For a list of specific locations and contact information, please see page 6 of this catalog.

Student Services is dedicated to attracting, enrolling and sustaining a diverse student population. Through an array of exemplary programs and services, the dedicated and caring staff at the College is able to provide the assistance, connection, guidance and support students need to successfully achieve their academic and personal goals.

Academic Advising

The Advising and Counseling Center assists students in deriving maximum benefit from their college experience and in developing the full range of their educational, personal, and social potential. The Center is staffed by professionals who work from a developmental perspective to help students clarify their academic and career goals, identify obstacles, and explore available resources for achieving those goals. Services are offered at both the Middletown and Newburgh campuses.

Academic Advising

Academic advising at SUNY Orange is designed to facilitate student learning, development and success by collaborating with students to develop and implement meaningful and attainable educational plans. The College recognizes that academic advising is vital to the educational process and student success, and offers a thorough advising program that is coordinated by the Advising and Counseling Center in conjunction with the academic departments.

Academic advising is an intentional educational process that guides students in the development, implementation and achievement of educational, career and life plans. Effective advising includes: assisting students to develop meaningful and attainable goals, make informed decisions and effectively use college resources; providing accurate and timely information about SUNY Orange programs, classes, resources, services, policies and procedures, as well as transfer and career opportunities; developing an understanding of the college experience and curriculum; facilitating students’ self-sufficiency; and fostering students’ intellectual and personal development toward academic success and lifelong learning.

Based on a student’s area of study, an academic advisor is assigned to assist students in developing and meeting their academic goals. Advisors work collaboratively with students in an intentional educational process to assist in the development, implementation and achievement of educational, career and life plans.

• Declared Students: Students are assigned an advisor, often a faculty member within their major department, who will help guide them through the requirements and opportunities within their chosen field of study.

• Undeclared Students: An advisor will guide students in developing academic and career goals, and these students may also derive benefit from the major and career exploration resources available in the Office of Career and Internship Services.

• Developmental Students: Individualized attention is provided to students who, based on the assessment test, are taking courses to prepare them for their major course of study.

Transfer Advising

The Advising and Counseling Center assists students with the transfer process by helping them understand how to: go about selecting a transfer institution; the transfer process and the SUNY transfer guarantee; and how to find information about the application requirements and process, and appropriate courses for their institution of choice. The Center also provides transfer workshops and arranges visitations by 4-year transfer representatives from a variety of institutions throughout the year. During College Transfer Days in the fall semester, the Advising and Counseling Center invites approximately 90 public and private college and university representatives to campus to meet and discuss their programs with students.

As members of the New York State Transfer and Articulation Association, the Advising and Counseling Center has developed contacts with many of the four-year colleges and universities where a majority of SUNY Orange students transfer to complete their undergraduate and post-graduate degrees. These relationships are instrumental in helping guide students, and careful planning can streamline the transfer process to their college of choice. The Advising and Counseling Center will assist students with this process by helping them understand how to: go about selecting a transfer institution; the transfer process and the SUNY transfer guarantee; and how to find
Advising and Counseling/Student Services

information about the application requirements and process, and appropriate courses for their institution of choice.

All New York residents who transfer directly from a SUNY or CUNY two-year college with an A.A. or A.S. degree are guaranteed admission to a four-year SUNY College for full-time study. The transfer guarantee becomes effective if a student is denied admission at all four-year college choices. Please refer to www.suny.edu/student for applications, and important eligibility and deadline requirements.

Placement Test Advising

All new college applicants are required to complete the placement test prior to registering unless they have been granted a waiver based on previous college-level course work. The test determines appropriate course placement to correspond to the student’s skill level, and students who do not hold a valid H.S. diploma or G.E.D. from an accredited high school must meet minimum requirements to be academically eligible for financial aid.

Using these placements, students will begin classes at a level where they are most likely to succeed. Advisors are available to discuss how the results of the placement test fit into a student’s academic plans. Contact the Advising and Counseling Center: 845-341-4070 in Middletown, or Student Services Central: 845-341-9502 in Newburgh.

Students who have a documented disability and wish to request special accommodations must make arrangements with the Office of Accessibility Services prior to the test: Middletown: 845-341-4077; Newburgh: 845 341-9034.

Veterans Affairs

The College’s Veterans Affairs Certifying Official, located in the Advising and Counseling Center, provides benefit information, enrollment certification and support services to meet the needs of military veteran students and their dependents. Additionally, a designated Academic Advisor works with veteran students to help them develop and pursue academic plans, acclimate to the academic environment, and secure any additional resources necessary to facilitate success. For further information contact the Advising and Counseling Center in Middletown at 845-341-4070, or Student Services Central in Newburgh at 845-341-9502.

Workshops/Classes/Programs

Throughout the semester, the Advising and Counseling Center offers workshops classes and programs designed to assist students in developing necessary skills and resources, and to provide information to help achieve their goals. These include workshops on transfer planning and veterans’ opportunities, group advising for specific degree programs, mental health screenings, college success seminars, and more. **College Email Policy**

Effective Aug. 30, 2010, SUNY Orange will use e-mail as the official means of communicating academic and administrative information to students. Most announcements will come to a student’s e-mail in-box in the form of the “Student Grapevine” (sample at right)

**Assignment of E-mail Address**

SUNY Orange assigns an e-mail address (@sunyorange.edu) to each registered student. This College-issued e-mail account will be designated as the student’s official e-mail address when administrative and academic departments need to communicate with students.

**College Responsibility**

The College is responsible for communicating with students in a timely and accurate way about changes in policies, procedures and deadlines that affect them. The College will select the most appropriate method (mail, telephone, e-mail) to convey pertinent information to specific groups of students. In some cases, e-mail may be used exclusively. Routine announcements, administrative and academic dates and deadlines, and information of a general nature will typically only be sent by e-mail.

**Student Responsibility**

Students are responsible for receiving, reading, responding to and complying with official e-mail communications sent by the College. Because information may be time-sensitive, students are encouraged to check their e-mail regularly (daily, several times weekly) throughout the semester.

Students who opt to redirect their @sunyorange.edu e-mail account to another personal e-mail account do so at their own risk. The College is not responsible for e-mail that is not delivered to a forwarded address or for spam filters that may block e-mail messages. The student’s failure to receive or read e-mail communications does not constitute an excuse for missing College communications or College deadlines.
