission and by October 1 for Spring admission.
2. Provide four-year campuses with an official two-year college transcript, showing three semesters of completed studies by March 15 for Fall admission, and by October 15 for Spring admission.
3. Complete all required supplemental application materials by April 15 for Fall admission and by November 15 for Spring admission.
4. The transfer guarantee becomes effective if you are denied admission at all of your four-year college choices.

Please refer to www.suny.edu/student for application, important eligibility and deadline requirements.

Student's Right to Know

SUNY Orange complies with federal regulations that require undergraduate completion, or graduation rates, be made available to all credit students. The College is required to make available specific statistical data before students make a financial commitment to the College. You will find this information in your admissions acceptance packet.

Educational Partnerships

To address the educational needs of Orange County’s residents, SUNY Orange collaborates with a diverse group of educational partners. Through its Office of Educational Partnerships, the College extends its educational focus and mission beyond the students on our campus to assist with the varied educational needs of Orange County residents. Our educational outreach efforts include: articulation agreements, Center for Youth Development, Community College in the High School Program, faculty collaborations, and satellite centers. For more information on these College partnerships, please contact the Office of Educational Partnerships.

Center for Youth Development

The Center for Youth Development develops and implements a comprehensive array of pre-collegiate programs that prepare students in grades 7-12 for successful transitions into post-secondary education and entry-level careers. Originating from the Newburgh campus, the Center for Youth Development links academic learning and occupational learning through multiple after-school programs that combine academics with hands-on activities. The Center collaborates with local school districts, community-based organizations, businesses and government agencies.

The Center for Youth Development houses the Liberty Partnerships Program, which is funded through the New York State Education Department, offers academic support services, counseling, workforce development, mentoring, cultural enrichment and parent engagement to students enrolled in middle schools and high schools in Newburgh and Middletown.

Satellite Centers

The Office of Educational Partnerships oversees the College’s three satellite locations. Credit and non-credit courses are also offered at Monroe-Woodbury, Port Jervis and Warwick Valley high schools, enabling individuals to take courses toward a degree, expand their job skills or access personal enrichment classes closer to home or work. Students may choose from courses in psychology, physical education, business, criminal justice, math, and English, to name a few. A selection of non-credit computer, leisure, language, art, and photography courses are also offered throughout the semester.

College Experience Program

The College Experience Program allows students to earn college credits on the SUNY Orange campus in Middletown or in one of the College’s other satellite locations. For additional information, please refer to page 9 of this Catalog.

Educational Partnerships

Community College in the High School Program

The Community College in the High School Program gives qualified high school juniors and seniors the opportunity to take college courses for credit in their own high schools during the regular school day. CCHSP reduces the cost of a college education and shortens the time needed to acquire a degree. For more information, contact your high school guidance counselor or CCHSP at 341-4760.

Articulation Agreements

To assure its students enjoy smooth transition to and from the College, and to establish a foundation for academic achievement by its students, SUNY Orange is continually seeking to refine its current articulation agreements while also pursuing new agreements with reputable colleges and universities across the country.

Articulation with Secondary Schools

To expand community access to higher education opportunities, SUNY Orange has forged articulation agreements with several advanced courses in secondary schools in Orange County. Students from these institutions who successfully complete these articulated courses may receive college credit that is applicable toward degrees and certificates offered by the College.

Articulation with Headstart/ABCD

SUNY Orange's Early Childhood Program has articulation agreements with six Headstart/ABCD agencies. Contact the Office of Educational Partnerships for additional information.

Articulation with BOCES (Board of Cooperative Educational Services) Mid-Hudson Consortium

Students who complete appropriate articulated course work through the BOCES Mid-Hudson Consortium may receive college credit. The areas of study are: accounting, business management, computer information systems, early childhood education, electrical engineering technology, marketing management and sales, medical laboratory technology, nursing, office management, secretarial/word processing and visual communications technology.

Articulation Agreements with Other Colleges and Universities

Graduates of SUNY Orange are covered by the State University of New York (SUNY) System Transfer and Articulation Policy that states: “Graduates of two-year colleges within the State University of New York, when accepted with junior status within parallel programs at SUNY baccalaureate campuses, are to be granted full transfer credit for general education courses already taken and are not to be required to repeat successfully completed courses with similar curricular content.”

Comprehensive transfer and articulation agreements have also been established with other reputable colleges and universities.

In some instances the A.A. and A.S. degree have been determined to fulfill all general education requirements, as well as A.A.S. degrees that will transfer in full.

The following listing summarizes these agreements; the specific details of each agreement must be verified by the student with an advisor or counselor before finalizing any SUNY Orange course selections.

Continuing and Professional Education

The Department of Continuing and Professional Education provides a diverse range of courses, programs and workshops designed to address the professional training and personal development needs of all residents in Orange County. Following is a breakdown of the offerings available through the College’s Continuing and Professional Education Department.

Business Solutions/Professional Development

The Business Solutions/Professional Development Department provides a wide array of courses, seminars, workshops and customized training programs. Programs include: Management, Leadership, Supervisory Skills, Service Excellence, Business Communications, and Computer Training. All programs can be customized to meet the training and development needs of businesses, hospitals, educational institutions and other organizations located in Orange County. The Business Solutions/ Professional Development Department offers information technology training and industry certification programs, as well as web design and developmental courses.
Community Partnerships

Institute for Nonprofit Leadership and Management

The Institute for Nonprofit Leadership and Management offers a series of specialized courses that strengthen the specific needs and necessary skills of folks who are working in, or are planning to work in, the nonprofit sector. Courses address the relevant issues facing these organizations, allowing them to become more proficient and successful in reaching their goals. Topics include: Legal Responsibilities of Boards, Strategic Planning, Public Relations, Grant Writing, Accounting Basics, Marketing Events and Fund Development. The College awards a Certificate in Nonprofit Leadership and Management after students complete any six courses.

Community Enrichment

To serve the varied educational needs of Orange County residents, the College offers a myriad of vocational, recreational and remedial programs for the community. Specialized courses are also offered to fulfill state licensing and professional certification requirements. Additional programs include:

- Youth Program: Enrichment and recreational courses are offered both on- and off-campus.

Workforce Development Education

SUNY Orange conducts training programs that provide individuals with the skills necessary to succeed in the workplace. Courses are offered for people beginning new careers or those who may be entering the workforce for the first time. In addition, courses are available that will enable people to upgrade their skills for their current job or to continue their education.

Driving Programs/Alcohol Substance Abuse Counselor Training

The College cooperates with the New York State Department of Motor Vehicles to offer the NYS Drinking Driver Program, the 5-hour Pre-licensing course for permit-holders, and the 6-hour National Traffic Safety Institute point and insurance reduction/defensive driving course.

SUNY Orange is approved by the NYS Office of Alcoholism and Substance Abuse Services Academy to offer the Certified Alcoholism and Substance Abuse (CASA) counselor education training program for students who wish to pursue careers as alcohol/substance abuse counselors.

English as a Second Language

The College offers an extensive ESL program with classes at the beginner, intermediate and advanced levels. In addition, more specialized classes allow students to practice pronunciation, improve their workplace English or increase their vocabulary. Classes are offered at both the Middletown campus and the Newburgh campus.

Testing Center

SUNY Orange's Testing Center provides testing and exam services to SUNY Orange students and other community members. Our mission is to offer a reliable and secure testing environment in order to give test takers a fair opportunity for academic and professional success. For more information, e-mail us at testcenter@sunyorange.edu, or call the CAPE office at 845-341-4890.

Over Sixty Program

SUNY Orange permits individuals sixty years of age or older to audit credit courses on a space available basis without payment of tuition according to NY State Law Article 126, Section 6303. Full classroom participation is encouraged; no grades are given nor is credit earned. (Non-credit courses, health professions courses and some studio classes are not included in the Over Sixty Program.) Registration for Over Sixty students is held on the first day of the Fall and Spring terms. All students are required to complete an audit registration form and, if they are NY State residents, a Certificate of Residence.

For questions regarding the Over Sixty Program or to receive a credit course bulletin please call the Registration Office at 845-341-4129.

Refund Policies

Students who officially withdraw from a credit course or from the college may be eligible for a refund of tuition in accordance with the following schedule:

**FULL SEMESTER CREDIT CLASSES:**
Prior to the start date of the semester: 100%
During the first week: 75%
During the second week: 50%
During the third week: 25%
After the third week: 0%

**HALF SEMESTER CREDIT CLASSES**
(Eight week term or less):
Prior to the start date of the semester: 100%
During the first week: 25%
During the second week: 0%

The first day that classes are offered as scheduled by the College shall be considered the first day of the semester, and the first week of classes for purposes of this section, shall be deemed to have ended when seven calendar days, including the first day of classes, have elapsed.

**NON-CREDIT CLASSES:**
The following refund policy will apply to all non-credit classes:
Prior to the first day of class: 100% refund of tuition and fees
On the day class begins and thereafter: no refund

**Title IV Federal Refund Policy**
Title IV Federal Financial Aid students who withdraw or stop attending the college during the semester will have their financial aid recalculated according to the Higher Education Amendments of 1998, 34 CFR part 668.22. Some grant recipients may owe repayment to both the institution and the Federal government as the result of this recalculation.

**Refund Policies**
Students who officially withdraw from a credit course or from the college may be eligible for a refund of tuition in accordance with the following schedule:

**FULL SEMESTER CREDIT CLASSES:**
Prior to the start date of the semester: 100%
During the first week: 75%
During the second week: 50%
During the third week: 25%
After the third week: 0%

**HALF SEMESTER CREDIT CLASSES**

The first day that classes are offered as scheduled by the College shall be considered the first day of the semester, and the first week of classes for purposes of this section, shall be deemed to have ended when seven calendar days, including the first day of classes, have elapsed.

**Non-Credit Classes**
The following refund policy will apply to all non-credit classes:
Prior to the first day of class: 100% refund of tuition and fees
On the day class begins and thereafter: no refund

**Red Flag Policy**
**Identity Theft Prevention Program**
Orange County Community College is committed to preventing fraud associated with the misuse of identifying information (identity theft) of students, staff, faculty or others who have relationships with the College to obtain educational or financial services. In compliance with the Federal Trade Commission Red Flags Rule (16 CFR 681.2) under the Fair and Accurate Credit Transaction Act of 2003, the College will employ its Red Flag Identity Theft Prevention Program to identify accounts susceptible to fraud, recognize possible indications of identity theft associated with those accounts, devise methods to detect such activity and respond appropriately when such activity is detected.

In compliance with the Federal Trade Commission's Red Flags Rule (16 CFR 681.2), the College will require all individuals requesting services to provide a SUNY Orange Identification Card, a driver's license or other government issued identification (with photo).

**Title IV Federal Refund Policy**
Title IV Federal Financial Aid students who withdraw or stop attending the college during the semester will have their financial aid recalculated according to the Higher Education Amendments of 1998, 34 CFR part 668.22. Some grant recipients may owe repayment to both the institution and the Federal government as the result of this recalculation.

In compliance with the Federal Trade Commission’s Red Flags Rule (16 CFR 681.2), the College will require all individuals requesting services to provide a SUNY Orange Identification Card, a driver's license or other government issued identification (with photo).
Certificate of Residence

Fall 2011  www.sunyorange.edu  19

Fall 2011  www.sunyorange.edu  19

All students are charged the appropriate rate of tuition and fees depending on the number of credits taken and the student's area of residence. Please follow the instructions listed below. The application for Certificate of Residence can be obtained from the Bursar's Office. It is also included in all registration material and is available on the College website.

In accordance with New York State Education Law, Section 6301 each full-time and part-time student residing in New York State must file a Certificate of Residence. The County of Legal Residence for a New York State resident attending a college community college contributes to the College a portion of the College's cost for providing services to the student. The basis for assessing counties for this money is the Certificate of Residence.

Please follow the instructions below for your home county to inquire about acceptable forms of proof you will need to prove your residency.

NY STATE RESIDENTS WHO HAVE LIVED IN MORE THAN ONE COUNTY DURING THE PAST SIX MONTHS:
Contact each county in which you resided, as a certificate of residence will be required from each of those counties. Proceed as indicated above. Students who fail to meet the full six month residence requirement will be charged the non-resident tuition.

SPECIAL REQUIREMENTS FOR IMMIGRANT AND UNDOCUMENTED ALIENS:
Immigrant Aliens must have held an Alien Identification Card ("green card") for one full year and be able to establish NYS residency to be eligible for resident tuition rates. Foreign students on the following visas do not qualify for the resident tuition rate. The undocumented alien must have graduated from a NYS high school within the past five years. The undocumented alien must provide a notarized affidavit stating that the student has filed or intends to file an application to legalize his or her immigration status.

Since 1998, certain undocumented aliens may be eligible for the resident tuition rate. The undocumented alien must have graduated from a NYS high school within the past five years. The undocumented alien must provide a notarized affidavit stating that the student has filed or intends to file an application to legalize his or her immigration status.

New York State resident students residing in New York State for one year AND resided in your home county for six months prior to the first day of classes. To prove residence for any county in New York State you must:

NY STATE RESIDENTS FROM COUNTIES OTHER THAN ORANGE COUNTY:
A student from a New York County other than Orange is required to submit a Certificate of Residence from their county of legal residence covering 6 months prior to the first day of classes. To secure the proper way to complete the requirement.

Contact the Treasurer's Office or Chief Fiscal Officer of your home county to inquire about acceptable forms of proof you will need to prove your residency.

Once you have obtained a Certificate of Residence, you must submit the original to the SUNY Orange Bursar. This will entitle you to pay the resident tuition rate. Please note per New York State Education Law, NY state counties are only required to issue and honor certificates of residence dated no earlier than 60 days prior to the start of classes and no later than 30 days after. After the first 30 days of classes, most counties will no longer issue certificates of residence and payment for the non-resident tuition charge then becomes the student's responsibility. Late certificates will be processed by our office, but your account will only be reduced if your county accepts our billing.

New York State residents attending a college community college contributes to the College a portion of the College's cost for providing services to the student. The basis for assessing counties for this money is the Certificate of Residence.

Note: A person does not acquire New York State domicile (legal residence) simply by being physically present in New York State for a period of 12 months or for the sole purpose of attending a New York State College or University. If your principal or permanent home has not been New York State for a 12-month period immediately prior to the start date of the semester, you will be considered an out-of-state student for tuition purposes.

Certificates are valid for 12 months from the date of issue. A new Certificate must be submitted each year.

Certificate of Residence

Certificate of Residence
Withdrawal/Stop/Holds/Early Registration

■ Withdrawal from Course
To formally withdraw from a credit or non-credit course, a student must complete a withdrawal form and return it to Records and Registration. As of the day of receipt of this form, the appropriate refund schedule will apply.

Students who receive financial aid from any of the following sources: Federal Programs (Title IV)-Pell Grant, Supplemental Equal Opportunity Grant (SEOG), Perkins Loan, Federal Family Education Loans and State Grants may be responsible for repaying a portion of their aid if they drop or stop attending classes during the refund period. Withdrawal from classes may also affect eligibility for financial aid for the following semester or academic year. Students will be notified by mail if monies are due the College.

■ Stop/Holds
Students who have unmet financial obligations or who have failed to comply with College requirements are not permitted to register, receive grades, or attend class until the stop/hold is cleared with the issuing office. Further, information relating to student records, such as certification of attendance or grades, is also withheld.

■ Early Registration for Students
Enrolled full-time degree-seeking students are encouraged to register early for the next semester. Registration during designated periods (see academic calendar) will aid students in obtaining seats in desired classes.
A variety of financial aid programs are available to SUNY Orange students. Eligibility for these programs depends on the student’s academic progress, family income and assets. Due to the length of processing time, applicants are encouraged to submit necessary paperwork as early as possible for financial aid consideration. Please do not wait to be formally accepted at SUNY Orange before applying for aid.

The SUNY Orange Financial Aid Office is available to assist students in researching and applying for financial aid. Financial aid workshops are offered throughout the year on the campuses in Middletown and Newburgh. Students may also schedule an individual appointment with the Financial Aid Office if they have questions.

The Financial Aid Office is located on the third floor of the George F. Shepard Student Center in Middletown, (845) 341-4190; and on the Newburgh campus in Student Services Central (Kaplan Hall Room 110), (845) 341-8502.

### College Costs at SUNY Orange

The direct costs that all full-time SUNY Orange students must pay each academic year are:

<table>
<thead>
<tr>
<th></th>
<th>Non-Citizen</th>
<th>Citizen</th>
<th>Out of State</th>
</tr>
</thead>
<tbody>
<tr>
<td>Direct Student Cost</td>
<td>$5,836</td>
<td>$5,836</td>
<td>$9,736</td>
</tr>
</tbody>
</table>

Additional indirect educational costs that students should consider:

- Room and Board: 3,000 6,000 6,000
- Transportation: 1,350 1,350 1,350
- Personal: 1,766 2,466 2,466

Total: $11,952 $15,652 $19,552

### Financial Aid

#### General Eligibility Requirements

To be eligible for financial aid at SUNY Orange, a student must:

- be officially admitted
- be a U.S. citizen or permanent resident
- meet the minimum academic criteria specified for each financial aid program (see "Academic Progress" in this section)
- not be in default of any prior student loan or owe monies to the Federal Pell Grant, Federal SEOG or Tuition Assistance Program (TAP)
- be enrolled in an eligible degree or certificate program

For federal financial aid programs, an applicant must meet one of the following conditions in order to be considered an independent for the 2011-2012 academic year:

- You were born before January 1, 1988
- You are married
- You are a graduate student (enrolled in a master’s or grad certificate program)
- You are currently serving on active duty in the U.S. Armed Forces
- You are a veteran of the U.S. Armed Forces
- Both parents are deceased, you were in foster care, or a ward of the court at any time since you turned 13. Provide death certificates or court documentation of status.

Financial Aid

Office learns that a student never attended or stopped attending a particular course (or courses), that student’s financial aid may be affected. When registering for courses, both federal and state law mandate the courses must apply toward the student’s degree program.

**New York State Financial Aid Program**

- All courses must apply to a degree program.
- Student must meet academic standards and have good attendance.
- “New York State Residents” are individuals who have lived in the state for the 12 months just prior to enrollment.
- “Eligible non-citizens” are certified permanent residents or others who may qualify under federal law.
- Changes in student’s class schedules can affect Financial Aid. Students should consult with the Financial Aid Office about any such changes.
- Appeals of NY State financial aid awards must be submitted before the deadline of January 15, 2012.

**NYS Eligibility Requirements for TAP and other state programs**

- To be eligible for TAP, and other NYS grants and scholarships students:
  - Must be US citizens or eligible non-citizens
  - Must be legal residents of NY State
  - Must study at an approved NY State college
  - Must either A) be a graduate of a US high school, or B) have earned a GED, or C) have passed a federally approved “Ability to Benefit” test
  - Must be enrolled as a full-time student, taking 12 or more credits per semester
  - Must be enrolled in a degree program and be in good academic standing
  - Must have at least a cumulative “C” average after receiving two annual payments
  - Must have tuition costs of at least $200 per year
  - Must not be in default on either a student loan guaranteed by HESC or on any repayment of state awards
  - Must have NY State net taxable income of no more than $10,000 if student is a single, independent student
  - Must have NY State net taxable income of no more than $80,000 if student is either A) a student

How to Apply

In order to apply for financial aid, a student must file a Free Application for Federal Student Aid (FAFSA). Students must file the FAFSA electronically by visiting www.fafsa.ed.gov. There is no fee with this application. Early Fall semester applicants with need, who file before April 15, will receive first consideration for campus-based aid programs, which are subject to funding limitations. Late applications are placed on a waiting list throughout the year. A student may receive one source of aid or a combination of federal and state aid. However, the amount of aid received is limited by the student’s educational cost, family contribution and availability. If selected for verification, the student and family must provide documentation of all 2010 state income (signed copies of 1040, 1040-A or 1040EZ, with W-2’s and non-taxable income (social security benefits, social services, child support, etc.).

Transfer Students

SUNY Orange encourages all transfer students to seek a credit evaluation of course work taken at prior institutions in order to determine if they’ve satisfied the necessary academic progress criteria to qualify for financial aid.

Summer Sessions

Please contact the Financial Aid Office for further information and requirements for summer aid or visit our website at www.sunyorange.edu/financialaid.

**Regulations Governing State and Federal Assistance**

Students who receive financial aid must attend all courses for which they are registered during a semester to receive funds. When the Financial Aid Office learns that a student never attended or stopped attending a particular course (or courses), that student’s financial aid may be affected. When registering for courses, both federal and state law mandate the courses must apply toward the student’s degree program.

**New York State Financial Aid Program**

TAP AWARD

Awards for single independent students range between $500 and $3,025 and awards for other students range from $500 to $5,000 per year.

The amount awarded is determined by:

• Academic year in which the first payment of TAP or any state award is received
• The smaller amount of either A) $5,000 or B) the cost of tuition
• Financial status of student, whether student is dependent or independent
• For dependent students: family NY State net taxable income—including any federal, state, or local pension income, if applicable
• For dependent students: whether other family members are enrolled in college

How To Apply

Students should complete the FAFSA on line and then click on the link for HESC to apply for TAP (available at www.hesc.org) before May 1, 2012 for the school year 2011-2012.

TAP GRANT FOR PART-TIME STUDENTS

Eligibility Requirements

To be eligible for Part-Time TAP, a student must:

• Have completed first-time-freshman requirements in 2006-07 or later
• Be enrolled for at least 6 but less than 12 credits per semester
• Have earned 12 credits or more in each of two consecutive semesters, for a total of at least 24 credits
• Maintain at least a “C” average
• Be a US citizen or eligible non-citizen
• Be a legal resident of New York State
• Have either A) graduated from a US high school, or B) earned a GED, or C) passed a federally approved “Ability to Benefit” test
• Be enrolled in a degree-granting program

Before being certified for this TAP payment, a student must:

• Have net costs of at least $200 per year
• Not be in default on either a student loan guaranteed by HESC or on any repayment of state awards
• Have NY State net taxable income of no more than $10,000 if a single, independent student
• Have NY State net taxable income of no more than $80,000 if either: A) a married student, or B) a student who has tax dependents, or C) a dependent student living with a family with no more than that income
• Meet May 1, 2012 deadline for 2011-2012 school year

NOTE: Income limits will be adjusted when other family members are attending college full-time.

Before being certified to receive a specific TAP payment, students must have accrued at least a certain number of credits toward their degree while maintaining a minimum cumulative grade point average (CGPA). The chart below is for students who take 6 developmental credits in their first semester of study only, or received their first TAP grant prior to 2007. For other students receiving TAP grants please visit:

PART TIME TAP AWARDS

ELIGIBILITY REQUIREMENTS
To be eligible for Part-Time TAP, a student must:
• Be a US citizen or eligible non-citizen
• Be a legal resident of New York State
• Have either A) graduated from a US high school, or B) earned a GED, or C) passed a federally approved “Ability to Benefit” test
• Be enrolled in a degree-granting program
• Have tuition costs of at least $200 per year
• Not be in default on either a student loan guaranteed by HESC or on any repayment of state awards
• Have NY State net taxable income of no more than $10,000 if a single, independent student
• Have NY State net taxable income of no more than $80,000 if either A) a married student, or B) a student who has tax dependents, or C) a dependent student living with a family with no more than that income
• Meet May 1, 2012 deadline for 2011-2012 school year

TAP payments for students taking only 6 to 11 credits will be pro-rated, based on adjusting the amount of a full-time award to the number of part-time credits taken. (See TAP Grant for Full-Time Students)

Aid For Part-Time Study (APTS)
Due to funding limitations and the number of qualified applicants, coverage is limited to 6 credits.

ELIGIBILITY REQUIREMENTS
Students must:
• Be NY State residents who can demonstrate the ability to complete college coursework
• Be enrolled for 6 to 11 ½ credits in an eligible degree-bearing program
• After completing at least 3 credits at SUNY Orange, maintain a minimum Cumulative Grade Point Average of 2.0 in order to be eligible to receive APTS the following semester
• If transferring in to SUNY Orange, submit to the Financial Aid Office an Academic Transcript of coursework completed at the prior institution
• If after completing at least 3 credits at SUNY Orange, maintain a minimum Cumulative Grade Point Average of 2.0 in order to be eligible to receive APTS the following semester

OTHER NYS GRANTS AND SCHOLARSHIPS INCLUDE:
• Flight 3407 Memorial Scholarship
• Flight 387 Memorial Scholarship
• Military Service Recognition Scholarship
• NY Lost “Leaders of Tomorrow” Scholarship
• NYS Math and Science Incentive Scholarship
• NYS Memorial Scholarship for families of volunteer firefighters, police officers, peace officers, emergency medical service workers, deceased firefighters
• NYS Scholarships for Academic Excellence
• NYS Volunteer Recruitment Service Scholarship
• NYS World Trade Center Memorial Scholarship
• Robert C. Byrd Honors Scholarship
• NYS Native American Award
• NYS Regents Award for Children of Deceased and Disabled Veterans
• Segal AmeriCorps Education Award
• Veteran’s Tuition Award

Please see the NYS web site at www.hesc.org for complete process and procedure for obtaining these grants and scholarships.

Federal Financial Aid Programs

Federal Pell Grant
The Federal Pell Grant provides grants ranging from $278 to $5,550 a year to all eligible applicants for the 2011-2012 aid year. The Maximum EFC for Pell Grant eligibility is 5273. Students should file a Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov after January 1. Be sure to enter our school code for the FAFSA: 002876. Approximately two weeks after filing, the Financial Aid Office will receive the FAFSA information electronically in the form of an Institutional Student Information Report (ISIR) which will be used to determine eligibility.

Eligibility Requirements
Students must:
• Be NY State residents who can demonstrate the ability to complete college coursework
• Be enrolled for 6 to 11 ½ credits in an eligible degree-bearing program
• After completing at least 3 credits at SUNY Orange, maintain a minimum Cumulative Grade Point Average of 2.0 in order to be eligible to receive APTS the following semester

Federal Pell Grant
**Financial Aid**

** Eligibility Limit and Disbursement**

- Students who receive their first Pell Grant on or after July 1, 2009, may receive Pell Grants for as many as 18 semesters (or the equivalent).

**Special Adjustments for children of deceased service members**

The Higher Education Opportunity Act of 2008 grants an automatic zero EFC for the Pell Grant Program only to Pell Grant eligible students whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan after September 11, 2001.

**Eligibility Exclusions**

Effective July 1, 2009, an individual subject to involuntary civil confinement or civil commitment upon completion of a period of incarceration for a forcible or non-forcible sexual crime is ineligible for a Pell Grant.

**Programs for Dependents of Veterans**

The Higher Education Opportunity Act of 2008 grants an automatic zero EFC for the Pell Grant Program only to Pell Grant eligible students whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan after September 11, 2001. Eligibility guidelines:

- A student must have been twenty-four years of age or less or enrolled at least part-time at an institution at the time of the parent's death.

Legislators do not believe that this should be an additional question on the FAFSA, rather the Secretaries of Defense and Veterans Affairs should provide the Secretary of Education with the information necessary to determine which students meet the requirement. Because the question is not on the FAFSA, students will need to notify the Office of Financial Aid concerning their eligibility for this additional benefit.

The Higher Education Opportunity Act's Technical Corrections Bill was signed into law on July 1, 2009.

**Federal Perkins Loan**

Students who demonstrate exceptional need may be eligible to receive up to $27,500 as an undergraduate ($4,000 maximum per year). However, loans generally range from $500 to $4,000 a year, at 5% interest with approximately 10 years to repay.

**Federal Perkins Loan**

Students who demonstrate exceptional need may be eligible to receive up to $27,500 as an undergraduate ($4,000 maximum per year). However, loans generally range from $500 to $4,000 a year, at 5% interest with approximately 10 years to repay.
Financial Aid

As of 1987/88, new borrowers have nine months after termination of their studies to begin repayment. FAFSA is required.

PERKINS PROMISSORY NOTE

If you accept a Perkins Loan award, you are required to complete a Perkins Promissory Note every year. You may complete this note at the College’s Placement Office or online. You must complete the Perkins Promissory note as early as five days after you accept your Perkins award. You must meet with the Bursar to complete the paper Promissory Note and an Entrance Interview; no earlier than July 1st. Please call 845-341-4911 to make an appointment in Middletown. Appointments are not necessary in Newburgh. You will need to bring copies of your driver’s license and Social Security card for processing.

Your failure to complete the Promissory Note will result in the cancellation of your Perkins loan.

All Campus-Based-Aid programs are subject to the federal government’s allocation to the school. When all the funds are exhausted, awarding and disbursement of this aid program stops.

Federal Supplemental Education Opportunity Grant (FSEOG)

High-need students may be eligible to receive FSEOG grants ranging from $300 to $500 a year. Money for this program is extremely limited. Students who have earned a bachelor’s degree are not eligible. FAFSA is required. All Campus-Based-Aid programs are subject to the federal government’s allocation to the school. When all the funds are exhausted, awarding and disbursement of this aid program stops.

Federal College Work-Study (FCWS)

Eligible students may work part-time while in college to help defray their educational cost. Students are paid an hourly rate and receive a paycheck every two weeks for the hours worked. Students cannot earn more than the amount of their work-study award. Salary is $8.00 per hour (subject to change) for 10 to 15 hours work per week. All students awarded work-study are placed on the job by the college’s Placement Office. The College Work Study Manual provides further information.) FAFSA is required. Work-study funds are allocated each year by the federal government. The Federal Aid Office will award work-study to eligible students until the funds for the year are exhausted.

WILLIAM D. FORD FEDERAL DIRECT LOAN

APPLYING FOR DIRECT LOANS

After you file a FAFSA, the Financial Aid Office draws up your projected budget to determine what your need for funds will be and what kind of aid you qualify for. If you qualify as a ‘student in financial

need’, you will be eligible for additional types of aid. Based on your need, the Financial Aid Office compiles a list of grants and loans for which you qualify.

WHEN THE AWARD PACKAGE IS OFFERED

The Award Package will include Direct Loans as well as other kinds of student aid.

All students are eligible to apply for an Unsubsidized Loan (current interest rate of 6.8%). Interest on these loans will be charged during your college years, and during the six-month grace period after you graduate, withdraw, or drop below six credits; and also during periods of loan deferment. You choose whether to pay interest during college years as it is being charged or to delay payment and simply include it with the rest of the borrowed money to be repaid after leaving school.

Students with financial need are eligible for a Subsidized Loan with a reduced interest rate of 3.4%. Interest on a Subsidized Loan will not be charged until the student graduates, withdraws, or drops below six credits. If necessary, a student getting a Subsidized Loan may supplement their loan with an Unsubsidized Loan.

Another type of loan available is the Consolidation Loan with which a student can combine several student loans (even at different colleges) into one loan, repayable with one monthly payment.

LIMITS ON LOAN AMOUNTS

The following table shows the maximum amount of money you may borrow each academic year in Direct Subsidized and Unsubsidized Loans:

<table>
<thead>
<tr>
<th>Year</th>
<th>Direct Subsidized Loans</th>
<th>Direct Unsubsidized Loans</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st-year</td>
<td>$5,500 but max. $3,500</td>
<td>$9,500 but max. $3,500</td>
</tr>
<tr>
<td>2nd-year</td>
<td>$6,500 but max. $4,500</td>
<td>$10,500 but max. $4,500</td>
</tr>
</tbody>
</table>

1. Except those whose parents are unable to borrow a PLUS loan.
2. These limits apply to dependent students whose parents are unable to borrow a PLUS loan.

Total ‘lifetime’ limits for Direct Subsidized and Unsubsidized Loans are:

- $31,000 for dependent undergraduate students
- $57,500 for independent undergraduate students

DEPENDENT STUDENT UNAIDED

1. Except those whose parents are unable to borrow a PLUS loan.
2. These limits apply to dependent students whose parents are unable to borrow a PLUS loan.

Total ‘lifetime’ limits for Direct Unsubsidized and Subsidized Loans are:

- $31,000 for dependent undergraduate students
- $57,500 for independent undergraduate students

Financial Aid

WILLIAM D. FORD FEDERAL DIRECT LOAN

APPLYING FOR DIRECT LOANS

After you file a FAFSA, the Financial Aid Office draws up your projected budget to determine what your need for funds will be and what kind of aid you qualify for. If you qualify as a ‘student in financial
and dependent undergraduates whose parents are unable to borrow a PLUS loan—no more than $23,000 may be subsidized.

EVALUATING YOUR AWARD PACKAGE
You should evaluate the award package carefully. Remember: loans must be paid back.

- Be sure to check whether or not your living expenses will be as high as the estimated allowance projected by your school; if they aren’t, you may not need to borrow as much money as is shown in the amount of the award package.

- Get an idea of your college expenses, use the Budget Calculator on the government website.

- Get an idea of your monthly loan payments after you graduate, see the Repayment Calculator on the government website.

- You have the right to decline the loan or to request a smaller loan than the amount given in the award letter.

- Remember that loan money must be paid back with interest. You should only borrow as a last resort.

ACCEPTING YOUR STUDENT LOAN
When you are satisfied with the awards package, you will need to:

- Accept the Direct Loans on Banner
- Take a Loan Test (contact Financial Aid).

If you are a first-time borrower of a student loan:

- You must undergo Entrance Counseling online at https://studentloans.gov/myDirectLoan/index.action to clarify your responsibilities regarding the loan.
- You must complete a Master Promissory Note (MPN) at https://studentloans.gov/myDirectLoan/index.action.
- You changed your name and/or address
- You did not enroll at least halftime for the loan period certified by the school
- You did not enroll at the school which certified your loan
- You stopped attending or dropped below halftime enrollment
- You transferred from one school to another
- You changed your enrollment (which can have a negative impact on the amount of your loan and could cause a reduction in disbursements)
- You graduated

At the time you graduate, withdraw, or drop below halftime enrollment, you will begin the six-month grace period for your subsidized and/or unsubsidized loans. Immediately after the grace period ends, you must begin to repay your loan.

EDUCATION EXPENSES DEFINED
Student loans are to be used only for “education expenses” which include tuition, fees, books, supplies and equipment, living expenses, cost of care for a dependent child, transportation, and the cost to rent or buy a computer.

CHANGES IN ENROLLMENT STATUS
You are responsible for keeping the Direct Loan Servicing Center at https://studentloans.gov/myDirectLoan/index.action and the Financial Aid Office up-to-date on any changes in your status, such as:

- You changed your name and/or address
- You did not enroll at least halftime for the loan period certified by the school
- You did not enroll at the school which certified your loan
- You stopped attending or dropped below halftime enrollment
- You transferred from one school to another
- You changed your enrollment (which can have a negative impact on the amount of your loan and could cause a reduction in disbursements)

CHOOSING A REPAYMENT PLAN

You can choose whether to make interest payments while you are in school or to defer these payments by adding them to the rest of the loan to be repaid later. You can determine whether it will cost you more to defer interest payments with the loan calculator at https://studentloans.gov/myDirectLoan/index.action

PAYING INTEREST WHILE IN SCHOOL

You are free to change your plan at any time during the loan process.

CONSOLIDATION OF MULTIPLE STUDENT LOANS

If you have taken out student loans at other colleges, they can all be consolidated, along with your current loan, into one loan with one monthly payment. Consolidation will usually extend the loan-repayment period, but note that such an extension results in additional interest costs. For additional information on loan consolidation, see the consolidation website at http://www.loanconsolidation.ed.gov/.

THE REPAYMENT PERIOD

The length of the repayment period varies with the plans. If you don’t select any particular repayment plan, you will automatically be put in the standard plan with fixed monthly payments for up to 10 years. This plan saves you the most money over time because it doesn’t have interest added during an extended repayment period. Another plan starts with low repayment amounts and slowly increases the amount over time. No matter what plan you are in, you can change your plan at any time. Click on Repaying Your Loans at http://www.loanconsolidation.ed.gov/

MAKING PAYMENTS ELECTRONICALLY

Instead of mailing in a check every month, carefully timed to meet the due date, you can opt for an electronic debit account in which your bank automatically makes your monthly payments directly out of your checking or savings account. Your first repayment bill will explain how to sign up for this option. A big advantage of making automatic repayments is that there will be a reduction in your interest rate of 0.25% during any period in which your payments are made electronically.

DIFFICULTY MAKING PAYMENTS

If you have trouble making your loan payments, contact the Direct Loan Servicing Center. You may be eligible for deferment or forbearance on your account.

‘Deferment’ can postpone loan repayment for a given time period if the student meets the following qualifications: Student is enrolled at least half-time in college, or student has been unemployed and/or is eligible for ‘economic hardship’, or student is in military service. In the case of a Subsidized Loan, interest does not accrue during deferment.

‘Forbearance’ is for those who do not qualify for deferment, yet are temporarily unable to make loan repayments. Arrangements can be made with the Direct Loan Servicing Center to extend the time to make repayments, stop making payments, or temporarily make smaller payments. Deferral and forbearance are two kinds of

FINANCIAL AID

PAYING INTEREST WHILE IN SCHOOL

You can choose whether to make interest payments while you are in school or to defer these payments by adding them to the rest of the loan to be repaid later. You can determine whether it will cost you more to defer interest payments with the loan calculator at https://studentloans.gov/myDirectLoan/index.action

CONSOLIDATION OF MULTIPLE STUDENT LOANS

Even if you have taken out student loans at other colleges, they can all be consolidated, along with your current loan, into one loan with one monthly payment. Consolidation will usually extend the loan-repayment period, but note that such an extension results in additional interest costs. For additional information on loan consolidation, see the consolidation website at http://www.loanconsolidation.ed.gov/.

THE REPAYMENT PERIOD

The length of the repayment period varies with the plans. DIFFICULTY MAKING PAYMENTS

If you have trouble making your loan payments, contact the Direct Loan Servicing Center. You may be eligible for deferment or forbearance on your account.

‘Deferment’ can postpone loan repayment for a given time period if the student meets the following qualifications: Student is enrolled at least half-time in college, or student has been unemployed and/or is eligible for ‘economic hardship’, or student is in military service. In the case of a Subsidized Loan, interest does not accrue during deferment.

‘Forbearance’ is for those who do not qualify for deferment, yet are temporarily unable to make loan repayments. Arrangements can be made with the Direct Loan Servicing Center to extend the time to make repayments, stop making payments, or temporarily make smaller payments. Deferral and forbearance are two kinds of
arrangements you can make with the Direct Loan Service Center. Unless you make such an arrangement, you risk going into ‘default’—which has serious consequences. (Students who are already in default are not eligible for deferment or forbearance.)

To apply for deferment or forbearance go to http://www.loanconsolidation.ed.gov/. Click on Contact Us, then Manage Your Account, then Deferment Request or Forbearance Request.

Your loan becomes ‘delinquent’ when your payment is not received by the due date. The Service Center will send you a reminder if your payment is late, and, if your payment is still not received, warning notices will be sent to you.

NOTE: If you are delinquent, contact the Direct Loan Service Center immediately to learn how to bring your account current. Late fees may be added and your account reported to one or more credit bureaus—but this is better than going into default.

PLUS LOANS FOR PARENTS

The Direct Loan program offers low-interest loans to students and parents and is funded by the US Government, not a bank. PLUS loans for parents are designed to help parent borrowers assist their dependent children with their educational expenses in college, year by year. https://studentloans.gov/myDirectLoan/index.action:

APPLYING FOR A PLUS LOAN

• Parent can apply online:www.parentplusloan.com/apply
• Parents who have never taken out a Direct Loan before need to complete online a Master Promissory Note (MPN, the online version is an eMPN) in which they commit to repay the loan https://StudentLoans.gov.
• Parents who have previously taken out a Direct Loan for the same child do not sign another MPN.
• Parents with more than one child in college will need to complete a separate MPN for each child.
• Additional loans can be taken out on an MPN for up to 10 years.
• Parent will receive a disclosure statement, detailing the loan amount, loan fees, and expected disbursement dates and amounts.
• If the parent does not have a Personal Identification Number (PIN), one can be requested at www.pin.ed.gov (Student’s PIN cannot be used.)

Veterans Benefits

All certificate and degree programs are approved for members of the Selected Reserve and National Guard, G.I. Bill veterans, eligible dependents, and disabled veterans. Veterans should inquire at the Veterans Office in the Advising, Assessing, and Counseling Center, located on the third floor, of the George F. Shepard Student Center.

For information on benefits in the G.I. Bill, go to www.gibill.va.gov.

Aid for Native Americans

The Federal Bureau of Indian Affairs gives educational grants directly to the various Native American tribes. Students should contact their tribal office to see if federal funds are available.

Aid for Native Americans may be also available through the New York State Education Department. The website is www.nysed.gov and, by sending an email to acooke@mail.NYSED.gov, students can get additional information.

Academic Progress Standards – Federal Programs

The federal government has established satisfactory progress standards for the following Title IV federal student aid programs: Pell Grant, Perkins Loan, subsidized Stafford Loan, unsubsidized Stafford Loan, SEOG and college work-study.

Any SUNY Orange student who has failed to accumulate the number of credits listed in the box at the top of this page (second column), based upon the number of credits they have attempted (first column), or has not achieved the minimum CQPA (third column) will not be eligible for future federal financial aid. The satisfactory progress review for federal aid programs for students in associate degree programs occurs at the end of each academic year. Reviews for students enrolled in certificate programs are conducted at the end of each Fall and Spring semester.

Aid for Native Americans may be also available through the New York State Education Department. The website is www.nysed.gov and, by sending an email to acooke@mail.NYSED.gov, students can get additional information.
Financial Aid

Students enrolled in certificate programs are allowed a total of 45 credits attempted.

Students enrolled in all associate degree programs are allowed a total of 99 credits attempted.

Students who do not complete their certificate or associate degree requirements within the maximum time frame stated above lose eligibility for federal aid.

Total credits attempted is defined as all credits attempted at SUNY Orange after the drop/add period, including: developmental credits, withdrawals, repeated coursework, P.E.’s, holds, incompletes, failed courses, medical withdrawals and any transfer credits accepted toward your degree.

Minimum credits accumulated is defined as all credits passed at SUNY Orange and any transfer credits accepted toward a degree.

All students awarded work-study are placed in the job by the College's Office of Career and Internship Services. The pay rate is $8 per hour (subject to change). All students awarded work-study are placed in the job by the College's Office of Career and Internship Services.

Awards Ceremony.

Applicants are encouraged to apply for scholarships online at www.sunyorange.edu/scholarships. A student needs only to file one application for a given category of scholarship (one application will submit the student's name for consideration for all of the entering scholarships). Students awarded scholarships based upon recommendations of faculty departments and/or by the Committee on Scholarship and Financial Assistance will be notified in early May. These students will be recognized at either the College's Spring (for graduating students) or Fall (for entering and returning students) Scholarship and Awards Ceremony.

Scholarships and Awards

Through the efforts of its SUNY Orange Foundation, Orange County Community College offers a variety of scholarships, grants-in-aid, and awards that have been established for entering, returning, and graduating students. See the accompanying grid for a complete listing of scholarships, grants and awards.

Eligibility

Based upon mitigating circumstances, students may be granted two exceptions to the College’s satisfactory academic progress policy. To apply for an exception, students must:

• Complete the Request for Appeal of Satisfactory Progress Form detailing the mitigating circumstances
• Submit documentation (doctor's note, police report, social services report, obituary, etc.) with their request

Students will be notified in writing if an exception has been granted or denied, and waivers cannot be granted to appeal maximum time limits.

We encourage students who are denied an exception or students who choose not to submit an appeal by the review date to enroll without receiving the benefit of financial aid because these students can have their appeal application reviewed again at their request.

Local College Work-Study (LCWS)

College funds are also available for students who do not meet the federal work study eligibility requirements. The pay rate is $8 per hour (subject to change). All students awarded work-study are placed in the job by the College's Office of Career and Internship Services.

Awards Ceremony.

The Records and Registration Office maintains students’ records, oversees the registration process, sets the academic master schedule, distributes grades and administers academic policy.

Students should contact Records and Registration for information ranging from: registrations and schedule changes; transcripts; grades, records, and access; verification of enrollment, attendance, or full- or part-time status for insurance, banks and employers; graduation applications; the course schedule each semester; the final exam schedule each semester; the list of graduates each semester; cancellation of classes with low enrollment; student records; changes of curriculum; registration calendars; attendance records; academic policies and the academic policy manual; and protection of students’ privacy rights and communication with parents and others regarding the Family Educational Rights and Privacy Act (FERPA).

Information regarding many of the Records and Registration regulations and policies can be found by visiting www.sunyorange.edu/academic_services. To call or visit Records and Registration, please see page 5 for location and phone information.

Registration

Registration for credit classes at SUNY Orange is done either in person or online depending upon student eligibility criteria. Students are encouraged to complete the following steps in the credit registration process:

• Complete the admissions application form
• Take the Placement Assessment test in the Advising and Counseling Center (for all new students) or consult an academic advisor (for currently enrolled students)
• Submit the Financial Aid Office if you are seeking financial aid
• Submit immunization records to the Health Services Office
• See your assigned advisor to select courses
• Register for classes at the appropriate time (see current semester course schedule for details)
• Go to the Bursar Office to make payment or a payment arrangement

Cancellation of Classes

Classes may be cancelled due to low enrollment. However, any cancellation will be announced no later than the Friday before a full semester begins or on the day before a half semester begins.

During the semester, individual classes will be canceled for the day or evening when hazardous driving conditions or similar circumstances make such action advisable. Cancellation of day classes does not necessarily mean evening classes are also cancelled.

Cancellation of day classes is usually announced at approximately 6 a.m. while cancellation of evening classes is usually announced at approximately 2 p.m. News regarding delays and cancellations is found on the College’s website, broadcast over local radio stations, and announced on the College’s main telephone number, (845) 344-OCCC.

The College reserves the right to reschedule classes. Generally, evening classes are made up on the Friday evening of the next week.

Academic Year

The academic year is composed of two semesters—Fall and Spring—each of which is a minimum of 15 instructional weeks long. Courses offered in the summer are a minimum of six weeks. Intercession courses, when offered, are usually three or four weeks in duration.

Cancellation of Classes

Classes may be cancelled due to low enrollment. However, any cancellation will be announced no later than the Friday before a full semester begins or on the day before a half semester begins.

During the semester, individual classes will be canceled for the day or evening when hazardous driving conditions or similar circumstances make such action advisable. Cancellation of day classes does not necessarily mean evening classes are also cancelled.

Academic Policies and Procedures

The degree requirements and academic regulations contained in the SUNY Orange Catalog affect all students who begin their study in 2011-2012. All information is accurate as of the time of publication.

For the most current information, please consult the College web page at www.sunyorange.edu. Policies are subject to change.

Current information relative to changes in program or academic policies can be obtained from the Office for Academic Affairs, which is located on the second floor of Morrison Hall. The vice president for academic affairs is authorized to waive the application of any College academic policy in a particular case.

### Academic Policies and Procedures

#### Change of Program

To move from one SUNY Orange degree program to another, a student must complete a change of curriculum form. The department chairperson for the new degree program must approve the change. In order for a change of curriculum to be processed for the current semester, the form must be received by Records and Registration by the end of the third week of the semester. Any change of curriculums received after the third week will be effective for the subsequent term. Forms are available from Records and Registration.

If a student wishes to change advisors, the request should be submitted to the Advising and Counseling Center after the change of curriculum form has been filed.

#### Academic Dishonesty

Academic dishonesty is regarded by the College as an intolerable breach of academic ethics and will be treated as a serious offense. The consequences of academic dishonesty may include academic penalties, disciplinary action or legal action. (Refer also to “Student Rights & Responsibilities” section of this catalog.)

Academic dishonesty, as defined in the Code of Student Conduct, includes, but is not limited to: cheating, including cybercheating; fabrication; facilitating academic dishonesty; plagiarism, including internet plagiarism; forgery; bribery; or multiple submission (submitting the same assignment to more than one instructor without the permission of the instructors).

#### Conduct Expected of Students

The College reserves the right to dismiss any student who exhibits conduct incompatible with the purposes of the College. The SUNY Orange Board of Trustees, administration, faculty and staff have a primary concern for the academic achievement, standards and personal integrity of our students; recognize their obligation to protect college property; and take a special interest in the mental and physical health of the college community.

Committed to preserving the peace, uplifting campus morale and creating a civil climate on its campuses, SUNY Orange has adopted specific policies and procedures regarding student conduct. These policies and procedures, in the form of the Code of Student Conduct, are published in the Student Handbook.

#### The Placement Test

The Placement Test is mandatory and used to determine each student's reading, writing and mathematical abilities. It must be taken after a student applies to the College but before that student may register for any classes.

Its purpose is to insure that each student has the necessary skills in each of these critical areas to begin college-level study. If the student needs more work in any area, he or she will begin at the developmental course level.

#### Developmental Course Placement

For students who have tested into two or more developmental courses in reading, writing or mathematics, the College has adopted the following academic policies and procedures to insure their success:

- Students who are placed on academic probation (less than 2.0 CumPtPA) or are placed in a W, DVH, or DVF in a developmental course will receive a letter stating that the student's records will be reviewed by the Developmental Education Review Board. This review board may then limit the number of credits that the student may take or stipulate specific course(s) that the student must take. Students will have the option of meeting with the Developmental Review Board to discuss their circumstances before decisions are made.

- Students who are placed in a W, DVH, or DVF in a particular developmental course will be allowed to repeat that developmental course only two additional times for a total of three attempts. If students do not successfully complete a particular developmental course by the third attempt, they will be separated from the college for one year. Upon their return to the college, students will be granted one attempt to successfully repeat the course(s). A grade of DVH or DVF would require another year separation. The appeals process will be available to those students who will be separated. The above applies to all students regardless of the number of developmental courses they are required to take.

- Any student who fails to obtain the minimum credits passed that are indicated below will be separated from the college for a period of one year.

<table>
<thead>
<tr>
<th>Total Credits Attempted</th>

Course Policies and Procedures

Field Trips
When students attend either group-sponsored or course-sponsored field trips, they must pay their own expenses.

Audit of Course
Students who wish to audit a course, where they do not earn credit or a grade in that course, must not earn credit or a grade in that course, must complete a special permission card, available at the Records and Registration Office, when they register.

Prerequisites
Course prerequisites are available on-line as part of the catalog in the course descriptions area and also on-line as part of the course section search feature. A student without the appropriate prerequisites may withdraw from the course by the instructor or by the registrar.

Course Outline/Syllabus
Course outlines and/or syllabi are distributed to students and appropriate department chairs at the beginning of each semester. Elements to be included in a course outline/syllabus are: heading; catalog description; relationship to programs; student learning outcomes; chronology of study; grading system; types of tests; attendance policy; instructor withdrawal policy; support services; office location; hours and phone; campus e-mail address; religious observances; and appropriate Americans with Disabilities Act (ADA) information.

Repeating a Course
Repeating a course means taking a course after having received a grade of A, B, C, D, F, W or M in that course. When a student repeats a course, the grade and credits earned in the last attempt are calculated in the academic average, although all grades remain on the student's record. Students who receive financial aid should check with the Financial Aid Office before repeating a course in which a grade of D or better was earned.

Schedule Changes and Withdrawals
Students who place into developmental math courses must complete these courses even though there may not be a specific math requirement in their curriculum.

Students who receive financial aid should check with the Financial Aid Office before repeating a course in which a grade of D or better was earned.
Course Policies and Procedures

During the drop/add period, students must secure the advisor’s signature to enter a section with open seats. After the one week period or its equivalent, the signatures of the department chair, instructor and registrar are required (See specific deadlines for drop/add listed in the current course schedule). Only the student may make changes to his or her schedule, and all requests for changes must be done in writing.

Official Withdrawal from the College

To apply for an Official Withdrawal from the College and all of the current semester’s courses, a student must meet the deadlines published in the appropriate course schedule. The student needs to discuss a withdrawal with his or her academic advisor and begin the formal process with Records and Registration.

Since the student’s financial aid and future academic record may be affected, the student must carefully follow the formal steps. The student must complete the Total Withdrawal from the College Form and the Drop/Add Form with appropriate signatures by the deadlines published in the appropriate course schedule. An exit interview with an Advising and Counseling Center staff member is required for all admitted (degree-seeking) students. Students who receive any form of financial aid are required to obtain a financial aid officer’s signature. Part-time, non-degree-seeking students should complete and file their forms with Records and Registration.

Medical Leave

Students may be granted a medical leave if appropriate medical documentation that contains an anticipated return date is provided to the Registrar.

Withdrawal from a Non-Developmental Course

A student may withdraw from a non-developmental course by following the deadlines posted in the registration calendar (see current course schedule), completing the appropriate forms available from Records and Registration and obtaining the advisor’s signature.

Note: After the drop/add period, the student may ask an instructor for an Instructor Withdrawal, but the instructor is not required to grant it. No record of the course appears on the student’s transcript if the course is dropped by the deadlines published in the appropriate course schedule. Withdrawals are processed by the Records and Registration Office as of the day of receipt. Please keep this in mind since refunds are generated from the processing date.

Withdrawal from a Developmental Course

To withdraw from a developmental course, but not any others that semester, a student must acquire the permission of the appropriate administrator (associate vice-president, registrar, coordinator of Learning Assistance Services), the advisor and the instructor. Absence from class is not a sufficient reason when seeking permission to withdraw from a required developmental course.

However, if a student voluntarily enrolled, but had not placed into the course, he or she may withdraw with the signature of the advisor. Students who are required to enroll in developmental courses must remain in them until they successfully complete them by the deadlines established in academic policy (see Developmental Education Program section in this catalog).

Withdrawal and Financial Aid Awards

Students who receive financial aid should check with Financial Aid as withdrawal from either a single course or from all courses may affect current or future aid.

Course Policies and Procedures

During the drop/add period, students must secure the advisor’s signature to enter a section with open seats. After the one week period or its equivalent, the signatures of the department chair, instructor and registrar are required (See specific deadlines for drop/add listed in the current course schedule). Only the student may make changes to his or her schedule, and all requests for changes must be done in writing.

Official Withdrawal from the College

To apply for an Official Withdrawal from the College and all of the current semester’s courses, a student must meet the deadlines published in the appropriate course schedule. The student needs to discuss a withdrawal with his or her academic advisor and begin the formal process with Records and Registration.

Since the student’s financial aid and future academic record may be affected, the student must carefully follow the formal steps. The student must complete the Total Withdrawal from the College Form and the Drop/Add Form with appropriate signatures by the deadlines published in the appropriate course schedule. An exit interview with an Advising and Counseling Center staff member is required for all admitted (degree-seeking) students. Students who receive any form of financial aid are required to obtain a financial aid officer’s signature. Part-time, non-degree-seeking students should complete and file their forms with Records and Registration.

Medical Withdrawal

A student may withdraw from all semester courses for medical reasons. For the medical withdrawal process, contact Records and Registration.

Since financial aid and future academic records may be affected, it is important that students follow the proper withdrawal procedures.

When a student must withdraw from the College or courses due to personal medical reasons, he or she should obtain written verification from the physician and include it with all other required forms. The physician’s statement should list the dates of the condition and provide a general description of the student’s state of health and its effect on the student’s ability to attend classes. All such information maintained by the college is treated as confidential and privileged.

The student’s request for medical withdrawal and appropriate forms should be submitted to the registrar before the end of the semester in which the illness occurs. Withdrawals approved for medical reasons do not generate an automatic refund of tuition, waiver of the physical education requirement, nor waiver of financial aid requirements. Students should consult with the appropriate offices concerning these items.

Medical Leave

Students may be granted a medical leave if appropriate medical documentation that contains an anticipated return date is provided to the Registrar.

Withdrawal from a Non-Developmental Course

A student may withdraw from a non-developmental course by following the deadlines posted in the registration calendar (see current course schedule), completing the appropriate forms available from Records and Registration and obtaining the advisor’s signature.

Note: After the drop/add period, the student may ask an instructor for an Instructor Withdrawal, but the instructor is not required to grant it. No record of the course appears on the student’s transcript if the course is dropped by the deadlines published in the appropriate course schedule. Withdrawals are processed by the Records and Registration Office as of the day of receipt. Please keep this in mind since refunds are generated from the processing date.

Withdrawal from a Developmental Course

To withdraw from a developmental course, but not any others that semester, a student must acquire the permission of the appropriate administrator (associate vice-president, registrar, coordinator of Learning Assistance Services), the advisor and the instructor. Absence from class is not a sufficient reason when seeking permission to withdraw from a required developmental course.

However, if a student voluntarily enrolled, but had not placed into the course, he or she may withdraw with the signature of the advisor. Students who are required to enroll in developmental courses must remain in them until they successfully complete them by the deadlines established in academic policy (see Developmental Education Program section in this catalog).

Withdrawal and Financial Aid Awards

Students who receive financial aid should check with Financial Aid as withdrawal from either a single course or from all courses may affect current or future aid.
Grades and Grading / Academic Standing

Grades, Quality Points and CumGPA

SUNY Orange uses a four-point grading system, based on letter grades of A, B, C, D and F. Each grade is assigned a numeric value:

- A = 4.00
- A- = 3.67
- B+ = 3.33
- B = 3.00
- B- = 2.67
- C+ = 2.33
- C = 2.00
- C- = 1.67
- D+ = 1.33
- D = 1.00
- D- = 0.67
- F = 0

To determine academic average for a given semester, divide the quality points earned by the number of semester hour credits calculated (SemGPA). The same formula, dividing the total number of quality points by the total number of credits calculated, is used to calculate the cumulative quality point average (CumGPA).

All credit courses taken at the College are calculated into the Cumulative GPA unless the student has been awarded a Fresh Start (see Fresh Start Policy). Transfer credits do not affect the cumulative SUNY Orange GPA. The College accepts only transfer credits, but not the grades.

However, when calculating academic average, the following special grades do not count as credits calculated:

- PP (Pass) indicates satisfactory performance in a physical activity course
- PF (Fail) is received for unsatisfactory performance in a physical activity course
- I (Incomplete) work unfinished due to unavoidable circumstances
- W (Withdrawal) indicates that the student withdrew by the deadline or was withdrawn by the instructor
- M (Medical Withdrawal) withdrawal from the course based upon documented health reasons
- N (Non-credit) indicates a course credit was taken for non-credit
- DVP (Developmental Pass) indicates satisfactory performance in a developmental course
- DVF (Developmental Fail) is received for unsatisfactory performance in a developmental course.

Good Academic Standing

Students who have achieved a CumGPA (cumulative grade point average) of 2.0 or higher at the College are considered to be in Good Academic Standing.

Mid-Semester Progress Reports

Communication between instructors and students regarding the student’s progress in college classes generally takes place before or after class or during office hours. In addition, students whose work is below the level of “C” may receive a Mid-Semester Progress Report. This “unsatisfactory” report does not go on a student’s college transcript, but should be considered official notification that the student should speak with the instructor about his or her progress. Students may also wish to speak with an academic advisor or counselor.

Dean’s List

All students who have completed 12 or more academic credits in a semester and who have earned a SemGPA (semester average) of 3.0 and who are not on academic probation, are placed on the Dean’s List. The prior policy regarding part-time student Dean’s List is not in effect at this time.

Grades and Grading / Academic Standing

Grades, Quality Points and CumGPA

SUNY Orange uses a four-point grading system, based on letter grades of A, B, C, D and F. Each grade is assigned a numeric value:

- A = 4.00
- A- = 3.67
- B+ = 3.33
- B = 3.00
- B- = 2.67
- C+ = 2.33
- C = 2.00
- C- = 1.67
- D+ = 1.33
- D = 1.00
- D- = 0.67
- F = 0

To determine academic average for a given semester, divide the quality points earned by the number of semester hour credits calculated (SemGPA). The same formula, dividing the total number of quality points by the total number of credits calculated, is used to calculate the cumulative quality point average (CumGPA).

All credit courses taken at the College are calculated into the Cumulative GPA unless the student has been awarded a Fresh Start (see Fresh Start Policy). Transfer credits do not affect the cumulative SUNY Orange GPA. The College accepts only transfer credits, but not the grades.

However, when calculating academic average, the following special grades do not count as credits calculated:

- PP (Pass) indicates satisfactory performance in a physical activity course
- PF (Fail) is received for unsatisfactory performance in a physical activity course
- I (Incomplete) work unfinished due to unavoidable circumstances
- W (Withdrawal) indicates that the student withdrew by the deadline or was withdrawn by the instructor
- M (Medical Withdrawal) withdrawal from a course based upon documented health reasons
- N (Non-credit) indicates a course credit was taken for non-credit
- DVP (Developmental Pass) indicates satisfactory performance in a developmental course
- DVF (Developmental Fail) is received for unsatisfactory performance in a developmental course.

Grades and Grading / Academic Standing

- DVP (Developmental Pass) indicates satisfactory performance in a developmental course
- DVF (Developmental Fail) is received for unsatisfactory performance in a developmental course.
Academic Standing / Fresh Start Policy

Degree Audit/Catalog Year

Students in Health Professions majors must follow the catalog requirements of the year in which they were most recently accepted into the program.

Non-Health Professions students who were admitted in Fall 2000 and after should follow the catalog year in which they were first admitted, and must have attended beyond the third term (or more than the maximum number of credits allowed may also request permission from the College Appeals Board).

The decision of the College Appeals Board may be appealed for final disposition to the appropriate associate vice president. Final appeals are due no later than noon on the Thursday before the start of the fall or spring semester. If an appeal is granted, students who receive financial aid should not assume that financial aid eligibility will be reinstated. Students who receive financial aid should contact the Financial Aid Office directly regarding the appeal process for reinstatement of aid.

Fresh Start Policy

This policy is intended to provide a “fresh start” for students with poor grades who want to change to a new program, or, having been away from the College for at least one year, want to resume their original plan of study.

Please note that this application will not be reviewed until at least four weeks into the returning semester. An eligible student will have his or her CumGPA re-computed by excluding final grades earned in courses taken at SUNY Orange that are not explicitly required in the student’s intended degree or certificate program. The student may apply at any time during his or her first semester of enrollment. A Fresh Start will be awarded only once. If the application is denied by the registrar, a written appeal may be made to the vice president for academic affairs.

Academic Prohibition

Students who have achieved a CumGPA of less than 2.0 at the College are placed on academic probation. Students on academic probation may continue study, but may not enroll in more than 14 credits in a Fall or Spring semester or six credits in a summer session.

Academic Separation

Students who have attempted 30 credits or more at the college who have a CumGPA of less than 1.5 and a SemGPA (semester quality point average) of less than 2.0 are separated for a period of one year. However, students who have attained a SemGPA of 2.0 or higher are placed on academic probation.

Those students who are separated may not enroll in any credit course offered in the day, evening weekend or summer of any semester or session offered by the College, at any site, during this period. Grades of W, I, F, M or N are not counted as credits attempted. Pass or fail grades earned in developmental courses are not counted as credits attempted. For those students enrolling at SUNY Orange from the Spring 2008 semester and thereafter, failure to pass (receive a DVP grade) in a developmental course by the end of the third attempt of the course results in academic separation from the College for the period of one year.

Application of the Fresh Start policy means:

• Grades will be omitted from the recalculations of a CumGPA until the CumGPA is 2.0 or the smallest possible number above 2.0. However, the original grade remains on the transcript.
• Courses and grades omitted from the recalculations will be noted on the transcript by the “X” symbol printed beside the recalculated course(s).
• No grades are ever removed from a transcript.

To be eligible for a Fresh Start, a student must meet all of the following criteria:

• Be admitted in a registered degree or certificate program at the College
• Have changed curriculum, or have been out of the College for at least one calendar year

Academic Appeal Procedure

Students who are separated from the College may appeal the decision to the College Appeals Board, an academic review body convened by the vice president for academic affairs. The College Appeals Board meets each year in early January and June. Those students who are placed on academic probation and who desire to enroll in more than the maximum number of credits allowed may also request permission from the College Appeals Board.

Students may choose to follow later catalog versions. The Records and Registration Office will however base the student’s degree audit upon the initial semester in which the student was admitted and attended, unless otherwise notified in writing by the student.

Non-Health Professions students who were in attendance prior to Fall 2000 but who have taken semesters off should follow the catalog year in which they were first readmitted and attended after the Summer 2000 semester. Students may choose to follow later catalog versions. The Records and Registration Office will however base the student’s degree audit upon the initial semester of readmission and attendance after Fall 2000, unless otherwise notified in writing by the student.

The only students eligible to follow a pre-Fall 2000 catalog year are non-Health Professions students who have been in continuous attendance since prior to Fall 2000.

Academic Prohibition

Students who have achieved a CumGPA of less than 2.0 at the College are placed on academic probation. Students on academic probation may continue study, but may not enroll in more than 14 credits in a Fall or Spring semester or six credits in a summer session.

Academic Separation

Students who have attempted 30 credits or more at the college who have a CumGPA of less than 1.5 and a SemGPA (semester quality point average) of less than 2.0 are separated for a period of one year. However, students who have attained a SemGPA of 2.0 or higher are placed on academic probation.

Those students who are separated may not enroll in any credit course offered in the day, evening weekend or summer of any semester or session offered by the College, at any site, during this period. Grades of W, I, F, M or N are not counted as credits attempted. Pass or fail grades earned in developmental courses are not counted as credits attempted. For those students enrolling at SUNY Orange from the Spring 2008 semester and thereafter, failure to pass (receive a DVP grade) in a developmental course by the end of the third attempt of the course results in academic separation from the College for the period of one year.

Application of the Fresh Start policy means:

• Grades will be omitted from the recalculations of a CumGPA until the CumGPA is 2.0 or the smallest possible number above 2.0. However, the original grade remains on the transcript.
• Courses and grades omitted from the recalculations will be noted on the transcript by the “X” symbol printed beside the recalculated course(s).
• No grades are ever removed from a transcript.

To be eligible for a Fresh Start, a student must meet all of the following criteria:

• Be admitted in a registered degree or certificate program at the College
• Have changed curriculum, or have been out of the College for at least one calendar year

Academic Appeal Procedure

Students who are separated from the College may appeal the decision to the College Appeals Board, an academic review body convened by the vice president for academic affairs. The College Appeals Board meets each year in early January and June. Those students who are placed on academic probation and who desire to enroll in more than the maximum number of credits allowed may also request permission from the College Appeals Board.

Students may choose to follow later catalog versions. The Records and Registration Office will however base the student’s degree audit upon the initial semester in which the student was admitted and attended, unless otherwise notified in writing by the student.

Non-Health Professions students who were in attendance prior to Fall 2000 but who have taken semesters off should follow the catalog year in which they were first readmitted and attended after the Summer 2000 semester. Students may choose to follow later catalog versions. The Records and Registration Office will however base the student’s degree audit upon the initial semester of readmission and attendance after Fall 2000, unless otherwise notified in writing by the student.

The only students eligible to follow a pre-Fall 2000 catalog year are non-Health Professions students who have been in continuous attendance since prior to Fall 2000.

Academic Prohibition

Students who have achieved a CumGPA of less than 2.0 at the College are placed on academic probation. Students on academic probation may continue study, but may not enroll in more than 14 credits in a Fall or Spring semester or six credits in a summer session. If an appeal is granted, students who receive financial aid should not assume that financial aid eligibility will be reinstated. Students who receive financial aid should contact the Financial Aid Office directly regarding the appeal process for reinstatement of aid.

Fresh Start Policy

This policy is intended to provide a “fresh start” for students with poor grades who want to change to a new program, or, having been away from the College for at least one year, want to resume their original plan of study.

Please note that this application will not be reviewed until at least four weeks into the returning semester. An eligible student will have his or her CumGPA re-computed by excluding final grades earned in courses taken at SUNY Orange that are not explicitly required in the student’s intended degree or certificate program. The student may apply at any time during his or her first semester of enrollment. A Fresh Start will be awarded only once. If the application is denied by the registrar, a written appeal may be made to the vice president for academic affairs.

Academic Separation

Students who have attempted 30 credits or more at the college who have a CumGPA of less than 1.5 and a SemGPA (semester quality point average) of less than 2.0 are separated for a period of one year. However, students who have attained a SemGPA of 2.0 or higher are placed on academic probation.

Those students who are separated may not enroll in any credit course offered in the day, evening weekend or summer of any semester or session offered by the College, at any site, during this period. Grades of W, I, F, M or N are not counted as credits attempted. Pass or fail grades earned in developmental courses are not counted as credits attempted. For those students enrolling at SUNY Orange from the Spring 2008 semester and thereafter, failure to pass (receive a DVP grade) in a developmental course by the end of the third attempt of the course results in academic separation from the College for the period of one year.
obtained. Final approval is determined by the appropriate associate vice president.

Waiver of Physical Education For Health Reasons
Students seeking a waiver of physical education as a graduation requirement because of a physical limitation must follow this procedure:
- Obtain a Physical Education Waiver Request form from the office of the appropriate associate vice president.
- Give the Physical Education Waiver Request form to their physician. (He or she must read it before sending a letter requesting a physical education waiver.)
- Have your physician write a letter using his or her letterhead and following the instructions on the Physical Education Waiver Request form.
- Return the physician's letter to the office of the appropriate associate vice president.

Note: Even though a physical education activity waiver is granted, students will still be required to take the one credit Concepts of Physical Wellness course, which is a lecture course and not an activity course. This applies to all students, regardless of when they were admitted to the College. Students with long-term disabilities should make application for physical education waivers during their first semester at the College.

Graduation
Graduation Application
Graduation and participation in the commencement ceremony are not automatic. Students must initiate the process themselves. The Graduation Application Form must be filed with Records and Registration and the graduation fee must be paid to the Bursar by the deadline, as outlined in the appropriate course schedule. Before students can be cleared for graduation, they must return all college property loaned to them and pay any monies or outstanding obligations owed to any office of the College.

Those intending to graduate in June must file for graduation with Records and Registration during the February prior to June graduation. Students who complete their graduation requirements at the end of the fall semester, or during the summer sessions, are invited to participate in the commencement ceremony the following June. See the academic calendar for filing deadlines.

Waiver or Substitution of Graduation Requirement
Students who seek a waiver or substitution of a graduation course requirement should first discuss that request with the program department chairperson. Approval from the course department chairperson (if different from the program department chairperson) would also need to be obtained. Final approval is determined by the appropriate associate vice president.

Final Exam Policy / Graduation

- Have a CumGPA lower than 2.0 at the time of the request
- Acknowledge in writing the restrictions of this policy
- Not have had any courses “discounted” under the previous policy

Final Examination Policy
Final examinations are not required in all courses. During the Fall semester, for the mandatory 15th week, and in the Spring semester, during the optional 16th week, a special schedule is developed for all day classes. Final examinations will not necessarily be held on the same day or at the same time, during the Fall/Spring semesters, as the regularly scheduled course. The special schedule for final examinations of day classes is developed and distributed by the registrar at the 10th week of the semester.

Examinations for evening classes during the Fall and Spring semesters are usually held during the last week, on the same day of the week and at the same time as the regularly scheduled course. See the academic calendar for the dates of the final examination period.

Graduation Residence
In order to qualify for an associate degree, at least 30 credit hours must be earned while attending SUNY Orange. Beginning with the Fall 2009 semester, if the student is enrolled in a Newburgh branch campus program, at least half of the credits earned at the College must have been taken at the Newburgh campus. For all other programs, the student must have taken more than half of their credits earned at the Newburgh campus.

Graduation with Honors
In addition to the diploma, graduates who have attained a CumGPA (cumulative average) of 3.20 to 3.59 receive a certificate of Graduation with Honors at commencement. Those students who achieve a CumGPA of 3.60 to 4.0 receive a Certificate of Graduation with High Honors at commencement.

Faculty Honors Award
All graduates who achieve a 4.0 cumulative average, or the graduate who achieves the highest average if there are no 4.0's, receive(s) an engraved Faculty Honors Award.

Waiver of Physical Education For Health Reasons
- Students seeking a waiver of physical education as a graduation requirement because of a physical limitation must follow this procedure:
  - Obtain a Physical Education Waiver Request form from the office of the appropriate associate vice president.
  - Give the Physical Education Waiver Request form to their physician. (He or she must read it before sending a letter requesting a physical education waiver.)
  - Have your physician write a letter using his or her letterhead and following the instructions on the Physical Education Waiver Request form.
  - Return the physician's letter to the office of the appropriate associate vice president.

Waiver or Substitution of Graduation Requirement
Students who seek a waiver or substitution of a graduation course requirement should first discuss that request with the program department chairperson. Approval from the course department chairperson (if different from the program department chairperson) would also need to be obtained. Final approval is determined by the appropriate associate vice president.

Faculty Honors Award
All graduates who achieve a 4.0 cumulative average, or the graduate who achieves the highest average if there are no 4.0's, receive(s) an engraved Faculty Honors Award.

Graduation Residence
In order to qualify for an associate degree, at least 30 credit hours must be earned while attending SUNY Orange. Beginning with the Fall 2009 semester, if the student is enrolled in a Newburgh branch campus program, at least half of the credits earned at the College must have been taken at the Newburgh campus. For all other programs, the student must not have taken more than half of their credits earned at the Newburgh campus.

Graduation with Honors
In addition to the diploma, graduates who have attained a CumGPA (cumulative average) of 3.20 to 3.59 receive a certificate of Graduation with Honors at commencement. Those students who achieve a CumGPA of 3.60 to 4.0 receive a Certificate of Graduation with High Honors at commencement.
Transfer Credits / Student Records

■ Transfer Credits and the Transfer Application Process

Transfer Credit From Other Colleges

In general, no more than 30 semester hours of credit are accepted in transfer to SUNY Orange from another college or university. Only courses in which the student has received a grade of at least “C” or its equivalent will be evaluated for course work completed more than 10 years ago on an individual basis. Only those credits which apply to the student’s area of academic interest will be considered.

Awarding of transfer credit is done in writing. Upon receipt of the written evaluation, the student may schedule an appointment with the Records and Registration Office if he/she has questions or wishes to appeal the evaluation. If after this meeting the student still wishes to appeal, he/she would need to meet with the department chair(s) of the course(s) in question.

Note: If you receive a waiver of your assessment testing based on work completed at other schools, this does NOT guarantee that you will receive transfer credit.

Courses and credits, but not grades, are accepted. A student’s CumGPA at SUNY Orange is calculated based upon course work at SUNY Orange only. Transfer credits from other institutions do not affect the CumGPA.

If a student has a passing grade in a course at SUNY Orange, an equivalent course will not be accepted from another institution. If a course is failed at SUNY Orange, an equivalent transferred course may be accepted, but the failing grade will still appear on the student’s transcript. For information, please check the student’s CumGPA. No grades are ever eliminated from a student transcript.

Active military personnel may receive up to 45 credits and veterans up to 30 credits for courses and military occupational specialties that are directly applicable to an area of military occupational specialties if those courses or credits are directly applicable to an area of academic interest at SUNY Orange. Students who have completed basic training in the U.S. armed forces may receive credit for both PES 100 and the one credit of physical activity required for a Developmental PE requirement. For more information, call the Veteran’s Representative at (845) 341-4071.

Credit by SUNY Orange Examination

Students’ life experiences may qualify them to take examinations and earn college credit in certain course offerings. Students are encouraged to contact appropriate department chairpersons. SUNY Orange may also award transfer credit for certain Excelsior College exams (formerly Regents College), certain AP (Advanced Placement) exams, and certain non-college-sponsored training programs, as evaluated by the American Council on Education.

Transcript Requests

Upon written request and following payment of appropriate fee, students may have transcripts sent to other parties such as colleges, prospective employers or government agencies. Transcripts are mailed within a week of the request, in order of receipt, except for peak periods at the beginning and end of each semester. At those times, volume may require two or three weeks for processing.

Transcripts should be requested well in advance of the required receipt date. Requests must be signed by the student, authorizing release of transcripts, and include the transcript fee of $5 per copy. Please be advised that institutions and agencies requiring transcript copies will not consider them official unless mailed directly from SUNY Orange or hand-delivered in a sealed envelope marked “unofficial if seal is broken.” Only the student (with appropriate photo identification) may pick up his or her transcript, unless he or she has given written permission to a designee, with a verified signature. The designee should also provide photo identification.

Transfer to Four-Year Colleges

If students earn an Associate in Arts or an Associate in Science degree from a two-year institution, State University of New York guarantees a place for them as a full-time student at a senior college campus—but not necessarily the one of their first choice.

The completion deadline is March 1 for Fall semester transfer and Oct. 1 for Spring transfer. All other applications, excluding the guaranteed program, can be sent after this deadline. However, transfer credits will be calculated in the student’s CumGPA. No grades are ever eliminated from a student transcript.

Active military personnel may receive up to 45 credits and veterans up to 30 credits for courses and military occupational specialties that are directly applicable to an area of academic interest at SUNY Orange. Students who have completed basic training in the U.S. armed forces may receive credit for both PES 100 and the one credit of physical activity required for a Developmental PE requirement. For more information, call the Veteran’s Representative at (845) 341-4071.

Students’ life experiences may qualify them to take examinations and earn college credit in certain course offerings. Students are encouraged to contact appropriate department chairpersons. SUNY Orange may also award transfer credit for certain Excelsior College exams (formerly Regents College), certain AP (Advanced Placement) exams, and certain non-college-sponsored training programs, as evaluated by the American Council on Education.

Transcript Requests

Upon written request and following payment of appropriate fee, students may have transcripts sent to other parties such as colleges, prospective employers or government agencies. Transcripts are mailed within a week of the request, in order of receipt, except for peak periods at the beginning and end of each semester. At those times, volume may require two or three weeks for processing.

Transcripts should be requested well in advance of the required receipt date. Requests must be signed by the student, authorizing release of transcripts, and include the transcript fee of $5 per copy. Please be advised that institutions and agencies requiring transcript copies will not consider them official unless mailed directly from SUNY Orange or hand-delivered in a sealed envelope marked “unofficial if seal is broken.” Only the student (with appropriate photo identification) may pick up his or her transcript, unless he or she has given written permission to a designee, with a verified signature. The designee should also provide photo identification.

Transfer to Four-Year Colleges

If students earn an Associate in Arts or an Associate in Science degree from a two-year institution, State University of New York guarantees a place for them as a full-time student at a senior college campus—but not necessarily the one of their first choice.

The completion deadline is March 1 for Fall semester transfer and Oct. 1 for Spring transfer. All other applications, excluding the guaranteed program, can be sent after this deadline. However, transfer credits will be calculated in the student’s CumGPA. No grades are ever eliminated from a student transcript.

Active military personnel may receive up to 45 credits and veterans up to 30 credits for courses and military occupational specialties that are directly applicable to an area of academic interest at SUNY Orange. Students who have completed basic training in the U.S. armed forces may receive credit for both PES 100 and the one credit of physical activity required for a Developmental PE requirement. For more information, call the Veteran’s Representative at (845) 341-4071.

Credit by SUNY Orange Examination

Students’ life experiences may qualify them to take examinations and earn college credit in certain course offerings. Students are encouraged to contact appropriate department chairpersons. SUNY Orange may also award transfer credit for certain Excelsior College exams (formerly Regents College), certain AP (Advanced Placement) exams, and certain non-college-sponsored training programs, as evaluated by the American Council on Education.

Transcript Requests

Upon written request and following payment of appropriate fee, students may have transcripts sent to other parties such as colleges, prospective employers or government agencies. Transcripts are mailed within a week of the request, in order of receipt, except for peak periods at the beginning and end of each semester. At those times, volume may require two or three weeks for processing.

Transcripts should be requested well in advance of the required receipt date. Requests must be signed by the student, authorizing release of transcripts, and include the transcript fee of $5 per copy. Please be advised that institutions and agencies requiring transcript copies will not consider them official unless mailed directly from SUNY Orange or hand-delivered in a sealed envelope marked “unofficial if seal is broken.” Only the student (with appropriate photo identification) may pick up his or her transcript, unless he or she has given written permission to a designee, with a verified signature. The designee should also provide photo identification.
Instructors shall not lower grades for absences for religious observance nor, provided the instructor’s permission is given, for participation in athletic or other college-sponsored events. If illness, accident or similar circumstances make it impossible for a student to attend classes for three or more consecutive days, it is the student’s responsibility to notify the Records and Registration Office immediately.

The Records and Registration Office will then notify each instructor. However, it is the student’s responsibility to contact each instructor to make up missed work. Current or future awards of financial aid may be affected if a student does not attend classes for which he or she is registered.

Certifications of Enrollment/Attendance or Certifications of Full-Time/Part-Time Status

Students who request official certifications from the Records and Registration Office regarding enrollment/attendance or full-time/part-time status must submit signed written requests allowing release of such information in accordance with the Family Education Rights and Privacy Act (FERPA).

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- The right to inspect and review the student’s education records within 45 days of the day the College receives a request. Students should submit to the registrar or vice president for student services written requests that identify the record(s) they wish to inspect. A College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that the FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has

No non-directory information records are released to third persons except as provided in the Act. Further information is available from the Records and Registration Office or in the SUNY Orange Rights and Responsibilities booklet.

Notification of Student Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- The right to inspect and review the student’s education records within 45 days of the day the College receives a request. Students should submit to the registrar or vice president for student services written requests that identify the record(s) they wish to inspect. A College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that the FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has

Students can request that their personal directory information be suppressed by submitting formal written request to the Records and Registration Office. However, please be aware that once directory information is suppressed enrollment verifications for insurance companies, student loans, and prospective employers will not be given this information without the student’s written permission which could have delays that may impact the student.

No non-directory information records are released to third persons except as provided in the Act. Further information is available from the Records and Registration Office or in the SUNY Orange Rights and Responsibilities booklet.

Certifications of Enrollment/Attendance or Certifications of Full-Time/Part-Time Status

Students who request official certifications from the Records and Registration Office regarding enrollment/attendance or full-time/part-time status must submit signed written requests allowing release of such information in accordance with the Family Education Rights and Privacy Act (FERPA).

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- The right to inspect and review the student’s education records within 45 days of the day the College receives a request. Students should submit to the registrar or vice president for student services written requests that identify the record(s) they wish to inspect. A College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. - The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that the FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has
Student Records / Student Rights and Responsibilities

contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees, or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her professional responsibilities. Upon request, the College will disclose education records without consent to officials of another school in which the student is a tax dependent. The copy provided must have either been completed by a third party (accountant, tax preparer, etc.) or be an official full complete copy (not the shortened version) from the Internal Revenue Service. Information on how to complete copy (not the shortened version) from the Internal Revenue Service. Information on how to obtain this version can be found by contacting the IRS Office at (800) 829-1040. When the documentation is submitted, the parent/guardians must also specify the records to be inspected. If the request simply states something equivalent to “all educational records,” the only educational records that will be disclosed are those that appear on the most current academic transcript.

According to FERPA regulations, an institution has up to 45 days after receipt of a valid consent form to arrange for the inspection/disclosure of the specified educational records. Personal inspections of the requested educational records in the majority of cases will be made by the FERPA officer for the institution, and not necessarily with individual faculty members. In the case of a so-ordered subpoena, issued by a judge, consent from the student is not required for disclosure of non-directory information. However, unless the subpoena specifically states that contact with the student is required, the institution will not respond to said subpoena for 72 business hours and in that timeframe will attempt to contact the student to inform them that a subpoena was received, who issued the subpoena, and what records will be disclosed.

Parents’ Rights

Message to Parents: SUNY Orange is guided by the principle that students’ active involvement in their education enhances their learning and development. In keeping with this principle, SUNY Orange considers its primary relationship to be with its students. When the student is a tax dependent of parents/guardians, it is required that the student discuss how they will communicate. Academic progress is reported to students with the expectation that this information will be part of on-going discussions with parents/guardians. If said discussions are not taking place with the student, the Family Educational Rights and Privacy Act has provided ways in which parents/guardians of dependent students may inspect the educational records of the student.

The first is to obtain a signed written consent from the student and submit consent to the registrar in the Records and Registration Office.

If the student is unwilling to provide a signed written consent, the final alternative is for the parents/guardians to provide the registrar with a copy of the preceding year’s tax returns to demonstrate the student is a tax dependent. The copy provided must have either been completed by a third party (accountant, tax preparer, etc.) or be an official full complete copy (not the shortened version) from the Internal Revenue Service. Information on how to obtain this version can be found by contacting the IRS Office at (800) 829-1040. When the documentation is submitted, the parent/guardians must also specify the records to be inspected. If the request simply states something equivalent to “all educational records,” the only educational records that will be disclosed are those that appear on the most current academic transcript.

Counseling Center for assistance. In pursuing the grievance, the student may be accompanied by an advocate once the grievance reaches the vice presidential level.

Academic Grievance: When a student believes that his or her academic rights or freedoms have been violated, that student may attempt to redress that violation as follows:

Time Frame: An informal grievance must be concluded and a formal grievance, if any, must be submitted no later than 30 days after the start of the semester following the semester in which the problem arose. If a grievance arises in the Spring semester or during the Summer session, this means that the student must file a formal grievance, if any, no later than 30 days into the following Fall semester.

Procedure: When a student believes that his or her academic rights or freedoms have been violated, the student may attempt to redress that violation as follows:

Informal Stage
• Meet with the faculty member to discuss the issue
• If the grievance is not resolved in a reasonable amount of time, the student should meet with the department chairperson to discuss the issue
• If the grievance is still not resolved in a reasonable amount of time, the student should meet with the divisional associate vice president to discuss the matter.

Formal Stage
• If the grievance has not been resolved informally, the student may file a formal, written grievance (including documentation if appropriate) with the divisional associate vice president. The associate vice president will inform the faculty member and department chair of the grievance and will have 10 working days to investigate and render a written decision, including a rationale. (Submission of additional documentation, information or claims by the student will cause the 10 working day countdown to begin again.)
• Within 10 working days of receipt of the decision, the student may file a written grievance with the vice president for academic affairs. The student should indicate whether he or she wants the Committee for Student Grievances to hear the complaint first.
• If the grievance is to be heard immediately by the vice president for academic affairs, he/she will have 10 working days to render a written decision including a rationale. (The submission of additional documentation, information or claims by the student will cause the 10 working day countdown to begin again.)
• Final Appeal - The decision of the vice president for academic affairs may be appealed for final disposition to the President of the College within 10 working days. The decision of the President is final.

Time Frame: An informal grievance must be concluded and a formal grievance, if any, must be submitted no later than 30 days after the start of the semester following the semester in which the problem arose. (The submission of additional documentation, information or claims by the student will cause the 10 working day countdown to begin again.)
• Final Appeal - The decision of the vice president for student services may be appealed for final disposition to the President of the College within 10 working days. The decision of the President is final.
Student Rights and Responsibilities

Record Keeping

A permanent file containing appropriate documentation relating to the grievance shall be kept in the office of the vice president for academic affairs for six years.

Non-Academic Grievance: When a student believes that his or her rights or freedoms in a non-academic area have been violated, that student may attempt to redress that violation as follows:

- Approach the staff or administrative person in question
- Approach the appropriate supervisor if the grievance is not resolved within a reasonable amount of time
- Approach the appropriate vice president or request that the Student Grievance Committee be convened. The grievance shall be not resolved within a reasonable amount of time

After going through the proper procedures, the student has the right to be heard by the Student Grievance Committee. The student must go to the Office of Student Services to have the committee convened. At this point in the process, the grievance must be put in writing if this has not been done already.

The ad hoc committee shall consist of:

- Two students appointed by the Student Senate
- One full-time faculty or staff member from the same discipline in which the grievance occurred
- One full-time faculty or staff member from a different discipline
- One representative from the appropriate administrative office

The Student Grievance Committee shall have the responsibility of recommending a decision about the grievance. To this end, written or oral statements may be initiated or solicited from the principals in the grievance, and/or from other observers who can provide pertinent information. In addition, each principal in the grievance may have an advocate at the hearing.

When all information pertinent to the case has been presented to the committee, the committee will convene with the principals in attendance to discuss the case. The Student Grievance Committee will have 10 working days to complete its deliberation. The recommendations of the committee are to be presented in writing to the appropriate vice president within three working days after the completion of the deliberations. A decision and supportive rationale shall be communicated in writing by the vice president to the principals, and to the chairperson of the Student Grievance Committee.

Final Appeal

The decision of the vice president may be appealed for final disposition to the President of the College. The decision of the President is final.

Time Frame

Any grievance a student has can be initiated at any time, but no later than 30 days after the start of the semester following the semester in which the problem arose. If a grievance arises in the Spring semester or during the Summer session, this means that the student must file the formal grievance, if any, to later than 30 days into the following Fall semester.

Confidentiality

Once a person files a grievance, either formally or informally, all matters pertaining to the grievance shall be kept confidential. All documentation and records dealing with the processing of the grievance shall be filed with the Office of Student Services.

Student grievance records, including but not limited to grievance, investigative records, hearing process, decision rendered, student appeal, records of arbitration procedure, final decision and correspondence, will be retained for six years after the grievance is resolved, as dictated by the State Archives and Records Administration. At this time records will be destroyed.

Sexual Assault

In response to Public Law 103-542, Sec. 201 “Crime Awareness and Campus Security Act of 1990,” SUNY Orange provides workshops, prevention information programs and linkage to direct services and resources in the area. The majority of campus assaults, nationwide, fall into the category of date rape or acquaintance rape. Date or acquaintance rape may be defined as an interaction between two individuals in the context of a social event or gathering that ends with one partner forcing the other to participate in sexual activity against his or her will. While forced sex may not necessarily involve deception, direct threats of physical harm or violence can occur between strangers or acquaintances. Lack of consent, however, determines that forced sex is rape.

No person or persons will, by coercion or physical force, engage in sexual acts with any member of the college community. No person or persons will engage in forceful sex with a person who is physically helpless, incapacitated, unconscious or otherwise incapable of communicating unwillingness or giving consent.

Rape is a criminal offense and will be prosecuted under local and state laws. If any person has been a victim of this crime, he or she should report it to the Health Services Office, Advising and Counseling or Campus Security immediately. Assistance with counseling and/or referrals to the Orange County Rape Crisis Program is available.

Final Appeal

A permanent file containing appropriate documentation relating to the grievance shall be kept in the office of the vice president for academic affairs for six years.

Non-Academic Grievance: When a student believes that his or her rights or freedoms in a non-academic area have been violated, that student may attempt to redress that violation as follows:

- Approach the staff or administrative person in question
- Approach the appropriate supervisor if the grievance is not resolved within a reasonable amount of time
- Approach the appropriate vice president or request that the Student Grievance Committee be convened. The grievance shall be not resolved within a reasonable amount of time

After going through the proper procedures, the student has the right to be heard by the Student Grievance Committee. The student must go to the Office of Student Services to have the committee convened. At this point in the process, the grievance must be put in writing if this has not been done already.

The ad hoc committee shall consist of:

- Two students appointed by the Student Senate
- One full-time faculty or staff member from the same discipline in which the grievance occurred

Rape is a criminal offense and will be prosecuted under local and state laws. If any person has been a victim of this crime, he or she should report it to the Health Services Office, Advising and Counseling or Campus Security immediately. Assistance with counseling and/or referrals to the Orange County Rape Crisis Program is available.
Student Services

Student Services is comprised of the following areas: admissions, career and internship services, advising and counseling, financial aid, health services, student activities, records and registration, and student support services. Student Services offices are located on the Middletown campus in the George F. Shepard Student Center and on the College’s Newburgh campus, in Kaplan Hall, Student Services Central (room 110).

For a list of locations and contact information, please see page 5 of this catalog.

Student Services is dedicated to attracting, enrolling and sustaining a diverse student population. Through an array of exemplary programs and services, the dedicated and caring staff at the College is able to provide the assistance, connection, guidance and support students need to successfully achieve their academic and personal goals.

The Advising and Counseling Center

The Advising and Counseling Center assists students in deriving maximum benefit from their college experience and in developing the full range of their educational, personal, and social potential. The Center is staffed by professionals who work from a developmental perspective to help students clarify their academic and career goals, identify obstacles, and explore available resources for achieving those goals. Services are offered at both the Middletown and Newburgh campuses.

Academic Advising

The mission of academic advising at SUNY Orange is to facilitate student learning, development and success by collaborating with students to develop and implement meaningful and attainable educational plans. The College recognizes that academic advising is vital to the educational process and student success, and boasts a thorough advising program that is coordinated by the Advising and Counseling Center in conjunction with the academic departments.

Academic advising is an intentional educational process that guides students in the development, implementation and achievement of educational, career and life plans. Effective advising includes: assisting students to develop meaningful and attainable goals, make informed decisions and effectively use college resources; providing accurate and timely information about SUNY Orange programs, classes, resources, services, policies and procedures, as well as transfer and career opportunities; developing an understanding of the college experience and curriculum; facilitating students’ self-sufficiency; and fostering students’ intellectual and personal development toward academic success and lifelong learning.

Based on a student’s area of study, an academic advisor is assigned to assist students in developing and meeting their academic goals. Advisors work collaboratively with students in an intentional educational process to assist in the development, implementation and achievement of educational, career and life plans.

• Declared Students: Students are assigned an advisor, often a faculty member within their major department, who will help guide them through the requirements and opportunities within their chosen field of study.

• Undeclared Students: An advisor will guide students in developing academic and career goals, and these students may also derive benefit from the major and career exploration resources available in the Office of Career and Internship Services.

• Developmental Students: Individualized attention is provided to students who, based on the assessment test, are taking courses to prepare them for their major course of study.

Personal/Supportive Counseling

The Advising and Counseling Center offers crisis intervention, assessment, support and referrals to students needing assistance adjusting to college life or experiencing mental health difficulties. This includes helping students to assess, identify and manage personal and mental health difficulties within the context of their academic experience, and connecting students to appropriate resources. The Center also offers short-term personal counseling, but does not provide ongoing psychological therapy or treatment.

Students wishing to consult with one of these professionals should contact the Advising and Counseling Center and request an appointment for a “personal matter.”

Information related to counseling services is confidential unless disclosure is necessary during situations when a student or someone else is in imminent danger. When disclosure is required, only information that is essential will be shared and the student will be informed of such disclosure to the best extent possible.

Referrals to community resources are available and will be made when requested or deemed necessary, but follow through is at the discretion of the student.

Advising and Counseling

Students who have a disability and wish to request special accommodations must make arrangements with the Office of Disability Services prior to the test: Middletown: 845-341-4077; Newburgh: 845-341-9034.

For further information, call the Advising and Counseling Center at 845-341-4045.

Advising and Counseling

Consultations are also available for faculty, staff and students who would like advice on how to assist or refer a student who may need mental health assistance or support.

For mental health emergencies call 911 or Orange County Mental Health immediately. 1-888-750-2266

Transfer Advising

The Advising and Counseling Center assists students with the transfer process by helping them understand how to: go about selecting a transfer institution; the transfer process and the SUNY transfer guarantee; and how to find information about the application requirements and process, and appropriate courses for their institution of choice.

Transfer Advising

The Advising and Counseling Center assists students with the transfer process by helping them understand how to: go about selecting a transfer institution; the transfer process and the SUNY transfer guarantee; and how to find information about the application requirements and process, and appropriate courses for their institution of choice.

Veterans Affairs

The College’s Veterans Affairs Certifying Official, located in the Advising and Counseling Center, provides benefit information, enrollment certification and support services to meet the needs of military veteran students and their dependents. Additionally, a designated Academic Advisor works with veteran students to help them develop and pursue academic plans, acclimate to the academic environment, and secure any additional resources necessary to facilitate success. For further information, please call the VA Certifying Official at 845-341-4071.

Workshops/Classes/Programs

Throughout the semester, the Advising and Counseling Center offers workshops classes and programs designed to assist students in developing necessary skills and resources, and to provide information to help achieve their goals. These include workshops on transfer planning and veterans’ opportunities, group advising for specific degree programs, mental health screenings, college success seminars, and more. Additionally, the Advising and Counseling Center’s website provides links to online workshops to help students with college skills such as test-taking, study skills and time-management, all accessible anytime from any computer.

Office of Career & Internship Services

The Office of Career & Internship Services assists students with all phases of the career development process. The Office is staffed by professionals who can guide students through a maze of career information and make valuable resources available for their use. Specific services include:

Career Advising/Counseling

Career Specialists work with students on a 1:1 basis, or through group workshops and career planning courses. We provide assessments which help the students to gain a better understanding of their interests, skills and abilities, values and personality type. We assist students to obtain and research occupational, educational and employment information and help them determine what college major may complement their career exploration results. The staff is available to work with students on resume preparation, interviewing techniques, networking essentials and professional presentations.

Career Information

The Office of Career & Internship Services assists students who have a disability and wish to request special accommodations must make arrangements with the Office of Disability Services prior to the test: Middletown: 845-341-4077; Newburgh: 845-341-9034.

The staff is available to work with students on resume preparation, interviewing techniques, networking essentials and professional presentations.

Placement Test Advising

All new college applicants are required to complete the Placement Test prior to registering unless they have been granted a waiver based on previous college-level course work. The test determines placement to correspond to the student’s skill level. Using these placements, students will begin classes at a level where they are most likely to succeed. Advisors are available to discuss how the results of the assessment test fit into a student’s academic plans. For further information, call the Assessment Center at 845-341-4070 in Middletown or 845-341-9092 in Newburgh.

Students who do not hold a valid H.S. diploma or G.E.D. from an accredited high school must meet minimum requirements to be academically eligible for financial aid.

Students who have a disability and wish to request special accommodations must make arrangements with the Office of Disability Services prior to the test: Middletown: 845-341-4077; Newburgh: 845-341-9034.

students to access resources which help them assess and relate their interests, skills, expectations, education, experience, personal background, and desired lifestyle to the employment market. We have information available on current and projected employment opportunities and can direct students to internet sites which can further help them in the career exploration process.

Employment Services

The Office of Career and Internship Services maintains a on-line job bank for part-time and full-time jobs which is available 24/7 as long as the student has access to the Internet. We help students develop resumes and cover letters and assist them to prepare for job interviews. Our office assists students in connecting with employers through campus interviews, job fairs, networking opportunities, and job-search events.

Kindercollege—Campus-Based Childcare

To help alleviate childcare concerns that may become obstacles for students wishing to continue their education, Kindercollege provides childcare and learning experiences for children of SUNY Orange students. Children of staff and faculty will be accepted as space permits.

Experiential Education

The Office of Disability Services serves as a national voter registration site. The staff in ODS is happy to assist any student in filling out or submitting an application to vote.

For more information, contact the Office of Disability Services at 341-4077 (in Middletown), or 341-9034 (in Newburgh).

Bookstore / Food Service

All accidents should be reported to Health Services so that an incident report can be completed. Please call Health Services at 341 4870 for more information.

Bookstore

The SUNY Orange Bookstore stocks textbooks and supplies for courses as well as gift items, clothing and other items. The Bookstore accepts cash, personal checks, Master-Card, Visa and Discover cards for payment. Gift Certificates are also available.

(845) 341-4815 www.sunyorangebookstore.com

In Middletown:
George F. Shepard Student Center (2nd Floor)

In Newburgh:
Kaplan Hall (Room 108) – FALL 2011
Tower Building (Room 114) – SPRING 2012

Hours of Operation (during the Fall and Spring terms when classes are in session):
Mondays, Tuesdays & Thursdays 8:30 a.m.-4 p.m.
Wednesdays 8:30 a.m.-7:30 p.m.
Fridays 8:30 a.m.-Noon

Specific hours of operation will be posted for each semester that may include some variation of the above. Additional evening hours are offered at the start of each semester.

Textbooks

Textbooks are carefully selected by faculty and are important to your college success. In addition to covering tuition and fees, you’ll typically need to budget $35-40 per credit hour for textbooks. The SUNY Orange Bookstore stocks required and recommended books and materials needed for course work and frequently has money saving used textbooks available for purchase a couple of weeks prior to the start of each semester, textbooks are set up alphabetically by course name and number within the store. Bring your class schedule and/or syllabus to locate the books and materials you’ll need for each course. Students with student financial aid bookstore credit must allow sufficient time for pre-authorization and entry into the computer system. In all cases, proper identification and student “A” number are required.

Refund Policy

Textbooks may be returned or exchanged through the second week of classes for the fall and spring semesters and through the first week of class for the summer semesters. At all other times, sales are final and no further returns or exchanges are allowed. For a refund or exchange to take place, the customer must be within the refund period and provide the original register receipt. Books must be in perfect resalable condition and free from any writing, stains, markings or damage, with original packaging and/or shrink-wrap intact.

Non-text merchandise may be returned within five business days from purchase if the packaging is intact, the item is in resale condition and the original receipt is present. Defective items should be returned immediately and will be replaced within 90 days of purchase.

Newburgh Campus Bookstore Service

This service makes textbooks available in Newburgh at the start of each term for classes that are offered at that location. Hours of operation are posted on line and on site prior to each term.

In Newburgh:
Kaplan Hall (Room 108) – FALL 2011
Tower Building (Room 114) – SPRING 2012

Other Bookstore Services

• Free Textbook Pre-Pack Service: By giving us your schedule prior to the start of the term, you can save time by having us pull your textbooks for you.
• Textbook Options: Inquire about our E-Book, Textbook Rental and guaranteed Buy-Back programs. The SUNY Orange Bookstore continuously looks to offer expanded options that meet student needs and helps reduce textbook expenses.
• Textbook Buy-Back Opportunities: Reduce your textbook expense and “recycle” your books. Find out the dates when you can receive cash for textbooks you no longer need.
• Academically Priced Computer Software: Special savings are often available to students, faculty and staff.
• Special Orders: Interested in a book you can’t find? Talk to us about placing a special order.
• Ring Days: Opportunities to order a school ring are offered throughout the year
• School Spirit: The Bookstore carries a wide range of insignia clothing and gift items.
• Cap and gown regalia is coordinated through the Bookstore each year. Review the current “Graduation Checklist” or visit our website for additional information.

Food Service

The College Cafeteria in the George F. Shepard Student Center serves breakfast and lunch every weekday from 7:30 a.m. to 3 p.m. and features a nutritious state-of-the-art salad bar. Food kiosks are also located in Harriman Hall (ground floor, Room

Co-Curricular Activities

Activities, clubs and organizations sponsored by the Student Activities Committee range from theater, dance and musical presentations to lectures, comedy, novelty/delay shows and various trips to recreational, educational and cultural events. Student Activities is located on the second floor of the Shepard Student Center on the Middletown campus. The second floor is also the site of the Bookstore, Bursar's office and student lounges. A game room and offices for student government are located on the first floor.

Athletics

The College schedules intercollegiate competition for men in tennis, basketball, soccer and golf, and for women in volleyball, tennis, basketball and softball. An intramural program of athletics is available for all students.

Music

The Arts and Communication Department sponsors musical productions throughout the academic year. In addition, the Student Activities Office and the Lyceum Series sponsor a variety of concerts each semester. All students are invited to participate.

Identification Card

Each full-time or part-time credit student receives an identification card upon registering for class. This card must be validated each semester and should be carried at all times. The identification card also serves as a campus library card and a student activity pass, which enables the student to gain free admission or a special student rate to various activities. Report a lost or stolen card to the Student Activities Office immediately. A $15 fee will be assessed for each replacement card.

Parking Tags

Parking tags are required for all daytime students and are available in Middletown at the Student Activities Office in the George F. Shepard Student Center, or in Student Services Central in Kaplan Hall. A valid college identification card is required to obtain a parking tag. College security personnel will issue tickets for parking violations, and all tickets can be paid at the Bursar's office in the Shepard Student Center in Middletown, or in Newburgh at Student Services Central in Kaplan Hall.

Phi Theta Kappa

Since its founding in 1918, Phi Theta Kappa has sought to recognize and encourage scholarship among associate degree students at two-year institutions of higher education. To achieve this purpose, the honor fraternity has developed opportunities for leadership and service, as well as provided a stimulating climate for continued academic excellence.

A local chapter of Phi Theta Kappa, the national honor fraternity, was established at SUNY Orange in 1988. Students who have attained a cumulative grade point average (CumGPA) of at least 3.49 after completion of a least 15 credit hours are eligible for membership.

Religious Activities

Local clergy of all faiths extend a welcome for SUNY Orange students to attend their services and church activities.

Cultural Affairs

Throughout the academic year, Cultural Affairs at SUNY Orange presents programming that is diverse and inclusive of local, regional, national and international events.

The phone number for Student Activities is (845) 341-4015 in Middletown and (845) 341-9544 in Newburgh. The phone number for Student Activities is (845) 341-4015 in Middletown and (845) 341-9544 in Newburgh.
Student Activities / College Photography Policy/ College E-Mail Policy

meant to broaden the educational and academic opportunities of the College community, as well as provide enriching experiences to the community-at-large.

Each semester, Cultural Affairs presents a schedule of events covering a wide range of social, cultural, educational, ethnic and artistic themes. Events include lectures, theatre, children’s theatre; film, music; dance; poetry readings; master classes and workshops; and art or other timely exhibits.

For more information or an updated schedule of events, visit Cultural Affairs on the SUNY Orange website at www.sunyorange.edu/culturalaffairs or call (845) 341-4891 for events in Middletown, or (845) 341-9386 for Newburgh campus events.

College Photography Policy

In order to document various College activities, as well as to promote the academic, cultural and student activities on campus, students agree to allow College photographers and their designees to capture their images in both still pictures, as well as motion video.

College Email Policy

Effective Aug. 30, 2010, SUNY Orange will use e-mail as the official means of communicating academic and administrative information to students. Most announcements will come to a student’s e-mail in-box in the form of the “Student Grapevine” (sample at right).

Assignment of E-mail Address

SUNY Orange assigns an e-mail address (@sunyorange.edu) to each registered student. This College-issued e-mail account will be designated as the student’s official e-mail address when administrative and academic departments need to communicate with students.

College Responsibility

The College is responsible for communicating with students in a timely and accurate way about changes in policies, procedures and deadlines that affect them. The College will select the most appropriate method (mail, telephone, e-mail) to convey pertinent information to specific groups of students. In some cases, e-mail may be used exclusively. Routine announcements, administrative and academic dates and deadlines, and information of a general nature will typically only be sent by e-mail.

Student Responsibility

Students are responsible for receiving, reading, responding to and complying with official e-mail communications sent by the College. Because information may be time-sensitive, students are encouraged to check their e-mail regularly (daily, several times weekly) throughout the semester.

Students who opt to redirect their @sunyorange.edu e-mail account to another personal e-mail account do so at their own risk. The College is not responsible for e-mail that is not delivered to a forwarded address or for spam filters that may block e-mail messages. The student’s failure to receive or read e-mail communications does not constitute an excuse for missing College communications or College deadlines.

College Responsibility

The College is responsible for communicating with students in a timely and accurate way about changes in policies, procedures and deadlines that affect them. The College will select the most appropriate method (mail, telephone, e-mail) to convey pertinent information to specific groups of students. In some cases, e-mail may be used exclusively. Routine announcements, administrative and academic dates and deadlines, and information of a general nature will typically only be sent by e-mail.

Student Responsibility

Students are responsible for receiving, reading, responding to and complying with official e-mail communications sent by the College. Because information may be time-sensitive, students are encouraged to check their e-mail regularly (daily, several times weekly) throughout the semester.

Students who opt to redirect their @sunyorange.edu e-mail account to another personal e-mail account do so at their own risk. The College is not responsible for e-mail that is not delivered to a forwarded address or for spam filters that may block e-mail messages. The student’s failure to receive or read e-mail communications does not constitute an excuse for missing College communications or College deadlines.
Learning Assistance Services

SUNY Orange is committed to providing every student the opportunity to develop the learning skills necessary to achieve their academic, career and life goals. The College’s Learning Assistance Services are provided through a combination of academic development programming that includes individualized and group learning assistance, tutoring, specialized workshops and outreach.

Students participating in Learning Assistance Services will:
- improve knowledge of subject matter
- develop effective study skills
- increase awareness and use of college services
- complete required developmental education courses in a timely manner
- achieve academic goals

When to contact Learning Assistance Services

Students should contact the Learning Assistance Services Office to ask questions about the College’s academic support services, apply to be tutored, apply to be a tutor or to learn more about developmental education.

Developmental Education

All newly admitted students are required to take the Placement Assessment test in reading, writing and mathematics. Performance on this computerized assessment determines the student’s proficiency in these areas and allows SUNY Orange to place students in classes that correspond with the student’s demonstrated skill level. A student may be required to take developmental courses based on their placement results. In some instances, developmental courses are prerequisites to college-level courses. In all cases, students must complete their required developmental courses.

SUNY Orange offers a variety of developmental courses for students who need to strengthen their basic skills. Students must follow specific academic policies related to these courses.

The reading, writing and math assessment tests may be re-taken, only prior to attendance in classes, with the approval of the appropriate department chairperson, (i.e., chairperson of the English Department for reading and writing, chairperson of the Mathematics Department for math) or director of Advising and Counseling.

The following developmental courses are offered at the College:

### Developmental Writing:
- WRT 020 English as a Second Language (ESL) Writing
- WRT 030 Basic Writing Skills 1
- WRT 040 Basic Writing Skills 2
- ENG 101 and ENG 091 Freshman English 1 with Support Module

### Developmental Reading:
- RDG 060 and RDG 061 ESL Reading with Support Module
- RDG 070 Reading and Study Skills 1
- RDG 080 Reading and Study Skills 2

### Developmental Math:
- MAT 010 Developmental Arithmetic
- MAT 020 Developmental Algebra

Students placed in developmental writing and/or reading courses must be enrolled in these courses during every semester of attendance until they receive a grade of “DVP” in these courses. This passing grade must be received in these courses prior to having attempted a total of 16 non-developmental credits from the time of assessment.

Students enrolled in developmental courses may receive financial aid if they meet income eligibility requirements and have gone through the College’s regular admission process. Financial aid will pay for required course work towards a student’s degree or certificate. Developmental courses are considered required course work towards a student’s degree or certificate.

Students must complete their required developmental courses in a timely manner.

Units earned from developmental courses are institutional in nature; they are not applicable to the 60 or more semester hours of credit required for an Associate in Arts, Associate in Science, Associate in Applied Science or any of the certificate programs.

### When to contact Learning Assistance Services

Students should contact the Learning Assistance Services Office to ask questions about the College’s academic support services, apply to be tutored, apply to be a tutor or to learn more about developmental education.

Learning Resources

Library

Library Services are provided on both the Middletown and Newburgh campuses. Designed to be welcoming places, each Library contains a mixture of comfortable seating, designated quiet areas, and a variety of study spaces that include carrels for individual study and tables for group work. The Information Commons spaces are busy, centrally located areas, where students can access a range of academic and technology resources carefully selected to support their learning and research. Within the Commons, the Libraries provide traditional research tools, databases and reference materials, Microsoft Office software, and both wired and wireless internet access. The electronic databases provide full-text and full-image journals, magazines and newspapers. Help Desks located adjacent to the Commons are staffed by librarians and support staff to assist students with their research needs.

Workshops and Instruction sessions designed to help students acquire and improve library research skills are held in the Commons classrooms. A schedule of workshops is available online and within the Library.

The student’s college identification card serves as a library card and is required to borrow books, videos, and reserve readings; to utilize the computers in the Information Commons; and to access the databases from off-campus.

The Library web site (http://sunyorange.edu/lrc) contains detailed descriptions of library services, hours, and policies, and includes instructional guides that are designed to assist students with their research needs. For questions or reference assistance, students may call Middletown 341-4855 or Newburgh 341-9020.

Math Resource Labs

The Mathematics Department has two Math Resource Labs that are open to any student enrolled in a mathematics course. It is completely free to students. Just drop in and someone will be happy to help you with your questions. The Mathematics Lab hours are posted each semester. Math Resource Rooms are located in Middletown (Harriman Hall, Room 305) and Newburgh (Kaplan Hall, Room 229).

Education Curriculum Resource Area

The Education Curriculum Resource Area is located on the second floor of the Library. It houses books and periodicals for use by students, including textbooks, fiction and non-fiction titles and Caldecott and Newbery Medal winners.

Learning Resources

Biology and Health Science Learning Facilities

The BATCAVERN facilities are a learning resource for Students in the Biological Sciences and the Health Professions Programs. It is a place for students to meet for individual and small group study as well as for formal tutoring, which can be arranged at the Tutorial Center located on the second floor of the Library in Middletown or in Kaplan Hall, Room 230 on the Newburgh campus. The BATCAVERN facilities offer students access to a full range of anatomical models and related instructional aids including CD-ROMs, Vedeotapes, and review materials. Students can also access the internet and use computers offering the Microsoft Office programs Word, Excel, and PowerPoint to assist with preparing lab reports, research papers and presentations.

Education Curriculum Resource Area

The Education Curriculum Resource Area is located on the second floor of the Library. It houses books and periodicals for use by students, including textbooks, fiction and non-fiction titles and Caldecott and Newbery Medal winners.

English Language Writing Centers

The English Department Writing Centers serve all students who need to work on writing skills. Students may sign up for writing practice or be referred by their instructors. Some workshops also require mandatory weekly hours in the Writing Center. The center operates on the philosophy that students learn to write by writing. Skills instruction is done in the context of the student’s own work, generated in the center. Using instructor-created materials, students work individually with English Department instructors and tutors. Computers accommodate various learning styles. Day and evening Writing Center hours are posted each semester. Writing Centers are located in Middletown (Harriman Hall Room 109) and Newburgh (Kaplan Hall, Room 225).

SUNY Orange’s Writing Consultancy Project’s goal is to help students master their occupational and professional writing and to promote writing across all academic disciplines. Sponsored by the English Department, the project provides writing consultants to specific academic and career programs. The consultant works with the instructor and the students in applying and transferring key writing skills learned in Freshman English 1 to their program-specific and professional writing situations. These consultants teach the students through program-specific technical writing modules, special workshops and individualized conferences. Students are provided a computer-equipped classroom/lab facility (Technical Writing Lab, Bio-Tech Room 260) where much of the individualized instruction takes place. This lab is the site for required course-related work and for drop-in use by students in Writing Consultancy-related courses.

Participating programs and departments whose students earn academic credit by taking ENG 160 and ENG 161 Technical Writing Modules are:

- Telecommunications
- Human Services
- Occupational Therapy Assistant
- Laboratory Technology

In addition, the Writing Consultancy offers special instructional services to other programs such as nursing, with its new nursing and writing courses, dental hygiene, criminal justice, and anatomy and physiology. The Writing Consultancy also conducts special writing workshops for any instructor and class requesting them.

A nationally recognized, award-winning interdisciplinary program, the Writing Consultancy Project was selected as an Outstanding College Occupational Education Program in New York State. It is also featured in the Jossey-Bass publication, “Writing Across the Curriculum in Two Year College Vocational/Career Programs: New Directions for Community Colleges.”

For incoming students whose primary language is not English and who demonstrate the need to improve their English, the College offers: Course WRT 020, English as a Second Language.

Through the formal placement process, students may be required to take WRT 020 before attempting later college-level study, but students may also take the course as an elective. Working closely with the English Department, students are immersed in reading, writing, speaking and listening activities.

Associate Degrees
Orange County Community College operates under the supervision of the State University of New York and is authorized by the Board of Regents of the University of the State of New York to award three degrees—the Associate in Arts (A.A.), the Associate in Science (A.S.), and the Associate in Applied Science (A.A.S.).

The Associate in Arts and the Associate in Science degrees are designed for students who intend to transfer to four-year colleges or universities. The Associate in Applied Science degree is awarded in professional/technical fields and is designed to prepare the graduate for the demands of the world of work.

One-Year Certificate Programs
Orange County Community College also offers a number of one-year certificate programs. They are designed to develop job-entry skills at the collegiate level.

General Degree Requirements
The following academic standards apply to all first degrees:

- 6 credits of Freshman English
- 2 credits of Physical Education (including PES 100 Concepts of Physical Wellness) in addition to 60 credit hours
- Achievement of at least an overall “C” average (CQPA of 2.0)
- 30 of the total number of required credits must be taken at SUNY Orange
- For all A.A.S. degree programs, students are also required to achieve at least an overall “C” average (CQPA of 2.0) in their professional/technical major

Each of the degrees must meet the minimum requirements as set forth by New York State Education Law. These include at least 60 credit hours of study of which 45 credits must be in the liberal arts for the A.A. degree, 30 credits for the A.S. degree and 20 credits for the A.A.S.

As of the Spring 2011 semester, students enrolled in the Business Management, Criminal Justice, Criminal Justice–Police, Human Services, Liberal Arts: Humanities and Social Science, Liberal Arts: Individual Studies and Nursing degree programs on the Newburgh campus can complete all of their degree requirements at that campus. Students enrolled in the College’s remaining degree programs may take courses in Newburgh but must also complete a portion of their degree requirements at the Middletown campus.

Students may complete no more than 30 of their credits online as the College does not offer complete degree programs online.

The degree earned depends upon the educational and career goals of the individual. Each of the degrees offered at SUNY Orange is listed by degree title on the pages that follow with a description of the purpose, goals and specific course requirements.

**Program Description**

The Associate in Science degree program in Accounting prepares graduates to continue their education in accounting or finance at a four-year college or university. Students learn the accounting cycle including preparation of financial statements in accordance with GAAP Special projects teach analytical skills through finding, extracting and evaluating financial information to make sound decisions. Students use Excel extensively to solve a variety of accounting problems. The Financial Accounting Research System (FARS) database is introduced so that students can learn to research complex accounting issues, thus preparing them for both the CPA exam and professional practice as an accountant. Students may also complete an internship course which gives them the opportunity to build their resume and earn college credits.

Students entering the workforce after completing a baccalaureate degree in accounting benefit from a strong demand for accountants. Employment opportunities include positions in public accounting firms, private and public companies, government and not-for-profit agencies. Most will achieve the professional Certified Public Accountant (CPA) designation and many pursue graduate degrees.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Developmental courses should be completed before students attempt the courses in this program. Since College Algebra and Trigonometry are required sequences, students placing into lower levels are required to complete these prior to attempting College Algebra and Trigonometry.

Students entering the A.S. program should have successfully completed three or more years of college preparatory math and have an overall high school average of 75 or above.

Accounting
Degree Awarded: Associate in Science

Student Learning Outcomes
Students will:
• demonstrate knowledge of the accounting cycle, including preparation of financial statements in accordance with Generally Accepted Accounting Principles (GAAP).
• demonstrate analytical skills through finding, extracting and evaluating financial information to make sound business decisions.
• create and edit Excel spreadsheets to solve various accounting problems.
• research answers to accounting problems using a research database (FARS).
• explain the purpose and responsibilities of the professional accountant in the business community.
• express business information effectively in both oral and written form.
• learn critical thinking skills through an analytical business report project.

Career Opportunities
• CPA (certified public accountant)
• CMA (certified management accountant)
• financial analyst
• financial planner

Transfer Opportunities
SUNY Orange has special relationships with upper-level colleges and universities for transfer.
These transfer institutions include:
• Franklin University
• Marist College
• Mercy College
• Mount St. Mary College
• Pace University
• Ramapo College
• SUNY Albany
• SUNY Cortland
• SUNY Empire State College

---

**Program Description**

The Associate in Applied Science degree program in Accounting prepares graduates to begin their careers assisting accountants as full-charge bookkeepers, junior accountants, accounting clerks or office managers in the private, public or government sectors.

Students take a sequence of accounting coursework including Accounting Principles 1 and 2, Income Tax Procedures, Accounting with Microcomputer Applications and Accounting Practice. With computer software, students learn to use correct accounting procedures through the accounting cycle. Special Excel spreadsheet and QuickBooks projects are provided to enhance the understanding of real-world applications.

The accounting assistant provides bookkeeping capabilities to a variety of employers through such responsibilities as accounts receivable/payable, payroll, balance sheets, and income statements, billing, and bank statement reconciliation.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission to the College’s 24 Credit Hour Program.

Developmental classes should be completed before attempting the courses in this program.

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

---

## Program Description

The Associate in Applied Science degree program in Architectural Technology prepares graduates to enter the workforce as architectural team members. While other opportunities exist, the largest job opportunities are positions as intern CAD operators for architectural firms. Graduates’ skills will prepare them to produce working drawings in a variety of settings, such as engineering firms or manufacturers. If graduates have field experience in a building trade, all program outcomes are directly transferable to entry-level positions in construction management and supervision. A broad cross-section of course content is covered in the program; this familiarizes students with many aspects of the architectural profession, the work of building professionals and the construction process.

When working under the supervision of a licensed professional (i.e., Registered Architect, Professional Engineer, etc.), a graduate’s primary responsibilities would include measuring and documenting existing conditions of buildings and sites, preparing construction documents, interpreting construction documents, preparing design presentations for clients or other audiences, and coordinating architectural drawings with consultants’ drawings.

Fluency with computer-aided drawing (AutoCAD) and computer literacy, as it applies to generating architectural drawings, are fundamental skills graduates will possess. Meanwhile, freehand sketching is stressed wherever possible as a valuable communication method. Beyond preparing construction drawings, students will build models, prepare reports and orally present their work to groups.

Most courses in the program are a combination of lecture and lab. In the lecture component, foundational material is presented, often accompanied by samples, examples or other visual cues. In the lab component, students will either work on short-term exercises designed to hone very specific knowledge bases or skills or they will work on long-term projects designed to simulate the types of projects that they will eventually encounter in the workforce. Students should be prepared to spend a significant amount of time on projects outside the classroom.

Many students who enter this degree program plan to transfer to an upper division institution. Because these opportunities exist, second year students who intend to transfer should select their courses in careful consultation with their academic advisor. Portfolio production will be required.

For those students wishing to become Registered Architects, New York State Department of Education guidelines must be followed. To become a Registered Architect, one must earn an NAAB-accredited Bachelor of Architecture or Master of Architecture degree, fulfill NCARB internship requirements (a proscribed three year apprenticeship), and pass a challenging and comprehensive licensing examination.
Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Maintenance of a C average or better in courses in the major is also required.

Student Learning Outcomes

Students will:
- demonstrate an understanding of building materials and methods.
- graphically communicate architectural forms and building assemblies, both two and three dimensionally.
- demonstrate fluency using AutoCAD software to produce architectural drawings.
- demonstrate an ability to visualize and manipulate three dimensional spaces.
- demonstrate an appreciation for basic forms of architectural problem solving and aesthetic appreciation.
- demonstrate an understanding of the need for architectural projects to coordinate with related professions (e.g. various forms of engineering).
- demonstrate an understanding of fundamental structural principles.
- demonstrate an understanding of basic life safety issues in buildings and an ability to apply regulatory requirements to building projects.
- utilize research from electronic and other sources (e.g. Sweet’s catalog or manufacturers’ literature) in architectural projects.
- identify basic methods of sustainable building practices and environmental impacts of architectural choices.
- demonstrate an understanding of the historical and social context of the development of western architecture.

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:
- Alfred State College
- New York Institute of Technology
- New Jersey Institute of Technology
- Pratt Institute
- SUNY Environmental Science and Forestry

Architectural Technology

Degree Awarded: Associate in Applied Science

For those students wishing to pursue baccalaureate degrees in Landscape Architecture and Construction Management, an A.S. degree from SUNY Orange with electives from the Architectural Technology degree program may be most suitable. Course selection should be made carefully in consultation with academic advisors.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

**Business Administration**

**Degree Awarded:** Associate in Science

Accredited by the Accreditation Council for Business Schools and Programs (ACBSP)

7007 College Boulevard, Suite 420, Overland Park, KS 66211

---

**Recommended Course Sequence**

**Program Description**

The Associate in Science degree program in Business Administration has been designed for those students who plan to transfer and continue their business education at a four-year college. This degree is designed to parallel the bachelor’s degree requirements at most four-year colleges in the region. After transfer, graduates may major in areas such as management, marketing, finance, or human resource management. Students enrolled in this degree program acquire an understanding of the relationship between the liberal arts/social sciences and the management of business enterprises. The required mathematics, science and economics courses provide a solid grounding for making proper business decisions.

Because degree requirements vary at transferring institutions, majors are urged to see their business faculty advisors and contact the Admissions Office of the transfer institution. Business Department faculty are well-trained and experienced in their areas of expertise and highly motivated to work with students, helping them to succeed in their quest for transfer to a four-year college.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Students are required to complete most developmental classes before attempting the courses in this program. See the Developmental Course List on page 47. Students entering this A.S. program should have successfully completed three or more years of College Preparatory Math and have an overall high school average of 75 or above.

Business Administration

Student Learning Outcomes
Students will:
• understand the general nature, structure, resources and operations of business organizations.
• demonstrate the ability to explain an organization's basic accounting, finance, management, marketing and legal functions.
• express business ideas and information effectively in both oral and written forms.

Career Opportunities
• management trainee
• business owner/entrepreneur
• finance management
• insurance planning and sales
• human resource manager

Transfer Opportunities
SUNY Orange has special relationships with upper-level colleges and universities for transfer. These transfer institutions include:
• Alfred University
• Berkley College
• Clarkson College
• Columbia University
• Fordham University
• Franklin University
• Manhattan College
• Marist College
• Marymount College
• Mount St. Mary College
• Pace University, Lubin School of Business
• Ramapo College
• St. Thomas Aquinas College
• SUNY Albany
• SUNY Empire State College
• SUNY New Paltz
• SUNY Oneonta

Please note: Because degree requirements vary at transferring institutions, majors are urged to see their business faculty advisors and contact the Admissions Office of the transfer institution.

Program Description

The Associate in Applied Science degree program in Business Management prepares graduates to begin their careers as management trainees, first line supervisors, and higher level management positions in either profit or non-profit organizations. Students develop interpersonal and conceptual skills such as motivation, communication, performance appraisal, decision making and problem solving. Various business tools including accounting, computer information systems and law, as well as liberal arts courses, are integrated into the program.

The primary focus of the curriculum is on entrepreneurship for those interested in operating their own business or applying this managerial approach in a medium to large organization in the public or private sector. The program’s concentration of business courses provides a strong background for employment. The Business Internship is a popular feature of this degree. Students work for regional companies for academic credit and real-world experience.

Business Department faculty are well-trained and experienced in their areas of expertise, and highly motivated to work with students, helping them to succeed in their quest for a job. Many students complete this degree and transfer to four-year colleges to earn a bachelor’s degree; however, students who have this objective are advised that they may suffer transfer credit losses due to the concentration of business courses.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be required to complete most of the developmental classes before attempting the courses in this program. Please see the Developmental Course List on page 47.

Program Description
The Business Studies certificate program is a joint venture between SUNY Orange and SUNY New Palz. It offers course work that enables students with non-business undergraduate degrees to enter SUNY New Palz's Master of Science in Business program.

The objective of this partnership is to provide the citizens/students of the Mid-Hudson Valley Region a quality, cost-effective, geographically convenient education for those non-business students desiring entrance into a graduate business program.

Students take courses in economics, accounting, marketing, management, computer science, and calculus.

Admission Criteria
Students must have completed a non-business baccalaureate degree.

Program Description

The Clerical Office Assistant certificate program provides the opportunity for graduates to either begin their careers as office assistants or to update their current office skills for re-entry into the business world. Areas of concentration include information processing, data entry, business communications and information management.

The office assistant provides office support to employers in a wide variety of settings. This support includes document production, computer software capability, records management, telephone interaction, customer service, keyboarding and data entry.

Students take a sequence of office skills courses such as keyboarding, Microsoft Word and PowerPoint, Excel and Access, and transcription. They also learn to compose business documents through the Business Communications course and to manage office documents through the Records/Information Management course.

Students learn to use modern office equipment and computer software as they apply to various work environments. Microsoft Office (Word, Excel, PowerPoint, and Access) as well as WordPerfect software programs are presented.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Clerical Office Assistant
Degree Awarded: Certificate

Student Learning Outcomes
Students will:
• demonstrate the ability to keyboard business correspondence using various computer software programs in word/information processing.
• demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.
• understand computer concepts and applications for the office environment.
• learn critical thinking skills through an analytical business report project.

Career Opportunities
• service
• education
• travel
• entertainment
• manufacturing
• legal & medical
• insurance
• industrial
• media/advertising

Transfer Opportunities
While this certificate program leads to immediate job placement upon graduation, SUNY Orange has a special relationship with Franklin University for transfer to the B.S. degree in Applied Management. In addition, all courses taken for this certificate may be applied to the A.A.S. Office Technologies degree program at SUNY Orange.

#### Program Description

The Associate in Applied Science degree program in CIT–Networking prepares students for employment in a variety of entry-level careers in computer networking and information technology occupations. The theory and practical experience students gain allows them to enter jobs with highly competitive salaries.

This degree program offers the coursework that provides background information for students to take the CompTIA's A+, Security+, Networking+, Linux+ and Cisco's CNA certification exams. The primary focus of this degree program is networking computer systems including implementation, configuration, maintenance and administration of networking equipment, which includes creation of networking servers. The degree course work introduces students to basic computer systems and builds on theoretical and technical knowledge and skills to develop a strong understanding of networking topologies, mediums and medium access techniques in both local area and wide area networks (LANs and WANs). Classes are designed to provide students with hands-on training utilizing state-of-the-art computer facilities. Students are also placed in a work environment in order to provide actual service to a business through the CIT–Networking internship.

Students are encouraged to discuss their future career and/or transfer goals with a CIT–Networking advisor.

#### Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 15 for more details on the admission process for all applicants.)

Students are also placed in a work environment in order to provide actual service to a business through the CIT–Networking internship.

Students are encouraged to discuss their future career and/or transfer goals with a CIT–Networking advisor.

#### Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 15 for more details on the admission process for all applicants.)
Student Learning Outcomes

Students will:
• install and configure networking equipment.
• implement and configure network protocols.
• troubleshoot PC hardware problems.
• assemble a PC.
• identify and summarize security threats and appropriate actions to minimize those threats.
• install, configure and manage a networking operating system.
• analyze an existing system and determine appropriate systems design implementation strategies.

Career Opportunities

• banks
• law firms
• medical offices
• hospitals
• small businesses
• government agencies
• corporations
• schools
• colleges
• consulting firms

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:
• Marist College
• Mount St. Mary College
• St. John’s University
• SUNY Institute of Technology

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.) Students should place into ENG 101 and MAT 121.

NOTE: This program is being terminated. Please contact the department Chair, Fern Steane at 341-4523 with any questions or concerns
Computer Information Technology–Web Development

Degree Awarded: Associate in Applied Science

Student Learning Outcomes

Students will:
• summarize how web servers, browsers, XHTML, and scripting languages contribute to the Internet resource known as the Web.
• analyze an existing system and determine appropriate systems design implementation strategies.
• create and implement a Web site development cycle.
• create a Web page that utilizes XHTML, JavaScript, Flash, Dynamic HTML.
• identify and summarize security issues and then program a secure application for the Internet.
• identify and discuss general quality assurance principles.
• create client sided Web page programs.
• create server-sided Web page programs.

Career Opportunities

• web development company
• small businesses
• corporations
• advertising agencies
• medical offices
• government agencies
• schools
• colleges
• consulting firms

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:
• Marist College
• Mount St. Mary College
• SUNY Institute of Technology
• SUNY Delhi

Total Credits: 65-67

**Program Description**
The Associate in Science degree program in Computer Science is designed for students of mathematics and science who wish to pursue a Bachelor of Science degree in Computer Science at senior colleges and universities. Its goal is to prepare the students for a successful transfer into such degree programs.

The curriculum is structured to emphasize scientific applications and the theoretical concepts which underlie computer design and development, languages, and systems. The program provides the core courses that would be encountered in the first two years of study at most four-year institutions.

Associate degree core courses in calculus, linear algebra, discrete math, digital electronics, computer science, data structures and assembly language programming constitute the nucleus of this program. Selected courses in the liberal arts support and enhance this central core.

To initiate this plan of study, students must have tested into college algebra (MAT 121) or higher on the mathematics placement test. Students who do not meet the math requirement can be successful in reaching their academic goals by taking foundation courses and extending the program to three years.

**Admission Criteria**
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Computer Science

Degree Awarded: Associate in Science

Student Learning Outcomes

Students will:
• demonstrate ability in problem solving and communicating algorithms clearly, utilizing structures/top-down algorithm design processes.
• demonstrate familiarity with a wide variety of abstract data structures and data encapsulation concepts.
• demonstrate knowledge of assembler language programming as it applies to computer architecture and operating systems.
• demonstrate ability in computational methods of mathematics and physical science necessary for computer modeling.

# Criminal Justice

**Degree Awarded:** Associate in Science

## Program Description

The Associate in Science degree program in Criminal Justice prepares students to continue their education in four-year degree programs in criminal justice or related liberal arts areas of study. These may include forensic psychology, public administration, sociology, cyber security, criminology and pre-law. It is designed to facilitate the acquisition of technological and critical thinking skills that are essential for success in the criminal justice field. Graduates of this degree program will have both the general educational background as well as the criminal justice expertise to pursue careers in the many diverse criminal justice areas of study.

The program is regularly reviewed to ensure that course content is current with contemporary issues that impact the criminal justice system, such as homeland security, terrorism, cyber security, technological advancements, diversity and ethics. The program courses explore contemporary criminal justice issues such as the nature and causes of crime, crime as a public policy issue, racial profiling and global issues such as transnational terrorism. There are specific courses devoted to the institutional treatment of the adult and juvenile offender as well as an internship program where students are afforded the opportunity to utilize their newly acquired skills and knowledge in an actual criminal justice related work environment. This program assures the students of a solid foundation to pursue higher education and rewarding careers in criminal justice.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 15 for more details on the admission process for all applicants.)

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Student Learning Outcomes

Students will:
- develop critical thinking skills and apply these skills in discussing complex issues in criminal justice.
- identify common concepts relevant to the understanding of the criminal justice system and be able to critically assess and debate these issues.
- develop problem solving skills and be able to apply these skills to issues that impact the diverse areas of the criminal justice system.
- develop an understanding of our legal system, constitutional law, procedural law and substantive law.
- be able to understand and discuss the complex issues of diversity and ethics and their impact on the criminal justice system.

Criminal Justice–Police

Degree Awarded: Associate in Applied Science

Recommended Course Sequence

Program Description
The Associate in Applied Science degree program in Criminal Justice–Police provides the student with the necessary credits required to apply for employment in one of the many local, state or federal criminal justice agencies.

The overall program design is to prepare the student for a career path in law enforcement, security, law, probation, parole, juvenile justice and investigation. The coursework provides study and practice in the necessary critical thinking and technological skills the student will need to function effectively in the law enforcement field. The program offers courses on criminal investigations that cover all aspects of an investigation, including interviewing techniques, rights of the accused, search warrant requirements and wiretapping. It also includes a complete course of criminalistics which focuses on fingerprinting and fingerprint classification and identification, blood analysis and crime scene photography. Contemporary law enforcement issues are examined, including searching without a warrant, automobile stops, racial profiling, transnational terrorism and police-community relations are thoroughly discussed and critically evaluated. All classes emphasize interactive critical assessment of contemporary policing issues as well as hands-on practical application of skills. All instructors, in addition to their advanced educational backgrounds, are experienced practitioners in the fields of law enforcement, courts and corrections.

Admission Criteria
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

First Semester Credits

CRJ 211 Criminal Law 3
__ Math or Liberal Arts Science 3
__ Elective* 3

* Recommend taking CRJ 109 Critical Issues in Law Enforcement

Total Credits: 62

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Student Learning Outcomes

Students will:
• develop critical thinking skills and apply these skills in discussing complex issues that confront police administrators.
• be able to identify the origins of policing systems and be able to assess problems that confront modern policing systems.
• be able to identify relevant issues of constitutional, procedural and substantive law.
• be able to understand and critically discuss the complex issues involving diversity and ethics as they relate to professional policing.
• be able to understand the importance of crime scene protection and be able to demonstrate the proper methods of gathering and presenting evidence properly.

Career Opportunities

- Federal Bureau of Investigation (FBI)
- Immigration and Naturalization Service (INS)
- park police
- postal inspector
- secret service agent
- secret service uniformed
- deputy sheriff
- state police/trooper
- police officer
- district attorney
- defense counsel
- correction officer
- forensics specialist
- court clerk
- ballistics specialist
- fingerprint specialist
- security

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:
• Pace University
• State University of New York (SUNY)

Program Description

The Associate in Applied Science degree program in Cyber Security prepares students for employment in a variety of entry level careers in Cyber Security. Today, everyone is concerned with security, and people with knowledge in this area are in high demand. Positions can include such titles as Network Administrator, network security specialist, information security technician, just to name a few. The main thrust is protection of information and limiting access to network resources. In addition to security, students will also be instructed in techniques used to track perpetrators once an attack has occurred.

In addition to basic computer and networking skills, the student will be instructed in Operating Systems, Computer Forensics, Network Forensics, Information Security, Network Perimeter Security, and Cyber Crime Investigation.

Classes are designed to provide students with hands-on training utilizing state-of-the-art computer facilities. Lab work and assignments will present real world cyber security scenarios encountered in the work place. For forensics studies, industry standard software will be used.

While A.A.S graduates are prepared to enter the workforce immediately, many students choose to transfer to upper-level programs leading to a bachelor's degree in technology. If students are considering this, they should consult with the department chair and advisors for program planning. Special planning is available for students entering the program with previous college credit or equivalent training/work experience.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission.
Student Learning Outcomes

Students will:

• develop basic network administration skills
• perform computer forensic analysis
• demonstrate an understanding of network forensics
• develop an understanding of the legal issues associated with cyber security
• document an appropriate procedure of handling case evidence

Career Opportunities

Entry level
• Network Administrator
• Network Security Specialist
• Computer Crime Investigation

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.
These transfer institutions include:
• St. John’s University

Dental Hygiene

Degree Awarded: Associate in Applied Science

Accredited by the Commission on Dental Accreditation, American Dental Association

211 East Chicago Avenue, Chicago, Illinois 60611, (312) 440-2500.

Recommended Course Sequence

<table>
<thead>
<tr>
<th>Program Description</th>
</tr>
</thead>
</table>

The Associate in Applied Science degree program in Dental Hygiene prepares students for licensing by the State Board for Dentistry of New York to practice dental hygiene. Dental hygienists work under the supervision of a licensed dentist. They provide preventive, therapeutic and educational services within the parameters of the state law governing the practice of dental hygiene. In addition to traditional skills, these responsibilities include the administration of local infiltration anesthesia and nitrous oxide sedation.

The curriculum is focused on the three professional Standards of Care: professionalism, health promotion and disease prevention, and patient care. Coursework includes requirements in English, social sciences, the sciences, and program-specific courses and laboratory experiences. In order to develop necessary skills, students first practice on peers. Then they actively participate in clinical dental hygiene experiences in the College dental hygiene clinic, as well as at off-campus sites including hospitals. Dental hygiene courses are offered once each year. Courses must be taken in the sequence in which they are offered without interruption. Dental hygiene courses cannot be taken on a part-time basis. A minimum grade of C (75%) is required in all dental hygiene courses. Program requirements for graduation also include the presentation of table clinics at off-campus locations, portfolio development and case-based clinical case presentations. Membership in the Student American Dental Hygienists' Association is mandatory.

Students who are considering this program must understand that they are required to provide their own transportation to these off-campus facilities and are required to purchase their own instruments and related supplies. They must also have a yearly physical examination and TB test. Upon initial entrance into the program, foreign students must have permanent residence status to obtain a dental hygiene license in New York State. An individual who has charges pending or has ever been convicted of a felony or misdemeanor and/or has been found guilty of professional misconduct or negligence may not be eligible for licensure. Contact the Office of Professional Discipline, New York State Education Department prior to applying to this program.

Finals are not to be considered part of the clinical requirements for graduation. Students who are unwilling or unable to sit as patients there is a risk associated with exposure to nitrous oxide gas. Students who are unwilling or unable to sit as patients should not apply to this program.

Dental Hygiene
Degree Awarded: Associate in Applied Science

Admissions Criteria

Academic Requirements:
• High school diploma or GED
• Eligible to take Freshman English I (ENG 101)
• Eligible to take Intermediate Algebra (MAT 102), or have completed Elementary Algebra (MAT 101) or equivalent with a 2.0 or higher
• Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or introduction to Biology or Anatomy & Physiology I with a grade of 2.0 or better within 5 years (Spring, 2007 semester or later)
• Completed High School Regents Chemistry with a grade of 75 or better; Elements of Chemistry & Physics (CHM 120); or a college Chemistry course (with a lab) with a grade of 2.0 or better within 5 years (Spring, 2007 semester or later)
• Students must attain a minimum cumulative GPA of 2.5

Department Specific Requirements:
• Submit Dental Hygienist observation form (16 hour min. with documentation)
• Attendance at a Dental Hygiene department pre-admission orientation. At this orientation, students will receive and sign off on information pertaining to health forms, drug testing, and criminal record policies.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CQPA and credits completed towards the degree, Orange County residency and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester.

Student Learning Outcomes

Students will:
• discern and manage the ethical issues of dental hygiene practice in a rapidly changing environment.
• acquire and synthesize information in a critical, scientific and effective manner.
• be concerned with improving the knowledge, skills and values of the profession.
• provide planned educational services using appropriate interpersonal communication skills and educational strategies to promote optimal health.
• initiate and assume responsibility for health promotion and disease prevention activities for diverse populations.
• systematically collect, analyze and accurately record baseline data on the general, oral and psychosocial health status of the client using methods consistent with medical principles.
• discuss the condition of the oral cavity, the actual and potential problems identified, the etiological and contributing factors as well as recommended and alternative treatments available.
• provide treatment that includes preventive and therapeutic procedures to promote and maintain oral health and assist the client in achieving oral health goals.
• evaluate the effectiveness of planned clinical and educational services and modify them as necessary.

Career Opportunities

• private practice
• hospitals
• health service agencies
• overseas
• military

**Program Description**
The Associate in Applied Science degree program in Early Childhood Development and Care prepares students for responsible and effective employment in positions ranging from aide to head teacher in a variety of early childhood settings. The program provides theory, practical information and extensive supervised experience concerning normal early human development, developmental difficulties, caring for and educating young children, methods for fostering child development, and the operation and management of early childhood facilities.

The primary goals of the Early Childhood Development and Care program are to develop cognitive and critical thinking skills through an integrated education plan; to promote the use of applied knowledge of developmentally appropriate practices in both the College classroom and early learning field site environments; to furnish opportunities for self-directed, creative, professional learning activities; to provide field experiences ranging from minimal observation to full participation, allowing students to demonstrate increasing technical skills working with young children.

Because current research shows that the early years are among the most vital in human development, professional and appropriate educational experiences will develop the ECDC student’s thinking, practical and personal skills necessary to teach and care for young children. These activities take place in college classes and seminars, and also in local area field sites. In the field, extensive “hands-on” observation and participation give opportunities to apply education principles, receive individual guidance and feedback, and be involved first-hand, with day-to-day activities in diverse early childhood learning environments.

Upon completion of the coursework students will have accumulated 235 hours of field work.

A grade of C (2.00) or better is required in all EDU courses for progression in the program and graduation with an A.A.S. or Certificate in Early Childhood Development and Care.

**Admission Criteria**
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Student Learning Outcomes

Students will:

• demonstrate knowledge of physical, intellectual, language, creative, social and emotional domains by incorporating developmentally appropriate practices in an early childhood environment.

• apply knowledge by effectively planning relevant stage and age level learning activities using varied curricula and lesson plan formats.

• provide a balanced learning atmosphere evidenced by an appropriate physical environment and supportive cognitive and affective methods.

• welcome and integrate into their classroom an unbiased understanding and appreciation of a population that is diverse in appearance, performance, ability and culture.

• demonstrate effective communication skills with children, colleagues and parents.

• develop and exhibit professional and ethical standards of integrity, confidentiality, personal growth and collaborative teamwork in College classrooms and field assignments.

Career Opportunities

• center director
• head teacher (non-public settings)
• teacher assistant
• family child care provider
• early childhood business owner
• nanny or au pair
• early intervention specialist
• recreation leadership
• home visitor
• child care resource and referral
• curriculum consultant

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred. Please check with the intended transfer school for details.

### Program Description
The Early Childhood Development and Care certificate program is designed to develop professional career skills in preparation for entry level positions in a variety of early childhood fields. Students will complete 60 hours of observation in local early learning centers in addition to college classroom time. This field work provides an opportunity to link theory with hands-on practice. Students will be required to demonstrate an understanding of the theories related to child development, the techniques for fostering such development and the operation of a child care facility. Nine of the 12 courses in the ECDC certificate program directly relate to early childhood. All courses apply to an Associate in Applied Science (A.A.S.) degree in Early Childhood Development and Care. A grade of C (2.00) or better is required in all EDU courses for progression in the program and graduation.

### Admission Criteria
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

*students seeking transfer should speak to program advisor

## Program Description

The Associate in Applied Science degree program in Electrical Technology–Telecommunications prepares graduates to succeed in a variety of technical fields such as telecommunications, health care, utilities, manufacturing and other related electronic occupations.

In the course curriculum, students learn the basics of DC and AC electrical circuits. They build and test digital electronic, analog electronic and telecommunications circuits. Students research, build and present a wireless communications project. Most courses in the program are a combination of lecture and lab. The lecture covers the theoretical aspect of the curriculum, while the lab provides hands-on experience, as well as reinforcing the concepts.

A new state-of-the-art telecommunications lab, coupled with courses teaching current technology and internships, will provide students with a well rounded education and jobs with highly competitive salaries.

While A.A.S. graduates are prepared to enter the workforce immediately, many students choose to transfer to upper-level programs leading to a bachelor’s degree in technology. If students are considering this, they should consult with the department chair and advisors for program planning. Special planning is available for students entering the program with previous college credit or equivalent training/work experience.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Student Learning Outcomes

Students will:
• develop logical techniques for designing, implementing and maintaining advanced telecommunications and electronic systems.
• learn the practical skills required to design and troubleshoot telecommunications and electronic systems.
• develop techniques to reason out new concepts.
• develop methods to maintain currency in the technology fields.
• utilize mathematics and computer software as the basic tools for design and analysis of complex telecommunications and electronic systems.
• develop the ability to communicate effectively in both a written and oral format.
• promote and develop teamwork and team building as an effective tool for increased productivity.
• Mimic and develop standard workplace competencies.

Students successfully completing the program should be qualified for entry level careers in the telecommunications field and other related fields in electronics.

Graduates of the program are currently working at:
• Time Warner Cable
• Citizens/Frontier Communications
• Verizon Communications
• Orange Regional Medical Center
• Orange and Rockland
• Con Edison
• IBM
• and in a variety of technical positions requiring a telecommunications and electronics background.

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred.

If a student plans to pursue a four-year degree program, he or she should see the department chair or a faculty advisor as soon as possible.

SUNY Orange students have successfully transferred to:
• Fairleigh Dickinson University
• New York Institute of Technology
• Rochester Institute of Technology
• SUNY Farmingdale
• SUNY Utica
• Vaughn College.
Recommended Course Sequence

Program Description
Students who complete this program earn an Associate in Applied Science degree. The goal of the Emergency Management A.A.S. program at SUNY Orange is to prepare students to react to, and be effective before, during, and after any local, statewide, or national emergency. Students will develop the knowledge, experience, and critical decision-making and communications skills needed to respond appropriately to emergency and disaster situations and, more importantly, manage community resources in any crisis situation. This program meets New York State and Federal Emergency Management Agency (FEMA) education and training requirements.

Admission Criteria
- High school diploma or equivalent
- Satisfactory placement in Entering Student Assessment
- Prior experience in public service is recommended. This can be met by working with the following types of agencies:
  - Public Safety
    - Fire
    - EMS
    - Law Enforcement
    - Hazardous Materials Responders
  - Public and Private Sector Safety and Security
  - Corrections
  - Health Care Agencies
  - Government
  - Transportation

SUNY Orange recognizes that there are many people and agencies, public and private, that could benefit from this program. Please contact the coordinator if you wish to discuss your experience to determine eligibility. The experience requirement ensures that students have basic understanding of an emergency service.

Developmental Assistance Available
For students who do not meet basic reading and math requirements, or who have other learning issues, extra assistance is readily available through SUNY Orange’s Student Support Initiatives in the Shepard Student Center, Learning Center in the LRC, Harriman math lab, and the Writing Lab, the LRC’s Tutorial Center and English as a Second Language (ESL) tutors.

Specialization: Nine credits in a first responder area such as fire protection, public safety, health professions, or emergency medical services. These credits may be transferred or completed at the Consortium college of student’s residence.

First Semester Credits
ENG 101 Freshman English I 3
COM 101 Foundation of Communication 3
EMG 150 Principles of Emergency Mgmt. 2
EMG 152 Public Safety Critical Incident Management 1
EMG 160 Developing Volunteer Resources 1
EMG 162 Resource and Donations Mgmt. 2
EMG 170 Public Information Officer Basic Course 3
PES 100 Concepts of Physical Wellness 1

Second Semester
ENG 102 Freshman English II 3
C IT 101 Microcomputer Applications 3
Science Elective 3-4
EMG 178 Emergency Response Planning 3
EMG 180 Emergency Management Leadership 2
EMG 182 Basic Incident Command System 1
EMG 184 Emergency Response to Terrorism 1

Third Semester
POL 103 US Government-National 3
MAT 102 Intermediate Algebra or Higher 3
Elective 3
EMG 252 Disaster Response and Recovery Operations 2
EMG 256 Mitigation for Emergency Mgrs I 1.5
EMG 262 Intermediate Incident Command System 1.5
EMG 270 Multi-Hazard Emergency Response Planning for Schools 1
PES Physical Education Activity 1

Fourth Semester
SOC 101 Introduction to Sociology 3
Electives 6
EMG 278 Emergency Operations Center (EOC) Management 1.5
EMG 280 Emergency Exercise Program Management 3
EMG 282 Advanced Incident Command System 1.5
EMG 284 Terrorism Response Planning 2

Total Credits: 64-65

Total Credits: 64-65
Student Learning Outcomes

Graduates will be able to:

• communicate effectively a knowledge of emergency management content areas, including public safety critical incident command, emergency planning, emergency operations, exercise planning, emergency operations center organization and management, leadership, resource planning, utilization of national emergency management operation guidelines.

• apply the knowledge base of necessary skills to be able to function within the New York State and National incident management system during a local, state wide, or federal emergency.

• demonstrate critical thinking, communications, and management skills by analyzing situations, determining proper actions, understanding the costs and benefits of actions, evaluating possible alternatives and unforeseen circumstances, and then taking appropriate actions as an incident manager.

Career Opportunities

The Emergency Management A.A.S. program is designed to enhance the skills of already employed first responder personnel. The training will enable them to advance in their chosen fields. Emergency management expertise is valuable to first responders employed as police, fire fighters, emergency medical workers, or private safety and security officials.

Since the program will train emergency managers to a common emergency system and since opportunities for trained and experienced emergency managers now exist in every federal, state, municipal, and local government entity, graduates will be qualified for positions throughout New York as well as other states. In addition, almost all major private concerns maintain, plan for, and practice emergency management operation responses.

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred. Please check with the intended transfer school for details.

### Total Credits: 72-73

Note: Students must take a minimum of three courses (eight credits) from the following depending on their area of specialization:

- **Thermodynamics** (EGR 214) summer, Solid Mechanics (EGR 220) spring, Circuit Theory (EGR 213) spring, Modern Physics (PHY 204), Materials Science (EGR 218) fall, Linear Algebra (MAT 209) fall/summer

**Engineering Computations (EGR 216)**

**Computer Science II (CSC 102)** and **Data Structures (CSC 201)**

- **Chemical Engineering, ChE**
- **Civil Engineering, CE**
- **Computer Engineering**
- **Electrical Engineering, EE**
- **Environmental Engineering**
- **Geological Engineering**
- **Geological Engineering**
- **Materials Engineering**
- **Mechanical Engineering, ME**
- **Nuclear Engineering**

Core courses in calculus, chemistry, engineering physics and engineering science constitute the nucleus of this program. Selected courses in the liberal arts support and enhance this central core.

To begin the two year program, students must be at the mathematical level of Calculus 1 (MAT 205) or must have completed either College Trigonometry* (MAT 121) or Pre-Calculus Mathematics* (MAT 131).

Students who do not meet the above requirements should not be discouraged. Many students, who have either missed some foundational courses or who have family/job commitments, opt to take the extended program, which prepares them for Calculus 1 (MAT 205). Although this path will require more than four semesters, it enables students to reach their educational goal and to work as professional engineers in the above-mentioned fields. Students taking the extended option should meet with their advisor to arrange a planned course of study.

The Engineering Science program at SUNY Orange strives to form a student’s ability to think critically in real time, to develop a professional work ethic built on cooperation and group problem solving, and to provide the rigorous conceptual and ethical framework required in a field where professional competence is expected.

---

*These prerequisite courses may be taken in the summer.

---

## Program Description

The Associate in Science degree program in Engineering Science is designed specifically to enable students to transfer, with junior status, to the upper-level engineering college or university of their choice, where they can complete the Bachelor of Science degree in Engineering. As such, the program provides the same core courses that would be encountered in the first two years of study at most four-year institutions offering engineering degrees in the following disciplines:

- **Aeronautical Engineering**
- **Architectural Engineering**
- **Biological Engineering**
- **Civil Engineering, CE**
- **Computer Engineering**
- **Electrical Engineering, EE**
- **Environmental Engineering**
- **Geological Engineering**
- **Materials Engineering**
- **Mechanical Engineering, ME**
- **Nuclear Engineering**

Core courses in calculus, chemistry, engineering physics and engineering science constitute the nucleus of this program. Selected courses in the liberal arts support and enhance this central core.

To begin the two year program, students must be at the mathematical level of Calculus 1 (MAT 205) or must have completed either College Trigonometry* (MAT 121) or Pre-Calculus Mathematics* (MAT 131).

Students who do not meet the above requirements should not be discouraged. Many students, who have either missed some foundational courses or who have family/job commitments, opt to take the extended program, which prepares them for Calculus 1 (MAT 205). Although this path will require more than four semesters, it enables students to reach their educational goal and to work as professional engineers in the above-mentioned fields. Students taking the extended option should meet with their advisor to arrange a planned course of study.

The Engineering Science program at SUNY Orange strives to form a student’s ability to think critically in real time, to develop a professional work ethic built on cooperation and group problem solving, and to provide the rigorous conceptual and ethical framework required in a field where professional competence is expected.

---

*These prerequisite courses may be taken in the summer.
Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.) Students must have tested into or completed Calculus 1 (MAT 205) to begin progress toward this degree. If recent high school graduates have concerns about their mathematics preparation they should consider taking Pre-Calculus Mathematics (MAT 109) during the summer before their entrance into the program.

Student Learning Outcomes

Students will:
- demonstrate literacy in the basic mathematical, computational and scientific languages of engineering science.
- demonstrate a mastery of communication skills, both written and oral, especially in their applications to Engineering Science.
- demonstrate literacy in a programming language and in computer assisted techniques for engineering design.
- plan, organize and implement laboratory experiments and prepare a formal detailed laboratory report of findings.
- set up and solve Engineering Science problems, using advanced mathematical techniques, with and without computers.
- conduct herself or himself in a professional manner consistent with acceptable standards and ethics.

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:
- Clarkson University
- Manhattan College
- New Mexico Tech
- Ohio State University
- Penn State University
- Rensselaer Polytechnic University (RPI)
- Stevens Institute of Technology
- SUNY Binghamton
- SUNY Buffalo
- SUNY New Paltz.
- SUNY Stony Brook
- Syracuse University
- University of Colorado
- University of Dayton
- University of Illinois

Career Opportunities

- private sector engineering firms
- research and development opportunities in private and public sector
- engineering positions in city, state or federal agencies
- excellent background for other fields, i.e. law or medicine

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.) Students must have tested into or completed Calculus 1 (MAT 205) to begin progress toward this degree. #### Program Description

The Associate in Science degree program in Exercise Studies is designed for students who are interested in professional areas of fitness and exercise specialties in a variety of physical fitness/health promotion programs. This program prepares students to pursue further education and careers in such fields as athletics, medicine, instruction, research and community health. Completing this degree program, students will have built a base knowledge and prepare for transfer to four-year programs including physical education, health and wellness programs, exercise physiology or nutrition.

The theoretical coursework is concentrated in the areas of human movement, exercise physiology, exercise prescription and fitness assessment. These classes give students a broad background in, as well as a practical experience with, the mechanics and physiology of the human body with regard to fitness, health and well-being. The Exercise Studies students complete specific lifetime and sport skills coursework. In addition, students complete coursework in a broad liberal arts education; this work includes study in arts, foreign language, English, history, and sociology.

#### Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

In addition, students must declare themselves exercise studies majors and meet with a Movement Science faculty member to review their career goals and course selections. Once students are accepted, they are required to attend one of the program orientation sessions.

Exercise Studies

Degree Awarded: Associate in Science

Student Learning Outcomes

Students will:

• possess a broad educational background which includes humanities, mathematics, social sciences, biological sciences, and technologies to prepare for transfer to a four-year institution for a bachelor’s degree in Exercise Science.
• prepare and sit for the national personal trainer and or group fitness instructor exam.
• learn problem solving and critical thinking in context to the world of exercise science.
• design, implement, manage and evaluate health promotion, wellness programs and recreational opportunities.
• demonstrate appropriate skills and abilities for the physical fitness assessment and exercise prescription for apparently healthy individuals and special populations.
• reflect upon their personal experiences in physical activity and improve their own levels of skills and fitness.
• welcome the idea of being "physically educated."

Career Opportunities

• athletic trainer
• cardiac technician
• coach
• director of recreation

**Fire Protection Technology**

Degree Awarded: Associate in Applied Science

### Recommended Course Sequence

#### First Semester:
- Freshman English I (ENG 101) 3
- Introduction to Sociology (SOC 101) 3
- Elementary Algebra (MAT 101) 3
- Introduction to Fire Technology (FIR 101) 3
- Intro. to Fire & Emergency Services Admin. 3
- *Physical Education Elective 1*

#### Second Semester:
- Freshman English II (ENG 102) 3
- General Psychology (PSY 101) 3
- Race, Ethnicity, and Society (SOC 220) 3
- Principles of Building Construction (FIR 103) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Physical Education Elective (PED Elective) 1

#### Third Semester:
- U.S. Government (POL 103) 3
- Foundations of Communication (COM 101) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Physical Education Elective (PED Elective) 1

#### Fourth Semester:
- Natural Science Gen Ed Elective 3-4
- Computer Literacy (CIT 100) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Fire Protection Tech. Elective (FIR Elective) 3
- Total Credits 64-65

### Program Description

Given the unique conditions that have developed in our country over the last several years in public safety and homeland security, the Fire Protection Technology Program has gained increasing importance. The program is designed to meet the growing needs of Rockland, Orange, Sullivan and Ulster Counties and their neighboring communities for persons preparing for a career as a firefighter, fire and emergency service practitioner or engineer specialist.

The study of fire protection technology is multifaceted. It involves the study of the complete fire protection system, including fire department resources, private resources and system, chemistry and physics of fire safety, fire department management, emergency management, the legal environment and fire protection.

Studies in fire protection technology guide the student through a series of college-level courses that are designed to prepare the student for a career in the highly demanding field of fire and emergency services. Through the study of fire protection technology the student will discover the entire process for the requirements of becoming a firefighter.

The role of the firefighter has increased in complexity in recent years. The scope of responsibilities and knowledge requirements of a firefighter has grown significantly and now includes emergency medical services, assisting in the recovery from disasters, and responding to and recovering from hazardous materials incidents, building safety compliance issues, public education, wildlands fire fighting, mutual aid and more. The program is designed to prepare the students to perform as a firefighter and an effective member of a multi-agency emergency response team.

The program is designed to meet the guidelines established by the New York Emergency Management System and the National Interagency Integrated Management System (NIIMS) under the Department of Homeland Security. Field training occurs at the regional Fire Training Center. The A.A.S degree in Fire Protection Technology has already received SUNY and NYSED approval through the Hudson Valley Educational Consortium.

SUNY Rockland has taken a leadership role in developing the Fire Protection Technology curriculum and the Associate of Applied Sciences degree is currently available there. Students wishing to register in this program from other HVEC colleges (SUNY Orange, SUNY Ulster and SUNY Sullivan) and participate via the Interactive Television Training Rooms will receive their degree from SUNY Rockland. Interested students should contact their home school Registrars office for assistance in the registration process.

The role of the firefighter has increased in complexity in recent years. The scope of responsibilities and knowledge requirements of a firefighter has grown significantly and now includes emergency medical services, assisting in the recovery from disasters, and responding to and recovering from hazardous materials incidents, building safety compliance issues, public education, wildlands fire fighting, mutual aid and more. The program is designed to prepare the students to perform as a firefighter and an effective member of a multi-agency emergency response team.

The program is designed to meet the guidelines established by the New York Emergency Management System and the National Interagency Integrated Management System (NIIMS) under the Department of Homeland Security. Field training occurs at the regional Fire Training Center. The A.A.S degree in Fire Protection Technology has already received SUNY and NYSED approval through the Hudson Valley Educational Consortium.

SUNY Rockland has taken a leadership role in developing the Fire Protection Technology curriculum and the Associate of Applied Sciences degree is currently available there. Students wishing to register in this program from other HVEC colleges (SUNY Orange, SUNY Ulster and SUNY Sullivan) and participate via the Interactive Television Training Rooms will receive their degree from SUNY Rockland. Interested students should contact their home school Registrars office for assistance in the registration process.
Recent graduates have secured positions within the New York City Fire Department and as Fire Inspectors for local government. The current fire protection technology program follows the recommendations of the Fire and Emergency Service Higher Education (FESHE) model which is a division of the Federal Department of Homeland Security. An articulation agreement with John Jay College, a member of the City University of New York (CUNY) system is available for those student intending to continue their education in fire protection technology.

Admission Criteria
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Student Learning Outcomes
Students will:
• discover the entire process for the requirements of becoming a firefighter.
• effectively communicate knowledge of Fire Science content areas, including fire safety critical incident command system, emergency planning, fire scene operations, fire exercise planning, fire and emergency operations center organization and management, leadership, resource planning, and utilization of national fire science operation guidelines.
• demonstrate critical thinking, communications and management skills by analyzing situations, determining proper actions, understanding the costs and benefits of actions, evaluating possible alternatives and unforeseen circumstances, and then taking appropriate actions as an incident responder or manager.
• possess the technical and general education courses needed to be able to pursue a baccalaureate degree in fire science or emergency management.
• support the community by providing fire and emergency services when required.

Career Opportunities
• firefighter
• fire heavy equipment operator
• fire prevention specialist
• fire hazard program specialist
• fire training specialist
• public safety and education
• dispatcher
• fire equipment manufacturing, sales, service, research and development
• forestry service fire control
• technician and consultant in aerospace services
• fire protection education

Transfer Opportunities
While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:
• John Jay College
• University of Maryland - University College
• University of New Haven

Honors Program

Program Requirements

A.A. Degree
6 credits Honors English ENG 101H and ENG 102H
3 credits Honors Social Science
3 credits Honors Humanities
MAT 205 Calculus I *
HON 201H Honors Seminar (3 semesters, 1 credit each) ***
HON 120H Service Learning (1 cr) freshman year
HON 288H Honors Capstone: Planning & Research
HON 289H Honors Capstone: Writing & Presentation

A.S. Degree
6 credits Honors English ENG 101H and ENG 102H
6 credits Honors Social Science
MAT 205 Calculus I *
HON 201H Honors Seminar (3 semesters, 1 credit each) **
HON 120H Service Learning (1 cr) freshman year
HON 288H Honors Capstone: Planning & Research
HON 289H Honors Capstone: Writing & Presentation

A.A.S. Degree
6 credits Honors English ENG 101H and ENG 102H
6 credits Honors Social Science or
3 credits Honors Social Science and
3 credits Honors Humanities *
MAT 205 Calculus I *
HON 201H Honors Seminar (3 semesters, 1 credit each) **
HON 120H Service Learning (1 cr) freshman year
HON 288H Honors Capstone: Planning & Research
HON 289H Honors Capstone: Writing and Presentation

* May be fulfilled by taking one of the following math courses and one of the following four credit lab science courses, depending upon degree requirements:
Math: MAT 121 College Algebra
MAT 125 Introduction to Statistics
Lab Science: PHY 101 General Physics I
CHM 305 General Chemistry I
BIO 103 General Biology I

** The remnant service and capstone credits are specific requirements of the Honors Program. They also may be counted as Liberal Arts or General Electives. They are restricted to those students who have been admitted into the program.

Students who already possess a first Honors degree may not seek a second should they pursue a second degree at SUNY Orange.

Program Description

The Honors Program was created to offer highly motivated and talented students an opportunity to develop their potential more fully as they study for the associate degree. Honors courses are selected from the areas of: English, social science, arts, communication, humanities, math, biology, movement science and business. Honors sections of these courses follow the Socratic dialogue format and offer enrichment through alternative texts, outside readings, research projects and abstract concept development beyond the traditional course section. Additionally, students complete three Honors seminars, the service course and the capstone project.

The Honors Program is open to both full and part-time degree-seeking students.

Student Learning Outcomes

Students will:
• engage in interdisciplinary academic inquiry
• raise cultural awareness
• strengthen community responsibility
• develop transformational leadership

For expanded student learning outcomes, please visit the Honors web page at www.sunyorange.edu/honors.

Admission Criteria

Admission requirements are for first-time college students, transfers, current SUNY Orange students, GED holders and 24 Credit Hour students.

All applicants must:
• complete the Honors Program application.
• take the required College Placement Assessment in English and math and place into Freshman English 1. Those who have taken and passed a college-level English class may obtain an Assessment Waiver. Information is available on the College’s web site.
• provide two letters of recommendation from faculty, counselors, administrators or mentors.

Students who already possess a first Honors degree may not seek a second should they pursue a second degree at SUNY Orange.

• provide two letters of recommendation from faculty, counselors, administrators or mentors.

Students who already possess a first Honors degree may not seek a second should they pursue a second degree at SUNY Orange.
### Requirements for Honors Designation

In order for students to show the Honors Designation on their transcripts and seal on their diplomas upon graduation, they must have a GPA of 3.5 and provide an essay to be included with the admissions application for evaluation.

- **Note:** If students have already achieved an "A" in SUNY Orange's Freshman English 1 and/or 2, the above noted essay and Honors English 1 and/or 2 requirement will be satisfied. Still, the three or six Honors credits must be made up with other Honors courses, in consultation with the Program Coordinator.

### Transfer Opportunities

**Completion of the Honors program may enhance transfer and scholarship opportunities to more selective colleges and universities and prepare students for the academic work required for continued pursuit of undergraduate and graduate degrees.**

- Our students have successfully transferred to many prestigious schools including:
  - Smith College
  - Clemson University
  - Rensselaer Polytechnic Institute (RPI)
  - Vassar College
  - Emerson University
  - American University
  - Cornell University
  - Bard College

**Additionally:**

1. First time college students must be graduates of a college prep high school program with at least one of the following: 1) high school average of 90% at the end of junior year; 2) class rank in the top 10% of the class; 3) combined SAT score of 1200 (math + verbal) or 1800 (3 parts); 4) ACT score of 27.
2. High school seniors with accumulated college credits:
   - a) Between 1 and 11.5 credits must meet the requirements for first time college students and have attained a cumulative average of 3.5 for completed college courses.
   - b) Twelve or more credits must meet transfer student requirements.
3. Transfer students with 12 or more credits must have a GPA of 3.5 and must provide a two- to five-page typed essay to be evaluated as part of the applications admission.
4. Home schooled students and GED holders are welcome to the Honors Program. They must talk with Admissions and the Honors Program Coordinator to discuss eligibility.
5. Students who are not in the Honors Program but are interested in taking an Honors course should contact the Honors Program Coordinator.

** PSY 222 Adolescent Psychology 2
** PSY 223 Abnormal Psychology 2
** PSY 224 Child and Aging 2

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.

## Program Description

The Associate in Science degree program in Human Services prepares graduates to transfer and complete a bachelor’s degree in human services, psychology or sociology. Because of the broad liberal arts component, concentration in psychology and sociology with field experiences in at least two human services agencies, the program also prepares the graduate for employment as a direct care worker.

The primary goal of the curriculum is the development of critical thinking and clinical problem solving skills as they relate to populations served by human service agencies. The program offers introductory coursework in human services, psychology and sociology, writing skills directly related to the human services field, and field experiences in at least two human service agencies. Most courses are offered each year, often in the Fall, Spring and Summer semesters. Field Studies in human services are offered each year: Field Studies 1 in the Fall semester, and Field Studies 2 in the Spring. The course of study may be pursued on a part-time basis, daytime or evening. Some courses are available on Saturdays.

This program was developed in support of both the Coalition for Direct Care Providers and the New York State Family Development Training and Credentialing Program goals. Students may seek tuition assistance through the Coalition for Direct Care Providers.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admissions process for all applicants.) Students may begin taking the required program courses upon completion of all required developmental courses. Students are also required to:

- complete two field placement courses, each requiring 48 hours of observation/interaction in at least two human service settings, with a grade of C or better.
- have an overall C average upon completion of all coursework.

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.

Human Services

Degree Awarded: Associate in Science

Student Learning Outcomes
Students will:
• develop a portfolio demonstrating application of theory, goals and objectives associated with current direct care positions in the human services field.
• demonstrate appropriate critical thinking and problem solving skills necessary to continue their education toward a four-year degree or seek entry level employment in a human service agency.
• interact with recipients, families and professionals in a manner that demonstrates an appreciation of cultural and socioeconomic diversity.
• demonstrate an awareness of an appreciation of the goals and objectives set forth by the Coalition for Direct Care Providers and New York State Family Training and Credentialing Program (FDC).

Career Opportunities

• In-patient and out-patient mental health and rehabilitation facilities such as AHRC, Occupations Inc., RSS and MHA
• State facilities such as MPC, Mid-Hudson and Crystal Run
• Social services agencies

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. These transfer institutions include:
• SUNY four year schools
• other public and private institutions
• transfer agreements are being developed with SUNY New Paltz’s Direct Care Program and Mount St. Mary’s Human Services Degree Program

Total Credits: 62-64

* Choose two of the following courses:
- COM 211 Intercultural Communications
- ECO 230 Economic Development
- HIS 123 Latin American Heritage
- HIS 124 Africa: Past and Present
- HIS 133 Modern Europe
- HIS 220 Modern China and Japan
- HIS 222 The Middle East Non-Western Art
- Foreign Language Intermediate 1 or higher
- BUS 207 Intro to International Business

Program Description

The Associate in Arts degree program in International Studies provides students with a range of studies that emphasize the interconnections among global political, economic, social, and cultural events and processes. As globalization literally makes the world a smaller place, International Studies helps prepare students to take advantage of those changes, both in terms of their personal growth and career opportunities. The degree is designed to prepare students for transfer and continued academic success within a liberal arts setting, especially one dedicated to the study of international and global events. This program also features a solid grounding in liberal arts education.

The curriculum is designed to include a broad range of courses with international themes in the humanities and social sciences. In addition to core courses in the liberal arts common to many programs, International Studies requires students to take classes in foreign languages, international relations, world history and international literature. Through these courses, students will develop critical learning skills, a foundation of knowledge about the international system and the ability to clearly write, analyze and communicate about concepts in the discipline.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are home schooled, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

International Studies

Degree Awarded: Associate in Arts

Student Learning Outcomes

Students will:
• develop a foundation of essential knowledge about the cultural, social and natural worlds, and processes contributing to globalization and interdependence.
• understand both the commonalities and diversity of human experiences, values and opinions among and between cultures.
• understand the forms of international artistic expressions and their inherent creative processes.
• think critically, applying systematic reasoning, information management and quantitative skills.
• communicate effectively in English and develop a basis for continued progress in acquiring skills in a language other than English.
• be prepared for transfer to, and success at, upper-level institutions offering programs of study in International Relations.

Career Opportunities

• language interpreter
• high school teacher
• international business
• international law
• government or diplomatic work
• export-import work

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:
• four-year SUNY units
• a variety of public and private four-year colleges with whom articulation agreements are under development

### Admission Criteria

**Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)**

Before beginning their coursework, JRTEP students must choose an age level: birth to second grade (B-2), first to sixth grade (1-6), or seventh to twelfth grade (7-12). These are NYS Teaching Certification age level categories and determine course sequences at SUNY Orange.

Then, students must choose an educational concentration:

- English (available in B-2 or 1-6 or 7-12) OR
- History (available in B-2 or 1-6 or 7-12) OR
- Spanish (available in B-2 or 1-6 or 7-12) OR
- Biology (available in 1-6 or 7-12) OR

... or any other subjects that students choose to pursue.
Student Learning Outcomes

Students will:
• acquire a broad base of knowledge in the academic area of concentration.
• demonstrate developmentally appropriate practices in teaching methodology.
• understand, welcome, and integrate an unbiased appreciation of a classroom population that is diverse in appearance, performance, ability and culture.
• plan effective, relevant, innovative lesson plans adhering to New York State Learning Standards and/or National Association for the Education of Young Children (NAEYC) Standards.
• grow in professional and ethical standards, collaborative teamwork, self-confidence, confidentiality and personal achievement.

Transfer Opportunities

JRTEP is specifically designed to transfer seamlessly to SUNY New Paltz. Other SUNY and non-SUNY schools with teaching preparatory programs may accept all or a large percentage of credits (see transfer criteria below left).

When JRTEP students successfully complete the A.A. or A.S. at SUNY Orange, they may apply for transfer to SUNY New Paltz to complete the bachelor’s degree. JRTEP applicants are given priority review and the highly academically prepared student will be accepted first.

Transfer Criteria:
To transfer, SUNY Orange JRTEP students must:
• meet all entry criteria for SUNY Orange.
• declare their intent to be in JRTEP at or prior to registration for proper advice/courses.
• complete the courses outlined in their academic concentration.
• complete SUNY-mandated General Education Requirements.
• maintain a minimum cumulative GPA of 2.75 (some courses have higher GPA requirements). SUNY New Paltz recommends a GPA of 3.25.
• complete the A.A. or A.S. degree.
• complete separate application and/or procedures for SUNY New Paltz or another SUNY school.
• show evidence of completion of fingerprinting through NYS Department of Education.

Note: Because teacher education programs and the New York State Education Department certification regulations are precisely defined, it is essential that JRTEP students work closely with both their SUNY Orange advisor and their New Paltz advisor, who is on the SUNY Orange campus by appointment.

Career Opportunities

• classroom teacher
• positions in related educational fields, such as special education, guidance

Transfer Opportunities

JRTEP is specifically designed to transfer seamlessly to SUNY New Paltz. Other SUNY and non-SUNY schools with teaching preparatory programs may accept all or a large percentage of credits (see transfer criteria below left).

When JRTEP students successfully complete the A.A. or A.S. at SUNY Orange, they may apply for transfer to SUNY New Paltz to complete the bachelor’s degree. JRTEP applicants are given priority review and the highly academically prepared student will be accepted first.

Transfer Criteria:
To transfer, SUNY Orange JRTEP students must:

* Student must take one course from each of the following SUNY General Education Requirements: American History (GE 4); Western Civilization (GE 5); OtherWorld Civilizations (GE 6); and Arts (GE 8).
+ BIO 146, BIO 148 or BIO 143
† If completed Elementary Language 1, must also complete Elementary Language 2 of the same language. If completed Elementary Language 2, must also complete Intermediate Language 1 of the same language. If completed Intermediate Language 1, no other language need be taken.
‡ Local observations beyond college classroom required
§ Evidence of completion of fingerprinting through NYS Dept. of Education is required
< If completed Elementary Language 1, must also complete Intermediate Language 1 of the same language.
@ B- or higher required for JRTEP

**Program Description**

The Associate in Science degree in this Jointly Registered Teacher Education program (JRTEP) is primarily for students who plan to transfer to SUNY New Paltz and become certified to teach in New York State in either early childhood, elementary or secondary education. Students may transfer to another SUNY school and should check transfer requirements with transfer school. Upon successful completion of the A.S. degree at SUNY Orange, with a minimum 2.75 grade point average, students who are accepted will transfer to SUNY New Paltz to complete the bachelor’s degree.

The primary focus of the JRTEP concentration is to develop and integrate critical thinking, problem solving, and creativity skills with knowledge and theories about education. Coupled with a broad general liberal arts foundation, JRTEP students will experience between 10 and 80 hours of observation in local schools and centers. This field work provides excellent practical application opportunities.

Students planning to transfer to other SUNY four-year schools may also benefit from these courses. They should see their advisor and check transfer credits with transfer school if other than SUNY New Paltz. SUNY Orange students are, at the same time, given priority status for admission consideration into The College at New Paltz.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

**Department-Specific Requirements:**

Before beginning their coursework, JRTEP students must choose an age level: birth to second grade (B-2), first to sixth grade (1-6), or seventh to twelfth grade (7-12). These are NYS Teaching Certification age level categories and determine course sequences at SUNY Orange.

Then, students must choose an educational concentration:

- **English** (available in B-2 or 1-6 or 7-12) OR
- **History** (available in B-2 or 1-6 or 7-12) OR
- **Spanish** (available in B-2 or 1-6 or 7-12) OR
- **Biology** (available in 1-6 or 7-12) OR
- **Math** (available in 1-6 or 7-12)

Students may transfer to another SUNY school and should check transfer requirements with transfer school. Upon successful completion of the A.S. degree at SUNY Orange, with a minimum 2.75 grade point average, students who are accepted will transfer to SUNY New Paltz to complete the bachelor’s degree.

The primary focus of the JRTEP concentration is to develop and integrate critical thinking, problem solving, and creativity skills with knowledge and theories about education. Coupled with a broad general liberal arts foundation, JRTEP students will experience between 10 and 80 hours of observation in local schools and centers. This field work provides excellent practical application opportunities.

Students planning to transfer to other SUNY four-year schools may also benefit from these courses. They should see their advisor and check transfer credits with transfer school if other than SUNY New Paltz. SUNY Orange students are, at the same time, given priority status for admission consideration into The College at New Paltz.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

**Department-Specific Requirements:**

Before beginning their coursework, JRTEP students must choose an age level: birth to second grade (B-2), first to sixth grade (1-6), or seventh to twelfth grade (7-12). These are NYS Teaching Certification age level categories and determine course sequences at SUNY Orange.

Then, students must choose an educational concentration:

- **English** (available in B-2 or 1-6 or 7-12) OR
- **History** (available in B-2 or 1-6 or 7-12) OR
- **Spanish** (available in B-2 or 1-6 or 7-12) OR
- **Math** (available in 1-6 or 7-12)
Jointly Registered Teacher Education Program (JRTEP)

Degree Awarded: Associate in Science

Student Learning Outcomes

Students will:

• acquire a broad base of knowledge in liberal arts
• acquire and develop technological skills and/or laboratory skills.
• demonstrate an understanding of the scientific method: observation, hypothesis development, measurement and data collection, evaluation of data, mathematical analysis of data, and the ability to draw conclusions.
• acquire a broad base of knowledge in the academic area of concentration.
• demonstrate developmentally appropriate practices in teaching methodology.
• understand, welcome and integrate an unbiased appreciation of a classroom population that is diverse in appearance, performance, ability and culture.
• plan effective, relevant, innovative lesson plans adhering to the New York State Learning Standards.
• grow in professional and ethical standards, collaborative teamwork, self-confidence, confidentiality and personal achievement.

Career Opportunities

• public school classroom teacher (pre-K through grade 12)
• related education positions, such as school psychologist, special education teacher, and guidance counselor

Transfer Opportunities

JRTEP is specifically designed to transfer seamlessly to SUNY New Paltz. Other SUNY and non-SUNY schools with teaching preparatory programs may accept all or a large percentage of credits (see transfer criteria below left). When JRTEP students successfully complete the A.A. or A.S. at SUNY Orange, they may apply for transfer to SUNY New Paltz to complete the bachelor’s degree. JRTEP applicants are given priority review, and the highly academically prepared student will be accepted first.

Transfer Criteria:

To transfer, SUNY Orange JRTEP students must:
• meet all entry criteria for SUNY Orange.
• declare their intent to be in JRTEP at or prior to registration for proper advice/courses.
• complete the courses outlined in their academic concentration.
• complete SUNY-mandated General Education Requirements.
• maintain a minimum cumulative GPA of 2.75 (some courses have higher GPA requirements); SUNY New Paltz recommends a GPA of 3.25.
• complete the A.A. or A.S. degree.
• complete separate application and/or procedures for SUNY New Paltz.
• show evidence of completion of fingerprinting through NYS Department of Education.

### Program Description

The Law Enforcement/Security certificate program is designed for students who are interested in a career in law enforcement or industrial security. The program provides an analysis of the close relationship between the public and private sector and their importance in providing a secure and safe environment for our citizens. The program emphasizes the methods, procedures and techniques that are utilized in the area of private security and current security-related issues such as loss prevention, disaster preparation, business continuity and homeland security. The program provides the student with an in-depth knowledge of police-related issues such as criminal law, patrol operations and criminal investigations.

Students who complete this program will be certified to seek employment as security officers with local or state security agencies.

### Admissions Requirements

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Law Enforcement/Security

Students will:
• identify and assess current issues in security and security management.
• be able to identify relevant issues of constitutional, procedural, and substantive law and their impact on security systems.
• be able to understand the importance of crime scene protection and be able to demonstrate the proper methods of gathering and presenting evidence properly.
• provide specific courses which meet New York State requirements for certification as a security officer.

Career Opportunities

- uniformed security officer
- plainclothes security officer
- loss prevention analyst
- risk analyst
- hotel security
- industrial security
- executive protection

Transfer Opportunities

Although this is a certificate program designed for immediate entry into the workplace, credits can be applied to further college study.
Consult a department advisor for more information.

## Degree Awarded: Associate in Arts

### Liberal Arts: Humanities and Social Science

#### Program Description
At Orange County Community College, areas of study under the Associate in Arts degree span a wide range of academic interests. Typically, these areas include specific studies in the social sciences, humanities, communication, education, the arts, and criminal justice. For more specific information, consult the individual Associate in Arts program descriptions within this catalog. Students should also meet regularly with their advisors to determine the best course of study for their particular area of interest.

In addition to taking courses in their particular area of interest, students are required to successfully complete a number of General Education courses as mandated by the State University of New York. These General Education areas include: math, natural sciences, social sciences, American history, western civilization, world civilizations, humanities, the arts, foreign language and communication.

#### Admission Criteria
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission to the College's 24 Credit Hour Program.

Admission to this program also requires meeting the following criteria:

- **GEDs**: If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program.
- **High School Graduates**: Students must have completed a high school diploma or have high school equivalency diplomas (GEDs).
- **Home Schooled Students**: Students must provide proof of meeting the requirements of the 24 Credit Hour Program.

---

### This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Student Learning Outcomes

Students will:
• develop a foundation of essential knowledge about the cultural, social, and natural worlds, and individual well-being.
• understand the commonalities and diversity of the human experience, values and opinions.
• understand the forms of artistic expression and their inherent creative processes.
• think critically, apply systematic reasoning and develop information management quantitative skills.
• communicate effectively.
• be prepared to transfer to, and succeed, at an upper-level institution.

Career Opportunities

The Associate in Arts degree program serves as a foundation for students who will complete their bachelor’s degree at a four-year institution. They may then pursue careers in a number of areas, including:
• the social sciences
• the arts
• the humanities
• education and communication

In addition, successful completion of a bachelor’s degree can also lead to continued study on the graduate level. For a more complete list of career opportunities, consult the individual Associate in Arts program descriptions in this catalog.

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:
• four-year institutions in the State University of New York (SUNY) system
• private NYS and national four-year institutions

To provide for a smooth transfer, students should consult with both their academic advisors and the potential transfer institutions for academic course selection and guidance as soon as possible.

Program Description
The Associate in Science degree program in Individual Studies is a transfer degree program designed for those students whose goals are not adequately addressed by one of the College’s other programs. Its purpose is to allow students to shape a program to meet their individual needs.

The program is divided into three components: core requirements, concentration area and electives. Core requirements are intended to provide students with a firm general education foundation through exposure to the three traditional areas of liberal arts study—humanities, social science and sciences—and development of communication and computational skills. The concentration area is comprised of course work reflecting the individual’s educational objectives. The elective component provides the student with the flexibility to build upon the special area of study.

Admission Criteria
Prior to the sophomore year (30 credits), the student is required to submit an Individual Studies Program Plan. This form, available in the Advising and Counseling Center, requires a 250 word statement of the student’s educational, transfer and career objectives. Based on these objectives, the student and advisor will select the courses to fulfill the concentration and elective component of the degree. The Program Plan will then be submitted to the appropriate Associate Vice President in Academic Affairs. On approval of the plan, a faculty advisor whose academic background is appropriate to the student’s area of concentration will be assigned to assist in the next phase of study.

First Semester
- ENG 101 Freshman English 1 3
- Restricted SUNY Elective* 3
- MAT ___ Found. of Elementary School 3
- SUNY Natural Science (GE 2) 3/4
- SUNY Social Science (GE 3) 3
- Concentration 3
- Physical Education 1

Total: 16

Second Semester
- ENG 102 Freshman English 2 3
- SUNY Humanities (GE 7) 3
- SUNY Natural Science (GE 2) 3/4
- Concentration 3
- Concentration 3
- Elective 3

Total: 16

Third Semester
- ENG 101 Freshman English 1 3
- Restricted SUNY Elective* 3
- MAT ___ Found. of Elementary School 3
- SUNY Natural Science (GE 2) 3/4
- SUNY Social Science (GE 3) 3
- Concentration 3
- Physical Education 1

Total: 14

Total Credits: 56

Required electives for the General Education Foundations include:
- *SUNY Humanities (GE 7), SUNY Arts (GE 8), or SUNY Foreign Language (GE 9)
- ** HIS 101, HIS 102, HIS 121, HIS 122, HIS 130, HIS 131, HIS 132, or HIS 133
- *** Math must be MAT 113 or higher, or any liberal arts science
- **SUNY Arts (GE 8) or SUNY Foreign Language (GE 9) Elementary 2 or higher

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Liberal Arts: Individual Studies

Student Learning Outcomes

Students will:
• demonstrate their broad base of knowledge in the liberal arts and sciences by evoking critical thinking skills in drawing reasonable conclusions from evaluated data.
• develop a foundation of essential knowledge about the cultural, social and natural worlds, and individual well-being.
• demonstrate a mastery of communication skills, both written and oral.
• understand the commonalities and diversity of the human experience, values and opinions.
• apply systematic reasoning and develop information management quantitative skills.
• be prepared to transfer to an upper-level institution.

Career Opportunities

The Individual Studies degree program serves as a base for students who plan to continue their education at a four-year institution. Because of the flexibility of the degree, students have the option of developing a career path of their choice early in their educational experience.

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. These institutions include:
• four year institutions in the State University of New York (SUNY) system
• private state and national four-year institutions

---

### Program Description

The Associate in Science degree program in Liberal Arts and Sciences with a Mathematics and Science emphasis is designed specifically for students to transfer, with junior status, to the appropriate upper-level college or university of their choice, where they can complete the B.S./B.A. degree in their chosen field of study. As such, the program provides core courses and general education requirements that would be included in the first two years of study at four-year institutions. This degree gives mathematics/science students the flexibility to match a program to their individual goals, backgrounds and talents. The various curricula provide the opportunity to pursue a variety of academic and career interests in mathematics and in the natural/physical sciences.

The course distribution in mathematics and science is designed to provide a solid foundation in the basics of natural and physical sciences/mathematics: future advanced coursework will build on this foundation. The general education elective credits round out the curriculum in this degree program. Students should consult the appropriate department chairperson and faculty for specific advice about pursuing a particular discipline within this area. Only such consultation will guarantee the correct level of course choice and rigor required to match the student's transfer plans as they work toward a bachelor's degree.

### Admission Criteria

Admission to this program requires that students have completed the A.S. degree program in Liberal Arts and Sciences with a Mathematics and Science emphasis. Students should consult the appropriate department chairperson and faculty for specific advice about pursuing a particular discipline within this area. Only such consultation will guarantee the correct level of course choice and rigor required to match the student's transfer plans as they work toward a bachelor's degree.

Before initiating study for this A.S. degree a student must have achieved a mathematical proficiency which includes intermediate level algebra. At SUNY Orange, this means that a student must have tested beyond Intermediate Algebra (MAT 102) to begin progress toward this degree. If this is not the case the student must speak with an advisor in order to choose the proper preparatory courses.

### Admission Criteria for A.A. Degree

Admission to this program requires that students have completed the A.A. degree program in Liberal Arts and Sciences with a Mathematics and Science emphasis. Students should consult the appropriate department chairperson and faculty for specific advice about pursuing a particular discipline within this area. Only such consultation will guarantee the correct level of course choice and rigor required to match the student's transfer plans as they work toward a bachelor's degree.

Before initiating study for this A.S. degree a student must have achieved a mathematical proficiency which includes intermediate level algebra. At SUNY Orange, this means that a student must have tested beyond Intermediate Algebra (MAT 102) to begin progress toward this degree. If this is not the case the student must speak with an advisor in order to choose the proper preparatory courses.
Student Learning Outcomes

Students will:
• demonstrate an understanding of the scientific method through their ability to integrate the observation, measurement, collection, reduction and evaluation of scientific data.
• demonstrate their broad base of knowledge in the liberal arts and sciences by evoking critical thinking skills in drawing reasonable conclusions from evaluated data.
• demonstrate a mastery of communication skills, both written and oral, especially as related to the analytic methods of natural science.
• perform mathematically at a level commensurate with their chosen field of study.
• plan, organize and implement laboratory experiments and demonstrate the requisite technical/laboratory skills.
• transfer to a four-year institution to earn a baccalaureate degree in either mathematics or the natural/physical sciences.

Career Opportunities

• professional degrees or working in private sector firms in the various fields
• R&D or laboratory opportunities in private and public sector
• positions in education on primary or secondary level
• excellent background for other fields requiring mathematics/science proficiency, including:
  • biology
  • pre-professional training for medicine, dentistry, veterinary science, pharmacy, etc.
  • environmental sciences
  • Teaching or research
  • chemistry
  • geology
  • mathematics
  • physics/astronomy

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. Students regularly transfer with junior status to colleges and universities in the State University of New York System as well as to private and state colleges and universities across the country.

### Recommended Course Sequence

#### Program Description

The Associate in Applied Science degree program in Marketing prepares graduates for immediate entry into positions ranging from entry level to marketing management. Students develop interpersonal and conceptual skills such as communication, decision making and problem solving.

The primary focus of the curriculum is on marketing strategy, selling techniques, advertising procedures and international marketing. This well-balanced program includes a marketing core, accounting, computer information systems, law and liberal arts courses. Students will be involved in developing marketing plans, creating advertising, presenting sales presentations, and participating in both group and individual projects designed to enhance their skills.

Business Department faculty are well-trained and experienced in their areas of expertise, and highly motivated to work with students, helping them to succeed in their quest for a job. Many students complete this degree and transfer to four-year colleges to earn a bachelor’s degree; however, students who have this objective are advised that they may suffer transfer credit losses due to the concentration of business courses.

#### Admission Criteria

Admission to this program requires that students have high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Students are required to complete most developmental classes before attempting the courses in this program. See Developmental Course List on page 47.

This degree has been approved by ACBSP and SUNY.

Student Learning Outcomes

Students will:

• demonstrate knowledge of marketing principles and applications.
• demonstrate the ability to identify, analyze, and evaluate market segments and strategies.
• express business information effectively in both oral and in written forms.

Career Opportunities

• advertising
• marketing and manufacturing
• marketing research
• public relations
• sales
• customer service

Transfer Opportunities

While the A.A.S. is a degree leading to immediate job placement upon graduation, SUNY Orange has special relationships with Franklin University for transfer to a B.S. degree in marketing, business administration or human resource management.

Other transfer opportunities exist with:

• Franklin University
• Mount St. Mary College
• Ramapo College
• SUNY Empire State

*MLT 216 Histology strongly suggested*
Medical Laboratory Technology

Degree Awarded: Associate in Applied Science

Admission Criteria

Academic Requirements

• High school diploma or GED
• Eligible to take Freshman English I (ENG 101)
• Eligible to take Elementary Algebra (MAT 101) or have successfully completed Developmental Algebra (MAT 020)
• Students must attain a minimum cumulative GPA of 2.0

Department-Specific Requirements:

• Attendance at a pre-admission orientation. At this orientation, students will receive and sign off on information pertaining to health forms, drug testing, and criminal record policies.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CQPA and credits completed towards the degree, Orange County residency and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester.

Student Learning Outcomes

Students will:

• properly collect, process and analyze biological specimens
• safely and accurately perform analytical procedures, recognize factors affecting results and take the appropriate action.
• Be eligible for national certification as a Medical Laboratory Technician by successfully completing the examination given by the American Society for Clinical Pathology Board of Certification.
• be eligible to sit for the NYS Certified Clinical Laboratory Technician Licensing Examination.

Note: Several essential movement, observational, communication, intellectual and behavioral functions are required to complete the objectives of the courses in the program and to perform the necessary duties required of a medical laboratory technician. A detailed listing of these essential functions is included in the MLT admissions packet and is discussed at the pre-admission orientation session.

Career Opportunities

• hospitals
• doctors’ offices
• reference laboratories
• food/cosmetic industries
• pharmaceuticals
• veterinary laboratories
• research
• sales and marketing

Transfer Opportunities

This degree program prepares students for immediate entry into the workplace. Consult the department for more information regarding further educational opportunities in this profession.

Medical Office Assistant

Degree Awarded: Associate in Applied Science

Recommended Course Sequence

Program Description

The Associate in Applied Science degree program in Medical Office Assistant prepares graduates to begin their careers in medical organizations. Emphasis is placed on developing office skills and knowledge of medical terms.

The medical office assistant provides office support to medical facilities including records management, medical report production, patient interface, insurance and billing responsibilities, telephone interaction, and confidentiality.

Students take a sequence of office skill courses including various levels of Keyboarding, Microsoft Word and PowerPoint, Excel and Access, Transcription Skills, Medical Terminology, Physiology, and Medical Coding. Students learn to use modern office equipment and are exposed to realistic office situations through internships. Special medical projects are provided in Advanced Computer Keyboarding, Transcription Skills and Excel and Access.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants).

Total Credits: 62

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

Medical Office Assistant

Degree Awarded: Associate in Applied Science

Recommended Course Sequence

Program Description

The Associate in Applied Science degree program in Medical Office Assistant prepares graduates to begin their careers in medical organizations. Emphasis is placed on developing office skills and knowledge of medical terms.

The medical office assistant provides office support to medical facilities including records management, medical report production, patient interface, insurance and billing responsibilities, telephone interaction, and confidentiality.

Students take a sequence of office skill courses including various levels of Keyboarding, Microsoft Word and PowerPoint, Excel and Access, Transcription Skills, Medical Terminology, Physiology, and Medical Coding. Students learn to use modern office equipment and are exposed to realistic office situations through internships. Special medical projects are provided in Advanced Computer Keyboarding, Transcription Skills and Excel and Access.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants).

Medical Office Assistant
Degree Awarded: Associate in Applied Science

Student Learning Outcomes
Students will:
• demonstrate the ability to keyboard in correct form medical correspondence, which includes letters, memos, forms, reports, tables and statements.
• demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.
• effectively communicate both orally and in written documents.
• understand and apply proper medical codes.
• learn critical thinking skills through an analytical business report project.

Career Opportunities
Medical office assistant positions exist in the following fields:
• hospitals
• long-term care
• community agencies
• health maintenance organizations
• government and industry
• physicians' offices
• outpatient services
• military-medical services
• medical laboratories
• imaging centers

Career Opportunities

**Program Description**

The Associate in Applied Science degree program in Nursing prepares students to become registered nurses. It provides for the development of those competencies expected of registered nurses in general nursing practice at the technical level. Emphasis is on direct client care within a career in nursing.

Through study in the humanities, biological and social sciences, and the experience of academic life, the student gains an understanding of the value of the individual and his/her contribution to society. This curriculum combines general education courses and nursing courses with laboratory and clinical experiences, during which students have the opportunity to care for clients in a variety of healthcare settings. Due to limited availability of clinical experience in some areas, students may be assigned to evening and/or weekend clinical experiences. Students' personal schedules will have to be adjusted to allow for these required opportunities. Students gain clinical experience in long-term care, medical-surgical, maternal/child, and mental health nursing. A variety of teaching methods is employed to integrate the classroom with the clinical experience.

Graduates of the program will have the necessary theoretical background and technical skills for an entry level nursing position. They will value the pursuit of lifelong learning. Graduates of the program are eligible to take the National Council Licensure Examination (NCLEX) for Registered Professional Nurse (RN) and will demonstrate the ability to pass the examination at a rate equal to or exceeding the mean for New York State.

**Student Learning Outcomes**

Students will:

- utilize a reasoning process to resolve clinical and professional problems.
- listen, speak and write to promote the client's well being.
- follow accepted standards of nursing practice to provide safe and appropriate care.
- through professional role development, provide age appropriate care to clients in diverse healthcare settings.

Total Credits: 68
Admission Criteria

Academic Requirements:
• High school diploma or GED
• Eligible to take Freshman English I (ENG 101)
• Eligible to take Intermediate Algebra (MAT 102), or have completed Elementary Algebra (MAT 101) or equivalent with a 2.0 or higher
• Eligible to take Anatomy and Physiology I (BIO 111) - may be met by successful completion of one of the following: Intro to Biology (BIO 110), Anatomy & Physiology I (BIO 111), or Anatomy & Physiology II (BIO 112), with a 2.0 or higher, or High School AP Biology (score of 3, 4, or 5); or a passing grade on the Biology CLEP examination.
• Students must attain a minimum cumulative GPA of 2.75

Department-Specific Requirements:
• Attendance at a pre-admission orientation. At this orientation, student will receive and sign off on information pertaining to health forms, program standards, CPR certification, and criminal record & drug screening policies. All students must submit to a criminal background check and urine drug screening. Orientation dates are available online at www.sunyorange.edu/Admissions/HealthForms.shtml.
• Applicants for the Nursing program will be required to take the Test of Essential Academic Skills (TEAS) a score in the proficient range. Visit www.sunyorange.edu/testing/services.shtml for test information, and scheduling.
• The Nursing Department will review transcripts of those students who have been enrolled in a health professions program at SUNY Orange or another college.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental specific requirements, highest combination of GPA, TEAS score and credits completed towards the degree, and seat availability.

All requirements must be completed and an eligibility form admission consideration must be submitted to the Admissions Office before February 1 for the fall semester at the Middletown Campus and October 1st for the spring semester at the Newburgh campus.

Transfer Opportunities

Many of our graduates transfer to upper-level colleges and universities to pursue advanced degrees in the nursing profession. Successful transfer depends on the courses taken and the student's grade point average. SUNY Orange has special relationships with a number of colleges and universities.

### Guidelines for Advanced Placement for Licensed Practical Nurses

#### Transfer from a Practical Nursing Program
- SUNY Orange has an articulation agreement with OUBCES School of Practical Nursing. Graduates of this program may transfer into NUR 102-Fundamentals of Nursing 2 based on the following criteria:
  - Meet the college and nursing program admission criteria
  - Attainment of an overall GPA of 3.5 in the LPN program
  - Graduation within the previous five years
  - Have a letter of recommendation from an OUBCES practical nursing program instructor
  - Pass the NYS Licensed Practical Nurse Examination
  - Successful completion of Nursing Bridge Course 1 (N3029)

#### Advance Standing into the Second Semester
- Licensed Practical Nurses who do not meet the transfer requirements from an articulation agreement, may apply for admission to NUR 102-Fundamentals of Nursing 2. The application will be reviewed when the individual has met the college and nursing program admission criteria and the following has been achieved:
  - Successful completion of an NLN accredited and/or state registered LPN program.
  - A score of B on the Excelsior College Examination for Fundamentals of Nursing. (score may not be more than three years old)
  - Successful completion of Nursing Bridge Course 1 (N3029)

#### Advance Standing into the Fourth Semester
- Licensed Practical Nurses, who have successfully completed NUR 102-Fundamentals of Nursing 2, may be considered for advanced standing into NUR 202-Physical and Mental Illness after completing the following requirements:
  - PN transcript review demonstrates a minimum of 70 clinical hours in Maternal and Child Nursing
  - A score of B on the Excelsior College Examination in Maternal and Child Nursing (baccaulareate)
  - Successful completion of Nursing Bridge Course 2

Credit for Nursing 1 will be granted after successful completion of Nursing 2 with a grade of C (2.0) or higher. Credit for Nursing 3 will be granted after successful completion of Nursing 4 and 5 with a grade of C (2.0) or higher. Minimum passing grade in all core nursing courses is 75. Nursing 2 and 4 are offered in the Spring semesters. The offering of these courses out of sequence is never guaranteed & at the discretion of the nursing department based on enrollment & clinical placement availability.

**Total Credits: 68**

* Refer to Guide for Social Science Requirement and select from group A, C or D.
Students will be considered for acceptance into the Nursing Program based on the admission criteria in effect at the time of the request. Please be advised that certain general education requirements are co-requisites with nursing courses. A&P 1 must be taken with or prior to Nursing 2. Elements of Chemistry and Physics & Psychology of Adjustment must be taken prior to Nursing 4.

LPN to RN Admissions Eligibility Forms are to be submitted by September 1st and all LPN - RN admissions requirements must be completed by November 1st in order for a student to be considered for acceptance into the program for the spring semester.

Progression Through The Program

A minimum grade of 75% (C) in each nursing course is required for progress in and graduation in nursing. A minimum grade of C is required in all laboratory science courses for progression in the nursing program. Nursing students must complete Freshman English 1 & 2 prior to enrollment in Nursing 3. Required nursing courses must be taken in the prescribed sequence. A student may repeat only one required nursing course one time. Once students are enrolled in the core nursing courses, they are to complete the program in three years. Students interested in admission to the evening nursing program are advised that this is a part-time program limited to 11.5 credits each semester. In order to meet this requirement; all non-clinical courses should be completed prior to starting this part-time program. The day program is two academic years in length if pursued on a full time basis. Because of the intense nature of the Nursing Program, the student may find that part-time study is more appropriate.

Nursing Readmission

Students who withdraw from, fail or receive a grade below "C" in any one of the required nursing courses may apply for readmission to the Nursing Program. A student is only allowed to do this one time. Additionally the program is to be completed within three years from the start of the first nursing course. A student seeking readmission must meet the program requirements in effect at the date of re-entry. Readmission is neither guaranteed nor is it an automatic process. Students requesting to be considered for readmission to Nursing 2, 3, 4 or 5 must inform the nursing department chairperson in writing. Written requests must be submitted by June 1st for the Fall semester and September 1st for the Spring semester. Prior to readmission, students are required to successfully complete a special bridge course.

Licencure

Graduates of the nursing program are eligible to apply for the National Council Licensing Examination for Registered Nurses (NCLEX). Completion of the Nursing program does not assure admittance to the RN licensure exam. When submitting an application for licensure and first registration, the applicant is required to report any history of a felony or misdemeanor. The state boards of nursing will review all applicant information submitted and determine if the applicant is eligible for licensure.

Degree Awarded: Associate in Applied Science

Students will be considered for acceptance into the Nursing Program based on the admission criteria in effect at the time of the request. Please be advised that certain general education requirements are co-requisites with nursing courses. A&P 2 must be taken with or prior to Nursing 2. Elements of Chemistry and Physics & Psychology of Adjustment must be taken prior to Nursing 4.

Degree Awarded: Associate in Applied Science
Occupational Therapy Assistant
Degree Awarded: Associate in Applied Science

Admission Criteria
Academic Requirements:
• High school diploma or GED
• Eligible to take Freshman English I (ENG 101)
• Eligible to take Elementary Algebra (MAT 101) or have successfully completed Developmental Algebra (MAT 020)
• Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or introduction to Biology or Anatomy & Physiology I with a grade of 2.0 or better (within 5 years of program entry)
• Students must attain a minimum cumulative GPA of 2.0

Department-Specific Requirements:
• Submit Occupational Therapy practitioner observation form with essay. (15 hour min. with documentation).
• Attendance at a pre-admission orientation (includes interview with Dept Chair; problem solving activity and discussion). At this orientation, students will receive and sign off on information pertaining to health forms, drug testing, and criminal record policies.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CQPA and credits completed towards the degree, Orange County residency and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester.

Student Learning Outcomes
Students will:
• learn problem-solving and clinical reasoning.
• build on knowledge, practice skills, theory and critical thinking applications.
• apply these multiple skills and insights to adapt to and cope in this novel and diverse world.
• think and act with flexibility, to think “outside the box.”
• welcome change and growth in themselves, their clients and the organizations they serve.

Transfer Opportunities
While the A.A.S. is a degree leading to immediate job placement upon graduation and successful completion of the National Certification exam, SUNY Orange has special relationships with weekend college programs for transfer to a B.S./M.S. degree at:
• Dominican College
• Mercy College
• Misericordia College

Career Opportunities
• hospitals, inpatient and outpatient mental health facilities
• rehabilitation centers and skilled nursing facilities
• schools, developmental disabilities service sites
• home and community health agencies
• accessibility and home modification specialists
• assistive technology specialists
• health and wellness centers
• advancement to OTR

Occupational Therapy Assistant

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Description

The Associate in Applied Science degree program in Office Technologies prepares graduates to begin their careers as office assistants. Three special emphasis areas are provided: legal office assistant, office manager, and secretary/information processor. Specialized courses combine with the common core courses to prepare graduates to enter the office support staff.

The office assistant provides office support to employers in a wide variety of settings. This support includes document production, computer software capability, records management, telephone interaction, customer service, keyboarding and data entry.

Students learn to use modern office equipment and, through internships, are exposed to realistic office situations. The internship experience includes 90 hours of office work with a cooperating employer along with weekly meetings with the College instructor. Topics for these meetings include: minute-taking instruction, telephone techniques, human relations issues, problem solving, the resume and interview, and the creation of a professional portfolio.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Students without sufficient keyboarding ability will be required to take Elementary Computer Keyboarding. Students with sufficient keyboarding ability to pass the waiver for Intermediate Computer Keyboarding fulfill this requirement with a business elective.

Student Learning Outcomes

Students will:
- demonstrate the ability to keyboard in correct form business correspondence, which includes letters, interoffice memos, forms, reports, tables, legal documents and financial statements.
- demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.
- effectively communicate both orally and in written documents.
- understand the concepts of current information and word processing functions through the successful completion of learning exercises, application problems and exams at a microcomputer workstation.
- learn critical thinking skills through an analytical business report project.

Career Opportunities

- Service
- Education
- Travel
- Entertainment
- Manufacturing
- Legal and Medical
- Insurance
- Industrial
- Media/Advertising

Transfer Opportunities

While the A.A.S is a degree leading to immediate job placement upon graduation, SUNY Orange has a special relationship for transfer to a B.S. degree in Applied Management with Franklin University.

Other transfer opportunities exist with:
- Franklin University (to another related degree)
- Mount St. Mary College
- Ramapo College
- SUNY Empire State College

Program Description

The Associate in Applied Science degree program in Office Technologies prepares graduates to begin their careers as office assistants. Three special emphasis areas are provided: legal office assistant, office manager, and secretary/information processor. Specialized courses combine with the common core courses to prepare graduates to enter the office support staff.

The office assistant provides office support to employers in a wide variety of settings. This support includes document production, computer software capability, records management, telephone interaction, customer service, keyboarding and data entry.

Students learn to use modern office equipment and, through internships, are exposed to realistic office situations. The internship experience includes 90 hours of office work with a cooperating employer along with weekly meetings with the College instructor. Topics for these meetings include: minute-taking instruction, telephone techniques, human relations issues, problem solving, the resume and interview, and the creation of a professional portfolio.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Students without sufficient keyboarding ability will be required to take Elementary Computer Keyboarding. Students with sufficient keyboarding ability to pass the waiver for Intermediate Computer Keyboarding fulfill this requirement with a business elective.

Student Learning Outcomes

Students will:
- demonstrate the ability to keyboard in correct form business correspondence, which includes letters, interoffice memos, forms, reports, tables, legal documents and financial statements.
- demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.

**Total Credits: 67-71**

---

Students in the program take a common core of 54 credits and select one of three degree emphasis areas: Music Performance (total of 67 credits), Jazz and Commercial Music (total of 70 credits) or Music Business (total of 71 credits).

---

* Must be MUS 165 Jazz Ensemble if in Jazz/Commercial Music emphasis.
** Must be MUS 105 History of Jazz if in Jazz/Commercial Music emphasis.
Performing Arts: Music
Degree Awarded: Associate in Applied Science

Program Description
The Associate in Applied Science degree program in Performing Arts: Music prepares graduates for employment in a field connected with music or possible transfer to a bachelor's degree music program. Students select one of three emphasis areas: Music Performance, Jazz and Commercial Music, or Music Business. For those seeking such a transfer, an articulation with SUNY Purchase has been established giving students the opportunity for seamless transition to a four-year program. Students interested in the transfer program should schedule a conference with the department chair.

The program includes core courses in music history, theory and related musicianship skills, piano, instrumental or vocal performance, acoustics, and music business. Performing ensembles enable students to learn in active, collaborative settings and offer ongoing service and enrichment to the College and community through a variety of musical performances. Courses in arranging and improvisation are required for students choosing the Jazz and Commercial option. Students selecting the Music Performance or Jazz and Commercial options must complete four credits of private music instruction with a department-approved teacher and are responsible for the private instructor’s fee. Courses not required to complete the degree but also available include songwriting, jazz keyboard harmony, jazz/commercial guitar, jazz/commercial drumming, and audio engineering and design for the arts.

An ongoing visiting artist series enables students to learn directly from some of the best contemporary performing artists in workshops featuring musicians such as Cindy Blackman (drummer for Lenny Kravitz), Randy Brecker, Bob Mintzer and Kenny Barron. Many of the courses required in the program fulfill New York State general education requirements and thus are easily transferable within the SUNY system.

Admission Criteria
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See page 7 for more details on the admission process for all applicants.)

Note: Although this is an open admissions program, music placement assessment is required for registration into certain courses. Consult with Arts and Communication Department faculty.

Student Learning Outcomes
Students will:
• demonstrate proficiency in music theory, notation, harmony and part-writing.
• apply their knowledge of music theory, notation and harmony at the keyboard.
• demonstrate proficiency in sight reading on their instrument and sight singing.
• notate musical materials from dictation.
• demonstrate proficiency on the piano through the performance of standard repertory.
• perform in an instrumental or vocal ensemble.
• demonstrate knowledge of music history, musical styles, genres and composers.
• demonstrate fundamental understanding of music business.
• demonstrate fundamental understanding of acoustics.
• pursue a career in the field of music and/or transfer to a baccalaureate music program.

Transfer Opportunities
Although the A.A.S. is designed primarily as a professional degree, many graduates do transfer to baccalaureate programs at other colleges. SUNY Orange enjoys an articulation agreement with SUNY Purchase guaranteeing acceptance and transfer of all SUNY Orange credits assuming basic entrance criteria are met.

Admission Criteria
Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). Licensure
Graduates of the Physical Therapist Assistant program are eligible to apply for certification in the state where they plan to practice. This process includes providing a history of possible existing criminal convictions and/or professional misconduct. Criteria for determination of good moral character varies from state to state, therefore, completion of the program does not guarantee acceptance by that state's regulatory entity to become certified or licensed.

Program Description
The Associate in Applied Science degree program in Physical Therapist Assistant (PTA) is designed to provide students with both the academic knowledge and clinical skills to become certified/licensed PTAs. The field of Physical Therapy is demanding. Graduates are required to pass the national testing process as well as meet all program requirements which are guided by the Commission on Accreditation in Physical Therapy Education. Many states, including New York, also require that students pass the national licensing examination as part of the certification/licensure process.

The PTA program includes a minimum grade of C in each of the following courses: Anatomy and Physiology 1, Anatomy and Physiology 2, and Basic Exercise Physiology. A minimum grade of C is required in all PTA courses and a minimum grade of C is required in each of the following courses: Anatomy and Physiology 1, Anatomy and Physiology 2, and Basic Exercise Physiology. A minimum grade of C is required in all PTA courses and a minimum grade of C is required in each of the following courses: Anatomy and Physiology 1, Anatomy and Physiology 2, and Basic Exercise Physiology. A minimum grade of C is required in all PTA courses and a minimum grade of C is required in each of the following courses: Anatomy and Physiology 1, Anatomy and Physiology 2, and Basic Exercise Physiology.
**Physical Therapist Assistant**

*Degree Awarded: Associate in Applied Science*

### Admission Criteria

**Academic Requirements:**
- High school diploma or GED
- Eligible to take Freshman English I (ENG 101)
- Eligible to take Elementary Algebra (MAT 101) or equivalent with a 2.0 or higher or have completed Developmental Algebra (MAT 020)
- Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or introduction to Biology or Anatomy & Physiology I with a grade of 2.0 or better (within 5 years of program entry)
- Minimum cumulative GPA of 2.0

**Department-Specific Requirements:**
- Submit Physical Therapy practitioner observation form with essay (15 hour min. with documentation).
- Attendance at a pre-admission orientation (includes interview with Dept Chair; Problem solving activity and discussion).

**Note:** Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CQPA and credits completed towards the degree, Orange County residency and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester. If seats remain available after February 1, students will be assessed as they apply.

### Student Learning Outcomes

Students will:
- possess entry-level skills as determined by the Commission on Accreditation in Physical Therapy Education.
- be able to work under the direction and supervision of a licensed physical therapist in an ethical, legal, safe, and effective manner becoming an integral member of the healthcare team.
- demonstrate appropriate critical thinking and problem-solving skills in their role as a Physical Therapist Assistant.
- demonstrate an understanding of the New York State Education Law as it relates to the provision of Physical Therapy services.
- demonstrate an awareness of the existence of varying practice laws from state to state.
- successfully complete the National Physical Therapy Exam for PTAs.
- develop the skills necessary to pursue lifelong learning needed for personal and professional growth.
- be aware of their responsibility to promote the profession through membership in the APTA, attending local and national meetings and conferences, and participation in community events.

### Transfer Opportunities

The A.A.S. degree is primarily intended to prepare students for immediate employment; however, transfer opportunities exist in some areas.

If a student plans to pursue a Physical Therapy doctorate program, he or she should see the department chair or a faculty advisor as soon as possible.

<tbody>
<tr>
<td>The Associate in Applied Science degree program in Radiologic Technology prepares students to apply to take the Registry exam offered by the American Registry of Radiologic Technologists to become a radiographer. An essential member of the healthcare team, the radiographer positions body parts accurately and manipulates radiographic equipment to produce a quality diagnostic image with the least amount of radiation necessary. The Radiologic Technology program is dedicated to providing each student with the educational activities necessary to develop the required critical thinking and technical and interpersonal skills of the radiographer. The highly skilled radiographer is educated in properly caring for the patient's needs during the radiographic examination, manipulates radiographic and computerized equipment, as well as adheres to protocols in bedside, CT and operating room areas, selects technical factors and diagnostic parameters, instructs and assists the patient in order to obtain the necessary positioning, demonstrates appropriate application of radiation safety principles of &quot;time, distance and shielding,&quot; in order to protect the patient, self and others, exhibits care and accuracy in the administration, preparation and disposal of drugs and contrast agents. Note: The Radiologic Technology program, as well as the full of radiologic technology, is a rigorous one. Program standards are not altered for disabled students. The College will make every effort to provide reasonable accommodations to students with disabling conditions.</td>

**Program Description**

The Associate in Applied Science degree program in Radiologic Technology prepares students to apply to take the Registry exam offered by the American Registry of Radiologic Technologists to become a radiographer. An essential member of the healthcare team, the radiographer positions body parts accurately and manipulates radiographic equipment to produce a quality diagnostic image with the least amount of radiation necessary. The Radiologic Technology program is dedicated to providing each student with the educational activities necessary to develop the required critical thinking and technical and interpersonal skills of the radiographer. The highly skilled radiographer is educated in properly caring for the patient's needs during the radiographic examination, manipulates radiographic and computerized equipment, as well as adheres to protocols in bedside, CT and operating room areas, selects technical factors and diagnostic parameters, instructs and assists the patient in order to obtain the necessary positioning, demonstrates appropriate application of radiation safety principles of "time, distance and shielding," in order to protect the patient, self and others, exhibits care and accuracy in the administration, preparation and disposal of drugs and contrast agents. Note: The Radiologic Technology program, as well as the full of radiologic technology, is a rigorous one. Program standards are not altered for disabled students. The College will make every effort to provide reasonable accommodations to students with disabling conditions. **Admission Criteria Academic Requirements:**

• High school diploma or GED

• Eligible to take Freshman English 1 (ENG 101)

• Eligible to take College Algebra (MAT 121), or have completed Intermediate Algebra (MAT 102) or equivalent with a 2.0 or higher

• Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or introduction to Biology or Anatomy & Physiology 1 with a grade of 2.0 or better (within 5 years of program entry)

• Minimum cumulative GPA of 2.5

</table>
Students will:
- demonstrate the ability to think critically when performing radiographic procedures.
- demonstrate the technical skills necessary to create quality radiographic images while applying radiation protection practices.
- effectively interact and communicate with the public, patients and members of the healthcare team.
- demonstrate the ability to properly care for patients.
- with speed and accuracy, meet these following technical standards:
  - place the patient in position, set the controls of the x-ray machine and evaluate the quality of the radiographic image.
  - provide patient instructions and respond to questions and requests in both routine and emergency situations.
  - transport and assist the patient, and to move the x-ray machine and image receptor to the desired position, including operation of equipment in the surgical suite and at the patient’s bedside.

Department-Specific Requirements:
- Attendance at a pre-admission orientation. At this orientation, students will receive and sign off on information pertaining to technical standards, health forms, and criminal record policies.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CQPA and credits completed towards the degree.

At the time prospective students submit their applications to the American Registry of Radiologic Technologists and the New York State Department of Health, they must state a statement about their conviction record, if any. If they answer “yes” to a question about a felony conviction, they should contact the NYS Department of Health (518) 402-7580 AND The American Registry of Radiologic Technologists and the New York State Department of Health, they must make a statement about their conviction record, if any. If they answer “yes” to a question about a felony conviction, they should contact the NYS Department of Health (518) 402-7580 AND The American Registry of Radiologic Technologists (651) 687-0048. Both of these agencies MUST be contacted to determine if students will be eligible to sit for the certification exam and/or to be licensed.

Transfer Opportunities
The A.A.S degree is primarily intended to prepare students for immediate employment: however, some graduates have gone on to further study in radiation therapy, nuclear medicine, cardiac catheterization and education.

Career Opportunities
- hospitals, clinics, medical imaging centers, doctors’ offices, educational facilities and equipment manufacturers as:
  - radiographers and special procedures technologists
  - mammographers, CT technologists and MRI technologists
  - nuclear medicine technologists, PET/CT technologists
  - radiation therapists
  - sales personnel, educators, clinical instructors and hospital administrators

### Program Description

The Teaching Assistant certificate program is designed to prepare teacher assistants and paraprofessionals at all public school levels. Students will develop career skills in preparation for New York State Teacher Assistant Licensure and Certification. They will be introduced to career aptitudes and skills necessary for educational and behavioral assistance in New York State classrooms from preschool to high school. The program will supply a basic educational foundation comprised of at least three SUNY General Education topics and at least one area of liberal arts and sciences, as well as specific educational courses which meet Federal and/or New York State requirements for Teaching Assistants. Educational courses may include Introduction to Education, Mandated Training, and Foundations of Elementary School Mathematics. All courses are applicable toward an associate's degree AND the Jointly Registered Teacher Education Program (JRTEP).

### Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

---

**Fall 2011**
Teaching Assistant
Degree Awarded: Certificate

Certification Requirements

Federal Requirements under NCLB
• Currently employed TAs are “grandfathered” if they have a Continuing Certificate AND are tenured.
• Currently employed TAs with a Continuing Certificate who are NOT tenured (Provisional Status) have until January 2006 to fulfill the NCLB requirements: passing grade on the NYSATAS exam OR complete two (2) years of college (48 credits) OR earn an Associate’s Degree.
• All TAs hired after January 2002 must have a high school diploma AND a passing grade on the NYSATAS exam OR have completed two years of college (48 credits) OR earn an Associate’s degree. This requirement must be met immediately if hired to work in a Title I or school-wide program.

New York State Requirements
• Currently employed TAs are “grandfathered” if they have a Continuing Certificate, unless they choose to apply for a Level I, II or III Certificate under the new requirements. (In order to be “grandfathered,” a TA must have obtained a Continuing Certificate by February 2004.)
• All TAs hired after February 2004 must pass the NYSATAS exam AND complete 18 credits of college coursework within three years AND complete 75 hours of professional development every five years.

Student Learning Outcomes

Students will:
• exhibit critical thinking and problem solving skills.
• acquire a broad base knowledge in at least one area of liberal arts and sciences, and at least three SUNY General Education topics.
• understand the fundamentals of child development theories and their classroom applications.
• demonstrate relevant, creative, developmentally appropriate teaching techniques.
• communicate effectively in oral and written forms.

Career Opportunities

Entry-level teaching assistant or paraprofessional in:
• birth to second grade
• first to sixth grade
• seventh to twelfth grade

Contact Information

Program Description

The Electrical Technology Telecommunications certificate will prepare students to succeed in a variety of areas in the field of Telecommunications. The course curriculum provides the students with the basics of DC and AC electrical circuits. They will build and test digital, electronic and telecommunications circuits. Students research, build and present a wireless communications project. Most courses in the program are a combination of lecture and lab. The lecture covers the theoretical aspect of the curriculum, while the lab provides hands-on experience, as well as reinforcing the concepts. A new state-of-the-art telecommunications lab, coupled with courses teaching current technology will provide students with a well rounded education and a competitive edge in the job market.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (GEDs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission.
Telecommunications

Student Learning Outcomes
• develop logical techniques for designing, implementing and maintaining advanced telecommunications and electronic systems.
• design and troubleshoot telecommunication and electronic systems
• develop techniques to reason new concepts
• develop methods to maintain currency in technology fields
• utilize mathematics and computer software as the basic tools for the design and analysis of complex telecommunications and electronic systems.
• develop the ability to communicate effectively both in written and oral form.
• promote and develop teamwork and team building as an effective tool for increased productivity.
• mimic and develop standards workplace competencies.

Career Opportunities
Students will have diverse opportunities in the field of telecommunications.

Transfer Opportunities
The courses taken in the certificate program can be applied to the SUNY Orange Electrical Technology AAS Program.

### Program Description

The Associate in Applied Science degree program in Visual Communications Technology: Graphic Arts/Printing prepares graduates in all aspects of visual communications and graphic design. These include layout, production, typography, commercial print processes, illustration and computer graphics for entry level positions in graphic design, printing, publishing, desktop publishing, advertising, marketing, presentation graphics, game design, animation, multimedia and communications. As a result, the program prepares students for successful portfolio reviews leading to acceptance into B.A. or B.F.A. programs.

Beginning with Visual Communications 1, students are introduced to Visual Communications theories, graphic design principles, elements, typography, influential persons and contemporary digital media. The curriculum offers sequential Visual Communications and Graphic Design courses, complemented by a broad offering of studio art and art history courses. After taking core courses in the first year, the student selects a concentration area in either Photography, Painting or Figure Drawing in the second year. Concurrently, the student completes the Visual Communications course sequence culminating with Viscom 4, the portfolio development course. Two Practicum courses offer the Viscom student the opportunity to experience an internship with local businesses or departments within the College.

Through an articulation agreement, qualified BOCES candidates can enter the A.A.S degree program, and receive credit for certain first-year courses. After completing the program, students may either enter the workforce or transfer into a bachelor’s degree program (see next page). Detailed course descriptions appear in the course description section of this catalog.

Please note that not all courses are offered in the evening.

---

As a result, the program prepares students for successful portfolio reviews leading to acceptance into B.A. or B.F.A. programs.

Beginning with Visual Communications 1, students are introduced to Visual Communications theories, graphic design principles, elements, typography, influential persons and contemporary digital media. The curriculum offers sequential Visual Communications and Graphic Design courses, complemented by a broad offering of studio art and art history courses. After taking core courses in the first year, the student selects a concentration area in either Photography, Painting or Figure Drawing in the second year. Concurrently, the student completes the Visual Communications course sequence culminating with Viscom 4, the portfolio development course. Two Practicum courses offer the Viscom student the opportunity to experience an internship with local businesses or departments within the College.

Through an articulation agreement, qualified BOCES candidates can enter the A.A.S degree program, and receive credit for certain first-year courses. After completing the program, students may either enter the workforce or transfer into a bachelor’s degree program (see next page). Detailed course descriptions appear in the course description section of this catalog.

Please note that not all courses are offered in the evening.
Visual Communications Technology: Graphic Arts/Printing

Degree Awarded: Associate in Applied Science

Student Learning Outcomes
Students will:
• be prepared for entry level positions in visual communications and/or placement in upper-level programs of study.
• know fundamental concepts and processes of visual communications and graphic design.
• have a basic understanding of the visual communications industry and career opportunities in the field of visual communications.
• be proficient in industry standard technology including hardware and page layout, digital imaging, vector drawing, presentation and web design software.
• produce a portfolio appropriate for entry level roles in visual communications and/or continuing education in upper-level programs.

Career Opportunities
• graphic design, advertising design and marketing
• publishing, desktop publishing and printing
• game design, web design, animation and multimedia
• art direction, illustration, digital photography and color correction

Transfer Opportunities
Although the Associate in Applied Science degree is designed primarily as a professional degree, many students do transfer to baccalaureate programs at other colleges. Many of the courses in the program fulfill New York State general education requirements and thus are easily transferable within the State University of New York system. Presently SUNY Orange has an articulation agreement with Cazenovia College.

Many other students have successfully transferred to:
• Fashion Institute of Technology
• SUNY Albany
• SUNY New Paltz
• SUNY Oneonta
• SUNY Purchase

+ these courses have a prerequisite
The following list is intended to provide guidance in selecting courses that must fall within specific categories to meet degree requirements. This list is not to be confused with degree requirements that state a specific SUNY General Education course must be taken. For example, if your degree requires you to take a SUNY Math, SUNY Social Science, etc., you must follow the SUNY General Education course listing.

Also, if you are pursuing the A.A. Liberal Arts degree, the Social Science requirements are restricted to those courses listed within specific (A-D) categories.

Note: When just a department is noted as meeting the requirement (for example ACC) and there is no number after this designation, this means that all course numbers preceded by ACC meet the requirement.

Developmental courses are not applicable toward any degree program.
Course Descriptions

Each course is identified by a six character alpha numeric code. The first three characters identify the subject code, the next three or four digits identify the catalog number. The department code indicates division or department sponsorship of the course. See column to the right for a listing of the department codes. The catalog number indicates the level of the course. Courses described in this section are listed in alphabetical order.

Read the description of the course carefully before you register for it, noting any prerequisite, corequisite, and the number of class hours. Each description lists the required number of student contact hours per week for a 15 week semester. For example, PHY 101 General Physics 1, 3 lect., 3 lab., 4 cr., meets for three lecture hours and three laboratory hours each week, over a semester of 15 weeks. Four credits are received for successful completion of the course. Consult your faculty advisor if you have any questions about the level or the content of a course.

Due to academic and fiscal considerations, not all courses can be offered each semester of every year. Courses taught only in the fall or spring semesters are so identified; otherwise, courses may be taught both semesters. Therefore, this catalog should not be considered a contractual offer from the college to any prospective student.

Frequency and Timing of Course Offerings

Unless specific semesters are listed, courses are offered on an occasional basis. The college reserves the right to not offer a course when scheduled, based upon budgetary or staffing needs.

Course Index

The following course categories, subject codes, and catalog numbers are listed here only as a quick advising guide. There are exceptions. Please refer to the course descriptions for complete information.

Each description lists the required number of student contact hours per week for a 15 week semester. For example, PHY 101 General Physics 1, 3 lect., 3 lab., 4 cr., meets for three lecture hours and three laboratory hours each week, over a semester of 15 weeks. Four credits are received for successful completion of the course. Consult your faculty advisor if you have any questions about the level or the content of a course.

Due to academic and fiscal considerations, not all courses can be offered each semester of every year. Courses taught only in the fall or spring semesters are so identified; otherwise, courses may be taught both semesters. Therefore, this catalog should not be considered a contractual offer from the college to any prospective student.

Frequency and Timing of Course Offerings

Unless specific semesters are listed, courses are offered on an occasional basis. The college reserves the right to not offer a course when scheduled, based upon budgetary or staffing needs.

Course Index

The following course categories, subject codes, and catalog numbers are listed here only as a quick advising guide. There are exceptions. Please refer to the course descriptions for complete information.
Online Learning

SUNY Orange currently offers several courses online through the internet each year. In addition, students may take courses which are "web-enhanced," "hybrid," or "online" in nature. Students may access these courses from home, on campus, or wherever they can obtain internet access.

Web-enhanced
A web-enhanced course makes use of web technology and services to support distribution of course materials and student access to resources on the web. These courses still meet for the required time on campus. Some courses may require participation in the web-enhanced portion of the course in determining the final grade. Mandatory web-enhanced courses will be clearly marked in all course listings.

Hybrid
A hybrid course makes significant use of internet technology to facilitate access to class materials and support communication between faculty and students, among students, and between students and resources. These courses will only meet for one-half of the required class time on campus and will require participation in the online portion of the course in determining the final grade.

Online
A full online course is one that can be accessed anywhere and anytime, via the internet, with a web browser. It supports all the other services mentioned previously, as well as builds a learning community with the course taking place completely on-line, including live chats, bulletin board discussions and advising. An additional fee of $50 is required for each online course.

To participate in online learning, students must have access to the World Wide Web (a broadband connection is recommended) and must use Internet Explorer 7 or higher or Firefox 3.0 or higher as their web browser (JavaScript and Cookies must be enabled, and pop-up blockers must be disabled). In addition, students will need a word processing program such as Microsoft Word (other word processing software can be used, but documents must be saved in the .rtf format) and Adobe Acrobat Reader. Students are required to use SUNY Orange-issued email accounts. There are various work stations around campus that students may use to access online courses. In the home, an Internet Service Provider (ISP) will provide access for a monthly fee. The student’s ISP will specify the computer requirements for its service.

For more information about online learning at SUNY Orange including courses being offered, FAQs, etc., please visit www.sunyorange.edu/dl.

For more information about online learning at SUNY Orange including courses being offered, FAQs, etc., please visit www.sunyorange.edu/dl.
Accounting (Business Department)

ACC 101—Accounting Principles 1
4 cr. (Fall/Spring)
This is an introduction to accounting practice and theory using the model of the sole proprietorship in a service business. The accounting process for recording, summarizing, and reporting financial data is introduced. Special emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 102—Accounting Principles 2
4 cr. (Fall/Spring)
This is a continuation of accounting practice using the model of the sole proprietorship in a merchandising business. Use of special purpose journals and related subsidiary ledgers in support of merchandising operations and an analysis of payables, receivables, and inventory valuation unique to this area are examined. Additional content in the areas of note financing, long-term assets and payroll are included. The topic of corporations and the specific equity issues related to them are discussed. Course objectives are reinforced through the use of manual and/or computerized practice sets.
Prerequisite: ACC 101

ACC 103—Personal Finance
3 cr. (Spring-Day/Fall-Evening)
The course examines important aspects of consumer decision making. Emphasis is on practical consumer finance areas such as: personal financial planning, budgeting, consumer protection, purchasing, taxes, credit and investments. The course provides the skills to develop a life-long financial plan for the individual.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 153—Financial Accounting
4 cr. (Fall/Spring)
This course provides a solid foundation in basic accounting concepts and methodology of financial accounting. This includes the rules and procedures used by financial accountants in preparing external financial reports. Emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 and BUS 161 or ACC 133 and BUS 161

ACC 154—Managerial Accounting
4 cr. (Fall/Spring)
This course introduces students to managerial accounting as an information system that provides managers with a basis for decision making. Topics include basic C-V-P analysis, estimating costs, job and process costing, break-even analysis, standard costing, short and long term decision making, responsibility accounting, operating budgets, and flexible budgeting. Emphasis is placed on understanding their impact on financial statements Course objectives are reinforced through the use of manual and/or computerized practice sets.
Prerequisite: ACC 101 and ACC 102

ACC 201—Intermediate Accounting 1
4 cr. (Fall-Day/Spring-Evening)
Special emphasis is placed on accounting standards and the FASB bulletins. Topics include generally accepted accounting principles; recognition, valuation and disposition issues; cash and receivables; inventory flow procedures; plant and intangible assets; and revenue recognition.
Prerequisite: ACC 154 and BUS 161 or permission of department or ACC 102

ACC 202—Intermediate Accounting 2
4 cr. (Fall/Spring)
Continued emphasis is placed on accounting standards and the FASB bulletins. Topics include temporary and long-term investments, current liabilities, stockholders equity, bonds and miscellaneous long-term liabilities, pension plans, leases, cash flows, financial statement analysis, earnings per share, and an introduction into the objective characteristics and elements of financial reporting. This is the third course in the Financial Accounting Research System (FARS) will also be introduced.
Prerequisite: ACC 201

ACC 205—Accounting with Microcomputer Applications
3 cr. (Fall-Day/Spring-Evening)
Spreadsheet and time value of money software are introduced and developed as support tools for topics in managerial, financial, and income tax accounting. Topics include capital budgeting, cash budgeting, depreciation, loan/debt/bond amortization, cost/ volume/profit analysis, project development, financing, and profit planning, and an introduction into financial planning. Emphasis is placed on both proper application of theory and quality of report presentation.
Prerequisite: ACC 102 and BUS 161 or ACC 133 and BUS 161

ACC 206—Personal Finance
3 cr. (Spring-Day/Fall-Evening)
This course examines important aspects of consumer decision making. Emphasis is on practical consumer finance areas such as: personal financial planning, budgeting, consumer protection, purchasing, taxes, credit and investments. The course provides the skills to develop a life-long financial plan for the individual.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 207—Financial Accounting
4 cr. (Spring-Summer)
This course provides a solid foundation in basic accounting concepts and methodology of financial accounting. This includes the rules and procedures used by financial accountants in preparing external financial reports. Emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 212—Managerial Accounting
4 cr. (Fall/Spring)
This is an introduction to accounting practice and theory using the model of the sole proprietorship in a service business. The accounting process for recording, summarizing, and reporting financial data is introduced. Special emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 213—Financial Accounting
4 cr. (Spring-Summer)
This course provides a solid foundation in basic accounting concepts and methodology of financial accounting. This includes the rules and procedures used by financial accountants in preparing external financial reports. Emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: ACC 102 and BUS 161 or ACC 133 and BUS 161

Accounting (Business Department)

ACC 101—Accounting Principles 1
4 cr. (Fall-Spring)
This is an introduction to accounting practice and theory using the model of the sole proprietorship in a service business. The accounting process for recording, summarizing, and reporting financial data is introduced. Special emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 102—Accounting Principles 2
4 cr. (Fall/Spring)
This is a continuation of accounting practice using the model of the sole proprietorship in a merchandising business. Use of special purpose journals and related subsidiary ledgers in support of merchandising operations and an analysis of payables, receivables, and inventory valuation unique to this area are examined. Additional content in the areas of note financing, long-term assets and payroll are included. The topic of corporations and the specific equity issues related to them are discussed. Course objectives are reinforced through the use of manual and/or computerized practice sets.
Prerequisite: ACC 101

ACC 103—Personal Finance
3 cr. (Spring-Day/Fall-Evening)
The course examines important aspects of consumer decision making. Emphasis is on practical consumer finance areas such as: personal financial planning, budgeting, consumer protection, purchasing, taxes, credit and investments. The course provides the skills to develop a life-long financial plan for the individual.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 105—Financial Accounting
4 cr. (Fall/Spring)
This course provides a solid foundation in basic accounting concepts and methodology of financial accounting. This includes the rules and procedures used by financial accountants in preparing external financial reports. Emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 106—Managerial Accounting
4 cr. (Fall/Spring)
This course introduces students to managerial accounting as an information system that provides managers with a basis for decision making. Topics include basic C-V-P analysis, estimating costs, job and process costing, break-even analysis, standard costing, short and long term decision making, responsibility accounting, operating budgets, and flexible budgeting. Emphasis is placed on understanding their impact on financial statements Course objectives are reinforced through the use of manual and/or computerized practice sets.
Prerequisite: ACC 101 and ACC 102

ACC 201—Intermediate Accounting 1
4 cr. (Fall-Day/Spring-Evening)
Special emphasis is placed on accounting standards and the FASB bulletins. Topics include generally accepted accounting principles; recognition, valuation and disposition issues; cash and receivables; inventory flow procedures; plant and intangible assets; and revenue recognition.
Prerequisite: ACC 154 and BUS 161 or permission of department or ACC 102

ACC 202—Intermediate Accounting 2
4 cr. (Fall/Spring)
Continued emphasis is placed on accounting standards and the FASB bulletins. Topics include temporary and long-term investments, current liabilities, stockholders equity, bonds and miscellaneous long-term liabilities, pension plans, leases, cash flows, financial statement analysis, earnings per share, and an introduction into the objective characteristics and elements of financial reporting. This is the third course in the Financial Accounting Research System (FARS) will also be introduced.
Prerequisite: ACC 201

ACC 203—Financial Accounting
3 cr. (Spring-Day/Fall-Eve)
The course examines important aspects of consumer decision making. Emphasis is on practical consumer finance areas such as: personal financial planning, budgeting, consumer protection, purchasing, taxes, credit and investments. The course provides the skills to develop a life-long financial plan for the individual.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 204—Financial Accounting
4 cr. (Spring-Summer)
This course provides a solid foundation in basic accounting concepts and methodology of financial accounting. This includes the rules and procedures used by financial accountants in preparing external financial reports. Emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 205—Accounting with Microcomputer Applications
3 cr. (Fall-Day/Spring-Even)
Spreadsheet and time value of money software are introduced and developed as support tools for topics in managerial, financial, and income tax accounting. Topics include capital budgeting, cash budgeting, depreciation, loan/debt/bond amortization, cost/volume/profit analysis, project development, financing, and profit planning, and an introduction into financial planning. Emphasis is placed on both proper application of theory and quality of report presentation.
Prerequisite: ACC 102 and BUS 161 or ACC 133 and BUS 161
ACC 211—Federal Income Tax Procedures

3 cr. (Fall/Late Day)

Course emphasis is placed on the current status of Federal income Taxes as they relate to individuals. The history of Federal Income taxation as well as the Federal taxation of business income is also covered. After completion of the course, the student will be able to prepare an individual Federal Income Tax return. The course materials include valuable reference tools.

Prerequisites: ACC 102 or BUS 161 or ACC 153 and BUS 161

ACC 220—Accounting Practice

3 cr. (Spring/Late Day)

Topics include software issues related to new company configuration, security controls, and troubleshooting. Accounting applications are in the areas of bank reconciliation, payroll programming and reporting, sales and excise tax reporting, and management of payables, receivables, and cash. Emphasis is placed on the skills and attitudes needed to assume a "full-charge" office bookkeeping position. QuickBooks Accounting software will be used in this course.

Prerequisites: ACC 102 and BUS 161 or ACC 153 and BUS 161

ACC 214—Accounting Practice

3 cr. (Spring)

Topics include software issues related to new company configuration, security controls, and troubleshooting. Accounting applications are in the areas of bank reconciliation, payroll programming and reporting, sales and excise tax reporting, and management of payables, receivables, and cash. Emphasis is placed on the skills and attitudes needed to assume a "full-charge" office bookkeeping position. QuickBooks Accounting software will be used in this course.

Prerequisites: ACC 102 and BUS 161 or ACC 153 and BUS 161

ACC 220—Accounting Internship

3 cr. (Spring)

Students enrolled in this course will intern at organizations appropriate to learning about accounting and accounting-related fields. Students will integrate classroom theory in a monitored and supervised work experience. Periodic meetings with a faculty advisor and written assignments are required. Evaluations by workplace supervisors are also required. The student intern is required to work a minimum of 90 hours during the semester.

Prerequisites: Permission of instructor or ACC 102 or ACC 153; ACC 214, ACC 205, and BUS 203. A minimum CumGPA of 2.5 is also required.

Anthropology (Behavioral Sciences Department)

ANT 101—Cultural and Social Anthropology

3 cr. (Fall/Spring)

A cross-cultural approach to the nature of culture as humanity's means of existence, focusing on such topics as the method of scientific research in cultural anthropology, the basis of language, a comparative study of events of the human life cycle, family and kinship, religion and ritual, and theories of social change and development. Fulfills category C. (GE 3)

ANT 102—Human Evolution

3 cr. (Fall)

This course applies Darwinian evolutionary theory to an examination of the position of the human species within the animal kingdom, the characteristics of primates, the evolutionary origins of human behavioral patterns, the fossil record of human evolution, the study of race, and continuing human evolution. Fulfills category C. (GE 3)

ANT 103—Archaeology and Prehistory

3 cr. (Spring)

This course investigates the contribution made by archaeological science to an understanding of the process by which human society evolved from earliest forms to the emergence of complex civilizations in various parts of the world prior to historical times. Fulfills category C. (GE 3)

ANT 200—Indians of North America

3 cr. (Spring)

This course is an analysis of Native American cultures north of Mexico from early times to the modern era. Ecological, historic and ethnographic data are utilized to review the various cultural areas. The southwest, plains, northwest, southeast and northeast cultures

ANT 211—Federal Income Tax Procedures

3 cr. (Fall/Late Day)

Course emphasis is placed on the current status of Federal income Taxes as they relate to individuals. The history of Federal Income taxation as well as the Federal taxation of business income is also covered. After completion of the course, the student will be able to prepare an individual Federal Income Tax return. The course materials include valuable reference tools.

Prerequisites: ACC 102 or BUS 161 or ACC 153 and BUS 161

ANT 214—Accounting Practice

3 cr. (Spring)

Topics include software issues related to new company configuration, security controls, and troubleshooting. Accounting applications are in the areas of bank reconciliation, payroll programming and reporting, sales and excise tax reporting, and management of payables, receivables, and cash. Emphasis is placed on the skills and attitudes needed to assume a "full-charge" office bookkeeping position. QuickBooks Accounting software will be used in this course.

Prerequisites: ACC 102 and BUS 161 or ACC 153 and BUS 161

ANT 220—Accounting Internship

3 cr. (Spring)

Students enrolled in this course will intern at organizations appropriate to learning about accounting and accounting-related fields. Students will integrate classroom theory in a monitored and supervised work experience. Periodic meetings with a faculty advisor and written assignments are required. Evaluations by workplace supervisors are also required. The student intern is required to work a minimum of 90 hours during the semester.

Prerequisites: Permission of instructor or ACC 102 or ACC 153; ACC 214, ACC 205, and BUS 203. A minimum CumGPA of 2.5 is also required.

ANT 203—Archaeology and Prehistory

3 cr. (Spring)

This course investigates the contribution made by archaeological science to an understanding of the process by which human society evolved from earliest forms to the emergence of complex civilizations in various parts of the world prior to historical times. Fulfills category C. (GE 3)

ANT 220—Indians of North America

3 cr. (Spring)

This course is an analysis of Native American cultures north of Mexico from early times to the modern era. Ecological, historic and ethnographic data are utilized to review the various cultural areas. The southwest, plains, northwest, southeast and northeast cultures
ARC 101—Architectural Graphics
An introduction to architectural graphics standards. Topics include general drafting terminology, using mechanical drafting equipment, the communicative use of line weights and scales, and the roles of plans, sections and elevations. Laboratory work using instruments and specialized software provides hands-on experience. Drawings will be discussed and demonstrated in lecture and applied in lab assignments and projects. Emphasis is on drafting and line quality and successful communication through architectural drawings. Lab assignments will include both two-dimensional and three-dimensional drawings along with an introduction to shade and shadows.
Corequisite: concurrent enrollment in or completed WRT 040

ARC 102—Advanced Architectural Graphics
An advanced course in architectural graphics with an emphasis on mixed media. Topics include composition and design in relation to the use of color and fonts, composition of presentation boards, the role of freehand sketching in presentations, and Adobe software applications. Emphasis is on composition and successful communication through architectural drawings.
Prequisites: ARC 101

ARC 105—Building Materials and Methods 1
The description and analysis of building materials and their use in construction: foundations, structural elements, and floor, roof, and wall systems. This course primarily focuses on building component and structural terminology, identification and variations of building materials, and methods of wood construction. Steel, concrete and masonry construction will be introduced.
Corequisite: concurrent enrollment in or completed WRT 040

ARC 106—Building Materials and Methods 2
The description and analysis of building materials and methods and their use in masonry, steel and reinforced concrete construction. Sustainable building principles will be introduced. Methods are clarified through the development of drawings such as wall sections, window details, plan details, etc.
Prequisites: ARC 101, ARC 105, CAD 101

ARC 109—Architectural Design 1
An introduction to the basic elements of architectural design - scale, proportion, rhythm, mass, textural effects, contrast, unity, sequential spatial experience. Execution of two and three dimensional design projects. An exploration of nature of art and architecture.
Corequisite: concurrent enrollment in or completed WRT 040

ARC 112—Architectural Design 2
The place of function, structure, and expression of ideas in architecture will be explored through the lecture and lab component of this course. In lecture, case studies will be presented. In the lab, the execution and criticism of architectural design problems will take place. Presentation techniques will be in various media, with a concentration on model building.
Prequisites: ARC 101, ARC 111

ARC 201—Digital Portfolio
A structured environment in which students prepare and orally present a portfolio that demonstrates the body of their work produced in courses in the Architectural Technology Program. Students also produce a cover letter, resume and personal essay on architecture.
Prequisites: CAD 102, ARC 102, ARC 112

ARC 205—Working Drawings 1
This course is an introduction to architectural working drawings. Basic principles of preparing and organizing necessary components of a working drawings set will be covered. Students will prepare a set of drawings for a small wood structure using Autocad software. Correctness of construction techniques and CAD drafting will be emphasized. Quantifying building materials from the students’ prepared sets will be introduced.
Prequisites: ARC 106, CAD 102

ARC 206—Working Drawings 2
This is the capstone course of the building materials and methods sequence of the A.A.S. Arch. Tech. Program. Advanced working drawings of a building of steel construction will be produced. Emphasis is placed on draftingmanship, coordination, and accuracy plus development of building construction details. Autocad is used as the drafting medium. The complex relationships between owner, architect and contractor as well as the role of specifications will be introduced.
Prequisite: ARC 205

ARC 301—Architectural Design 2
An introduction to the basic elements of architectural design - scale, proportion, rhythm, mass, textural effects, contrast, unity, sequential spatial experience. Execution of two and three dimensional design projects. An exploration of nature of art and architecture.
Corequisite: concurrent enrollment in or completed WRT 040

ARC 306—Working Drawings 2
This is the capstone course of the building materials and methods sequence of the A.A.S. Arch. Tech. Program. Advanced working drawings of a building of steel construction will be produced. Emphasis is placed on draftingmanship, coordination, and accuracy plus development of building construction details. Autocad is used as the drafting medium. The complex relationships between owner, architect and contractor as well as the role of specifications will be introduced.
Prequisite: ARC 205
**Architectural Technology - Art**

**ARC 211—Architectural Design 3**
1 lect., 4 lab., 3 cr.
A continuation of the design course sequence in which students explore programmatic requirements, precedents and architectural form. In lecture, case studies will be presented. In lab, the execution and criticism of architectural design problems will take place. Presentation techniques will be in various media and oral presentation is required.
Prequisites: ARC 102, ARC 112, CAD 102

**ARC 212—Architectural Design 4**
2 lect., 4 lab., 4 cr.
This is the capstone course to the design sequence of the A.A.S. Architectural Technology Program. The scope of design is expanded beyond building to outdoor spaces and land planning. A survey of town planning through out history with emphasis on 19th and 20th century. Execution of several design projects involving outdoor spaces, site, town and subdivision layouts, and a building in context on an actual site in the community.
Prequisites: ARC 211, ARC 201

**ARC 215—Architecture to the 18th Century**
3 lect., 3 cr.
A survey of the development of Western architecture through the 18th century. Physical characteristics, form, interior spaces, construction materials, and structural systems from ancient Egypt through the eighteenth century will be covered. The relationship between built form and a society's institutions and culture, level of technology, and environment will be considered.

**ARC 216—Architecture from the 19th Century**
3 lect., 3 cr.
A survey of modern architecture. Form and space, aesthetic philosophy, material usage, and structural systems of architecture from 1850 to the present will be explored. The influence of technology, society, and the environment on architectural form will be explored.

**ARC 220—Mechanical and Electrical Equipment for Buildings**
3 lect., 3 cr.
Description, analysis, and basic design of heating, ventilating, plumbing, and electrical systems and equipment, fire protection, vertical transportation and acoustics in buildings.

**ARC 221—Strength of Materials**
3 lect., 3 cr.
An introduction to statics and strength of materials, forces, resistance to forces, and the appropriate amount and shape of material to resist those forces. An exploration of why buildings stand up.
Prequisites: PHY 111, MAT 107

**Art**

**Art (Arts & Communication Department)**

**ART 101—Introduction to Art**
3 cr. (Fall/Spring/Summer)
A beginner's course for those interested in learning how to look at, appreciate and enjoy the visual arts. Weekly lectures and interactive exercises introduce theoretical concepts that are reaffirmed with discussion and corresponding studio assignments. Students will explore basic concepts of line, shape, space, color, balance, texture and composition by way of in-class critiques and hands-on projects. A museum trip may be included in this course.
Prequisites: ARC 102, ARC 112, CAD 102

**ART 103—Drawing 1**
1 lect., 2 lab., 2 cr. (Fall/Spring/Summer)
Drawing exercises and projects emphasizing development of perceptual, manual and conceptual abilities. Objective drawing in line and tone lead the beginning student to understand structure imaging and execution. Studies introduce basic perspective methods Various drawing media and materials are used.

**ART 104—Drawing 2**
1 lect., 2 lab., 2 cr. (Fall/Spring/Summer)
Drawings as finished art are developed from preliminary works. Study of media-image, form-content relationships. Develop more complex and subjective drawings.

**ART 107—Design 1**
2 lect., 2 lab., 3 cr. (Fall)
An introduction to the vocabulary and elements of two dimensional design including line, shape, texture, color and typography. Students learn from basic design elements and media and master manual dexterity and "craft" through hands-on practice completing drawing, painting, and multimedia projects. Students work within a variety of media and studio setting, employing fundamental design principles to create successful two-dimensional designs as well as participating in collective and individual critiques and working cooperatively on group design projects.

**ART 108—Design 2**
2 lect., 2 lab., 3 cr. (Spring)
Continuing study of design concepts and development of complex studio projects in various media. Studio methods for processes are discussed and demonstrated.

**ART 111—Color**
1 lect., 2 lab., 2 cr. (Fall/Summer)
This studio course has students assess psychological as well as physical effects of light and color relationships. Additionally, students will examine color content and its use in art, architecture and personal effects. Weekly lectures introduce theoretical concepts that are reaffirmed with corresponding studio projects. A museum trip may be included in this course.

**ART 101—Introduction to Art**
3 cr. (Fall/Spring/Summer)
A beginner's course for those interested in learning how to look at, appreciate and enjoy the visual arts. Weekly lectures and interactive exercises introduce theoretical concepts that are reaffirmed with discussion and corresponding studio assignments. Students will explore basic concepts of line, shape, space, color, balance, texture and composition by way of in-class critiques and hands-on projects. A museum trip may be included in this course.
Prequisites: ARC 102, ARC 112, CAD 102

**ART 103—Drawing 1**
1 lect., 2 lab., 2 cr. (Fall/Spring/Summer)
Drawing exercises and projects emphasizing development of perceptual, manual and conceptual abilities. Objective drawing in line and tone lead the beginning student to understand structure imaging and execution. Studies introduce basic perspective methods Various drawing media and materials are used.

**ART 104—Drawing 2**
1 lect., 2 lab., 2 cr. (Fall/Spring/Summer)
Drawings as finished art are developed from preliminary works. Study of media-image, form-content relationships. Develop more complex and subjective drawings.

**ART 107—Design 1**
2 lect., 2 lab., 3 cr. (Fall)
An introduction to the vocabulary and elements of two dimensional design including line, shape, texture, color and typography. Students learn from basic design elements and media and master manual dexterity and "craft" through hands-on practice completing drawing, painting, and multimedia projects. Students work within a variety of media and studio setting, employing fundamental design principles to create successful two-dimensional designs as well as participating in collective and individual critiques and working cooperatively on group design projects.

**ART 108—Design 2**
2 lect., 2 lab., 3 cr. (Spring)
Continuing study of design concepts and development of complex studio projects in various media. Studio methods for processes are discussed and demonstrated.

**ART 111—Color**
1 lect., 2 lab., 2 cr. (Fall/Summer)
This studio course has students assess psychological as well as physical effects of light and color relationships. Additionally, students will examine color content and its use in art, architecture and personal effects. Weekly lectures introduce theoretical concepts that are reaffirmed with corresponding studio projects. A museum trip may be included in this course.
ART 113—Painting 1
1 lect., 4 lab., 3 cr. (Fall/Spring/Summer)
Fundamentals of painting techniques and materials are learned while student composes from still life setups reflecting various modes and historical perspectives. (GE 8)

ART 114—Painting 2
1 lect., 4 lab., 3 cr. (Spring)
Continuing work in still life painting using more complex formal and contextual means of organizing the pictorial surface and space. (GE 8)

Prerequisite: ART 113

ART 117—Figure Drawing 1
2 lect., 4 lab., 4 cr. (Fall)
Drawing from the model—proportion, gesture, form, and structure. Work in anatomy and rendering. Various media are employed. (GE 8)

Prerequisite: Permission of instructor

ART 118—Figure Drawing 2
1 lect., 4 lab., 3 cr. (Spring)
Drawing from the model—extended studies, the draped figure, light and shade as structure and content. Lectures and demonstrations of various media and papers. (GE 8)

Prerequisite: ART 117

ART 119—Photography 1* 
1 lect., 3 lab., 3 cr. (Fall/Spring/Summer)
A workshop course for the novice photographer covering camera basics, negative development, enlargement, and contrast control. Considerable darkroom work with criticism as well as discussion of the history of photography are emphasized. (GE 8)

Prerequisite: ART 117

ART 120—Photography 2*
1 lect., 3 lab., 3 cr. (Spring)
A workshop course consisting of considerable darkroom work as a basis for learning more advanced print control techniques which include bleaching, spotting, and mounting prints. Emphasis is placed on individual creativity through personalized assignments and critiques. Studies in the history of photography are continued. (GE 8)

Prerequisite: ART 119

*Students are required to have a 35 mm or larger camera of at least 5 megapixels. Students are required to have their own digital camera of at least 5 megapixels.

ART 121—Digital Photography 1
2 lect., 2 lab, 3 cr. (Spring)
This course provides the student with an introduction to the techniques used to create and manipulate photographs in a digital darkroom, using image manipulation software. The convergence of photography and digital media is explored through projects, readings and critiques. Imaging techniques include basic digital camera functions, scanning, manipulation of photographs, composition, color correction and printing.

Students are required to have their own digital camera of at least 5 megapixels. Prerequisite: ART 119 or math placement into MAT 010 or higher

ART 122—Digital Photography 2*
2 lect., 4 lab, 4 cr. (Fall)
This course provides the student with an introduction to the techniques used to create and manipulate photographs in a digital darkroom, using image manipulation software. The convergence of photography and digital media is explored through projects, readings and critiques. Imaging techniques include basic digital camera functions, scanning, manipulation of photographs, composition, color correction and printing.

Students are required to have their own digital camera of at least 5 megapixels. Prerequisite: ART 119 or math placement into MAT 010 or higher

ART 123—Visual Communications & Graphic Design 1
2 lect., 2 lab, 3 cr. (Fall/Spring/Summer)
Explore the idea that memorable visual messages with text have the greatest power to inform, educate, and persuade an individual. Learn about current Visual Communications theories, graphic design principles, elements, typography, influential persons, and contemporary digital media, including page layout software (Quark Xpress and Adobe InDesign) as well as Adobe Photoshop. (GE 8)

ART 124—Visual Communications & Graphic Design 2
2 lect., 2 lab, 3 cr. (Spring/Summer)
The Visual Communication 2 student will learn the fundamentals of visual communications and graphic design through Viscom problem solving, graphic design projects, and exploration into the graphic communications industry today. Digital media skills will be acquired through projects and exercised utilizing page layout (Quark XPress and Adobe InDesign), digital imaging (Adobe Photoshop), and vector drawing software. (GE 8)

Prerequisite: ART 123 or permission of instructor and department chair

ART 127—History of Art 1
3 cr. (Fall)
A survey course covering the major movements of art from prehistoric times through the beginning of the early Italian Renaissance. Architecture, painting, decorative arts, sculpture and textiles will be studied within social, political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 128—History of Art 2
3 cr. (Fall)
A survey course covering the major movements of art from prehistoric times through the beginning of the early Italian Renaissance. Architecture, painting, decorative arts, sculpture and textiles will be studied within social, political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

www.sunyorange.edu

Fall 2011

169

Fall 2011

169
ART 128—History of Art 2  3 cr. (Spring)
A survey course that addresses the major movements of art from the early Italian Renaissance to Post-Modernism of the late twentieth century. Architecture, painting, sculpture and photography will be studied within the political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 207—Non-Western Art  3 cr. (Fall/Spring/Summer)
This survey course focuses on the history, development and current influences of non-Western art. Particular emphasis is on objects, images and architecture from South East Asia, China, Korea, Japan, the Islamic world, Native North and South America, African and the Pacific Basin as well as contemporary Latin art. A museum trip may be included in this course. (GE 7)

ART 131—History of Animation  1 cr. (Fall/Summer)
A five-week survey of the history of animation traced from early twentieth century origins based in photography. The seminar will culminate with an examination of computer-generated animation. Special attention will be paid to traditional methodology of classic cartoon production, full-length features as well as non-traditional animators and avant-garde animation techniques.

ART 201—American Art 1700 to 1945  3 cr. (Spring)
A survey course examining the development of American painting, sculpture, architecture, folk art and decorative arts begins with the tribal art of Native Americans, encompasses the artistic adaptations of early American settlers and concludes with Modern American art of the 1940s. Special attention will be paid to evolution of style, technique and medium over the course of American history. A museum trip may be included in this course. (GE 7)

ART 203—Modern Art: The 20th Century  3 cr. (Fall/Summer)
An in depth, chronological examination of the art movements of the twentieth century as shaped by the age of technology and information. Subject matter will be presented decade by decade with attention paid not only to developing technology but also to social and cultural issues. Specific examples of architecture, painting, graphic art, sculpture and photography will be set in perspective to the world events that have helped shape modern artist’s approach to art and culture within the twentieth century. A museum trip may be included in this course. (GE 7)

ART 205—Women in Art History  3 cr. (Spring)
This survey of women artists throughout history begins by examining images of females of antiquity as represented in art and then examines the social, economic and political context of women artists in history concluding with working women artists of the twenty-first century. Works of painting, sculpture, textile, decorative arts, and photography and installation art created by women with careful consideration of the political, social, economic and religious constraints women artists have faced. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 208—History of Art 2  3 cr. (Spring)
A survey course that addresses the major movements of art from the early Italian Renaissance to Post-Modernism of the late twentieth century. Architecture, painting, sculpture and photography will be studied within the political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 131—History of Animation  1 cr. (Fall/Summer)
A five-week survey of the history of animation traced from early twentieth century origins based in photography. The seminar will culminate with an examination of computer-generated animation. Special attention will be paid to traditional methodology of classic cartoon production, full-length features as well as non-traditional animators and avant-garde animation techniques.

ART 201—American Art 1700 to 1945  3 cr. (Spring)
A survey course examining the development of American painting, sculpture, architecture, folk art and decorative arts begins with the tribal art of Native Americans, encompasses the artistic adaptations of early American settlers and concludes with Modern American art of the 1940s. Special attention will be paid to evolution of style, technique and medium over the course of American history. A museum trip may be included in this course. (GE 7)

ART 222—Visual Communications and Graphic Design 4  1 lect., 2 lab., 2 cr. (Spring)
The Viscom 4 student will produce a professional portfolio for entry level employment in visual communications or for further education. The student will complete one semester-long multi-disciplinary group project and will hone personal style in visual communication and refine technical skills in using page layout, vector-based and image manipulation graphics software. (GE 8)
Prerequisite: ART 124 or permission of instructor and department chair

ART 225—Web Design 1  2 lect., 2 lab., 3 cr. (Fall/Spring)
Students master the key design strategies of the best professional web designs and design and build fully functional web pages and web sites using Adobe Dreamweaver. Course covers both design concepts and practical, technical abilities, including psychology of perception, color theory and human vision, typography, interface design, technology and new trends in this fast-moving of all media. Class projects include surfing the web, finding great examples of both good and bad web pages, and learning what works—and what doesn’t work—in the real world.

ART 228—History of Art 2  3 cr. (Spring)
A survey course that addresses the major movements of art from the early Italian Renaissance to Post-Modernism of the late twentieth century. Architecture, painting, sculpture and photography will be studied within the political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 207—Non-Western Art  3 cr. (Fall/Spring/Summer)
This survey course focuses on the history, development and current influences of non-Western art. Particular emphasis is on objects, images and architecture from South East Asia, China, Korea, Japan, the Islamic world, Native North and South America, African and the Pacific Basin as well as contemporary Latin art. A museum trip may be included in this course. (GE 7)

ART 223—Visual Communications and Graphic Design 3  2 lect., 2 lab., 3 cr. (Fall)
The Viscom 3 student will develop a personal approach to visual communication in this experiential problem solving course. More advanced technical skills will be achieved using a flatbed scanner, Adobe Photoshop, Adobe Illustrator, and Quark XPress, presentation and page layout software. (GE 8)
Prerequisite: ART 124 or permission of instructor and department chair

ART 224—Visual Communications and Graphic Design 4  1 lect., 2 lab., 2 cr. (Spring)
The Viscom 4 student will produce a professional portfolio for entry level employment in visual communications or for further education. The student will complete one semester-long multi-disciplinary group project and will hone personal style in visual communication and refine technical skills in using page layout, vector-based and image manipulation graphics software. (GE 8)
Prerequisite: ART 223 or permission of instructor and department chair

ART 229—Web Design 2  2 lect., 2 lab., 3 cr. (Fall/Spring)
Students master the key design strategies of the best professional web designs and design and build fully functional web pages and web sites using Adobe Dreamweaver. Course covers both design concepts and practical, technical abilities, including psychology of perception, color theory and human vision, typography, interface design, technology and new trends in this fast-moving of all media. Class projects include surfing the web, finding great examples of both good and bad web pages, and learning what works—and what doesn’t work—in the real world.
ART 226—Web Design 2
2 lect., 2 lab., 2 cr.
Students design, create and build interactive web sites incorporating moving graphics, sound and video using Adobe Flash and Dreamweaver. Emphasis is placed on merging the creative process and design skills with the technical aspects of producing Web sites. Course includes both drawing vector art and writing ActionScript code to make interactive banner ads and games.
Prerequisite: ART 225

ART 230—Arts and Communication Practicum
1 lect., 3 lab., 2 cr. (Fall/Spring)
Students develop and complete individual projects/internships in music, art, graphic design, communication, media and theatre. Projects may be performed on campus or by arrangement in community facilities. The course includes a lecture component which involves portfolio building, presentation, and marketing. (GE 8)
Students may repeat this course for a total of four credits.
Prerequisite: permission of instructor or department chair

AST 120—Astronomy
2 lect., 3 lab., 3 cr.
The relationship of physical laws to the structure and size of the universe is the means by which the methods of observational astronomy are studied. The role of gravity in the formation of stars, galaxies, and clusters is emphasized. Current study of cosmology is placed in the historical context. Besides observing sessions, the laboratory emphasizes the methods of observational astronomy. (GE 2)
Prerequisite: tested into MAT 101 or completed MAT 020 or permission of instructor

AST 226—Web Design 2
2 lect., 2 lab., 2 cr.
Students design, create and build interactive web sites incorporating moving graphics, sound and video using Adobe Flash and Dreamweaver. Emphasis is placed on merging the creative process and design skills with the technical aspects of producing Web sites. Course includes both drawing vector art and writing ActionScript code to make interactive banner ads and games.
Prerequisite: ART 225

AST 230—Arts and Communication Practicum
1 lect., 3 lab., 2 cr. (Fall/Spring)
Students develop and complete individual projects/internships in music, art, graphic design, communication, media and theatre. Projects may be performed on campus or by arrangement in community facilities. The course includes a lecture component which involves portfolio building, presentation, and marketing. (GE 8)
Students may repeat this course for a total of four credits.
Prerequisite: permission of instructor or department chair

Astronomy (Science, Engineering & Architecture Dept.)

Astronomy (Science, Engineering & Architecture Dept.)
**BIO 101—General Biology 1**

3 lect., 3 lab., 4 cr. (Fall/Summer)

Topics include a study of the nature and scope of science in general and biological science in particular: the chemical and physical basis of life; the structures and functions of the body from the molecular to the organ/organ system level of function and continues through the Integumentary, Skeletal, Muscle, Nervous and Endocrine systems. Laboratory work includes study of human anatomy and histology, gross anatomical and organ system models and computer/video presentations related to the above systems. Laboratory experiments also expose students to related clinical techniques/topics such as blood typing, ECG, blood pressures, pulse determination, heart and lung sounds, spirometry, and urinalysis.

Prerequisite: BIO 111

**BIO 110—Introduction to Biology**

2 lect., 3 lab., 3 cr. (Fall/Summer)

An introductory course covering the scientific method, basic chemistry, cell biology, structure and function of the vertebrate body, biochemical pathways, cellular division, genetics, diversity and biological evolution.

Prerequisite: The course is designed for students with little or no academic background in biological sciences and want to pursue a career in the health professions or biology.

**BIO 111—Anatomy and Physiology 1**

3 lect., 3 lab., 4 cr. (Fall/Summer)

An introduction to the structure and function of human systems begins with the organization of the body from the molecular to the organ/system level of function and continues through the Integumentary, Skeletal, Muscle, Nervous and Endocrine systems. Laboratory work includes cellular structure and function, histology, and gross anatomical analysis of the skeletal, muscular, and nervous systems. The laboratory experience includes use of human bones and dissection of the cat, sheep eye and brain as well as use of human anatomical models of organs and structures related to the above systems.

Prerequisite: AP Biology, BIO 110 or BIO 101 and BIO 102

**BIO 112—Anatomy and Physiology 2**

3 lect., 3 lab., 4 cr. (Fall/Spring/Summer)

Continues the study of the structure and function of human systems begun in BIO 110 (Anatomy and Physiology 1). Included are the Circulatory, Lymphatic, Respiratory, Urinary, Nervous and Reproductive systems. Acid-base, fluid and electrolyte balance are also discussed, and functional interrelationships and homeostasis are stressed throughout. Laboratory work includes analysis of the structure and function of the above systems at the histological, gross anatomical and organ system levels. The laboratory experience includes dissection of the cat and sheep as well as prepared histological specimens, human anatomical models and computer/video presentations related to the above systems. Laboratory experiments also expose students to related clinical techniques/topics such as blood typing, ECG, blood pressures, pulse determination, heart and lung sounds, spirometry, and urinalysis.

Prerequisite: BIO 110

**BIO 113—Neurobiology**

2 lect., 2 lab., 3 cr. (Fall)

This course is designed for students of Massage Therapy, Physical Therapist Assistants, Occupational Therapy Assistants, and other Health Sciences. It will provide the student with a foundation for understanding neurological dysfunction. Integration, rather than segregation, between structure and function are emphasized. This course will enable the student to understand cellular biology, cell biology, structure and function of the nervous system, with emphasis on sensorimotor integration and neuromuscular physiology. By the completion of the course, the student will have a basic understanding of how the nervous system is influenced during development, learning, and by disease, or trauma. The unit is presented in a multidisciplinary fashion: morphology, physiology, biochemistry and clinical manifestations. Examples of pathological, occupational and environmental causes of neurological disease are highlighted through lectures and student presentations. The different approaches used in diagnosis and understanding physical impairment are stressed as essential components of devising effective therapy.

Prerequisite: BIO 112

**BIO 115—Human Biology**

3 lect., 3 lab., 4 cr. (Fall)

Human anatomy, physiology and pathology are discussed in lectures. Laboratory work includes microscopic study of tissues and a dissection of the cat. The anatomy of the cat is correlated with human anatomy.

Prerequisite: BIO 110 or BIO 101

**BIO 116—Human Biology**

3 lect., 3 lab., 4 cr. (Fall)

Human anatomy, physiology and pathology are discussed in lectures. Laboratory work includes microscopic study of tissues and a dissection of the cat. The anatomy of the cat is correlated with human anatomy.

Prerequisite: BIO 110 or BIO 101
BIO 120—Biology for Today
3 lect., 0 lab., 3 cr. (Spring)
The biological aspects of contemporary problems and issues will be explored. Selected topics will be chosen from the areas of Medicine and the Environment. Students will participate in discussions and class activities that will assess decision-making criteria relative to the issues being presented.

BIO 120 DL—Biology for Today
3 lect., 0 lab., 3 cr. (Spring)
The biological aspects of contemporary issues will be explored. Selected topics will be chosen from areas of the environment, human anatomy and physiology, inheritance, evolution, and genetic engineering. Proctored exams will be administered at a SUNY Orange campus or an approved site arranged by the student.

BIO 123—Prehistoric Life
3 cr. (Fall/Spring/Summer)
A survey of the diversity of prehistoric life including the dinosaurs, mammals, birds, reptiles, amphibians, fish, invertebrates and plants of the past. An overview of other relevant topics such as fossilization, evolution, extinction, vertebrate anatomy and ecosystem structure will be presented. The course will include a trip to the Museum of Natural History. Students are responsible for their own transportation. The course does not include a laboratory component.

BIO 123 DL—Prehistoric Life
3 lect., 0 lab., 3 cr. (Fall/Spring/Summer)
A survey of the diversity of prehistoric life including the dinosaurs, mammals, birds, reptiles, amphibians, fish, invertebrates, and plants of the past. An overview of other relevant topics such as fossilization, evolution, extinction, and vertebrate anatomy will be presented. The course will include a trip to the Museum of Natural History. Students are responsible for their own transportation. The course does not include a laboratory component. Proctored exams will be administered at an SUNY Orange campus or an approved site arranged by the student.

BIO 125—Nutrition
3 cr. (Fall/Spring/Summer)
Students study carbohydrate, fat, protein, mineral and vitamin requirements, an overview of the chemical and biological body functions, nutrient metabolism and deficiencies, food safety legislation, functions of the USDA, and principles of managing a healthy diet. Students conduct a caloric self-study.

BIO 141—The Diversity of Life
2 lect., 3 lab., 3 cr. (Fall/Spring)
This course offers the non-science major an opportunity to study the representative characteristics of the major groups of bacteria, protists, plants, fungi, and animals in both lecture and lab. Emphasis will be placed on the major characteristics of each group. The inter-relationships among these organisms will be studied both through discussion and through field trips to local sites. The global level of evolutionary problems and its significance will be discussed. Students are responsible for their own transportation on field trips.

BIO 141—Field Biology
2 lect., 3 lab, 3 cr. (Fall)
This course will focus on the plants and animals of the Orange County area, with emphasis on ecological relationships between them and their environment. Weekly trips within the area will identify organisms found and conduct outdoor studies to better understand interactions among them. Real data will be collected and analyzed to answer scientific questions concerning the natural history of the county’s biodiversity. Students are responsible for their own transportation.

BIO 142—Genetics
3 lect., 3 lab, 4 cr. (Fall)
This is a survey course which introduces students to the various fields of modern genetics. Topics include the diverse forms of inheritance, the structure of chromosomes, the nature of function of genes, the regulation of gene activity, mutation, biotechnology, and evolution. Special reference is made to human genetic disorders and cancer. Lab work includes observing the inheritance traits in fruit flies and plants, mapping genes to regions of chromosomes, transformation, conjugation, plasmid DNA isolation, DNA gel electrophoresis, and protein gel electrophoresis. Students will learn techniques that are representatives of the major groups of bacteria, protists, plants, fungi, and animals in both lecture and lab. Emphasis will be placed on the major characteristics of each group. The inter-relationships among these organisms will be studied both through discussion and through field trips to local sites. The global level of evolutionary problems and its significance will be discussed. Students are responsible for their own transportation on field trips.

BIO 143—Field Biology
2 lect., 3 lab, 3 cr. (Fall)
This course will acquaint students with the plants and animals of the Orange County area, with emphasis on ecological relationships between them and their environment. Weekly trips within the area will identify organisms found and conduct outdoor studies to better understand interactions among them. Real data will be collected and analyzed to answer scientific questions concerning the natural history of the county’s biodiversity. Students are responsible for their own transportation.

BIO 143—Field Biology
2 lect., 3 lab, 3 cr. (Fall)
A survey of the diversity of prehistoric life including the dinosaurs, mammals, birds, reptiles, amphibians, fish, invertebrates, and plants of the past. An overview of other relevant topics such as fossilization, evolution, extinction, vertebrate anatomy and ecosystem structure will be presented. The course will include a trip to the Museum of Natural History. Students are responsible for their own transportation. The course does not include a laboratory component.

BIO 144—Avian Biology
3 lect., 2 lab., 3 cr. (Spring-alternate years)
A study of the birds of the Mid-Hudson Region, emphasizing field identification, migration, flight and ecological adaptations, voice and behavior, distribution and classification. Lectures and weekly field trips to diverse habitats are included. Students are responsible for their own transportation.

BIO 145—Environmental Conservation
3 lect., 3 lab, 3 cr. (Spring)
This course will explore local, regional, national, and global issues of water quality and usage, such as types and sources of pollution, and their effects on humans and wildlife, surface and ground water overuse, and conservation of water resources. The expanding human population and its creation of resource conflicts and their resolutions are presented and discussed. Lab experiences will focus on monitoring water quality. Methods, with the collection of real data that will be used by Orange County in their formulation of a watershed management plan. Students are responsible for their own transportation to off-campus sites.

BIO 146—Avian Biology
3 lect., 2 lab., 3 cr. (Spring-alternate years)
A study of the birds of the Mid-Hudson Region, emphasizing field identification, migration, flight and ecological adaptations, voice and behavior, distribution and classification. Lectures and weekly field trips to diverse habitats are included. Students are responsible for their own transportation.

BIO 147—Environmental Conservation
3 lect., 3 lab, 3 cr. (Spring)
This is a survey course which introduces students to the various fields of modern genetics. Topics include the diverse forms of inheritance, the structure of chromosomes, the nature of function of genes, the regulation of gene activity, mutation, biotechnology, and evolution. Special reference is made to human genetic disorders and cancer. Lab work includes observing the inheritance traits in fruit flies and plants, mapping genes to regions of chromosomes, transformation, conjugation, plasmid DNA isolation, DNA gel electrophoresis, and protein gel electrophoresis. Students will learn techniques that are representatives of the major groups of bacteria, protists, plants, fungi, and animals in both lecture and lab. Emphasis will be placed on the major characteristics of each group. The inter-relationships among these organisms will be studied both through discussion and through field trips to local sites. The global level of evolutionary problems and its significance will be discussed. Students are responsible for their own transportation on field trips.

BIO 148—Field Biology
3 lect., 0 lab., 3 cr. (Spring)
This course will acquaint students with the plants and animals of the Orange County area, with emphasis on ecological relationships between them and their environment. Weekly trips within the area will identify organisms found and conduct outdoor studies to better understand interactions among them. Real data will be collected and analyzed to answer scientific questions concerning the natural history of the county’s biodiversity. Students are responsible for their own transportation.

BIO 149—Field Biology
3 lect., 0 lab., 3 cr. (Spring)
This course will acquaint students with the plants and animals of the Orange County area, with emphasis on ecological relationships between them and their environment. Weekly trips within the area will identify organisms found and conduct outdoor studies to better understand interactions among them. Real data will be collected and analyzed to answer scientific questions concerning the natural history of the county’s biodiversity. Students are responsible for their own transportation.

BIO 150—Biology for Today
3 lect., 0 lab., 3 cr. (Spring)
The biological aspects of contemporary problems and issues will be explored. Selected topics will be chosen from the areas of Medicine and the Environment. Students will participate in discussions and class activities that will assess decision-making criteria relative to the issues being presented.

BIO 150—Biology for Today
3 lect., 0 lab., 3 cr. (Spring)
The biological aspects of contemporary problems and issues will be explored. Selected topics will be chosen from the areas of Medicine and the Environment. Students will participate in discussions and class activities that will assess decision-making criteria relative to the issues being presented.

BIO 151—Field Biology
3 lect., 3 lab, 3 cr. (Fall/Spring)
The course will focus on the plants and animals of the Orange County area, with emphasis on ecological relationships between them and their environment. Weekly trips within the area will identify organisms found and conduct outdoor studies to better understand interactions among them. Real data will be collected and analyzed to answer scientific questions concerning the natural history of the county’s biodiversity. Students are responsible for their own transportation.
BUS 202—Comparative Vertebrate Anatomy
3 lect., 3 lab, 4 cr. (Spring)
The morphology, physiology, evolutionary development, and adaptations of major organ systems in vertebrate animals are studied. Laboratory work includes histology and dissection of vertebrate animals.
Prerequisite: one year of biological science, including BIO 101

BIO 204—General Botany
3 lect., 3 lab., 4 cr. (Spring)
This is a general botany course that will study plant morphology and physiology of herbaceous and woody plant divisions within the plant kingdom as well as other related plant-like organisms. Topics covered include plant structure and function, plant growth, transpiration, photosynthesis, evolution, and reproductive cycles. The course concludes with the diversity of flowers and plant life. Laboratory work includes microscopic examination of cells and tissues of typical plants, set up and monitoring of a hydroponics experiment that will utilize the scientific method and allow for continual plant growth observations. Students will also be assigned seeds from differing plant families to germinate and tend until plant maturity. The course will also require a plant collection prepared by each student. (GE 2)
Prerequisite: one year of biological science, including BIO 101

BIO 205—General Ecology
3 lect., 3 lab., 4 cr. (Fall)
Ecology is the branch of science studying interactions and relationships between organisms and their environment. Topics covered include: GE 2, individual, population, community, and ecosystem ecology. Applications of ecology and the influence of humans on the biosphere will also be addressed. (GE 2)
Prerequisite: one year of college-level biological science including BIO 101 or permission of the instructor

BIO 210—Study of Biological Habitats
2 lect., 2 lab., 3 cr.
A 10 to 15 day field experience in a marine, fresh water or terrestrial habitat at an off campus location. The ecological interactions of flora and fauna, with their habitats, are examined in detail. The Catskills, Maine, the Southwest Desert Biome, and Tropics are among the habitats studied. Fee charged for transportation and living expenses. (GE 2)
Prerequisite: one year of college biological science or permission of the instructor

BUS 201—Business Mathematics
3 cr. (Fall/Spring)
This course is required by various A.A.S. degrees in business and can be used as an elective in others. This course will emphasize the use of business terminology and the solving of business problems using decimals and percentages. Topics that are covered in this course include, but are not limited to, the following: gross and net payroll calculations; markup and markdown; trade discounts and cash discounts; simple interest, compound interest, and ordinary annuities.
Note: This course cannot be used to fulfill the Math/Science requirement for any degree.
Prerequisite: MAT 020 or RDG 080

BUS 203—Introduction to Business
3 cr. (Fall/Spring)
In this analysis of current business practices, the following topics are examined: impact of technology on businesses, economic systems, forms of ownership, social responsibility, management and organization, finance, marketing, human resources, information management and international business. Topical issues and cases are used to reinforce terminology and concepts. It is strongly advised that students take this course in their first semester.

BUS 205—Business and Society
3 cr. (Fall/Spring)
Emphasis is placed on current business economic policy issues as applied to the roles of government and the consumer. The course is structured to help both enlighten and sharpen the student's awareness of current economic problems and business issues in today's dynamic environment. Major emphasis is placed on inflation, unemployment, social security, health care, deficits, debt, global trade, and monetary and fiscal policy.

BUS 311—E-Business Principles
3 cr. (Fall/Spring)
Electronic business provides a foundation for conducting business on the Internet worldwide. Electronic business involves the use of Internet technology to transform key business processes in order to maximize customer value and facilitate the exchange of goods and services between buyers and sellers. Topics include: business to business (B2B) and business to customer (B2C) electronic commerce; advertising, market research, privacy and security issues on the Internet. Emphasis is placed on real-world application and Internet exercises. Each student will complete an Internet project.
BUS 161—Computer Applications for Business
3 lec., 3 cr. (Fall/Spring)
(Formerly CIT 101 Microcomputer Applications)
This course focuses on how communication, decision-making and critical thinking can be facilitated by the use of Microsoft Office Software. Students learn to use the computer as a tool using Microsoft Office applications—Word, PowerPoint, Excel and Access. Concentration is on Excel and Word. The Internet is used as a research and communication tool. Students create and use a variety of spreadsheets, word processing documents, mail merge documents, databases, electronic presentations and reports as part of a simulated business environment. This course supports the concepts needed in other required business courses. This course requires computer use outside the classroom.
Prerequisite: MAT 020 or placement into MAT 101 or higher

BUS 201—Business Law 1
3 cr. (Fall/Spring)
Emphasis is placed on the principles and the language of the law governing business transactions. Topics include the background of law, the law of contracts, the law of agency and the law of sales.

BUS 202—Business Law 2
3 cr. (Fall/Spring)
This course deals with negotiable instruments, partnerships and corporations, and real and personal property, bailments and carriers.
Prerequisite: BUS 201

BUS 203—Business Communications
3 cr. (Fall/Spring)
This course provides a managerial approach toward practice in solving business and professional communication problems, in making decisions involving selection and organization of content and in choosing an appropriate method for presentation of information. The use of technology and collaboration to enhance the effectiveness of business communications is explored. An oral presentation, written business report or proposal, and numerous letters are required.

BUS 205—Business Statistics
3 cr. (Fall/Spring)
This course is required for various AS degrees in business. The course concentrates on three major sections using business world applications. Part one is descriptive statistics which studies measures of central tendency and measures of dispersion. The second part includes probability theory, binomial probability distribution, and the normal curve. The third concentration is in inferential statistics which includes determining the sample size for a given sample, creating a confidence interval for the universe mean and universe proportion, and the testing of hypotheses. Regression and correlation analysis are also examined.
Prerequisite: Two years of college preparatory math or MAT 101

BUS 207—Introduction to International Business
3 cr. (Fall/Spring)
This course will introduce students to the challenges and problems involved in conducting business in global markets. Initial emphasis will be on concepts and theories of international trade, foreign investment and economic development. After an overview of international agencies and the international monetary system, students will consider the effects of financial economic, socio cultural, legal and political forces on the foreign business environment. Course concludes with an examination of international management practices in various areas, including marketing and labor relations.
Prerequisite: MAT 020 or placement into MAT 101 or higher

BUS 201—Business Law 1
3 cr. (Fall/Spring)
Emphasis is placed on the principles and the language of the law governing business transactions. Topics include the background of law, the law of contracts, the law of agency and the law of sales.

BUS 202—Business Law 2
3 cr. (Fall/Spring)
This course deals with negotiable instruments, partnerships and corporations, and real and personal property, bailments and carriers.
Prerequisite: BUS 201

BUS 203—Business Communications
3 cr. (Fall/Spring)
This course provides a managerial approach toward practice in solving business and professional communication problems, in making decisions involving selection and organization of content and in choosing an appropriate method for presentation of information. The use of technology and collaboration to enhance the effectiveness of business communications is explored. An oral presentation, written business report or proposal, and numerous letters are required.

BUS 205—Business Statistics
3 cr. (Fall/Spring)
This course is required for various AS degrees in business. The course concentrates on three major sections using business world applications. Part one is descriptive statistics which studies measures of central tendency and measures of dispersion. The second part includes probability theory, binomial probability distribution, and the normal curve. The third concentration is in inferential statistics which includes determining the sample size for a given sample, creating a confidence interval for the universe mean and universe proportion, and the testing of hypotheses. Regression and correlation analysis are also examined.
Prerequisite: Two years of college preparatory math or MAT 101

BUS 207—Introduction to International Business
3 cr. (Fall/Spring)
This course will introduce students to the challenges and problems involved in conducting business in global markets. Initial emphasis will be on concepts and theories of international trade, foreign investment and economic development. After an overview of international agencies and the international monetary system, students will consider the effects of financial economic, socio cultural, legal and political forces on the foreign business environment. Course concludes with an examination of international management practices in various areas, including marketing and labor relations.
Prerequisite: MAT 020 or placement into MAT 101 or higher

BUS 161—Computer Applications for Business
3 lec., 3 cr. (Fall/Spring)
(Formerly CIT 101 Microcomputer Applications)
This course focuses on how communication, decision-making and critical thinking can be facilitated by the use of Microsoft Office Software. Students learn to use the computer as a tool using Microsoft Office applications—Word, PowerPoint, Excel and Access. Concentration is on Excel and Word. The Internet is used as a research and communication tool. Students create and use a variety of spreadsheets, word processing documents, mail merge documents, databases, electronic presentations and reports as part of a simulated business environment. This course supports the concepts needed in other required business courses. This course requires computer use outside the classroom.
Prerequisite: MAT 020 or placement into MAT 101 or higher

BUS 201—Business Law 1
3 cr. (Fall/Spring)
This course deals with negotiable instruments, partnerships and corporations, and real and personal property, bailments and carriers.
Prerequisite: BUS 201

BUS 203—Business Communications
3 cr. (Fall/Spring)
This course provides a managerial approach toward practice in solving business and professional communication problems, in making decisions involving selection and organization of content and in choosing an appropriate method for presentation of information. The use of technology and collaboration to enhance the effectiveness of business communications is explored. An oral presentation, written business report or proposal, and numerous letters are required.

BUS 205—Business Statistics
3 cr. (Fall/Spring)
This course is required for various AS degrees in business. The course concentrates on three major sections using business world applications. Initial emphasis will be on concepts and theories of international trade, foreign investment and economic development. After an overview of international agencies and the international monetary system, students will consider the effects of financial economic, socio cultural, legal and political forces on the foreign business environment. Course concludes with an examination of international management practices in various areas, including marketing and labor relations.
Prerequisite: MAT 020 or placement into MAT 101 or higher
Chemistry

Chemistry (Science, Engineering & Architecture Dept.)
(see also: Physical Science, Physics)

CHM 103—Applied Chemistry 1
3 lect., 3 lab., 3 cr. (Fall)
A study of the fundamental concepts of inorganic chemistry and techniques to be used in clinical laboratories. Topics include the nature of matter, the mole concept, nomenclature, redox reactions, solutions, chemical equilibrium, acids and bases, and the gas laws. Laboratory work stresses skills and techniques useful to the laboratory technician. This course is closed to students who have completed or are currently enrolled in CHM 105, 106, 201 or 202. (GE 2)
Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 104—Applied Chemistry 2
3 lect., 3 lab., 3 cr. (Spring)
Continuation of CHM 103. Topics include acid base chemistry, nuclear chemistry, organic chemistry with an emphasis on nomenclature, simple chemical reactions, boiling points/solubility in water, and organic functional families. Laboratory work emphasizes quantitative techniques. The use of periodicals is required. (GE 2)
Prerequisite: CHM 103 or permission of department chair

CHM 105—General Chemistry 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer I)
A study of the fundamental principles of chemistry. Topics include: stoichiometry, gases, atomic structure, periodic properties, ionic and covalent bonding, Lewis structures, liquids and solids. Laboratory work is the application of these principles with emphasis on quantitative relationships. The keeping of a laboratory notebook is required. (GE 2)
Prerequisite: MAT 102 or Math Placement test into MAT 122

CHM 106—General Chemistry 2
3 lect., 3 labs., 4 cr. (Fall/Spring/Summer II)
Topics include: Chemical equilibrium, acid-base theories, solubility equilibria, thermodynamics, reactions, electrochemistry, an introduction to organic chemistry and some representative biomolecules. Laboratory work includes the above topics, plus qualitative analysis of select cations, and chromatography. The keeping of a laboratory notebook and the writing of formal reports is emphasized. (GE 2)
Prerequisite: CHM 105 or permission of department chair

CHM 110—General and Biological Chemistry
3 cr. (Fall)
Fundamental concepts of inorganic, organic, and biological chemistry essential for a thorough understanding of principles and techniques in clinical dental hygiene and nutritional counseling. (GE 2)
Prerequisite: either high school Regents Chemistry, CHM 120, or permission of department chair

CHM 112—Elements of Chemistry and Physics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
A survey of the fundamental principles of chemistry and related physical laws. Only elementary mathematics is used. Topics include: safety in the laboratory, measurement, atomic structure, the periodic table, chemical equations, solutions, electrolytes, acid-base reactions, pH, the gas laws, main organic functional groups, nuclear physics and radioisotopes, and an introduction to mechanics. Not open to students who have successfully completed CHM105, 106, 201 or 202. (GE 2)
Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 114—Applied Chemistry
2 lect., 3 lab., 3 cr. (Spring)
Continuation of CHM 103. Topics include acid base chemistry, nuclear chemistry, organic chemistry with an emphasis on nomenclature, simple chemical reactions, boiling points/solubility in water, and organic functional families. Laboratory work emphasizes quantitative techniques. The use of periodicals is required. (GE 2)
Prerequisite: CHM 103 or permission of department chair

CHM 120—Elements of Chemistry and Physics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
A survey of the fundamental principles of chemistry and related physical laws. Only elementary mathematics is used. Topics include: safety in the laboratory, measurement, atomic structure, the periodic table, chemical equations, solutions, electrolytes, acid-base reactions, pH, the gas laws, main organic functional groups, nuclear physics and radioisotopes, and an introduction to mechanics. Not open to students who have successfully completed CHM105, 106, 201 or 202. (GE 2)
Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 121—Organic Chemistry 1
3 lect., 3 lab., 4 cr. (Fall)
An integrated presentation of the chemistry of aliphatic compounds with special emphasis on structure, nomenclature, mechanism and stereochemistry. Spectroscopy will be introduced. Laboratory work includes basic characterization techniques, basic synthesis, and keeping a laboratory notebook. (GE 2)
Prerequisite: a minimum grade of C- in CHM 106

CHM 122—Organic Chemistry 2
3 lect., 3 lab., 4 cr. (Spring)
Continuation of CHM 201. Topics include IR spectroscopy, NMR spectroscopy, and a continuation with the reactions of aliphatic and aromatic compounds, heterocyclic compounds and biologically active compounds. Laboratory work involves use of modern techniques in the synthesis, separation and purification of organic compounds, and keeping a laboratory notebook. (GE 2)
Prerequisite: CHM 201

CHM 123—Organic Chemistry 3
2 lect., 3 lab., 3 cr. (Fall/Spring/Summer)
Continuation of CHM 122. Topics include IR spectroscopy, NMR spectroscopy, and a continuation with the reactions of aliphatic and aromatic compounds, heterocyclic compounds and biologically active compounds. Laboratory work involves use of modern techniques in the synthesis, separation and purification of organic compounds, and keeping a laboratory notebook. (GE 2)
Prerequisite: CHM 201

Chemistry (Science, Engineering & Architecture Dept.)
(see also: Physical Science, Physics)

CHM 103—Applied Chemistry 1
2 lect., 3 lab., 3 cr. (Fall)
A study of the fundamental concepts of inorganic chemistry and techniques to be used in clinical laboratories. Topics include the nature of matter, the mole concept nomenclature, redox reactions, solutions, chemical equilibrium, acids and bases, and the gas laws. Laboratory work stresses skills and techniques useful to the laboratory technician. This course is closed to students who have completed or are currently enrolled in CHM 105, 106, 201 or 202. (GE 2)
Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 104—Applied Chemistry 2
2 lect., 3 lab., 3 cr. (Spring)
Continuation of CHM 103. Topics include acid base chemistry, nuclear chemistry, organic chemistry with an emphasis on nomenclature, simple chemical reactions, boiling points/solubility in water, and organic functional families. Laboratory work emphasizes quantitative techniques. The use of periodicals is required. (GE 2)
Prerequisite: CHM 103 or permission of department chair

CHM 105—General Chemistry 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer I)
A study of the fundamental principles of chemistry. Topics include: stoichiometry, gases, atomic structure, periodic properties, ionic and covalent bonding, Lewis structures, liquids and solids. Laboratory work is the application of these principles with emphasis on quantitative relationships. The keeping of a laboratory notebook is required. (GE 2)
Prerequisite: MAT 102 or Math Placement test into MAT 122

CHM 106—General Chemistry 2
3 lect., 3 labs., 4 cr. (Fall/Spring/Summer II)
Topics include: Chemical equilibrium, acid-base theories, solubility equilibria, thermochromy, thermodynamics, reactions, electrochemistry, an introduction to organic chemistry and some representative biomolecules. Laboratory work includes the above topics, plus qualitative analysis of select cations, and chromatography. The keeping of a laboratory notebook and the writing of formal reports is emphasized. (GE 2)
Prerequisite: CHM 105 or permission of department chair

CHM 110—General and Biological Chemistry
3 cr. (Fall)
Fundamental concepts of inorganic, organic, and biological chemistry essential for a thorough understanding of principles and techniques in clinical dental hygiene and nutritional counseling. (GE 2)
Prerequisite: either high school Regents Chemistry, CHM 120, or permission of department chair

CHM 112—Elements of Chemistry and Physics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
A survey of the fundamental principles of chemistry and related physical laws. Only elementary mathematics is used. Topics include: safety in the laboratory, measurement, atomic structure, the periodic table, chemical equations, solutions, electrolytes, acid-base reactions, pH, the gas laws, main organic functional groups, nuclear physics and radioisotopes, and an introduction to mechanics. Not open to students who have successfully completed CHM105, 106, 201 or 202. (GE 2)
Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 114—Applied Chemistry
2 lect., 3 lab., 3 cr. (Spring)
Continuation of CHM 103. Topics include acid base chemistry, nuclear chemistry, organic chemistry with an emphasis on nomenclature, simple chemical reactions, boiling points/solubility in water, and organic functional families. Laboratory work emphasizes quantitative techniques. The use of periodicals is required. (GE 2)
Prerequisite: CHM 103 or permission of department chair

CHM 120—Elements of Chemistry and Physics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
A survey of the fundamental principles of chemistry and related physical laws. Only elementary mathematics is used. Topics include: safety in the laboratory, measurement, atomic structure, the periodic table, chemical equations, solutions, electrolytes, acid-base reactions, pH, the gas laws, main organic functional groups, nuclear physics and radioisotopes, and an introduction to mechanics. Not open to students who have successfully completed CHM105, 106, 201 or 202. (GE 2)
Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 121—Organic Chemistry 1
3 lect., 3 lab., 4 cr. (Fall)
An integrated presentation of the chemistry of aliphatic compounds with special emphasis on structure, nomenclature, mechanism and stereochemistry. Spectroscopy will be introduced. Laboratory work includes basic characterization techniques, basic synthesis, and keeping a laboratory notebook. (GE 2)
Prerequisite: a minimum grade of C- in CHM 106

CHM 122—Organic Chemistry 2
3 lect., 3 lab., 4 cr. (Spring)
Continuation of CHM 201. Topics include IR spectroscopy, NMR spectroscopy, and a continuation with the reactions of aliphatic and aromatic compounds, heterocyclic compounds and biologically active compounds. Laboratory work involves use of modern techniques in the synthesis, separation and purification of organic compounds, and keeping a laboratory notebook. (GE 2)
Prerequisite: CHM 201

CHM 123—Organic Chemistry 3
2 lect., 3 lab., 3 cr. (Spring)
Continuation of CHM 122. Topics include IR spectroscopy, NMR spectroscopy, and a continuation with the reactions of aliphatic and aromatic compounds, heterocyclic compounds and biologically active compounds. Laboratory work involves use of modern techniques in the synthesis, separation and purification of organic compounds, and keeping a laboratory notebook. (GE 2)
Prerequisite: CHM 201
## Chinese - College and Career Skills

### CHN 101—Elementary Chinese 1

3 cr. (Fall)

Elementary Chinese 1 is an introductory course in spoken and written Mandarin Chinese that aims to develop the student's vocabulary, pronunciation, and mastery of simple conversations. Using an interactive approach to build student confidence in listening, speaking, reading and writing the Chinese language, the course introduces students to the predominant dialect of Mainland China and at the same time offer students insight into Chinese culture.

### CHN 102—Elementary Chinese 2

3 cr. (Spring)

Elementary Chinese 2 represents the second half of the introductory course in spoken and written Mandarin Chinese. In addition to providing students with knowledge of Chinese culture, the course aims to develop further the students' vocabulary, pronunciation, and mastery of simple conversation. The course will utilize an interactive approach to build student confidence in listening, speaking, reading, and writing the Chinese language.

### CCS 100—Career Planning

1 cr.

This course is designed to improve self-awareness and knowledge of the career decision-making process. Topics include self-exploration, career and career theory study, decision-making skills, information gathering from library and community resources, and the skills required to look for a job. Lecture, films, individual and group exercises, reading and writing assignments, and worksheet activities will be used to provide students with an in-depth career planning experience. For additional information contact Office of Career and Internship Services.

### CCS 101—College Success Seminar

2 cr.

This is an interdisciplinary course designed to assist the student in making the transition to college, and to promote the development of a successful college experience. Students will define ways in which they are responsible for their own experiences in college. Topics include: setting goals, managing time, identifying cognitive styles, understanding relationships, accessing college and community resources, employing critical thinking, planning careers, appreciating diversity, clarifying values, achieving wellness, and incorporating information resources in the college experience. For additional information contact the Advising and Counseling Center at 341-4070.

### CCS 102—College Life Skills

1 cr.

This course is designed to bring together strategies and skills to increase the student's probability of success in a wide variety of goals. Based on established theory and practice in many academic disciplines, students will have the opportunity to apply these techniques to the tasks they face in a college setting. This course is not open to students who have completed CCS 101—College Success Seminar.
Communication
(Communication Department)
COM 101—Foundations of Communication
3 cr. (Fall/Spring/Summer)
This survey course is designed to introduce students to the theoretical and practical aspects of communication. Students examine the basic principles of the communication process including the theoretical framework of communication, ethics and the study of verbal and nonverbal communication, and other factors influencing communication. Emphasis is placed on group communication. Interpersonal, small group, and public, intercultural, and nonverbal communication skills are developed. Students are introduced to the use of online communication tools such as email and social networking tools. Prerequisite: ENG 101.

COM 205—Small Group Communication
3 cr. (Fall/Spring)
This course is designed to introduce students to the theoretical and practical aspects of communication in small group settings. Students learn to work effectively in a group setting, make presentations, and manage conflicts. Prerequisite: DIS 101 or ENG 101.

COM 207—Public Speaking
3 cr. (Spring)
This course is designed to introduce students to the theoretical and practical aspects of public speaking. Students learn how to deliver informative and persuasive speeches and present written material in a variety of oral communication situations. Prerequisite: ENG 101.

COM 301—Digital Radio Production
2 cr., 2 lab 3 credits (Fall/Spring)
This course is designed to introduce students to the theoretical and practical aspects of digital radio production. Students will learn how to use digital technology to create radio programs that will air over the Internet. Prerequisite: ENG 101.

COM 303—Interpersonal Communication
3 cr. (Fall/Spring)
This course is designed to introduce students to the theoretical and practical aspects of interpersonal communication. Students learn how to effectively communicate with others in a variety of contexts, including face-to-face interactions, telephone conversations, and online communication. Prerequisite: ENG 101.

COM 305—Small Group Communication
3 cr. (Fall/Spring)
This course is designed to introduce students to the theoretical and practical aspects of small group communication. Students learn how to effectively communicate in group settings, including team meetings, group presentations, and group decision-making. Prerequisite: ENG 101.

COM 307—Public Speaking
3 cr. (Spring)
This course is designed to introduce students to the theoretical and practical aspects of public speaking. Students learn how to effectively deliver informative and persuasive speeches in a variety of oral communication situations. Prerequisite: ENG 101.

Communication
COM 209—Debate (Science, Engineering & Architecture Dept.)

Emphasis is on methods of argumentation and advocacy including proposition analysis, building the case, developing the brief, rebuttal and refutation. Various forms of debate are introduced with directed experience and application (GE 8).
Prerequisite: COM 101

COM 211—Intercultural Communication

Students study different cultures and the unique ways in which they communicate verbally and non-verbally. Includes the interdisciplinary study of cross-cultural communication theories, practices, and case study analysis.
Prerequisite: COM 101

COM 213—Popular Culture and the Media

While building on a foundational overview of the evolution of popular culture, this course examines the growth and influence of American popular culture through the latter half of the twentieth century to the present. In addition to examining various historical critiques of popular culture, students will explore the different levels of popular culture, the technological forms that deliver and influence its content, the economic and social underpinnings of popular culture, and the groups and sub-groups that create, borrow, and consume popular culture in the United States. Case studies in television, music, film and print will be offered.
Prerequisite: COM 101

COM 215—Conflict Resolution

This course assists students in learning ways to resolve conflicts in various settings by examining communication skills in dealing with these conflicts.
Prerequisite: COM 101

COM 217—Introduction to Communication Disorders

An introduction to the field of communication disorders. The course includes an overview of normal and disordered speech and language in children and adults, the assessment and treatment of disordered speech, and an examination of career choices.
Prerequisite: COM 101

Computer Aided Drafting (CAD)

An introduction to drafting using AutoCAD software. Emphasis is placed on data manipulation and three dimensional drawing, both modeling and surfacing. Students will also use Revit software to produce drawings.
Prerequisite: CAD 101

COM 209—Debate (Science, Engineering & Architecture Dept.)

Emphasis is on methods of argumentation and advocacy including proposition analysis, building the case, developing the brief, rebuttal and refutation. Various forms of debate are introduced with directed experience and application (GE 8).
Prerequisite: COM 101

COM 211—Intercultural Communication

Students study different cultures and the unique ways in which they communicate verbally and non-verbally. Includes the interdisciplinary study of cross-cultural communication theories, practices, and case study analysis.
Prerequisite: COM 101

COM 213—Popular Culture and the Media

While building on a foundational overview of the evolution of popular culture, this course examines the growth and influence of American popular culture through the latter half of the twentieth century to the present. In addition to examining various historical critiques of popular culture, students will explore the different levels of popular culture, the technological forms that deliver and influence its content, the economic and social underpinnings of popular culture, and the groups and sub-groups that create, borrow, and consume popular culture in the United States. Case studies in television, music, film and print will be offered.
Prerequisite: COM 101

COM 215—Conflict Resolution

This course assists students in learning ways to resolve conflicts in various settings by examining communication skills in dealing with these conflicts.
Prerequisite: COM 101

COM 217—Introduction to Communication Disorders

An introduction to the field of communication disorders. The course includes an overview of normal and disordered speech and language in children and adults, the assessment and treatment of disordered speech, and an examination of career choices.
Prerequisite: COM 101
Computer Information Technology (CIT)

Computer Information Technology (CIT) (Applied Technologies Department)

CIT 100—Computer Literacy
3 lect., 3 cr (Fall/Spring)
This course is designed to give the student an overview of computer technology, concepts, terminology, and the role of computers in society. There will be discussions of the social and ethical issues related to computers and the Internet. It will provide the student with research and critical thinking skills and introduce the student to relevant emerging technologies. The student will use word-processing, spreadsheets, databases, and presentation software when presenting their findings.
Prerequisite: MAT 040 or math placement into MAT 020 or higher

CIT 101—Microcomputer Applications
(For Business majors—see BUS 161 Computer Applications for Business)
3 lect., 3 cr (Fall)
An introductory course in Management Information Systems that includes such topics as organization and dissemination of business information, fundamentals of a computer system, storage and retrieval devices, the systems development life cycle, the Internet, and E-Commerce. Coverage will also include security, privacy and ethical issues as they relate to information systems.

CIT 105—Data Communications & Introduction to Networking
2 lect., 2 lab, 3 cr (Fall)
This is an introductory course in data communications. Topics, which are emphasized in this course, include communication mediums, communication equipment, network topologies, protocols, and the OSI model.
Corequisite: CIT 103 or placement by department
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 107—Introduction to C++ Programming
2 lect., 2 lab, 3 cr (Fall)
This course involves classroom lectures and hands-on exposure to advanced microcomputer software and hardware. Topics include: current hardware technology, microcomputer operating systems, fixed disk management, communications, and local area networks.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 108—Web Page Programming I
2 lect., 2 lab, 3 cr, (Spring)
This is a computer based course that introduces the student to client-sided Internet web page programming. The student will cover topics including, general concepts, terminology, XHTML, JavaScript, DHTML, and XML. Assignments provide experience in the use of the scripting/programming languages utilized to create web pages.
Prerequisites: CIT 111, MAT 020 or placement into MAT 101 or higher

CIT 111—Internet & HTML
2 lect., 2 lab, 3 cr, (Fall/Spring)
This is a computer-based course which introduces the student to the Internet and Internet programming. The student will cover topics including, general concepts, terminology, search engines, web page design and Internet languages. Assignments provide experience in the use of the Internet and creating web pages, an introduction to Dreamweaver.
Prerequisites: CIT 101, MAT 020 or placement into MAT 101 or higher

CIT 112—Computer Hardware and Maintenance
1 lect., 3 lab, 4 cr (Spring)
This course involves classroom lectures and hands-on exposure to advanced microcomputer software and hardware. Topics include: current hardware technology, microcomputer operating systems, fixed disk management, communications, and local area networks.
Prerequisite: CIT 103 or placement by department
Corequisite: CIT 103 or placement by department
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 113—Internet & HTML
2 lect., 2 lab, 3 cr, (Fall/Spring)
This is a computer-based course which introduces the student to the Internet and Internet programming. The student will cover topics including, general concepts, terminology, search engines, web page design and Internet languages. Assignments provide experience in the use of the scripting/programming languages utilized to create web pages.
Prerequisites: CIT 111, MAT 020 or placement into MAT 101 or higher

CIT 115—Visual Basic
2 lect., 2 lab, 3 cr, (Fall/Spring)
This is a hands-on computer programming course to introduce the student to the Visual Basic programming language. The student will use important programming tools such as flowcharting, pseudo code, testing data and testing modules and will learn how to use Visual Basic for both stand-alone programs and scripting modules for use on the Internet. Entering students should have a basic knowledge of microcomputers and Windows.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 116—Networking I
3 lect., 3 lab, 4 cr (Spring)
This course will introduce students to the organization and design of networks. It contains the background information students would need to take the first part of the CCNA certification, however, certification preparation is not included in this course. Topics include networking media, networking topologies, TCP/IP protocols, and the OSI model.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 118—Operating Systems
3 lect., 3 lab, 4 cr (Spring)
This course is an overview of microcomputer operating systems, which includes installation, configuration, maintenance and efficiency.
Prerequisite: CIT 105

Computer Information Technology (CIT) (Applied Technologies Department)

CIT 111—Computer Literacy
3 lect., 3 cr (Fall/Spring)
This course is designed to give the student an overview of computer technology, concepts, terminology, and the role of computers in society. There will be discussions of the social and ethical issues related to computers and the Internet. It will provide the student with research and critical thinking skills and introduce the student to relevant emerging technologies. The student will use word-processing, spreadsheets, databases, and presentation software when presenting their findings.
Prerequisites: CIT 111, MAT 020 or placement into MAT 101 or higher

CIT 112—Computer Hardware and Maintenance
1 lect., 3 lab, 4 cr (Spring)
This course involves classroom lectures and hands-on exposure to advanced microcomputer software and hardware. Topics include: current hardware technology, microcomputer operating systems, fixed disk management, communications, and local area networks.
Prerequisites: CIT 101, MAT 020 or placement into MAT 101 or higher
Corequisite: CIT 103 or placement by department
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 113—Internet & HTML
2 lect., 2 lab, 3 cr, (Fall/Spring)
This is a computer-based course which introduces the student to the Internet and Internet programming. The student will cover topics including, general concepts, terminology, search engines, web page design and Internet languages. Assignments provide experience in the use of the Internet and creating web pages, an introduction to Dreamweaver.
Prerequisites: CIT 111, MAT 020 or placement into MAT 101 or higher

CIT 115—Visual Basic
2 lect., 2 lab, 3 cr, (Fall/Spring)
This is a hands-on computer programming course to introduce the student to the Visual Basic programming language. The student will use important programming tools such as flowcharting, pseudo code, testing data and testing modules and will learn how to use Visual Basic for both stand-alone programs and scripting modules for use on the Internet. Entering students should have a basic knowledge of microcomputers and Windows.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 116—Networking I
3 lect., 3 lab, 4 cr (Spring)
This course will introduce students to the organization and design of networks. It contains the background information students would need to take the first part of the CCNA certification, however, certification preparation is not included in this course. Topics include networking media, networking topologies, TCP/IP protocols, and the OSI model.
Prerequisite: CIT 101 or placement by department
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 117—Introduction to C++ Programming
2 lect., 2 lab, 3 cr, (Fall)
This course involves classroom lectures and hands-on exposure to C++. Topics include: Fundamental features of C++, Operators, Arrays and Loops, Pointers, Control Statements, Disk Files and Libraries, Structures for Lists, Sorting and Searching.
Prerequisite: CIT 101 or placement by department
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 118—Operating Systems
3 lect., 3 lab, 4 cr (Spring)
This course is an overview of microcomputer operating systems, which includes installation, configuration, maintenance and efficiency.
Prerequisite: CIT 105
Installation and management of peripheral devices such as hard disk, USB flash drives, floppy drives, printers, and monitors will be covered. Customizing the operating system environments, troubleshooting, evaluating system performance, and system utilities of operating system will also be covered. Both client and server operating systems will be discussed including but not limited to Microsoft Windows (Server, XP, and Vista), and LINUX. Students will learn industry standards and terminology. 

**Prerequisites**: CIT 100 — Computer Literacy

**CIT 203 — Networking 2**

3 lect., 3 lab., 4 cr. (Fall)

This course builds on the foundation developed in CIT 116—Networking 1 and extends the students' capability to understand and manage data networks. It contains the background information students would need to take the second part of the CCNA certification; however, certification preparation is not included in this course. Topics include LAN and WAN design, VLANs, Frame Relay, ISDN, and network administration. Students will learn industry standards and terminology.

**Prerequisites**: CIT 116

**CIT 205 — Web Page Programming 2**

2 lect., 2 lab., 3 cr. (Fall)

This is a computer based course which introduces the student to server-sided Internet web page programming. The student will cover topics including, general concepts, terminology. IJS, Apache, SQL, ASP, XML, Perl, CGI, and PHP. Assignments provide experience in the use of the scripting/programming languages utilized to create interactive web pages.

**Prerequisite**: CIT 108

**CIT 206 — Networking Security**

2 lect., 2 lab., 3 cr. (Spring)

This course is an introduction to networking security, which includes securing an organization's critical data and systems from both internal and external threats. It contains the background information students would need to take the CompTIA's Security+ certification; however, certification preparation is not included in this course. Topics include general security concepts, security threats, authentication, attacks, malicious code, remote access, email considerations, and web security. Students will learn industry standards and terminology.

**Prerequisites**: CIT 116

**CIT 208 — Flash Programming**

2 lect., 2 lab., 3 cr. (Spring)

This course introduces the student to Macromedia Flash, which allows the student to add animations, special effects, sound and much more to their Web Pages. The student will learn how to create Flash objects. Assignments will provide experience in the use of Macromedia Flash.

**Prerequisites**: CIT 111, MAT 020 or placement into MAT 101 or higher

**CIT 211 — Systems Analysis**

3 lect., 3 cr. (Fall)

Emphasis is placed on feasibility studies and analysis of new system requirements. A semester-long project is required to be completed by small groups working outside of the classroom. The group is required to present a written and oral presentation at the end of the semester.

**Prerequisites**: CIT 103, MAT 020 or placement into MAT 101 or higher; prerequisite or concurrent enrollment in CIT 225

**CIT 212 — Systems Design**

3 lect., 3 cr. (Spring)

Emphasis is placed on designing a new system; the file organization, hardware selection, programming specifications, installation requirements and follow-up procedures. A Case project is required to be completed by small groups. The Case Project will require a written and oral presentation at the end of the semester.

**Prerequisite**: CIT 211 and CIT 225

**CIT 215 — Web Site Management**

2 lect., 2 lab., 3 cr. (Spring)

This course introduces the student to server-side Internet web page management. The student will learn how to identify a project, build a team, plan the project, and develop a design. Assignments provide experience in management of projects, people, and process.

**Prerequisite**: CIT 111, MAT 020 or placement into MAT 101 or higher

**CIT 216 — Internet Security**

2 lect., 2 lab., 3 cr. (Spring)

This is a computer-based course which introduces the student to security issues and security programming secure applications for the Internet. The student will cover topics including, general concepts, terminology, Java security, Servlet and JSP security, cryptography, and security for web services. Assignments provide experience in the use of the scripting/programming languages utilized to build secure enterprise infrastructure containing Java-based enterprise applications.

**Prerequisite**: CIT 205

**CIT 217 — Introduction to Unix/Linux**

2 lect., 2 lab., 3 cr. (Fall/Spring)

This is a computer-based course that will introduce the student to the UNIX and LINUX operating system. Assignments will include installation, basic operation, file management, administration, and configuration of LINUX. Various editions of UNIX/LINUX will be discussed. Students may wish to use this course to prepare for a CompTIA Linux+ certification.

**Prerequisite**: CIT 104 or placement by department, MAT 020 or placement into MAT 101 or higher

**CIT 219 — Systems Analysis**

3 lect., 3 cr. (Fall)

Emphasis is placed on feasibility studies and analysis of new system requirements. A semester-long project is required to be completed by small groups working outside of the classroom. The group is required to present a written and oral presentation at the end of the semester.

**Prerequisites**: CIT 103, MAT 020 or placement into MAT 101 or higher; prerequisite or concurrent enrollment in CIT 225

**CIT 212 — Systems Design**

3 lect., 3 cr. (Spring)

Emphasis is placed on designing a new system; the file organization, hardware selection, programming specifications, installation requirements and follow-up procedures. A Case project is required to be completed by small groups. The Case Project will require a written and oral presentation at the end of the semester.

**Prerequisite**: CIT 211 and CIT 225

**CIT 215 — Web Site Management**

2 lect., 2 lab., 3 cr. (Spring)

This course introduces the student to server-side Internet web page programming. The student will learn how to identify a project, build a team, plan the project, and develop a design. Assignments provide experience in management of projects, people, and process.

**Prerequisite**: CIT 111, MAT 020 or placement into MAT 101 or higher

**CIT 216 — Internet Security**

2 lect., 2 lab., 3 cr. (Spring)

This is a computer-based course which introduces the student to security issues and secure applications for the Internet. The student will cover topics including, general concepts, terminology, Java security, Servlet and JSP security, cryptography, and security for web services. Assignments provide experience in the use of the scripting/programming languages utilized to build secure enterprise infrastructure containing Java-based enterprise applications.

**Prerequisite**: CIT 205

**CIT 217 — Introduction to Unix/Linux**

2 lect., 2 lab., 3 cr. (Fall/Spring)

This is a computer-based course that will introduce the student to the UNIX and LINUX operating system. Assignments will include installation, basic operation, file management, administration, and configuration of LINUX. Various editions of UNIX/LINUX will be discussed. Students may wish to use this course to prepare for a CompTIA Linux+ certification.

**Prerequisite**: CIT 104 or placement by department, MAT 020 or placement into MAT 101 or higher

**CIT 219 — Systems Analysis**

3 lect., 3 cr. (Fall)

Emphasis is placed on feasibility studies and analysis of new system requirements. A semester-long project is required to be completed by small groups working outside of the classroom. The group is required to present a written and oral presentation at the end of the semester.

**Prerequisites**: CIT 103, MAT 020 or placement into MAT 101 or higher; prerequisite or concurrent enrollment in CIT 225

**CIT 212 — Systems Design**

3 lect., 3 cr. (Spring)

Emphasis is placed on designing a new system; the file organization, hardware selection, programming specifications, installation requirements and follow-up procedures. A Case project is required to be completed by small groups. The Case Project will require a written and oral presentation at the end of the semester.

**Prerequisite**: CIT 211 and CIT 225

**CIT 215 — Web Site Management**

2 lect., 2 lab., 3 cr. (Spring)

This course introduces the student to server-side Internet web page programming. The student will learn how to identify a project, build a team, plan the project, and develop a design. Assignments provide experience in management of projects, people, and process.

**Prerequisite**: CIT 111, MAT 020 or placement into MAT 101 or higher

**CIT 216 — Internet Security**

2 lect., 2 lab., 3 cr. (Spring)

This is a computer-based course which introduces the student to security issues and secure applications for the Internet. The student will cover topics including, general concepts, terminology, Java security, Servlet and JSP security, cryptography, and security for web services. Assignments provide experience in the use of the scripting/programming languages utilized to build secure enterprise infrastructure containing Java-based enterprise applications.

**Prerequisite**: CIT 205

**CIT 217 — Introduction to Unix/Linux**

2 lect., 2 lab., 3 cr. (Fall/Spring)

This is a computer-based course that will introduce the student to the UNIX and LINUX operating system. Assignments will include installation, basic operation, file management, administration, and configuration of LINUX. Various editions of UNIX/LINUX will be discussed. Students may wish to use this course to prepare for a CompTIA Linux+ certification.

**Prerequisite**: CIT 104 or placement by department, MAT 020 or placement into MAT 101 or higher
Computer Information Technology (CIT) - Computer Science

CIT 225—Database Fundamentals & Design
2 lect., 2 lab., 3 cr. (Fall)
This course presents fundamental concepts of database design. Topics include input/output processing, file organization, relational database requirements, SQL, QBE, switchboard/menu design, applications development, data security, and automating tasks with macros. This course involves a semester-long group project.
Prerequisite: CIT 103 or placement by department, MAT 020 or placement into MAT 101 or higher

CIT 230—CIT Internship
3 cr. (Spring)
Students are assigned to a work study experience in an appropriate technology field at an off-campus site or provided with on-campus project work. The particular interests of the student in the field are considered in arranging the field experience. Enrollment by permission of the department chair.

Computer Science
(Applying Technologies Department)
The following courses do not satisfy the laboratory science requirement for the Associate Degrees. These courses will satisfy the math requirement for the A.A. and A.S. degrees.

CSC 101—Computer Science 1
3 lect., 2 lab., 4 cr. (Fall)
An introduction to structured programming using the Java language. Students will be presented with methodologies for developing, testing and communicating plans for computer solutions of practical problems. Topics include top down programming, flow block diagrams, input/output structures, choice and loop structures, functions, strings, streams and stream processing and an introduction to classes. While designed as a first course for Computer Science majors, it would be open to any student who might desire to learn programming techniques. This course fulfills the math requirement for the A.S. degree. Prerequisite: math placement of MAT 121 or higher

CSC 102—Computer Science 2
3 lect., 2 lab., 4 cr. (Spring)
A continuation of structured programming using the Java language. Students will design and test algorithms for computer solutions. Topics include user defined data classes, arrays, files, algorithm analysis and software engineering concepts. This course fulfills the math requirement for the A.S. degree. Prerequisite: CSC 101 or permission of the department chair

CSC 130—Computers and Computing
2 lect., 2 lab., 3 cr. (Fall/Spring)
Designed for students who desire an introduction to computers and computer programming, with "hands on" lab experience. Object oriented programming (Visual Basic) is taught using microcomputers with applications drawn from such fields as education, mathematics, and science. Prerequisite: MAT 102 or by permission of instructor

CSC 201—Data Structures
3 lect., 0 lab., 3 cr. (Fall)
A course in Data Structures. Arrays and records are reviewed and abstract data structures and their implementations are introduced using recursion and dynamic storage where appropriate. Structures studied include linked lists, stacks, queues, trees, and graphs. This course fulfills the math requirement for the A.S. degree. Prerequisite: CSC 102

CSC 204—Computer Organization and Assembly Language
3 cr. (Spring)
An introduction to the organization of digital computers. Topics include information representation, system architecture, instruction sets, addressing modes, input/output techniques, and subroutine linkage considerations. Students write Intel 8086 microprocessor assembly language programs. Prerequisite: CSC 201

Computer Information Technology (CIT) - Computer Science

CIT 225—Database Fundamentals & Design
2 lect., 2 lab., 3 cr. (Fall)
This course presents fundamental concepts of database design. Topics include input/output processing, file organization, relational database requirements, SQL, QBE, switchboard/menu design, applications development, data security, and automating tasks with macros. This course involves a semester-long group project.

CSC 101—Computer Science 1
3 lect., 2 lab., 4 cr. (Fall)
An introduction to structured programming using the Java language. Students will be presented with methodologies for developing, testing and communicating plans for computer solutions of practical problems. Topics include top down programming, flow block diagrams, input/output structures, choice and loop structures, functions, strings, streams and stream processing and an introduction to classes. While designed as a first course for Computer Science majors, it would be open to any student who might desire to learn programming techniques. This course fulfills the math requirement for the A.S. degree. Prerequisite: math placement of MAT 121 or higher

CSC 102—Computer Science 2
3 lect., 2 lab., 4 cr. (Spring)
A continuation of structured programming using the Java language. Students will design and test algorithms for computer solutions. Topics include user defined data classes, arrays, files, algorithm analysis and software engineering concepts. This course fulfills the math requirement for the A.S. degree. Prerequisite: CSC 101 or permission of the department chair

CSC 130—Computers and Computing
2 lect., 2 lab., 3 cr. (Fall/Spring)
Designed for students who desire an introduction to computers and computer programming, with "hands on" lab experience. Object oriented programming (Visual Basic) is taught using microcomputers with applications drawn from such fields as education, mathematics, and science. Prerequisite: MAT 102 or by permission of instructor

CSC 201—Data Structures
3 lect., 0 lab., 3 cr. (Fall)
A course in Data Structures. Arrays and records are reviewed and abstract data structures and their implementations are introduced using recursion and dynamic storage where appropriate. Structures studied include linked lists, stacks, queues, trees, and graphs. This course fulfills the math requirement for the A.S. degree. Prerequisite: CSC 102

CSC 204—Computer Organization and Assembly Language
3 cr. (Spring)
An introduction to the organization of digital computers. Topics include information representation, system architecture, instruction sets, addressing modes, input/output techniques, and subroutine linkage considerations. Students write Intel 8086 microprocessor assembly language programs. Prerequisite: CSC 201
Criminal Justice

(Criminal Justice Department)

CRJ 101—Criminal Justice

3 cr.

This course focuses on the development of the criminal justice system in a democratic society. Subject matter includes a comprehensive overview of the police, courts, and correctional components of the system. The historical and theoretical development of the criminal justice system and the impact of issues such as technology, transnational terrorism and homeland security on this development are explored. Fulfills category C.

CRJ 103—Understanding the Juvenile Offender

3 cr.

This course studies the causes, types and prevention of juvenile delinquency. The legal aspects and responsibilities in handling the juvenile offender are thoroughly analyzed and discussed. The course features an overview of the history and theoretical development of the American juvenile justice system as well as the treatment of the juvenile offender. Fulfills category C.

CRJ 105—Police-Community Relations

3 cr.

The course focuses on the issues related to policing in a multi-cultural society. The course includes an analysis of prejudice and discrimination as sources of tension between law enforcement officials and private citizens. The role of the Police and the diverse communities they serve is thoroughly explored and critically assessed. Fulfills category C.

CRJ 106—Patrol Operations

3 cr.

This course explores the purpose, methods, and types of police patrol and operational functions. The course provides an overview of police administration, police patrol and analyzes the relevant issues that impact modern police systems. The course will explore the origins of policing and compare and contrast the major eras of policing with particular emphasis on community policing, problem solving and the Compstat process. Prerequisite/Corequisite: CRJ 101.

CRJ 107—Industrial and Private Security

3 cr.

This course provides an overview of industrial and private security systems. The methods, procedures and techniques that are utilized in the area of private security are studied and reviewed. Security issues such as loss prevention, disaster preparation, accident control, identity theft, cyber security, fire prevention, business continuity and homeland security are discussed and evaluated. The course provides an in depth analysis and definition relative to the organizational structure of security organizations, proprietary organizations, and contract organizations. Security problems at the industrial, retail and government level are analyzed and assessed.

CRJ 109—Critical Issues in Law Enforcement

3 cr.

This is an overview of current issues in law enforcement that combines both the social science and legal approach to controversial issues in criminal justice and criminology. The course analyzes current issues in law enforcement such as police stress, corruption, brutality, police response to diverse communities, search and seizure, gun control, sentencing, hate groups, terrorism and homeland security.

CRJ 111—Criminology

3 cr.

This course explores the development of criminology as a discipline. Contemporary criminological theories relative to the causes of criminal behavior and victimization are studied. Students are expected to study these sociological, psychological and anthropological explanations of crime and critically discuss their relevance to the modern world.

CRJ 113—Corrections, Probation and Parole

3 cr.

The structure and theory of correctional systems. A comprehensive study of correctional theory and the development of the prevention and treatment of adult and juvenile offenders. The course provides an overview of probation, parole, state training schools and community based correctional systems. Prerequisite: CRJ 101 or permission of department chair.

CRJ 211—Criminal Law

3 cr.

This course presents an overview of the philosophical development of our system of criminal law. The course focuses on the definitions and classification of crimes, criminal liability, and the development of controversial issues in criminal law such as the insanity defense, culpability, and jurisdiction. The course utilizes actual court cases to illustrate major legal concepts. Prerequisite: CRJ 101.

CRJ 213—Police Organization and Administration

3 cr.

This course comprises an analysis of the organizational structure of municipal police departments including an examination of the major divisional components and operational units. The course will focus on the major organizational, criminal justice and homeland security are discussed and evaluated. The course provides an in depth analysis and definition relative to the organizational structure of security organizations, proprietary organizations, and contract organizations. Security problems at the industrial, retail and government level are analyzed and assessed.

CRJ 109—Critical Issues in Law Enforcement

3 cr.

This is an overview of current issues in law enforcement that combines both the social science and legal approach to controversial issues in criminal justice and criminology. The course analyzes current issues in law enforcement such as police stress, corruption, brutality, police response to diverse communities, search and seizure, gun control, sentencing, hate groups, terrorism and homeland security.

CRJ 111—Criminology

3 cr.

This course explores the development of criminology as a discipline. Contemporary criminological theories relative to the causes of criminal behavior and victimization are studied. Students are expected to study these sociological, psychological and anthropological explanations of crime and critically discuss their relevance to the modern world.

CRJ 113—Corrections, Probation and Parole

3 cr.

The structure and theory of correctional systems. A comprehensive study of correctional theory and the development of the prevention and treatment of adult and juvenile offenders. The course provides an overview of probation, parole, state training schools and community based correctional systems. Prerequisite: CRJ 101 or permission of department chair.

CRJ 211—Criminal Law

3 cr.

This course presents an overview of the philosophical development of our system of criminal law. The course focuses on the definitions and classification of crimes, criminal liability, and the development of controversial issues in criminal law such as the insanity defense, culpability, and jurisdiction. The course utilizes actual court cases to illustrate major legal concepts. Prerequisite: CRJ 101.

CRJ 213—Police Organization and Administration

3 cr.

This course comprises an analysis of the organizational structure of municipal police departments including an examination of the major divisional components and operational units. The course will focus on the major organizational,
managerial and supervisory principles of administration as they relate to law enforcement agencies. The course covers intervention and evaluation of police operations, law and ethics, police brutality, investigation and training.

Prerequisite: CRJ 101

CRJ 215—Criminal Investigation 1 3 cr.

This course provides an introduction to basic criminal investigations. The course includes instruction on proper note taking, report writing, interviewing techniques, crime scene searches, suspect identification, crime scene photography, composite sketch drawing, and court preparation. The investigative function and the relationship between investigators and the District Attorney are explored. Legal issues relative to the investigative function such as search and seizure, Miranda warnings, informant processing, undercover operations, wiretapping and surveillance are discussed and evaluated.

Prerequisite: completion or concurrent enrollment CRJ 101

CRJ 226—Criminal Investigation 2 3 cr.

The investigation of specific crimes and the exploration of methods utilized in specific criminal investigations. The course will explore specific crimes such as arson, narcotics, sex crimes, child abuse, domestic violence, assaults, burglary, larceny, homicide, auto theft, organized crime, domestic and transnational terrorist groups and cyber investigations. An emphasis on the types of evidence that are critical to the successful investigation of the above listed crimes will be thoroughly reviewed and analyzed. Courtroom preparation of these specific investigations will be thoroughly presented and discussed.

Prerequisite/Corequisite: CRJ 101

CRJ 230—Criminal Justice Internship 3 cr.

This course provides students with an opportunity to acquire practical “hands-on” experience under the direct supervision of professionals in a field or area which interests them. The internship affords opportunities for academically related field work in a wide range of criminal justice, correctional, government agencies, social service programs, cultural organizations, businesses, research and non-profit institutions.

The internship requires 80 hours of supervised field work and 15 hours of class work for a total of 95 hours per semester.

Prerequisite: Student must be a criminal justice major, have completed 30 credits or more, have a CumGPA of 2.5 or higher and have the permission of the department chair.

CRJ 230—Criminal Justice Internship 3 cr.

This course provides students with an opportunity to acquire practical “hands-on” experience under the direct supervision of professionals in a field or area which interests them. The internship affords opportunities for academically related field work in a wide range of criminal justice, correctional, government agencies, social service programs, cultural organizations, businesses, research and non-profit institutions.

The internship requires 80 hours of supervised field work and 15 hours of class work for a total of 95 hours per semester.

Prerequisite: Student must be a criminal justice major, have completed 30 credits or more, have a CumGPA of 2.5 or higher and have the permission of the department chair.

CRJ 226—Criminalistics 2 lect., 2 lab., 3 cr.

This course emphasizes the scientific investigation of crime. The importance of crime scene preservation and laboratory examination of forensic evidence as critical steps in the investigative process are emphasized. The processing of evidence in the field and laboratory are performed during in class lectures and in laboratory settings. Specific areas that will be covered during this class include crime scene searches, recording and securing forensic evidence, developing and recording latent fingerprints, examination of body fluids, microscopic examination of evidence such as ballistics, firearms, breathalyzer examinations and polygraph examinations etc.

Prerequisite: CRJ 101, CRJ 215, and CRJ 216

CRJ 226—Criminalistics 2 lect., 2 lab., 3 cr.

This course emphasizes the scientific investigation of crime. The importance of crime scene preservation and laboratory examination of forensic evidence as critical steps in the investigative process are emphasized. The processing of evidence in the field and laboratory are performed during in class lectures and in laboratory settings. Specific areas that will be covered during this class include crime scene searches, recording and securing forensic evidence, developing and recording latent fingerprints, examination of body fluids, microscopic examination of evidence such as ballistics, firearms, breathalyzer examinations and polygraph examinations etc.

Prerequisite: CRJ 101, CRJ 215, and CRJ 216
Cyber Security

(Applied Technologies)

CFR 221—Computer Forensics
2 lect., 2 lab; 3 cr.

This course will introduce the student to the accepted methods of properly conducting a computer forensics investigation, beginning with a discussion of ethics while mapping to the objectives of the International Association of Computer Investigative Specialists (IACIS) certification. Students should have a working knowledge of hardware and operating systems (OSs) to maximize their success on projects and exercises throughout the text. Specific topics covered include: computer forensics and investigations as a profession, understanding computer investigations, the investigator's office and laboratory, current computer forensics tools, processing crime and incident scenes, digital evidence controls, working with windows and DOS systems, Macintosh and Linux boot processes and disk structures, data acquisition, computer forensic analysis, recovering image files, network forensics, e-mail investigations.

Prerequisite: CIT 112, CIT 118

CFR 222—Network Forensics
2 lect., 2 lab, 3 cr.

This course will introduce the student to the accepted methods of properly conducting a forensics investigation over a network. Students should have a working knowledge of networks, hardware, and operating systems (OSs) to maximize their success on projects and exercises throughout the text. Specific topics covered include: network forensics investigation overview, the Microsoft network structure, processing crime and incident scenes, digital evidence controls, data acquisition, forensic analysis, recovering image files, the registry structure, registry evidence, presenting the results.

Prerequisite: CIT 203, CFR 221

CSS 223 Information Security
3 cr.

This course is designed to familiarize the student with the foundation utilized by most organizations in developing a management framework that will implement a secure, predictable and dependable system throughout the organization. In addition, it will help students prepare to take the Certified Information Systems Security Professional Exam (CISSP). This is a first course in the introduction and study of Information Security.

A broad view of the field is provided along with enough detail to facilitate an understanding of the topic as a whole. All pertinent terminology is covered, along with the field's history and an overview of how to implement and manage an information security plan. Readings and cases are provided to further enable a student to master the text material while bringing realistic security issues to the forefront. Readings from current periodicals in the information security will also be reviewed.

Prerequisite: CIT 116

CSS 224—Network Perimeter Security
2 lect., 2 lab, 3 cr.

This course introduces firewalls and the network security components that can work together to provide an in-depth defensive perimeter around a local area network. Accordingly, this course examines firewalls in context with the other elements needed for effective perimeter security as well as security within a network. These include packet filtering, authentication, proxy servers, encryption, bastion hosts, virtual private networks, log file maintenance, Macintosh and Linux boot processes and disk structures, data acquisition, computer forensic analysis, recovering image files, network forensics, e-mail investigations.

Prerequisite: CIT 201

CSS—Cyber Crime Investigations
2 lect., 2 lab, 3 cr.

This course is designed to provide the student with foundational knowledge of common techniques used by most cyber crime investigators. Procedural approaches and documentation will be covered. These procedures identify the accepted approaches to protect a digital crime scene/incident, process the collected data/information, ensure and document the integrity of the entire process. The cyber crime investigative procedures will be scrutinized to identify potential problems. The student will be instructed in how the procedures and outcomes of those procedures create supporting documentation for a legal case.

Prerequisite or concurrent enrollment in CFR 222

CFR 222—Network Forensics
2 lect., 2 lab, 3 cr.

This course will introduce the student to the accepted methods of properly conducting a forensics investigation over a network. Students should have a working knowledge of networks, hardware, and operating systems (OSs) to maximize their success on projects and exercises throughout the text. Specific topics covered include: network forensics investigation overview, the Microsoft network structure, processing crime and incident scenes, digital evidence controls, data acquisition, forensics analysis, recovering image files, the registry structure, registry evidence, presenting the results.

Prerequisite: CIT 203, CFR 221

CSS 223 Information Security
3 cr.

This course is designed to familiarize the student with the foundation utilized by most organizations in developing a management framework that will implement a secure, predictable and dependable system throughout the organization. In addition, it will help students prepare to take the Certified Information Systems Security Professional Exam (CISSP). This is a first course in the introduction and study of Information Security.

A broad view of the field is provided along with enough detail to facilitate an understanding of the topic as a whole. All pertinent terminology is covered, along with the field's history and an overview of how to implement and manage an information security plan. Readings and cases are provided to further enable a student to master the text material while bringing realistic security issues to the forefront. Readings from current periodicals in the information security will also be reviewed.

Prerequisite: CIT 116

CSS 224—Network Perimeter Security
2 lect., 2 lab, 3 cr.

This course introduces firewalls and the network security components that can work together to provide an in-depth defensive perimeter around a local area network. Accordingly, this course examines firewalls in context with the other elements needed for effective perimeter security as well as security within a network. These include packet filtering, authentication, proxy servers, encryption, bastion hosts, virtual private networks, log file maintenance, and intrusion detection systems. Different firewall configurations will also be examined.

Prerequisite: CIT 201

CSS—Cyber Crime Investigations
2 lect., 2 lab, 3 cr.

This course is designed to provide the student with foundational knowledge of common techniques used by most cyber crime investigators. Procedural approaches and documentation will be covered. These procedures identify the accepted approaches to protect a digital crime scene/incident, process the collected data/information, ensure and document the integrity of the entire process. The cyber crime investigative procedures will be scrutinized to identify potential problems. The student will be instructed in how the procedures and outcomes of those procedures create supporting documentation for a legal case.

Prerequisite or concurrent enrollment in CFR 222

www.sunyorange.edu
Dental Hygiene

Dental Hygiene (Dental Hygiene Department)

NOTE: Students must comply with all policies, procedures, and regulations of the internship/feldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

Note: A minimum grade of C (75%) is required in all DNT courses to maintain enrollment in the program.

DNT 101—Preventive Oral Health Services 1
2 lect., 9 lab., 5 cr. (Fall)

An introduction to the profession of dental hygiene and to the scientific principles of practice are core topics presented in this preclinical course. Didactic concepts and clinical techniques are integrated and applied in laboratory and clinical practice. Fundamental client assessment procedures, instrumentation skills and infection control protocols are the major foundational concepts presented. These will prepare the novice clinician to begin the provision of dental hygiene services to clients in the clinical setting [R-1].

Corequisites: ENG 101, BIO 115, CHM 110, DNT 103, CPR certification

DNT 102—Preventive Oral Health Services 2
2 lect., 9 lab., 5 cr. (Spring)

The emphasis of this course is on the role of the dental hygienist in the care of medically compromised clients or clients whose particular needs require special consideration in clinical practice. The mandated New York State course in Child Abuse Detection and Reporting is also presented. Clinical content includes continued study of the Dental Hygiene Process of Care addressing the Dental Hygiene Diagnosis, Development, Planning phases. The clinical experience provides the student with the opportunity to further develop novice level instrumentation skills and assessment techniques [R-1].

Corequisites: CPR certification, DNT 101, BIO 115, CHM 110, DNT 103

DNT 103—Maxillofacial Anatomy and Oral Histology
3 lect., 3 lab., 4 cr. (Fall)

Study of the anatomy, embryology, and histology of the orofacial complex and neck as foundational knowledge for the study of dental hygiene. Detailed anatomy of the teeth and periodontium and anatomy of local anesthesia is provided. Other topics include embryology of the maxillofacial complex, histology of oral tissues, and the following anatomy: osteology, musculature, circulation, lymphatics, glands, and cranial nerves of the head and neck region.

Corequisites: ENG 101, DNT 101, BIO 115, CHM 110

DNT 104—Dental Radiology
2 lect., 3 lab., 3 cr. (Spring)

Dental Radiology is the application of the principles of radiology in the study of the teeth and their surrounding structures. The students will study in lecture the history and principles of radiation physics, radiation biology, radiation safety, radiographic quality assurance, image theory, and alternative imaging modalities. The laboratory will provide demonstrations and practical application in the fundamentals of intraoral and extraoral radiographic techniques, processing, mounting and interpretation. Throughout the dental hygiene program, students will continue to integrate both didactic and preclinical skills by practical application in the clinic and extended clinical settings. [R-1]

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 103
Corequisites: ENG 102, DNT 102, DNT 106, DNT 108, MTL 106

DNT 106—Oral Health Education
2 cr. (Spring)

Students develop skills in health promotion and disease prevention, focused primarily at the clinical, private practice setting. Topics include principles of client education, communication, psychology of oral health care, client management, oral physiotherapy, client assessment for preventive education and treatment, tobacco cessation and prevention, therapeutics and topics in advanced caries prevention. Didactic concepts and clinical application are coordinated with clinical practice. Specific health education/preventive topics are assigned.

Prerequisites: DNT 101, BIO 115, CHM 110, DNT 103
Corequisites: ENG 102, DNT 104, DNT 108, ENG 102, MTL 106

DNT 108—Pharmacology
2 cr. (Spring)

The composition, dosage, therapeutic action, use and effects of drugs related to clinical dentistry and dental hygiene are studied.

Prerequisites: ENG 101, BIO 115, CHM 110, DNT 103
Corequisites: ENG 102, DNT 104, DNT 106, ENG 102, MTL 106

DNT 109—Pain Management in Dentistry
2 cr. (Summer 1)

This course is designed to teach the management of pain control through the administration of local anesthetic agents and nitrous oxide/oxygen for conscious sedation. Topics for the course include related anatomy and physiology, behavioral considerations, pharmacology of the drugs including indications/contraindications for their usage and the cranial nerves of the head and neck region.

Corequisites: ENG 101, DNT 101, BIO 115, CHM 110

DNT 104—Dental Radiology
2 lect., 3 lab., 3 cr. (Spring)

Dental Radiology is the application of the principles of radiology in the study of the teeth and their surrounding structures. The students will study in lecture the history and principles of radiation physics, radiation biology, radiation safety, radiographic quality assurance, image theory, and alternative imaging modalities. The laboratory will provide demonstrations and practical application in the fundamentals of intraoral and extraoral radiographic techniques, processing, mounting and interpretation. Throughout the dental hygiene program, students will continue to integrate both didactic and preclinical skills by practical application in the clinic and extended clinical settings. [R-1]

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 103
Corequisites: ENG 102, DNT 102, DNT 106, DNT 108, MTL 106

DNT 106—Oral Health Education
2 cr. (Spring)

Students develop skills in health promotion and disease prevention, focused primarily at the clinical, private practice setting. Topics include principles of client education, communication, psychology of oral health care, client management, oral physiotherapy, client assessment for preventive education and treatment, tobacco cessation and prevention, therapeutics and topics in advanced caries prevention. Didactic concepts and clinical application are coordinated with clinical practice. Specific health education/preventive topics are assigned.

Prerequisites: DNT 101, BIO 115, CHM 110, DNT 103
Corequisites: ENG 102, DNT 104, DNT 108, ENG 102, MTL 106

DNT 108—Pharmacology
2 cr. (Spring)

The composition, dosage, therapeutic action, use and effects of drugs related to clinical dentistry and dental hygiene are studied.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 103

Dental Hygiene

201—Preventive Oral Health Services 3

1 lect., 15 lab., 5 cr. (Fall)

Advanced dental hygiene theory and skills are presented in this course and integrated into the clinical experience. Periodontal instrumentation skills including ultrasonic scaling, implant care, and advanced assessment procedures are covered. Emphasis is placed on the implementation and evaluation phases of the Dental Hygiene Process of Care. The role of the dental hygienist in the dental specialty areas of prosthodontics and orthodontics is also included. The student will continue to develop clinical skills, advancing towards beginner level. [R-1]

Prerequisites: DNT 102, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106, CPR certification
Corequisites: BIO 125, DNT 203, DNT 205, DNT 207

202—Preventive Oral Health Services 4

1 lect., 15 labs., 5 cr. (Spring)

This course is designed to prepare the student to begin dental hygiene practice. The major topics include: Ethical and Legal Considerations of Licensure and Practice, Professional Development and Employment and Practice Management Theory. The clinical experience emphasizes time management and the evaluation phase of the Dental Hygiene Process of Care. Students will continue to develop the knowledge, skills and attitudes necessary to achieve clinical competency. [R-1]

Prerequisites: BIO 125, DNT 110, DNT 201, DNT 108, DNT 203, DNT 205, DNT 207, CPR certification
Corequisites: COM 101, DNT 206, PSY 101, SOC 101

203—Oral Pathology

2 cr. (Fall)

The study of the branches of biologic sciences dealing with the nature of disease, its causes, processes and effects with an emphasis on the manifestations of the disease in the oral region. This lecture course integrates both basic and clinical sciences to prepare the dental hygienist to detect, identify, describe and differentiate from normal any abnormalities found in the head and neck region.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102 DNT 103, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106
Corequisites: BIO 125, DNT 201, DNT 205, DNT 207

204—Preventive Oral Health Services 3

1 lect., 15 lab., 5 cr. (Fall)

Advanced dental hygiene theory and skills are presented in this course and integrated into the clinical experience. Periodontal instrumentation skills including ultrasonic scaling, implant care, and advanced assessment procedures are covered. Emphasis is placed on the implementation and evaluation phases of the Dental Hygiene Process of Care. The role of the dental hygienist in the dental specialty areas of prosthodontics and orthodontics is also included. The student will continue to develop clinical skills, advancing towards beginner level. [R-1]

Prerequisites: DNT 102, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106, CPR certification
Corequisites: BIO 125, DNT 203, DNT 205, DNT 207

206—Community Dental Health

1 lect., 3 lab., 2 cr. (Spring)

Students gain understanding of health promotion and disease prevention at the community level. The course focuses on knowledge and skills necessary for various roles in community oral health. Topics include basic epidemiology, assessment tools, dental health education strategies, basic statistical and research concepts, the evaluation of dental literature, application of disease prevention and control principles at the community level, and access to care. Participation in field experience is required.

Prerequisite: BIO 125, DNT 108, DNT 201, DNT 203, DNT 205, DNT 207
Corequisite: COM 101, PSY 101, SOC 101

207—Dental Bio-Materials and Advanced Functions

2 lect., 3 lab., 3 cr. (Fall)

The study of structure, properties, uses, manipulation and care of materials used in the prevention and treatment of oral disease. This course will prepare the student to perform to clinical proficiency those functions recognized by the New York State Dental Practice Act for Dental Hygienists. Other functions will be limited to conceptual proficiency. Emphasis will be placed upon the development of independent and inter-dependent decision making skills and applications of these skills to the successful manipulation of dental materials.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102 DNT 103, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106
Corequisite: BIO 125, DNT 201, DNT 203, DNT 205

205—Periodontology

2 cr. (Fall)

This course is designed to study the dental specialty of Periodontology and the role of the dental hygienist in the prevention, detection, treatment and maintenance of periodontal diseases. The content of the lectures will be applied to the clinical process of dental hygiene care including assessment, treatment planning, non-surgical periodontal instrumentation, and evaluation of the periodontium during supportive periodontal therapy.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 104, DNT 106, DNT 110, MLT 106
Corequisites: BIO 125, DNT 201, DNT 203, DNT 207

206—Community Dental Health

1 lect., 3 lab., 2 cr. (Spring)

This course is designed to prepare the student to begin dental hygiene practice. The major topics include: Ethical and Legal Considerations of Licensure and Practice, Professional Development and Employment and Practice Management Theory. The clinical experience emphasizes time management and the evaluation phase of the Dental Hygiene Process of Care. Students will continue to develop the knowledge, skills and attitudes necessary to achieve clinical competency. [R-1]

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 103, DNT 104, DNT 106, DNT 108, MLT 108, MLT 106, CPR certification
Corequisites: BIO 125, DNT 203, DNT 205, DNT 207

207—Dental Bio-Materials and Advanced Functions

2 lect., 3 lab., 3 cr. (Fall)

The study of structure, properties, uses, manipulation and care of materials used in the prevention and treatment of oral disease. This course will prepare the student to perform to clinical proficiency those functions recognized by the New York State Dental Practice Act for Dental Hygienists. Other functions will be limited to conceptual proficiency. Emphasis will be placed upon the development of independent and inter-dependent decision making skills and applications of these skills to the successful manipulation of dental materials.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102 DNT 103, DNT 104, DNT 106, DNT 108, DNT 110, MLT 106
Corequisites: BIO 125, DNT 201, DNT 203, DNT 207

208—Oral Pathology

2 cr. (Fall)

The study of the branches of biologic sciences dealing with the nature of disease, its causes, processes and effects with an emphasis on the manifestations of the disease in the oral cavity. This lecture course integrates both basic and clinical sciences to prepare the dental hygienist to detect, identify, describe and differentiate from normal any abnormalities found in the head and neck region.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102 DNT 103, DNT 104, DNT 106, DNT 110, MLT 106
Corequisites: BIO 125, DNT 201, DNT 205, DNT 207

Dental Hygiene

205—Periodontology

2 cr. (Fall)

This course is designed to study the dental specialty of Periodontics and the role of the dental hygienist in the prevention, detection, treatment and maintenance of periodontal diseases. The content of the lectures will be applied to the clinical process of dental hygiene care including assessment, treatment planning, non-surgical periodontal instrumentation, and evaluation of the periodontium during supportive periodontal therapy.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 104, DNT 106, DNT 108, MLT 106, CPR certification
Corequisites: BIO 125, DNT 201, DNT 203, DNT 207

206—Community Dental Health

1 lect., 3 lab., 2 cr. (Spring)

Students gain understanding of health promotion and disease prevention at the community level. The course focuses on knowledge and skills necessary for various roles in community oral health. Topics include basic epidemiology, assessment tools, dental health education strategies, basic statistical and research concepts, the evaluation of dental literature, application of disease prevention and control principles at the community level, and access to care. Corequisites: BIO 125, DNT 201, DNT 203, DNT 207
Economics - Education

**Economics**  
(Physical Sciences Department)

**ECO 201**—**Micro-Economics**  
3 cr. (Fall/Spring)  
Topics include alternative economic systems, wages, interest rates and profits in our society, macroeconomic theory of business costs and revenues, determination of price by the forces of supply and demand, the psychological factors in economic behavior, ethics as related to our economic system and the nature of competition in contemporary American business. Fullfils category A. (GE 3)

**ECO 202**—**Micro-Economics**  
3 cr. (Fall/Spring)  
This course continues Child Development 1 to age 8 years. Additional emphases of study include language, emotional, social, and moral development, typical and exceptional cognitive development, measurement and assessment, self-concept, cultural, family, and secular issues and influences. Up to four (4) hours of directed observations beyond classroom hours are required. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program. Prerequisite: EDU 101.

**ECO 203**—**Economic Development**  
3 cr. (Fall/Spring)  
Economic development is concerned with the efficient allocation of science resources in relationship to sustained economic growth over time with emphasis on such underdeveloped regions of the world as Africa, Asia, and Latin America. The economic, political, historical, cultural and geographical factors which have contributed to economic underdevelopment will be analyzed, and these mechanisms, necessary to bring about improvements for the impoverished populations of these regions will be stressed. Fullfils category A. Prerequisite: ECO 202 or ECO 201

**Economics - Education**

**Education** (Education Department)

**ECO 201DL**—**Macro-Economics**  
3 cr. (Fall/Spring)  
Distance learning course. Topics include the central problems of every economic system, individual and family income, business organization and income, fiscal and monetary policy, the national income measurement, the business cycle, international economics, and the economic role of government. Access to course materials, assignments, and other resources are available through the Internet using “Blackboard.” Students communicate with the instructor and other classmates via email, and participate in class discussions using “Discussion Board.” Testing and group projects are done online. Fullfils category A. (GE 3)

**ECO 202**—**Micro-Economics**  
3 cr. (Fall/Spring)  
Distance learning course. **Education** (Education Department)

**EDU 101**—**Child Development 1**  
3 cr. (Fall)  
This course provides study of human development and behavior from conception to age two. Topics include: heredity, physical growth, sensory and perceptual development, early brain development and research, adult-child interactions, relevant development and learning theories. Up to four (4) hours of directed observation beyond classroom hours are required. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program. Prerequisite: EDU 101.

**EDU 102**—**Child Development 2**  
3 cr. (Spring)  
This course continues Child Development 1 to age 8 years. Additional emphases of study include language, emotional, social, and moral development, typical and exceptional cognitive development, measurement and assessment, self-concept, cultural, family, and secular issues and influences. Up to four (4) hours of directed observations beyond classroom hours are required. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program. Prerequisite: EDU 101.

**EDU 103**—**Introduction to Early Childhood / Childhood Education**  
3 cr. (Fall/Spring)  
For JRTEP students or students in A.A.A.S. Liberal Arts with Foundations of Education/Teaching Careers. This course offers a broad look at the historical, philosophical, and cultural roots of education in America, focusing on early childhood and childhood, birth through eighth grade. Basics of child development, learning theories, appropriate environments and curricula, educational issues and trends, diversity, multiculturalism, inclusion, family environments and curricula, educational issues and trends, diversity, multiculturalism, inclusion, family

EDU 105—Preparing to Teach Young Children

This course addresses the skills and concepts necessary for the classroom teacher of young children. Emphasis is placed on putting theory into practice. Such topics as daily schedule, lesson planning, transitions, balancing individual and small group work, communication strategies, classroom guidance, evaluation techniques, and portfolio preparation will be included. Personal learning and teaching styles, one’s knowledge of early education, and developing as a professional will also be examined. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 107—Mandated Training

This course provides training in both the identification and reporting of child abuse and maltreatment, and in school violence prevention and intervention. Intended primarily for school administrators, teachers, instructional aides, and child care professionals, other mandated reporter categories for whom this course may apply include: all health practitioners, EMTs, foster parents, social workers, law enforcement, probation and parole officers, film and photographic print processors, clergy, firefighters, animal control and humane society officers, child visitors, and others. Upon successful completion of the course, students will receive State Education Department Certificate forms for use in documenting their satisfactory course work. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 109—Fundamentals of Early Childhood Language

This course presents the progressive, interwoven development in early childhood of the four language arts: listening, speaking, reading, and writing. Both the natural processes of language arts development and the educator’s role in providing a supportive environment will be discussed. Adaptation suggestions for children with disabilities, English as an additional language, or limited literacy experiences will be explored. Learning appropriate techniques will utilize major authors, illustrators, and examples of young children’s literature. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 111—Childhood Health and Safety

Topics include: physical and emotional needs of infants and children; development of healthy physical self-concept; chronic and communicable diseases, immunizations; first aid; teething and dental health; accident prevention; recognition and prevention of sexual abuse; identifying problems and screening techniques for vision and hearing; nutrition; appropriate menus and meal planning. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 111—Mandated Training

This course provides training in both the identification and reporting of child abuse and maltreatment, and in school violence prevention and intervention. Intended primarily for school administrators, teachers, instructional aides, and child care professionals, other mandated reporter categories for whom this course may apply include: all health practitioners, EMTs, foster parents, social workers, law enforcement, probation and parole officers, film and photographic print processors, clergy, firefighters, animal control and humane society officers, child visitors, and others. Upon successful completion of the course, students will receive State Education Department Certificate forms for use in documenting their satisfactory course work. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 201—Observation and Assessment

This course addresses the skills and concepts necessary for the classroom teacher of young children. Emphasis is placed on putting theory into practice. Such topics as daily schedule, lesson planning, transitions, balancing individual and small group work, communication strategies, classroom guidance, evaluation techniques, and portfolio preparation will be included. Personal learning and teaching styles, one’s knowledge of early education, and developing as a professional will also be examined. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 202—Infant and Toddler Development and Curriculum

Study, education, and care of children, pre-natal through age three, according to basic development principles and current research will be explored. Techniques to stimulate cognitive, physical, social, and emotional growth, and to create appropriate environments, curricula, and care will be studied. This preparation for the role of the Infant/Toddler professional are included. Guidelines from NAEYC are used. Thirty-two (32) hours of field work in diverse settings is required. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 203—Child Care Curriculum Development and Field Experience I

The student gains experience in early childhood through supervised participation in local facilities where, over the course of a year, they take increasing responsibility in the various roles of early childhood professionals. In a weekly seminar/lecture, students discuss their field experiences, and learn to develop early childhood curricula including these areas: Art and Creative Experiences, Music, Movement, Physical Activities, Creative Play, Language Arts, Beyond Books, Discipline and Classroom Management*. A grade of C is required to continue and graduate in the A.A.S. program

EDU 209—Fundamentals of Early Childhood

This course presents the progressive, interwoven development in early childhood of the four language arts: listening, speaking, reading, and writing. Both the natural processes of language arts development and the educator’s role in providing a supportive environment will be discussed. Adaptation suggestions for children with disabilities, English as an additional language, or limited literacy experiences will be explored. Learning appropriate techniques will utilize major authors, illustrators, and examples of young children’s literature. A grade of C or better is required to continue and graduate in the A.A.S. program
Education

EDU 204—Child Care Curriculum Development and Field Experience 2
A continuation of EDU 203 including Blocks, Science, Math, Culturally Inclusive Classrooms, Special Needs: Populations, Modern Issues, Transitions, Thematic Webs, Parent Interactions, Professional Preparation.* Requires local site observations beyond college attendance. A grade of C is required to continue and graduate in the A.A.S. program.
Prerequisite: EDU 203

EDU 206—Administration and Management of Child Care Centers
3 cr. (Spring)
This course is designed to acquaint advanced students in the early childhood curriculum with practical matters involved in establishing and maintaining an early childhood facility. It includes topics such as determining the need for and structure of, an early childhood facility; legal requirements for child care centers and staff; child selection and grouping; staff recruitment, development and evaluation; funding and budget management; interactions with parents and community organizations; and an introduction to management techniques. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.
Prerequisite: EDU 101, EDU 102, EDU 201, EDU 203**

EDU 207—Social and Philosophical Foundations of Education in America
3 lect., 3 cr.
This course examines the social, cultural, philosophical, historical, ethical and practical aspects of education in the United States. Current issues, such as economics and school equity, areas of bias, school achievement, policies, practices and reform initiatives will be addressed. Ten hours of field observation beyond the college classroom are required. Two meetings of field experience reflection groups will be scheduled in addition to college classroom hours. Location and time of these meetings will be student-scheduled to accommodate the groups’ needs. Evidence of completion of fingerprinting through NYS Dept. of Education is required.
Prerequisites: ENG 101

EDU 208—Home, School and Community: Families and Teachers as Partners
3 cr. (Spring)
This course will address issues in communication, barriers to effective dialogue, active listening, conflict resolution, and classroom expectations of families and teachers. Parenting styles, skills and community, as well as local resources and referrals will be considered. Diversity and multicultural awareness and importance will be stressed and celebrated. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

Prerequisite: EDU 101
Pre/Corequisite: EDU 102

*NOTE: EDU 203 and EDU 204 require documentation of a satisfactory physical examination, negative tuberculin test, chest x-ray as stipulated by state regulations. Fingerprinting and State Clearance Registry forms required.
** Students who took EDU 103 MUST meet with their advisor. Possible waivers MAY be given for certain EDU courses.

Education

EDU 204—Child Care Curriculum Development and Field Experience 2
Prerequisite: EDU 203

EDU 206—Administration and Management of Child Care Centers
3 cr. (Spring)
This course is designed to acquaint advanced students in the early childhood curriculum with practical matters involved in establishing and maintaining an early childhood facility. It includes topics such as determining the need for and structure of, an early childhood facility; legal requirements for child care centers and staff; child selection and grouping; staff recruitment, development and evaluation; funding and budget management; interactions with parents and community organizations; and an introduction to management techniques. 3 cr. (Spring)
This course will address issues in communication, barriers to effective dialogue, active listening, conflict resolution, and classroom expectations of families and teachers. Parenting styles, skills and community, as well as local resources and referrals will be considered. Diversity and multicultural awareness and importance will be stressed and celebrated. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

Prerequisite: EDU 101
Pre/Corequisite: EDU 102

*NOTE: EDU 203 and EDU 204 require documentation of a satisfactory physical examination, negative tuberculin test, chest x-ray as stipulated by state regulations. Fingerprinting and State Clearance Registry forms required.
** Students who took EDU 103 MUST meet with their advisor. Possible waivers MAY be given for certain EDU courses.
EET 101—Electric Circuits
A study of the fundamentals of DC & AC circuit theory. Topics include DC circuits (series, parallel and combination) and network theorems (Thevenin, superposition and nodal analysis), AC waveforms, capacitors (RC circuits), inductance (RL circuits) and complex AC circuits (RCL), including complex circuit analysis and passive filter applications. The course also includes a 1.5 credit technical writing component. Corequisite: MAT 102 or higher. ENG 160

EET 104—Digital Electronics 1
This course begins with a basic understanding of digital fundamentals such as binary and hex numbers, basic logic functions, Boolean algebra, logic minimization and simple combinational logic circuits. Additional topics such as electrical characteristics of TTL and CMOS logic are discussed. The student will then explore a few basic digital circuits using CABD programs. The student will explore combinational logic functions, arithmetic circuits, sequential logic, programmable logic architectures, counters and shift registers, state machine design, logic BAC and ADC. The student will be introduced to CPLD applications and VHDL. Prerequisite: MAT 020 or placement into MAT 101 or higher.

EET 105—Telecommunications 1
This course is designed to form a basis for a career in telecommunications. Students will gain a comprehensive understanding of telecommunications technologies, their applications, and their implications for business. The focus will be telecommunications basics, switching and routing and telecommunications networking. On-site telecommunications laboratory will provide students with hands-on experience. Prerequisite: EET 101, MAT 107 or higher.

EET 106—Telecommunications 2
This course covers advanced electronic telecommunications concepts. It is intended to provide the technician with a working knowledge of digital data telecommunication systems and components. The focus will continue with Telecommunications Networking, communications service providers, Telecommunications applications and emerging technologies. Prerequisite: EET 106.

EET 109—Computer Applications & Graphics
This entry level course is designed to introduce the student to computer graphical concepts and the visual display of information. Topics include layouts, charts, drawings, illustrations, computer aided design, image manipulation and enhancement, and graphic presentations. Projects include graphical techniques and analysis for graphics, medical imaging, and the sciences. Applications used include word processing, spreadsheet, databases, graphical presentation, photo editing, illustrating and computer aided design.

EET 201—Electronics 1
A study of basic semiconductor theory, diodes, bipolar transistors and FET's, bas circuits, amplifiers, frequency response, digital logic, and an introduction to semiconductor processing. Emphasis is placed on circuit and system design. Prerequisite: EET 101.

EET 202—Electronics 2
A study of op amp theory, configurations and applications. Circuit design problems are used throughout to emphasize real design situations. Circuit simulation is used to provide a base for prototyping and then bench testing real systems. Topics include op amp configurations, summing amps, Integrators and Differentiators, Log amps, D to A and A to D and a variety of control applications. Prerequisite: EET 201.

EET 204—Digital Electronics 2
An in-depth look at Microprocessors, digital interface circuits (bus controllers, latches/O techniques and memory mapping), Microcontrollers and assembly language programming. Micro controller applications design and hardware system design are also covered. A number of analog control applications are designed and implemented. The course uses the Motorola 68HC11 system. Prerequisite: EET 104.

EET 206—Telecommunications 3
A study of basic RF systems, Analog systems (AM & FM), digital data techniques and protocols, antennas, wave propagation, satellite systems, wireless networks and cellular/PSC systems. The course also includes a semester long communications project that includes a 1.5 credit technical writing component. Prerequisites: EET 106.

EET 210—Internship Technology
Students are assigned to a work study experience in an appropriate technology field at an off-campus site or1 provided with on-campus project work. The particular interests of the student in the field are considered in arranging the field experience. Enrollment permission by the department chair.

EET 211—Electronics 3
A study of the fundamentals of DC & AC circuit theory. Topics include DC circuits (series, parallel and combination) and network theorems (Thevenin, superposition and nodal analysis), AC waveforms, capacitors (RC circuits), inductance (RL circuits) and complex AC circuits (RCL), including complex circuit analysis and passive filter applications. The course also includes a 1.5 credit technical writing component. Corequisite: MAT 102 or higher. ENG 160.

EET 214—Digital Electronics 3
This course begins with a basic understanding of digital fundamentals such as binary and hex numbers, basic logic functions, Boolean algebra, logic minimization and simple combinational logic circuits. Additional topics such as electrical characteristics of TTL and CMOS logic are discussed. The student will then explore a few basic digital circuits using CABD programs. The student will explore combinational logic functions, arithmetic circuits, sequential logic, programmable logic architectures, counters and shift registers, state machine design, logic BAC and ADC. The student will be introduced to CPLD applications and VHDL. Prerequisite: MAT 020 or placement into MAT 101 or higher.

EET 215—Telecommunications 4
This course is designed to form a basis for a career in telecommunications. Students will gain a comprehensive understanding of telecommunications technologies, their applications, and their implications for business. The focus will be telecommunications basics, switching and routing and telecommunications networking. On-site telecommunications laboratory will provide students with hands-on experience. Prerequisite: EET 101, MAT 107 or higher.

EET 216—Telecommunications 5
This course covers advanced electronic telecommunications concepts. It is intended to provide the technician with a working knowledge of digital data telecommunication systems and components. The focus will continue with Telecommunications Networking, communications service providers, Telecommunications applications and emerging technologies. Prerequisite: EET 106.

EET 217—Internship Technology
Students are assigned to a work study experience in an appropriate technology field at an off-campus site or1 provided with on-campus project work. The particular interests of the student in the field are considered in arranging the field experience. Enrollment permission by the department chair.

EET 220—Computer Applications & Graphics
This entry level course is designed to introduce the student to computer graphical concepts and the visual display of information. Topics include layouts, charts, drawings, illustrations, computer aided design, image manipulation and enhancement, and graphic presentations. Projects include graphical techniques and analysis for graphics, medical imaging, and the sciences. Applications used include word processing, spreadsheet, databases, graphical presentation, photo editing, illustrating and computer aided design.

EET 221—Electronics 1
A study of basic semiconductor theory, diodes, bipolar transistors and FET's, bas circuits, amplifiers, frequency response, digital logic, and an introduction to semiconductor processing. Emphasis is placed on circuit and system design. Prerequisite: EET 101.

EET 222—Electronics 2
A study of op amp theory, configurations and applications. Circuit design problems are used throughout to emphasize real design situations. Circuit simulation is used to provide a base for prototyping and then bench testing real systems. Topics include op amp configurations, summing amps, Integrators and Differentiators, Log amps, D to A and A to D and a variety of control applications. Prerequisite: EET 201.

EET 224—Digital Electronics 2
An in-depth look at Microprocessors, digital interface circuits (bus controllers, latches/O techniques and memory mapping), Microcontrollers and assembly language programming. Micro controller applications design and hardware system design are also covered. A number of analog control applications are designed and implemented. The course uses the Motorola 68HC11 system. Prerequisite: EET 104.

EET 226—Telecommunications 3
A study of basic RF systems, Analog systems (AM & FM), digital data techniques and protocols, antennas, wave propagation, satellite systems, wireless networks and cellular/PSC systems. The course also includes a semester long communications project that includes a 1.5 credit technical writing component. Prerequisites: EET 106.

EET 230—Internship Technology
Students are assigned to a work study experience in an appropriate technology field at an off-campus site or1 provided with on-campus project work. The particular interests of the student in the field are considered in arranging the field experience. Enrollment permission by the department chair.
EGR 101—Engineering 1
2 lect., 2 lab., 3 cr. (Fall)
An introduction to Engineering as a career with emphasis on communication skills. Topics to be presented include engineering graphics, technical report writing, computer graphics, 3D graphics modeling, 2D physical modeling and introduction to spreadsheets.
Prerequisite: concurrent enrollment in MAT 121 or MAT 131 or higher

EGR 102—Engineering 2
2 lect., 2 lab., 3 cr. (Spring)
An introduction to engineering calculations involving the use of the digital computer. A structured object-oriented language such as C++ or Java is taught. Problems are drawn from DC-AC-digital circuit theory, numerical methods. A programming language course where problems are also solved using spreadsheets, math processors circuits modeling program, and visualization applications.
Prerequisite: concurrent enrollment in MAT 121 or MAT 131 or higher

EGR 205—Mechanics 1
4 cr. (Fall)
Deals with forces in static equilibrium, including frictional forces. Introduces matrices to solve equations of more than one unknown. Thorough treatment of centroids and second moments. Maximum and minimum second moments, principal axis.
Prerequisite: PHY 104
Corequisite: MAT 207

EGR 206—Mechanics 2
4 cr. (Spring)
Kinematics—absolute and relative motion. Force, mass, and acceleration. Work, energy, impulse and momentum. Mechanical vibrations. Modern use of vector analysis throughout the course.
Prerequisites: EGR 205 and completed or concurrent enrollment in MAT 214

EGR 212—Circuit Theory
3 cr. (Spring)
Prerequisite: PHY 203

EGR 214—Thermodynamics
3 cr. (Summer)
A study of the first and second laws of thermodynamics, open and closed energy systems, properties, and unit systems. Includes application to compressors, pumps, turbines, heat exchangers, and nozzles.
Prerequisites: PHY 104 and MAT 207

EGR 216—Engineering Computations
2 cr. (Spring)
A survey of the mathematical methods used in electricity and magnetism, and mechanics. The goal of the course is to introduce the gradient divergence, curl, and Laplacian. Application to the wave equation.
Prerequisites: MAT 207, completed or concurrent enrollment in MAT 214

EGR 218—Materials Science
3 cr. (Fall)
A study of the relationship between the structure and properties of metallic, organic, and ceramic compounds. The physical structure of materials and their limitations are related to use in the areas of science and engineering.
Prerequisite: CHM 106 and (PHY 104 or PHY 106)

EGR 220—Solid Mechanics
3 cr. (Spring)
Analysis of stress and strain due to axial, torsional, thermal and fretlaxual loads; elastic deformation and buckling applied to beams, shafts and columns. The course will address statically determinate and indeterminant problems. The concepts of principal stresses, principal strains and Mohr’s Circle will be presented as well as well as shear and moment diagrams.
Prerequisites: EGR 205 and MAT 207

EGR 221—Engineering 1
2 lect., 2 lab., 3 cr. (Fall)
An introduction to Engineering as a career with emphasis on communication skills. Topics to be presented include engineering graphics, technical report writing, computer graphics, 3D graphics modeling, 2D physical modeling and introduction to spreadsheets.
Prerequisite: concurrent enrollment in MAT 121 or MAT 131 or higher

EGR 212—Circuit Theory
3 cr. (Spring)
Prerequisite: PHY 203

EGR 214—Thermodynamics
3 cr. (Summer)
A study of the first and second laws of thermodynamics, open and closed energy systems, properties, and unit systems. Includes application to compressors, pumps, turbines, heat exchangers, and nozzles.
Prerequisites: PHY 104 and MAT 207

EGR 216—Engineering Computations
2 cr. (Spring)
A survey of the mathematical methods used in electricity and magnetism, and mechanics. The goal of the course is to introduce the gradient divergence, curl, and Laplacian. Application to the wave equation.
Prerequisites: MAT 207, completed or concurrent enrollment in MAT 214

EGR 218—Materials Science
3 cr. (Fall)
A study of the relationship between the structure and properties of metallic, organic, and ceramic compounds. The physical structure of materials and their limitations are related to use in the areas of science and engineering.
Prerequisite: CHM 106 and (PHY 104 or PHY 106)

EGR 220—Solid Mechanics
3 cr. (Spring)
Analysis of stress and strain due to axial, torsional, thermal and fretlaxual loads; elastic deformation and buckling applied to beams, shafts and columns. The course will address statically determinate and indeterminant problems. The concepts of principal stresses, principal strains and Mohr’s Circle will be presented as well as well as shear and moment diagrams.
Prerequisites: EGR 205 and MAT 207
RDG 060 — English Department

ENG 120 and all 200-level English courses fulfill the Humanities requirement for the A.A. and A.S. degree. ENG 120 and ENG 130 do NOT fulfill the 200-level English requirement.

WRT 020 — English Department

An intensive course in the structure, basis, vocabulary, and idioms of the English language. Through exercises, reading, oral and written composition, the student will develop the command of English needed to understand instruction in academic courses. A weekly lab hour is required.

*not applicable to associate degrees or certificate programs

WRT 030 — Basic Writing Skills 1

3 lect., 1 lab., 3 units (Fall/Spring/Summer)

This course is designed to help students develop very basic writing skills through extensive writing practice. By writing simple narrative and descriptive paragraphs, students learn the composing process and begin to control sentence construction, word choice, fluency, spelling of commonly used words, and end punctuation. A grade of Pass (P) indicates that the student is ready for Basic Writing Skills 2. An individually scheduled, weekly lab hour is required in the Writing Center.

Prerequisite: recommendation of the Admissions office. *not applicable to associate degrees or certificate programs

WRT 040 — Basic Writing Skills 2

3 units (Fall/Spring/Summer)

In this course, students develop the writing skills required to begin college-level composition. Students learn control and development of the paragraph. They review the composing process, as well as word and sentence skills. Students also develop some control of internal punctuation, modifiers, and sentence variety. A grade of Pass (P) indicates that the student is ready for Freshman English 1.

Prerequisite: placement by the English Department or successful completion of WRT 030. *not applicable to associate degrees or certificate programs

RDG 070 — Reading and Study Skills 1

3 lect., 1 lab., 3 units (Fall/Spring/Summer)

Using high-interest novels and short stories, this course is designed to stimulate an interest in reading and to offer an opportunity to improve and strengthen basic reading skills. In addition, the course introduces basic study techniques which help to increase students’ potential for academic success. Much of the course is individualized. A grade of Pass (P) indicates that the student is ready for RDG 070. An individually scheduled, weekly lab hour is required in the Reading Lab.

Prerequisite: placement by the English Department or by recommendation of the Admissions office. *not applicable to associate degrees or certificate programs

RDG 080 — Reading and Study Skills 2

3 units (Fall/Spring/Summer)

Designed to help students develop the necessary reading and study skills needed for dealing with college-level study. Extensive reading of novels and short stories further vocabulary growth and helps develop higher-level comprehension skills, i.e., analysis, synthesis, etc. Study techniques such as note-taking, studying a textbook, exam preparation are also developed. Weekly lab hour is required in the Reading Lab.

Prerequisite: placement by the English Department, recommendation of the Admissions office, or successful completion of RDG 070. *not applicable to associate degrees or certificate programs

ENG 101 — Freshman English 1

This first course in the Freshman English sequence introduces college-level writing and revision, whole class instruction, individualized instruction and extensive reading, both in class and outside of class, students will be able to practice and acquire those reading skills and strategies presented in the course.

In addition to three lecture class meetings each week, students will register for a two-hour per week support module.

Prerequisite: successful completion of RDG 070. *not applicable to associate degrees or certificate programs

RDG 061 — Support Module

The support module allows the students to further practice the skills learned in class and to receive one-on-one instruction from the instructor. A grade of P (Pass) indicates that the student is ready to enter the required RDG 070 (Reading and Study Skills 1) reading course.

Prerequisite: Placement by the English Department, based on placement testing or by recommendation of the admissions office. *not applicable to associate degrees or certificate programs

RDG 060 — ESL Reading

3 lect., 1 support module, 4 units

This course is specifically designed to offer low-intermediate to intermediate ESL students the opportunity to develop efficient reading skills and strategies necessary to function successfully in a native speaking reading class. Through instructor-guided whole class instruction, individualized instruction and extensive reading, both in class and outside of class, students will be able to practice and acquire those reading skills and strategies presented in the course.

In addition to three lecture class meetings each week, students will register for a one-hour per week support module.

Prerequisite: successful completion of RDG 070. *not applicable to associate degrees or certificate programs

RDG 061 — Support Module

The support module allows the students to further practice the skills learned in class and to receive one-on-one instruction from the instructor. A grade of P (Pass) indicates that the student is ready to enter the required RDG 070 (Reading and Study Skills 1) reading course.

Prerequisite: Placement by the English Department, based on placement testing or by recommendation of the admissions office. *not applicable to associate degrees or certificate programs

ENG 101 — Freshman English 1

This first course in the Freshman English sequence introduces college-level writing and revision, whole class instruction, individualized instruction and extensive reading, both in class and outside of class, students will be able to practice and acquire those reading skills and strategies presented in the course.

In addition to three lecture class meetings each week, students will register for a two-hour per week support module.
construction of expository essays, and research skills. Reading and class discussion center on the formal and informal essay. Research essay is required. (GE 10 when combined with COM 101)

Note: Students who have placed into any developmental reading or writing courses must complete them before taking ENG 101.

ENG 102—Freshman English 2
3 cr. (Fall/Spring/Summer)
In this second course in the sequence, students learn to read critically, to organize supporting details, and to develop coherent oral and written arguments. Fiction, drama and poetry are used as common texts. An analytical research paper is required. (GE 7)
Prerequisite: ENG 101

ENG 120—Introduction to Mythology
3 cr.
Introduces the student to the major myths of the Greeks and Romans, examines the definitions and functions of mythology, and attends carefully to several of the most important and influential classical works, including Homer's Odyssey and Ovid's Metamorphoses. Some research required. (GE 7)
Prerequisite: concurrent enrollment in or completion of ENG 101

ENG 130—Journalism—Writing
3 cr. (Spring)
Journalistic practices and principles are studied, with emphasis on the techniques of writing for the print and broadcast media.
Prerequisite: ENG 101 (This course counts as a general elective)

ENG 160—ENG 161—Technical Writing Module
3 lab. 1.5 cr.
Combined with designated program-specific courses, these modules teach students to transfer and apply technical writing skills to particular situations, formats and language requirements of their co-requisite program courses and professional workplace situations. Collaborating with the program course instructor, the technical writing instructor works closely with students to complete customized technical writing assignments through lecture, small group, and individual instruction. Students may earn a maximum of one and a half credits per module. These modules do not fulfill the humanities requirements for the A.A. degree.
Prerequisite: concurrent enrollment in a Writing Consultancy-related designated program course: ENG 101, or concurrent enrollment in ENG 101, or by permission of the instructor.

For all of the following electives, ENG 101 and ENG 102 Freshman English 1 and 2 are the prerequisites of all 200-level courses in English.

ENG 201—World Literature: Ancient World
Through The Renaissance
3 cr.
A survey of world masterpieces from the ancient world through the Renaissance, presenting literature as a reflection of time, place, and thought. Major works are examined in depth. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 204—World Literature: Enlightenment to the Modern Age
3 cr.
A survey of world masterpieces from the Seventeenth to the Twentieth century, presenting literature as a reflection of time, place, and thought. Major works are examined in depth. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 205—Drama: Ibsen to O'Neill
3 cr. (Fall)
A study of the development of modern drama from Ibsen to O'Neill. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 206—Drama: Contemporary
3 cr. (Spring)
A study of contemporary dramatists beginning at the time of Brecht and continuing to the present. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 207—English Literature: 14th Through 18th Century
3 cr. (Fall)
Introduction to the works of significant English prose writers and poets, from the Old English period through eighteenth-century Neo-Classicism. Literary forms, trends, and backgrounds are studied as aids to the development of critical judgment and aesthetic appreciation. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 208—English Literature: 19th and Early 20th Century
3 cr. (Spring)
An introductory study of the works of significant English authors, from the Romantic Movement to the early twentieth century. Critical judgment and aesthetic appreciation are fostered, through consideration of literary forms, trends, and backgrounds. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

For all of the following electives, ENG 101 and ENG 102 Freshman English 1 and 2 are the prerequisites of all 200-level courses in English.

ENG 203—World Literature: Ancient World
Through The Renaissance
3 cr.
A survey of world masterpieces from the ancient world through the Renaissance, presenting literature as a reflection of time, place, and thought. Major works are examined in depth. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 204—World Literature: Enlightenment to the Modern Age
3 cr.
A survey of world masterpieces from the Seventeenth to the Twentieth century, presenting literature as a reflection of time, place, and thought. Major works are examined in depth. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 205—Drama: Ibsen to O'Neill
3 cr. (Fall)
A study of the development of modern drama from Ibsen to O'Neill. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 206—Drama: Contemporary
3 cr. (Spring)
A study of contemporary dramatists beginning at the time of Brecht and continuing to the present. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 207—English Literature: 14th Through 18th Century
3 cr. (Fall)
Introduction to the works of significant English prose writers and poets, from the Old English period through eighteenth-century Neo-Classicism. Literary forms, trends, and backgrounds are studied as aids to the development of critical judgment and aesthetic appreciation. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 208—English Literature: 19th and Early 20th Century
3 cr. (Spring)
An introductory study of the works of significant English authors, from the Romantic Movement to the early twentieth century. Critical judgment and aesthetic appreciation are fostered, through consideration of literary forms, trends, and backgrounds. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102
ENG 209—American Literature: To The Civil War 3 cr (Fall)
A survey of American literature from the Puritan era through the Romantic Movement presenting literature as a reflection of time, place, and thought. The course emphasizes major authors. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 210—American Literature: 1865 to the Present 3 cr (Spring)
A survey of American literature from the late nineteenth century to the present, emphasizing literature as a reflection of time, place and thought. Major authors are examined in depth. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 211—Creative Writing: Fiction 3 cr (Fall)
An advanced writing course designed to help students develop skill in writing fiction. In addition to writing, the student will evaluate the work of fellow students and other assigned works. Some research required. (GE 8)
Prerequisite: ENG 101 and ENG 102, with grade of C or higher

ENG 212—Creative Writing: Poetry 3 cr (Spring)
This course provides opportunity for the student to develop skill in writing poetry. Classroom discussions are devoted to both student work and outside readings. Some research required. (GE 8)
Prerequisite: ENG 101 and ENG 102, with grade of C or higher

ENG 213—Journalism: Survey of Mass Media 3 cr (Fall)
A study of journalism theory, emphasizing the principles and the responsibilities that newspapers, radio, and television share in conveying information and in developing public opinion. Writing about the media is required. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 214—Shakespeare 3 cr
A close reading of selected plays and some sonnets, together with lectures on the Elizabethan way of life, the playhouse, and stage-craft. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 215—Children's Literature 3 cr
Survey of children's literature: What makes it last? How did it develop? What does it show about the culture and age that produce it? How does it connect to a child's developmental stages? An adult's? What are representative types of the literature, writers and works? How does it handle special issues like multiculturalism, bias, censorship? Readings include picture books, fairy/folk tales, to fiction (historical, realistic, fantasy), representative writers like "Mother Goose" and Brothers Grimm to Sendak, Potter, Carroll, Lowry, Group, and individual projects further explore the field. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 216—Children's Literature 3 cr
A survey of the works of representative international writers. Readings will focus on human

ENG 217—Film and Literature 3 cr
A literary approach to cinema, with emphasis on story, plot, theme, characters, and symbols. The relationships between literary works and their screen adaptations are examined. Basic film terminology is considered to assist the student to become a reflective viewer. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 218—Women Writers 3 cr
Careful reading, analysis, and interpretation of short stories, emphasizing varied approaches, characters and styles, with some attention to development of the form in the 19th century. Some research required. (GE 7)
Prerequisites: ENG 101 and ENG 102

ENG 219—Contemporary Short Story 3 cr
A survey of the works of representative women writers focusing on human relationships and society from a woman's perspective as revealed in their poetry, drama, and prose. Works by such authors as Bronte, Woolf, Chopin, Manfield, and O'Connor may be included. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 220—Contemporary Poetry 3 cr
Careful reading, analysis, and interpretation of short stories, emphasizing varied approaches, characters and styles, with some attention to development of the form in the 19th century. Some research required. (GE 7)
Prerequisites: ENG 101 and ENG 102

ENG 221—International Literature: Non-European 3 cr
A survey of the works of representative international writers. Readings will focus on human

ENG 222—Contemporary Novel 3 cr (Spring)
This course provides opportunity for the student to develop skill in writing fiction. Classroom discussions are devoted to both student work and outside readings. Some research required. (GE 8)
Prerequisite: ENG 101 and ENG 102, with grade of C or higher

ENG 223—International Literature: Non-European 3 cr
A survey of the works of representative international writers. Readings will focus on human

ENG 224—American Literature: 1865 to the Present 3 cr (Spring)
A survey of American literature from the late nineteenth century to the present, emphasizing literature as a reflection of time, place and thought. Major authors are examined in depth. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102

ENG 225—American Literature: To The Civil War 3 cr (Fall)
A survey of American literature from the Puritan era through the Romantic Movement presenting literature as a reflection of time, place, and thought. The course emphasizes major authors. Some research required. (GE 7)
Prerequisite: ENG 101 and ENG 102
relationships and man/woman's place in his/her society as revealed in novels, short stories, non-fiction and poetry. Works by such authors as Rigoberta Menchu, Gabriel Garcia Marquez, Chirina Achebe, Nagib Mahfouz, Jamaica Kincaid and Bharati Mukherjee may be included. Some research required. (GE 7) 

**ENG 226—Fantasy Fiction**  
3 cr.  
This course introduces the student to the genre of fantasy fiction, gives background on the major figures in the area, and provides extended attention to the tales, characters, and important topics in either Arthurian Legend or the works of Tolkien. Some research required. (GE 7) 
Prerequisites: ENG 101 and ENG 102

**ENG 230—African-American Literature**  
3 cr.  
Reading and discussion of novels, plays, essays, and poems written by African Americans. Course will include works by authors like Ralph Ellison, James Baldwin, Lorraine Hansberry, Imamu Amiri Baraka, Toni Morrison and August Wilson. Some research required. (GE 7) 
Prerequisite: ENG 101 and ENG 102

**ENG 297—Special Studies in Literature**  
3 cr.  
Presented on the sophomore level, this 200-level literature course offers students the opportunity to explore current or emerging topics or types of literature or to focus on specific writers. Two particular course options are Science Fiction and Coming to America and are offered on a rotating basis. Additional topics may be added by the department. Some research required. (GE 7) 
Prerequisites: ENG 101 and ENG 102

**ENG 297—Special Studies in Literature:**  
3 cr.  
This survey course introduces students to the richness of Latin American literature. All readings from the Colonial Period through the Contemporary Period are in English and may include non-fiction, short stories, poetry, and a novel. Slides and music enhance the course, and the student is required to connect these and other resources to the works read. Significant writers may include De Las Casas, Garcilaso de la Vega, Pablo Neruda, Borges, Julio Alvarez, Arjuela, Carlos Fuentes, Gabriel Garcia Marquez, Mario Vargas Llosa, Rosario Ferre, Julio Cortazar, and Rigoberta Menchu, an indigenous writer. All reflect Latin America's diversity. Some research required. (GE 7) 
Prerequisites: ENG 101 and ENG 102

**Field Studies: Travel**  
(English Department)  

**FLD 101—Field Studies**  
1 cr.  
Students will attend lectures, conduct research, and participate in direct observation at an on-site location of relevant significance to the academic topic of investigation. A minimum of five days will be spent in the field study. 
Prerequisite: Permission of course instructor

**FLD 102—Cultural/Historical Seminar**  
1 lect., 3 lab., 2 cr.  
Classroom instruction combines with faculty-supervised travel to provide in-depth exposure to a selected geographical region, culture, or historical period. A rigorous, academic investigation of an aspect of the seminar is required. Length of the seminar is approximately two weeks. 
Prerequisite: Permission of course instructor

**FLD 103—Cultural/Historical Seminar**  
1 lab., 2 cr.  
A rigorous, academic investigation of an aspect of the seminar is required. Length of the seminar is approximately two weeks. 
Prerequisite: Permission of course instructor

**FLD 201 and FLDB 201**  
3 cr.  
Readings and discussion of novels, plays, essays, and poems written by African Americans. Course will include works by authors like Ralph Ellison, James Baldwin, Lorraine Hansberry, Imamu Amiri Baraka, Toni Morrison and August Wilson. Some research required. (GE 7) 
Prerequisite: ENG 101 and ENG 102
French

(Elemental Studies Department)

Elementary level foreign language courses can be used to meet the humanities requirement for the A.A. and A.S. degrees if a minimum of two semesters of study of the same language is completed. Only one semester of an intermediate level foreign language course is necessary for humanities credit.

FRE 101—Elementary French 1

A beginning study of the language for students who have not previously studied French, or those who have no more than one year of high school French. Although emphasis is placed on the language as it is heard and spoken, reading and writing skills are also developed. (GE 9)

Note: Students who are proficient in French may be placed in a more advanced course.

FRE 102—Elementary French 2

Additional practice in conversation is combined with the development of reading and writing skills. Readings pertain to cultural topics. (GE 9)

Prerequisite: FRE 101 or two years of high school study or placement by the instructor

FRE 201—Intermediate French 1

This course increases the student's ability to use the language through practice in conversation, reading, and writing. It includes a systematic review of the essentials of grammar. Readings pertain to contemporary cultural topics. (GE 9)

Prerequisite: FRE 102 or instructor placement

FRE 202—Intermediate French 2

Emphasis is given to cultural or literary readings and to free oral expression. Grammatical structures, including the subjunctive, are reviewed. (GE 9)

Prerequisite: FRE 201 or instructor placement

FRE 203—Advanced French 1

Literary works of twentieth century French authors are studied and oral fluency is further developed through practice in conversation. Grammar is reviewed as needed. (GE 9)

Prerequisite: FRE 202 or instructor placement

FRE 204—Advanced French 2

Readings in twentieth century prose and poetry are discussed, as well as other topics of cultural interest. Compositions are occasionally required. (GE 9)

Prerequisite: FRE 203 or placement by the instructor

Geography

(Elemental Studies Department)

GEO 101 fulfills the mathematics or natural science requirement for the associate degrees. Further, those courses which fulfill the social science requirement for the A.A. degree are identified by requirement category at the end of the course description.

GEO 101—Elements of Physical Geography

The study of the origin and distribution of the major physical features on the earth's surface. Topics include an introduction to globes and maps, earth-sun relationships, weather, climate, land forms, soils and natural vegetation.

GEO 101 fulfills the mathematics and natural science requirement for associate degrees not requiring a lab science. It does not fulfill the social science requirement for any degree.

GEO 102—Human Geography

The origin, distribution, differences and ecology of the world's population along with cultural activities are studied. Topics include race, world religions, languages, agricultural and industrial development, and the rise of urban centers as human responses to the physical environment. Fulfills category C. (GE 3)

GEO 101 fulfills the mathematics or natural science requirement for the associate degrees. Further, those courses which fulfill the social science requirement for the A.A. degree are identified by requirement category at the end of the course description.

GEO 101—Elements of Physical Geography

Topics include race, world religions, languages, agricultural and industrial development, and the rise of urban centers as human responses to the physical environment. Fulfills category C. (GE 3)
Geology

(Science, Engineering & Architecture Dept.)

(See also: Physics/Physical Science)

**GLG 110—Physical Geology** 3 lect., 2 lab., 4 cr.
A study of geologic processes and features with emphasis on plate tectonics. Topics include origin of magma, plutons, volcanoes, earthquakes, metamorphism, sediments, rivers, groundwater, glaciation and Earth's interiors. Laboratory study emphasizes mineral and rock identification and topographic map reading. One field trip is generally taken. (GE 2)

**GLG 112—Historical Geology** 2 lect., 3 lab., 3 cr. (Spring)
The principles of geological interpretation are emphasized through a study of earth history. Special attention is given to the geological development of North America. Topics include geologic time, paleontology, structural geology, sea-floor spreading and continental drift, and mountain building. labs. include studies of invertebrate fossils, geologic structures and paleogeography. Several field trips are taken. (GE 2)
Prerequisite: GLG 110

**GLG 120—Environmental Geology** 3 cr. (Fall)
A lecture-seminar approach is used in studying selected environmental problems related to geology, such as geologic hazards, waste disposal, energy resources and their recovery, engineering problems, environmental alterations, and land-use planning.
Prerequisite: GLG 110

---

Health

(Interdisciplinary)

**HTL 101—Introduction to the Health Professions** 2 Cr.
The course is designed to provide the learner an opportunity to explore and understand the variety of health professions. The concepts of "health" and "professionalism" will be examined for self and others. The college library and internet will be used to find journals and other professional sources of information. Students will compare standards of care, sub-specialization, levels of practice and educational preparation within the various disciplines. Healthy self care interventions will be practiced as part of professional development. Trans-disciplinary concepts and scientific principles will be applied in practicing skills such as hand washing and use of personal protective equipment. Interdisciplinary care models will be observed in site visits to local agencies.
Prerequisite: placement in Writing 040 or higher

Prerequisite: placement in Writing 040 or higher
HIS 101—U.S. History to 1865
3 cr. (Fall/Spring)
A study of the political, intellectual, economic and cultural development of the United States from earliest colonial settlements to the Civil War. Topics include the Puritan mind, regional cultural patterns, the evolution of constitutional law, the struggle for independence, the Hamiltonian and Jeffersonian perspectives, expansion, slavery, and the Civil War. Fulfills category A. (GE 4)

HIS 102—U.S. History Since 1865
3 cr. (Fall/Spring)
Course surveys the Reconstruction Era within the context of the 13, 14, and 15 Amendments, their impacts and interpretations. An examination of the issues inherent in the change from an agrarian to an industrial society, the course focuses on dislocations in rural America, the rise of cities, immigration, and the labor movement. An assessment of twentieth century U.S. participation in world events, and the balance of power between the superpowers and Third World nations are included. Fulfills category D. (GE 6)

HIS 103—History of African-Americans
3 cr. (Spring-evening or Fall/Spring)
A survey of the cultural and historical background of the African-Americans from their African heritages to their present roles in American society. Former title History of Afro-Americans in the USA. Fulfills category A. (GE 3 only for students scoring 85 or above on NYS American History Regents)

HIS 104—The American Civil War and Reconstruction
3 cr. (Fall/Spring)
This course examines political, economic, and social developments in the United States from 1850 to 1877. The causes of increasing sectional tensions leading to succession, the diplomatic, military, and technological aspects of the conflict and the controversies inherent in the reconstruction process will be emphasized. Liberal Arts or General Elective credit only.

HIS 105—Science, Technology, and Society
3 cr. (Spring)
This course is an introduction to the histories of science and technology and their relationships to global society. Emphasis is placed on the interactions among science and technology and the corresponding economic, social, and political developments rather than on the internal histories of science and technology. Former course number 23190. Fulfills category D.

HIS 121—World History to 1500 AD
3 cr. (Fall/Spring)
This course introduces the student to the major civilizations of the world prior to 1500 A.D. The various civilizations of Europe, Asia, Africa and the Americas are analyzed separately, emphasizing the unique contributions of each. Emphasis is also placed on cross-cultural contacts and connections to illustrate the diversity and interdependence of the human condition in the world society. Fulfills category D. (GE 6)

HIS 122—World History Since 1500 AD
3 cr. (Fall/Spring)
This course traces the major developments of world history since 1500, with special emphasis on the theme of the rise of Western European civilizations, its penetration of other cultures around the world, and developments in those cultures as they responded to European expansion. Twentieth century trends and problems including world wars, nuclear weapons, the global economy, overpopulation and other environmental issues are explored. Fulfills category D. (GE 6)

HIS 123—Latin American Heritage and History
3 cr. (Spring)
A survey of pre-colonial and colonial Latin America, including discovery and conquest by the Europeans and the subsequent blending of the civilizations. Emphasis is given to the pre-colonial civilizations of the various races, to the period from 1800 to the present, and to the topics of nationalism and revolutions. Fulfills category D. (GE 6)

HIS 124—Africa: Past and Present
3 cr. (Fall/Spring)
A study of the development of the African world from the earliest cultures to the emergence and problems of the modern African states. Close attention is paid to the influences of geography, indigenous cultural systems, and cultural exchanges between Africa and the rest of the world. Fulfills category D. (GE 6)

HIS 130—The Greek and Roman World
3 cr. (Fall/Spring)
A basic history course which provides the beginning student with the fundamental factual information necessary for the understanding of our ancient traditions. The course begins with the earliest civilizations of the Middle East but focuses primarily on the histories of Greece and Rome. Fulfills category D. (GE 5)

HIS 131—Medieval and Renaissance Europe
3 cr. (Spring)
An introductory course which deals with the Medieval and Renaissance periods in European history. The course begins with the post-Roman world.
History - Honors

and ends with the Protestant Reformation. Emphasis is on the political, social, cultural, and economic developments of the period. Topics to be considered are feudalism, manorialism, the life of the peasant, monarchy, the development of the nation-state, the medieval church, the Renaissance, Protestantism. Fulfills category D. (GE 5)

HIS 132—The Age of Revolutions

3 cr. (Fall)

An introductory course which deals with the important political, economic, social and scientific developments of the seventeenth and eighteenth centuries in Europe. The course begins with the post-Reformation religious wars and carries through the French Revolution of 1789-1795 and the Napoleonic Era. Some topics included are the English Revolution, the Scientific Revolution, the Enlightenment, the Industrial Revolution, urbanization, the rise of the middle class, and political revolution. Fulfills category D. (GE 5)

HIS 133—Modern Europe

3 cr. (Fall/Spring)

This course begins with the Congress of Vienna and extends to the present time. Some topics considered are nationalism, imperialism, Communism, Fascism, the two World Wars, the Cold War, and united Europe. Emphasis is on the social, economic, cultural, and political developments, centering on the theme of humanity’s disillusionment with the promises of earlier generations. Fulfills category D. (GE 5)

HIS 220—Modern China and Japan

3 cr. (Fall)

A study of the modern histories of China and Japan in general with an emphasis on the modern period. Topics stressed are religion, social, political and cultural traditions, and the role of both countries in our contemporary world. Fulfills category D. (GE 6)

HON 201H—Honors Seminar

1 cr. (Fall)

This one to two-semester service course, required of all Honors Program students, provides an opportunity for them to gain service learning experiences both within the college and in the broader community. The independent study format of the course reflects the student-centered nature of the Honors Program itself. Students, individually or in groups, work on a variety of projects to enhance themselves, the Honors Program, the college community and the community at large. Students maintain logs and provide an essay of activities and learning experiences. The course involves forty-five contact hours, is graded pass/fail and carries one credit. It may be repeated once for credit.

HON 201H—Honors Seminar

1 cr. (Spring)

Cross disciplinary in nature, the Honors seminar provides students an opportunity to study a topic from various academic perspectives. The topics change each semester and must cover at least four academic disciplines. Students participate in class discussions, maintain journals and do projects. Some of the seminar topic descriptions are listed below. Completion of three seminars is required in the Honors Program; each is worth one credit.

Sample Honors Seminar Topics:

Monopoly Power—This seminar explores the monopoly power of businesses within the context of: a) history and development over time; b) the market structure, conduct, and performance within an economy; c) the ethical and social responsibilities faced by businesses with monopoly power; and d) the political effects of both public and private monopolies.

HON 222—The Middle East

3 cr. (Fall/evening)

The course is a survey of Middle East civilizations. Emphasis is placed upon the major historical, cultural, social and political themes that form the basis for an understanding of the modern Arab world, Israel, and Iran. Fulfills category D. (GE 6)

HIS 132—The Age of Revolutions

3 cr. (Fall)

An introductory course which deals with the important political, economic, social and scientific developments of the seventeenth and eighteenth centuries in Europe. The course begins with the post-Reformation religious wars and carries through the French Revolution of 1789-1795 and the Napoleonic Era. Some topics included are the English Revolution, the Scientific Revolution, the Enlightenment, the Industrial Revolution, urbanization, the rise of the middle class, and political revolution. Fulfills category D. (GE 5)

HIS 133—Modern Europe

3 cr. (Fall/Spring)

This course begins with the Congress of Vienna and extends to the present time. Some topics considered are nationalism, imperialism, Communism, Fascism, the two World Wars, the Cold War, and united Europe. Emphasis is on the social, economic, cultural, and political developments, centering on the theme of humanity’s disillusionment with the promises of earlier generations. Fulfills category D. (GE 5)

HIS 220—Modern China and Japan

3 cr. (Fall)

A study of the modern histories of China and Japan in general with an emphasis on the modern period. Topics stressed are religion, social, political and cultural traditions; economic development; the Vietnam War; China and the United States in Southeast Asia. Fulfills category D. (GE 6)

HIS 222—The Middle East

3 cr. (Fall/evening)

The course is a survey of Middle East civilizations. Emphasis is placed upon the major historical, cultural, social and political themes that form the basis for an understanding of the modern Arab world, Israel, and Iran. Fulfills category D. (GE 6)
as, politics and our world today.

Ethics and Criminal Justice – This seminar explores ethical issues in the criminal justice system as faced by law enforcement practitioners at large.

The Arts in New York City – Through lecture, discussion and participation in metropolitan events, participants experience and respond to human cultural and technological changes in art, architecture, music, theater. Students attend up to five major arts events and participate in pre- and post-event lectures and discussions. Note: Most events are on Saturdays or Sunday. Students are responsible for ticket expenses.

Light Bulb Moment: Studies in Creativity – This seminar explores creativity and the creative process from interdisciplinary perspectives. Students examine various examples of creativity and creators in different contexts and explore their own creativity through exercises, traditional and non-traditional writing assignments, etc.

Science and Society – This seminar explores the close relationship between scientific/technological innovations and society. It examines important innovations relative to the existing political, social, economic and intellectual background and, in turn, how important innovations influence the society from which they came. Concepts include: The Agricultural Revolution, China’s Contributions to Technology, the Scientific Revolution in Early Modern Europe and the Transition from Alchemy to Chemistry.

The End and the Beginning – This seminar examines the architecture, music, art, and poetry of the age that became “modern” in fine-de-siecle Europe and America. Emphasis is on how the makers of modern culture faced the challenges in finding function and meaning in their world at the turn of their century.

Tropical Forests of Latin America – In this seminar students will explore the complex issues surrounding tropical forests of Latin America. Through research, reading, discussion, writing, students will explore the ecological characteristics of tropical forests, and the anthropogenic forces that are driving changes in these ecosystems. They may also investigate the trends of current land-use and explore possible future scenarios. Students will also investigate what can be done to influence the nature of change to these ecosystems.

The 60’s – This seminar explores the decade of the 1960s. Specifically it looks at the political, social and cultural components that combined to create one of the most dynamic decades in American history.

Ethics and Human Relations – This seminar explores ethical issues in the differing relationships in which humans are engaged. Relationships may include familial, marital, employment, friendships as well as those based on gender, age, and others.

Latin American Culture – This seminar studies the countries, culture and people of Latin America, political song, dance, art, food, history, politics, geography, religion, sociology, architecture and literature.

The 1900: The End and the Beginning – This seminar explores the architecture, music, art, and poetry of the age that became “modern” in fine-de-siecle Europe and America. Emphasis is on how the makers of modern culture faced the challenges in finding function and meaning in their world at the turn of their century.

Tropical Forests of Latin America – In this seminar students will explore the complex issues surrounding tropical forests of Latin America. Through research, reading, discussion, writing, students will explore the ecological characteristics of tropical forests, and the anthropogenic forces that are driving changes in these ecosystems. They may also investigate the trends of current land-use and explore possible future scenarios. Students will also investigate what can be done to influence the nature of change to these ecosystems.

Net Gen: The Brave New World of Social Networks – This seminar will survey the history, business model, end uses and cultural contexts of social networking tools such as MySpace, Facebook, Twitter, and Second Life. Other social networking sites may be discussed. Development of terminology will be reviewed. This is a web-enhanced course and project will be a case study and presentation on a social networking tool.

Machiavelli: Prince of Evil – This seminar is intended to familiarize the student with one of the great political thinkers and treatises in western history. Niccolo Machiavelli thought more deeply about power than most who have lived. Furthermore, his work II Principe straddles the line between ancient and modern thought...
the little book is the gateway to our understanding of modern politics in all its pains and glory. By the end of this seminar, students will have a great appreciation of Machiavello, of political philosophy and of the role that power plays in all our lives—political and personal.

**The Holocaust**—This seminar explores the ideological development and actual implementation of the Holocaust. It will examine the rise of the National Socialist (Nazi) party in Germany and the government’s execution of racial laws, eventually leading to the murder of approximately six million Jews and five million “enemies” of the Reich, inclusive of the mentally and physically disabled, partisans, homosexuals, religious objectors, gypsies, Socialists and Communists. Additionally, the seminar will explore how the genocide was initiated and implemented and look closely at the lives of all the people who were involved (victims and perpetrators).

**Gender Roles Past, Present and Future**—This seminar will explore various issues in gender studies from past to present and future trends from interdisciplinary viewpoints. Theory will be buttressed with group discussion and collaboration. Students will be encouraged to direct their analysis of gender dynamics through use of critical thinking and illuminating readings from a variety of relevant sources.

**HON 288H—Honors Capstone: Planning and Research**

This capstone course, required of all Honors Program students, provides an opportunity to synthesize knowledge and skills acquired as an Honors student. Students choose their final project topic, conduct the appropriate research and begin drafting the paper. The independent study format of the course reflects the interdisciplinary nature of the Honors Program itself. Three plenary meetings during the semester provide a framework for individual meetings with faculty mentors. Students must complete both HON 288H (Planning and Research) and HON 289H (Writing and Presentation) to fulfill the program requirements.

**HON 289H—Honors Capstone: Writing and Presentation**

This course is designed to allow the student interested in the field of Human Services an opportunity to apply psychological and sociological terms, concepts and theories to a practical situation. The purpose of this first field placement is to introduce the student to the intra and interpersonal skills and competencies involved in direct care positions within the human service field. These include: Empowerment, communication, self-development, crisis intervention, and advocacy. Students will be assigned assignments to direct their field experiences Students will be responsible for arranging their site placements with the assistance of the instructor or field placement coordinator. A grade of C is required to continue on to Human Services Practicum 2/3rd quarter.

Four hours of off campus site observation/participation per week is required.

**HON 289H—Honors Capstone: Writing and Presentation**

This course is a required continuation of HON 288H. Students finalize their research projects and prepare the presentation which is given at the end of the semester. Three plenary meetings during the semester provide a framework for individual meetings with faculty mentors. Students must complete both HON 288H (Planning and Research) and HON 289H (Writing and Presentation) to fulfill the program requirements.

**HON 290H—Honors Capstone: Writing and Presentation**

This course is a required continuation of HON 288H. Students finalize their research projects and prepare the presentation which is given at the end of the semester. Three plenary meetings during the semester provide a framework for individual meetings with faculty mentors. Students must complete both HON 288H (Planning and Research) and HON 289H (Writing and Presentation) to fulfill the program requirements.

with the assistance of the instructor or field placement coordinator. Placements in this second practicum must involve a different client population from the first placement (e.g. mental health-mental retardation, children-adult populations) A grade of C is required to graduate.

Four hours of off campus site observation/participation per week required.

Prerequisites: HMS 201, and permission of coordinator/instructor.

Italian
(Global Studies Department)

ITA 101-102—Elementary Italian 3 cr.
For beginners. A basic course in grammar, punctuation, conversation, and reading. Contemporary Italian culture is discussed. (GE 9)

ITA 201—Intermediate Italian 1 3 cr.
This course increases students' ability to use the language through advanced grammar study and continued reading, writing & speaking. Students do basic review, then study more complex patterns, verb tenses, including subjunctive. Reading, writing and speaking focus on contemporary Italian culture and events.
Prerequisite: ITA 102 or instructor placement

ITA 202—Intermediate Italian 2 3 cr.
This course continues to focus on reading, writing, speaking related to contemporary Italian cultural issues. Advanced grammatical structures, including passive and subjunctives, are presented. Particular emphasis on idiomatic expressions and advanced conversational fluency.
Prerequisite: ITA 201 or instructor placement

Italian
(Global Studies Department)

ITA 101-102—Elementary Italian 3 cr.
For beginners. A basic course in grammar, punctuation, conversation, and reading. Contemporary Italian culture is discussed. (GE 9)

This course continues to focus on reading, writing, speaking related to contemporary Italian cultural issues. Advanced grammatical structures, including passive and subjunctives, are presented. Particular emphasis on idiomatic expressions and advanced conversational fluency.
Prerequisite: ITA 201 or instructor placement
Management - Marketing

Management (Business Department)

MGT 201—Principles of Management 3 cr. (Fall/Spring)
The theory and applications of management techniques are examined. The essential processes necessary for the practice of management are developed. Within the framework of the functions of management, topics are covered: Managing Change, Organizational Communication and Structure, Making Decisions, Strategic Planning, Leadership, Work Groups, Ethics and Social Responsibility. Cases and projects enrich the student's class experience.
Prerequisite: MAT 020 or placement into MAT 101 or higher.

MGT 203—Entrepreneurship 3 cr. (Fall/Spring)
For individuals who wish to start a business and for those who are already in business for themselves. Emphasis is placed on the need for strategic planning in order to determine creative tactics - visualization, copywriting and layout - and use of media (traditional, electronic, print and new) vehicles. Current materials from today's Advertising/Agency departments are utilized.
Prerequisite: MAT 020 or placement into MAT 101 or higher.

MGT 205—Human Resource Management 3 cr. (Fall/Spring)
The student is introduced to an overview of this complex human resource management function as it applies to both the small and large business organization. The major thrust of the course is devoted to the basic personnel practices involved in employee recruitment selection, training, appraisal, affirmative action, labor relations, compensation, safety, and career planning.

MKT 101—Principles of Marketing 3 cr. (Fall/Spring)
MKT 101—Principles of Marketing
3 cr. (Fall/Spring)
The thrust of this course is the "marketing concept" which stresses the organization's first goal - customer satisfaction. Students use a systems approach to integrate the major marketing areas such as: Marketing Plan, Marketing Research, Consumer Buying Behavior, Product/Service Concepts, Promotion, Ethics and Social Responsibility. Marketing applications are developed through the strategic marketing process, which identifies the target market and its support of the marketing mix. Student exercises include customer service and Internet projects.
Prerequisite: MAT 020 or placement into MAT 101 or higher.

MKT 201—Principles of Advertising 3 cr. (Fall/Spring)
Students learn to identify the role of advertising and how it reflects society. Emphasis is placed on the need for strategic planning in order to determine creative tactics - visualization, copywriting and layout - and use of media (traditional, electronic, print and new) vehicles. Current materials from today's Advertising/Agency departments are utilized.
Prerequisite: MAT 020 or placement into MAT 020 or higher.

NOTE: Introduction to Business (BUS 103) and Marketing (MKT 101) are the recommended pre- or corequisite courses for Business majors.

MKT 202—Salesmanship 3 cr. (Fall)
Emphasis is placed on application of selling principles, various sales roles and motivational factors. Topics include: electronic commerce, prospecting, preparing the sales presentation, obtaining the appoint-ment, the demonstration, and meeting objections and the use of the Internet in sales. Students participate in role-playing, dialogue, case analysis, and formal presentation.

MKT 203—Marketing Management 3 cr. (Fall)
A study of the application of the principles underlying effective marketing management. The student examines the impact of marketing management decisions on such major areas as market research, product development, industrial marketing, promotion, pricing and distribution. A field study market research project is included.
Prerequisite: MKT 101.

MKT 204—Strategic Marketing 3 cr. (Spring)
Marketing problems are analyzed by use of the case study approach. This approach emphasizes the interrelationships of marketing management to the areas of accounting, economics, mathematics, and statistics toward the solution of problems. Topics include: product development and trend policy, channels of distribution, market research, pricing, advertising, and selling.
Prerequisite: MKT 101.
Mathematics (Mathematics Department)

MAT 010—Developmental Arithmetic
3 units* (Fall/Spring)
Designed for students who need a review of arithmetic, including addition, subtraction, multiplication, and division of whole numbers, fractions, mixed numbers, and decimals. Areas and volumes of geometric figures are investigated. The course is both intended to alleviate mathematics anxiety and avoidance and to develop self-confidence to continue study in mathematics.
Prerequisite: math placement test

MAT 020—Developmental Algebra
3 units* (Fall/Spring/Summer)
Designed for students who need a review of beginning algebra. Topics include addition, subtraction, multiplication, and division of signed numbers, solutions of linear equations and inequalities, exponents, combining polynomials, literal equations, and applications of linear equations. Students learn to develop skills in reading of mathematics. Concerns about mathematics anxiety and avoidance are confronted and eased.
Prerequisite: MAT 010 or math placement test

MAT 101—Elementary Algebra
3 cr. (Fall/Spring/Summer)
An elementary algebra course. Topics include operations on polynomials and rational expressions, laws of exponents, factoring, graphing of equations and inequalities, and systems of equations. A knowledge of operations on signed numbers and solutions to linear equations is required. Emphasis is placed on developing the skills necessary for further study of algebra.
Prerequisite: MAT 020 or math placement test
Not open to students who have successfully completed MAT 020 or higher numbered courses. MAT 101 may only be used as the liberal arts elective credit in A.A., A.S., and A.S. Individual Studies degrees.

MAT 102—Intermediate Algebra
3 cr. (Fall/Spring/Summer)
An intermediate algebra course. Topics covered: absolute value equations and inequalities, additional factoring techniques, radical expressions, complex numbers, quadratic equations, functions, graphing techniques, coordinate geometry, mathematical modeling, applications and problem solving. (GE 1)
Prerequisite: C or better in MAT 101 or math placement test
Not open to students who have successfully completed MAT 113 or higher numbered courses. MAT 102 may only be used as math credit in the A.A. degree and only as elective credit in the A.S. or A.S. Individual Studies degrees.

MAT 107—Technical Math
3 cr. (Fall)
A basic operations approach to the study of algebra and trigonometry for students entering technical programs. Scientific calculators are used for applied problem solutions.
Prerequisite: C or better in MAT 101

MAT 111—Foundations of Elementary School Mathematics
3 cr. (Fall/Spring/Summer)
This course is designed to provide the student who is interested in teaching elementary school with a clear understanding of the major concepts and skills that are commonly taught in elementary school classes. The primary goal of the course is to enable the student to develop multiple representations and models of mathematical concepts, to become proficient at mental math, computational problem solving and to be able to communicate mathematical ideas effectively. The contents of this course can be divided into the following general categories: problem solving, set theory, logic, operations and properties involving different based number systems, number theory, functions, statistics and probability. This course is recommended only for students interested in teaching elementary school.
Prerequisite: C or better in MAT 102 or completion of or placement on math assessment of MAT 113 or higher.

MAT 113—Mathematics for the Liberal Arts
3 cr. (Fall)
A liberal arts mathematics survey course. MAT 113 and MAT 114 are independent and may be taken in any order, even simultaneously, if desired. Topics are drawn from the areas of sets, logic, rational and real numbers, numeration systems, statistics, probability, patterns of numbers, and modular systems. (GE 1)
Prerequisite: C- or better in MAT 101 or MAT 020 or math placement test
Not open to students who have successfully completed MAT 102 or higher numbered courses. MAT 113 may only be used as the liberal arts elective credit in A.A., A.S., and A.S. Individual Studies degrees.

MAT 114—Contemporary Mathematics
3 cr. (Spring)
An intermediate algebra course. Topics covered: absolute value equations and inequalities, additional factoring techniques, radical expressions, complex numbers, quadratic equations, functions, graphing techniques, coordinate geometry, mathematical modeling, applications and problem solving. (GE 1)
Prerequisite: C or better in MAT 101 or math placement test
Not open to students who have successfully completed MAT 113 or higher numbered courses. MAT 102 may only be used as math credit in the A.A. degree and only as elective credit in the A.S. or A.S. Individual Studies degrees.

MAT 107—Technical Math
3 cr. (Fall)
A basic operations approach to the study of algebra and trigonometry for students entering technical programs. Scientific calculators are used for applied problem solutions.
Prerequisite: C or better in MAT 101

MAT 113—Foundations of Elementary School Mathematics
3 cr. (Fall/Spring/Summer)
This course is designed to provide the student who is interested in teaching elementary school with a clear understanding of the major concepts and skills that are commonly taught in elementary school classes. The primary goal of the course is to enable the student to develop multiple representations and models of mathematical concepts, to become proficient at mental math, computational problem solving and to be able to communicate mathematical ideas effectively. The contents of this course can be divided into the following general categories: problem solving, set theory, logic, operations and properties involving different based number systems, number theory, functions, statistics and probability. This course is recommended only for students interested in teaching elementary school.
Prerequisite: C or better in MAT 102 or completion of or placement on math assessment of MAT 113 or higher.

MAT 113—Mathematics for the Liberal Arts
3 cr. (Fall)
A liberal arts mathematics survey course. MAT 113 and MAT 114 are independent and may be taken in any order, even simultaneously, if desired. Topics are drawn from the areas of sets, logic, rational and real numbers, numeration systems, statistics, probability, patterns of numbers, and modular systems. (GE 1)
Prerequisite: C- or better in MAT 101 or MAT 020 or math placement test
Not open to students who have successfully completed MAT 102 or higher numbered courses. MAT 113 may only be used as the liberal arts elective credit in A.A., A.S., and A.S. Individual Studies degrees.

MAT 114—Contemporary Mathematics
3 cr. (Spring)
An intermediate algebra course. Topics covered: absolute value equations and inequalities, additional factoring techniques, radical expressions, complex numbers, quadratic equations, functions, graphing techniques, coordinate geometry, mathematical modeling, applications and problem solving. (GE 1)
Prerequisite: C or better in MAT 101 or math placement test
Not open to students who have successfully completed MAT 113 or higher numbered courses. MAT 102 may only be used as math credit in the A.A. degree and only as elective credit in the A.S. or A.S. Individual Studies degrees.
Mathematics

Prerequisite: C or better in MAT 102 or math placement test

MAT 114—Mathematical Reasoning and Proof
3 cr. (Spring)
Special Topics Course—Mathematical Reasoning and Proof is designed for students who plan to continue their studies in mathematics, mathematics education or science. This course will foster the ability to read and write mathematically correct proofs. Using some of the classical proofs and mathematical patterns, the course familiarizes the student with many of the foundational principles of mathematics as well as some of the current areas of research. The course includes Euclidean Geometry, Mathematical Induction, Strict Arithmetic Proof, and Elementary Number Theory Proofs, among others. The course also explores the developments in mathematics that gave rise to Computer Science.
Prerequisite: C or better in MAT 102 or math placement test

MAT 121—College Algebra
3 cr. (Fall/Spring/Summer)
College Algebra is the first course for students who plan to continue on toward the study of Calculus. Topics include: methods of summarizing and analyzing numbers in trigonometric form. (GE 1)
Prerequisite: C or better in MAT 121 or math placement test

MAT 122—College Trigonometry
3 cr. (Fall/Spring/Summer)
College Trigonometry is the second course for students who plan to continue on toward the study of Calculus. Topics include trigonometric functions, graphing techniques, right triangle applications, trigonometric identities, inverse functions, oblique triangles, two-dimensional vectors, and complex numbers in trigonometric form. (GE 1)
Prerequisite: C or better in MAT 121

MAT 125—Introduction to Statistics
3 cr. (Fall/Spring/Summer)
This course examines the general elements and principles of statistics used in the fields of education, consumerism, quality control, allied health, physical sciences, & social sciences. Course is broken into two parts; descriptive statistics and inferential statistics. Topics include: methods of summarizing and presenting data; measures of center, spread, and position; probability; binomial probability distributions; z-scores; t-tests; chisquare test; confidence intervals, hypothesis testing; and linear regression. (GE 1)
Prerequisite: C or better in MAT 102 or placement test

MAT 131—Pre-Calculus
4 cr. (Fall/Spring/Summer)
A course designed to review advanced techniques in algebra and trigonometry necessary for the study of calculus. The major areas of study are: algebra, manipulations, analytic geometry, exponentials, trigonometry, transformations and problem solving. Former title Essentials for Calculus. (GE 1)
MAT 131 is not open to students who have completed MAT 121 or MAT 122.
Prerequisite: math placement test

MAT 134—Mathematical Reasoning and Proof
3 cr. (Spring)
Special Topics Course—Mathematical Reasoning and Proof is designed for students who plan to continue their studies in mathematics, mathematics education or science. This course will foster the ability to read and write mathematically correct proofs. Using some of the classical proofs and mathematical patterns, the course familiarizes the student with many of the foundational principles of mathematics as well as some of the current areas of research. The course includes Euclidean Geometry, Mathematical Induction, Strict Arithmetic Proof, and Elementary Number Theory Proofs, among others. The course also explores the developments in mathematics that gave rise to Computer Science.
Prerequisite: C or better in MAT 102 or math placement test

MAT 135—Introduction to Discrete Mathematics
3 cr. (Spring)
Discrete mathematics deals with the analysis of discontinuous (separate, distinct, unconnected) phenomena. This branch of mathematics provides much of the underlying methodology for the use of computers. This branch of mathematics has applications in the fields of engineering, physical sciences, economics, behavioral sciences, health sciences, and computer science. Topics covered include: Sets, sequences, functions, prime numbers, elementary logic (proofs), relations (Matrices), induction and recursion, counting, and an introduction to graphs and trees.
Prerequisite: C or better in MAT 122

MAT 205—Calculus I
4 cr. (Spring/Fall/Summer)
Analytic geometry topics are introduced as needed to carry out the orderly development of the calculus. Topics include algebraic, transcendental functions and transformations, trigonometric functions and identities, limits, continuity, derivatives, implicit differentiation, related rate problems, Rolle’s Theorem and Mean Value Theorem, curve sketching (relative min/max, concavity, points of inflection, limits at infinity, horizontal asymptotes), applications of differentiation, integrals, inverse functions, t-test, chisquare test, confidence intervals, hypothesis testing; and linear regression. (GE 1)
Prerequisite: C or better in MAT 102 or placement test

MAT 206—Calculus II
4 cr. (Spring/Fall/Summer)
A continuation of the calculus which builds on the basic concepts of derivatives and integration to include calculus of exponentials, logarithms, trigonometric functions, inverse trigonometric functions, and proof.
Prerequisite: C or better in MAT 102 or math placement test

MAT 207—Calculus III
4 cr. (Spring/Fall/Summer)
A course designed to review advanced techniques in algebra and trigonometry that are necessary for the study of calculus. The major areas of study are: algebra, manipulations, analytic geometry, exponentials, trigonometry, transformations and problem solving. Former title Essentials for Calculus. (GE 1)
MAT 131 is not open to students who have completed MAT 121 or MAT 122.
Prerequisite: math placement test

MAT 208—Calculus IV
4 cr. (Spring/Fall/Summer)
A continuation of the calculus which builds on the basic concepts of derivatives and integration to include calculus of exponentials, logarithms, trigonometric functions, inverse trigonometric functions, and proof.
Prerequisite: C or better in MAT 102 or math placement test

MAT 210—Introduction to Discrete Mathematics
3 cr. (Spring)
Discrete mathematics deals with the analysis of discontinuous (separate, distinct, unconnected) phenomena. This branch of mathematics provides much of the underlying methodology for the use of computers. This branch of mathematics has applications in the fields of engineering, physical sciences, economics, behavioral sciences, health sciences, and computer science. Topics covered include: Sets, sequences, functions, prime numbers, elementary logic (proofs), relations (Matrices), induction and recursion, counting, and an introduction to graphs and trees.
Prerequisite: C or better in MAT 122

MAT 215—Calculus I
4 cr. (Fall/Spring/Summer)
Analytic geometry topics are introduced as needed to carry out the orderly development of the calculus. Topics include algebraic, transcendental functions and transformations, trigonometric functions and identities, limits, continuity, derivatives, implicit differentiation, related rate problems, Rolle’s Theorem and Mean Value Theorem, curve sketching (relative min/max, concavity, points of inflection, limits at infinity, horizontal asymptotes), applications of differentiation, integrals, inverse functions, t-test, chisquare test, confidence intervals, hypothesis testing; and linear regression. (GE 1)
Prerequisite: C or better in MAT 102 or placement test

MAT 216—Calculus II
4 cr. (Fall/Spring/Summer)
A continuation of the calculus which builds on the basic concepts of derivatives and integration to include calculus of exponentials, logarithms, trigonometric functions, inverse trigonometric functions, and proof.
Prerequisite: C or better in MAT 102 or math placement test

MAT 217—Calculus III
4 cr. (Fall/Spring/Summer)
A course designed to review advanced techniques in algebra and trigonometry that are necessary for the study of calculus. The major areas of study are: algebra, manipulations, analytic geometry, exponentials, trigonometry, transformations and problem solving. Former title Essentials for Calculus. (GE 1)
MAT 131 is not open to students who have completed MAT 121 or MAT 122.
Prerequisite: math placement test
functions and hyperbolic, the area of a region between two curves, solids of revolution, application problems, integration, Trapezoidal rule, Simpson's Rule, L'Hôpital's Rule, Taylor and Maclaurin polynomials, sequences and series, and power series.

Prerequisite: C or better in MAT 205

MAT 207—Calculus 3
4 cr. (Fall/Spring evening)

Covers three areas of discourse: vector analysis, partial differentiation and multiple integration. The study of vectors includes conic sections, analysis of vectors in two and three space as well as their development as vector functions. Partial differentiation includes such topics as directional derivatives, gradients, tangent planes, surface extremes, and exact differentials. Multiple integration is used for volumes, surface area, moments, Green's theorem and line integrals.

Prerequisite: C or better in MAT 206

MAT 211—Linear Algebra
3 cr. (Fall/Summer)

Designed primarily for students planning to specialize in mathematics, computer science, or engineering. Topics include: vectors in $\mathbb{R}^2$ and $\mathbb{R}^3$; systems of linear equations, determinants and matrices, vector spaces, linear independence and basis, linear transformations, eigenvalues and eigenvectors, and diagonalizations.

Prerequisite: C or better in MAT 205

MAT 214—Differential Equations and Series
4 cr. (Spring)

The following differential equations topics are covered: equations of first order, linear equations of the second order, operators, successive approximations, interpolation, numerical integration, and Partial Differential Equations. Series topics include Fourier's Series, Gamma and Bessel Functions, and Laplace Transforms.

Prerequisite: C or better in MAT 207

### Mathematical Laboratory Technology

#### (Laboratory Technology Department)

**NOTE:** Students must comply with all policies, procedures, and regulations of the internship/fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

**MAT 207—Calculus 3**
4 cr. (Fall/Spring evening)

Covers three areas of discourse: vector analysis, partial differentiation and multiple integration. The study of vectors includes conic sections, analysis of vectors in two and three space as well as their development as vector functions. Partial differentiation includes such topics as directional derivatives, gradients, tangent planes, surface extremes, and exact differentials. Multiple integration is used for volumes, surface area, moments, Green's theorem and line integrals.

Prerequisite: C or better in MAT 206

**MAT 211—Linear Algebra**
3 cr. (Fall/Summer)

Designed primarily for students planning to specialize in mathematics, computer science, or engineering. Topics include: vectors in $\mathbb{R}^2$ and $\mathbb{R}^3$; systems of linear equations, determinants and matrices, vector spaces, linear independence and basis, linear transformations, eigenvalues and eigenvectors, and diagonalizations.

Prerequisite: C or better in MAT 205

**MAT 214—Differential Equations and Series**
4 cr. (Spring)

The following differential equations topics are covered: equations of first order, linear equations of the second order, operators, successive approximations, interpolation, numerical integration, and Partial Differential Equations. Series topics include Fourier's Series, Gamma and Bessel Functions, and Laplace Transforms.

Prerequisite: C or better in MAT 207

### Mathematics - Medical Laboratory Technology

**MLT 101—Fundamentals of Medical Physiology**
3 lect., 2 lab., 4 cr. (Fall)

Overview of the ten systems of the human body in health and disease with emphasis on cardio-vascular and respiratory physiology of the human. Laboratory exercises relate structure to function. Human materials and models are used.

Prerequisite: MLT 101

**MLT 102—Fundamentals of Medical Physiology**
3 lect., 2 lab., 4 cr. (Spring)

Examination of function of selected organs in health and disease. In-depth studies of renal, gastrointestinal and endocrine physiology of the human. Laboratory exercises relate system structure with organ function. Human materials and models are used.

Prerequisite: MLT 101

**MLT 103—Fundamentals of Medical Physiology**
3 lect., 2 lab., 4 cr. (Spring)

Examination of function of selected organs in health and disease. In-depth studies of renal, gastrointestinal and endocrine physiology of the human. Laboratory exercises relate system structure with organ function. Human materials and models are used.

Prerequisite: MLT 101
Medical Laboratory Technology

MLT 103—Immunology 2 lect., 1 lab. 2 cr. (Fall)

The immune system, its components, and their functions. Antigen-antibody reactions, cell-mediated immunity, the complement system, and pathological conditions are discussed. [R-1]

MLT 104—Hematology 2 lect., 3 lab. 3 cr. (Spring)

Topics include blood cell formation, function, pathological states both physiological and genetic, hemoglobin-opathies, coagulation theory and factors. Laboratory exercises correlate basic tests with lecture topics. Test proficiency is developed utilizing manual and both automated and semiautomated techniques. [R-1]

Corequisite: MLT 251

MLT 201—Instrumentation and Clinical Applications 1 1 lect., 1 cr. (Fall)

Survey of instrumentation used in laboratories. The basic principles and theories of laboratory instruments will be discussed, as well as clinical instrumentation in relation to hematology, urinalysis and immunohematology. [R-1]

Prerequisite: one year of college chemistry Corequisite: MLT 251

MLT 202—Instrumentation and Clinical Applications 2 1 lect., 1 cr. (Spring)

This course is designed to give the student a broad-based understanding of clinical laboratory instrumentation principles, the process of instrument selection and specific applications of these principles, especially in microbiology, clinical chemistry and immunohematology. Laboratory and hospital information systems, workflow analysis, and economic issues related to instrument selection are also discussed. [R-1]

Prerequisite: MLT 201

Corequisite: MLT 252

MLT 203—Immunohematology 2 lect., 3 lab. 3 cr. (Fall)

Detailed study of basic concepts of inheritance and heredity with respect to human blood factors. Blood bank procedures such as typing, immune antibody screening and identification, titre level determination, medicolegal exclusions and transfusion procedures are performed. [R-1]

Prerequisite: MLT 103, MLT 104

MLT 207—Clinical Chemistry 1 2 lect., 2 lab. 3 cr. (Fall)

Study of the composition and methods of assay of body fluids. Lecture stresses the physiologic basis of human metabolites in health and disease. Laboratory emphasizes analytical methodologies: basic instrumentation and quality control. Carbohydrate metabolism, NERIP, electrolytes and proteins are studied in detail. [R-1]

Prerequisite: CHM 103, CHM 104 or CHM 105, CHM 106

MLT 208—Clinical Chemistry 2 2 lect., 3 lab. 3 cr. (Spring)

Continued study of the composition and methods of assay of body fluids. Lipids, enzyme kinetics, liver function tests, renal function, cardiac assessment hormone levels and toxicology are discussed in lecture and performed in the laboratory. [R-1]

Prerequisite: MLT 207, MLT 103

Medical Laboratory Technology

MLT 103—Immunology 2 lect., 1 lab. 2 cr. (Fall)

The immune system, its components, and their functions. Antigen-antibody reactions, cell-mediated immunity, the complement system, and pathological conditions are discussed. [R-1]

MLT 104—Hematology 2 lect., 3 lab. 3 cr. (Spring)

Topics include blood cell formation, function, pathological states both physiological and genetic, hemoglobin-opathies, coagulation theory and factors. Laboratory exercises correlate basic tests with lecture topics. Test proficiency is developed utilizing manual and both automated and semiautomated techniques. [R-1]

Prerequisite: one year of college chemistry Corequisite: MLT 251

MLT 202—Instrumentation and Clinical Applications 2 1 lect., 1 cr. (Spring)

This course is designed to give the student a broad-based understanding of clinical laboratory instrumentation principles, the process of instrument selection and specific applications of these principles, especially in microbiology, clinical chemistry and immunohematology. Laboratory and hospital information systems, workflow analysis, and economic issues related to instrument selection are also discussed. [R-1]

Prerequisite: MLT 201

Corequisite: MLT 252

MLT 203—Immunohematology 2 lect., 3 lab. 3 cr. (Fall)

Detailed study of basic concepts of inheritance and heredity with respect to human blood factors. Blood bank procedures such as typing, immune antibody screening and identification, titre level determination, medicolegal exclusions and transfusion procedures are performed. [R-1]

Prerequisite: MLT 103, MLT 104

MLT 207—Clinical Chemistry 1 2 lect., 2 lab. 3 cr. (Fall)

Study of the composition and methods of assay of body fluids. Lecture stresses the physiologic basis of human metabolites in health and disease. Laboratory emphasizes analytical methodologies: basic instrumentation and quality control. Carbohydrate metabolism, NERIP, electrolytes and proteins are studied in detail. [R-1]

Prerequisite: CHM 103, CHM 104 or CHM 105, CHM 106

MLT 208—Clinical Chemistry 2 2 lect., 3 lab. 3 cr. (Spring)

Continued study of the composition and methods of assay of body fluids. Lipids, enzyme kinetics, liver function tests, renal function, cardiac assessment hormone levels and toxicology are discussed in lecture and performed in the laboratory. [R-1]

Prerequisite: MLT 207, MLT 103

MLT 207—Clinical Chemistry 1 2 lect., 2 lab. 3 cr. (Spring)

Study of the composition and methods of assay of body fluids. Lecture stresses the physiologic basis of human metabolites in health and disease. Laboratory emphasizes analytical methodologies: basic instrumentation and quality control. Carbohydrate metabolism, NERIP, electrolytes and proteins are studied in detail. [R-1]

Prerequisite: CHM 103, CHM 104 or CHM 105, CHM 106

MLT 208—Clinical Chemistry 2 2 lect., 3 lab. 3 cr. (Spring)

Continued study of the composition and methods of assay of body fluids. Lipids, enzyme kinetics, liver function tests, renal function, cardiac assessment hormone levels and toxicology are discussed in lecture and performed in the laboratory. [R-1]

Prerequisite: MLT 207, MLT 103
enable the student to identify basic tissues. Laboratory work includes the preparation and non-pathologic organisms encountered in human specimens. Treatment and handling of specimens are discussed. Methods in mycology, parasitology and serology as applicable to the clinical laboratory are taught. Prerequisite: MLT 209

MLT 216—Histology
2 lect., 3 lab., 3 cr. (Spring)
The microscopic study of vertebrate cells, tissues and organs, stressing the relationship of structure to function. Laboratory work includes the preparation of stained slides for light microscopic study and study of prepared slides of cells, tissues and organs to enable the student to identify basic tissues. Prerequisite: one semester of a biological science

MLT 217—Clinical Training 1
6 lab., 2 cr.
Under the supervision of clinical proctors, students practice medical laboratory techniques. Prerequisite: MLT 101, MLT 102, MLT 104, MLT 107
Corequisite: MLT 201, MLT 207

MLT 218—Clinical Training 2
6 lab., 2 cr.
Continuation of clinical experience. Under the supervision of clinical proctors, students gain additional experience in developing technical skills. Prerequisite: MLT 203, MLT 209
Corequisite: MLT 202, MLT 208 and MLT 212, or completion of all professional courses

Music (Arts & Communication Department)

MUS 101—Introduction to Music
3 cr. (Fall/Spring/Summer)
Enjoyment of music through the study of basic musical concepts and acquisition of listening skills. Examines a wide variety of musical styles within their cultural contexts. (GE 8)

MUS 103—History of Western Music to 1750
3 cr. (Fall)
A survey of the music of ancient cultures including Greece and Rome and the early Christian, Medieval, Renaissance, and Baroque periods. Social, political, historical, and cultural influences are considered. This course includes extensive classroom listening to the music of the great composers in the works of Bach and Handel. (GE 7)

MUS 104—History of Western Music from 1750
3 cr. (Spring)
A survey of the music of the Classical, Romantic, and Twentieth century periods. Social, political, historical and cultural influences are considered. This course includes extensive classroom listening to the music of the great composers from Mozart and Beethoven to contemporary artists. (GE 7)

MUS 105—History of Jazz
3 cr. (Fall/Spring)
A study of jazz from its origin to the present. An examination of the important musicians, styles, and influences through recorded examples of ragtime, blues, Dixieland, swing, bop, progressive jazz, third stream, and contemporary trends. (GE 7)

MUS 107—History of Rock Music
3 cr. (Fall/Spring/Summer)
A survey of rock music from its origins in African-American and Anglo-American folk styles through the present. Examines the entire phenomenon of rock music, its relationship to other musical styles, the influence of social factors on the music, and the influence of the music, in turn, on society. (GE 7)

MUS 109—Music Business
3 cr. (Fall/Spring)
An introductory course exploring practical, legal, and procedural problems encountered in the music industry. A variety of career areas are surveyed to provide an orientation for students preparing for a career in music as well as those planning to transfer to four-year programs in the music business and other fields.

MUS 209—General Microbiology
3 lect., 3 lab., 4 cr. (Fall)
Classification, nomenclature and identification of micro-organisms. The physiology of micro-organisms, pathogenic organisms and organisms of economic importance are considered. Industrial microbiology and agricultural bacteriology are included. Laboratory exercises stress sterile technique, staining methods, culture of microorganisms and biochemical tests used in identification. Prerequisite: one semester of a biological science (GE 2)

MUS 201—Clinical Training 1
2 lect., 3 lab., 3 cr. (Spring)
The identification and quantification of pathologic and non-pathologic organisms encountered in human specimens. Treatment and handling of specimens are discussed. Methods in mycology, parasitology and serology as applicable to the clinical laboratory are taught. Prerequisite: MLT 209

MUS 207—Clinical Training 2
6 lect., 3 lab., 3 cr. (Spring)
Continuation of clinical experience. Under the supervision of clinical proctors, students gain additional experience in developing technical skills. Prerequisite: MLT 201, MLT 207
Corequisite: MLT 101, MLT 102, MLT 104, MLT 107

MUS 203—Clinical Microbiology
2 lect., 3 lab., 3 cr. (Spring)
The identification and quantification of pathologic and non-pathologic organisms encountered in human specimens. Treatment and handling of specimens are discussed. Methods in mycology, parasitology and serology as applicable to the clinical laboratory are taught. Prerequisite: MLT 209
MUS 111 — Audio Engineering and Design for the Arts  
2 lect., 2 lab, 1 cr. (Spring)
This is a hands-on course designed to give students a basic working knowledge of sound technologies in the performing and prentential arts. Students will focus on the nature and physics of sound and its impact on the performance environment, the equipment that enhances and augments sound, and the design and implementation of sound in different performance media.

MUS 121 — Fundamentals of Music  
3 cr. (Fall/Spring)
This course provides thorough groundwork in the rhythmic, melodic, and harmonic elements of music. It is intended for students who wish to major in music but have no background in music theory and for others desiring a basic music theory class. Topics include music notation, scales, intervals, and chord construction. (GE 8)

MUS 123 — Basic Musicianship I  
3 lect., 4 lab, 5 cr (Fall)
An intensive course designed to enhance comprehension of musical concepts and develop skill in the handling of musical materials. Includes a review of music fundamentals, basic principles of part-writing, harmonization, and analysis. Studies integrate music theory, ear training, keyboard harmony, and sight singing to lay the groundwork for future study. (GE 8)
Prerequisite: MUS 121 or departmental placement Corequisite: enrollment in a piano course

MUS 124 — Basic Musicianship II  
3 lect., 4 lab, 5 cr (Spring)
A continuation of Basic Musicianship I. Topics include trud inversion, secondary chords in a key, seventh chords, and nonharmonic tones correlated with more advanced ear training, keyboard harmony, and sight singing materials. (GE 8)
Prerequisite: MUS 123 Corequisite: enrollment in a piano course

MUS 131 — Elementary Piano 1  
2 cr. (Fall/Spring)
Class instruction for beginners with no previous musical training and for those wishing a refresher in piano fundamentals. Emphasizes the development of basic keyboard skills, sight reading, and the use of basic chord patterns. (GE 8)
Prerequisite: MUS 131

MUS 132 — Elementary Piano 2  
2 cr. (Fall/Spring)
A continuation of MUS 131 which concentrates on the performance of more advanced materials. (GE 8)
Prerequisite: MUS 131

MUS 141 — Group Voice 1  
2 lect., 0 lab, 2 cr. (Fall)
An introductory level course designed to develop vocal potential by learning proper vocal technique, studying musical notation and performing folk, musical theater and art songs in an individual setting. (GE 8)

MUS 142 — Group Voice 2  
2 lect., 0 lab, 2 cr. (Spring)
An intermediate level course designed to continue individual vocal development by learning advanced vocal technique, increasing musical vocabulary and performing musical theater and foreign language art songs and arias in an individual setting. Prerequisite: MUS 141 or permission of instructor

MUS 151 — Chorus  
0 lect., 2 lab, 1 cr. (Fall/Spring)
This course provides choral performance experience. The repertoire includes selections from major choral works, music representing a variety of styles, and pieces in different languages. No audition is required. Participation in all concerts is mandatory. Students may repeat course for a total of four credits. (GE 8)

MUS 153 — Madrigal Singers  
0 lect., 2 lab, 1 cr. (Fall/Spring)
A select vocal ensemble that performs a variety of advanced a cappella pieces from choral repertoire composed throughout the centuries. Required audition held the first week of each semester. Participation in concerts is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor Corequisite: enrollment in a piano course

MUS 155 — Orchestra  
0 lect., 2 lab, 1 cr. (Fall/Spring/Summer)
This course will provide a wide variety of instrumental experiences for those who enjoy playing an orchestral instrument. Standard orchestral repertoire will be studied, ranging from light to classical selections. Participation in public performances is mandatory. May be repeated for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 157 — Chamber Ensemble  
0 lect., 2 lab, 1 cr. (Fall/Spring)
A variety of instrumental ensembles will be organized: string, woodwind, brass and combinations. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 158 — Advanced Piano  
2 cr. (Fall/Spring)
A continuation of MUS 131 which concentrates on the performance of more advanced materials. (GE 8)
Prerequisite: MUS 131

MUS 159 — Advanced Piano  
2 cr. (Fall/Spring)
A continuation of MUS 131 which concentrates on the performance of more advanced materials. (GE 8)
Prerequisite: MUS 131

MUS 161 — Fundamentals of Music  
3 cr. (Fall/Spring)
This course provides thorough groundwork in the rhythmic, melodic, and harmonic elements of music. It is intended for students who wish to major in music but have no background in music theory and for others desiring a basic music theory class. Topics include music notation, scales, intervals, and chord construction. (GE 8)

MUS 162 — Basic Musicianship I  
3 lect., 4 lab, 5 cr (Fall)
An intensive course designed to enhance comprehension of musical concepts and develop skill in the handling of musical materials. Includes a review of music fundamentals, basic principles of part-writing, harmonization, and analysis. Studies integrate music theory, ear training, keyboard harmony, and sight singing to lay the groundwork for future study. (GE 8)
Prerequisite: MUS 121 or departmental placement Corequisite: enrollment in a piano course

MUS 164 — Basic Musicianship II  
3 lect., 4 lab, 5 cr (Spring)
A continuation of Basic Musicianship I. Topics include trud inversion, secondary chords in a key, seventh chords, and nonharmonic tones correlated with more advanced ear training, keyboard harmony, and sight singing materials. (GE 8)
Prerequisite: MUS 123 Corequisite: enrollment in a piano course

MUS 165 — Orchestra  
0 lect., 2 lab, 1 cr. (Fall/Spring/Summer)
This course will provide a wide variety of instrumental experiences for those who enjoy playing an orchestral instrument. Standard orchestral repertoire will be studied, ranging from light to classical selections. Participation in public performances is mandatory. May be repeated for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor Corequisite: enrollment in a piano course

MUS 167 — Chamber Ensemble  
0 lect., 2 lab, 1 cr. (Fall/Spring)
A variety of instrumental ensembles will be organized: string, woodwind, brass and combinations. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor
MUS 159—Band
0 lect., 2 lab., 1 cr. (Fall/Spring/Summer)
The SUNY Orange Symphonic Band offers the student a variety of instrumental experiences. Music programmed during the semester explores a variety of original and arranged works for symphonic and concert band, from traditional and contemporary classical concert works to more popular numbers as well as suites from Broadway and Hollywood scores. The minimum performance level expected is NYSSMA Level 3. Participation in performances is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 161—Jazz Ensemble
0 lect., 2 lab., 1 cr. (Fall/Spring)
The study of performance of compositions in the jazz idiom. Principles of group performance are presented with emphasis on balance, phrasing, interpreting and analyzing music. Class time is allocated to the development of jazz performance techniques. Participation in performance is mandatory. Students may repeat course for a total of four credits (GE 8)
Prerequisite: audition and permission of instructor

MUS 163—Jazz Improvisation 1
2 cr. (Fall)
Basic techniques of jazz improvisation. Chord usage, scales, arpeggios are used to color standard tunes and strengthen weak progressions. Students are expected to bring their instruments to class and practice assignments at home. Class time is allocated for individual and group instruction and analyzing recorded solos by noted artists. (GE 8)

MUS 164—Jazz Improvisation 2
2 cr. (Spring)
Improvisation approached as spontaneous composition with emphasis on melodic and rhythmic principles. The ability to read music is necessary. Students explore different stylistic approaches to reading and phrasing. Listening, discussion, demonstration and performance are required. (GE 8)
Prerequisite: MUS 163 or permission of instructor

MUS 165—Jazz Keyboard Harmony
2 lect., 0 lab., 2 cr. (Spring)
This is a functional keyboard class designed primarily to assist students with the assimilation of concepts and skills taught in Jazz Improvisation and Elements of Arranging, but is open to any student with permission of instructor. The course focuses on jazz harmonization techniques with an emphasis on harmonizing and performing tunes from the standard jazz repertoire at the piano.

MUS 167—Jazz/Commercial Guitar 1
2 lect., 0 lab., 2 cr.
A study of Jazz/Commercial Guitar styles covering nomenclature, modes, diatonic and altered chord voicings, improvisation, chord melody and basic repertoire.
Prerequisite: permission of instructor or department chair

MUS 168—Jazz/Commercial Drums
2 lect., 0 lab., 2 cr. (Spring)
A study of jazz and commercial drumset styles covering nomenclature, sticking and brush patterns, phrasing, coordination techniques, rhythm reading and drum chart reading, with an emphasis on current swing, Latin, fusion and ballad styles.
Prerequisite: permission of instructor or department chair

MUS 170—MUS 177—Private Instruction
1 cr. (Fall/Spring)
Students are responsible for arranging private music lessons with an instructor approved by the Arts and Communication Department and for paying an additional fee to the instructor. Forms available from the Arts and Communication Department and for paying an additional fee to the instructor. Forms available from

MUS 211—Songwriting
1 lect., 2 lab., 2 cr. (Spring)
An introduction to the art and craft of songwriting. Includes analysis of existing songs written in various styles and in terms of the fundamental musical elements: rhythm, form, melody, harmony, timbre, dynamics, texture and text. Analytic and creative exercises and projects enable students to acquire skills in evaluating and critiquing songs and in producing original work.
Prerequisite: Music major or permission of course coordinator or department chair

MUS 223—Advanced Musicanship I
3 lect., 2 lab., 4 cr. (Fall)
Advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 224—Advanced Musicanship II
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I. Topics include chordal harmonization, ninth chords, altered chords, modulation to distant keys. Score analysis and composition projects. (GE 8)
Corequisite: enrollment in a piano course

MUS 159—Band
0 lect., 2 lab., 1 cr. (Fall/Spring/Summer)
The SUNY Orange Symphonic Band offers the student a variety of instrumental experiences. Music programmed during the semester explores a variety of original and arranged works for symphonic and concert band, from traditional and contemporary classical concert works to more popular numbers as well as suites from Broadway and Hollywood scores. The minimum performance level expected is NYSSMA Level 3. Participation in performances is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 161—Jazz Ensemble
0 lect., 2 lab., 1 cr. (Fall/Spring)
The study of performance of compositions in the jazz idiom. Principles of group performance are presented with emphasis on balance, phrasing, interpreting and analyzing music. Class time is allocated to the development of jazz performance techniques. Participation in performance is mandatory. Students may repeat course for a total of four credits (GE 8)

Analytic and creative exercises and projects enable students to acquire skills in evaluating and critiquing songs and in producing original work.
Prerequisite: Music major or permission of course coordinator or department chair

MUS 223—Advanced Musicanship I
3 lect., 2 lab., 4 cr. (Fall)
Advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 224—Advanced Musicanship II
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I. Topics include chordal harmonization, ninth chords, altered chords, modulation to distant keys. Score analysis and composition projects. (GE 8)
Corequisite: enrollment in a piano course

MUS 225—Advanced Musicanship III
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I and II. Topics include advanced chord theory, advanced harmonic analysis, counterpoint, form and analysis, and composition projects. (GE 8)
Corequisite: enrollment in a piano course

MUS 226—Advanced Musicanship IV
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II and III. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 227—Advanced Musicanship V
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II, III and IV. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 228—Advanced Musicanship VI
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II, III, IV and V. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 229—Advanced Musicanship VII
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II, III, IV, V and VI. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 230—Advanced Musicanship VIII
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II, III, IV, V, VI and VII. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 231—Advanced Musicanship IX
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II, III, IV, V, VI, VII and VIII. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor

MUS 232—Advanced Musicanship X
3 lect., 2 lab., 4 cr. (Spring)
A continuation of Advanced Musicanship I, II, III, IV, V, VI, VII, VIII and IX. Topics include advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)
Corequisite: MUS 123 Intermediate Piano or permission of instructor
MUS 226—Elements of Arranging
3 cr. (Spring)
Emphasis is placed on the fundamentals of scoring for various instrumental combinations with particular attention to range, color, transposition, and technical capabilities of individual instruments. The course includes planning and writing arrangements for various ensembles with focus on the jazz idiom. Creative projects to be performed when possible by SUNY Orange ensembles. (GE 8)
Corequisite: MUS 224

MUS 231—Intermediate Piano 1
2 cr. (Fall/Spring)
Materials are drawn from classic, romantic and contemporary composers. (GE 8)
Prerequisite: MUS 132

MUS 232—Intermediate Piano 2
2 cr. (Fall/Spring)
Emphasis on technique, sight reading, pedaling, phrasing and interpretation. (GE 8)
Prerequisite: MUS 231

MUS 233—Advanced Piano 1
2 cr (Fall/Spring)
Materials of medium grade difficulty. Compositions for piano ensemble. Technical studies. Memorization of at least two selections. (GE 8)
Prerequisite: MUS 232

MUS 234—Advanced Piano 2
2 cr. (Spring)
Materials of increasing difficulty for solo and ensemble. (GE 8)
Prerequisite: MUS 233

NUR 010—Support Module for Nursing 1
1 unit*
This course is designed to assist the student in understanding the principles and practices presented in Nursing 1: Fundamentals. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 1 students.
Corequisite: Nursing 1: Fundamentals
* not applicable to associate degree or certificate programs

NUR 020—Support Module for Nursing 2
1 unit*
This course is designed to assist the student in understanding the principles and practices in Nursing II: Fundamentals. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 2 students.
Corequisite: Nursing Fundamentals 2

NUR 030—Support Module for Nursing 3
1 unit
This course is designed to assist the student in understanding the principles and practices in Nursing 3: Caring for the Growing Family. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 3 students.
Corequisite: Nursing 3: Caring for the Growing Family

NUR 040—Support Module for Nursing 4
1 unit
This course is designed to assist the student in understanding the principles and practices in Nursing 4: Physical and Mental Illness. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 4 students.
Corequisite: Nursing 4: Physical and Mental Illness
intravenous fluids and medications will be introduced.

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Calculation situations and exercises are specific to Nursing 2 and 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 101

NUR 195—Nursing & Writing 3 (Hybrid)

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Calculation situations and exercises are specific to Nursing 2 and 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 201

NUR 196—Nursing & Writing 4 (Hybrid)

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Calculation situations and exercises are specific to Nursing 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 202

NUR 201—Nursing 3: Caring for the Growing Family

This course is designed to promote understanding of the various roles of the associate degree nurse related to family development. This semester the growth and development of individual members of the family is studied in relation to their basic needs. The student refines skills in using the nursing process to assess the needs and provide care for the maternity client, as well as the child, in health and illness [R-1].

Prerequisites: ENG 101-2, BIO 112 with C or higher, or ENG 101 with C or higher, and grade of 75% (C) or higher in NUR 101; completed or concurrent enrollment in BIO 112

Corequisite: NUR 101

NUR 202—Nursing 4: Caring for the Growing Family

This course introduces the calculations used for the safe administration of oral and parenteral medications in the health care setting. Dimensional analysis is the method used to assist the learner to obtain answers with accuracy.

Prerequisites: tested into MAT 101 Basic Math I, or by permission of the instructor

Corequisite: NUR 101

NUR 203—Basic Clinical Calculations for Medication Administration 1

This course reviews Dimensional Analysis and the conversion between the various systems of measurement. The student will receive practice in calculating the safe administration of complex oral and parenteral medications in the health care setting. The safe administration of intravenous fluids and medications will be introduced.

Prerequisites: completion of NUR 111 or NUR 101

Corequisite: NUR 102

NUR 204—Basic Clinical Calculations for Medication Administration 2

This course introduces the calculations used for the safe administration of oral and parenteral medications in the health care setting. This semester the growth and development of individual members of the family is studied in relation to their basic needs. The student refines skills in using the nursing process to assess the needs and provide care for the maternity client, as well as the child, in health and illness [R-1].

Prerequisites: ENG 101-2, BIO 112 with C or higher, or ENG 101 with C or higher, and grade of 75% (C) or higher in NUR 102.

Corequisite: PSY 100, CHM 110

NUR 205—Nursing: Process & Writing 1 (Hybrid)

This team-taught course helps Nursing 1 students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 1 course and clinical experience. Course begins in Week 7 (Fall semester) and meets 1 hi/week in class, 1 hi/week online. The instructor team is from the Nursing and English Departments.

Corequisite/Prerequisite: NUR 101

NUR 206—Nursing: Process & Writing 2 (Hybrid)

This team-taught course helps Nursing 1 students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 1 course and clinical experience. Course begins in Week 7 (Fall semester) and meets 1 hi/week in class, 1 hi/week online. The instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 102

NUR 207—Nursing: Process & Writing 3 (Hybrid)

This team-taught course helps Nursing 2 students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 2 and 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 201

NUR 208—Nursing: Process & Writing 4 (Hybrid)

This team-taught course helps Nursing 3 students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 3 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 202

NUR 209—Nursing: Process & Writing 5 (Hybrid)

This team-taught course helps Nursing 4 students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 202

NUR 210—Nursing: Process & Writing 1 (Hybrid)

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 1 course and clinical experience. Course begins in Week 7 (Fall semester) and meets 1 hi/week in class, 1 hi/week online. The instructor team is from the Nursing and English Departments.

Corequisite/Prerequisite: NUR 101

NUR 211—Nursing: Process & Writing 2 (Hybrid)

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 2 and 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 101

NUR 212—Nursing: Process & Writing 3 (Hybrid)

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 3 course and clinical experience. Instructor team is from both the Nursing and English Departments.

Pre or Corequisite: NUR 201

NUR 213—Nursing: Process & Writing 4 (Hybrid)

This team-taught course helps Nursing students to practice applying the Nursing Process and writing skills to workplace documentation. Documentation situations and exercises are specific to Nursing 4 course and clinical experience. Instructor team is from both the Nursing and English Departments.
Nursing

NUR 202—Nursing 4: Physical and Mental Illness*
6 lect., 13** lab., 9 cr.
This course prepares the student for entry into practice as an associate degree nurse. The course is structured to promote a secure knowledge base in chronic and complex physical and mental illness that affect individuals of all ages. The student demonstrates skill in using the nursing process to make and evaluate nursing care decisions. [R-1]
Prerequisites: PSY 100, CHM 110 with C or higher and grade of 75% (C) or higher in NUR 201

NOTE: A grade of 75% (C) or higher in NUR 202 is required to graduate with an A.A.S. degree in nursing. An A.A.S. degree in nursing is required for certification to take the National Council Licensure Examination (NCLEX) for Registered Professional Nurse (RN).**13 weeks.

NUR 203—Nursing 5: Transition to Practice
1 cr.
This course focuses on the role transition of student to staff nurse. The student will work with a registered nurse preceptor and faculty members as part of a health care team. Emphasis will be placed on the duties and responsibilities of the beginning staff nurse in planning, prioritizing, coordinating and implementing client care activities. The objectives will include increased skill in applying the nursing process, as well as an increased ability to evaluate self-performance and heightened levels of self-confidence.
Prerequisite: NUR 101, NUR 102, NUR 201, NUR 202

NUR 205—Pharmacology and the Human Body
3 cr.
An introduction to medications used to maintain health and/or treat diseases and disorders. The course includes beginning concepts in the origins of medications, how commonly used medications act in the body, how they are changed in the body and how their effects are produced. Toxic effects, side effects and adverse reactions to commonly used drugs are included as well as the effects of medications in all stages of human development.
Prerequisite: BIO 112 or permission of instructor

NUR 207—Advanced Clinical Calculations for Medication Administration
1 lect., 1 cr. (Fall/Spring)
This course is designed to assist the student to perform the preparation and administration of medications safely in complex and diverse clinical situations. Dimensional analysis is the method used to assist the learner to obtain answers with accuracy.
Prerequisites: NUR 112 or NUR 102 or permission of instructor

This course is designed to assist the student to perform the preparation and administration of medications safely in complex and diverse clinical situations. Dimensional analysis is the method used to assist the learner to obtain answers with accuracy.
Prerequisites: NUR 112 or NUR 102 or permission of instructor

Physical Examination
Physical examination is required upon admission to the program within a three-month period prior to the beginning of classes in nursing and at the beginning of classes in nursing of the second year. Students will not be allowed in the clinical area without a completed physical examination, required immunizations and negative drug screening on file with the college. Criminal background check clearance is also required upon admission to the program and prior to registering for nursing classes

Transportation Costs
Students must make their own arrangements, at their own expense, for transportation on days when classes are held off campus

Uniforms
Nursing student uniform must be worn whenever class meets off campus

*All nursing courses combine classroom theory with clinical experience in the hospitals and community agencies throughout the local area.

OTA 101—Occupational Therapy Assistant

Emphasis is on the understanding of human occupation and its role in well-being and health. Students engage in a variety of occupations and purposeful activities and analyze them for their therapeutic qualities and contexts. The impact of disability upon occupational performance is explored. Problem solving is emphasized through completion of a woodworking project. Students are also introduced to professional terminology and constructs based on the Occupational Therapy Practice Framework. [R-1] Corequisite: OTA 101

OTA 104—Occupational Performance 2

Emphasis is on the development of basic skills in a variety of minor crafts including: leather work, copper tooling, frame loom, weaving, mosaics, macrame, rug hooking and paper crafts. Principles of activity analysis, therapeutic application, and dyadic presentation techniques are covered. [R-1] Prerequisite: BIO 111 and OTA 103
Corequisite: OTA 106

OTA 106—Medical Conditions

Medical, orthopedic, and neurologic conditions, commonly referred for occupational therapy treatment are presented in regard to etiology, pathology, and accepted treatment procedures. Medical terminology is stressed. [R-1] Prerequisites: OTA 103 and BIO 111
Corequisite: OTA 102 and OTA 104

OTA 107—Principles of Occupational Therapy in Geriatrics and Gerontology

This course gives the student an understanding of the unique developmental, social, psychological, environmental, and physical needs of older adults. Students learn about such topics as aging, health care services/settings for older adults, normal aging processes, community agencies serving older adults, pathological conditions associated with aging, falls prevention, environmental safety and modification, occupation and older adults, health promotion, dementia care, depression, low vision, and death and dying. Students also attend a nursing home field visit and conduct an interview with an older adult resident. [R-1]
Corequisite: ENG 160

OTA 108—Functions of Occupational Therapy 2

This course provides the student with practical experience in a variety of occupational therapy treatment interventions. Includes units on hand function; splinting; kinesiology; functional mobility; training and teaching of occupations; assistive technology; preparatory activity; assessment and evaluation; and biomechanical, cognitive, perceptual, and sensory [R-1]
Prerequisite: OTA 101 and BIO 111
Corequisite: OTA 106 and BIO 112

OTA 109—Occupational Performance 1

Emphasis is on the understanding of human occupation and its role in well-being and health. Students engage in a variety of occupations and purposeful activities and analyze them for their therapeutic qualities and contexts. The impact of disability upon occupational performance is explored. Problem solving is emphasized through completion of a woodworking project. Students are also introduced to professional terminology and constructs based on the Occupational Therapy Practice Framework. [R-1] Corequisite: OTA 101

OTA 201—Principles of Occupational Therapy in Pediatrics & Developmental Disabilities

The pattern of normal growth and development from birth through adulthood is reviewed during the initial weeks of the course. The student is then introduced to the various conditions that interfere with normal development, and the occupational therapy treatment techniques used with the developmentally disabled. [R-1] Prerequisite: PST 220, BIO 111, OTA 102, OTA 106
Corequisite: OTA 207 and OTA 203

OTA 203—Clinical Reasoning Skills

The emphasis of this course is on the application of clinical reasoning and problem solving skills to occupational therapy contexts. The students plan and role play treatment interventions related to a variety of clinical cases. Students engage in problem solving
Occupational Therapy Assistant - Office Technologies

by adapting games and electronic switches. They also plan and implement a community project at a local agency/program serving children, adolescents, adults, or older adults [R-1].

OFA 217—Clinical Practice 1

25 lab., 7.5 cr. (Spring)

This course provides a supervised eight-week clinical experience in an occupational therapy treatment setting. The student may elect to work with the physically disabled, emotionally disabled, or developmentally disabled population. The student is expected to use knowledge and skills, acquired through previous course work, to carry out prescribed treatment programs. Observation techniques, evaluation, and treatment documentation are the major components of the fieldwork experience. [R-1].

Prerequisite: OTA 218, OTA 201, OTA 203 and all academic course work.

Occupational Therapy Assistant - Office Technologies

Office Technologies

(Business Department)

OFT 103—Medical Coding

3 cr. (Fall/Spring)

This course will introduce students to the characteristics and conventions of CPT-4 and ICD-9-CM coding. Format and correct coding practices will be taught. The importance of using accurate coding conventions to maximize reimbursement in the medical office will be stressed.

Prerequisite: MAT 010 or math placement into MAT 620 or higher.

OFT 106—Keyboarding

5 lect., 1 lab, 1 cr. (Fall/Spring)

This course concentrates on building skills over a period of one-half semester. Students learn the use of alphabetic and numeric keys. In order to complete the course with a passing grade of C, students will be expected to work at a minimum speed of 20-25 words per minute for three minutes with reasonable accuracy using the touch method (without looking at the keys). This course meets three hours per week for eight weeks. Students who already have acceptable skill levels, should take the departmental examination for possible waiver of the course. OFT 107 or higher may be substituted for OFT 106.

OFT 107—Elementary Computer Keyboarding

2 lect., 2 lab, 3 cr. (Fall/Spring)

The course objective is mastery of the typewriter/computer keyboard. Topics include the parts and functions of the workstation, personal and business letter arrangements, manuscript writings, and basic centering and tabulation problems. For a grade of C on straight copy writings, the student must achieve a minimum speed of 30 words per minute with a maximum of 5 errors on a five-minute writing.

OFT 108—Intermediate Computer Keyboarding

2 lect., 2 lab, 3 cr. (Fall/Spring)

Professional competence is developed in the keyboarding of business documents on a computer using WordPerfect software. Students learn to format business reports, tables, forms, and correspondence with emphasis on correct keyboarding, formatting, and proofreading techniques. For a grade of C on straight copy writings, the student must achieve a minimum speed of 40 words per minute with a maximum of 4 errors on a five-minute writing.

Prerequisite: OFT 107 or placement by department.

OFT 109—Advanced Computer Keyboarding

2 lect., 2 lab, 3 cr. (Spring)

Emphasis is placed on building production skill in the keyboarding of statistical reports, advanced business correspondence with tables, business forms and financial statements, medical reports, and legal forms using word processing software. For a grade of

Philosophy & Religion - Physical Education/Exercise Studies/Health

(English Department)

The following courses in this area fulfill the humanities requirement for the A.A. and A.S. degrees:

PHL 111—Hebrew Bible (Old Testament) 3 cr. (Fall)

The historical background and literature of the Hebrews, with emphasis on the major religious themes and beliefs developed within the context of the history of the Middle East. (GE 7)

PHL 112—New Testament 3 cr. (Spring)

The history and literature of Christianity, and the origins of the early Church, as described in the New Testament. (GE 7)

PHL 210—Philosophy 3 cr.

An introduction to the main questions raised by philosophers concerning knowledge of human nature and the universe. Emphasis is placed on the methods of Western philosophers in their responses to these questions. (GE 7)

Prerequisite: ENG 101 or concurrent enrollment

PHL 220—Ethics 3 cr.

The course introduces students to basic ethical theories and explores the values behind moral decision-making. Readings are drawn from classical and modern sources; classroom discussion centers on ethical issues in such areas as medicine, health, business, education, the arts, and law. (GE 7)

Prerequisite: ENG 101 or concurrent enrollment

PHL 230—Religious Concepts 3 cr.

The development of world religions from primitive times to the present day. Attention is given to the history and culture of the people whose religions are studied. (GE 7)

Prerequisite: ENG 101 or concurrent enrollment

Philosophy & Religion - Physical Education/Exercise Studies/Health

(Movement Science Department)

The following courses in this area fulfill the humanities requirement for the A.A. and A.S. degrees:

PED 100—Introduction to Physical Education 3 cr. (Fall/Spring)

The course introduces students to basic ethical theories and explores the values behind moral decision-making. Readings are drawn from classical and modern sources; classroom discussion centers on ethical issues in such areas as medicine, health, business, education, the arts, and law. (GE 7)

Prerequisite: ENG 101 or concurrent enrollment

PED 101—Introduction to Exercise Science 2 cr. (Fall)

The course provides a broad-based introduction to exercise science as an academic discipline which integrates anatomy, biochemistry, epidemiology, molecular biology, physics, physiology and psychology. The course will examine the history of exercise science and its affect on society as well as professional development, relationships to other health care professions, and trends for the future.

Prerequisite: placement into MAT 101

PED 111—Substance Abuse and Health 3 cr. (Fall/Spring)

An introduction to substance abuse that considers the physiological and psychological aspects of licit and illicit recreational drugs. Students develop an understanding of the importance and limitations of prescriptive medication.

PED 112—Contemporary Health 3 cr. (Fall/Spring)

Topics include stress management, violence in society, planning diet and fitness programs, and adapting to aging and dying. Students are able to make informed decisions concerning their personal physical and emotional states of health.

PED 114—Stress Management 2 lect., 1 cr. (Fall/Spring)

Stress management is a course that approaches stress as a function of life over which we do have control. Emphasizing the relationship between stress and wellness, classes explore means of intervention to better manage common sources of stress. Course does not satisfy the physical education requirement for the associate degrees.

Philosophy & Religion - Physical Education/Exercise Studies/Health

(English Department)

The course will examine the history of exercise science and its affect on society as well as professional development, relationships to other health care professions, and trends for the future.

Prerequisite: placement into MAT 101

PED 111—Substance Abuse and Health 3 cr. (Fall/Spring)

An introduction to substance abuse that considers the physiological and psychological aspects of licit and illicit recreational drugs. Students develop an understanding of the importance and limitations of prescriptive medication.

PED 112—Contemporary Health 3 cr. (Fall/Spring)

Topics include stress management, violence in society, planning diet and fitness programs, and adapting to aging and dying. Students are able to make informed decisions concerning their personal physical and emotional states of health.

PED 114—Stress Management 2 lect., 1 cr. (Fall/Spring)

Stress management is a course that approaches stress as a function of life over which we do have control. Emphasizing the relationship between stress and wellness, classes explore means of intervention to better manage common sources of stress. Course does not satisfy the physical education requirement for the associate degrees.
PED 145—Group Fitness Instructor
1 lec., 2 lab., 2 cr. (Fall)
This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in group fitness instruction. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the instructor-participant relationship, the principles of motivation to encourage adherence to the program, setting effective instructor-to-participant communication techniques, methods for enhancing group leadership, and the group fitness instructor’s professional role.

PED 150—First Aid and Safety
1 lec., 2 lab., 2 cr. (Fall/Spring)
This responding to emergencies course presents principles of safety awareness and accident-prevention education, as well as practice in the techniques of first aid care for most common accident and sudden illness situations. American Red Cross certification for responding to emergencies and Adult CPR is granted upon successful completion of requirements.

PED 151—Lifeguard Training
1 cr.
This course meets twice a week for eight weeks. Trains individuals who have an interest in life-saving skills. Includes the additional skills and knowledge required to develop effective lifeguard systems at swimming pools and waterfronts. Certification will include Lifeguard Training and AED upon successful completion. Satisfies Physical Education requirement.

Prerequisite: Must be at least 15 years old, swim 300 yards continuously using the freestyle, breaststroke for at least 100 yards each. Must submerge to minimum depth of 7 feet, retrieve a 10 pound object and return using legs only.

PED 152—Water Safety Instructor
1 cr. (Spring/Summer)
Covers the skills necessary to teach the following courses: Progressive Swimming Course, Longfellow’s Whale Tales, Infant/Facility-Aquatic Program, Basic Water Safety, Emergency Water Safety, and Safety Training for Swim Coaches. Course does not satisfy the physical education requirement and requires a minimum of 52 hours to receive certification.

Prerequisite: 1) Be at least 16 years old at the start of the Instructor course (driver’s license or birth certificate as proof), 2) Pass the Instructor candidacy training certification course for American Red Cross Health and Safety instructor authorization, and 3) Successfully pass the course written and skills tests.

*The Written Comprehension Test is based on information in the American Red Cross Basic Water Safety program (minimum score 80% to meet ARC standards).

*Skills are based upon a proficiency level equal to the American Red Cross Water Safety Instructor and Level V learn-to-swim program.

PED 155—CPR
1 cr. (Fall/Spring)
Methods of dealing with respiratory emergencies and cardiac arrest for the adult, child, and infant are covered in this half-semester course. American Red Cross CPR certification for the Professional Rescuer is granted upon successful completion of requirements.

PED 156—Infant and Child First Aid and CPR
1 cr. (Fall/Spring)
This First Aid and CPR course presents principles of safety awareness and accident-prevention education with practice in the techniques of first aid care for infants and children. American Red Cross certification is granted upon successful completion of requirements.

PED 201—Introduction to Bio-Mechanics of Human Movement
2 lec., 2 lab., 3 cr. (Fall)
A qualitative approach to the principles and components of movement and their application to various forms of movement; daily living, work tasks, sport skills and dance are explored. Emphasis is placed on gaining an understanding of movement as a mechanism, the forces and human variables that shape it, and the principles to be applied in refining movement behavior.

Pre-requisite: BIO 111

PED 202—Basic Exercise Physiology
2 lec., 2 lab., 3 cr. (Fall)
A study of the functions of the human body during physical activity. Topics include the physiological responses of the body during exercise in relation to the percentage of body fat, cardiac output, energy expenditure, temperature regulation, gender, and physical working capacity. Laboratory work provides practical experience in assessing human performance.

Pre-requisite: BIO 112

PED 203—Physical Fitness and Exercise Prescription
3 cr. (Spring)
Designed for students interested in the importance of physical fitness in today’s mechanical society. This course focuses on the components of physical fitness; the role of fitness in disease prevention; factors that affect individual physical fitness and training levels; and how to evaluate and develop a fitness program according to individual goals, needs, and objectives.

Prerequisite: PED 202 Corequisite: PED 204

PED 204—Lab/Field Fitness Assessment
1 cr. (Spring)
Assessment and evaluation of different areas of physical fitness through various measurement techniques used in the field of exercise science for testing and exercise programming. Students will be active participants in this course. A practical exam will be given at the end of this course.

Con-requisite: PED 203 and PED 204 MUST be taken together.

Physical Education/Exercise Studies/Health

PED 145—Group Fitness Instructor
1 lec., 2 lab., 2 cr. (Fall)
This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in group fitness instruction. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the instructor-participant relationship, the principles of motivation to encourage adherence to the program, setting effective instructor-to-participant communication techniques, methods for enhancing group leadership, and the group fitness instructor’s professional role.

PED 150—First Aid and Safety
1 lec., 2 lab., 2 cr. (Fall/Spring)
This responding to emergencies course presents principles of safety awareness and accident-prevention education, as well as practice in the techniques of first aid care for most common accident and sudden illness situations. American Red Cross certification for responding to emergencies and Adult CPR is granted upon successful completion of requirements.

PED 151—Lifeguard Training
1 cr.
This course meets twice a week for eight weeks. Trains individuals who have an interest in life-saving skills. Includes the additional skills and knowledge required to develop effective lifeguard systems at swimming pools and waterfronts. Certification will include Lifeguard Training and AED upon successful completion. Satisfies Physical Education requirement.

Prerequisite: Must be at least 15 years old, swim 300 yards continuously using the freestyle, breaststroke for at least 100 yards each. Must submerge to minimum depth of 7 feet, retrieve a 10 pound object and return using legs only.

PED 152—Water Safety Instructor
1 cr. (Spring/Summer)
Covers the skills necessary to teach the following courses: Progressive Swimming Course, Longfellow’s Whale Tales, Infant/Facility-Aquatic Program, Basic Water Safety, Emergency Water Safety, and Safety Training for Swim Coaches. Course does not satisfy the physical education requirement and requires a minimum of 52 hours to receive certification.

Prerequisite: 1) Be at least 16 years old at the start of the Instructor course (driver’s license or birth certificate as proof), 2) Pass the Instructor candidacy training certification course for American Red Cross Health and Safety instructor authorization, and 3) Successfully pass the course written and skills tests.

Emphasis is placed on gaining an understanding of movement as a mechanism, the forces and human variables that shape it, and the principles to be applied in refining movement behavior.

Pre-requisite: BIO 111

PED 202—Basic Exercise Physiology
2 lec., 2 lab., 3 cr. (Fall/Spring)
A study of the functions of the human body during physical activity. Topics include the physiological responses of the body during exercise in relation to the percentage of body fat, cardiac output, energy expenditure, temperature regulation, gender, and physical working capacity. Laboratory work provides practical experience in assessing human performance.

Pre-requisite: BIO 112

PED 203—Physical Fitness and Exercise Prescription
3 cr. (Spring)
Designed for students interested in the importance of physical fitness in today’s mechanical society. This course focuses on the components of physical fitness; the role of fitness in disease prevention; factors that affect individual physical fitness and training levels; and how to evaluate and develop a fitness program according to individual goals, needs, and objectives.

Prerequisite: PED 202 Corequisite: PED 204

PED 204—Lab/Field Fitness Assessment
1 cr. (Spring)
Assessment and evaluation of different areas of physical fitness through various measurement techniques used in the field of exercise science for testing and exercise programming. Students will be active participants in this course. A practical exam will be given at the end of this course.

Con-requisite: PED 203 and PED 204 MUST be taken together.
PHYSICAL EDUCATION SKILLS: 1 credit each for a full semester, unless otherwise noted. The skill courses are designed for those majoring in Exercise Studies, or the suggested study area of Physical Education in the Liberal Arts degrees. However, if a student outside these areas wishes to enroll in these courses to fulfill the physical education requirement they may do so only with Department Chair approval.

In addition, students must choose an additional 1 credit from a wide variety activities offered in the following areas: individual sports, team sports, aquatics, gymnastics, dance and physical fitness. These courses fulfill the physical education requirement. They are graded A through F, or students may choose the option of taking them as pass or fail. Upon choosing this option, students will have two weeks to decide whether they want to receive a pass/fail or a letter grade for their physical education course. Requirements for both grading procedures will be the same. Students should not postpone taking these courses. To do so may jeopardize their timely graduation. (See course listing below)*

Repeating Physical Education Courses
A student may take a maximum of one credit of any course in physical education when fulfilling the two-credit graduation requirement. The "Concepts of Physical Wellness" course can only be taken once. A student may repeat a course to change a grade.

Physical Education Credit for Varsity Participation
A student may earn 1/2 credit in PES physical education up to a maximum of 1 credit, when he/she participates in a varsity sport. All varsity sports courses must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit. Transfer students who want to receive physical education credit for varsity athletic participation must first fill out an athletic participation transfer form. Forms and information may be received from the Veterans’ representative at 341-4071. Transfer students who want to receive physical education credit for varsity athletic participation must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit.

Physical Education Credit for Varsity Participation Note: Matriculated students who graduated from U.S. armed forces may qualify for two (2) physical education credits, up to a maximum of 1 credit, when he/she participates in a varsity sport. All varsity sports courses must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit. Transfer students who want to receive physical education credit for varsity athletic participation must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit.

Students who have completed basic training in the U.S. armed forces may qualify for two (2) physical education credits, up to a maximum of 1 credit, when he/she participates in a varsity sport. All varsity sports courses must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit. Transfer students who want to receive physical education credit for varsity athletic participation must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit.

Repeating Physical Education Courses
A student may take a maximum of one credit of any course in physical education when fulfilling the two-credit graduation requirement. The "Concepts of Physical Wellness" course can only be taken once. A student may repeat a course to change a grade.

Physical Education Credit for Varsity Participation
A student may earn 1/2 credit in PES physical education, up to a maximum of 1 credit, when he/she participates in a varsity sport. All varsity sports courses must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit. Transfer students who want to receive physical education credit for varsity athletic participation must first fill out an athletic participation transfer form. Forms and information may be received from the Veterans’ representative at 341-4071. Transfer students who want to receive physical education credit for varsity athletic participation must complete the season in order to receive credit. Transfer students who want to receive physical education credit for varsity athletic participation must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation to receive credit.

Note: 1 credit each, 1/2 semester each
All students are required to take the 1 credit PES 100—Concepts of Physical Wellness course in order to graduate with an A.A., A.S., or A.A.S. degree from Orange County Community College. Students majoring in Exercise Studies are not required to take PES 100. The 1 credit graduation requirement for all A.A., A.S. and A.A.S. degrees offered at Orange County Community College with the exception of an A.S. in Exercise Studies.

PHYSICAL EDUCATION SKILLS:

1 credit each for a full semester, unless otherwise noted. The skill courses are designed for those majoring in Exercise Studies, or the suggested study area of Physical Education in the Liberal Arts degrees. However, if a student outside these areas wishes to enroll in these courses to fulfill the physical education requirement they can do so only with Department Chair approval. Some of these courses are graded A through F, the grades are based on skill and knowledge level of the material presented. Written tests are required. For physical education courses graded either A through F or graded on a pass/fail basis, see PES—Physical Education.

Physical Sciences

(Science, Engineering & Architecture Dept.)
(See also: Astronomy, Chemistry, Geology)

PSC 125—Physical Science: The Physical World
2 lect., 2 lab., 3 cr.
Topics are drawn from the fields of Physics, Chemistry, Geology, Meteorology and Astronomy with emphasis on how the scientific method guides the various disciplines. Laboratory work enhances and develops the lecture material. (GE 2)
Prerequisite: tested into MAT 101 or completed Developmental Algebra MAT 020

PSC 140—Physical Science: The Environment
2 lect., 2 lab., 3 cr.
A study of the interaction between the physical environment and man. Concepts in natural sciences are introduced as a basis for discussion of current environmental issues. Local environmental issues are discussed. (GE 2)
Prerequisite: tested into MAT 101 or completed Developmental Algebra MAT 020
Physical Therapist Assistant

Physical Therapist Assistant

(Physical Therapist Assistant Department)

NOTE: Students must comply with all policies, procedures, and regulations of the clinical education site. Failure to do so will result in immediate removal from the clinical education site and automatic failure of the course.

In this second course in the sequence of four procedures courses, the basic principles of massage and application of modalities are emphasized, as well as practice of specific skills including massage, hot and cold packs, paraffin, whirlpool, contrast baths, ultrasound, diathermy, electrical stimulation, ultraviolet, infrared and intermittent compression. Principles and procedures related to the Hubbard Tank and therapeutic pool are also presented. [R-1]

Corequisite: BIO 111, PTA 103, PTA 105

PTA 103—Introduction to Physical Therapy

3 lect., 2 cr. (Fall)

An introductory course to Physical Therapy which covers the history, scope of practice, role of the PT and PTA, preferred practice relationship between the PT and PTA, role of other health care providers, communication, and legal principles, structure and organization of health care systems, and cultural diversity. [R-1]

Corequisite: ENG 101, BIO 111, PTA 101, PTA 105

PTA 104—Kinesiology

3 lect., 3 lab., 4 cr. (Spring)

A study of basic human motion, emphasizing nervous, muscle and skeletal systems is presented. Analysis of normal and pathological gait patterns is included. [R-1]

Prerequisite: BIO 111, PTA 101, PTA 103, PTA 105

Corequisite: BIO 112, PTA 102

PTA 105—Medical Conditions for the Physical Therapist Assistant

3 lect., 3 cr. (Fall)

This course serves to describe specific systems pathology across the lifespan, including medical/surgical management, as they relate to the field of Physical Therapy. [R-1]

Corequisite: ENG 101, BIO 111, PTA 101, PTA 103

PTA 201—Physical Therapist Assisting 3

3 lect., 3 lab., 4 cr. (Fall)

This course is to be taken in the third course in the sequence of four procedures courses, the principles and techniques of therapeutic exercise are studied. Students study specific neurological, orthopedic, medical, and surgical conditions, and their PT management. [R-1]

Corequisite: ENG 111, PTA 101, PTA 103, PTA 105

PTA 202—Physical Therapist Assisting 4

3 lect., 3 lab., 4 cr. (Spring)

This course is the final course in a series of four procedures courses in which the students defines, discusses, and demonstrates more advanced Physical Therapy Treatment techniques. Topics include: joint

Physical Therapist Assistant

Physical Therapist Assistant

(Physical Therapist Assistant Department)

NOTE: Students must comply with all policies, procedures, and regulations of the clinical education site. Failure to do so will result in immediate removal from the clinical education site and automatic failure of the course.

In this second course in the sequence of four procedures courses, the basic principles of massage and application of modalities are emphasized, as well as practice of specific skills including massage, hot and cold packs, paraffin, whirlpool, contrast baths, ultrasound, diathermy, electrical stimulation, ultraviolet, infrared and intermittent compression. Principles and procedures related to the Hubbard Tank and therapeutic pool are also presented. [R-1]

Prerequisite: BIO 111, PTA 103, PTA 105

Corequisite: BIO 112, PTA 104

PTA 103—Introduction to Physical Therapy

2 lect., 2 cr. (Fall)

An introductory course to Physical Therapy which covers the history, scope of practice, role of the PT and PTA, preferred practice relationship between the PT and PTA, role of other health care providers, communication, and legal principles, structure and organization of health care systems, and cultural diversity. [R-1]

Corequisite: ENG 101, BIO 111, PTA 101, PTA 105

PTA 104—Kinesiology

3 lect., 3 lab., 4 cr. (Spring)

A study of basic human motion, emphasizing nervous, muscle and skeletal systems is presented. Analysis of normal and pathological gait patterns is included. [R-1]

Prerequisite: BIO 111, PTA 101, PTA 103, PTA 105

Corequisite: BIO 112, PTA 102

PTA 105—Medical Conditions for the Physical Therapist Assistant

3 lect., 3 cr. (Fall)

This course serves to describe specific systems pathology across the lifespan, including medical/surgical management, as they relate to the field of Physical Therapy. [R-1]

Corequisite: ENG 101, BIO 111, PTA 101, PTA 103

PTA 201—Physical Therapist Assisting 3

3 lect., 3 lab., 4 cr. (Fall)

In this third course in the sequence of four procedures courses, the principles and techniques of therapeutic exercise are studied. Students study specific neurological, orthopedic, medical, and surgical conditions, and their PT management. [R-1]

Prerequisite: BIO 111, PTA 101, PTA 103, PTA 105

Corequisite: PTA 104

PTA 202—Physical Therapist Assisting 4

3 lect., 3 lab., 4 cr. (Spring)

This course is the final course in a series of four procedures courses in which the students defines, discusses, and demonstrates more advanced Physical Therapy Treatment techniques. Topics include: joint
which count toward a portion of this course [R-1]
Prerequisite: PTA 201, PTA 203, PTA 207
Corequisite: PTA 202, PTA 206

PTA 220—Clinical Education 3
Students spend six weeks full time working in a clinical facility under the direction and supervision of a physical therapist. This externship provides a comprehensive clinical experience which allows the student to apply all skills acquired to date. The actual hours will be determined by the facility and may include evening hours. [R-1]
Prerequisite: Completion of course series PTA 101 through PTA 208

PTA 220—Clinical Education 3
Students spend six weeks full time working in a clinical facility under the direction and supervision of a physical therapist. This externship provides a comprehensive clinical experience which allows the student to apply all skills acquired to date. The actual hours will be determined by the facility and may include evening hours. [R-1]
Prerequisite: Completion of course series PTA 101 through PTA 208

PTA 220—Clinical Education 3
Students spend six weeks full time working in a clinical facility under the direction and supervision of a physical therapist. This externship provides a comprehensive clinical experience which allows the student to apply all skills acquired to date. The actual hours will be determined by the facility and may include evening hours. [R-1]
Prerequisite: Completion of course series PTA 101 through PTA 208

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)

PTA 207—Test and Measurement for the PTA
16 lab., 3 cr. (Spring)
Physics

Physics (Science, Engineering & Architecture Dept.)

Note: The keeping of a laboratory notebook and the writing of formal laboratory reports are required.

PHY 101—General Physics 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer I)
This course offers the concepts of classical physics from introductory mechanics through thermodynamics. Topics include: kinematics, Newton's Laws, particle dynamics, fluids and statics and dynamics, heat and thermodynamics. (GE 2)
Prerequisite: MAT 102 or math placement test into MAT 121

PHY 102—General Physics 2
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
A continuation of PHY 101. A treatment of wave motion, harmonic motion and sound, electricity and magnetism, optics, relativity, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 101
Corequisite: MAT 206

PHY 103—Physics for Science & Engineering 1
3 lect., 3 lab., 4 cr. (Fall)
The science of measurement; vector analysis, rectilinear motion, Newton's laws and their application to particle dynamics, principles of mechanics and kinetic and dynamic momentum; conservation of energy, linear and angular momentum; introduction to relativistic kinematics. (GE 2)
Prerequisite: completed or concurrent enrollment in MAT 205 is required

PHY 104—Physics for Science & Engineering 2
3 lect., 3 lab., 4 cr. (Spring)
A continuation of PHY 103. Topics include: gravitational theory, atomic physics of Bohr atom; fluid statics and hydrodynamics; oscillations and simple harmonic motion; traveling waves; vibrating systems and sound; temperature and heat measurement; heat transfer; kinetic theory of gases; first and second law of thermodynamics; introduction to nuclear structure. (GE 2)
Prerequisite: PHY 103, completed or concurrent enrollment in MAT 205 is required. A minimum grade of C- in PHY 103 is required

PHY 105—General Physics 1 with Calculus
3 lect., 3 lab., 4 cr. (Fall)
A calculus-based course in general physics. The course covers the concepts of classical physics from introductory mechanics through thermodynamics. Topics include: kinematics, particle dynamics, statics, fluid statics and dynamics, thermodynamics. (GE 2)
Prerequisite: MAT 205

PHY 106—General Physics 2 with Calculus
3 lect., 3 lab., 4 cr. (Spring)
A continuation of PHY 105. A calculus-based treatment of wave motion, electricity and magnetism, optics, relativity, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 105
Corequisite: MAT 206

PHY 108—Acoustics
2 lect., 2 lab., 3 cr. (Fall)
An introduction to the fundamentals of sound. Topics include: elementary principles of wave motion; analysis of musical sounds from varied sources including voices, instruments, oscillators, synthesizers, and recording media. Emphasis is placed on those factors which permit performer and listener to understand and control musical sounds. (GE 2)
Prerequisite: PHY 101 or by permission of instructor

PHY 111—Applied Physics 1
2 lect., 2 lab., 3 cr. (Fall)
An introduction to the fundamentals of mechanics, fluids, and heat. Topics include statics, kinematics, dynamics, energy, heat measurement gas laws, pressure, and hydraulics. (GE 2)
Prerequisite: completed or concurrent enrollment in MAT 102 or higher is required

PHY 112—Applied Physics 2
2 lect., 2 lab., 3 cr. (Spring)
Topics include an introduction to rotation, vibrators, harmonic motion, wave motion, electricity and magnetism, induced EMF, optics, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 101

PHY 113—Physics for Science & Engineering 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
The science of measurement; vector analysis, rectilinear motion, Newton's laws and their application to particle dynamics, classical mechanics, fluids and heat. Topics include statics, kinematics, dynamics, energy, heat measurement gas laws, pressure, and hydraulics. (GE 2)
Prerequisite: completed or concurrent enrollment in MAT 102 or higher is required

PHY 114—Physics for Science & Engineering 2
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
A continuation of PHY 113. A treatment of wave motion, harmonic motion and sound, electricity and magnetism, optics, relativity, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 101

PHY 116—Acoustics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer II)
An introduction to the fundamentals of sound. Topics include: elementary principles of wave motion; analysis of musical sounds from varied sources including voices, instruments, oscillators, synthesizers, and recording media. Emphasis is placed on those factors which permit performer and listener to understand and control musical sounds. (GE 2)
Prerequisite: PHY 101 or by permission of instructor

PHY 117—Applied Physics 1
2 lect., 2 lab., 3 cr. (Fall)
An introduction to the fundamentals of mechanics, fluids, and heat. Topics include statics, kinematics, dynamics, energy, heat measurement gas laws, pressure, and hydraulics. (GE 2)
Prerequisite: completed or concurrent enrollment in MAT 102 or higher is required

PHY 118—Applied Physics 2
2 lect., 2 lab., 3 cr. (Spring)
Topics include an introduction to rotation, vibrators, harmonic motion, wave motion, electricity and magnetism, induced EMF, optics, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 117

PHY 201—Physics for Science & Engineering 3
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
Study of the development of physics since 1900. C- in PHY 103 is required.

PHY 203—Physics for Science & Engineering 3
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
Study of the development of physics since 1900. C- in PHY 103 is required.

PHY 204—Modern Physics
3 lect., 3 lab., 4 cr. (Spring)
Study of the development of physics since 1900. Study of waves in light and matter. Includes comparison of Galileo's and Einstein's relativity, relativistic kinematics and dynamics; wave-particle duality, black body radiation and Planck's constant; introduction to quantum theory and wave mechanics; introduction to molecular and solid state physics; atomic structure and the periodic table; nuclear reactions and energy. Elementary particles and the Standard Model; applications to cosmology. (GE 2)
Prerequisite: MAT 205

PHY 205—General Physics 1 with Calculus
3 lect., 3 lab., 4 cr. (Fall)
A calculus-based course in general physics. The course covers the concepts of classical physics from introductory mechanics through thermodynamics. Topics include: kinematics, particle dynamics, statics, fluid statics and dynamics, thermodynamics. (GE 2)
Prerequisite: MAT 205

PHY 206—General Physics 2 with Calculus
3 lect., 3 lab., 4 cr. (Spring)
A continuation of PHY 205. A calculus-based treatment of wave motion, electricity and magnetism, optics, relativity, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 205
Corequisite: MAT 206

PHY 208—Acoustics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer II)
An introduction to the fundamentals of sound. Topics include: elementary principles of wave motion; analysis of musical sounds from varied sources including voices, instruments, oscillators, synthesizers, and recording media. Emphasis is placed on those factors which permit performer and listener to understand and control musical sounds. (GE 2)
Prerequisite: PHY 101 or by permission of instructor

PHY 211—Physics for Science & Engineering 1
2 lect., 2 lab., 3 cr. (Fall)
A calculus-based course in general physics. The course covers the concepts of classical physics from introductory mechanics through thermodynamics. Topics include: kinematics, particle dynamics, statics, fluid statics and dynamics, thermodynamics. (GE 2)
Prerequisite: MAT 205

PHY 212—Physics for Science & Engineering 2
2 lect., 2 lab., 3 cr. (Spring)
Topics include an introduction to rotation, vibrators, harmonic motion, wave motion, electricity and magnetism, induced EMF, optics, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: PHY 101

PHY 213—Physics for Science & Engineering 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
The science of measurement; vector analysis, rectilinear motion, Newton's laws and their application to particle dynamics, classical mechanics, fluids and heat. Topics include statics, kinematics, dynamics, energy, heat measurement gas laws, pressure, and hydraulics. (GE 2)
Prerequisite: completed or concurrent enrollment in MAT 205 is required

PHY 214—Physics for Science & Engineering 2
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
A continuation of PHY 213. Topics include: gravitational theory, atomic physics of Bohr atom; fluid statics and hydrodynamics; oscillations and simple harmonic motion; traveling waves; vibrating systems and sound; temperature and heat measurement, heat transfer; kinetic theory of gases; first and second law of thermodynamics; introduction to nuclear structure. (GE 2)
Prerequisite: PHY 103, completed or concurrent enrollment in MAT 205 is required. A minimum grade of C in PHY 103 is required

PHY 215—Physics for Science & Engineering 2
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
A continuation of PHY 214. Topics include: gravitational theory, atomic physics of Bohr atom; fluid statics and hydrodynamics; oscillations and simple harmonic motion; traveling waves; vibrating systems and sound; temperature and heat measurement, heat transfer; kinetic theory of gases; first and second law of thermodynamics; introduction to nuclear structure. (GE 2)
Prerequisite: PHY 103, completed or concurrent enrollment in MAT 205 is required. A minimum grade of C in PHY 103 is required

PHY 216—General Physics 1 with Calculus
3 lect., 3 lab., 4 cr. (Fall)
A calculus-based course in general physics. The course covers the concepts of classical physics from introductory mechanics through thermodynamics. Topics include: kinematics, particle dynamics, statics, fluid statics and dynamics, thermodynamics. (GE 2)
Prerequisite: MAT 205

PHY 217—Physics for Science & Engineering 3
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
Study of the development of physics since 1900. Study of waves in light and matter. Includes comparison of Galileo's and Einstein's relativity, relativistic kinematics and dynamics; wave-particle duality, black body radiation and Planck's constant; introduction to quantum theory and wave mechanics; introduction to molecular and solid state physics; atomic structure and the periodic table; nuclear reactions and energy. Elementary particles and the Standard Model; applications to cosmology. (GE 2)
Prerequisite: PHY 102 or PHY 106 or PHY 203
Politic Science - Psychology

POL 101—Introduction to Political Science
3 cr. (Fall/Spring)
The course introduces basic concepts used by political scientists such as power, authority, the state, and analyzes major political ideologies of the contemporary world. General types of political systems and components of political systems are explained and compared. Major policy issues, especially those with global significance, are covered in connection with international politics. Fulfills category D (GE 3)

POL 102—U.S. Government—State and Local
3 cr. (Fall/Spring)
The changing role of state and local governments in America is examined. An emphasis is placed upon how they are structured, and the problems they face. Part of the course is devoted to the study of cities and metropolitan areas. Fulfills category A (GE 3)

POL 103—U.S. Government—National
3 cr. (Fall/Spring)
A survey of the U.S. political system at the national level including treatment of the historical background, organization of governments, political parties, and current public issues. Fulfills category A (GE 4)

POL 221—International Relations
3 cr. (Fall)
A study of the principles used to describe the political relations among nations. Topics include the growth of nationalism, imperialism, decolonization, the balance of power concept, the role of international organizations such as the U.N. Fulfills category D (GE 3)

POL 220—Comparative Governments
3 cr. (Spring)
An introduction to political processes in nations other than the United States. The course uses the comparative method to analyze such topics as political culture, developed vs. developing nations, the organization of governments, political parties, and the operation of interest groups. Fulfills category D (GE 3)

Psychology

PSY 100—Psychology of Adjustment
3 cr. (Fall/Spring, Summer)
An introductory psychology course, with emphasis on understanding the elements of a healthy personality. Topics include dynamics of adjustment, the problems that the individual faces in adjusting to family, school, peers and job, and the techniques of readjustment such as counseling and psychotherapy. Fulfills category B

PSY 101—General Psychology 1
3 cr. (Fall, Spring, Summer)
The foundations for a scientific understanding of human behavior are examined. Topics include scientific methods, statistical analysis, physiological aspects of behavior, growth and development, conditioning, memory, perception, motivation and emotion. Fulfills category B (GE 3)

PSY 102—General Psychology 2
3 cr. (Fall/Spring/Summer)
This course is a continuation of PSY 101. Topics include personality, consciousness, cognition, intelligence, tests and measurement, psychological disorders, therapies, social psychology and applied psychology. Fulfills category B Prerequisite: PSY 101

PSY 220—Developmental Psychology
3 cr. (Fall/Spring/Summer)
A study of the stages of human development: prenatal, infancy, childhood, adolescence, adulthood, and old age which influence psychological growth and change. Fulfills category B Prerequisite: PSY 101

PSY 221—Child Psychology
3 cr. (Fall/Spring/Summer)
A study of human development and behavior from conception to adolescence. Subjects considered are the interdependence of the emotional, intellectual, social, and physical growth of the child. Fulfills category B Prerequisite: PSY 101

PSY 222—Psychology of Adolescence
3 cr. (Fall/Spring)
A study of growth and adjustment problems of young people and their struggle to attain maturity. Topics include health, personality, home and family, social status, sex and heteronoural relationships, and school problems. This course is designed for secondary education majors and adults working with adolescents. Fulfills category B Prerequisite: PSY 101

PSY 223—Psychology of Adulthood
3 cr. (Spring)
An introduction to political processes in nations other than the United States. The course uses the comparative method to analyze such topics as political culture, developed vs. developing nations, the organization of governments, political parties, and the operation of interest groups. Fulfills category D (GE 3)

PSY 103—U.S. Government—National
3 cr. (Fall/Spring)
A survey of the U.S. political system at the national level including treatment of the historical background, organization of governments, political parties, and current public issues. Fulfills category A (GE 3)

PSY 104—U.S. Government—National
3 cr. (Fall/Spring)
The changing role of state and local governments in America is examined. An emphasis is placed upon how they are structured, and the problems they face. Part of the course is devoted to the study of cities and metropolitan areas. Fulfills category A (GE 3)

PSY 105—U.S. Government—National
3 cr. (Fall/Spring)
A survey of the U.S. political system at the national level including treatment of the historical background, central concepts and revisions of the constitutional framework, examination of the presidency, congress, federal bureaucracy, judicial structure and process, political parties, interest groups, the media, and current public issues. Fulfills category A (GE 4)

PSY 220—Developmental Psychology
3 cr. (Fall/Spring/Summer)
A study of the stages of human development: prenatal, infancy, childhood, adolescence, adulthood, and old age which influence psychological growth and change. Fulfills category B Prerequisite: PSY 101

PSY 221—International Relations
3 cr. (Fall/Spring/Summer)
A study of the stages of human development: prenatal, infancy, childhood, adolescence, adulthood, and old age which influence psychological growth and change. Fulfills category B Prerequisite: PSY 101

PSY 222—Child Psychology
3 cr. (Fall/Spring/Summer)
A study of human development and behavior from conception to adolescence. Subjects considered are the interdependence of the emotional, intellectual, social, and physical growth of the child. Fulfills category B Prerequisite: PSY 101

PSY 223—Psychology of Adolescence
3 cr. (Fall/Spring)
A study of growth and adjustment problems of young people and their struggle to attain maturity. Topics include health, personality, home and family, social status, sex and heteronoural relationships, and school problems. This course is designed for secondary education majors and adults working with adolescents. Fulfills category B Prerequisite: PSY 101
PSY 223—Psychology of Adulthood and Aging
3 cr. (Spring)
This course examines the major adjustments faced by the individual from young adulthood through old age. Theories and research evidence concerning developmental changes are emphasized. Attention is given to clinical aspects of old age.
Prerequisite: PSY 101 with a grade of "C" or higher

PSY 230—Abnormal Psychology
3 cr. (Fall/Spring/Summer)
This course involves the study of past and present understandings of psychological abnormality. Contemporary psychological thinking relative to mental health and individual functioning reveals the range of forms of psychological abnormality. The diagnostic system that is utilized by mental health professionals in this country is examined. Social contexts and consequences of the diagnosis of psychological abnormality are identified.
Prerequisite: completion of six college credits in psychology

PSY 240—Social Psychology
3 cr. (Fall, Spring)
A study of group behavior and the influence of groups on the perception, thinking and behavior of the individual. Topics include: socialization, conflict, attitudes, prejudice and leadership. Fulfills category B.
Prerequisite: PSY 101

PSY 250—Human Sexuality
3 cr. (Spring)
The sexual aspects of human activity are studied through the disciplines of sociology, psychology, biology, and philosophy. Historical, cross-cultural, and current research form the basis for the development of an individual perspective on human sexuality.
Prerequisite: PSY 101 or SOC 101

RAD 101—Principles of Radiographic Exposure 1
3 lect., 2 lab., 4 cr. (Fall)
Introduction to the radiographic environment is presented. Evaluating and viewing radiographs, controlling the quantity and quality of the x-ray beam, controlling scatter, film, screens and grids are presented.
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 105, RAD 107

RAD 102—Principles of Radiographic Exposure 2
3 lect., 2 lab., 4 cr. (Spring)
Advanced concepts of radiographic technique are covered. Physical characteristics of x-ray film and film processing, geometry of the radiographic image, technique problems and principles of digital radiography are included. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 104, RAD 106, RAD 111, RAD 108

RAD 103—Introduction to Radiography
1 cr. (Fall)
The course provides an overview of radiography and its role in health care delivery. Students are oriented to the academic and administrative structure, key departments, and personnel, responsibilities as students, and to the profession as a whole. Time management learning styles, test-taking strategies, study skills, and other skills necessary to "survive" the freshman year are discussed. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 105, RAD 107

RAD 104—Radiation Protection
1 cr. (Spring)
The course presents general methods in radiation protection when exposing patients to ionizing radiation. Skills and knowledge critical to the safety of the patient and radiographer are emphasized. Demonstration of such is required of all students. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 103, RAD 105, RAD 107

PSY 223—Psychology of Adulthood and Aging
3 cr. (Spring)
This course examines the major adjustments faced by the individual from young adulthood through old age. Theories and research evidence concerning developmental changes are emphasized. Attention is given to clinical aspects of old age.
Prerequisite: PSY 101 with a grade of "C" or higher

PSY 230—Abnormal Psychology
3 cr. (Fall/Spring/Summer)
This course involves the study of past and present understandings of psychological abnormality. Contemporary psychological thinking relative to mental health and individual functioning reveals the range of forms of psychological abnormality. The diagnostic system that is utilized by mental health professionals in this country is examined. Social contexts and consequences of the diagnosis of psychological abnormality are identified.
Prerequisite: completion of six college credits in psychology

RAD 101—Principles of Radiographic Exposure 1
3 lect., 2 lab., 4 cr. (Fall)
Introduction to the radiographic environment is presented. Evaluating and viewing radiographs, controlling the quantity and quality of the x-ray beam, controlling scatter, film, screens and grids are presented.
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 105, RAD 107

RAD 102—Principles of Radiographic Exposure 2
3 lect., 2 lab., 4 cr. (Spring)
Advanced concepts of radiographic technique are covered. Physical characteristics of x-ray film and film processing, geometry of the radiographic image, technique problems and principles of digital radiography are included. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 104, RAD 106, RAD 111, RAD 108

RAD 103—Introduction to Radiography
1 cr. (Fall)
The course provides an overview of radiography and its role in health care delivery. Students are oriented to the academic and administrative structure, key departments, and personnel, responsibilities as students, and to the profession as a whole. Time management learning styles, test-taking strategies, study skills, and other skills necessary to "survive" the freshman year are discussed. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 105, RAD 107

RAD 104—Radiation Protection
1 cr. (Spring)
The course presents general methods in radiation protection when exposing patients to ionizing radiation. Skills and knowledge critical to the safety of the patient and radiographer are emphasized. Demonstration of such is required of all students. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 103, RAD 105, RAD 107
RAD 105—Radiographic Positioning 1
3 lect., 2 lab., 4 cr (Fall)
Basic concepts of positioning. Nomenclature of positioning, instruction and practice in positioning of extremities, shoulder girdle, hip joint, pelvic girdle, chest and abdomen. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 103, RAD 107

RAD 106—Radiographic Positioning 2
3 lect., 2 lab., 4 cr (Spring)
Radiographic lines and points of the skull; instruction and practice in positioning of cranial, facial bones, mandible, nasal bones, paranasal sinuses, spine, digestive, urinary systems and mammography. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 104, RAD 111, RAD 108

RAD 107—Methods of Patient Care 1
2 lect., 2 lab., 2 cr (Fall)
An introduction to the care of patients in the clinical setting. This course includes: patient assessment, history taking; body mechanics, patient transfer techniques, medical emergencies, vital signs, infection control, non-aseptic techniques, preparation of medications, injection, patient interactions, and development of the professional self. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 103, RAD 105

RAD 108—Methods of Patient Care 2
1 lect., 1 lab., 1 cr (Spring)
This course is a continuation of RAD 107 Methods of Patient Care 1. This course includes: medical charting, venipuncture, assisting in the administration of contrast materials, sterile gowning, gloving, patient interaction skills, human diversity, and an overview of medical ethics and law. In addition, patient preparation and placement of EKG leads along with a basic EKG interpretation. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 104, RAD 107
Corequisite: RAD 102, RAD 104, RAD 106, RAD 111

RAD 111—Clinical Practicum 1
1 lect., 15 lab., 1 cr. (Spring)
This course gives the student an opportunity to apply those concepts learned in lecture and lab in the clinical setting. Students have a chance to participate in general barium enema, upper gastrointestinal, intravenous pyelogram, mobile, and trauma radiographic procedures. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 104, RAD 106, RAD 108

RAD 112—Clinical Practicum 2
1 lect., 39 lab., 2 cr. (Summer)
A continuation of the Clinical Practicum 1 plus operating room. [R-1]
Prerequisite: RAD 302, RAD 104, RAD 106, RAD 111, RAD 108

RAD 209—Radiographic Physics
4 cr (Fall)
The course focuses on the principles of x-ray generation, properties of x-rays, x-ray tube, and circuitry. In addition, advanced concepts of image production, are covered. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 213, RAD 217, RAD 221

RAD 210—Quality Assurance
1 lect., 1 lab., 1 cr. (Spring)
The course provides an introduction to the evaluation of radiographic systems to assure consistency in the production of quality images. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 212, RAD 209
Corequisite: RAD 112, RAD 216, RAD 214, RAD 219

RAD 213—Clinical Practicum 3
1 lect., 23 lab., 1.5 cr (Fall)
A continuation of Clinical Practicum 2 plus Computed Tomography and special radiographic procedures. [R-1]
Prerequisite: RAD 217
Corequisite: RAD 217, RAD 221, RAD 209

RAD 214—Clinical Practicum 4
1 lect., 23 lab., 1.5 cr. (Spring)
A continuation of Clinical Practicum 3. [R-1]
Prerequisite: RAD 214, RAD 112, RAD 217, RAD 221, RAD 209
Corequisite: RAD 209, RAD 112, RAD 216, RAD 217, RAD 219

RAD 215—Clinical Practicum 5
1 lect., 39 lab., 2 cr. (Summer)
A continuation of Clinical Practicum 5. [R-1]
Prerequisite: RAD 210, RAD 112, RAD 216, RAD 214, RAD 219

RAD 216—Advanced Imaging Modalities
3 cr. (Spring)
The course deals with different modes of imaging the human body. Special attention is given to fluoroscopy, tomography, mammography, computed tomography and magnetic resonance imaging. In addition, this course introduces students to sectional human anatomy in the transverse, sagittal and coronal planes. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 209, RAD 112, RAD 216, RAD 214, RAD 219

RAD 217—Radiographic Positioning 3
2 cr (Fall)
Introduction to contrast studies including myelography, angiography, bronchography, hysterosalpingography, arthrography and sialography. In addition, advanced skull radiography is included. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 215, RAD 221, RAD 209

RAD 218—Advanced Imaging Modalities
3 cr. (Spring)
The course deals with different modes of imaging the human body. Special attention is given to fluoroscopy, tomography, mammography, computed tomography and magnetic resonance imaging. In addition, this course introduces students to sectional human anatomy in the transverse, sagittal and coronal planes. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 209, RAD 112, RAD 216, RAD 214, RAD 219

RAD 219—Advanced Imaging Modalities 2
3 cr (Fall)
The course focuses on the principles of x-ray generation, properties of x-rays, x-ray tube, and circuitry. In addition, advanced concepts of image production, are covered. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 213, RAD 217, RAD 221

RAD 220—Quality Assurance
1 lect., 1 lab., 1 cr. (Spring)
The course provides an introduction to the evaluation of radiographic systems to assure consistency in the production of quality images. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 112, RAD 216, RAD 214, RAD 219

RAD 221—Clinical Practicum 3
1 lect., 23 lab., 1.5 cr (Fall)
A continuation of Clinical Practicum 2 plus Computed Tomography and special radiographic procedures. [R-1]
Prerequisite: RAD 212, RAD 221, RAD 209

RAD 224—Clinical Practicum 4
1 lect., 39 lab., 2 cr. (Summer)
A continuation of Clinical Practicum 5. [R-1]
Prerequisite: RAD 216, RAD 221, RAD 219
Corequisite: RAD 210, RAD 112, RAD 216, RAD 217, RAD 219

RAD 225—Clinical Practicum 5
1 lect., 39 lab., 2 cr. (Summer)
A continuation of Clinical Practicum 5. [R-1]
Prerequisite: RAD 216, RAD 219
Corequisite: RAD 210, RAD 112, RAD 216, RAD 217, RAD 219

RAD 226—Advanced Imaging Modalities
3 cr. (Spring)
The course deals with different modes of imaging the human body. Special attention is given to fluoroscopy, tomography, mammography, computed tomography and magnetic resonance imaging. In addition, this course introduces students to sectional human anatomy in the transverse, sagittal and coronal planes. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 209, RAD 112, RAD 216, RAD 214, RAD 219

RAD 227—Radiographic Positioning 3
2 cr (Fall)
Introduction to contrast studies including myelography, angiography, bronchography, hysterosalpingography, arthrography and sialography. In addition, advanced skull radiography is included. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 213, RAD 221, RAD 209

Fall 2011 www.sunyorange.edu 227
Fall 2011 www.sunyorange.edu 227
RAD 215—Radiation Biology 2 cr. (Spring)
The biological effects of ionizing radiation and the basic mechanism of short-term and long-term effects of ionizing radiation are covered. [R-1] 
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209 
Corequisite: RAD 219, RAD 216, RAD 214, RAD 219

RAD 219—Medical Terminology 1 cr. (Spring)
This course is designed to provide terminology for those in the health professions including medical personnel, transcriptionists, librarians, insurance examiners and the layperson. 
Prerequisite: Placement in ENG 101

RAD 221—Radiographic Pathology 3 cr. (Fall)
The disease processes of the body systems and related radiographic techniques are emphasized. Cross-sectional anatomy is included. [R-1] 
Prerequisite: RAD 112 
Corequisite: RAD 223, RAD 217, RAD 209

Physical Examination
Physical examination is required upon admission to the program within a six-month period prior to the beginning of classes in radiologic technology and at the beginning of classes in radiologic technology of the second year. Students will not be allowed in the clinical area without a completed physical examination on file with the College.

Clinical
Radiologic technology clinical courses are competency based and combine classroom theory with practical application. Students complete a series of over 50 competency evaluations as they progress through the program. Completion of these evaluations are required for graduation.

A detailed description of the clinical education requirements, pregnancy policy and costs are available upon request from the program office.

In Clinical Practicums 4 and 5, a one week evening rotation is required.

Transportation Costs
Students must make their own arrangements, at their own expense, for transportation on days when classes are held off campus at hospital clinical sites.

Uniforms
Radiologic technology student uniform must be worn whenever class meets off campus. The cost of uniforms is the student's responsibility.

Sociology
(behavioral Sciences Department)

SOC 101—Introduction to Sociology 3 cr. (Fall/Spring/Summer)
This course explores those forces in our culture and social structure that lie beyond the individual's control or direct awareness, but which shape what we are, how we behave, and what we think.

Basic sociological concepts are used to develop insights and understanding. Topics such as culture, social structure, socialization, social control, groups, stratification, research methods and statistical analysis are discussed. Fulfills category C. (GE 3)

SOC 120—Social Problems 3 cr. (Fall/Spring/Summer)
Using primarily a scientifically and statistically based sociological perspective, a variety of American social problems are examined. Included are the increasing levels of interpersonal violence and other types of deviant behavior, racism and sexism, threat of war, poverty and the welfare system, and the consequences of economic inequality. Analysis of these problems includes description, causal relationships, individual and societal dimensions, and alternative social policy responses. Fulfills category C.

SOC 220—Race, Ethnicity and Society 3 cr. (Fall/Spring)
This course will explore the basic dynamics and processes of race and ethnic relations from a sociological perspective. Such topics as dominant-minority relations, prejudice, discrimination, assimilation, racism and antisemitism will be explored. The primary focus will be upon American society but examples from other societies will be explored as well; i.e., Brazil, Canada and Eastern Europe.

Prerequisite: one course in sociology

SOC 231—The Family 3 cr. (Spring)
Using a sociological perspective, the institution of the family is analyzed in terms of its relationship to the changing society in which it exists. Of special interest is how these changes affect individuals within families Topics such as mate selection, sex roles, romance and love, sexuality, communication, conflict violence, divorce and remarriage are discussed. Fulfills category C.

Prerequisite: one course in sociology

Radiologic Technology - Sociology

RAD 218—Radiation Biology 2 cr. (Spring)
The biological effects of ionizing radiation and the basic mechanism of short-term and long-term effects of ionizing radiation are covered. [R-1] 
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209 
Corequisite: RAD 218, RAD 216, RAD 214, RAD 219

RAD 219—Medical Terminology 1 cr. (Spring)
This course is designed to provide terminology for those in the health professions including medical personnel, transcriptionists, librarians, insurance examiners and the layperson. 
Prerequisite: Placement in ENG 101

RAD 221—Radiographic Pathology 3 cr. (Fall)
The disease processes of the body systems and related radiographic techniques are emphasized. Cross-sectional anatomy is included. [R-1] 
Prerequisite: RAD 112 
Corequisite: RAD 223, RAD 217, RAD 209

Fulfills category C.

Prerequisite: one course in sociology
SPN 101—Elementary Spanish 1
3 cr.
For beginners or those who have no more than one year of high school Spanish. Emphasis is placed on the language as spoken and heard. Grammar study deals mainly with the formation and use of verbs in the present tense. Situational dialogues serve as the basis for learning pronunciation, vocabulary and idioms. (GE 9)
Note: Students who are proficient in Spanish may be placed in a more advanced course.

SPN 102—Elementary Spanish 2
3 cr.
Additional vocabulary and tenses of verbs are introduced until all basic constructions, including the subjunctive, have been examined. (GE 9)
Prerequisite: SPN 101 or two years of high school Spanish or placement by instructor

SPN 201—Intermediate Spanish 1
3 cr.
Study of the language through a continuation of audio-lingual learning, with emphasis on review of basic grammatical patterns, improvement of reading and writing skills. Reading exercises offer insights into Spanish and Spanish-American culture. (GE 9)
Prerequisite: SPN 102 or instructor placement

SPN 202—Intermediate Spanish 2
3 cr.
Emphasis is given to advanced grammatical patterns, such as the subjunctive mood and the passive voice. Conversation based on everyday vocabulary is encouraged, to help students develop further their listening and speaking abilities. (GE 9)
Prerequisite: SPN 201 or instructor placement

SPN 203—Spanish Conversation and Composition
3 cr. (Fall)
Conversation based on readings chosen for their contemporary colloquial usage of active vocabulary. Students write compositions based on models of Spanish prose or poetry. (GE 9)
Prerequisites: SPN 201-SPN 202 or three years of high school study or instructor placement

SPN 204—Introduction to Spanish Literature
3 cr. (Spring)
Masterworks of Spanish and Spanish-American literature are read and discussed in Spanish. (GE 9)
Prerequisite: SPN 203 or instructor placement
Theatre Arts

Theatre Arts
(Arts & Communication Department)

THE 101—Introduction to Theatre
3 cr. (Fall/Spring)
This course explores the process of theatrical creation. Lecture-demonstrations introduce the student to contemporary and historical modes of production. Class projects focus on the collaborative work of the Director, Actor, Designers and support staff. Attendance at theatre events is required. (GE 8)

THE 103—Acting Fundamentals
3 cr. (Fall/Spring)
Study and practice in principles and techniques of acting; developing the actor's instrument. Exercises, improvisation, scene study, monologues, and audition methods are among the areas studied. (GE 8)

THE 105—Improvisation for the Theatre
3 cr. (Fall/Spring)
This course is an examination of the theory and practice of improvisation as a performing art. Students will learn improvisational theatre games and exercises intended to develop the principles of improvisation, particularly in the tradition of Keith Johnstone. The course is intended to develop skills that supplement the techniques of scripted performance.

THE 107—Theatre Workshop
3 cr. (Fall/Spring)
A workshop in stage play production. The emphasis is on the "hands on" application of stage craft techniques including stage lighting, stage carpentry, costuming, publicity and house management. Students crew for the department-sponsored play production by putting in 15 hours in addition to regularly scheduled class time. Attendance at three outside play performances is required. Students may repeat the course one time, with the recommendation of the instructor, for a total of six credits. (GE 8)

THE 109—Stage Make-Up
2 lect., 2 lab., 3 cr. (Fall/Spring)
Beginning course in principles, techniques, and materials of theatre make-up. Students must purchase a basic stage make-up kit. Play production hours outside of class will be required. (GE 8)

THE 117—Puppetry/Object Performance Theatre
3 cr. (Spring)
An introductory performance lab for puppetry and object theatre. The course covers world puppet history, object performance and ritual (mask, puppet, shadow, object), and exposes students to mature theatre works that incorporate puppet and object theatre as a powerful visual vocabulary in live performance art. Traditional puppetry disciplines will be explained and explored, and students will work on all facets of puppet theatre creation (writing, design, construction, scoring, manipulation, direction), culminating in a public performance showcasing their work in group projects and individual performances. Videos of performances by master puppeteers and contemporary object theatre artists will be shown to inform and inspire students. Course may be repeated once for a total of six credits.

THEatre Arts

THE 103—Acting Fundamentals
3 cr. (Fall/Spring)
Study and practice in principles and techniques of acting; developing the actor's instrument. Exercises, improvisation, scene study, monologues, and audition methods are among the areas studied. (GE 8)

THE 105—Improvisation for the Theatre
3 cr. (Fall/Spring)
This course is an examination of the theory and practice of improvisation as a performing art. Students will learn improvisational theatre games and exercises intended to develop the principles of improvisation, particularly in the tradition of Keith Johnstone. The course is intended to develop skills that supplement the techniques of scripted performance.

THE 107—Theatre Workshop
3 cr. (Fall/Spring)
A workshop in stage play production. The emphasis is on the "hands on" application of stage craft techniques including stage lighting, stage carpentry, costuming, publicity and house management. ## Faculty and Professional Staff

### Sharon Ahearne (1998)
- **Instructor**—Movement Science; **Coordinator**—Recreational Activities
- B.S., Penn State University; M.S., University of Massachusetts

### Michael Albright (2006)
- **Director**—Communications
- B.S., Penn State University; M.S., University of Massachusetts

### Lindsay A. Amadio (1980)
- **Admissions Counselor, Assistant Professor**
- A.A., Harriman; B.A., SUNY Geneseo; M.P.S., SUNY New Paltz

### Veronica Blake (2009)
- **Reference Librarian—Newburgh Campus**
- A.A.S., SUNY Orange; B.A., SUNY New Paltz

### Deborah Canzano (2009)
- **Special Assistant to the President**
- A.A., SUNY Orange; B.A., SUNY New Paltz

---

### Ann Marie Buffalo (2001)
- **Assistant Professor**—Movement Science
- B.S., M.A., Adelphi University

### Alexander Bolorin (2009)
- **Specialist**—Student Support Services Initiatives
- B.A., Mount St. Mary College

### Frederic Brennen (2010)
- **Facilities Project Manager**
- A.A.S., SUNY Orange; B.S., SUNY Empire State College; M.P.S., SUNY New Paltz

### Laura Angramer (1998)
- **Assistant Professor**—Business
- A.A.S., SUNY Orange; B.S., SUNY New Paltz; M.B.A., Mount St. Mary College

### William Ansley (1991)
- **Academic Technical Assistant**
- B.S., M.S., SUNY Buffalo

### Marietta Amodio (1980)
- **Special Assistant to the President**
- A.A.S., SUNY Orange; B.A., SUNY New Paltz; M.P.S., SUNY New Paltz

### Nicholas Antonoff (2006)
- **Director**—Comparative Education
- B.S., SUNY Geneseo; M.S., Teachers College, Columbia University

### Melissa Browne (2005)
- **Associate Professor**—English
- B.A., Ohio Wesleyan University; M.A., Teacher's College, Columbia University

Faculty and Professional Staff

Gregory Geddes (2011)  
Instructor—Global Studies  
B.A., College of William and Mary; M.A., Ph.D., Binghamton University

James Gill (2009)  
IT Support Specialist II  

Thomas Giorgianni (1991)  
Professor—Applied Technologies  
A.A.S., SUNY Orange; B.P.S., SUNY Empire State College; M.S., SUNY New Paltz; C.A.S., SUNY Albany

James Givant (1984)  
Professor—English  
B.A., City College of New York; M.A., University of South Carolina

Grace Gloeckler (1992)  
Assistant Professor—Biological Sciences  
B.S., M.S., Fairleigh Dickinson University

Daryl Goldberg (2000)  
Associate Professor—Accounting  
B.A., Brooklyn College; M.B.A., Adelphi University

Sandra Graff (1998)  
Assistant Professor—English  
B.A., SUNY Albany; M.A.T., Fairleigh Dickinson

Linda Gramm Ferris (1995)  
Program Coordinator—Continuing and Professional Education  
B.S., Marist College

Elizabeth Gray (2000)  
Technical Assistant—Institutional Research  
A.S., SUNY Orange

Providenza Greco (2006)  
CFO Manager  
B.S., University of Palermo

Donald Green (2002)  
Coordinator—Business Solutions and Professional Development  
B.S., SUNY Empire State College

Patricia Guallini (1986)  
Professor—Behavioral Sciences  
A.A., SUNY Orange; B.A., University of Florida; M.S., Drake University

Edgar Gutierrez (1991)  
Professor—Global Studies  
M.A., Complutense University of Madrid, Spain

Jessica Hall (2007)  
Jr. Case Manager  

Jean Halpern (1996)  
Professor—Nursing  
R.N., B.S., Mount St. Mary College; M.S., Mercy College

JoAnn Hamburg (1985)  
Comptroller  
A.A.S., SUNY Orange; B.S., M.S., SUNY New Paltz

Russell Hammond (2007)  
Associate Vice President for Resource Development  
B.S., CW Post College of Long Island

Florence Hannes (1978)  
Professor; Chair—Occupational Therapy Assistant  
B.S., N.Y.U.; M.S., Long Island University

Steven Harpest (2000)  
Director—Student Activities  
A.A.S., SUNY Orange; B.P.S., SUNY Empire State College; M.S., SUNY New Paltz; C.A.S., SUNY Albany

James Givant (1984)  
Professor—English  
B.A., City College of New York; M.A., University of South Carolina

Grace Gloeckler (1992)  
Assistant Professor—Biological Sciences  
B.A., Utica College of Syracuse University; M.Ed., Alfred University

Cory Harris (2007)  
Chair, Department of Psychology/Sociology  
B.A., New Mexico State University; M.A., University of Arizona

Wendy Holmes (2000)  
Associate Vice President for Human Resources  
A.S., SUNY Orange; B.S., SUNY New Paltz; M.B.A., Mount St. Mary College

Russell Hammond (2007)  
Associate Vice President for Resource Development  
B.S., CW Post College of Long Island

Florence Hannes (1978)  
Professor; Chair—Occupational Therapy Assistant  
B.S., N.Y.U.; M.S., Long Island University

Adjunct Faculty

Paulette Browne (207)
Instructor—Arts & Communication
A.A.S., Community College of Philadelphia; B.S., St. Thomas Aquinas College; M.A., Fairleigh Dickinson

Nancy Bruscino (2010)
Instructor—Behavioral Sciences
A.A., SUNY Orange; B.A., Mount St. Mary College; M.S., SUNY New Paltz

Vanessa Budetti (2008)
Instructor—English
B.A., Ithaca College; M.S., Mount St. Mary College

Howard Bush (2009)
Instructor—English
B.A., University of Kentucky; M.F.A., Oregon State University

Kathy Butsiko (2010)
Instructor—Arts & Communication
A.A, Pennsylvania College of Technology; B.S., M.S., Marist College

William Campbell (2010)
Instructor—Behavioral Sciences
B.S., University of Texas; M.S., Hunter College

Michael Cannavale (1999)
Instructor—English
M.A., Seaton Hall University; D.A., St. John's University

Elaine Cannella (2009)
Instructor—Nursing
R.N., B.S., Mount St. Mary College; M.S., Mercy College

Kathleen Castore (2005)
Instructor—English
B.A., South Hampton College

Laurie Cauthers (2003)
Assistant Professor—Math/Computer Science
A.A.S., SUNY Orange; B.A., M.S., Mount St. Mary College

Stanley Cauthers (1987)
Associate Professor—Physical Sciences
B.S., SUNY New Paltz; M.S., M.S., Fairleigh Dickinson

Assistant Professor—Education
B.S., St. Thomas Aquinas, M.S., CW Post

Allen Chase (2000)
Associate Professor—Math/Computer Science
B.A., Kean College

Patricia Chisamore (2003)
Instructor—Biology
A.A.S., Dutchess Community College; B.S., Univ. of Georgia

Donna Christensen (2009)
Instructor—Occupational Therapy Assistant
A.A.S., SUNY Orange

Feige Cieplinski (2004)
Assistant Professor—History
B.A., Vassar College; B.A., Yiddish Lehrer Seminar; M.A., SUNY Binghamton; M.A., Universidad Nacional Autonoma de Mexico; M.S., Yeshiva University

Christina Clark (2005)
Instructor—Mathematics
B.S., M.S., Hunter College

Thomas Clarke (1969)
Associate Professor—Economics
A.A., SUNY Orange; B.S., M.S., SUNY New Paltz

Jonathan Clemons (2009)
Instructor—Mathematics
A.S., SUNY Orange; B.A., SUNY New Paltz; M.A., N.Y.I.T

Nolly Climes (2004)
Assistant Professor—Behavioral Sciences
M.A., Marist College; B.S., Mercy College

Kimberly Coffey (2005)
Assistant Professor—Math/Computer Science
B.A., Harwick College; M.A., Teachers College

David Cohen (2000)
Instructor—Theatre
B.A., SUNY New Paltz

Adjunct Faculty

Patricia Hoehmann (2009)
Assistant Professor—Mathematics
A.A.S. Westchester Community College; B.A., M.S., Pace University

Crystal Howard Century (2008)
Instructor—Movement Science
B.A., Pace University; M.A., M.S., Columbia University

John Hunziker (2007)
Assistant Professor—Laboratory Technology
B.S., Springfield College; M.S., New School for Social Research

Antoinette Hutchings (1979)
Assistant Professor—Business
A.A.S., SUNY Orange; B.S., Fairleigh Dickinson

Kimberly Jordan (2008)
Assistant Professor—Biology
B.S., M.S., SUNY New Paltz

Richard Kanterman (1996)
Assistant Professor—Biology
D.C. NY Chiropractic College; B.S., SUNY Oswego

Barry D. Kane (1969)
Professor—Behavioral Sciences
B.A., Harper College; M.A., SUNY Binghamton

Jean Keeney (1989)
Instructor—English
A.A., SUNY Orange; B.A., Mount St. Mary College

William Keller III (2008)
Instructor—Laboratory Technology
A.A.S., B.A., SUNY, Alfred University

Kristen Kerr (2003)
Assistant Professor—Foreign Languages-Spanish
B.A., SUNY Plattsburg; M.A., St. Michael’s College

Theresa Kilgore-Dering (1990)
Assistant Professor—Laboratory Technology
A.A.S., SUNY Orange; B.S., SUNY Geneseo, M.S., New School for Social Research

Evelyn Kimbu (1997)
Counselor—Educational Opportunity Program
M.S., University of Scranton

Michael King (2010)
Instructor—Business
A.A.S., SUNY Orange; B.S., M.B.A., Mount St. Mary College

Karylyn Kinney (2000)
Instructor—Arts & Communication
B.A., Oberlin College; M.A., Peabody Institute of The Johns Hopkins University

Elizabeth Kissam-Horaz, (2005)
Instructor—Movement Science
A.S., SUNY Orange

Frances Kittelmann (1986)
Professor—Laboratory Technology
A.A.S., SUNY Orange; B.A., Hofstra University; M.S., Long Island University; MLT (ASCP), CLS-M (NCA)

Marc Kleinman (2002)
Assistant Professor—Biology and Laboratory Technology
Doctor of Chiropractic, N.Y. Chiropractic College

Dawn Klotz (1998)
Instructor—Radiologic Technology
A.A.S., SUNY Orange

Thomas Knieser (1999)
Instructor—Science & Engineering
B.S., St. Bonaventure

Charles Kocsis (2007)
Instructor—Physical Sciences
M.S., Georgia Institute of Technology

Adjunct Faculty

Patricia Hoehmann (2009)
Assistant Professor—Mathematics
A.A.S. Westchester Community College; B.A., M.S., Pace University

Crystal Howard Century (2008)
Instructor—Movement Science
B.A., Pace University; M.A., M.S., Columbia University

Antoinette Hutchings (1979)
Assistant Professor—Business
A.A.S., SUNY Orange; B.S., Fairleigh Dickinson

Mary Hutchings (2003)
Assistant Professor—Multimedia Science
B.S., St. John’s University; M.S., SUNY New Paltz

Maureen Hyde (1987)
Assistant Professor—Physical Science
B.A., SUNY Orange; B.S., SUNY New Paltz

Mary Lou Ingles
Clinical Proctor
B.S., Russell Sage College; M.A., College of St. Rose

Eileen Irish (2008)
Instructor—Nursing
LPN, Grasslands Hospital School of Nursing

Varada Iruvanti (2010)
Instructor—Science, Engineering & Architecture
B.S., University of Bombay; M.S., Ph.D. University of Hyderabad

Robert Issck (2009)
Instructor—English
B.A., Syracuse University; M.A., Colgate University; J.D., Fordham University School of Law

William Istome (2001)
Assistant Professor—Science & Engineering
B.A., LaSalle University; Ph.D., University of Pittsburgh

Martin Januario (1970)
Assistant Professor—English
B.A., St. Joseph's, M.A., Hunter

Laranan Jaroz (2010)
Instructor—Global Studies
A.A.S., SUNY Orange; M.A., Syracuse University

Raymond Jaroz (2007)
Instructor—Mathematics
B.S., Syracuse University

Instructor—Movement Science
B.S., CUNY York College; M.Ed., Springfield College; C.A.S., Mercy College; Ed.D., Seton Hall University

Ada Johnston (2008)
Instructor—Nursing
R.N., B.S., University of Alabama; M.S., Russell Sage College

Kimberly Jordan (2008)
Assistant Professor—Biology
B.S., Manhattan College; M.A., City College

Paul Kahl (1992)
Assistant Professor—Biology
B.S., M.S., SUNY New Paltz

Richard Kanterman (1996)
Assistant Professor—Biology
D.C. NY Chiropractic College; B.S., SUNY Oswego

Barry D. Kane (1969)
Professor—Behavioral Sciences
B.A., Harper College; M.A., SUNY Binghamton

Jean Keeney (1989)
Instructor—English
A.A., SUNY Orange; B.A., Mount St. Mary College

William Keller III (2008)
Instructor—Laboratory Technology
A.A.S., B.A., SUNY, Alfred University

Kristen Kerr (2003)
Assistant Professor—Foreign Languages-Spanish
B.A., SUNY Plattsburg; M.A., St. Michael's College

Theresa Kilgore-Dering (1990)
Assistant Professor—Laboratory Technology
A.A.S., SUNY Orange; B.S., SUNY Geneseo, M.S., New School for Social Research

Evelyn Kimbu (1997)
Instructor—Nursing
LPN, Grasslands Hospital School of Nursing

Varada Iruvanti (2010)
Instructor—Science, Engineering & Architecture
B.S., University of Bombay; M.S., Ph.D. University of Hyderabad

Robert Issck (2009)
Instructor—Business
A.A.S., SUNY Orange; B.S., M.B.A., Mount St. Mary College

Karylyn Kinney (2000)
Instructor—Arts & Communication
B.A., Oberlin College; M.A., Peabody Institute of The Johns Hopkins University

Elizabeth Kissam-Horaz, (2005)
Instructor—Movement Science
A.S., SUNY Orange

Frances Kittelmann (1986)
Professor—Laboratory Technology
A.A.S., SUNY Orange; B.A., Hofstra University; M.S., Long Island University; MLT (ASCP), CLS-M (NCA)

Marc Kleinman (2002)
Assistant Professor—Biology and Laboratory Technology
Doctor of Chiropractic, N.Y. Chiropractic College

Dawn Klotz (1998)
Instructor—Radiologic Technology
A.A.S., SUNY Orange

Thomas Knieser (1999)
Instructor—Science & Engineering
B.S., St. Bonaventure

Charles Kocsis (2007)
Instructor—Physical Sciences
M.S., Georgia Institute of Technology
Adjunct Faculty

Bruce Marley (1996)
Assistant Professor—Accounting/Office Technology
A.A., Dutchess Community College; B.S., SUNY New Paltz; M.B.A., Long Island University

Dara Mason (2009)
Instructor—Movement Science
A.A.S., SUNY Orange; B.A., East Stroudsburg University

Marsha Massih Varriano (2009)
Instructor—English
B.A., Georgetown University; M.A., Columbia University

RoseMarie Mastrocola (2008)
Instructor—English
B.A., Fairleigh Dickinson University; M.A., New York University

John McCormack (2006)
Instructor—Math/Computer Science
B.A., Saint Peter’s College; M.A., SUNY New Paltz

Dennis McCormick (2003)
Assistant Professor—Criminal Justice
A.B., University of Scranton, M.P.A., John Jay College of Criminal Justice, College of Law

Janette McCro-McKay (2002)
Assistant Professor—Political Science
B.A., M.A., St. John’s University

Kevin McGee (1977)
Professor—Physical Science
B.A., Marist College; M.S., Manhattan College

Alan McGeorge (2009)
Instructor—English
B.A., Rockland Community College; B.A., Hofstra University; J.D., St. John’s University School of Law

Paul McMahon (1996)
Counselor
A.B., Providence College; M.A., Teachers College, Columbia University; Ed.D., Nova Southeastern University

Gwen McNally (1994)
Assistant Professor—Nursing
R.N.A., A.S., SUNY Orange; B.S., Montclair State College; M.S., New School for Social Research

Gretchen Meiers (2005)
Instructor—Physical Therapist Assistant
B.A., Quinnipiac University

James Melendez (2005)
Assistant Professor—Applied Technology
B.A., Mount St. Mary College; A.C., Pace University; M.S., Pace University

Karen Messina (2002)
Associate Professor—Office Technologies
B.A., Excelsior College; M.S., New York Institute of Technology

George Meyers (1992)
Instructor—Criminal Justice
B.A., Empire State; M.P.A., John Jay

David Miele (2005)
Assistant Professor—Music
A.A.S., SUNY Orange; B.A., SUNY New Paltz; M.A., SUNY Purchase

Susan Müller (1999)
Associate Professor—Art
B.F.A., SUNY New Paltz; M.F.A., University of North Texas

Szym Mikiianic (1996)
Associate Professor—Behavioral Sciences
B.A., Hebrew University; M.A., New York University

Alison Miller (1998)
Instructor—English
B.A., University of Rochester; M.A., University Case Western Reserve

Sue Misiaik (2002)
Instructor—Radiologic Technology
Hilari Moore (1994)
Professor—Music
B.M., University of Connecticut; M.Phil. in Music Theory; Ph.D., Yale University

Virginia Moore (1989)
Associate Professor—Science & Engineering
B.S., SUNY Stony Brook; M.S., SUNY New Paltz

Eileen Moran (2006)
Instructor—Biology
B.S., Elizabethtown College; A.B.D., Temple University

Lana Moratus (1994)
Assistant Professor—Mathematics
B.A., SUNY Orange; B.A., Mount St. Mary College; M.S., Canisius College and Long Island University

Jane Morton (2010)
Instructor—Mathematics
B.S., Fairleigh Dickinson; M.A., City College

Joshua Moser (2010)
Instructor—Global Studies
B.A., Ramatian Valley Community College; B.A. & M.A., Monmouth University

Robert J. Mullin (2001)
Professor—Business Management
B.A., Cathedral College, M.S.Ed., St. John’s University

Vickie Murray (2005)
Assistant Professor—Math/Computer Science
B.S., SUNY New Paltz; M.A., CCNY

Michael Musante (2008)
Instructor—English
B.A., St. Francis College; M.A., New York University

Lisa Napoliato (2010)
Instructor—Business
B.A., Saint Leo College; J.D., The Thomas M. Cooley Law School

Victoria Neville (2007)
Instructor—Communication
B.A., Marist College; M.S., Boston University

Albert Nickerson (2010)
Instructor—Arts & Communication
B.F.A., School of Visual Arts

Susan Müller (1999)
Associate Professor—Art
B.F.A., SUNY New Paltz; M.F.A., University of North Texas

Szym Mikiianic (1996)
Associate Professor—Behavioral Sciences
B.A., Hebrew University; M.A., New York University

Alison Miller (1998)
Instructor—English
B.A., University of Rochester; M.A., University Case Western Reserve

Sue Misiaik (2002)
Instructor—Radiologic Technology
Hilari Moore (1994)
Professor—Music
B.M., University of Connecticut; M.Phil. in Music Theory; Ph.D., Yale University

Virginia Moore (1989)
Associate Professor—Science & Engineering
B.S., SUNY Stony Brook; M.S., SUNY New Paltz

Eileen Moran (2006)
Instructor—Biology
B.S., Elizabethtown College; A.B.D., Temple University

Lana Moratus (1994)
Assistant Professor—Mathematics
B.A., SUNY Orange; B.A., Mount St. Mary College; M.S., Canisius College and Long Island University

Jane Morton (2010)
Instructor—Mathematics
B.S., Fairleigh Dickinson; M.A., City College

Joshua Moser (2010)
Instructor—Global Studies
B.A., Ramatian Valley Community College; B.A. & M.A., Monmouth University

Robert J. Mullin (2001)
Professor—Business Management
B.A., Cathedral College, M.S.Ed., St. John’s University

Vickie Murray (2005)
Assistant Professor—Math/Computer Science
B.S., SUNY New Paltz; M.A., CCNY

Michael Musante (2008)
Instructor—English
B.A., St. Francis College; M.A., New York University

Lisa Napoliato (2010)
Instructor—Business
B.A., Saint Leo College; J.D., The Thomas M. Cooley Law School

Victoria Neville (2007)
Instructor—Communication
B.A., Marist College; M.S., Boston University

Albert Nickerson (2010)
Instructor—Arts & Communication
B.F.A., School of Visual Arts

Susan Müller (1999)
Associate Professor—Art
B.F.A., SUNY New Paltz; M.F.A., University of North Texas

Szym Mikiianic (1996)
Associate Professor—Behavioral Sciences
B.A., Hebrew University; M.A., New York University

Alison Miller (1998)
Instructor—English

Vickie Murray (2005)
Assistant Professor—Math/Computer Science
B.S., SUNY New Paltz; M.A., CCNY

Michael Musante (2008)
Instructor—English
B.A., St. Francis College; M.A., New York University

Lisa Napoliato (2010)
Instructor—Business
B.A., Saint Leo College; J.D., The Thomas M. Cooley Law School

Victoria Neville (2007)
Instructor—Communication
B.A., Marist College; M.S., Boston University

Albert Nickerson (2010)
Instructor—Arts & Communication
B.F.A., School of Visual Arts
Robert Nicoletti (1998)  
Instructor—Laboratory Technology  
B.A.S., SUNY Orange; B.S., SUNY Albany

Kelli Nidositko (2007)  
Instructor—Nursing  
A.A.S., SUNY Orange; B.F.A., Marymount Manhattan College

Jason Niedzelski (2010)  
Instructor—Mathematics  
B.S., University of North Carolina; M.S., Adelphi University

John Niedzelski (1976)  
Associate Professor—Mathematics  
B.A., C.W. Post; M.S., SUNY New Paltz

George Nitti (2004)  
Instructor—English  
B.A., University of Michigan; M.A., SUNY New Paltz

Kimi Norbuts (2010)  
Instructor—Clinical Proctor  
B.A., Ohio Northern University; M.A., John Carroll University

Peter Nozell (2000)  
Instructor—Art  
A.A.S., SUNY Orange; B.F.A., SUNY New Paltz

Faith O'Brien Morsch (2008)  
Instructor—Criminal Justice  
B.S., SUNY Orange; B.F.A., SUNY New Paltz

Catherine O'Callaghan (2009)  
Instructor—English  
B.A., St. Peter's College; M.S., New School for Social Research

Sarah Pierce (2008)  
Instructor—English  
B.A., University of Dayton; M.A., Pacifica Graduate Institute

Sabrina Pinesett (2005)  
Instructor—Math/Computer Science  
A.A.S., SUNY Orange; B.A., SUNY Albany; M.S., SUNY New Paltz

John Pleasants (1993)  
Assistant Professor—Mathematics  
B.S., Hampton Institute; M.S., Marist College

Laura Potter (2007)  
Instructor—Dental Hygiene  
A.A.S., SUNY Orange; B.S., Pace University

Deborah Powell (2001)  
Assistant Professor—Behavioral Sciences  
A.A., Mount Wachusett; B.S., Fitchburg State College; M.A., West Georgia College

Timothy Powers (2010)  
Instructor—Behavioral Sciences  
B.A., SUNY New Paltz

JoAnn Pulliam (2008)  
Instructor—Applied Technologies  
A.A., Harriman College; B.A., Ladycliff College; M.P.S., SUNY New Paltz
Adjunct Faculty

Samuel Quimby (1982)
Assistant Professor—Movement Science
A.A., SUNY Orange; B.A., Southern Connecticut

Elizabeth Quinn (1987)
Assistant Professor—English
B.S., SUNY New Paltz

Peter Racette (2003)
Assistant Professor—Accounting
B.A., Ohio State University; M.S., New Hampshire College

Thomas Reape (1991)
Assistant Professor—English
B.A., Manhattan College; M.A., University of Pittsburgh

Angela Reinhardt (2009)
Assistant Professor—Mathematics
B.S., SUNY Oneonta; M.A., Queens College

Sandra Remmer (2008)
Assistant Professor—English
A.B., Smith College; M.A., CUNY Graduate Center; M.S.Ed., SUNY New Paltz

Stephen Resch (2009)
Assistant Professor—English
M.A., Iowa State University

Assistant Professor—Mathematics
B.A., M.S., Long Island University

Assistant Professor—Movement Science
Linda Richichi (2002)
Assistant Professor—Art
B.F.A., SUNY New Paltz

Amy Rickard (1995)
Assistant Professor—Math
M.A., SUNY Brockport; B.A., SUNY Geneseo

Paul Rickard (1982)
Assistant Professor—Professor/Math/Computer Science
B.A., M.S. Ed., M.A., St. John’s University

Assistant Professor—Criminal Justice
B.S., St. John’s University; M.A., John Jay College

Thomas Rickard (1998)
Assistant Professor—Mathematics
A.A., SUNY Orange; B.S., Dominican College, M.S., Iona College

Kathleen Rifkin (2008)
Assistant Professor—Science, Engineering and Architecture
B.S., M.Arch., SUNY Buffalo

James Riley (2003)
Assistant Professor—Math/Computer Science
B.S., Pennsylvania State University; M.S., SUNY New Paltz

John Rion (2010)
Assistant Professor—Mathematics
A.S., SUNY Orange; B.S., SUNY Plattsburgh

Peggy Roda (2003)
Instructor—Movement Science

Levern Rollins Haynes (2006)
Assistant Professor—English
B.S., SUNY New Paltz

Peter Racette (2003)
Instructor—Accounting
B.A., Ohio State University; M.S., New Hampshire College

Thomas Reape (1991)
Assistant Professor—English
B.A., Manhattan College; M.A., University of Pittsburgh

Angela Reinhardt (2009)
Instructor—Mathematics
B.S., SUNY Oneonta; M.A., Queens College

Sandra Remmer (2008)
Instructor—English
A.B., Smith College; M.A., CUNY Graduate Center; M.S.Ed., SUNY New Paltz

Stephen Resch (2009)
Instructor—Movement Science

Linda Richichi (2002)
Assistant Professor—Accounting
B.S., M.P.A., SUNY Albany

M. Roberto Ruiz (2007)
Instructor—English
B.A., M.A., Binghamton University

Nicole Rushing (2010)
Instructor—Diagnostic Imaging
A.A.S., SUNY Orange

April Sager (2009)
Instructor—Math
B.A., SUNY at Oswego, M.S., University of New England

Dana Salkowsky (2005)
Instructor—Communication
B.A., Pace University; M.S., Iona College

Martin Saint Martin (2002)
Instructor—Art
B.F.A., Cooper Union

Johana Sanchez (2008)
Instructor—Business
B.S., Long Island University; M.S., Walden University

Jeff Sarett (2002)
Instructor—Criminal Justice
B.S., John Jay College of Criminal Justice

Robert Sassi (1997)
Assistant Professor—History
B.A., Siena College; M.S., SUNY New Paltz

Matthew Sauer (2005)
Instructor—Business
B.S., SUNY Orange; B.S., College of St. Rose

Marina Scandell-Colson (2002)
Instructor—Movement Science

Peggy Roda (2003)
Instructor—Movement Science
A.S., SUNY Orange

Levern Rollins Haynes (2006)
Assistant Professor—English
B.S., SUNY New Paltz

Peter Racette (2003)
Assistant Professor—Accounting
B.A., Ohio State University; M.S., New Hampshire College

Thomas Reape (1991)
Assistant Professor—English
B.A., Manhattan College; M.A., University of Pittsburgh

Angela Reinhardt (2009)
Instructor—Mathematics

Instructor—English
A.B., Smith College; M.A., CUNY Graduate Center; M.S.Ed., SUNY New Paltz

Stephen Resch (2009)
Instructor—Movement Science

Assistant Professor—Global Studies
B.A., M.S., Long Island University

Assistant Professor—Movement Science
Linda Richichi (2002)
Instructor—Art
B.F.A., SUNY New Paltz

Amy Rickard (1995)
Instructor—Math
B.A., SUNY at Oswego; B.A., SUNY Geneseo

Paul Rickard (1982)
Professor—Math/Computer Science
B.A., M.S. Ed., M.A., St. John’s University

Assistant Professor—Criminal Justice
B.S., St. John’s University; M.A., John Jay College

Thomas Rickard (1998)
Assistant Professor—Mathematics
A.A., SUNY Orange; B.S., Dominican College, M.S., Iona College

Kathleen Rifkin (2008)
Assistant Professor—Science, Engineering and Architecture
B.S., M.Arch., SUNY Buffalo

James Riley (2003)
Assistant Professor—Math/Computer Science
B.S., Pennsylvania State University; M.S., SUNY New Paltz

John Rion (2010)
Instructor—Mathematics
A.S., SUNY Orange; B.S., SUNY Plattsburgh

Peggy Roda (2003)
Instructor—Movement Science
A.S., SUNY Orange

Levern Rollins Haynes (2006)
Assistant Professor—English
B.A., B.S., Charleston Southern University; M.M., University of South Carolina; Ph.D, Florida State University

Susan Rosalsky (2010)
Instructor—English
B.A., Wellesley College; M.A. & M Phl., Yale University

Katherine Roselli (2006)
Instructor—Mathematics
A.A.S., Morrisville College; B.S., Cornell University; M.Ed., Pennsylvania State University

Jill Ross (2010)
Instructor—Diagnostic Imaging
B.S., Long Island University-C.W. Post

Christopher Ruckdeschel (2010)
Instructor—English
B.A., SUNY New Paltz; M.S., Mount Saint Mary College

William Ruggles (1998)
Assistant Professor—Accounting
B.S., M.P.A., SUNY Albany

M. Roberto Ruiz (2007)
Assistant Professor—English
B.A., M.A., Binghamton University

Nicole Rushing (2010)
Assistant Professor—Diagnostic Imaging
A.A.S., SUNY Orange

April Sager (2009)
Instructor—Math
M.A., SUNY at Oswego, M.S., University of New England

Dana Salkowsky (2005)
Assistant Professor—Communication
B.A., Pace University; M.S., Iona College

Martin Saint Martin (2002)
Assistant Professor—Business
B.F.A., Cooper Union

Johana Sanchez (2008)
Assistant Professor—Business
B.S., Long Island University; M.S., Walden University

Jeff Sarett (2002)
Assistant Professor—Criminal Justice
B.S., John Jay College of Criminal Justice

Robert Sassi (1997)
Assistant Professor—History
B.A., Siena College; M.S., SUNY New Paltz

Matthew Sauer (2005)
Instructor—Business
B.S., SUNY Orange; B.S., College of St. Rose

Marina Scandell-Colson (2002)
Instructor—Movement Science
Adjunct Faculty

Maria Schadt (1988)
Assistant Professor—English
B.A., Vassar College; M.A., SUNY New Paltz

James Scharfenberger (1990)
Associate Professor—Communication
B.S., St. John's Univ.; J.D., Brooklyn Law School

Christopher Sherwood (1991)
Instructor—Criminal Justice
A.A.S., Rockland Community College; B.S., Mercy College; M.P.A. John Jay College

James Schofield (2006)
Instructor—English
A.A., SUNY Orange; B.A., M.A.T., SUNY New Paltz

Thomas Schunk (2007)
Instructor—History
B.S., M.A.T., University of Wisconsin; Ph.D., Marquette University

Kevin Scott (2006)
Instructor—Music
Diploma, Mannes College of Music

Sheldon Schwartz (1990)
Associate Professor—Behavioral Sciences
B.A., Long Island University; M.A., New York University

Donald Schwegler (2003)
Assistant Professor—History
Ph.D., SUNY Albany

Mary Sealfon (2006)
Instructor—Art
B.A., University of California; M.A., New York University

Linda Seins (2002)
Associate Professor—Business
B.S., M.S., CAS, SUNY New Paltz

Christopher Sherwood (1991)
Instructor—Criminal Justice
B.S., Mercy College; M.P.A., John Jay College

Robert Shust (2008)
Instructor—English
B.A., SUNY Oneonta; M.S., CAS, SUNY New Paltz

Assistant Professor—Business
A.A.S., SUNY Orange; B.B.A., Siena College; M.B.A., University of South Carolina

David Siegel (2004)
Instructor—English
B.A., Prescott College; M.F.A., Vermont College

Joan Siegel (1981)
Associate Professor—English
A.B., Hunter; M.A., NYU

Francesca Smith (2007)
Instructor—Math/Computer Science
A.A., Rockland Community College; B.A., SUNY New Paltz; M.A., University of Phoenix

Maria Smith (2001)
Instructor—English
A.S., Sullivan Community College; B.A., SUNY New Paltz

Richard E. Smith (2002)
Assistant Professor—Business Management
A.S., SUNY Orange; B.S., Clarkson University; M.S., Marist College

Scott Smith (1993)
Assistant Professor—Mathematics
A.A.S., Rockland Community College, B.A., SUNY New Paltz

Brian Sniffen (2011)
Instructor—Geography
A.S., SUNY Orange; B.S., Marist College; M.S., Polytechnic University

Irwin Solomon (2000)
Associate Professor—Behavioral Sciences
B.S., University of Pennsylvania; M.A., Webster University; Ph.D., George Mason University

Paula Southwell-Wise (1994)
Assistant Professor—Business
A.A., SUNY Orange; B.A., M.A., SUNY New Paltz; M.S.W., SUNY Albany

Roberta Spitzen (1991)
Assistant Professor—Nursing
R.N., B.S.N., SUNY Albany; B.S., Brooklyn College and M.S.; M.Ed., Columbia University-Teachers College

Audrey Sprenger (2010)
Instructor—Behavioral Sciences
B.A., M.S., Ph.D., University of Wisconsin

Vivian Stack (2004)
Assistant Professor—Psychology
B.A., SUNY Geneseo, M.S., SUNY New Paltz

James Steane (1993)
Assistant Professor—Applied Technologies
A.A.S., SUNY Orange; B.A., SUNY Brockport; M.S., Iona College

Jonathan Steigman (2010)
Instructor—Global Studies
B.A., M.A., Auburn University; Ph.D., University of Alabama

Levia Sullivan (2009)
Instructor—Nursing
B.S.N., University of Phoenix

Lauren Suprano (2010)
Instructor—English
B.A., SUNY Purchase; M.A., Columbia University

Judy Svensson (2001)
Instructor—English
B.A., University of Arizona; M.A., SUNY New Paltz

Andrea Tack (2008)
Instructor—English
B.A., University of Vermont; M.A., St. John's University

Lauren Tamraz (2008)
Instructor—English
B.S., SUNY New Paltz; M.A., Stony Brook University

Mark Tatro (2008)
Instructor—Science, Engineering and Architecture
A.A.S., Westchester Community College; B.S., SUNY Albany; M.S., Mount St. Mary College

Adjunct Faculty

Nancy Schadt (2018)
Assistant Professor—Business Management
A.S., SUNY Orange; B.A., SUNY New Paltz

James Scharfenberger (1990)
Associate Professor—Communication
B.S., St. John's Univ.; J.D., Brooklyn Law School

Christopher Sherwood (1991)
Instructor—History
A.A.S., Rockland Community College; B.S., Mercy College; M.P.A. John Jay College

Best Routes to Middletown Campus
115 South Street, Middletown, NY 10940

From Monroe and points south: Take Route 17 west to exit 123 (Middletown). Follow 17M which becomes Dolson Avenue. Continue on Dolson Avenue to Bennett Street. Turn left on Bennett to the top of the hill.

From Newburgh and points east and north: Take Interstate 84 east to exit 121W. Take Interstate 84 west to exit 3W (Middletown). Follow 17M which becomes Dolson Avenue.

From Sullivan County and points northwest: Take Route 17 east to exit 121W. Take Interstate 84 west to exit 3W (Middletown). Then follow directions below from Exit 3W.

From Port Jervis and points west: Take Interstate 84 east to exit 3W (Middletown) then follow directions below from Exit 3W.

From Exit 3W: Follow Route 17M west toward Middletown. Route 17M becomes Dolson Avenue. Continue on Dolson Avenue to Bennett Street. Turn left on Bennett to the top of the hill.

Best Routes to Newburgh Campus
One Washington Center, Newburgh, NY 12500

From Middletown: Take Interstate 84 East to Exit 10. At bottom of exit ramp, turn right onto Route 9W South and immediately get into left lane. At stoplight, turn left onto North Street which becomes Marine Drive (also named LeRoy Place, Water Street). Continue on Marine Drive through 2 stop lights.

About ½ mile past the second stoplight, turn right onto Grand Street. At the first stop sign make a right onto Broadway. Continue on Broadway, and make the first right on to Grand Street; the Newburgh Campus will be on the right. (The entrance to the Newburgh Campus parking garage is on 1st Street and Grand.)

From Upstate New York or New York City/New Jersey area (NYS Thruway): Take New York State Thruway to Exit 17 (Newburgh). After toll booths, bear right and follow signs for Interstate 84 East. Follow directions from Middletown (above).

From Dutchess County & Connecticut: Take Interstate 84 West over the Newburgh/Beacon Bridge to Exit 10. On exit ramp stay to right and merge onto North Plank Rd. At the first stoplight, turn right onto Route 9W South and immediately get into left lane. At the 2nd stoplight, turn left onto North Street which becomes Marine Drive (also named LeRoy Place, Water Street). Continue on Marine Drive through 2 stop lights.

About ½ mile past the second stoplight, turn right onto Grand Street. At the first stop sign make a right onto Broadway. Continue on Broadway, and make the first right on to Grand Street; the Newburgh Campus will be on the right. (The entrance to the Newburgh Campus parking garage is on 1st Street and Grand.)

From Upstate New York or New York City/New Jersey area (NYS Thruway): Take New York State Thruway to Exit 17 (Newburgh). After toll booths, bear right and follow signs for Interstate 84 West. Follow directions from Newburgh (above).

From Dutchess County & Connecticut: Take Interstate 84 East to Exit 10. At bottom of exit ramp, turn right onto Route 9W South and immediately get into left lane. At stoplight, turn left onto North Street which becomes Marine Drive (also named LeRoy Place, Water Street). Continue on Marine Drive through 2 stop lights.

About ½ mile past the second stoplight, turn right onto Grand Street. At the first stop sign make a right onto Broadway. Continue on Broadway, and make the first right on to Grand Street; the Newburgh Campus will be on the right. (The entrance to the Newburgh Campus parking garage is on 1st Street and Grand.)
