**Students who place into developmental reading and/or writing courses must be enrolled in these courses, or the equivalent, every semester of attendance until they receive a grade of DVP or have otherwise satisfied the requirement. Students who placed in developmental math courses must complete these courses, even though there may not be a specific math requirement in their curriculum. Developmental courses may be prerequisites for certain college credit courses.*

Developmental Course Grades

DVF Developmental Fail - Student must repeat the course.
DVP Developmental Pass - Student successfully completed the course.
ZDF Developmental Fail - Student must repeat course due to poor attendance.

Developmental Course Repeat Policy

Academic Policy #27-I Students who receive a grade of “DVF” in a developmental course will be allowed to repeat that developmental course only two additional times for a total of three attempts. If students do not successfully complete a particular developmental course by the third attempt, they will be separated from the College for one year.

An Academic Advisor will review your placement assessments with you during your initial registration appointment. There may be options for reassessment of placement. Ask the Academic Advisor for details.
