

4/30

RAD TECH Q&A

Learn about Radiologic Technology

Interested in a career in Radiologic Technology but not sure where to start? Thinking about a field in healthcare but not sure which is right for you? Join the Diagnostic Imaging Department **April 30th** to learn about the AAS degree in Radiologic Technology at SUNY- Orange. Get an overview of the field, learn what exactly a technologist does, hear what local employers have to say about the profession and growth, then ask whatever questions you have!

No registration / No college enrollment required – Open to the public

See our website for program information
