ARTICULATION AGREEMENT
between
ORANGE COUNTY COMMUNITY COLLEGE
and
ROCKLAND COUNTY COMMUNITY COLLEGE

This articulation agreement defines the terms under which Rockland County Community College course credits are transferable to Orange County Community College as they relate to one program—Medical Laboratory Technology. In what is essentially a 1/2 plus 1 1/2 year plan, students from Rockland County Community College will be admitted on a space available basis into the spring semester of their freshman year.

Orange County Community College agrees:

1. To schedule a meeting between students seeking transfer into the Medical Laboratory Technology program with the Program Director.

2. To accept the following Rockland County Community College credits for which the student has a C or better:

   English 101
   General Chemistry I
   A mathematics course
   Anatomy and Physiology I
   Any social science
   One credit of Physical Education

3. To admit students on a space available basis—at the mid-point of their freshman year, thereby making it possible for the student to graduate following three semesters and one summer session at Orange County Community College. (In order to complete the clinical training requirement, the student would do his/her clinical work during the first summer session after the second year, and graduate in August).

4. To provide a procedure for those students not able to enter the program because of space restrictions, to be placed on a waiting list for next year’s class. (In such an instance the student could take hematology the following fall and thereby “catch up” with other students and take his/her clinical training on schedule and graduate in June.)

5. To make available all of the support services offered to other students. These include but are not limited to counseling, financial aid, scholarships, academic advisement, and career planning.

6. To apply on an equal basis all academic policies in effect at Orange County Community College.

7. This agreement takes effect January, 1992.
It is further agreed that representatives from each campus will confer on an annual basis to review and, if necessary, modify the agreement because of curriculum changes at either institution. All modifications will be included in a revised document which will be duly published at both colleges.
