ARTICULATION AGREEMENT
between
ROCKLAND COUNTY COMMUNITY COLLEGE
and
ORANGE COUNTY COMMUNITY COLLEGE

This articulation agreement defines the terms under which Orange County Community College course credits are transferable to Rockland County Community College as they relate to one program — Respiratory Care. In what is essentially a 1 1/2 plus 1 1/2 year plan, students from Orange County Community College will be admitted on a space available basis into the spring semester of their freshman year.

Rockland County Community College areas:

1. To schedule a meeting between students seeking transfer into the Respiratory Care with the Program Director.

2. To accept the following Orange County Community College credits for which the student has a C or better:
   - English 101
   - General Chemistry 1 or Applied Chemistry 1
   - A mathematics course
   - Anatomy and Physiology 1
   - General Psychology
   - One credit of Physical Education

   Additional courses would be accepted as degree requirements or electives for which the student has a C or better.

3. To admit students on a space available basis — at the midpoint of their freshman year, thereby making it possible for the student to graduate following three semesters, one winter session and two summer sessions at Rockland County Community College. (In order to complete the clinical training requirement, the student would graduate in August.)

4. To provide a procedure for those students not able to enter the program because of space restrictions, to be placed on a waiting list for next year’s class.

5. To make available all of the support services offered to other students. These include but are not limited to counseling, financial aid, scholarships, academic advising, and career planning.
6. To apply on an equal basis all academic policies in effect at Rockland County Community College.

7. This agreement takes effect March, 1991.
It is further agreed that representatives from each campus will confer on an annual basis to review and, if necessary, modify the agreement because of curriculum changes at either institution. All modifications will be included in a revised document which will be duly published at both colleges.
