1. President's report:

- Presented a draft of a survey. If you have any suggestions or concerns about it, let her know.

b. Executive Committee Update

- A question was raised to Senate on how can someone from the college know how to come to us and ask for money. Answer is, clubs should know already as to they should be the only ones who can ask for more money later on.
- Guided Pathways: there is going to be an assembly in Middletown on Monday to talk more about this and get feedback from faculty.
- Governance Committee: It was argued that because it is so late in the semester, we won't recruit anymore until the beginning of the next semester. Barbara recently stated that Senate needs to fill in those committee seats now because it was our responsibility since the beginning.
