

SUNY Orange Policy Manual

Policy Number	Policy Title
BP4.5	Traffic Code

The operator of any vehicle on the College campus shall comply with the legal instructions of any campus security officer and all traffic signs in accordance with the provision of these regulations. The College shall be responsible for ensuring that the necessary signs are erected and maintained to carry out the intent of these regulations.

The College shall ensure that information about operating a motor vehicle on College campus is given out at every student orientation and registration. Each student shall have an opportunity to obtain a copy of the Traffic Code. A copy of the Traffic Code shall be included in all Student Handbooks. Failure to obtain such a copy is not, however, an excuse for violation of the Traffic Code.

All vehicles to be operated on campus should be properly registered and display a parking decal from the rear view mirror. Students, faculty, and staff are expected to register their vehicles. The parking decal is good for one academic year or fraction thereof, beginning in the fall semester. Parking decals are obtained normally during registration, but may be secured from the Student Activities Office at other times.
