

Fall 2022 Medical Laboratory Technician Pre-Admission Seminar Schedule

Students applying to the Medical Laboratory Technician program are required to attend **one** *Pre-Admission Seminar* within three years prior to the application deadline (February 1st).

This seminar is an important and informative time when a Clinical Laboratory Science instructor will describe the Medical Laboratory Technician program and an Admissions specialist will describe the admissions process. In addition, you will have an opportunity to ask questions about the Medical Laboratory Technician Program. Prospective students will receive and sign off on information pertaining to health forms, drug testing and criminal background checks.

Failure to attend a seminar in its entirety will forfeit student's application for admission consideration.
