Founded 1950
An institution of higher education established by authority of the State University of New York and sponsored by the County of Orange.

Accredited by Middle States Commission on Higher Education

An Equal Opportunity/Affirmative Action College
Dear students

Thank you for choosing SUNY Orange to pursue the next step of your academic career. We certainly are facing an unprecedented time in our nation’s history, and appreciate your decision and trust in our faculty, staff, and administration. You have my promise that as we navigate the challenges of this global pandemic, we’ll continue to do our very best to deliver the same robust academic experience that has been a hallmark of the College for 70 years.

As you read more about the College in the ensuing pages of this Catalog, you will find a wide selection of degree programs that match your skills and interests, as well as a broad framework of student services available to help us support you.

What these pages cannot as accurately and fully portray is our commitment to helping students from all walks of life become successful. Many of our faculty members are experts in their fields, and they truly create the type of supportive and nurturing environment that sets community colleges apart from other institutions of higher learning. At the same time, they oversee a rigorous curriculum that will challenge you and also prepare you for the next chapter of your academic or professional career.

Our Student Services staff will guide through the maze of financial aid options, help you navigate the admissions process and advise you on how to register for your first semester. And once you are enrolled, we gladly provide programming through our Wellness Center, Career and Internship Services, Veterans Services, and Advising Center to support your progress toward graduation.

I can also assure you that student life at the College is more robust and lively than you may imagine. It has been proven that students who are engaged in the activities of their college perform better in class and develop leadership skills that extend beyond their college life. We have a diverse group of student clubs and organizations to help you develop friendships and relationships outside of the classroom.

SUNY Orange also benefits from the support of many friends in the community who recognize the College’s impact upon the region and assist us in our efforts to make Orange County and the Hudson Valley an even greater place to live, work and study.

Join us and see for yourself. I’m confident you will find SUNY Orange to be a challenging, yet comfortable, home for academic, social and career growth.

Sincerely,

Dr. Kristine M. Young
President
About SUNY Orange / Mission, Vision, Values & Goals

□ SUNY Orange
Founded in 1950 as the first county-sponsored community college in the State University of New York (SUNY) system, Orange County Community College is fully accredited by the Middle States Commission on Higher Education. The College offers or provides access to a total of 40 accredited academic programs that are designed for transfer and/or career preparation.

Orange County Community College reserves the right to make any changes, delete any courses or to effect any changes in the curriculum without notice. This right extends to administration, policies, tuition and fees and any other phase of school activity. Each student is expected to have a knowledge of the information printed in this catalog. Updates to the College Catalog will be posted to the College website: www.sunyorange.edu.

□ Notice of Non-Discrimination
Orange County Community College does not discriminate on the basis of race, color, national origin, religion, creed, age, disability, sex, gender identification, sexual orientation, familial status, pregnancy, predisposing genetic characteristics, military status, veteran status, domestic violence victim status, criminal conviction or any other category protected by law. The College adheres to all federal and state civil rights laws prohibiting discrimination in public institutions of higher education.

Inquiries regarding this non-discrimination policy may be directed to:
Iris Martinez-Davis
Civil Rights Compliance Officer
115 South Street, Middletown NY 10940
(845) 341-4662
iris.martinezdavis@sunyorange.edu

□ COVID-19
As we navigate the unprecedented challenges of the global COVID-19 pandemic, we recognize the need to adjust College operations, as well as delivery of academics and student services, as dictated by local, state, or federal health requirements. We remain committed to ensuring the health and safety of students, faculty and staff, while also preserving the integrity of our academic curriculum.

□ Vision, Mission, Values & Goals

Vision
Orange County Community College will be an exemplary community college transforming lives through academic excellence, innovation and partnerships.

Mission
We are a community of learners dedicated to providing high-quality and accessible educational and enrichment opportunities that foster lifelong learning.

Values
To fulfill the mission and vision of the College, we are committed to:
• Excellence
• Integrity
• Inclusivity
• Inquiry
• Creativity
• Collaboration
• Stewardship

Goals
1. To provide high quality academic courses and programs that prepare a diverse student population to achieve its educational, employment and enrichment goals.
2. To engage learners in an environment that develops their knowledge and skills in critical thinking, information and technology literacy, effective communication and enhances their awareness of civic responsibility and cultural diversity.
3. To establish public and private partnerships and provide programs and services that support and serve our county’s educational, economic, civic and cultural needs.
4. To promote student growth and development by providing comprehensive and innovative academic and support services.
5. To offer opportunities to learn with a dedicated and diverse faculty and staff who value excellence in teaching, service to students, creative collaboration and continuous improvement.
6. To build and maintain safe, accessible and sustainable facilities that support the learning environment.
7. To identify, secure and allocate resources that advance the strategic priorities of the College.
Colleges Overview

Throughout the past 70 years, SUNY Orange has touched the lives of countless Orange County residents through its academic degree offerings, non-credit enrichment programming and cultural events. With campuses in Middletown and Newburgh, the College has grown to meet the needs of its students, while also addressing the demands of a growing and diverse population in Orange County.

With its picturesque beauty, cozy confines and contemporary functionality, the SUNY Orange Middletown campus has become a comfortable and safe second home to students who seek academic challenge, friendship and lively activity.

The Newburgh campus is located in downtown Newburgh with breathtaking views of the Hudson River. Students stroll a burgeoning campus that provides the latest amenities in its labs, classrooms and study spaces.

Students may enroll in coursework that leads to the completion of one of three academic degrees—the Associate in Arts, Associate in Science or Associate in Applied Science—as well as one-year certificates. Accredited by the Middle States Commission on Higher Education, the College offers academic credits that may be earned through full- or part-time study, with courses primarily offered during weekday and evening hours, as well as online. Some weekend classes are available as well.

Consistent with its mission to provide high-quality and accessible educational and enrichment opportunities, the College is noted for its commitment to ensuring student success. With the support of our caring faculty and staff, each of our students has the ability to achieve his or her academic and career goals. Advising, counseling, and career guidance and exploration are available to all students, as well as co-curricular and leadership opportunities that serve to complement the academic experience.

Public and private four-year colleges actively seek our graduates for transfer into baccalaureate programs. Our graduates have built a longstanding reputation for excelling at their transfer institution, and those students who instead choose to enter the workforce upon graduation from SUNY Orange find success as well.

Over the years, the College has earned its reputation as a pioneer and innovator in meeting the needs of its students and the area it primarily serves. The College was the first two-year college in the nation to offer the associate degree nursing program and studies in electron microscopy; and in 1982, the College was the first community college to plan and co-sponsor a business institute with local chambers of commerce.

Today, under the guidance of an innovative and energetic president and armed with a clear vision that emanates from its Strategic Plan, the College is poised to further elevate its profile within the greater Orange County area as well as the State University of New York (SUNY). The College is comfortable building off its history of academic innovation and is actively engaged in revamping its curriculum and student support programs so that they continue to meet the needs of our students and the community-at-large.

As a respected partner with many businesses, community organizations and civic groups, the College strives to mold the members of its diverse student body into the accomplished professionals and leaders they wish to become, all within an inclusive atmosphere where creativity and forward-thinking ideas are welcomed.

SUNY Orange is governed by a 10-member Board of Trustees, with five members appointed by the Orange County Executive, four members appointed by the Governor of New York and one student trustee elected by the student body.

The Middletown Campus

The College is poised to revamp its curriculum and student support programs.

Throughout the past 70 years, SUNY Orange has touched the lives of countless Orange County residents through its academic degree offerings, non-credit enrichment programming and cultural events. With campuses in Middletown and Newburgh, the College has grown to meet the needs of its students, while also addressing the demands of a growing and diverse population in Orange County.

With its picturesque beauty, cozy confines and contemporary functionality, the SUNY Orange Middletown campus has become a comfortable and safe second home to students who seek academic challenge, friendship and lively activity.

The Newburgh campus is located in downtown Newburgh with breathtaking views of the Hudson River. Students stroll a burgeoning campus that provides the latest amenities in its labs, classrooms and study spaces.

Students may enroll in coursework that leads to the completion of one of three academic degrees—the Associate in Arts, Associate in Science or Associate in Applied Science—as well as one-year certificates. Accredited by the Middle States Commission on Higher Education, the College offers academic credits that may be earned through full- or part-time study, with courses primarily offered during weekday and evening hours, as well as online. Some weekend classes are available as well.

Consistent with its mission to provide high-quality and accessible educational and enrichment opportunities, the College is noted for its commitment to ensuring student success. With the support of our caring faculty and staff, each of our students has the ability to achieve his or her academic and career goals. Advising, counseling, and career guidance and exploration are available to all students, as well as co-curricular and leadership opportunities that serve to complement the academic experience.

Public and private four-year colleges actively seek our graduates for transfer into baccalaureate programs. Our graduates have built a longstanding reputation for excelling at their transfer institution, and those students who instead choose to enter the workforce upon graduation from SUNY Orange find success as well.

Over the years, the College has earned its reputation as a pioneer and innovator in meeting the needs of its students and the area it primarily serves. The College was the first two-year college in the nation to offer the associate degree nursing program and studies in electron microscopy; and in 1982, the College was the first community college to plan and co-sponsor a business institute with local chambers of commerce.

As a respected partner with many businesses, community organizations and civic groups, the College strives to mold the members of its diverse student body into the accomplished professionals and leaders they wish to become, all within an inclusive atmosphere where creativity and forward-thinking ideas are welcomed.

SUNY Orange is governed by a 10-member Board of Trustees, with five members appointed by the Orange County Executive, four members appointed by the Governor of New York and one student trustee elected by the student body.

The Middletown Campus

From its original configuration of two buildings—a mansion and carriage house—in 1950, the Middletown campus has grown to its present size of 37 acres that houses 13 academic and student services buildings. The College’s beautiful and picturesque grounds are landscaped with trees and flowers indigenous to the region, while many paths and walks bisect the former estate.

The mansion, called Morrison Hall in honor of its donors, now houses administrative and faculty offices. The architectural centerpiece of the Middletown campus, Morrison Hall is a magnificent example of turn-of-the-century craftsmanship, featuring beautiful wood carving, mosaic work, stenciling, ornate marble fireplaces and a large stained glass window designed by Louis Tiffany. Horton Hall, the former carriage house, now provides additional administrative space for the College.

Expansion over the years has infused the campus with significant additional educational space. The Middletown campus now boasts more than 60 general classrooms and lecture halls, along with a wide array of medical, technical and instructional laboratories. Dedicated laboratory space exists for programs in the health professions, as well as biology, chemistry, physics, architecture, criminal justice, cyber security and visual communications.

Hudson Hall, Harriman Hall and the Bio-Medical Technology Building contain classrooms, lecture halls, laboratories and faculty offices. Orange Hall features a well-equipped theater as well as rehearsal rooms and performance space. The Library can accommodate 700 patrons who are afforded access to more than 95,000 print and non-print resources, videotapes, computer software and digital collections.

The George F. Shepard Student Center houses a micro market food court, the College bookstore and nearly every student support function at the College. The Edward A. Diana Physical Education Center contains six handball courts, a swimming pool, the Chris Schmid gymnasium (capacity 3,000), human performance lab, three classrooms and an exercise room. Adjacent to the building are soccer and softball fields.
The Gilman Center for International Education contains a lecture room, student study space and an aluminum and glass foyer, along with casework displaying papers and memorabilia from Congressman Ben Gilman’s long tenure in Washington, D.C. The Devitt Center for Botany and Horticulture includes a functioning greenhouse, the foundation of which is original to the estate, along with a glass foyer, along with casework displaying papers and memorabilia from Congressm an Ben Gilman’s long tenure in Washington, D.C. The Devitt Center for Botany and Horticulture includes a functioning greenhouse, the foundation of which is original to the estate.

The Rowley Center for Science & Engineering, which opened in August 2014, offers students and faculty in the STEM-related programs of science, biology, engineering and architecture the finest technological advances and state-of-the-art laboratory space, all under one roof. The Morrison Lab School at Middletown, as well as the Newburgh Campus Lab School, house the College’s child care services and serve as working laboratories for the College’s education students.

The Newburgh Campus

Certified as a branch campus by both the State University of New York and the New York State Education Department, the Newburgh campus offers selected academic degree programs in their entirety, enabling students in those programs to complete all of their degree requirements at the Newburgh site without having to commute to the Middletown campus. The full degree programs available in Newburgh include business administration, business management, criminal justice, criminal justice-police, human services, individual studies, liberal arts (humanities and social science) and nursing.

In addition to its credit courses and programs, the Newburgh campus provides a variety of non-credit courses, certificate programs and personal enrichment classes, as well as a number of grant-funded employment and training initiatives and a program in ESL, all under the direction of the College’s Continuing and Professional Education Department (CAPE).

The campus features Kaplan Hall and the Tower Building, both of which offer students contemporary, state-of-the-art classrooms and laboratories. Kaplan Hall, an 87,000-square-foot building that opened in January 2011, houses classrooms and science laboratories, as well as a two-story library, a one-stop center for all student services, a micro market café where students can mingle, and office spaces. A secure underground parking garage is accessible off First Street near Ebenezer Baptist Church. Additionally, a spectacular Great Room with a capacity of approximately 200 people provides a gathering space for campus and community groups alike.

The six-story Tower Building, at the corner of Broadway and Colden Street, features general purpose classrooms, computer labs, art studios, a forensics lab, student government and activity space, a bookstore, a childcare center, a fitness center, and administrative offices.

The College operates a free daily shuttle service between its Newburgh and Middletown campuses.

Academic Programs

The College offers 40 degree and certificate programs within the broad categories of business, health professions, human services, technology and liberal arts.

As a member of the 64-school State University of New York, SUNY Orange affords its students the confidence that all, or most, of their credits will transfer to a four-year SUNY institution, meaning they can remain on track to complete their studies. The College has also established transfer agreements with many other colleges and universities to facilitate smooth transitions for our students.

The College is committed to providing “experiential learning” opportunities. For example, accounting students have assisted community members with filing their taxes; engineering students have developed a solar-powered car and boat; biology students participate in local water monitoring and mosquito trapping; and architecture students visit local sites to enhance their classroom learning. Health professions students enjoy the highest-quality clinical experiences available.

Student research, as another means of expanding academic horizons, is encouraged. The College supports such endeavors by hosting an annual SUNY Orange Achievements in Research and Scholarship (SOARS) conference. There is also a robust Honors Program for students who desire a more challenging academic experience.

In addition, SUNY Orange also offers students a chance to secure a bachelor’s degree in certain programs without ever leaving Orange County, thanks to its relationship with Franklin University and its Community College Alliance. Participation in the Hudson Valley Educational Consortium brings emergency response and innovative technology degree programs from other community colleges in the area to the classrooms of SUNY Orange.

Continuing and Professional Education (CAPE) programming provides non-credit courses in a host of subject areas, including technology, healthcare, business and enrichment.

Student Profile

SUNY Orange students come from all walks of life and are committed to their education. Our graduates speak highly of a curriculum that challenges them and prepares them to thrive when they transfer to four-year institutions.

Enrollment reports for the 2019 Fall semester reveal that slightly more than half (54.1 percent) of SUNY Orange’s students attend the College full-time, while the average age of the SUNY Orange student is 23 years old. Females comprise 59.2 percent of the College’s enrollment. A sizeable majority (82.3 percent) of students reside in Orange County while 71.9 percent of SUNY Orange students fall into the “traditional” category (age 24 or younger).
Nearly 29.6 percent of SUNY Orange students are Hispanic/Latino while 13.9 percent are African-American. The College’s diversity demographics within the student body mirror the diversity of the overall population of Orange County. Other race/ethnicity classifications account for 9.7 percent of the student population. The remaining 46.8 percent are white.

**Student Resources**

Consistent with its mission to meet the higher education needs of students, the College is noted for its commitment to ensuring student success. Students enter SUNY Orange with a variety of goals, including: seeking an associate’s degree; transferring to a four-year institution; acquiring skills and knowledge for employment opportunities; and personal enrichment. With the support of caring faculty and staff, each student has the ability to achieve his or her academic and career goals.

The College demonstrates its commitment to students’ success by providing comprehensive services that include individualized assistance in advising, counseling, tutoring and mentoring. Nearly every College service features some component aimed at helping students complete a successful stay at SUNY Orange. Federal and state grant funding has helped the College offer TRIO and EOP programs for eligible students.

Computer and tutorial laboratories are easily accessible throughout both campuses so students can refine their skills with one-on-one instruction from a professor or tutor, or work on class projects and papers. Faculty members routinely are available for additional meetings, outside of the classroom setting, in order to help students successfully navigate the curriculum.

There are an array of online support systems in place as well through MySUNYOrange, the College’s web-based portal where students can access records, pay bills, log in to the Blackboard online learning community, manage their degree requirements, check email and locate other critical College information.

Career guidance and exploration are also available to all students, along with co-curricular and leadership opportunities that serve to complement the academic experience.

In addition, the College continually evaluates and revises its list of academic offerings in order to provide students with the latest curricula, contemporary new degree programs and relevant certificate programs.

**Orange County**

Orange County is bordered by the Hudson River on the east and the Delaware River on the west. Located approximately 60 miles north of New York City, the county combines beautiful rolling countryside with a vibrant economy and ideal location to offer one of the country’s most desirable residential locations. With an exceptional transportation infrastructure and an affordable quality of life, Orange County is the fastest growing county in New York State.

More than 80 percent of SUNY Orange students come from Orange County, and a sizeable number of our graduates live and work in the Hudson Valley. Our graduates contribute to the vitality of the county, and the College delivers a sizeable economic, social and cultural impact upon the region (estimated at $301.5 million during the 2010-11 academic year).

**The State University of New York**

SUNY Orange is one of 30 two-year community colleges that comprise part of the State University of New York, the largest comprehensive university system in the United States, educating nearly 460,000 students in more than 7,500 degree and certificate programs on 64 college and university campuses, and online through Open SUNY. SUNY students and faculty across the state make significant contributions to research and discovery, resulting in nearly $1 billion of externally-sponsored activity each year. There are 3 million SUNY alumni worldwide.

SUNY is governed by a board of trustees, appointed by the governor, which directly determines the policies to be followed by the 34 state-supported campuses. Community colleges have their own local boards of trustees whose relationship to the SUNY board is defined by law. The State University motto is: "To Learn—To Search—To Serve."

The 30 two-year community colleges operating under the SUNY program play a unique role in the expansion of educational opportunity by:

- providing local industry with trained technicians in a wide variety of occupational curriculums
- providing transfer options for students who wish to go on and earn advanced degrees, and
- providing the community with yet another source for technical and professional upgrading as well as personal enrichment.

**Your Right to Know**

Federal Student Right-to-Know legislation requires colleges and universities to report the percentage of full-time students who began and completed their program requirements within 150% of the normal time for completion – three years for an associate degree.

Additionally, the federal government requires institutions to track and report the percentage of first-time, full-time students who return to the college for their second year of instruction.

In both measurements, SUNY Orange performs consistently well. Forty-five percent of the Fall 2015 cohort (the most recent to complete 150% of their time since entering the College) have either graduated or transferred to another institution. While 63 percent of the first-time, full-time students entering SUNY Orange in the Fall of 2017, returned for the Fall 2018 semester.
For more information, or to compare SUNY Orange to other institutions, please visit the National Center for Education Statistics at

■ Tobacco Free College

The SUNY Orange Board of Trustees has adopted a Tobacco Free policy for both campuses of the College. The policy bans the use of tobacco products on the Middletown and Newburgh campuses, except in:
• College-owned and numbered parking lots on the Middletown campus.
• The plaza patio area between the Tower and Maple Buildings on the Newburgh campus.
• The First Street entrance to the campus promenade on the Newburgh campus.

■ Campus Safety and Security Statistics

In compliance with the Campus Safety and Security Act of 1998 (Clery Amendment) and New York State Education law Article 129-A, SUNY Orange maintains crime statistics related to crimes reported to campus security and local law enforcement agencies.

These statistics can be obtained by visiting the U.S. Department of Education Office of Postsecondary Education website at http://www.ope.ed.gov/security/Search.asp or by visiting the SUNY Orange website at http://www.sunyorange.edu/safety.html.

The federal government site offers the statistics for colleges across the nation. You may search the web site for SUNY Orange by name or by using our OPE ID. The OPE ID is an identification number used by the U.S. Department of Education's Office of Postsecondary Education (OPE) to identify schools. SUNY Orange's ID is 00287600. For more information or a hard copy of the report, contact the Director of Safety and Security.

■ Hudson Valley Educational Consortium

SUNY Orange is also a founding member of the Hudson Valley Educational Consortium, a four-school alliance designed to create broader access to academic programs and workforce training throughout Orange, Ulster, Sullivan and Rockland counties. The four member colleges develop and offer two-year degrees in such areas as Cyber Security, Fire Protection Technology, and Green Building Maintenance and Management. A wide range of continuing education certification programs are also available. Students are encouraged to take their general education coursework at their “home” colleges. Students participate in Consortium programs to the greatest extent possible from their “home” college via online and interactive television video rooms; however, some courses require students to travel to “lead” colleges.
Admission to SUNY Orange is open to all graduates of an accredited and/or registered high school or to those who have received a state-issued HSE or GED diploma. Once formally admitted to the College in a degree program, students may choose to pursue their degree on a full-time (12 credits or more per semester) or part-time (less than 12 credits) basis. In order to receive financial aid, students must be accepted and enrolled into one of the College's degree programs.

Formal admission to the College assures students that their course requirements for completion of degree or certificate programs will not change, even in the event that the College revises its program requirements during the student’s period of study. In addition, the College will complete a thorough appraisal of transfer credits that may have been earned from another college or university, or through advanced placement or other examinations.

■ Application Deadlines

A completed admissions application, all related transcripts and documents must be received prior to the application deadline to receive full consideration.

Fall Semester

Feb. 1: Health Professions Programs
May 1: Honors Program
L.P.N. to R.N. Program
June 1: International students (domestic transfers)
Two weeks prior to the start of the semester:
General Admission

Spring Semester

Oct. 1: International Students
Spring Nursing (Newburgh campus)
L.P.N. to R.N. (Middletown campus)
Dec. 1: Honors Program
Two weeks prior to the start of the semester:
General Admission

Summer Session

Two weeks prior to the start of the semester:
General Admission

■ The Admission Process

The Application

Students may apply for Admission online for full-time or part-time status at www.sunyorange.edu.

Admission to SUNY Orange is open to all graduates of an accredited and/or registered high school or to those who have received a state-issued HSE/GED diploma.

Students may request more information about SUNY Orange by emailing apply@sunyorange.edu.

Admission requires an official high school transcript or proof of high school equivalency.

State University of New York (SUNY) policy prohibits SUNY Orange admission applications from inquiring into an applicant's prior criminal history. After acceptance, the College shall inquire if the student previously has been convicted of a felony if such individual seeks campus housing or participation in clinical or field experiences, internships, or study abroad programs. The information required to be disclosed under SUNY policy regarding such felony convictions shall be reviewed by a standing campus committee consistent with the legal standards articulated in New York State Corrections Law.

English and math Placement Requirements

All students who are accepted as degree-seeking students are required to complete the English and math placement requirements prior to course registration. Students may qualify for a placement waiver

- English placement will be determined based on students’ high school GPA and/or 11th grade English course or GED records.
- Math placement will be determined by the Math Placement Survey for placement into the appropriate mathematics course. Students with a GED or High School Equivalency (HSE) will be contacted after completion of the survey by the Math Department to discuss placement.

New York State Department of Health Mandatory Proof of Immunization

New York State Public Health Law requires that all students born on or after Jan. 1, 1957, who wish to enroll for six or more credits in any one semester, provide proof of immunity to measles, mumps and rubella. Acceptable proof of immunity requires two dates of measles immunization, one of rubella and one of mumps, all given after 1968, and on or after your 1st birthday. In addition, all students, regardless of age must sign and return the College's Meningitis Response Form, indicating they have received the information about meningococcal disease and have either received or waived the
Admissions Procedures and Requirements

vaccine.

Students will not be allowed to register for classes until they have submitted their immunization records to the Wellness Center, showing proof of at least one measles immunization.

Immunizations are not provided on campus. If you believe you qualify for an exemption based on medical reasons, please email the Wellness Center.

Health Professions Applicants

Students interested in applying for admission to one of SUNY Orange’s Health Professions programs follow a different admission process with earlier deadlines and more stringent entrance requirements. The particular admission requirements for the College’s Health Professions are listed alongside the respective program’s description later in this catalog. Additional information on particular Health Professions programs, including the Health Professions application, can be accessed at www.sunyorange.edu/admissions/health_professions/index.html or by attending a Health Professions information session.

All students accepted into a Health Professions program must successfully complete an annual physical examination which includes a Tuberculosis screening. A drug screen and background check are also required once the student has been accepted.

Physical Examination Requirements

Students must complete the form which is provided by the College. Health Professions students must meet the New York State Department of Health physical examination and immunization regulations for Health Care workers. Exams are to be completed and submitted to the Wellness Center within the timeframe stated on the form for each program. Upon receipt of your complete physical, the nurse in the Wellness Center will issue a clearance form. Students will not be permitted to begin their Health Professions classes without this clearance form.

NOTE: The Health Professions regulations exceed the immunization requirements that you may have already met for prior attendance at the college. Health Professions students must have an annual physical exam, an annual screening for Tuberculosis, and proof of immunity to Measles, Mumps, Rubella, and Varicella by documentation of two MMR and two Varicella vaccines, or positive blood titers, regardless of age and/or prior immunization or disease history. Immunization for Tetanus or TDAP and Hepatitis B is recommended, though not required. The annual flu vaccine is also recommended as most clinical sites expect this.

Your health care practitioner is required to sign a statement, that to the best of their knowledge, you are free from any physical or mental impairment which would pose a potential risk to patients, or might interfere with the performance of your duties. Students must also either complete the Hepatitis B vaccine series or sign an annual waiver declining the Hep B vaccine. It is highly recommended that all Health Professions students complete the Hepatitis B vaccine series as a safe and effective way of preventing Hepatitis B infection.

College Credits for Current High School Students

Academically qualified high school students in their junior or senior year have two options for earning college credit at SUNY Orange: The College Experience Program (CEP) and the Community College in the High School Program (CCHSP).

College Experience Program (CEP)

The College Experience Program allows high school juniors and seniors to take credit courses on the SUNY Orange campus in Middletown or at the Newburgh campus. Credits earned while participating in the College Experience Program may be applied toward a degree at SUNY Orange or may be transferred to another college or university.

Program Guidelines

Part-time participation in the program is open to high school juniors. Seniors may take part on either a part-time or a full-time basis. The part-time classification allows students to take up to eight credits (one to two courses) per semester and up to 4 credits per summer session. Full-time participation requires four courses (12-15 credits) per semester and six credits in a summer session.

To be eligible, a student must meet the following:

• Seniors need a minimum cumulative GPA of 85 and a minimum score of 85 on the NYS Regents Exam that corresponds to their SUNY Orange course, if applicable.

• Juniors need a minimum cumulative GPA of 90 and a minimum score of 90 on the NYS Regents exam that corresponds to their SUNY Orange course, if applicable.

• To study English, you must be a senior and have earned an 85 or higher on the NYS English Language Arts Exam (Regents).

• Students enrolled in the CCHS program who wish to be concurrently enrolled in the CEP, may take no more than 15 credits total.

Application Process

To apply for the College Experience Program:

• Complete an online College Experience Program Application indicating the courses that you wish to take at SUNY Orange. Students must reapply each semester.

• Submit an official high school transcript and a letter of recommendation from your guidance counselor indicating your ability to do college work.

• An interview is required for both the applicant and parent/guardian as part of the admissions process.

Important Program Information

• Accepted CEP students must be registered prior to
Admissions Procedures and Requirements

Community College in the High School Program (CCHSP)

The Community College in the High School Program gives qualified high school juniors and seniors the opportunity to take college courses for credit in their own high schools. Please contact the Office of Educational Partnerships at (845)341-4760 or (845)772-1229 for more information.

Home-Schooled Students

Students who have been home-schooled will receive consideration for admission if they submit the following:

- Documentation that confirms compliance with the minimum requirements of the home instruction regulations (include home school instruction plan).
- A letter from a local school district providing that the student followed the above regulations leading to the receipt of a high school diploma or its equivalent.

Please contact the Director of Admissions at (845) 341-4205 for more information.

International Student Admissions

This college is authorized under Federal Law to enroll nonimmigrant students.

Students who have attended or graduated from secondary school and/or universities outside of the United States must follow the College’s general application process.

In addition, read the instructions below and follow those that pertain to you.

- If you are a citizen, permanent resident or have another immigrant status and have completed secondary school and/or college in a country other than the United States, you must have all transcripts and diplomas evaluated by an agency listed at www.naces.org.
- If you are applying for a student visa (F-1), or if you are currently attending a U.S. college or university and wish to transfer to SUNY Orange on a student visa, you must complete the International Student Application process. You may obtain information from the Office of Admissions either in person, by mail, or by visiting our website at www.sunyorange.edu/admissions/apply/international.shtml.
- If you have a Tourist Visa (B-1, B-2), U.S. immigration law states that you are not permitted to enroll in a full course of study.
- If you enroll at SUNY Orange, the College is mandated by law, via the Student and Exchange Visitor Information System (SEVIS), to collect and report information for the U.S. Citizenship and Immigration Services (USCIS).
- As long as you are enrolled at SUNY Orange you will be responsible for keeping a Designated School Official apprised of information related to these immigration law, and maintaining full-time status.

Additional Admissions Information

Transferring to SUNY Orange

SUNY Orange welcomes applications from students who have previously studied at other colleges or universities. In addition to an application, prospective transfer students must submit official transcripts from all previous colleges. Only previous college courses completed with a grade of C (2.0) or higher will be eligible for transfer consideration. A maximum of 30 transfer credits may be accepted. All official, final college transcripts must be received prior to the end of your first semester to be evaluated for transfer credit. After one semester, your transfer credit evaluation for all coursework taken prior to enrolling at Orange is considered final.

High School Equivalency Diploma (HSE)

Applicants who have earned a High School Equivalency(HSE) may forward a copy via email to apply@sunyorange.edu. The official copy of the HSE diploma and scores may be acquired from: New York State Education Department, Bureau of Higher and Professional Education Testing.

Readmission to SUNY Orange

Former SUNY Orange students who were previously enrolled but have not attended the College for two or more semesters (excluding summer) are required to complete a new application.

Students who were separated from the College may seek readmission, but will be limited to 14 credits and must first complete any required developmental courses.
Admissions Procedures and Requirements

Adult Students

Adult students who are preparing for a new career, seeking an upgrade in employment or looking to enrich themselves, are encouraged to attend SUNY Orange on a full-time or part-time basis. The College offers class schedules during the day, evening, and online that are accessible on the campuses in Middletown and Newburgh.

Adult students who have taken courses elsewhere may transfer those credits back to SUNY Orange if the courses are applicable to that student’s selected degree program.

College Level Entrance Examinations (CLEP), Regents College Examinations (RCE) and Advanced Placement Examinations (AP)

There are three examinations that may assist students in receiving college credit for work experience or learning done outside of the college setting.

Students can earn college credit by taking and passing the College Level Examination Program (CLEP) Subject Examinations offered by the College Board. The Regents College Examinations (RCE) can be taken through the New York State Proficiency Examination Program. High school students who have completed advanced placement courses may acquire college credit by taking the College Board’s Advanced Placement Examinations (AP).

To receive credit for any of these examinations, four conditions must be met:

- You must be formally admitted to SUNY Orange.
- The credit to be awarded must be applicable to your degree program.
- Your scores must be at least equal to the Mean Score for a C (2.0) as recommended by the American Council on Education (ACE) for the CLEP subject area in which you were tested.
- Official test results must be sent directly to the College.

Additional restrictions, or conditions, for each program are as follows:

- In order to receive credit for any composition or literature exam through the CLEP Program, you must also take the optional essay portion of the Subject Examination. The essay must be submitted to SUNY Orange’s Department of English for evaluation.
- Credit is awarded for English only if the credit-granting scores recommended by ACE are substantiated by the essay evaluation.
- Similarly, the essay component of the AP English exam must be submitted for evaluation by the Department of English before credit may be awarded for scores of 4 or 5. Scores of 3 will be considered after the student has taken a department essay to determine if credit can be awarded.

Attending as a Non-Degree Seeking Student

Students with a high school diploma or high school equivalency degree may apply to the College for part-time study without applying for formal admission into a degree program. Students who have not been admitted to a degree program are not eligible for financial aid consideration.

To qualify, students must submit a final transcript or diploma verifying that they are a high school graduate.

SUNY Transfer Guarantee

An opportunity to continue full-time study at a four-year State University college is guaranteed to all New York residents who transfer directly from a SUNY or CUNY two-year college with an A.A. or A.S. degree. To be eligible you must:

1. File your application with SUNY by March 1 for Fall admission and by October 1 for Spring admission.
2. Provide four-year campuses with an official two-year college transcript, showing three semesters of completed studies by March 15 for Fall admission, and by October 15 for Spring admission.
3. Complete all required supplemental application materials by April 15 for Fall admission and by November 15 for Spring admission.
4. The transfer guarantee becomes effective if you are denied admission at all of your four-year college choices.

Please refer to www.suny.edu/student for application, important eligibility and deadline requirements.

Student’s Right to Know

SUNY Orange complies with federal regulations that require undergraduate completion, or graduation rates, be made available to all credit students. The College is required to make available specific statistical data before students make a financial commitment to the College. You will find this information in the “Committed to Student Success” section on page 4 of this Catalog.

Educational Partnerships

To address the educational needs of Orange County’s residents, SUNY Orange collaborates with a diverse group of educational partners. Through its Office of Educational Partnerships, the College extends its educational focus and mission beyond the students on our campus to assist with the varied educational needs of Orange County residents. Our educational outreach efforts include: the Community College in the High School Program, articulation agreements, faculty collaborations, and satellite centers. For more information on these College partnerships, please contact:

Office of Educational Partnerships
Library, Room 202
115 South Street
Middletown, NY 10940
(845) 341-4252

Community College in the High School Program
The Community College in the High School Program (CCHSP) gives qualified high school juniors and seniors the opportunity to take college courses for credit in their own high schools during the regular school day. CCHSP reduces the cost of a college education and shortens the time needed to acquire a degree. For more information, contact your high school guidance counselor or CCHSP at (845)341-4760 or (845)772-1229.

Articulation Agreements

To assure its students enjoy a smooth transition to and from the College, and to establish a foundation for academic achievement by its students, SUNY Orange is continually seeking to refine its current articulation agreements while also pursuing new agreements with colleges and universities across the country.

Articulation with Secondary Schools

To expand community access to higher education opportunities, SUNY Orange has forged articulation agreements with several programs in secondary schools in Orange County. Students from these institutions who successfully complete these articulated courses may receive college credit that is applicable toward degrees and certificates offered by the College.

Articulation Agreements with Other Colleges and Universities

Graduates of SUNY Orange are covered by the State University of New York (SUNY) System Transfer and Articulation Policy that states: “Graduates of two-year colleges within the State University of New York, when accepted with junior status within parallel programs at SUNY baccalaureate campuses, are to be granted full transfer credit for general education courses already taken and are not to be required to repeat successfully completed courses with similar curricular content.”

Comprehensive transfer and articulation agreements have also been established with other reputable colleges and universities.

In some instances the A.A. and A.S. degree have been determined to fulfill all general education requirements, as well as A.A.S. degrees that will transfer in full.

The following listing summarizes these agreements; the specific details of each agreement should be verified by the student with an advisor or counselor before finalizing any SUNY Orange course selections.

Continuing and Professional Education

The Department of Continuing and Professional Education provides a diverse range of courses, programs and workshops designed to address the professional training and personal development needs of all residents in Orange County. Following is a breakdown of the offerings available through the College’s Continuing and Professional Education Department.

Business Solutions/Professional Development

The SUNY Orange Center for Business Solutions is a high quality, client-driven provider of skills training and professional development that can help you upgrade and enhance the skills of your existing workforce.

SUNY Orange has demonstrated its strong commitment to strengthening the region’s economy by providing versatile, customized business training solutions utilizing high end trainers from the private sector.

Training programs include: Change Management, Creating a Preventive Maintenance Plan, Go Green Employee Training for Sustainability and Profitability, LEAN Management, Management Mentoring, Managing a Multigenerational Workforce/Succeeding in a Multigenerational Workforce, Managing the Team, Time and Task (MT3 - Supervisory Skills Training Program), Real Estate Continuing Education Courses, Service Excellence, Train the Trainer, and others.

Community Enrichment

To serve the varied educational needs of Orange County residents, the College offers a myriad of vocational, recreational and remedial programs for the
community. Specialized courses are also offered to fulfill state licensing and professional certification requirements. Additional programs include youth enrichment courses offered both on-and off-campus, as well as online.

**Workforce Development Education**

SUNY Orange conducts training programs that provide individuals with the skills necessary to succeed in the workplace. Courses are offered for people beginning new careers or those who may be entering the workforce for the first time. In addition, courses are available that will enable people to upgrade their skills for their current job or to continue their education. Please call (845) 341-9532 for more information.

**Driving Programs/Alcohol Substance Abuse Counselor Training**

The College cooperates with the New York State Department of Motor Vehicles’ to offer the NYS Impaired Driver Program and the 6-hour National Traffic Safety Institute point and insurance reduction/defensive driving course.

SUNY Orange is approved by the NYS Office of Alcoholism and Substance Abuse Services Academy to offer the Credentialed Alcoholism and Substance Abuse (CASAC) counselor education training program for students who wish to pursue careers as alcohol/substance abuse counselors.

**English as a Second Language**

The College offers an extensive ESL program with classes at the beginner, intermediate and advanced levels. In addition, more specialized classes allow students to practice pronunciation, improve their workplace English or increase their vocabulary.

Classes are offered at both the Middletown campus and the Newburgh campus.

Students who want to register for an ESL class need to take an evaluation. To make an appointment for an evaluation call (845) 341-9593.

**High School Equivalency (HSE) Program**

(formerly GED® Program)

SUNY Orange offers many classes throughout Orange County for individuals who are looking forward to improving their job opportunities or moving on to college by earning their HSE. Emphasis will be on improving writing and math skills using creative thinking and problem-solving strategies. If you are ages 17 or 18, call (845) 341-9532 or (845) 341-9543 to make an appointment for the HSE program coordinator to meet with you and your parent or guardian. If you are 19 or older, you may register in person at Student Services Central in Middletown, Shepard Student Center, third floor. In Newburgh please call the CAPE HSE Coordinator at 845-341-9532 to make an appointment prior to registering.

**Over Sixty Program**

SUNY Orange permits individuals sixty years of age or older to audit credit courses on a space available basis without payment of tuition according to NY State Law Article 126, Section 6303. Full classroom participation is encouraged; no grades are given nor is credit earned. (Non-credit courses, health professions courses, distance learning courses, and some studio/lab classes are not included in the Over Sixty Program.)

Registration for Over Sixty students is held on the first day of the Fall and Spring terms. All students are required to complete an audit registration form and, if they are NY State residents, a Certificate of Residence.

For questions regarding the Over Sixty Program or to receive a credit course bulletin please call the Registrar’s Office at 845-341-4155.

**Youth Empowerment Program (YEP)**

Thanks in part to a grant from the Orange County Workforce Investment Board, the College engages out of school and/or unemployed youth to reconnect with educational and workforce systems. The YEP is held on the SUNY Orange Middletown campus and offers youth ages 16-24 an opportunity to:

- Prepare for the High School Equivalency test TASC
- Improve literacy and numeracy skills (only for low income youth with a high school diploma or equivalency who are basic skills deficient or English language learners)
- Receive skills training in in-demand industries like customer service and retail, healthcare, and security guard
- Participate in paid work experience

This unique program provides case management, employment counseling, and small group instruction that can become a stepping stone toward achieving higher education and establishing career goals. For more information, call 341-4874.
Tuition and Fees

**Tuition and Fees 2021-2022**

* Tuition*

Each semester, payment arrangements must be in place by the published deadlines to complete the registration process and to hold a student's schedule.

**Full-Time Student Tuition: (12 or more credits)**

<table>

| Late Payment Fee | $50.00 |

Advanced Deposit (Allied Health Programs) ............ $50.00

* - tuition and fees are accurate as of the publication date (August 1, 2020) of this Catalog

**Notes:**

1. Students registered for 12 or more credits/units are classified as full-time; all others are classified as part-time.

2. To qualify for the NY State Resident rate, a student must have been a resident of New York State for one year immediately prior to the start date of the semester. In addition, those who are not residents of Orange County must present a Certificate of Residence signed by the chief fiscal officer of the county or counties in which they have lived in the past six months.

3. See section on financial aid for estimates on total education cost per year for full-time study.

4. Tuition and fees are subject to change upon approval of the College Board of Trustees.

5. The normal tuition and fees are charged for all audited course work.

6. Tuition does not include the cost of textbooks.

**Tuition and College Fee Refund Policies**

Tuition refunds will only be granted upon the completion and submission of an official withdrawal form to Student Services Central, either before the classes begin, or during the published refund period.

Simply notifying the classroom instructor is insufficient. Any student who does not withdraw prior to the semester start date and remains unpaid will be liable for tuition and fees. Non-attendance does not limit student liability.

Students are responsible for knowing the deadlines for withdrawal and abiding by them.

Students who officially withdraw from a credit course or from the college may be eligible for a refund of tuition in accordance with the following schedule:

**FULL SEMESTER CREDIT CLASSES:**

Prior to the start date of the semester ........... 100%
During the first week .................................. 75%
During the second week ............................... 50%
Inquiries regarding refund policy exceptions must be in writing to the Tuition Credit Review Board. Tuition Credit request forms are available at the Student Services Central and on the college website.

Title IV Federal Refund Policy

Title IV Federal Financial Aid students who withdraw or stop attending the college during the first 60% of the semester will have their financial aid recalculated according to the Higher Education Amendments of 1998, 34 CFR part 668.22. Some grant recipients may owe repayment to both the institution and the Federal government as the result of this recalculation.

Red Flag Policy

Identity Theft Prevention Program

Orange County Community College is committed to preventing fraud associated with the misuse of identifying information (identity theft) of students, staff, faculty or others who have relationships with the College to obtain educational or financial services. In compliance with the Federal Trade Commission Red Flags Rule (16 CFR 681.2) under the Fair and Accurate Credit Transaction Act of 2003, the College will employ its Red Flag Identity Theft Prevention Program to identify accounts susceptible to fraud, recognize possible indications of identity theft associated with those accounts, devise methods to detect such activity and respond appropriately when such activity is detected.

In compliance with the Federal Trade Commission's Red Flags Rule (16 CFR 681.2), the College will require all individuals requesting services to provide a SUNY Orange Identification Card, a driver's license or other government issued identification (with photo).

Certificate of Residence

All students are charged the appropriate rate of tuition and fees depending on the number of credits taken and the student's area of residence.

Please follow the instructions listed below. The application for Certificate of Residence can be obtained from Student Services Central. It is also included in all registration material and is available on the College website.

In accordance with New York State Education Law, Section 6301, each full-time and part-time student residing in New York State must file a Certificate of Residence. The County of Legal Residence for a New York State resident attending a community college contributes to the College a portion of the College's cost for providing services to the student. The basis for assessing counties for this money is the Certificate of Residence.

Note: A person does not acquire New York State Domicile (legal residence) simply by being physically present in New York State for a period of 12 months or for the sole purpose of attending a New York State College or University. If your principal or permanent home has not been New York State for a 12-month period immediately prior to the start date of the semester, you will be considered an out-of-state student for tuition purposes.

Certificates are valid for 12 months from the date of issue. A new Certificate must be submitted each year.

To prove residence for any county in New York State you must:

Have resided in New York State for one year AND resided in your home county for six months prior to the first day of classes.

The appropriate documentation and/or certificate must be received within 30 days from the start date of the semester, otherwise the non-resident tuition charge cannot be removed from your bill. Payment (less non-
resident tuition) must be made by the established
deadline dates. Adjusted bills are available upon request
or can be viewed on Self-Service Banner.

**ORANGE COUNTY RESIDENTS**

Complete the Verification of Orange County Residence.
Include this with your adjusted payment (subtract non-
resident tuition amount from balance due).

**NEW YORK STATE RESIDENTS FROM COUNTIES
OTHER THAN ORANGE COUNTY**

A student from a New York county other than Orange
is required to submit a Certificate of Residence from their
county of legal residence covering 6 months prior to the
first day of classes. To secure the required certificate, follow
the procedures below:

- Contact the Treasurer’s Office or Chief Fiscal Officer of
  your home county to inquire about acceptable forms of
  proof you will need to prove your residency.
- Once you have obtained a Certificate of Residence, you
  must submit the original to SUNY Orange Student
  Services Central. This will entitle you to pay the resident
tuition rate. Please note per New York State Education
Law, NY state counties are only required to issue and
honor Certificates of Residence dated no earlier than 60
days prior to the start of classes and no later than 30 days
after. After the first 30 days of classes, counties will no
longer issue certificates of residence and payment for the
non-resident tuition charge then becomes the student's
responsibility. Late certificates will be accepted by our
office, but your account will only be reduced if your
county accepts our billing.

**NEW YORK STATE RESIDENTS WHO HAVE
LIVED IN MORE THAN ONE COUNTY DURING
THE PAST SIX MONTHS**

Contact each county in which you resided, as a
Certificate of Residence will be required from each of
those counties. Proceed as indicated above. Students who
fail to meet the full six month residence requirement will
be charged the non-resident tuition.

**SPECIAL REQUIREMENTS FOR IMMIGRANT
AND UNDOCUMENTED ALIENS**

Immigrant Aliens must have a Permanent Resident Alien
Identification Card (“green card”) and be able to establish
New York State residency to be eligible for resident tuition
rates. Foreign students on the following visas do not qualify
for the residence rate: F(student), B(visitor), J(exchange), C,
D, H2A, H3, H4 if on H2/H3, M, O, P, Q, R, TN, or TD
visas.

Effective July 1998, certain undocumented aliens may be
eligible for the resident tuition rate. The undocumented alien
must have graduated from a New York State high school
and applied for SUNY admissions within five years of
receiving the New York State diploma. The undocumented
alien must complete a notarized affidavit stating that the
student has filed or intends to file an application to legalize
his or her immigration status.

Providing the college with proof of residency is an
important step in your registration process. Students who
fail to present documentation will be charged non-resident
tuition. Please contact the Bursar at (845) 341-4830 if you
have any questions about the proper way to complete the
requirement.

■ **Withdrawal from Course**

To formally withdraw from a credit or non-credit course,
a student must complete a withdrawal form and return it
to Student Services Central. As of the day of receipt of this
form, the appropriate refund schedule will apply.

Students who receive financial aid from any of the
following sources: Federal Programs (Title IV)-Pell Grant,
Supplemental Equal Opportunity Grant (SEOG), Perkins
Loan, Federal Family Education Loans and State Grants
may be responsible for repaying a portion of their aid if
they drop or stop attending classes during the refund
period. Withdrawal from classes may also affect eligibility
for financial aid for the following semester or academic
year. Students will be notified by mail if monies are due the
College.

■ **Holds**

Students who have unmet financial obligations or who
have failed to comply with College requirements are not
permitted to register or receive grades until the hold is
cleared with the issuing office. Further, information relating
to student records, such as certification of attendance and
diplomas are also withheld.
Financial Aid

SUNY Orange participates in most major federal and state financial aid programs and offers institutional scholarships as well. There is a Financial Aid office at each college location to assist eligible students in removing the financial barriers that may discourage them from attending college. All students are urged to file an application for financial aid. In order for the Financial Aid office to finalize eligibility or award financial aid, all required documentation requested must be submitted. The FAFSA is the first step in the financial aid process. You can complete the FAFSA to apply for federal student financial aid, such as the Pell Grant, student loans, and federal work study. The FAFSA is available on the FAFSA website https://fafsa.ed.gov.

Financial aid is available in many forms: grants, scholarships, loans, and employment opportunities. Federal, state, and local guidelines determine the amount and types of financial aid offered to individual students. You must reapply each year for most of these programs. Students usually are offered financial aid packages consisting of a combination of grants, scholarships, employment and loans. Grants and scholarships are considered "gift" assistance and need not be repaid. Loans are offered at low interest rates and can be repaid over an extended period of time beginning six months after the student graduates or enrolls for less than 6 credits at the College. If you are offered aid in the form of a job (Federal Work-Study), it is paid at an hourly rate.

College Costs at SUNY Orange

The direct costs that all full-time SUNY Orange students must pay each academic year are:

<table>
<thead>
<tr>
<th></th>

- The above indirect costs are approximate and are used by SUNY Orange to determine the need for financial aid. All figures are subject to possible change.
- Tuition is based on the cost for the current school year.
- All Direct Cost figures above are subject to possible change.
- Double tuition is charged to out-of-state students and international students.
- The above Estimated Costs are used by Orange County Community College to determine the need for financial aid.
- "Non-commuter" refers to dependent students living away from home and/or independent students living on their own.
- If an independent student is living with a non-parent family member who is supplying room and board, the student’s Financial Aid budget will be adjusted accordingly.
- Students who have costs for child care should submit proof of those additional expenses.

General Eligibility Requirements

Eligibility depends on many factors. To receive aid from the federal and state student aid programs offered at SUNY Orange, you must satisfy the following:

- be officially admitted
- have a high school diploma or a GED
- be a U.S. citizen or permanent resident
- meet the minimum academic criteria specified for each financial aid program (see “Federal Standard for Satisfactory Academic Progress” in this section)
- have a valid Social Security number
- not owe a Federal PELL, Academic Competitiveness Grant, National Smart, Teach Grant, or FSEOG over-award
- not be in default on a Federal Stafford Loan or Federal Direct Loan
- be enrolled in an eligible degree or certificate program
- all credits must apply to the degree major
- must attend courses that you are registered for

How to Apply for Financial Aid

This information is provided as a guide and is subject to change without notice to comply with federal, state, and institutional policies.

You can only receive financial aid at one college at a time. A Financial Aid Application must be completed to be considered for all types of grants, loans, scholarships, and work opportunities at SUNY Orange. Some awards and grants may require additional forms. To apply, take these steps:

- Complete the Free Application for Federal Student Aid (FAFSA) each year. Submit the FAFSA application online at the FAFSA website: https://fafsa.ed.gov.
- When completing the FAFSA, be sure to list SUNY Orange’s name and school code 002876. The college address is 115 South St., Middletown NY 10940. Submit the completed and electronically signed FAFSA to the Federal Central Processor.
- You should receive a Student Aid Report (SAR) within 3 weeks after submitting your application to the processor. Students are able to check the status and view the results from the FAFSA application online. You should retain the SAR in your personal files.
- If SUNY Orange is listed on the SAR, the Financial Aid office will receive the student’s SAR electronically. Three weeks after submitting the FAFSA application, you should check your “MySUNYOrange” account for receipt of an electronic SAR.
- Your FAFSA may be selected in a process called verification, and the school may request certain financial documents. Verification documents can be obtained from the Financial Aid office or downloaded from the Financial Aid website, or link to the MySUNYOrange section labeled “Student Requirements” on your “MySUNYOrange” account. If additional
documentation is required, you will receive a tracking e-mail stating you have additional documents outstanding. If there are questions remaining, the student can contact the Financial Aid office at his or her campus.

You should respond quickly to all correspondence received from the Financial Aid office. Documents are processed in the order they are received.

After the Financial Aid Office receives your SAR and all requested information, the staff will:

- Review the information.
- Make an award based on eligibility and availability of funds.
- Send a preliminary award letter to first-time freshmen.
- Sophomores are directed to view their awards online and print the award letter at your “MySUNYOrange” account. The award letter lists the types and amounts of aid awarded.
- The award letter may also list additional requirements that you must fulfill before funds can be disbursed.
- Your awards may change after the verification process, or changes in enrollment. If this occurs you will receive an e-mail notification directing you to your MySUNYOrange Award Letter page.

You should keep your award letter with your SAR. You must keep your name, address, e-mail address and telephone number current with the Student Accounts Office on campus. When a student is determined to be eligible for financial aid, tuition and fees may be covered to the extent of the aid, provided the student's financial aid file is completed by the target due date. If the aid is not sufficient to cover tuition and fees, the student is responsible for the balance, which is due by the officially published payment due date. If the aid exceeds the cost of actual tuition and fees, a refund will be issued to the student from the Student Accounts Office (See published disbursement dates on the Office's web pages).

Summer Sessions

Please contact the Financial Aid Office for further information on requirements for summer financial aid. Please visit our website at www.sunyorange.edu/financialaid.

Target Dates

*This information is provided as a guide and is subject to change without notice to comply with federal, state, and institutional policies.*

Target dates are not deadlines. Target dates ensure that the financial aid funds you are eligible to receive will be on your account for tuition deferment before the payment due date. After these target dates, applications for financial aid and loans can still be processed, but you may have to arrange for alternative means of payment, such as using your own funds or participating in the Tuition Payment Plan, until your financial aid processing is completed.

Target Dates for PELL Grants and Direct Loans:

- Full Enrollees: July 1st
- Spring Enrollees: December 1st

Target Date for Campus-Based Aid [Including Federal Work-Study (FWS), and Supplemental Educational Opportunity Grant (SEOG)]:

- Fall Enrollees: April 15th

* Award Package Offering

- Once you have been awarded aid, you will receive an award letter that lists the various types of aid you are eligible to receive during the award year. Awards are based on full-time (12 or more credit hours) status; some awards may be adjusted if you do not enroll as a full-time student. However, aid will automatically be pro-rated at the time of disbursement if you are not full-time. If it is determined that you are not eligible for aid after it is awarded, the Financial Aid office is required to adjust your awards.

- All Student Aid Reports go through a review process before any aid is disbursed. If a student is selected for verification all required documents must be submitted and verified with the information on the Student Aid Report before any disbursements can be finalized. The college must have a correct Student Aid Report with complete information by their last day of enrollment for each FAFSA year. NYS TAP grants are automatically reviewed. Students may be awarded grants, scholarships, work study and federal subsidized and unsubsidized loan funds up to the cost of college attendance. These loan programs require you to accept your loans on your MySUNYOrange web pages. You will need to go to https://studentloans.gov web site to fill out an Electronic Master Promissory Note, and Entrance Counseling. Students who apply by the priority processing due date will be considered for all available funds. Some funds are limited and are awarded to eligible students based on greatest need and meeting the April 15th deadline.

* Evaluating Your Award Package

- You should evaluate your award package carefully.
- Remember: loans must be repaid.
- Be sure to check whether or not your living expenses will be as high as the estimated allowance projected by your school; if they aren’t, you may need to adjust your borrowing.
- To get an idea of your college expenses, use the Net Price Calculator at www.sunyorange.edu/financialaid/index.shtml.
- To get an idea of your monthly loan payments after you graduate, see the Repayment Calculator at https://studentaid.ed.gov/repay-loans/understand/plans/#estimator.
Financial Aid

- You have the right to decline the loan or to request a lesser amount.
- Remember that loan money must be paid back with interest. You should only borrow as a last resort.

### Federal Standard For Satisfactory Academic Progress

Federal regulations (Sections 668.16(e), 668.32(f) and 668.34) require that schools monitor the academic progress of all applicants for federal financial assistance and that the schools certify that applicants are making satisfactory academic progress toward earning their degree. This determination of progress must be made at least once a year for degree programs, and at the end of every semester for certificate programs before the Financial Aid Office disburses any federal aid funds for the subsequent semester. Federal Title IV programs include: PELL, and Stafford Loans, Supplemental Education Opportunity Grant & Federal Work Study. Our web page at: [www.sunyorange.edu/financialaid/sap/](www.sunyorange.edu/financialaid/sap/) contains a chart for your convenience on the calculation of Satisfactory Academic Progress and how your eligibility is affected by Program Pace, Cumulative Grade Point Average, and Maximum Program time frame.

Academic progress is checked at the end of each academic year for degree programs and at the end of every semester for certificate programs. SUNY Orange's academic year for Associate Degree programs is measured from May to May. If you fail to meet the minimum completion percentage (attempted vs. accumulated credit hours) or maintain the minimum grade point average you will forfeit all federal financial aid. If you have reached the maximum number of attempted credits without earning a degree, you will be excluded from further participation in federal financial aid programs (PELL grants, Direct Loans, and Federal Work Study). Federal regulations require that these standards apply to all students.

Attempted hours are those hours for which you were still officially registered at the conclusion of each semester's Add/Drop period. Withdrawals are counted as attempted hours.

Maximum hours to earn degree: To quantify academic progress, a school must set a maximum time frame in which a student is expected to complete a program. For an undergraduate program, the maximum time frame cannot exceed 150% of the published length of the program measured in credit hours attempted.

The majority of SUNY Orange undergraduate programs require 66 hours for graduation. The maximum time frame for students in these programs is 99 attempted hours (66 x 1.5=99).

- **Withdrawals:** All grades including W are counted as courses attempted and count toward the maximum time frame.
- **Audited Courses:** You do not earn any academic credits for audited courses. However, these courses count in the calculation of your "attempted hours."
- **Pass/Fail Courses:** These hours do count within the total of attempted and earned hours.
- **Transfer Credits** accepted for your academic program, are counted as credits attempted and credits earned and are also used to calculate the maximum time frame to complete your program.
- **Developmental Credits** are not counted in your academic program, but they are counted in your total of accepted and accumulated hours.
- **Double Majors and/or Minors:** If you pursue a double major/minor you will normally be expected to complete all degree requirements before reaching 99 attempted hours.
- **Change in Majors:** If you change your major you will normally be expected to complete all degree requirements before reaching 99 attempted hours.
- **2nd Associate's Degree:** If you have already been awarded an Associate's degree, you may apply for a second degree only if the second degree is different from the first degree. Ordinarily, a second degree at the undergraduate level is discouraged, and a Bachelor's degree is encouraged.

You will be limited to how much you can borrow under the Direct Loan Program. These limits are not increased for students working on additional degrees.

PELL grants are limited to the equivalent of 12 full-time semesters.

If you are enrolled in a Certificate Program you are allowed a total of 45 credits attempted to complete the program.

If you are enrolled in an Associate Degree Program you are allowed a total of 99 attempted credits to complete the program.

### Financial Aid Probation

If you have fallen below the completion ratio on the Satisfactory Academic Progress chart published on the SUNY Orange Financial Aid web pages, and/or you have failed to maintain the required minimum GPA associated with that completion ratio, you will be placed on federal financial aid probation. You will be allowed only one probationary semester during your academic plan if an appeal is granted.

While on financial aid probation you will receive a separate letter that will outline the academic requirements you must meet in order to receive federal financial aid for the following semester. If you meet the terms of financial aid probation, you will be permitted to continue to participate in federal student aid programs (PELL grants, loans, and Federal Work Study) for subsequent semesters. If you have been placed on financial aid probation you shall be considered to be making satisfactory academic progress for the purposes...
of receiving federal financial aid as long as you continue to meet the academic requirements outlined in your probationary letter.

While on Financial Aid probation, the Financial Aid Office will review your academic transcript at the end of the following semester to ensure you meet the conditions of your probation in relation to Progress and Grade Point Average.

If you do not meet the terms of your probation, you will forfeit eligibility for all Federal Financial Aid programs (PELL grants, Loans, Federal Work Study).

Grade Changes

Students who are receiving aid on a probationary basis must resolve all incomplete grades before the Financial Aid Office can make a final determination of the satisfactory academic progress guidelines. Students must report any grade changes that impact their aid eligibility directly to the Financial Aid Office. Students must notify the Financial Aid Office once their final grades have been posted.

Probation Standards Not Met

If you have lost eligibility to participate in federal student aid programs for reasons of academic progress, you may regain eligibility by enrolling at SUNY Orange at your own expense, and making up the Deficiency of Progress or GPA. The mere passage of time will not ordinarily restore eligibility to a student who has failed to make satisfactory academic progress policy.

If you have been academically dismissed from SUNY Orange but are subsequently given permission to re-enroll, you are not automatically eligible to continue to participate in Federal Financial Aid programs. Admissions decisions are totally separate from funding decisions.

Right to Appeal

To appeal your Satisfactory Academic Progress status, you must submit a Satisfactory Academic Progress Appeal Form at: https://sunyorange.edu/machform/view.php?id=210312 along with any required documentation, detailing the extenuating circumstances that contributed to your not meeting the SAP standards. Considerations for appeals exist if you had a severe illness, medical condition, injury, traumatic life altering experience, or the death of a parent that prevented you from being successful in the semester in which you did poorly. Submitting an appeal does not guarantee approval to reinstate your eligibility for receiving financial aid. The decision of the Appeals Committee is final.

Deadlines: To ensure that Financial Aid funds for which you may be eligible are on your account before the payment due date, you should submit your appeal by: Summer — June 1st; Fall — June 15th; and Spring — December 15th. If an appeal is submitted after the deadline dates, you will need to make arrangements for alternative means of payment until your Financial Aid can be processed, using your own funds or participating in the Tuition Payment Plan. Appeals submitted after the current deadline dates will be evaluated for the following semester.

Appeal Approval Conditions: Appeals can only be approved if the Financial Aid Appeals Committee determines:

- You will be able to meet SUNY Orange’s Satisfactory Academic Progress chart after the next payment period; or
- You have agreed to follow an Academic Plan that, if followed, will ensure that the student can meet the college’s Satisfactory Academic Progress guidelines by a specific point in time.

If an Appeal is granted:

If your appeal is granted you will receive aid on a conditional basis for one semester (this is known as the probationary period). The conditions will be outlined in a letter sent to you granting the appeal. The Financial Aid Appeals Committee will review your record at the end of the semester to determine your status for the following semester. Students who fail to meet the conditions outlined in their individualized academic plans during their conditional semester will not be allowed to submit a subsequent appeal.

Federal Financial Aid Programs

Federal PELL Grant

The PELL Grant is a grant from the Federal government and does not have to be repaid. The amount of the grant is based on the amount of funds actually available for the program as designated by Congress. The maximum award is distributed over two semesters for full-time enrollment and may be pro-rated. All undergraduate students are eligible to apply for the Federal PELL Grant. Students may receive PELL Grants for as many as 12 full-time semesters (or the equivalent). The student must be enrolled at the time the Student Aid Report is received by the Financial Aid Office. Even though the student may file the FAFSA after the semester has started, a payment cannot be made if the student ceases to be enrolled. For students taking developmental courses, federal aid funds will only pay for the first 30 attempted credits of developmental study.

Eligibility Exclusion

Effective July 1, 2009, an individual subject to involuntary civil confinement or civil commitment upon completion of a period of incarceration for a forcible or non-forcible sexual crime is ineligible for a PELL Grant.

Federal Supplemental Educational Opportunity Grant

High-need students may be eligible to receive FSEOG grants ranging from $300 to $500 a year. Money for this program is extremely limited. Students who have earned...
Financial Aid

a Bachelor's degree are not eligible. FAFSA completion is required. All Campus-Based-Aid programs are subject to the federal government’s allocation to the school. When all the funds are exhausted, awarding and disbursement of this aid program stops.

Federal Work Study Program

Eligible students may work part-time while in college to help defray their educational cost. Students are paid an hourly rate and receive a paycheck every two weeks for the hours worked. Students cannot earn more than the amount of their work-study award. Salary is based on published rates. FAFSA completion is required. Work-Study funds are allocated each year by the Federal government. The Financial Aid Office will award work-study to eligible students until the funds for the year are exhausted.

SUNY Orange participates in the William D. Ford Direct Loan program

Federal Stafford Loans

The Federal Stafford Loan is a loan that must be repaid upon completion of school or interruption of studies. The student who qualifies may borrow up to $5,500 for the academic year as a freshman and $6,500 as a sophomore. Independent students who still need loan assistance after Federal Stafford Loan eligibility is determined will be packaged with a maximum of $4,000 additionally each year. Dependent students may apply for an additional unsubsidized loan if your parents are unable to obtain a PLUS loan.

All borrowers are required to complete an electronic master Promissory Note, and entrance counseling before funds can be disbursed. If you are a freshman and a first-time borrower for a student loan, federal regulations require that the first loan disbursement be delayed until 30 days after the start of classes. Students are required to be actively enrolled for at least six credit hours each semester to maintain loan eligibility. If you should drop below 6 credits prior to the disbursement of the loan, the funds will be returned to the U.S. Department of Education. More information on loans can be viewed at https://studentaid.ed.gov/sa/. Remember student loans are to be used only for “education expenses” which include tuition, fees, books, supplies and equipment, living expenses, cost of care for a dependent child, transportation, and the cost to rent or buy a computer.

Federal PLUS loans

Federal PLUS loans are loans that a parent may use to assist their son or daughter in financing their education. The lender is the U.S. Government’s Direct Loan program. More information on how to obtain a PLUS loan can be obtained by going to: https://studentloans.gov/myDirectLoan/whatYouNeed.action?page=plusApp website. Parents may borrow up to the cost of attendance, minus other aid per award year, if their son or daughter is enrolled at least part time. The loan goes into repayment 60 days after the check is disbursed to you. Students are required to be actively enrolled for six credit hours each semester to maintain eligibility.

Veterans Benefits

All certificate and degree programs are approved for members of the Selected Reserve and National Guard, G.I. Bill veterans, eligible dependents, and disabled veterans. Veterans should inquire at the Veterans Office in the Advising Center, located on the third floor, of the George F. Shepard Student Center. For information on benefits in the G.I. Bill, go to https://benefits.va.gov/gibill/.

Aid for Native Americans

The Federal Bureau of Indian Affairs gives educational grants directly to the various Native American tribes. Students should contact their tribal office to see if federal funds are available. Aid for Native Americans may also be available through the New York State Education Department. The website is www.nysed.gov. Search Aid for Native Americans.

Institutional Local College Work-Study (LCWS)

College funds are also available for students who do not meet the federal work study eligibility requirements. All students awarded work-study are placed in the job by the College's Office of Career and Internship Services. FAFSA is required.

New York State Tuition Assistance Program (TAP)

- You must be matriculated in a program of study.
- All courses must apply to a degree program.
- You must be enrolled as a full-time student, taking 12 or more credits per semester. You must meet NYS Satisfactory Academic Standards.
- You are considered a “New York State Resident” if you have lived in the state for the 12 months just prior to enrollment.
- “Eligible non-citizens” or others who may qualify under federal law.
- Changes in your class schedules can affect your financial aid. Students should consult with the Financial Aid Office about any such changes.
- You must either be: a graduate of a US high school, or have earned an HSE diploma, or have passed a federally approved "Ability to Benefit" test.
- You must be enrolled as a full-time student, taking 12 or more credits per semester.
- You must have at least a cumulative "C" average after receiving two annual payments.
- You must not be in default on either a student loan guaranteed by HESC or on any repayment of state awards.
- You must have a valid Social Security number.
- If you are a first-time TAP recipient, you must be registered for at least 6 credits of college-level...
coursework, 12 credits in total for the semester.

• If transferring in and a recipient of TAP at the former school, you must have your credits evaluated prior to receiving TAP at SUNY Orange AND you must register for 6 or more credits due to the number of TAP points incurred.

• TAP awards may be used only for tuition costs.

NYS Satisfactory Academic Progress

Before being certified to receive a specific TAP payment, students must have accrued at least a certain number of credits toward their degree while maintaining a minimum cumulative grade point average (CGPA). Please view our web site at:

www.sunyorange.edu/financialaid/standards.shtml for details on which NYS Satisfactory Academic Progress chart applies to you.

Evaluation Criteria for NYS Satisfactory Academic Progress (State SAP)

• Grades earned for “completed” courses may be A, B, C, D, F, or P.

• To be eligible for TAP in the future, you must pass the minimum percentage of credits attempted as designated by the number of payments you have received, and have accumulated at least a specific number of total credits towards your degree overall, per NYS regulation.

• If you are a first-time TAP recipient and are taking a minimum of two developmental courses you may be evaluated on the State SAP chart.

• Transfer and second-time TAP recipients entering SUNY Orange who have received TAP at a previous institution must be registered for six and possibly more credits of college level course work as part of their full-time load.

• Courses which are audited and/or which are repeats of previously passed courses are not eligible for inclusion in a student’s credited enrollment.

• Financial Aid can only pay for 2 credits of Physical Education coursework.

• NYS academic requirements and awards may be subject to change based on NYS budget considerations.

How to Apply for TAP

Students should complete the FAFSA on line and then use the link for NYS residents. This will direct you to the HESC website directly. You can also link to the HESC website by using the following to complete a TAP application: https://www.hesc.ny.gov/.

Other NYS Grants, Scholarships, and Awards

Other NYS grants scholarships and awards can be viewed at: www.hesc.ny.gov/

Aid for Part-Time Study (APTS)

This is a NYS grant for eligible part-time students. Due to funding limitations and the number of qualified applicants, coverage is limited to 6 credits. Students are selected on a first come first served basis. Applications are placed in chronological order based on when the application and State of New York taxes are received.

Eligibility Requirements

Students must:

• Be NY State residents who can demonstrate the ability to complete college coursework

• Be enrolled for 6 to 11 ½ credits in an eligible degree program

• After completing at least 3 credits at SUNY Orange, maintain a minimum Cumulative Grade Point Average of 2.0 in order to be eligible to receive APTS the following semester

• After each semester State Satisfactory Academic Progress is evaluated, and the student must maintain a minimum semester GPA of 2.0

• If transferring in to SUNY Orange, submit to the Financial Aid Office an Academic Transcript of coursework completed at the prior institution

• If they are dependent students: have a family whose net NY State taxable income is $50,550 or less

• If they are independent students: have a family whose net NY State taxable income is $34,250 or less

Excelsior Scholarship

Please see the N.Y.S. HESC website at https://www.hesc.ny.gov/ for additional information for processes and procedures for obtaining the scholarship.

Part-time Scholarship

Please see the N.Y.S. HESC website at https://www.hesc.ny.gov/ for additional information for processes and procedures for obtaining the scholarship.

SUNY Orange Foundation Scholarships

The SUNY Orange scholarship process is managed by the SUNY Orange Foundation, an independent non-profit organization dedicated to generating funds and building resources to enhance learning opportunities at SUNY Orange for students and the community. The SUNY Orange Foundation is responsible for managing and increasing funds for all SUNY Orange scholarships. Through the efforts of the Foundation and the generosity of many private donors, SUNY Orange awards approximately 250 scholarships each academic year. There are scholarship opportunities for:

• Entering, returning and graduating students

• Students with financial need
Financial Aid

• Students in good academic standing
• All majors, ages, veterans, and non-traditional students

FAFSA is not required to qualify for these scholarships.

To apply for scholarships, you must sign in with the same user name and password you use to access the campus login portal.

Once you complete your general application, you will be automatically matched with scholarship opportunities based on the information you provide, as well as other data being imported from your SUNY Orange student account.

All scholarship monies will be paid directly to student accounts.

The application process is open to students during the spring semester and can be found at https://sunyorange.academicworks.com. To learn more about scholarships, visit the SUNY Orange Foundation website at

www.sunyorangefoundation.org/apply-for-scholarship
Academic policies are statements of regulations that the college develops for the facilitation of the teaching and learning process.

Academic policy reflects the philosophy of education at Orange County Community College. Policies can be revised as the philosophy of education at the college changes. The mechanism for effecting any change is the campus governance system.

Revisions of academic policy must relate to the whole system of existing policies. Those recommendations of the campus governance system that relate to academic policies are submitted to the President of the College for approval.

Academic Policy is committed to support the college’s effort of assessment and continuous improvement.

The Vice President for Academic Affairs or his/her designee publishes the Academic Policy Manual for distribution.

### Grades

#### Final Grades

Final grades will be A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, W or one of the following:

- The final grade in developmental courses and support modules will be DVP or DVF.
- The final grade in courses taken on a pass/fail basis will be PP for pass or PF for fail.
- A grade of ZF (or ZDF for developmental courses and support modules or ZPF for pass/fail courses) will be assigned to students who stop attending before the end of the 10th week of the semester or its equivalent and do not withdraw themselves or receive an instructor withdrawal. A ZF grade is calculated as an F in the student’s CGPA.

Grades must be submitted as specified by the Records & Registration office.

#### Change of Final Grade

Except for academic grievances, after a final grade has been submitted, the instructor can change the grade within four weeks by filling out the required form and getting the signature of the Department Chair. After four weeks, such a change also requires the signature of the Appropriate Associate Vice President.

#### Incomplete

The grade of Incomplete (I) may be given at the discretion of the instructor. The instructor must submit a change of grade by the end of the next fall or spring Semester, whichever comes first. If the work is not completed, the I will become an F.

The grade of Incomplete (I) cannot be used in developmental courses.

A student desiring to graduate with one or more Incompletes may do so; however the Incomplete(s) shall count as an F for purpose of computing the CGPA.

#### Grade of W

A student will receive a grade of W if they drop a course within the timeline stated in Academic Policy 25. After the withdrawal deadline an instructor must report a final grade.

#### Grade of NR

The grade of NR (Not Reported) will be applied to a student’s transcript if a final grade for the course has not been reported by the instructor before the Final Grade deadline. A grade of NR does not affect the SemGPA.

### Examinations and Other Performance Measures

Students have the right to periodic evaluation of their performance throughout the semester with grades or recorded written assessments. The number, type, and scheduling of performance measures in each course will be determined by individual instructors consistent with department policy.* However, there must be a minimum of one performance measure for a one credit course, two for a two-credit course and three for courses of three or more credits.

Unless mandated by department policy,* comprehensive final examinations are given at the discretion of the individual faculty member. Comprehensive final examinations may not be more than 2 ½ hours in length and must be scheduled in accordance with final exam procedures.

The performance evaluation procedure to be followed in each course must be explained completely and specifically in the course syllabus. The instructions for examinations or performance measures must be clearly indicated. The grading value of the component parts of each exam must be indicated on the exam.

Faculty who teach online courses and require students to participate in testing or other course activities in person must indicate that within the syllabi as well as include notice in the online course schedule.

At the end of each semester, a copy of the comprehensive final examination, if given, or the most significant evaluative device must be submitted to the office designated by the Vice President for Academic Affairs and kept on record for a period that accords with New York State guidelines.

*These department policies must be approved by a 75% vote of all full-time department faculty members.
policies (see Policy #3 on Attendance). No quota system of allocating grades is authorized. The meaning of letter grades is: A-, A = 90 - 100%, B-, B, B+ = 80 - 89%, C-, C, C+ = 70 - 79%, D-, D, D+ = 60 - 69%, F = 0 - 59%. Faculty whose grades are based on a different numbering system must indicate so in their course syllabi.

Mid-Semester Progress Reports

The deadline for submitting Mid-Semester Progress Report(s) is specified in the College Calendar. Such report(s) must be made on all students whose work to date is of less than C quality or otherwise unsatisfactory.

Mid-Semester Progress Report(s) are to indicate only that progress to date has been unsatisfactory.

- **Attendance**

Attendance is required in all courses. Instructors must describe their attendance policies and repercussions of absences in their syllabi.

Instructors shall not penalize students for absences for religious observance, military obligations or jury duty. Provided the instructor’s permission is given in advance, instructors shall not penalize students for participation in college-sponsored events. It is the student’s responsibility to contact each instructor regarding absences.

- **Academic Dishonesty**

Academic dishonesty is regarded by the College as an intolerable breach of academic ethics and deserves immediate penalty. The consequences of academic dishonesty may include academic penalties, disciplinary action, or even legal action. The primary responsibility for dealing with academic dishonesty rests with the faculty member.

The definition of academic dishonesty in the College’s “Code of Student Conduct” includes, but is not limited to: (a) cheating; (b) fabrication; (c) facilitating academic dishonesty; (d) plagiarism; (e) forgery; (f) bribery; or (g) multiple submissions (submitting the same assignment to more than one instructor without the permission of the instructors).

Depending on the specific circumstances, academic penalties could range from a verbal reprimand to separation from the College. For some acts of academic dishonesty, the student may also be accountable to legal authorities. When plagiarism, cheating or some other act of academic dishonesty has occurred, the faculty member shall advise the student of the action to be taken. In addition, any instance of academic dishonesty may result in the referral to the Vice President for Student Services for appropriate disciplinary action pursuant to the College’s Code of Student Conduct.

- **Degree Requirements**

Each of the degrees must meet the minimum requirements of and be approved by the State University of New York (SUNY) and the New York State Education Department (NYSED). The college has added to these minima. College-prescribed portions of the degree requirements, are binding upon the Registrar, who must certify each candidate’s eligibility for the Associate Degree. A course requirement in a particular degree may be waived with the approval of (1) the chair of the department which offers the course, (2) the chair which sponsors the degree, and (3) the appropriate Associate Vice President.

No college credit is granted for successful performance on a high school equivalency test.

Courses used to meet the General Education requirements for the A.A.S. degree cannot also be used to meet the major-field requirement of 20 credits.

- **Multiple Associate Degrees**

The Registrar will award multiple degrees when students complete a minimum of fifteen credit hours at the College that were not required or applied to the first degree and satisfy all other requirements for awarding of a degree.

A student may earn multiple AS degrees, or multiple AAS degrees, or an AA and an AS. Only one AA degree may be awarded with the following exception. Because of its distinct and separate nature from other programs, the AA in International Studies may be awarded as a second AA degree. (5/14/97)

All grades earned in courses taken at this College applied to an additional degree will be included in the CGPA for the additional degree.

- **Graduation Participation**

Participation in the College’s Commencement ceremony is limited to the following students and criteria: those who met the requirements of a program, registered by the New York State Education Department and the State University of New York; potential August graduates who have no more than 6 credits remaining or 2 courses which do not exceed 8 credits left to finish over the subsequent Summer Semesters. Students must meet all other requirements for their degrees, have at least a 2.0 cumulative GPA at the end of the Spring semester, and apply for May commencement by the due date. No degree shall be conferred until all requirements for graduation have been met.

- **Academic Recognitions/Designations upon Graduation**

Students who have completed at least 30 credits of work at the College and have a CGPA of 4.00 in the courses taken here will receive the President’s Award for Outstanding Academic Achievement upon graduation.
Academic Recognitions / Repeating A Course / Credits / Prerequisites / Academic Freedom

Upon graduation, those students with a CGPA from 3.20-3.49 will be designated as Cum Laude graduates, 3.50-3.74 as Magna Cum Laude graduates, and 3.75-4.00 as Summa Cum Laude graduates.

■ Repeating a Course

A student who is eligible to register may repeat any credit bearing course (for developmental courses see page 33). The grade received on the final attempt automatically becomes the official grade. It replaces, in computation of CGPA, any previous grade in the same course.

Some academic courses may be repeated for credit only once with Curriculum Committee review and approval. Department Chairs, with the approval of the appropriate Associate Vice President, may waive this policy, and appeals for denials will be processed using the Academic Grievance Process.

Students who fail to achieve the minimum grade required for progression or graduation and may no longer repeat that course are thereby removed from the program/curriculum, but not necessarily separated from the College.

■ Transfer Credits

Credit courses successfully completed at a United States Department of Education approved college, with a grade of C or better, may be accepted to fulfill graduation requirements. Such courses, if accepted, do not affect the CGPA at this College. Students may appeal any decision of the College not to accept a credit course for transfer credit using the appropriate processes.

■ Advanced Placement

The College may grant credit for high school advance placement courses in which the student earns a grade of 3 or higher on the final examination. Additional departmental criteria may apply.

■ New York State Regents College Examination Program

(formerly the New York State College Proficiency Examination Program)

The College may accept for credit college courses which the student has successfully passed in the New York State Regents College Examination Program.

■ Credit by Examination

The discipline areas or departments will determine those courses for which credit by examination is available. The college maintains a list of College Level Examination Program (CLEP) tests that are accepted for credit. In addition, department chairs may create course specific examinations.

Departments offering course specific exams for credit must develop procedures for student application.

The grading of departmental examinations is pass/fail and a grade of P will be recorded on the transcript of a student who is successful in passing an examination. Students who successfully pass CLEP examinations will be awarded appropriate transfer credit. Credits earned by taking an examination cannot be applied toward the fulfillment of the 30 credit hour residency requirement for an Associate Degree.

■ Expiration of Earned College Credits

While the college wants to honor all credit courses successfully completed at the college and most credits do not expire, some exceptions exist and these are maintained at the Office of the Registrar.

■ Course Prerequisite/Permitted List

Students are required to complete all prerequisite courses.

Department Chairs, or their designee, are authorized to waive the prerequisites for a course.

Students in the process of completing required developmental education courses may only register for credit courses from the appropriate Permitted List(s) (see the course catalog). Students placing into more than one developmental course may only register for courses that appear on all applicable Permitted Lists.

■ Academic Freedom

The Faculty Contract guarantees academic freedom to the faculty. It is described as follows:

The teacher is entitled to freedom in the classroom in discussing the subject, but may not claim as a right, the privilege of discussing controversial matter that has no relation to the subject.

The teacher is entitled to full freedom, within the law, of inquiry and research and in the publication of the results, but not at the expense of adequate performance of other academic duties.

The college teacher is a citizen, a member of a learned profession and representative of an educational institution. When speaking, writing, or acting, within the law as a citizen, the teacher shall be free from institutional censorship or discipline, but our unique position in the community imposes special obligations. As persons of learning and as representatives of an educational institution, we should remember that the public might judge our profession and our institution by our utterances and our actions. Hence, we must at all times be accurate, exercise appropriate restraint, show respect for the opinion of others, and indicate that we are not speaking for our institution.

Other policies also describe expectations relating to professional ethics for College employees.
Office Hours / Course Syllabi / Dean’s List / Independent Study / Probation & Separation

■ Office Hours

Full-time members of the faculty are required to maintain the number of office hours specified in the Agreement with the Faculty Association. Office hours should be chosen in such a way as to maximize the opportunity for advisees and others to make appointments.

■ Course Outlines/Syllabi

Course Outlines/Syllabi are to be distributed to students and appropriate department chairs at the beginning of each semester. Each syllabus must contain the elements identified in the course syllabus template distributed by the Office of the Vice President for Academic Affairs. This template will be reviewed and revised annually in collaboration with the Academic Policy Committee.

Additional departmental policies may also appear on course syllabi.

■ Eligibility for Dean’s List

All full-time students not on probation who earned a GPA of at least 3.33 the previous semester are placed on the Dean's list.

Part-time students who achieve a CGPA of 3.3 or higher for each full-time equivalent semester of study completed shall be placed on the Dean's list. A full-time equivalent semester is defined as the completion of twelve credit hours of study.

■ Independent Study

Independent study will be assigned to faculty on a voluntary basis at the recommendation of the Department Chair and approval by the AVP of the appropriate division and VPAA. Such study is defined as a one faculty member to one student educational experience. Independent study may be authorized when:

A. the student needs credit for graduation, and

B. the student is unable to take a course when usually offered due to extenuating circumstances.

■ Deadline for Class Registration

The deadline for students to register for a full semester class is five business days after the beginning of the semester or its equivalent for part of term courses. Thereafter, registration requires the course Instructor and appropriate Department Chair approval.

■ Change of Program (Major)

A. Students can change their program (Major) by following the procedures outlined in the College Catalog.

B. Change of program (Major) results in a change of catalog term (See page 35)

■ Academic Standing

Academic Standing for all students except those coded as DEVL:

1. Students are in Good Standing if CGPA ≥ 2

2. Students are placed on Academic Probation with a 14 credit limit if they have:
   a. CGPA < 2
   b. Attempted at least 30 non-DEVL credits, CGPA < 1.5 and Term GPA is ≥ 2

3. Students are Academically Separated if they have attempted at least 30 non-DEVL credits, CGPA < 1.5, and Term GPA < 2.

4. Grades of W, I, or M are not counted as credits attempted. Pass or fail grades earned in developmental courses are not counted as units/credits attempted.

Academic Standing for students coded as DEVL (i.e. placed into two or more developmental courses):

In accordance with Academic Policy 23. B - Academic standing parameters for students who have placed into two or more developmental courses.

Reviews take into account academic performance in the semester under review plus overall CGPA.

Attempted credits include institutional (i.e. DEVL) credits. Grades of W, I, or M are not counted as credits attempted.

Upon successful completion of all required developmental coursework, students’ Academic Standing reverts to following Academic Policy 23. A.

Academic Probation

Students placed on Academic Probation may continue study; however, they may not enroll in more than their
designated credit limits in fall/spring semester or 6 credits in a summer session.

**Academic Separation**

Students who are Academically Separated may not enroll in any credit course offered in the day, evening, weekend, or summer of any semester or session offered by the College, at any site, for a period of one year.

**Academic Appeal Procedure**

Students who have been placed on Academic Probation or who have been Academically Separated may appeal the status to an Appeals Board. Appeals of Academic Probation and Academic Separation from the College are adjudicated by an Appeals Board, convened by the Vice President of Academic Affairs after the conclusion of the Fall and Spring semesters of each academic year.

Appeals Boards shall be composed of 3-5 members (faculty or department chairs), one of whom will serve as Chair of the Appeals Board, and all shall be selected by the Vice President for Academic Affairs (or designee) based on responses to a call for service at the end of each semester.

**Fresh Start Policy**

This policy is intended to provide a “fresh start” for students who have earned unsatisfactory grades in courses that are not explicitly required for their current program of study.

A student can only be awarded ONE Fresh Start. Once a Fresh Start has been applied to the student’s transcript it is permanent.

To be eligible for a Fresh Start, a student must meet all the following criteria:

1. Be matriculated in a registered degree or certificate program at the College.
2. Be currently enrolled in classes.
3. Have an overall GPA lower than 2.0 at the time of the request.
4. Have not previously been granted a Fresh Start.

Application of the Fresh Start means:

1. Credits and grades not explicitly required for the current program of study will be omitted from the student’s overall GPA until it reaches as close as possible to 2.0.
2. Grades omitted from the re-calculation will, however, remain on the transcript and be identified on the transcript by the symbol “X”.
3. The student has acknowledged in writing the restrictions of this policy via student signature on the Fresh Start application.

If the application is denied by the Registrar or the Registrar’s designee, a written appeal may be made to the Vice President for Academic Affairs.

**Official Withdrawals**

**Official Withdrawal from a Course**

When a student finds it necessary to withdraw from one or more courses, he or she must submit an Add/Drop Form with appropriate signatures by the end of the 12th week or its equivalent (see Academic Calendar). A student who officially withdraws from a course between the 4th and 12th week or its equivalent will have the course appear on his/her transcript with a grade of W.

For a student to withdraw from a developmental English, reading or writing course he or she must receive approval from the appropriate Divisional Associate Vice President or designee. The forms are submitted to the Registrar for placement in the student’s academic file. The same applies to a student to withdraw from a developmental math course after having attempted 24 non-developmental credits.

**Official Withdrawal from the Semester**

When a student finds it necessary to withdraw from all courses (including developmental) during a semester, he or she must submit an Add/Drop Form with an Official Withdrawal from College Form with the appropriate signatures by the end of the 12th week or its equivalent (see Academic Calendar). A student who officially withdraws from the semester between the 4th and 12th week or its equivalent will have the course(s) appear on his/her transcript with a grade of W.

**Official Withdrawal or Leave of Absence from a course(s) because of a medical condition**

When students request either a medical leave of absence or a full medical withdrawal from the college or course(s), they must submit written verification from the health care provider and all other required documentation to Student Services Central before the end of the semester in which the condition occurs.

If requesting a medical leave of absence, the appropriate medical documentation must contain an anticipated return date. All such information given to the college is treated as confidential and privileged, as allowable by law.

The Director of the Wellness Center will verify that proper medical documentation has been received and will communicate his/her findings to the Registrar, who will either approve or deny the request.

The student has the right to appeal this decision to the VPAA using the academic grievance procedure.

Note that approvals do not generate an automatic refund of tuition, waiver of the physical education requirement, or waiver of financial aid requirements.

**Audit of a Course**

Students may change to/from audit status in accordance with the Academic calendar.
Developmental Courses

A. Completion of developmental courses and/or sequences into which a student has been placed by assessment to the college is required.

B. Students must have completed all developmental courses and/or sequences into which they have been placed prior to applying for graduation.

C. Students placed in developmental writing and reading and study courses must be enrolled in these courses during every semester of attendance until they receive a grade of DVP in these courses.

D. Students placed in developmental math courses must complete these courses, even though there may not be a specific math requirement in their curriculum. If a student has not successfully completed these courses (MAT 010 and MAT 020 sequence) by the time they have attempted 24 non-developmental credits, the student must enroll in these courses every semester until they receive a grade of “DVP.” Grades of “DVP” must be received in these courses prior to applying for graduation.

E. Students will be permitted to re-take an assessment test with the approval of the appropriate Department Chair or his/her designee (i.e. the Chair of English Department for Reading and Writing and the Chair of the Math Department for Math), or AVP of Enrollment Management, only prior to attendance in classes.

F. The appropriate Department Chairs or his/her designee (i.e. English and Math) may waive placement. (Academic Policy #15 permits Department Chairs to waive prerequisites.)

G. Developmental courses may be prerequisites for certain college credit courses (i.e. WRT 040 Basic Writing II is a prerequisite for ENG 101 Freshman English I and MAT 020 Developmental Algebra is a prerequisite for MAT 101 Elementary Algebra).

H. Students who place into any developmental reading and/or writing courses must successfully complete all of their developmental reading and writing coursework before registering for distance learning/hybrid courses.

I. This Policy applies to all students regardless of the number of developmental courses they are required to take. Students who receive a grade of “DVP” in a particular developmental course will be allowed to repeat that developmental course only two additional times for a total of three attempts. “Attempts” include those made in summer sessions. After a second attempt, students who do not pass a developmental course must meet with one of the Associate Vice Presidents for Academic Affairs.

If students do not successfully complete a particular developmental course on the third attempt, they will be separated from the College for one year. Students may not appeal separation except if they met with an Academic AVP after the second unsuccessful attempt and provide documented extenuating circumstances. Upon return to the college following a separation, students will be granted one attempt to successfully repeat the course(s). A grade of “DVP” in this attempt will result in another year’s separation with no option to appeal.

If a student appeals separation from the college, a Developmental Review Board is convened by the Vice President of Academic Affairs and is composed of a chair and four faculty members with at least one representative from the English Department and one representative from the Math Department. The chair of the board is the Coordinator of Learning Assistance Services or a designee. The board is assembled by the chair who selects from a list of faculty volunteers who request to serve on the Board.

Academic Calendar

The academic calendar shall be such that it protects the integrity of the credit offerings, complies with contractual obligations, and accounts for state and federal mandates.

Students’ Rights

The professor in the classroom and in conference should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

Protection of Freedom of Expression

Students should be free to take reasoned exceptions to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

Protection Against Improper Academic Evaluation

Students should have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

Protection Against Improper Disclosure

Information about student views, beliefs, and political associations which professors acquire in the course of their work as instructors, advisors, and counselors should be considered confidential. Protection against improper disclosure is a serious professional obligation and governed by the Family Educational Rights and Privacy Act (FERPA). Judgments of ability and character may be provided under appropriate circumstances, with the written consent of the student.
Class Cancellation / Individual Exceptions to Academic Policies

- **Cancellation of Classes due to Inclement Weather**
  
  Only the President and the Vice President for Administration and Finance are authorized to cancel classes for the day, the evening, or both.

- **Reports on Educational Travel and Field Trips**
  
  Procedures have been developed to support academic travel and field trips. Faculty and students are expected to adhere to the procedures for obtaining approval for academic travel and field trips. Procedures can be found through the Office of the VPAA.

- **Individual Exceptions to Academic Policies**
  
  The Vice President for Academic Affairs is authorized to waive the application of any College academic policy in a particular case.

- **Official Academic Email Policy**
  
  For Degree-Seeking and Non-Degree Seeking students, the College issued email account (@sunyorange.edu) is designated as the student’s official email address as it is validated by an authentication process. This will be used as the method of communication when administrative offices, academic departments and faculty need to communicate with students. Electronic communication through the use of the college’s learning management system (e.g. Angel or Blackboard) remains at the discretion of the instructor and should be communicated to the student in the course syllabus.

- **Change of Catalog Term**
  
  A. Students follow the program requirements of the catalog term in which they were originally admitted except in the cases of 1) readmission, or 2) change of program (major). In those cases, the student will follow the program requirements of the catalog term in effect at the time of change.

  B. Non-health professions students may also request to follow the program requirements of a more recent catalog term, but they may not mix program requirements from different terms for the same program.
This page intentionally left blank
Registration Information and Student Records

The Registrar maintains students’ records, sets the academic master schedule, distributes grades and administers many of the College’s academic policies.

Students should visit the Registrar’s website for information ranging from class schedules and important registration dates; grades, records, and access to records; verification of enrollment, attendance; graduation applications; the final exam schedule for each semester; the list of graduates for each semester; and protection of students’ privacy rights as well as questions regarding the Family Educational Rights and Privacy Act (FERPA).

Most of the information above can be found at the Registrar’s website at www.sunyorange.edu/registrar

■ Academic Procedures

The degree requirements and academic regulations contained in the SUNY Orange Catalog affect all students who begin their study during the period covered in this Catalog. All information is accurate as of the time of publication. For the most current information, please consult the College web page at www.sunyorange.edu Policies are subject to change.

Current information relative to changes in program or academic policies can be obtained from the Office for Academic Affairs. The Vice President for Academic Affairs is authorized to waive the application of any College academic policy in a particular case.

Academic Year

The academic year is composed of two semesters—Fall and Spring—each of which is a minimum of 15 instructional weeks long. Courses offered in the summer are a minimum of six weeks. Winter session courses, when offered, are usually three or four weeks in duration.

Cancellation of Classes

Classes may be cancelled due to low enrollment. However, any cancellation will be announced no later than the Friday before a full semester begins or on the day before a half semester begins.

During the semester, individual classes will be cancelled for the day, evening or both when hazardous driving conditions or similar inclement weather circumstances make such action advisable. Cancellation of day classes does not necessarily mean evening classes are also cancelled. Cancellation of day classes is usually announced at no later than 6 a.m. on the impacted day while cancellation of evening classes is usually announced at approximately 2 p.m. News regarding delays and cancellations can be found on the College’s website and social media sites, broadcast over local radio stations, and announced on the College’s main telephone number, (845) 344-6222.

The College reserves the right to reschedule classes. Generally, evening classes are made up on the Friday evening of the next week.

Change of Program

To move from one SUNY Orange degree program to another, a student must complete a Change of Curriculum form. The department chairperson for the new degree program must approve the change. In order for a change of curriculum to be processed for the current semester, the form must be received by the Registrar’s Office by the end of the third week of the semester. Any change of curriculum received after the third week will be effective for the subsequent term. Forms are available from Student Services Central or online.

Conduct Expected of Students

The College reserves the right to dismiss any student who exhibits conduct incompatible with the purposes of the College. The SUNY Orange Board of Trustees, administration, faculty, and staff have a primary concern for the academic achievement, standards and personal integrity of our students; recognize their obligation to protect college property; and take a special interest in the mental and physical health of the college community.

Committed to preserving the peace, uplifting campus morale and creating a civil climate on its campuses, SUNY Orange has adopted specific policies and procedures regarding student conduct. These policies and procedures, in the form of the Code of Student Conduct, are published in the Student Handbook available online at www.sunyorange.edu/student-services/index.html

Developmental Course Placement

For students who have tested into two or more developmental subjects (reading, writing or mathematics), the College has the following academic procedures in place to monitor their progress:

- A Developmental Review Board is convened by the Vice President of Academic Affairs and is comprised of a chair and four faculty members with at least one representative from the English Department and one representative from the Math Department. The chair of the board is the Director of Academic Support and Testing or a designee. The board is assembled by the chair who selects from a list of faculty volunteers who request to serve on the Board.

- Students who are placed on academic probation (earned less than 2.0 Cum GPA) or receive a DVF, ZDF, or DVH in a developmental course will be sent a letter stating that the student’s records have been reviewed. Based on a student’s academic progress, there may be a limit placed on the number of credits that the student may take. Students will have the option of meeting with the Developmental Review
**Course Policies and Procedures**

A **prerequisite** is a course or other requirement that must be completed prior to taking another course. It prepares students for more advanced courses in an academic field.

A **corequisite** is a course or other requirement that must be taken during the same semester as another course.

A **pre/corequisite** is a course that must be either (1) completed prior to taking another course or (2) taken during the same semester as another course.

**Notes:**
1. Course requisites may be waived or substituted at the discretion of the appropriate department chair. A signed waiver form approved by the department chairperson must be filed with the Registrar’s Office. Students with credits earned at another institution are urged to check with the Registrar’s Office to determine appropriate course equivalencies.

2. Course requisites are noted online as part of the catalog in the course descriptions area and also online as part of the course section search feature. A student without the appropriate requisites or waiver can be withdrawn from the course by the Registrar or at the request of the instructor.

**Course Outline/Syllabus**

Course outlines and/or syllabi are distributed to students and appropriate department chairs at the beginning of each semester. Each syllabus must contain the elements identified by the Office of the Vice President for Academic Affairs. Elements that may be included in a course outline/syllabus are: heading; catalog description; relationship to programs; student learning outcomes; chronology of study; grading system; types of tests; instructional materials; attendance policy; instructor withdrawal policy; support services; office location, hours and phone; campus e-mail address; religious observance; and appropriate Americans with Disabilities Act (ADA) information.

Departments may have their own policies regarding additional information and end-of-the-semester reports.

**Repeating a Course**

Repeating a course means taking a course after having received a grade of A, A-, B+, B, B-, C+, C-, D+, D, D-, F, ZF, W or M in that course. When a student repeats a course, the grade and credits earned in the last attempt are calculated in the academic average, unless the grade is a “W” or “M.” All grades remain on the student’s record. Students who receive financial aid should check with the Financial Aid Office before repeating a course in which a grade of D or better was earned.

**Audit of Course**

Students who wish to audit a course, where they do not earn credit or a grade in that course, must complete a special permission form, available at Student Services Central or online, when they register. Nursing courses are not subject to audit.

Students may, however, change their status from audit to credit or vice versa, if they file the special permission forms by the end of the third week of classes (or its equivalent for summer sessions). Instructors are not required to evaluate the work of audit students. Those students who are eligible for financial aid should consult the Financial Aid Office before registering or changing to audit status. If audited courses are included in 12 credits of course work, a student may become ineligible for TAP and other financial aid programs. Students are obligated to pay in full all tuition and fees whether or not they attend classes unless they officially drop classes.

**Credit Load**

Credit load refers to the total number of credits a student is taking in a semester. Twelve or more credits per semester is considered a **full-time** course load; while ½ to
Course Policies and Procedures

11½ credits per semester is considered **part-time**.

Students generally may schedule their classes in the day or evening, or both, in accordance with their particular needs. However, if a student wants to take more than the maximum credit load, (19.5 or more credits in a semester, or 8.5 or more in a summer session) the appropriate associate vice president must approve.

**Schedule Changes and Withdrawals**

Should a student need to change any portion of his or her schedule, or to withdraw from the College during the semester, the following policies have been established:

**Official Withdrawal from the College**

To apply for an Official Withdrawal from the College and all of the current semester’s courses, a student must meet the deadlines published in the appropriate course schedule. The student needs to discuss a withdrawal with his or her academic advisor and begin the formal process with Student Services Central.

Since the student’s financial aid and future academic record may be affected, the student must carefully follow the formal steps. The student must complete the Total Withdrawal from the College Form with appropriate signatures by the deadlines published in the current academic calendar. An exit interview with an Advising Office staff member is required for all degree-seeking students. Students who receive any form of financial aid are required to obtain a financial aid officer’s signature. Part-time, non-degree-seeking students should complete and file their forms with Student Services Central.

**Medical Withdrawal**

A student may withdraw from all semester courses for medical reasons.

When a student must withdraw from the College or courses due to personal medical reasons, he or she should obtain written verification from the physician and include it with all other required forms. The physician’s statement should list the dates of the condition and provide a general description of the student’s state of health and its effect on the student’s ability to attend classes. All such information maintained by the college is treated as confidential.

The student’s request for medical withdrawal and appropriate forms should be submitted before the end of the semester in which the illness occurs. If a third party is acting on behalf of the student at any point during the Medical Withdrawal process they are required to have a signed letter from the student giving them permission and show picture ID at time of service. This is in adherence with the College’s Red Flag Policy. Withdrawals approved for medical reasons do not generate an automatic refund of tuition, waiver of the physical education requirement, nor waiver of financial aid requirements. Students should fill out and submit a Request for Tuition Credit Appeal form as well as consult with the appropriate offices concerning these items.

**Withdrawal from a Non-Developmental Course**

A student may withdraw from a non-developmental course by following the deadlines posted in the registration calendar (see current course schedule), completing the appropriate forms available and obtaining the advisor’s signature.

**Withdrawal from a Developmental Course**

Per Academic Policy, students may not withdraw from developmental courses. Students may seek special permission to withdraw from an Academic Associate Vice President. Documentation of extenuating circumstances is required.

To withdraw from a developmental Mathematics course, no permission is needed if the student has not yet attempted 24 non-developmental credits. If a student has already attempted 24 non-developmental credits, he/she must obtain the permission of an Academic Associate Vice President (or designee).

**Impact Upon Financial Aid Awards**

Students who receive financial aid should check with the Financial Aid Office since current or future aid may be affected by such actions as:

- withdrawal (medical or voluntary) from either a single course or from all courses.
- repeating a course in which a grade of D or better was earned.

**Grades and Grading**

**Grades, Quality Points and Cumulative GPA**

SUNY Orange uses a four-point grading system, based on letter grades of A, B, C, D and F. Each grade is assigned a numeric value:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Numeric Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A+</td>
<td>4.33</td>
</tr>
<tr>
<td>A-</td>
<td>4.00</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
<tr>
<td>ZF</td>
<td>0</td>
</tr>
</tbody>
</table>

To calculate quality points, multiply the number of credits of a course by the numeric value of the grade earned. For example: An A (4 quality points) in Freshman English 1 (3 credits) produces 12 quality points (4 x 3 = 12) and a C (1.67 quality points) in Calculus 1 (4 credits) produces 6.68 quality points (1.67 x 4 = 6.68).

To determine academic average for a given semester, divide the quality points earned by the number of semester hour credits calculated (SemGPA). The same formula, dividing the total number of quality points by the total number of credits calculated, is used to calculate the cumulative quality point average (CGPA).
Grades and Grading

All credit courses taken at the College are calculated into the Cumulative GPA unless the student has been awarded a Fresh Start (see Fresh Start Policy). Transfer credits do not affect the cumulative SUNY Orange GPA. The College accepts only transfer credits, but not the grades.

However, when calculating academic average, the following special grades do not count as credits calculated:

- **PP (Pass)** indicates satisfactory performance in a physical activity course.
- **PF (Fail)** is received for unsatisfactory performance in a physical activity course.
- **ZPF (Fail)** stopped attending a Pass/Fail course failure; stopped attending before the 10th week of the semester or its equivalent and did not officially withdraw from the course.
- **I (Incomplete)** work unfinished due to unavoidable circumstances.
- **W (Withdrawal)** indicates that the student withdrew by the deadline.
- **M (Medical Withdrawal)** withdrawal from a course based upon documented health reasons.
- **N (Non-credit)** indicates a credit course was taken for no credit.
- **DVP (Developmental Pass)** indicates satisfactory performance in a developmental course.
- **DVF (Developmental Fail)** is received for unsatisfactory performance in a developmental course.
- **ZDF (Developmental Fail)** stopped attending failure; stopped attending before the 10th week of the semester or its equivalent and did not officially withdraw from the course.
- **NR (Not Reported)** by instructor.

To clear a grade of I (Incomplete) from the record, work must be completed by the deadline indicated on the Incomplete Form, which can be no later than the end of the next semester, Fall or Spring. If the work is not completed, the I grade will become an F. It is the student’s responsibility to remain in contact with the instructor and submit work by the deadline. A grade of I will be calculated as an F for graduation purposes.

Mid-Semester Progress Reports

Communication between instructors and students regarding the student’s progress in college classes generally takes place before or after class or during office hours. In addition, students whose work is below the level of “C” may receive a Mid-Semester Progress Report. This “unsatisfactory” report does not go on a student’s college transcript, but should be considered official notification that the student should speak with the instructor about his or her progress. Students may also wish to speak with their academic advisor or a personal counselor.

Degree Audit/Catalog Year

Students in Health Professions majors must follow the catalog requirements of the year in which they were most recently accepted into the program.

Non-Health Professions students who were admitted in Fall 2011 and after should follow the catalog year in which they were first admitted, and must have attended beyond the third week of classes (or the equivalent). Students may choose to follow later catalog versions. The Registrar’s Office will, however, base the student’s degree audit upon the initial semester in which the student was admitted and attended, unless otherwise notified in writing by the student.

Non-Health Professions students who were in attendance prior to Fall 2011 but who have taken semesters off should follow the catalog year in which they were first readmitted and attended after the Summer 2010 semester. Students may choose to follow later catalog versions. The Registrar’s Office will, however, base the student’s degree audit upon the first semester of readmission and attendance after Fall 2011, unless otherwise notified in writing by the student.

The only students eligible to follow a pre-Fall 2011 catalog year are non-Health Professions students who have been in continuous attendance since prior to Fall 2011.

CGPA - Cumulative grade point average

+ Grades of W, I, M, N or Pass/Fail in developmental and physical activity courses do not apply

* SemGPA - Semester grade point average

Final Examination Schedules

Final examinations are not required in all courses. During the Fall and Spring semester, for the mandatory 15th week, a special schedule is developed for all day classes. Final examinations will not necessarily be held on the same day or at the same time, during the Fall/Spring semesters, as the regularly scheduled course. The special schedule for final examinations of day classes is developed and distributed by the Registrar.

Examinations for evening classes during the Fall and Spring semesters are usually held during the last week, on the same day of the week and at the same time as the...
regularly scheduled course. See the academic calendar for the dates of the final examination period.

Graduation

Graduation Application

Graduation and participation in the commencement ceremony are not automatic. Students must initiate the process themselves. The Graduation Application Form must be filed with Student Services Central. Before students can be cleared for graduation, they must return all college property loaned to them and pay any monies or outstanding obligations owed to any office of the College.

Those intending to graduate in May must file for graduation during February and March prior to May graduation. Students who complete their graduation requirements at the end of the fall semester are invited to participate in the commencement ceremony the following May. See the registration calendar for filing deadlines.

August Graduates who meet certain criteria are able to participate in the May Graduation Ceremony provided you:

- Self Identify at time of applying in February or March
- Are in good Academic Standing (2.00 CGPA or higher)
- Have no more than 6 credits remaining; or 2 courses that do not exceed 8 credits to graduate in August

Waiver or Substitution of Graduation Requirement

Students who seek a waiver or substitution of a graduation course requirement should first discuss that request with the program department chairperson. Approval from the course department chairperson (if different from the program department chairperson) would also need to be obtained. Final approval is determined by the appropriate associate vice president.

Waiver of Physical Education For Health Reasons

Students seeking a waiver of physical education as a graduation requirement because of a physical limitation must follow this procedure:

- Obtain a Physical Education Waiver Request form from the office of the appropriate associate vice president.
- Give the Physical Education Waiver Request form to their physician (They must read it before sending a letter requesting a physical education waiver).
- Have your physician write a letter using his or her letterhead and following the instructions on the Physical Education Waiver Request form.
- Return the physician’s letter to the office of the appropriate associate vice president.

Note: Even though a physical education activity waiver is granted, students will still be required to take the one credit Concepts of Physical Wellness course, which is a lecture course and not an activity course if required for their program of study. This applies to all students, regardless of when they were admitted to the College. Students with long-term disabilities should make application for physical education waivers during their first semester at the College.

Residence

In order to qualify for an associate degree, at least 30 credit hours must be earned while attending SUNY Orange. Beginning with the Fall 2009 semester, if the student is enrolled in a Newburgh branch campus program, at least half of the credits earned at the College must have been taken at the Newburgh campus.

Transfer Credits and the Transfer Application Process

Transfer Credit From Other Colleges

In general, no more than 30 semester hours of credit are acceptable for students transferring to SUNY Orange from another college or university. Only courses in which the student has received a grade of at least “C” will be considered. Credit will be evaluated for course work completed more than 10 years ago on an individual basis. Only those credits which apply to the student's area of academic interest will be considered.

Awarding of transfer credit is done in writing. Upon receipt of the written evaluation, the student may schedule an appointment with the Registrar if he/she has questions or wishes to appeal the evaluation.

If the student is not satisfied with the Registrar's decision, they may appeal to the appropriate Department Chair within 10 business days after the Registrar's appeal decision is made. If the student wishes to appeal a Department Chair's decision, they may do so to the appropriate Associate Academic Vice President within 10 business days of being informed of the chair's appeal decision. The decision of the appropriate Academic Associate Vice President is final.

In addition to the above, SUNY has established policies to guarantee the transfer of credits for general education courses and courses taken in the first two years in the most frequently transferred majors. These policies guarantee that general education credits and credits in the primary courses in the most popular disciplines transfer throughout the system.

If a student does not agree with a SUNY College's decision on the granting or placement of credit earned at a prior SUNY institution, they have the right to submit an appeal to SUNY Orange's transfer campus representative which is the Vice President of Academic Affairs or their designee.

The student should be prepared to provide reasonable material to support their case, such as the course description or syllabus in question. The campus transfer representative will explain the process and let the student know exactly what materials are needed.

Once all of the required information is received, the
Transfer Credits / Transfer Application Process

expectation is that the transfer appeal representative will provide the student with a written response within 15 business days. If the decision finds merit to change the course to meet a major requirement, the representative will notify the student, the chairperson and/or program coordinator, and will see that the change is made to the student’s record.

If the decision is unchanged, or the student has not received a response within 15 business days, the student may take their appeal to the SUNY System Provost by submitting the Student Transfer Appeal Form along with requested materials.

The SUNY Provost will respond to the student's appeal within five business days from receipt of the completed appeal application. If the decision finds merit to change the course to meet a major requirement, the receiving institution will be notified to take appropriate action.

Remember, this additional appeal process is only available when a student challenges SUNY Orange's decision not to accept credit earned at another SUNY institution.

Note: If you receive a waiver of your placement testing based on work completed at other schools, this does NOT guarantee that you will receive transfer credit.

Courses and credits, but not grades, are accepted. A student’s CGPA at SUNY Orange is calculated based upon course work at SUNY Orange only. Transfer credits from other institutions do not affect the CGPA.

If a student has a passing grade in a course at SUNY Orange, an equivalent course will not be accepted from another institution. If a course is failed at SUNY Orange, an equivalent transferred course may be accepted, but the failing grade will still appear on the student’s transcript and will be calculated in the student’s CGPA. No grades are ever eliminated from a student transcript.

Active duty military personnel may receive up to 45 credits and veterans up to 30 credits for courses and military occupational specialties if those courses or specialties are directly applicable to an area of academic interest at SUNY Orange. Students who have completed basic training in the U.S. armed forces may receive credit for both PES 100 and the one credit of physical activity requirement if required for their program of study.

Credit by SUNY Orange Examination

Students’ life experiences may qualify them to take examinations and earn college credit in certain course offerings. To pursue this option, students are encouraged to check with appropriate department chairpersons. SUNY Orange may also award transfer credit for certain Excelsior College exams (formerly Regents College), certain AP (Advanced Placement) and CLEP (College Level Experience Program) exams, and certain non-college-sponsored training programs, as evaluated by the American Council on Education.

Transcript Requests

Official Transcripts contain a record of all courses, grades and degrees received at SUNY Orange. Transcripts are sent to other parties such as colleges, prospective employers, or government agencies at the request of the student and payment of the required fee.

NOTE: Transcripts will not be released if there is a hold on the student account.

Online Transcript Ordering:

SUNY Orange has partnered with Credentials Solutions to provide transcript ordering, printing, and delivery services for students and alumni quickly and conveniently online. Please visit www.sunyorange.edu/registrar/transcripts for additional information and to order your transcripts.

Upon written request and following payment of appropriate fees, students may have transcripts sent to other parties such as colleges, prospective employers or government agencies. Transcripts are mailed within a week of the request, in order of receipt.

Transcripts should be requested well in advance of the required receipt date. Requests must be signed by the student, authorizing release of transcripts, and include the transcript fee of $10 per copy. Please be advised that institutions and agencies requesting transcripts will not consider them official unless mailed directly from SUNY Orange or hand-delivered in a sealed envelope marked “unofficial if seal is broken.” Only the student (with appropriate photo identification) may pick up their transcript, unless they have given written permission to a designee, with a verified signature. The designee should also provide photo identification.

Policy for Transcript Notations for Crimes of Violence

For crimes of violence, including, but not limited to sexual violence, defined as crimes that meet the reporting requirements pursuant to the federal Clery Act, SUNY Orange shall make a notation on the transcript of any student found responsible after a conduct process that they were “suspended after a finding of responsibility for a code of conduct violation” or “expelled after a finding of responsibility for a code of conduct violation.”

For the respondent who withdraws from the institution while such conduct charges are pending, and declines to complete the disciplinary process, SUNY Orange shall make a notation on the transcript that the student “withdrew with conduct charges pending.”

Students may appeal seeking removal of the transcript notation for a suspension through written request to the Vice President for Student Services. The notation shall not be removed prior to one year after the conclusion of the suspension. Notations for expulsion may not be appealed and will not be removed. If a finding of responsibility is vacated for any reason, any such transcript notation will be removed.

Transfer to Four-Year SUNY Colleges

If students earn an Associate in Arts or an Associate in Science degree from a two-year institution, State
University of New York guarantees a place for them as a full-time student at a senior college campus—but not necessarily the one of their first choice.

The application deadline is March 1 for Fall semester transfer and Oct. 1 for Spring transfer. All other applications, excluding the guaranteed program, can be sent after this deadline. SUNY application forms are available at the Academic Advising Office. If students plan to transfer, they should take advantage of SUNY Orange transfer days and visitations by four-year college transfer representatives.

### Student Records

#### Certifications of Enrollment/Attendance or Certifications of Full-Time/Part-Time Status

Enrollment Certification of Full-Time/Part Time status are available through the National Student Clearinghouse Self-Service Program. Students are securely and seamlessly brought to the Clearinghouse Self-Service site by signing into MySunyOrange. Advanced Registration Certificates, Current Enrollment Certificates and Past Enrollment Certificates will be available for students to print.

To certify enrollment, tuition and fees must be paid and all stop/ holds must be cleared from the student's records.

#### Student Records/Confidentiality

All student records are maintained and made available in accordance with the Federal Family Educational Rights and Privacy Act (FERPA) of 1974. With some exceptions, all student records are available for review upon request by that student, and the right to challenge the content is provided.

The College may disclose directory information without the written consent of the student. Directory information includes name, semesters enrolled and the dates of those semesters, field of study, degrees, honors and awards conferred. Addresses are only released to governmental officials who wish to send congratulatory notices to our graduates and to third party institutions with whom the college has articulation agreements for our graduates such as Franklin University. Additional biographical information will also be released to military recruiters as allowed under the Solomon Act.

Students can request that their personal directory information be suppressed by submitting formal written request to the Records and Registration Office. However, please be aware that once directory information is suppressed enrollment verifications for insurance companies, student loans, and prospective employers will not be given this information without the student's written permission which could have delays that may impact the student.

No non-directory information records are released to third persons except as provided in the Act. Further information is available from the Records and Registration Office or in the SUNY Orange Student Handbook.

#### Notification of Student Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- **The right to inspect and review the student’s education records within 45 days of the day the College receives a request for access.** Students should submit to the Registrar or Vice President for Student Services written requests that identify the record(s) they wish to inspect. A College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- **The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.** Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment.

- **The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the College will disclose education records without consent to officials of another school which a student seeks or intends to enroll (barring any indebtedness to this College).

- **The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with FERPA requirements:** Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue SW, Washington, DC 20202-4605.

#### Directory Information

Directory information is personally-identifiable student information which the U.S. Department of Education has concluded is permissible for institutions to release without a
Student Rights and Responsibilities

The purpose of the Student Academic Grievance Procedure is to encourage the informal resolution of academic issues that might surface between students and faculty in a manner that is timely and upholds standards of academic integrity. In the event

Consent Forms for Release of Non-Directory Information

A student’s signed written consent must specify the records to release/inspect, state the purpose of the disclosure and identify the person(s) to whom the disclosure should be made. A new consent form would be required each academic year or when access to additional educational records not covered in the previous consent form on file are being requested.

If the consent form does not specify the actual educational records to be inspected or simply states something equivalent to “all educational records,” the only records that will be disclosed are those that appear on the most current academic transcript.

According to FERPA regulations, an institution has up to 45 days after receipt of a valid consent form to arrange for the inspection/disclosure of the specified educational records. Personal inspections of the requested educational records in the majority of cases will be made with the Registrar, who also acts as the FERPA officer for the institution, and not necessarily with individual faculty members.

In the case of a so-ordered subpoena, issued by a judge, consent from the student is not required for disclosure of non-directory information. However, unless the subpoena specifically states that contact with the student is forbidden, the institution will not respond to said subpoena for 72 business hours and in that timeframe will attempt to contact the student to inform them that a subpoena was received, who issued the subpoena, and what records will be disclosed.

Parents’ Rights

Message to Parents: SUNY Orange is guided by the principle that students’ active involvement in their education enhances their learning and development. In keeping with this principle, SUNY Orange considers its primary relationship to be with its students.

The Family Educational Rights and Privacy Act has provided two ways in which parents/guardians of dependent students may inspect the educational records of the student.

The first is to obtain a signed written consent from the student and submit consent to the Registrar.

If the student is unwilling to provide a signed written consent, the final alternative is for the parents/guardians to provide the Registrar with a copy of the preceding year’s tax returns to demonstrate the student is a tax dependent. The copy provided must have either been completed by a third party (accountant, tax preparer, etc.) or be an official full complete copy (not the shortened version) from the Internal Revenue Service. Information on how to obtain this version can be found by contacting the IRS Office at (800) 829-1040. When the documentation is submitted, the parents/guardians must also specify the records to be inspected. If the request simply states something equivalent to “all educational records,” the only educational records that will be disclosed are those that appear on the most current academic transcript.

■ Student Rights and Responsibilities

Conduct Expected of Students

See the Code of Student Conduct published in the Student Handbook. The College reserves the right to dismiss any student who conducts himself or herself in a manner incompatible with the purposes of the College.

Academic Separation, Probation and Appeals

Please see Grades and Grading.

■ Academic Grievance Procedure

Purpose of the Procedures:

The purpose of the Student Academic Grievance Procedure is to encourage the informal resolution of academic issues that might surface between students and faculty in a manner that is timely and upholds standards of academic integrity. In the event
that students and faculty are unable to resolve an academic issue, the formal stage provides additional fair and equitable procedures for students. Students should understand that each stage of the process is an important one; therefore, it is not possible to move through the process unless previous stages have been followed. The procedure must be utilized by all students regardless of the location at which the grievance has arisen or the mode of delivery for the course.

Procedures:

A student having a concern of an academic nature with a faculty member arising from participation in a credit class should follow the procedure outlined below. Such concerns could include the belief that his/her grade(s) is not consistent with the grade criteria designated by the course instructor/syllabus.

Should the grievance reach the formal stage the student has the right to seek the assistance of an unbiased third party, which includes the student’s academic advisor or an individual from a pool of trained volunteers. The role of this third party is to help the student prepare for and navigate the formal process. It is not the role of this third party to represent the student during this process.

Informal Stage:

a. The student must first discuss the matter with the course instructor. This discussion should commence as soon as possible but (1) no later than 30 calendar days after the start of the following spring semester if the concern arose during the fall semester or (2) no later than 30 calendar days after the start of the following fall semester if the concern arose during the spring semester or summer session. Faculty must document the date of meeting with the student.

b. If the student and the instructor cannot resolve the matter in this discussion, the student will have five business days after meeting with the instructor to contact the appropriate Department Chair to discuss the matter informally with him/her. The Chair must consult with the instructor and may include the instructor in the mediation. The student and the instructor should provide copies of all relevant material. The chair will make a decision within five business days and communicate the rationale for the decision to the instructor and the student.

c. The student will have five business days from the date of the Chair’s decision to contact the appropriate Associate Vice President to discuss the matter informally with him/her. If the academic grievance requires the issuance of a grade change, at the objection of the instructor, the student must enter the formal stage of the grievance process.

Formal Stage:

a. If the matter has not been resolved informally, the student will have five business days after discussion in 1(c) to file a formal, written grievance Notice with the appropriate Associate Vice President. The Academic Grievance Notice form will be available through academic departments and should include a clear statement of the student’s specific complaint, a clear statement of how the student would like to see the matter resolved, and relevant documentation that supports the student’s claim(s).

b. The Associate Vice President will inform the course instructor and the Department Chair of the formal grievance and will have ten business days to meet with all parties involved, make a thorough evaluation, and notify the student, course instructor, and Department Chair in writing of his/her findings, decision, and the rationale for his/her decision.

Appeal:

a. If the student is not satisfied with the decision of the Associate Vice President, he/she will have five business days to file a formal, written appeal with the Vice President for Academic Affairs. This written appeal should include a copy of the Academic Grievance Notice submitted to the Associate Vice President and any additional documentation or explanation that is appropriate.

b. The Vice President for Academic Affairs will inform the course instructor, the department chair, and the Associate Vice President of the formal appeal and will have ten business days to meet with all parties involved, make a thorough evaluation, and notify the student, course instructor, department chair, and Associate Vice President in writing of his/her findings, decision, and the rationale for his/her decision.

Final Appeal:

a. If the student is not satisfied with the decision of the Vice President for Academic Affairs, the student will have five business days to file a formal, written grievance with the President of the College. This written appeal should include a copy of the Academic Grievance Notice submitted previously and any additional documentation or explanation that is appropriate. Only those grievances heard and decided during previous stages of this process can be considered by the President. The President will issue a formal decision to all parties, in writing, within ten business days. The President’s decision is final.

NOTE: The authority to assign grades rests with the faculty member who is instructor of record; however, under extraordinary circumstances, if the academic grievance requires the issuance of a grade change, at the objection of the instructor, only the Associate Vice President, Vice President for Academic Affairs, or the President may authorize such in the formal or appeal stages. Students are required to utilize the informal stage to attempt to resolve all academic grievances, including those pertaining to grades.

Record Keeping

A permanent file containing appropriate documentation relating to the grievance shall be kept in the office of the Vice President for Academic Affairs for six years.

Non-Discrimination and Sexual Violence Prevention

SUNY Orange is committed to ensuring equal employment, educational opportunity and equal access to services, programs and activities without regard to an individual’s race, color, national origin, sex, religion, age, disability, gender, pregnancy, gender identity, sexual orientation, predisposing genetic characteristics, marital status, veteran status, military status, domestic violence victim status or ex-offender status. This includes, but is not limited to, recruitment, application process, examination and testing, hiring, training, grading, disciplinary actions, rates of pay or other compensations, advancement,
Non-Discrimination and Sexual Violence Prevention

classification, transfer and reassignment, discharge, and all other terms and conditions of employment, educational status, and access to college programs and activities.

In addition, the College is committed to creating and maintaining an educational environment free from all forms of sexual misconduct. Any act involving sexual harassment, violence, coercion, and intimidation will not be tolerated. Specifically, the College strictly prohibits the offenses of domestic violence, dating violence, sexual assault, and stalking. These acts have a real impact on the lives of victims. They not only violate a person's feelings of trust and safety, but they can also substantially interfere with a student's education. No person or persons will, by coercion or physical force, engage in sexual acts with any member of the College community. It is the policy of SUNY Orange that, upon learning that an act of sexual misconduct has taken place, immediate action will be taken to address the situation and punish the perpetrator.

If you have experienced sexual violence or sexual misconduct, you may seek advice and support services from the Wellness Center or Security. Survivors of sexual assault and violence are encouraged to use these services, regardless of whether the incident happened on or off campus.

The Student Handbook, which can be reviewed at www.sunyorange.edu/studentdev/student_handbook.shtml, contains more detailed information regarding students' rights, responsibilities, confidentiality, grievance procedures, and Code of Student Conduct.
Student Services

Student Services is dedicated to attracting, enrolling and sustaining a diverse student population. Through an array of exemplary programs and services, the dedicated staff at the College is able to provide the assistance, connection, guidance and support students need to successfully achieve their academic and personal goals.

Academic Advising at SUNY Orange

Academic advising at SUNY Orange is designed to facilitate student learning, development and success by collaborating with students to develop and implement meaningful and attainable educational plans. The College recognizes that academic advising is vital to the educational process and student success, and offers a thorough advising program that is coordinated by the Academic Advising Office in conjunction with the academic departments.

Transfer Advising

The Office of Academic Advising assists students with transfers by helping them understand the transfer process; navigate information about the application requirements and deadlines; determine course appropriateness; and understand articulation agreements and the SUNY Transfer Guarantee.

Veterans Services

SUNY Orange has a VA Certifying Official, located in the Office of Academic Advising, who is ready to provide benefit information and enrollment certification services to our military students and their dependents. Academic Advisors assist Veterans with developing academic plans and accessing resources necessary for academic success.

An on-campus Veteran Resource Room is available as a place to relax and socialize with other Veteran students. It is also the meeting place of the SUNY Orange Veterans’ Club.

SUNY Orange is committed to our Veteran students from the moment of acceptance through advising and registration, accessing benefits, program completion, and on to your proud walk on graduation day.

Student Services

Student Services Central

Student Services Central provides current and prospective students with efficient, convenient and expedited enrollment services and support information in one convenient location. Our knowledgeable cross-trained staff provides assistance with admissions, financial aid, course registration, and student accounts.

Career Advising/Counseling

Career Specialists work with students on a 1:1 basis, or through group workshops and career planning courses. We provide assessments which help the students to gain a better understanding of their interests, skills and abilities, values and personality type. We assist students to obtain and research occupational, educational and employment information and help them determine what college major may complement their career exploration results.

Office of Accessibility Services

The Office of Accessibility Services (OAS) provides access and equal educational opportunity for students with disabilities. Prior to admission, or any time after beginning classes, students with disabilities are encouraged to contact the office to schedule an intake interview. Based on the intake interview and documentation provided by a student, a variety of accommodations may be provided to help students limit the impact of their disability on their academic performance. OAS also acts as a liaison between the student, faculty and staff. Once students have self-identified, applied for services, and provided documentation of their disability, staff works to determine eligibility for reasonable accommodations. Under the Americans with Disabilities Act (ADA), both the student and the College must carry out these responsibilities in a timely manner.

The Office of Accessibility Services is an official New York State Voter Registration site. Individuals who visit our office are given the opportunity to register as NYS voters. Assistance is available to complete the registration process.

For more information, contact the Office of Accessibility Services at (845) 341-4077 (Middletown Campus) or (845) 341-9034 (Newburgh Campus).

Educational Opportunity Program

The Educational Opportunity Program (EOP) serves as a primary vehicle for increasing the academic excellence and retention of Orange County’s historically underserved students. We commit to providing timely access to academic, personal, and social support services assisting in the matriculation, retention, and graduation of SUNY Orange EOP students.

For more information, please call (845) 341-4407

TRiO Student Support Program

TRiO Student Support Services assists students who are the first generation in their family to attend college, have a documented disability, and/or are considered to be low income as per federal guidelines. Our goal is to increase student retention and graduation rates, and facilitate a smooth transition and transfer to four-year institutions. For more information, please call the TRiO office at (845) 341-4175

Lab School—Campus-Based Childcare

To help alleviate childcare concerns that may become obstacles for students wishing to continue their education, the College Association provides childcare services in what is called a lab school. This service is available to children of SUNY Orange students, as well as children of staff and faculty, and the community.

Morning, afternoon and full-day programs provide a healthy, happy and stimulating learning environment.
Academic Advising / Student Services

Each child is able to explore and learn through a variety of activities, including music and movement, creative art, story time, outdoor play and child-directed center-based readiness experiences.

The childcare programs are located in the Morrison Lab School on the Middletown campus, and in the Tower Building on the Newburgh campus. The Lab School is licensed by the New York State Office of Children and Family Services. The Lab School accommodates children through five years of age.

The Wellness Center

The Wellness Center is open to all students, free of charge. Our mission is to promote physical and mental health education and wellness for the campus community. We provide health and wellness programs and workshops throughout the academic year to help students maintain a healthy lifestyle. All physical and mental health services are provided by licensed professionals. Our registered nurses are available for consultation regarding health concerns. Our personal counselors provide short-term counseling.

The Wellness Center also maintains all immunization and health records.

Bookstore

SUNY Orange’s bookstore services are provided by Follett, which operates the College’s bookstores at the following locations:

In Middletown:
- George F. Shepard Student Center (2nd Floor)

In Newburgh:
- Tower Building (1st Floor)

Textbooks, course materials, supplies, clothing, gifts, technology, academic regalia and other items are available for purchase in-person at either campus location, as well as online at www.sunyorangebookstores.com.

Hours of operation vary throughout the academic year and are posted online. Follett offers many textbook options (purchase new, purchase used, rent, etc.) to suit each student’s needs.

Food Service

The College Association, through a contract with Avanti Markets, provides micro-markets at three locations on the Middletown campus and one location on the Newburgh campus.

In Middletown:
- Rowley Center (Ground floor)
- Bio-Tech Building (South Street lobby)
- George F. Shepard Student Center (2nd Floor)

In Newburgh:
- Kaplan Hall (2nd Floor)

The micro markets are accessible to students, employees and visitors whenever those buildings are open for operation. A micro market is an unmanned retail space where individuals can purchase food and beverages. These markets include a wide variety of fresh and healthy items that are restocked regularly. Refrigerated cases contain fresh foods like salads and sandwiches, as well as beverages, fruits, vegetables and other perishable snacks. A variety of beverages and other non-perishable snacks are also be available.

Customers can select the food or beverage they wish to purchase and pay at the intuitive, self-checkout kiosk. Customers may also use an Avanti card that they can preload with funds and then use to pay for food. Students can acquire an Avanti card from the Welcome Desk in the Shepard Student Center on the Middletown campus, and at the Security Desk in the Tower Building on the Newburgh campus. More technically savvy customers may wish to download and use the Avanti Markets App as a payment source.

Because the micro market locations are unmanned, each area will also be outfitted with security cameras to monitor activities and transactions. Those who commit theft will be subject to disciplinary action. Removing items from an Avanti Micro Market without paying is larceny. Under New York State Law, larceny is punishable by up to one year in jail or up to a $1,000 fine if convicted.

To further support a variety of food choices at the Middletown campus, the College may occasionally contract with vendors to provide additional food options during limited hours on weekdays.

Center for Student Involvement

The hub of student activity, the Center for Student Involvement is where students can obtain information or assistance regarding all student clubs and events.

Identification Card

Each student receives a SUNY Orange ID card displaying their picture. This card must be carried and be readily available at all times for purposes of identification. The ID card is also used as the College library card.

A replacement fee of $15 is charged for lost or mutilated cards. The ID cards must be validated every semester.

Parking Tags

Parking tags are required for all daytime students and are available in Middletown at the Center for Student Involvement in the George F. Shepard Student Center, or in Newburgh at Student Services Central in Kaplan Hall. A valid college identification card is required to obtain a parking tag. College security personnel will issue tickets for parking violations, and all tickets can be paid at Student Services Central.
Co-Curricular Activities

Activities sponsored by the Board of Activities range from theater, dance and musical presentations to lectures, comedy, novelty/variety shows and various trips to recreational, educational and cultural events. On the Middletown campus, a game room and offices for Student Senate and the Board of Activities are located on the first floor of the Shepard Student Center.

On the Newburgh campus, the Center for Student Involvement is located in the Tower Building, B-Level.

The phone number for the Center for Student Involvement is (845) 341-4015 in Middletown and (845) 341-9544 in Newburgh.

Clubs

The wide variety of student clubs and organizations are open to all SUNY Orange students. Whether it is the Biology Club, Board of Activities, International Club, Nursing Club or Student Senate, SUNY Orange likely offers a club that will match your interests. If not, the Center for Student Involvement stands ready to help students start a new club. For more information and to see an up-to-date listing of our clubs and activities, visit the CSI website:

www.sunyorange.edu/csi

Athletics

The College schedules intercollegiate competition for men in basketball, baseball, cross country, soccer, and golf, and for women in basketball, cross country, softball, and volleyball. An intramural program of athletics is available for all students.

Theater

Theater productions are held under the auspices of The Apprentice Players, a club open to all students. Additional Center for Student Involvement-sponsored theater productions performed by professional companies are scheduled throughout the year.

Music

The Arts and Communication Department sponsors musical productions throughout the academic year. In addition, the Center for Student Involvement and the Cultural Affairs sponsors a variety of concerts each semester.

Phi Theta Kappa

Since its founding in 1918, Phi Theta Kappa has sought to recognize and encourage scholarship among associate degree students at two-year institutions of higher education. To achieve this purpose, the honor fraternity has developed opportunities for leadership and service, as well as provided a stimulating climate for continued academic excellence. A local chapter of Phi Theta Kappa, the national honor fraternity, was established at SUNY Orange in 1988. Students who have attained a cumulative grade point average (CGPA) of at least 3.5 after completion of at least 12 credit hours are eligible for membership.

Cultural Affairs

Cultural Affairs at SUNY Orange presents a broad spectrum of events throughout the year. Programming is diverse and is meant to augment the educational and academic opportunities of the college community, as well as provide enriching experiences to the community-at-large. Inasmuch as SUNY Orange is a community college, the community is invited to participate and avail itself of all programs. Events include jazz, classical, and world music concerts; classics, modern, new, and children's theatre; short and full-length films with introductions & discussions; poetry and book readings by poets and authors; music, visual art, theatre, literary, biology/botany master classes; lectures on science, social studies, history, humanities, art, architecture, music, film, theatre, timely issues; art or other timely exhibits including small musical performances and art demonstrations during receptions. Questions may be directed to (845) 341-4891 or 341-9386 and cultural@sunyorange.edu.

For more information visit our website at www.sunyorange.edu/culturalaffairs.

College Photography Policy

SUNY Orange reserves the right to photograph/videotape students for the purpose of institutional promotion. Whenever possible in controlled photo/video shoots, SUNY Orange will observe the common practice of allowing students to “opt-out” of the photo/video shoot. However, permissions will not be obtained for the use of student images in photographs/videos of public events on campus or off campus and sponsored by the College, such as rehearsals, performances, lectures, readings, athletic events, student life events, alumni events, and College ceremonies. Academic departments also reserve the right to photograph/videotape students and their work for institutional use. Questions about this policy should be directed to communications@sunyorange.edu.

Using Telecommunications Relay Service (711) to Contact SUNY Orange

Telecommunications Relay Service, 711, allows telephone communications between individuals who are deaf, hard of hearing, deaf-blind or speech disabled using a Telecommunications Device for the Deaf (TDD) and anyone using a regular telephone.

To contact SUNY Orange via TDD equipment, please dial 711, then (845) 344-6222.

College Email Policy

SUNY Orange uses e-mail as the official means of communicating academic and administrative information to students.
**Assignment of E-mail Address**

SUNY Orange assigns an e-mail address (@sunyorange.edu) to each registered student. This College-issued e-mail account is designated as the student’s official e-mail address when administrative and academic departments need to communicate with students.

**College Responsibility**

The College is responsible for communicating with students in a timely and accurate way about changes in policies, procedures and deadlines that affect them. The College will select the most appropriate method (mail, telephone, e-mail) to convey pertinent information to specific groups of students. In some cases, e-mail may be used exclusively. Routine announcements, administrative and academic dates and deadlines, and information of a general nature will typically only be sent by e-mail.

**Student Responsibility**

Students are responsible for receiving, reading, responding to and complying with official e-mail communications sent by the College. Because information may be time-sensitive, students are encouraged to check their e-mail regularly (daily, several times weekly) throughout the semester.

Students who opt to redirect their @sunyorange.edu e-mail account to another personal e-mail account do so at their own risk. The College is not responsible for e-mail that is not delivered to a forwarded address or for spam filters that may block e-mail messages. The student’s failure to receive or read e-mail communications does not constitute an excuse for missing College communications or College deadlines.

Center for Student Success

A variety of academic support is available to students enrolled in credit courses at SUNY Orange. Learning support is provided in our Center locations and include scheduled tutoring sessions and tutor-led study groups. Students also have the option of working with tutors on an as-needed basis in academic department labs.

Students who work with us will:
- improve knowledge of subject matter
- develop effective study skills
- increase awareness and use of college services
- complete required developmental education courses in a timely manner
- achieve academic goals

Center for Student Success Locations

Middletown Campus
Library, 2nd Floor  (845) 341-4171

Newburgh Campus
Kaplan Hall (Room 220)  (845) 341-9504

When to contact the Center for Student Success

Students should contact a Center for Student Success office to ask questions about the College's tutoring services and options for support, to apply to be scheduled for paired appointments or study groups, and when interested in being hired as a peer tutor.

Developmental Education

See pages 7-8, 34, and 39-40 for more information about developmental education.

All newly admitted students are required to take the Placement Test in reading, writing and mathematics. Performance on this computerized assessment determines the student's proficiency in these areas and allows SUNY Orange to place students in classes that correspond with the student’s demonstrated skill level. A student may be required to take developmental courses based on their placement results. In some instances, developmental courses are prerequisites or co-requisites to college-level courses. In all cases, students must complete their required developmental courses.

SUNY Orange offers a variety of developmental courses for students who need to strengthen their basic skills. Students must follow specific academic policies related to these courses.

The reading, writing and math placement tests may be re-taken, only prior to attendance in classes, with the approval of the appropriate department chairperson, (i.e., chairperson of the English Department for reading and writing, chairperson of the Mathematics Department for math). For a request to be considered, a student must submit a Placement Retest Request form.

The following developmental courses (and their corresponding replacements) are offered at the College:

<table>
<thead>
<tr>
<th>Course</th>
<th>Replacement</th>

<td>MAT 030</td>
</tr>
<tr>
<td>Mathematical Reasoning</td>
<td></td>
</tr>
</tbody>
</table>

Students placed in developmental writing and/or reading courses must be enrolled in these courses during every semester of attendance until they receive a grade of DVP in these courses. Students who do not pass a developmental course will be allowed to repeat that course only twice for a total of three attempts. Students who do not receive a DVP in the course by the third attempt will be separated from the college for one year. Please see the Academic Policy manual for further
Students placed in developmental math courses must complete these courses, even though there may not be a specific math requirement in their curriculum. If students have not successfully completed the appropriate developmental math course sequence (see * below) by the time they have attempted 24 non-developmental credits, they must enroll in these courses every semester until they receive a grade of DVP.

* Successful completion of developmental math includes either completion of the MAT 010/020 sequence, or the MAT 010/030 sequence (if applicable). See your advisor for details.

Grades of DVP must be received in all developmental courses into which students have been placed prior to applying for graduation.

Units earned from developmental courses are institutional in nature; they are not applicable to the 60 or more semester hours of credit required for an Associate in Arts, Associate in Science, Associate in Applied Science or any of the certificate programs.

Students who are enrolled in developmental courses may receive financial aid if they meet income eligibility requirements and have gone through the College’s regular admission process. Financial aid will pay for required course work towards a student’s degree or certificate. Developmental courses are considered required course work.
## Permitted Credit Courses for Students Placed in One or More Developmental Courses

Students registered in **English as a Second Language**, WRT 020, are permitted to take the following courses*:

<table>

Learning Resources

Library

Library Services are provided on both the Middletown and Newburgh campuses. Designed to be welcoming places, each Library contains a mixture of comfortable seating, designated quiet areas, and a variety of study spaces that include carrels for individual study and tables for group work. The Information Commons spaces are busy, centrally located areas, where students can access a range of academic and technology resources carefully selected to support their learning and research. Within the Commons, the Libraries provide traditional research tools, databases and reference materials, Microsoft Office software, and both wired and wireless internet access. The electronic databases provide full-text and full-image journals, magazines and newspapers. Help Desks located adjacent to the Commons are staffed by librarians and support staff to assist students with their research needs.

Workshops and Instruction sessions designed to help students acquire and improve library research skills are held in the Commons classrooms. A schedule of workshops is available online and within the Library.

The student’s college identification card serves as a library card and is required to borrow books, videos, and reserve readings.

The Library web site (http://sunyorange.edu/lrc) contains detailed information regarding library services, hours, and policies, and includes instructional guides that are designed to assist students with their research needs. For questions or reference assistance, students may call Middletown 341-4855 or Newburgh 341-9020.

Center for Student Success

The Center for Student Success is dedicated to providing open and accessible support to SUNY Orange students, working toward their college and career goals. With a center on both the Middletown and Newburgh campuses, we offer an inclusive and encouraging environment where students succeed in becoming more confident and independent learners. Each semester, we offer a range of services that meet students where they are, academically and individually. This includes drop-in, one-time, or weekly tutoring, study groups, online tutoring, as well as workshops.

The Center for Student Success is committed to providing guidance, practice, and encouragement for our students at any stage of learning. Students who work with us will:

- Articulate academic, professional, and personal goals
- Improve and increase academic engagement through self-directed learning
- Increase awareness of, independently navigate, as well as utilize college resources
- Identify and apply strategies to study effectively, manage time, and priorities

Center for Student Success Locations

Middletown Campus
Library, 2nd Floor
(845) 341-4171
studentsuccess@sunyorange.edu

Newburgh Campus
Kaplan Hall, Room 220
(845) 341-9504
studentsuccess@sunyorange.edu

Please contact either center for current semester hours of operation.

Biology and Health Science Learning Facilities

The BATCAVERN (Biology Allied Technology Center for Audio, Visual Education RN) facilities are a learning resource for Students in the Biological Sciences and the Health Professions Programs. It is a place for students to meet for individual and small group study as well as for formal tutoring, which can be arranged at the Tutorial Center in the Library on the Middletown campus or in Kaplan Hall, Room 230 on the Newburgh campus. The BATCAVERN facilities offer students access to a full range of anatomical models and related instructional aids including CD-ROMs, Videotapes, and review materials. Students can also access the internet and use computers offering the Microsoft Office programs Word, Excel, and PowerPoint to assist with preparing lab reports, research papers and presentations.

Middletown Campus

BATCAVERN
RCSE Room 306
341-4156

Newburgh Campus

BATCAVERN II
Kaplan Hall Room 230
341-9504

Mathematics Tutorial Labs

The Mathematics Department has two Math Tutorial Labs which are open to any student enrolled in a mathematics course through SUNY Orange. The Math Tutorial Labs are staffed by professional and peer tutors who are more than happy to help students in need. Members of the Mathematics Department full-time faculty also make themselves available at times. Math lab tutors can help clarify topics and concepts that students may be struggling with, and help students prepare for quizzes and exams. The Math Tutorial Room hours are posted at the labs each semester and are also available at the Mathematics Department webpage. Math Tutorial Labs are located on the Middletown Campus in Harriman

Learning Resources

Hall Room 309, and on the Newburgh Campus in Kaplan Hall Room 229. No appointment is necessary.

Education Curriculum Resource Area

The Education Curriculum Resource Area is located on the second floor of the Library. It houses children's fiction and non-fiction titles, including many Caldecott and Newbery award winners, professional periodicals, teacher resource books, textbooks, and other print resources for student use.

English Department Writing Centers

The English Department Writing Centers serve all students who need to work on writing skills. Students may sign up for writing practice or be referred by their instructors. Some courses also require mandatory weekly hours in the Writing Center. The center operates on the philosophy that students learn to write by writing. Skills instruction is done in the context of the student’s own work, generated in the center. Using instructor-created materials, students work individually with English Department instructors and tutors. Computers accommodate various learning styles. Day and evening Writing Center hours are posted each semester. Writing Centers are located in Middletown (Bio-Tech 360) and Newburgh (Kaplan Hall, Room 225).

The Writing Consultancy Project

SUNY Orange’s Writing Consultancy Project’s goal is to help students master their occupational, professional and academic writing and to promote writing across the academic disciplines. Sponsored by the English Department, the project provides writing consultants to specific academic departments and career programs. The consultant works with both the instructor and the students in applying and transferring key writing skills learned in Freshman English I to their content-specific and/or professional writing situations. These consultants may directly teach or review with students through technical writing modules, special workshops, individualized conferences and instructor referrals. Students are given access to a computer-equipped classroom/lab facility (Writing Consultancy Resource Center and Technical Writing Lab, Bio-Tech 260) where much of the individualized instruction takes place. This facility is the site for required course-related work and for drop-in use by students whose instructors have requested assistance from the Writing Consultancy.

Currently, students enrolled in Technical Writing Modules in Human Services earn academic credit for these modules. The Writing Consultancy also offers instructional service to other programs and departments such as nursing, biology, criminal justice, accounting, dental hygiene, history, and anatomy and physiology.

The Consultancy Project was selected as a College Occupational Education Program in New York State. It is also featured in the Jossey-Bass publication, “Writing Across the Curriculum in Two Year Vocational/Career Programs: New Directions for Community Colleges.”

English as a Second Language

For incoming students whose first language is not English and who demonstrate the need to improve their English, the College offers these courses: WRT 020, English as a Second Language; RDG 060, ESL Reading. RDG 060 requires attendance in RDG 061, a once-a-week support module.

Through the formal placement process, students may be required to take WRT 020 and/or RDG 060 before attempting later college-level study, but students may also take the course as an elective. Working closely with the English Department, students are immersed in reading writing, speaking and listening activities.
## Academic Programs

### Registered Programs

The programs offered are registered by the State Education Department and State University of New York. Enrollment in other than a registered program may jeopardize a student's eligibility for financial aid.*

* New York State Education Department, Office of Higher Education and the Professions, Cultural Education Center, Room 5B28, Albany, New York 12230 (518) 474-5851

Associate Degrees

Orange County Community College operates under the supervision of the State University of New York and is authorized by the Board of Regents of the University of the State of New York to award three degrees—the Associate in Arts (A.A.), the Associate in Science (A.S.), and the Associate in Applied Science (A.A.S.).

The Associate in Arts and the Associate in Science degrees are designed for students who intend to transfer to four-year colleges or universities. The Associate in Applied Science degree is awarded in professional/technical fields and is designed to prepare the graduate for the demands of the world of work.

One-Year Certificate Programs

Orange County Community College also offers a number of one-year certificate programs. They are designed to develop job-entry skills at the collegiate level.

General Degree Requirements

The following academic standards apply to all first degrees:

- 6 credits of Freshman English
- Achievement of at least an overall “C” average (CGPA of 2.00)
- 30 of the total number of required credits must be taken at SUNY Orange
- For all A.A.S. degree programs, students are also required to achieve at least an overall “C” average (CGPA of 2.00) in their professional/technical major

Each of the degrees must meet the minimum requirements as set forth by New York State Education Law. These include at least 60 credit hours of study of which 45 credits must be in the liberal arts for the A.A. degree, 30 credits for the A.S. degree and 20 credits for the A.A.S.

As of the Spring 2011 semester, students enrolled in the Business Management, Criminal Justice, Criminal Justice–Police, Human Services, Liberal Arts: Humanities and Social Science, Liberal Arts: Individual Studies and Nursing degree programs on the Newburgh campus can complete all of their degree requirements at that campus. Additionally, as of Fall 2021 students enrolled in the Business Administration degree programs on the Newburgh campus can complete all of their degree requirements at that campus. Students enrolled in the College’s remaining degree programs may take courses in Newburgh but must also complete a portion of their degree requirements at the Middletown campus.

Students may complete no more than 30 of their credits online, unless they are enrolled in a program for which the college has approval from SUNY to offer in the distance learning format. A notation appears on each of the individual programs for which SUNY has approved the distance learning format.

- Accounting A.S.
- Accounting A.A.S.
- Accounting Procedures Certificate
- Business Administration A.S.
- Business Management A.A.S.
- Clerical Office Assistant Certificate
- Marketing A.A.S. (No longer accepting new students)
- Medical Office Management A.A.S.
- New Media A.A.S.
- Office Technologies A.A.S.: Legal Office Assistant
- Office Technologies A.A.S.: Office Management
- Office Technologies A.A.S.: Secretarial/Word Processing
- Public Health A.S.

The degree earned depends upon the educational and career goals of the individual. Each of the degrees offered at SUNY Orange is listed by degree title on the pages that follow with a description of the purpose, goals and specific course requirements.

Total Credits: 62

---

## Program Description

The Associate in Science degree program in Accounting prepares graduates to continue their education in accounting or finance at a four-year college or university.

Students learn the accounting cycle including preparation of financial statements in accordance with GAAP. Special projects teach analytical skills through finding, extracting and evaluating financial information to make sound decisions. Students use Excel extensively to solve a variety of accounting problems. The Financial Accounting Research System (FARS) database is introduced so that students can learn to research complex accounting issues, thus preparing them for both the CPA exam and professional practice as an accountant. Students may also complete an internship course which gives them the opportunity to build their resume and earn college credits.

Students entering the workforce after completing a baccalaureate degree in accounting benefit from a strong demand for accountants. Employment opportunities include positions in public accounting firms, private and public companies, government and not-for-profit agencies. Most will achieve the professional Certified Public Accountant (CPA) designation and many pursue graduate degrees.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Learning Outcomes

Students will:

• demonstrate knowledge of the accounting cycle, including preparation of financial statements in accordance with Generally Accepted Accounting Principles (GAAP).

• demonstrate analytical skills through finding, extracting and evaluating financial information to make sound business decisions.

• create and edit Excel spreadsheets to solve various accounting problems.

• explain the purpose and responsibilities of the professional accountant in the business community.

• express business information effectively in both oral and written form.

• learn critical thinking skills through an analytical business report project.

Career Opportunities

• CPA (certified public accountant)

• CMA (certified management accountant)

• financial analyst

• financial planner

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:

• Franklin University

• Marist College

• Mercy College

• Mount St. Mary College

• Pace University

• Ramapo College

• SUNY Albany

• SUNY Cortland

• SUNY Empire State College

• SUNY Institute of Technology

• SUNY New Paltz

* Students with sufficient keyboarding ability who pass the keyboarding waiver exam will fulfill this requirement; they do not need to replace the 1 credit.

** Students must achieve a grade of C or better to graduate from this program.

**Program Description**

The Associate in Applied Science degree program in Accounting prepares graduates to begin their careers assisting accountants as full-charge bookkeepers, junior accountants, accounting clerks or office managers in the private, public or government sectors.

Students take a sequence of accounting coursework including Accounting Principles 1 and 2, Income Tax Procedures, Accounting with Microcomputer Applications and Accounting Practice. With computer software, students learn to use correct accounting procedures through the accounting cycle. Special Excel spreadsheet and QuickBooks projects are provided to enhance the understanding of real world applications.

The accounting assistant provides bookkeeping capabilities to a variety of employers through such responsibilities as accounts receivable/payable, payroll, balance sheets, and income statements, billing, and bank statement reconciliation.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Learning Outcomes

Students will:

• demonstrate knowledge of the accounting cycle, including preparation of financial statements in accordance with Generally Accepted Accounting Principles (GAAP).
• express business information effectively in both oral and written form.
• demonstrate the ability to effectively interface with an automated accounting system.
• create and edit Excel spreadsheets to solve various accounting problems.
• learn critical thinking skills through an analytical business report project.

Career Opportunities

General accounting and bookkeeping positions exist in the following fields:

• service
• education
• travel
• entertainment
• manufacturing
• insurance
• industrial
• media/advertising

Transfer Opportunities

While the A.A.S. is a degree leading to immediate employment, SUNY Orange has a special relationship for transfer to a B.S. degree in accounting with Franklin University. Other transfers agreements of courses exit with

• Mount St. Mary College
• Ramapo College
• SUNY Empire State College

Program Description

The Accounting Procedures certificate program prepares graduates to work in entry-level bookkeeping positions. Emphasis is placed on developing bookkeeping skills and knowledge of general business practices.

Students take a sequence of accounting coursework. Students learn the accounting cycle using both manual and computer software systems. Special Excel spreadsheet and QuickBooks projects are provided to enhance the understanding of real world applications.

Graduates can utilize their acquired skills in various entry-level positions such as bookkeepers, accounts receivable/payable clerks, and payroll clerks with responsibilities and abilities in balance sheets, income statements, billing and bank statement reconciliation.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Total Credits: 65

Program Description

The Associate in Applied Science degree program in Architectural Technology prepares graduates to enter the workforce as architectural team members. While other opportunities exist, the largest job opportunities are positions as interns / CAD operators for architectural firms. Graduates’ skills will prepare them to produce working drawings in a variety of settings, such as engineering firms or manufacturers. If graduates have field experience in a building trade, all program outcomes are directly transferable to entry-level positions in construction management and supervision. A broad cross-section of course content is covered in the program; this familiarizes students with many aspects of the architectural profession, the work of building professionals and the construction process.

When working under the supervision of a licensed professional (i.e. Registered Architect, Professional Engineer, etc.), a graduate’s primary responsibilities would include measuring and documenting existing conditions of buildings and sites, preparing construction documents, interpreting construction documents, preparing design presentations for clients or other audiences, and coordinating architectural drawings with consultants’ drawings.

Fluency with computer-aided drawing (AutoCAD) and computer literacy, as it applies to generating architectural drawings, are fundamental skills graduates will possess. Meanwhile, freehand sketching is stressed wherever possible as a valuable communication method. Beyond preparing construction drawings, students will build models, prepare reports and orally present their work to groups.

Most courses in the program are a combination of lecture and lab. In the lecture component, foundational material is presented, often accompanied by samples, examples or other visual cues. In the lab component, students will either work on short-term exercises designed to hone very specific knowledge bases or skills or they will work on long-term projects designed to simulate the types of projects that they will eventually encounter in the workforce. Students should be prepared to spend a significant amount of time on projects outside the classroom.

Many students who enter this degree program plan to transfer to an upper division institution. Because these opportunities exist, second year students who intend to transfer should select their courses in careful consultation with their academic advisor. Portfolio production will be required.

For those students wishing to become Registered Architects, New York State Department of Education guidelines must be followed. To become a Registered Architect, one must earn an NAAB-accredited Bachelor of Architecture or Master of Architecture degree, fulfill NCARB internship requirements (a proscribed three year apprenticeship), and pass a challenging and comprehensive licensing examination.
For those students wishing to pursue baccalaureate degrees in Landscape Architecture and Construction Management, an A.S. degree from SUNY Orange with electives from the Architectural Technology degree program may be most suitable. Course selection should be made carefully in consultation with academic advisors.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Maintenance of a C average or better in courses in the major is also required.

Program Learning Outcomes

Students will:

• Graphically communicate architectural forms and building assemblies, both two and three dimensionally
• Demonstrate fluency using digital graphics software packages to produce construction drawings and other architectural representations
• Solve architectural problems through the development of an aesthetic approach and the manipulation of form and space
• Demonstrate an understanding of building materials and methods
• Demonstrate an understanding of the coordination within a building project between architecture and related professions
• Demonstrate an understanding of basic life safety and regulatory requirements in building projects
• Demonstrate an understanding of fundamental structural principles
• Utilize research from web based and other sources in architectural projects
• Identify basic methods of sustainable building practices and their environmental impacts
• Demonstrate an understanding of the historical and social context of western architecture

Career Opportunities

• architectural firms
• engineering firms
• manufacturing firms
• construction firms
• governmental agencies
• utility companies

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:

• Alfred State College
• New York Institute of Technology
• New Jersey Institute of Technology
• Pratt Institute
• SUNY Environmental Science and Forestry

Program Description

The Associate in Science degree program in Business Administration has been designed for those students who plan to transfer and continue their business education at a four-year college. This degree is designed to parallel the bachelor's degree requirements at most four-year colleges in the region. After transfer, graduates may major in areas such as: management, marketing, finance or human resource management. Students enrolled in this degree program acquire an understanding of the relationship between the liberal arts/social sciences and the management of business enterprises. The required mathematics, science and economics courses provide a solid grounding for making proper business decisions.

Because degree requirements vary at transferring institutions, majors are urged to see their business faculty advisors and contact the Admissions Office of the transfer institution. Business Department faculty are well-trained and experienced in their areas of expertise and highly motivated to work with students, helping them to succeed in their quest for transfer to a four-year college.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
### Program Learning Outcomes

Students will:

- understand the general nature, structure, resources and operations of business organizations.
- demonstrate the ability to explain an organization's basic accounting, finance, management, marketing and legal functions.
- express business ideas and information effectively in both oral and written forms.

### Career Opportunities

- management trainee
- business owner/entrepreneur
- finance management
- insurance planning and sales
- human resource manager

### Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. These transfer institutions include:

- Alfred University
- Berkley College

* Students with sufficient keyboarding ability who pass the keyboarding waiver exam will fulfill this requirement; they do not need to replace the 1 credit.
** Students need approval of the department chair to register for this course and at least a 2.5 CGPA.

Program Description

The Associate in Applied Science degree program in Business Management prepares graduates to begin their careers as management trainees, first line supervisors, and higher level management positions in either profit or non-profit organizations. Students develop interpersonal and conceptual skills such as motivation, communication, performance appraisal, decision making and problem solving. Various business tools including accounting, computer information systems and law, as well as liberal arts courses, are integrated into the program.

The primary focus of the curriculum is on entrepreneurship for those interested in operating their own business or applying this managerial approach in a medium to large organization in the public or private sector. The program’s concentration of business courses provides a strong background for employment. The Business Internship is a popular feature of this degree. Students work for regional companies for academic credit and real-world experience.

Business Department faculty are well-trained and experienced in their areas of expertise, and highly motivated to work with students, helping them to succeed in their quest for a job. Many students complete this degree and transfer to four-year colleges to earn a bachelor’s degree; however, students who have this objective are advised that they may experience transfer credit losses due to the concentration of business courses.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Program Learning Outcomes

Students will:

- integrate management theories and tools in a variety of functional areas within an organization.
- demonstrate the ability to use a variety of analytical tools in the functional areas of business.
- express business ideas and information effectively in both oral and in written forms.

Career Opportunities

- supervisor
- management trainee
- business owner/entrepreneur
- financial insurance planning and sales
- human resource specialist trainee

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:

- Franklin University
- Mount St. Mary College
- Ramapo College
- SUNY Empire State College

Clerical Office Assistant

Degree Awarded: Certificate

Program Description

The Clerical Office Assistant certificate program provides the opportunity for graduates to either begin their careers as office assistants or to update their current office skills for re-entry into the business world. Areas of concentration include information processing, data entry, business communications and information management.

The office assistant provides office support to employers in a wide variety of settings. This support includes document production, computer software capability, records management, telephone interaction, customer service, keyboarding and data entry.

Students take a sequence of office skills courses such as keyboarding, Microsoft Word and PowerPoint, Excel and Access, and transcription. They also learn to compose business documents through the Business Communications course and to manage office documents through the Records/Information Management course.

Students learn to use modern office equipment and computer software as they apply to various work environments. Microsoft Office (Word, Excel, PowerPoint, and Access) as well as WordPerfect software programs are presented. To complete this program in one year, students must have basic keyboarding skills before enrolling in the program.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Total Credits: 27

* Prerequisite OFT 108 or placement by department and MAT 010 or placement into MAT 020 or higher
** Prerequisite OFT 108 or placement by department
*** Business Elective equals courses beginning with ACC, BUS, MGT, MKT, OFT
**** Prerequisite OFT 108

www.sunyorange.edu
2021-2022
Program Learning Outcomes

Students will:

• demonstrate the ability to keyboard business correspondence using various computer software programs in word/information processing.
• demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.
• understand computer concepts and applications for the office environment.
• learn critical thinking skills through an analytical business report project.

Career Opportunities

• service
• education
• travel
• entertainment
• manufacturing
• legal & medical
• insurance
• industrial
• media/advertising

Transfer Opportunities

While this certificate program leads to immediate job placement upon graduation, SUNY Orange has a special relationship with Franklin University for transfer to the B.S. degree in Applied Management. In addition, all courses taken for this certificate may be applied to the A.A.S. Office Technologies degree program at SUNY Orange.

Any course approved by the department

** Students unprepared for technical coursework are strongly urged to take CIT 100 - Computer Literacy - in addition to the standard curriculum

Program Description

The Associate in Applied Science degree program in CIT–Networking prepares students for employment in a variety of entry-level careers in computer networking and information technology occupations. The theory and practical experience students gain allows them to enter jobs with highly competitive salaries.

This degree program offers the coursework that provides background information for students to take the CompTIA’s A+, Security+, Networking+, Linux+ and CISCO’s CNA certification exams. The primary focus of this degree program is networking computer systems including implementation, configuration, maintenance and administration of networking equipment, which includes creation of networking servers. The degree course work introduces students to basic computer systems and builds on theoretical and technical knowledge and skills to develop a strong understanding of networking topologies, mediums and medium access techniques in both local area and wide area networks (LANs and WANs). Classes are designed to provide students with hands-on training utilizing state-of-the-art computer facilities. Students are also placed in a work environment in order to provide actual service to a business through the CIT–Networking internship.

Students are encouraged to discuss their future career and/or transfer goals with a CIT–Networking advisor.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Students will:

• Install and configure networking equipment and configure network protocols.
• Assemble a PC and troubleshoot PC hardware and software.
• Identify and summarize security threats and appropriate actions to minimize those threats.
• Install, configure, and manage a Network Operating System.
• Analyze an existing system and determine appropriate systems design and implementation strategies.

Career Opportunities

# Program Description

The Associate in Science degree program in Computer Science is designed for students of mathematics and science who wish to pursue a Bachelor of Science degree in Computer Science at senior colleges and universities. Its goal is to prepare the students for a successful transfer into such degree programs.

The curriculum is structured to emphasize scientific applications and the theoretical concepts which underlie computer design and development, languages, and systems. The program provides the core courses that would be encountered in the first two years of study at most four-year institutions.

Associate degree core courses in calculus, linear algebra, discrete math, digital electronics, computer science, data structures and assembly language programming constitute the nucleus of this program. Selected courses in the liberal arts support and enhance this central core.

To initiate this plan of study, students must have tested into college algebra (MAT 121) or higher on the mathematics placement test. Students who do not meet the math requirement can be successful in reaching their academic goals by taking foundation courses and extending the program to three years.

# Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Students will:

• Demonstrate ability in problem solving and communicating algorithms clearly, utilizing structures/top-down algorithm design processes.
• Demonstrate familiarity with a wide variety of abstract data structures and data encapsulation concepts.
• Demonstrate knowledge of assembler language programming as it applies to computer architecture and operating systems.
• Demonstrate ability in computational methods of mathematics and physical science necessary for computer modeling.

Career Opportunities

• computer engineering
• computer systems analysis
• education
• computer programming
• cryptology
• applied mathematics
• financial analysis

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. These transfer institutions include:

• Clarkson University
• Florida Memorial University
• Marist College
• R.P.I.(Rensselaer Polytechnic Institute)
• St. John’s University
• SUNY Binghamton
• SUNY Buffalo
• SUNY Institute of Technology
• SUNY New Paltz
• SUNY Oneonta
• SUNY Purchase

Program Description

The mission of the SUNY Orange Department of Criminal Justice is to provide qualitative educational programs in the areas of Law, Justice, Corrections and Law Enforcement. Through this programming, our students develop skills and knowledge that prepares them to continue their education and/or to pursue entry level careers in the field of criminal justice.

The Associate in Science (A.S.) degree in Criminal Justice prepares students to continue their education in four-year degree programs in criminal justice or related liberal arts areas of study. These may include forensic psychology, public administration, sociology, cyber security, criminology and pre-law. The A.S. degree in Criminal Justice is designed to facilitate the acquisition of the technological and critical thinking skills that are essential for success in the criminal justice field. Graduates of this program will have both a general educational background as well as the criminal justice insight needed to pursue careers within the justice system. This degree program is reviewed regularly to ensure that the course content reflects contemporary issues facing the criminal justice system (e.g. homeland security, terrorism, cyber security, technological advancements, diversity and ethics) and explores criminal justice topics such as the nature and extent of crime, public policy implications related to justice, racial and ethnic profiling, crime scene processing, law enforcement technology and terrorism. Moreover, there are courses devoted to the treatment of adult and juvenile offenders as well as an internship program where students are afforded the opportunity to utilize their newly acquired skills and knowledge in an actual criminal justice environment. The A.S. in Criminal Justice provides students with a solid foundation from which to continue their education as well as pursue a rewarding career.

Admission Criteria

Admission to these programs requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates they may be eligible for admission to the college’s 24 credit hour program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants).

Degree Programs, Classes and Advising

Criminal Justice degree programs are offered at both the Middletown and Newburgh campuses. We have day and evening classes and many of our courses are also available online. Students will be assigned a faculty advisor who can help answer any questions they might have regarding classes, scheduling, etc. All teaching faculty have weekly office hours during the Fall and Spring semesters and are usually available at other times by appointment. If you need to contact a faculty member we encourage you to email them. Email addresses can be found on our website - www.sunyorange.edu/cj/faculty.shtml

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Program Learning Outcomes

Upon completion of these programs, students will demonstrate:

- an understanding of the components and functions of the criminal justice system (police, courts, corrections)
- an understanding of the common concepts relevant to the criminal justice system and be able to assess and discuss these concepts.
- an understanding of our legal system, constitutional law, procedural law and substantive law.
- an understanding of the importance of diversity and ethics and their impact and relevancy within the criminal justice system.
- effective oral and written communication skills

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

Career Opportunities

- Federal Bureau of Investigation (FBI)
- Immigration and Naturalization Service (INS)
- park police
- postal inspector
- secret service agent
- secret service uniformed
- deputy sheriff
- state police/trooper

Program Description

The mission of the SUNY Orange Department of Criminal Justice is to provide qualitative educational programs in the areas of Law, Justice, Corrections and Law Enforcement. Through this programming, our students develop skills and knowledge that prepares them to continue their education and/or to pursue entry level careers in the field of criminal justice.

The Associate in Applied Science (A.A.S) degree program in Criminal Justice–Police is aimed at students who do not anticipate continuing their studies at a four-year institution because they envision themselves entering the workforce directly upon graduating. As a result, the A.A.S. degree does not have the same math or science requirements as the A.S. degree, though many of the other required courses in the A.A.S. degree are identical to those required by the A.S. degree. The A.A.S. provides students with the college credits often required by many local, state and federal criminal justice agencies so it is intended to prepare students for entry level positions in law enforcement, security, law, probation, parole, juvenile justice and investigations. All instructors, in addition to their advanced educational backgrounds, are experienced practitioners in their fields.

Admission Criteria

Admission to these programs requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates they may be eligible for admission to the college’s 24 credit hour program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants).

Degree Programs, Classes and Advising

These transfer institutions include:

• Alfred University
• Berkley College
• John Jay College of Criminal Justice
• Marist College
• Mount St. Mary College
• Pace University
• St. Thomas Aquinas
• St John’s University
• SUNY

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

Criminal Justice Offices

The Department of Criminal Justice’s Middletown office is located Hudson Hall room 103 and our Newburgh office is located in room 317 of the Tower Building. Please feel free to stop by and say hello. You will find the Criminal Justice faculty and staff eager to assist you as you move towards completing your degree.
Program Description

The Associate in Applied Science degree program in Cyber Security prepares students for employment in a variety of entry level careers in Cyber Security. Today, everyone is concerned with security, and people with knowledge in this area are in high demand. Positions can include such titles as Network Administrator, network security specialist, information security technician, just to name a few. The main thrust is protection of information and limiting access to network resources. In addition to security, students will also be instructed in techniques used to track perpetrators once an attack has occurred.

In addition to basic computer and networking skills, the student will be instructed in Operating Systems, Computer Forensics, Network Forensics, Information Security, Network Perimeter Security, and Cyber Crime Investigation.

Classes are designed to provide students with hands-on training utilizing state-of-the-art computer facilities. Lab work and assignments will present real world cyber security scenarios encountered in the work place. For forensics studies, industry standard software will be used.

While A.A.S. graduates are prepared to enter the workforce immediately, many students choose to transfer to upper-level programs leading to a bachelor’s degree in technology. If students are considering this, they should consult with the department chair and advisors for program planning. Special planning is available for students entering the program with previous college credit or equivalent training/work experience.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission.

Hudson Valley Educational Consortium students from Sullivan County Community College or Ulster Community College who plan to register for Cybersecurity courses must apply to and be accepted in the program by the following dates: August 15 for a Fall semester; December 15 for a Spring semester.

Total Credits: 64

* Restricted Electives:
  - CIT 111 - Internet & HTML Programming
  - CIT 115 - Visual Basic
  - Any course approved by the Department Chair
Program Learning Outcomes

Students will:

- Develop basic networking and computer skills, specifically as they relate to industry environments and practices.
- Demonstrate knowledge of Operating Systems fundamentals and configure and utilize software packages.
- Demonstrate an understanding of network security and forensics and perform computer forensic analysis.
- Develop an understanding of the social, institutional, and legal issues associated with cybersecurity and document appropriate procedures for handling case evidence.

Career Opportunities

Entry level
- Network Administrator
- Network Security Specialist
- Computer Crime Investigation

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:
- St. John's University

Total Credits: 70

Note: An additional requirement is current certification in CPR. “BLS (Basic Life Support) for Healthcare Providers” is the recommended course (American Heart Association). Certification documentation must be submitted at the beginning of the second semester.

Program Description

The Associate in Applied Science degree program in Dental Hygiene prepares students for licensing by the State Board for Dentistry of New York to practice dental hygiene. Dental hygienists work under the supervision of a licensed dentist. They provide preventive, therapeutic and educational services within the parameters of the state law governing the practice of dental hygiene. In addition to traditional skills, these responsibilities include the administration of local infiltration anesthesia and nitrous oxide sedation.

The curriculum is focused on the three professional domains: professionalism, health promotion and disease prevention, and patient care. Coursework includes requirements in English, social sciences, the sciences, and program-specific courses and laboratory experiences. In order to develop necessary skills, students first practice on peers. Then they actively participate in clinical dental hygiene experiences in the College Dental Hygiene Clinic, as well as at off-campus sites including hospitals. Dental Hygiene courses are offered once each year. Courses must be taken in the sequence in which they are offered without interruption. Dental Hygiene courses cannot be taken on a part-time basis. A minimum grade of C (75%) is required in all dental hygiene courses. Program requirements for graduation also include portfolio development and case-based clinical case presentations. Membership in the Student American Dental Hygienists' Association is mandatory.

Students who are considering this program must understand that they are required to provide their own transportation to off-campus facilities and are required to purchase their own instruments and related supplies. They must also have a yearly physical examination with a TB test and criminal background check. Upon initial entrance into the program, a negative 10-panel drug test will also be required. The Hepatitis B vaccine is strongly recommended. Students with disabilities should meet with the Coordinator of Special Services upon entering the program. Non-citizen graduates must have permanent residence status to obtain a dental hygiene license in New York State. An individual who has charges pending or has ever been convicted of a felony or misdemeanor and/or has been found guilty of professional misconduct or negligence may not be eligible for licensure. Contact the Office of Professional Discipline, New York State Education Department prior to applying to this program. Finally, pregnant or potentially pregnant students should note that there is a risk associated with exposure to nitrous oxide gas. Students who are unwilling or unable to sit as patients should not apply to this program.

Admissions Criteria

Academic Requirements:

• New, Transfer, Readmit and Seeking 2nd SUNY Orange Degree Students ONLY: Must have a current college application on file
• High School Diploma or high school equivalency (HSE) diploma
• Eligible to take Freshman English 1 (ENG 101)
• Eligible to take Intermediate Algebra (MAT 102) or have successfully completed Elementary Algebra (MAT 101), or equivalent, with a "C" or higher
• Completed one of the following within 5 years of the application deadline: Intro to Biology (BIO 110), General Biology I (BIO 101), Human Biology (BIO 115), Anatomy & Physiology I (BIO 111),
Anatomy & Physiology II (BIO 112) with a grade of “C” or higher; Passing grade on the Biology CLEP examination; or High School AP Biology (score of 3 or higher) – submit the official AP transcript from College Board. Bio 112 (A&P II) can serve as a substitute for BIO 115 (Human Biology)

- Completed High School Regents (New York State) course or College Prep Chemistry course with a grade of 75 or higher, passing grade on the Chemistry CLEP examination (no credit will be given, but will count towards meeting admissions criteria), or a college Chemistry course (with a lab), all with a grade of “C” or higher and all within 5 years of the application deadline

- Students must attain a minimum cumulative GPA of 2.5

Department Specific Requirements:

- Attendance at a Dental Hygiene pre-admission seminar within 3 years of the application deadline. At this seminar, students will receive and sign off on information pertaining to health forms, drug testing, criminal record, and infectious disease policies.

- Submit Dental Hygienist Observation Form (16 hour minimum with documentation) within 3 years of the application deadline.

**Pre-Admission seminar dates and observation forms are available online at www.sunyorange.edu/admissions/healthforms.shtml**

Note: Admission to this program is selective. Applicants will be considered based on the total amount of non-clinical courses complete, program GPA and Science GPA. For Dental Hygiene, the following courses will be calculated in the Science GPA review: BIO 115, BIO 125 & MLT 106. Attendance (mandatory) at a Dental Hygiene pre-admission seminar within 3 years of the application deadline where students will receive and sign off on information pertaining to health forms, drug testing, criminal record/criminal background check policies, infectious disease policies/information pertaining to infectious diseases involved in patient care, participation as a student patient, citizenship for licensure, and program policies for infection control, admissions, orientation, and student kits.

All of the Academic and Department requirements must be completed on or before February 1st in order for a student to be considered for acceptance into the program for the Fall semester.

Program Learning Outcomes

Students will:

- discern and manage the ethical issues of dental hygiene practice in a rapidly changing environment.

- acquire and synthesize information in a critical, scientific and effective manner.

- be concerned with improving the knowledge, skills and values of the profession.

- provide planned educational services using appropriate interpersonal communication skills and educational strategies to promote optimal health.

- initiate and assume responsibility for health promotion and disease prevention activities for diverse populations.

- systematically collect, analyze and accurately record baseline data on the general, oral and psychosocial health status of the patient using methods consistent with medicolegal principles.

- discuss the condition of the oral cavity, the actual and potential problems identified, the etiological and contributing factors, as well as recommended and alternative treatments available.

- provide treatment that includes preventive and therapeutic procedures to promote and maintain oral health and assist the patient in achieving oral health goals.

- evaluate the effectiveness of planned clinical and educational services and modify them as necessary.

Degree Awarded: Associate in Applied Science

Career Opportunities

- private practice
- hospitals
- health service agencies
- overseas
- military

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students can transfer to:

- Manhattan College
- Massachusetts College of Pharmacy and Health Sciences
- Pennsylvania College of Technology

+ Local daytime observations beyond college classroom required.
* MAT 102 or higher (MAT 111 recommended)
# These electives MUST satisfy three (3) different SUNY General Education categories chosen ONLY from: Natural Sciences (GE2), American History (GE4), Western Civilization (GE5), Other World Civilizations (GE6), Arts (GE8), Foreign Languages (GE9), with at least ONE from either Category GE 4, GE 5 or GE 6.
% Offered Spring semester only
@ Offered Fall semester only

Program Description

The Associate in Applied Science degree program in Early Childhood Development and Care prepares students for responsible and effective employment in positions ranging from aide to head teacher in a variety of early childhood settings. (Note: In order to be a Universal PreK teacher a four-year degree is required. See an Education Department adviser to determine the appropriate transfer degree program.) The program provides theory, practical information and extensive supervised experience concerning normal early human development, developmental difficulties, caring for and educating young children, methods for fostering child development, and the operation and management of early childhood facilities.

The primary goals of the Early Childhood Development and Care program are to develop cognitive and critical thinking skills through an integrated education plan; to promote the use of applied knowledge of developmentally appropriate practices in both the College classroom and early learning field site environments; to furnish opportunities for self-directed, creative, professional learning activities; to provide field experiences ranging from minimal observation to full participation, allowing students to demonstrate increasing technical skills working with young children.

Because current research shows that the early years are among the most vital in human development, professional and appropriate educational experiences will develop the ECDC student’s thinking, practical and personal skills necessary to teach and care for young children. These activities take place in college classes and seminars, and also in local area field sites. In the field, extensive “hands-on” observation and participation give opportunities to apply education principles, receive individual guidance and feedback, and be involved first-hand, with day-to-day activities in diverse early childhood learning environments. Upon completion of the coursework students will have accumulated 235 hours of field work.

A grade of C (2.00) or better is required in all EDU courses for progression in the program and graduation with an A.A.S. or Certificate in Early Childhood Development and Care.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Students will:

• Demonstrate a firm foundation of knowledge in child development.
• Understand essential concepts of developmentally appropriate practice in teaching young children.
• Understand and value the importance of children's diverse families and communities, and how to use that knowledge to foster respectful, reciprocal relationships with children and their families.
• Understand the goals, benefits, and uses of assessment, and be able to effectively use developmentally appropriate observation and assessment practices.
• Design, implement, and evaluate developmentally appropriate curriculum and environments for young children.
• Understand and uphold ethical standards and other professional guidelines in the field of early childhood, and engage in, practice that is both collaborative and reflective in college classrooms and through extensive field assignments.
• Demonstrate college level proficiency in written and oral communication, critical thinking, and analytical, mathematical, and scientific reasoning.

Career Opportunities

• center director
• head teacher (non-public settings)
• teacher assistant
• family child care provider
• early childhood business owner
• nanny or au pair
• early intervention specialist
• recreation leadership
• home visitor
• child care resource and referral
• curriculum consultant

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred. Please check with the intended transfer school for details.

## Program Description

The Early Childhood Development and Care certificate program is designed to develop professional career skills in preparation for entry level positions in a variety of early childhood fields. Students will complete 60 hours of observation in local early learning centers in addition to college classroom time. This field work provides an opportunity to link theory with hands-on practice. Students will be required to demonstrate an understanding of the theories related to child development, the techniques for fostering such development and the operation of a child care facility. Nine of the 12 courses in the ECDC certificate program directly relate to early childhood. All courses apply to an Associate in Applied Science (A.A.S.) degree in Early Childhood Development and Care. A grade of C (2.00) or better is required in all EDU courses for progression in the program and graduation.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Students will:

• Demonstrate a firm foundation of knowledge in child development.

• Understand essential concepts of developmentally appropriate practice in teaching young children.

• Understand and value the importance of children's diverse families and communities, and how to use that knowledge to foster respectful, reciprocal relationships with children and their families.

• Understand and uphold ethical standards and other professional guidelines in the field of early childhood, and engage in practice that is both collaborative and reflective in college classrooms and through field assignments.

Career Opportunities

Entry level or aide positions in:

• child care centers
• preschools
• nursery schools.

Transfer Opportunities

The ECDC certificate is designed to prepare graduates for immediate entry into the workplace. However, every credit from the certificate will apply to the SUNY Orange ECDC A.A.S. degree.

Total Credits: 68

*Note: Students must take a minimum of two courses from the following depending on their area of specialization:*

- Physical Geology (GLG 110)
- Thermodynamics (EGR 214) summer
- Solid Mechanics (EGR 220) spring
- Circuit Theory (EGR 212) spring
- Modern Physics (PHY 204)
- Materials Science (EGR 218) fall
- Linear Algebra (MAT 211) fall/summer
- Engineering Computations (EGR 216)

Students majoring in chemical, biological or environmental engineering should plan to take:

- Organic Chemistry I (CHM 201) and
- Organic Chemistry II (CHM 202)
- CHM 202 may be substituted for EGR 206 with permission from the department chair

Computer Engineering majors should take:

- Computer Science I and II (CSC 101 and 102) and
- Data Structures (CSC 201)
- CSC 201 may be substituted for EGR 102 and CSC 202 may be substituted for EGR 206, with the permission of the department chair.

Proper advising is crucial for proper course selection.

Program Description

The Associate in Science degree program in Engineering Science is designed specifically to enable students to transfer, with junior status, to the upper-level engineering college or university of their choice, where they can complete the Bachelor of Science degree in Engineering. As such, the program provides the same core courses that would be encountered in the first two years of study at most four-year institutions offering engineering degrees in the following disciplines:

- Aeronautical Engineering
- Architectural Engineering
- Biological Engineering
- Chemical Engineering, ChE
- Civil Engineering, CE
- Computer Engineering
- Electrical Engineering, EE
- Environmental Engineering
- Geological Engineering
- Materials Engineering
- Mechanical Engineering, ME
- Nuclear Engineering

Core courses in calculus, chemistry, engineering physics and engineering science constitute the nucleus of this program. Selected courses in the liberal arts support and enhance this central core.

To begin the two year program, students must be at the mathematical level of Calculus 1 (MAT 205) or must have completed either College Trigonometry* (MAT 122) or Pre-Calculus Mathematics* (MAT 131).

Students who do not meet the above requirements should not be discouraged. Many students, who have either missed some foundational courses or who have family/job commitments, opt to take the extended program, which prepares them for Calculus 1 (MAT 205). Although this path will require more than four semesters, it enables students to reach their educational goal and to work as professional engineers in the above-mentioned fields. Students taking the extended option should meet with their advisor to arrange a planned course of study.

The Engineering Science program at SUNY Orange strives to form a student's ability to think critically in real time, to develop a professional work ethic built on cooperation and group problem solving, and to provide the rigorous conceptual and ethical framework required in a field where professional competence is expected.

*These prerequisite courses may be taken in the summer.
Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Students must have tested into or completed Calculus 1 (MAT 205) to begin progress toward this degree. If recent high school graduates have concerns about their mathematics preparation they should consider taking Pre-Calculus Mathematics (MAT 131) during the summer before their entrance into the program.

Program Learning Outcomes

Students will:

• demonstrate literacy in the mathematical, computational and scientific languages of Engineering Science.
• demonstrate competency in written, oral and graphic communication skills, including applications to Engineering Science.
• demonstrate literacy in a programming language and in computer assisted techniques for engineering problem solving and design.
• plan, organize and implement laboratory experiments and prepare a formal detailed laboratory report of findings.

Career Opportunities

• private sector engineering firms
• research and development opportunities in private and public sector
• engineering positions in city, state or federal agencies
• excellent background for other fields, i.e. law or medicine

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. These transfer institutions include:

• Clarkson University
• Manhattan College
• New Mexico Tech
• Ohio State University
• Penn State University
• Rensselaer Polytechnic University (RPI)
• Stevens Institute of Technology
• SUNY Binghamton
• SUNY Buffalo
• SUNY New Paltz.

Program Description

The Associate in Science degree program in Exercise Studies is designed for students who are interested in professional areas of fitness and exercise specialties in a variety of physical fitness/health promotion programs. This program prepares students to pursue further education and careers in such fields as athletics, medicine, instruction, research and community health. Completing this degree program, students will have built a base knowledge and prepare for transfer to four-year programs including physical education, health and wellness programs, exercise physiology or nutrition.

The theoretical coursework is concentrated in the areas of human movement, exercise physiology, exercise prescription and fitness assessment. These classes give students a broad background in, as well as a practical experience with, the mechanics and physiology of the human body with regard to fitness, health and well-being. The Exercise Studies students complete specific lifetime and sport skills coursework. In addition, students complete coursework in a broad liberal arts education; this work includes study in arts, foreign language, English, history, and sociology.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

In addition, students must declare themselves exercise studies majors and meet with a Movement Science faculty member to review their career goals and course selections. Once students are accepted, they are required to attend one of the program orientation sessions.

* SUNY American History (GE 4) or Western Civilization (GE 5) or Other World Civilization (GE 6) list
** Any PED course NOT required in the above curriculum
*** SUNY Arts (GE 8) or Foreign Languages (GE 9) list or any list not selected from the Restricted History elective
+ PED 203 & 204 are co-requisites and MUST be taken together
^ PED 201 has a pre/co-requisites of BIO 111
@ PED 202 has a pre/co-requisites of BIO 112
Program Learning Outcomes

Students will:

• Learn and demonstrate problem solving, critical thinking and ethical behavior according to industry standards in the field of exercise science.

• Analyze, design, implement and evaluate health promotion and wellness education materials, nutritional projects, sport and fitness conditioning programs and recreational pursuits.

• Interpret health status, risk stratification and physical assessment, data employing national standards to produce: exercise prescriptions, health interventions and behavior modification.

• Communicate expressively and receptively (verbal, non-verbal, written) both individually and within groups in ways that are respectful.

• Demonstrate, instruct, and modify exercise using proper form and technique to ensure safe execution in accordance with industry standards and guidelines.

• Practice personal and social behaviors that exemplify commitment to and value of personal lifelong health, wellness and fitness.

• Prepare and sit for a National certification in personal training and/or group fitness instructor.

Career Opportunities

• athletic trainer
• cardiac technician
• coach
• director of recreation
• exercise physiologist
• health instructor
• personal trainer
• physical educator
• recreational therapist
• strength and conditioning coach
• sports agent
• sports equipment designer
• weight management specialist
• wellness coordinator
• cardiopulmonary rehabilitation specialist
• community health director

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:

• Dominican College
• East Stroudsburg University
• Montclair State University
• Queens College
• SUNY Brockport
• SUNY Cortland

Fire Protection Technology

Degree Awarded: Associate in Applied Science

Offered through the Hudson Valley Educational Consortium.
Lead college: SUNY Rockland

Program Description

Given the unique conditions that have developed in our country over the last several years in public safety and homeland security, the Fire Protection Technology Program has gained increasing importance. The program is designed to meet the growing needs of Rockland, Orange, Sullivan and Ulster Counties and their neighboring communities for persons preparing for a career as a firefighter, fire and emergency service practitioner or engineer specialist.

The study of fire protection technology is multifaceted. It involves the study of the complete fire protection system, including fire department resources, private resources and system, chemistry and physics of fire safety, fire department management, emergency management, the legal environment and fire protection.

This program includes field training off campus which requires students to travel to Rockland County.

Studies in fire protection technology guide the student through a series of college-level courses that are designed to prepare the student for a career in the highly demanding field of fire and emergency services. Through the study of fire protection technology the student will discover the entire process for the requirements of becoming a firefighter.

The role of the firefighter has increased in complexity in recent years. The scope of responsibilities and knowledge requirements of a firefighter has grown significantly and now includes emergency medical services, assisting in the recovery from disasters, and responding to and recovering from hazardous materials incidents, building safety compliance issues, public education, wildlands fire fighting, mutual aid and more. The program is designed to prepare the students to perform as a firefighter and an effective member of a multi-agency emergency response team.

The program is designed to meet the guidelines established by the New York Emergency Management System and the National Interagency Integrated Management System (NIIMS) under the Department of Homeland Security. The A.A.S. degree in Fire Protection Technology has already received SUNY and NYSED approval through the Hudson Valley Educational Consortium.

SUNY Rockland has taken a leadership role in developing the Fire Protection Technology curriculum and the Associate of Applied Sciences degree is currently available there. Students wishing to register in this program from other HVEC colleges (SUNY Orange, SUNY Ulster and SUNY Sullivan) and participate via the Interactive Television Training Rooms will receive their degree from SUNY Rockland. Interested students should contact their home school Registrars office for assistance in the registration process.

* PSY 111 may be substituted for PSY 101
Recent graduates have secured positions within the New York City Fire Department and as Fire Inspectors for local government. The current fire protection management program follows the recommendations of the Fire and Emergency Service Higher Education (FESHE) model which is a division of the Federal Department of Homeland Security. An articulation agreement with John Jay College, a member of the City University of New York (CUNY) system is available for those student intending to continue their education in fire protection management.

**Admission Criteria**

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

**Program Learning Outcomes**

Students will:

- discover the entire process for the requirements of becoming a firefighter.
- effectively communicate knowledge of Fire Science content areas, including fire safety critical incident command system, emergency planning, fire scene operations, fire exercise planning, fire and emergency operations center organization and management, leadership, resource planning, and utilization of national fire science operation guidelines.
- demonstrate critical thinking, communications and management skills by analyzing situations, determining proper actions, understanding the costs and benefits of actions, evaluating possible alternatives and unforeseen circumstances, and then taking appropriate actions as an incident responder or manager.
- possess the technical and general education courses needed to be able to pursue a baccalaureate degree in fire science or emergency management.
- support the community by providing fire and emergency services when required.

**Career Opportunities**

- firefighter
- fire heavy equipment operator
- fire prevention specialist
- fire hazard program specialist
- fire training specialist
- public safety and education
- dispatcher
- fire equipment manufacturing, sales, service, research and development
- forestry service fire control
- technician and consultant in aerospace services
- fire protection education

**Transfer Opportunities**

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred to:

- John Jay College
- University of Maryland - University College
- University of New Haven

Green Building Maintenance and Management

Degree Awarded: Associate in Applied Science

Offered through the Hudson Valley Educational Consortium.
Lead college: SUNY Sullivan

Program Description

The associate in applied science degree in Green Building Maintenance and Management provides students with the skills and knowledge needed to maintain and manage high-performance commercial buildings.

New construction and existing buildings that have upgraded energy systems rely on sustainable technology. Recent emphasis on green technologies and LEED-certified (Leadership in Energy and Environmental Design) building standards support the use of alternative forms of energy as well as the use of sustainable products for construction, interior design and building maintenance. In addition to learning the most current theories, students will acquire the hands-on training needed to work with rapidly evolving technologies including photovoltaic cells, wind generators and geothermal heating, ventilation and air conditioning (HVAC) systems.

This program has a hands-on component which may require students to travel to Sullivan County.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are homeschooled, they may be eligible for admission.

Total Credits: 65

* Required of all first-time, full-time students
NOTE: See College Catalog for math competency requirement.
$ All AAS degrees require ENG 1001 Composition I, ENG 1301 Fundamentals of Speech, a 4 credit science course with lab and a minimum of 10 additional Liberal Arts credits from at least two other areas of study. Liberal Arts prefixes: ANT, ART, ECO, ENG, FLA, GEO, HIS, HON, HUM, MAT, PHI, POL, PSY, SCI, and SOC. CPT 1301, Logic and Problem Solving, is also singularly classified as liberal arts.
# The technical courses for this program will be delivered on site and/or through interactive TV Distance Learning Technology approved for all Consortium colleges.
+ Minimum credit value for this course is 3 credits. Students may fulfill this requirement with a course of a higher credit value.
Degree Awarded: Associate in Applied Science

Program Learning Outcomes
Students will learn:

• the skills and knowledge necessary to make decisions about the management and maintenance of building systems,
• to maintain both conventional and green building technologies and systems that are used to produce energy, heat, light, and ventilation as well as those that consume energy,
• to calculate energy efficiency and recommend changes for better outcomes,
• the essential components of building wiring, heating, cooling, and ventilation systems so they can assume responsibility for maintenance of these systems,
• the basic principles for the positioning and use of wind turbines, photovoltaic cells, passive solar systems and other green building systems,
• to manage projects, including communication with the building owners, utilities, planners, and contractors to assure effective and efficient building maintenance and management.

Career Opportunities
• Energy and indoor air quality auditor
• HVAC operations and maintenance technician
• Solar and wind energy technician
• Green building, renewable energy and energy efficiency consultant

Transfer Opportunities
While the A.A.S. degree leads to immediate employment, please check with the intended transfer school for details.

Honors Program

Students who are not in the Honors Program but are interested in taking an honors course should contact the Honors Program Coordinator.

Program Description

The Honors Program was created to offer highly motivated and talented students an opportunity to develop their potential more fully as they study for the associate degree. Honors courses are selected from the areas of: English, social science, arts, communication, humanities, math, biology, movement science and business. Honors sections of these courses follow the Socratic dialogue format and offer enrichment through alternative texts, outside readings, research projects and abstract concept development beyond the traditional course section. Additionally, students complete three honors seminars, the service course and the capstone project.

The Honors Program is open to both full and part-time degree-seeking students.

Program Learning Outcomes

Students will:

- **Learn and integrate**: Through independent and collaborative learning, acquire and apply knowledge in the liberal arts and sciences, within and across disciplines.

- **Question, think and create**: Use multiple higher order inquiry and thinking strategies to examine real-world issues, explore creative avenues of expression, solve problems and make consequential decisions.

- **Communicate**: Acquire, create and convey intended meaning using oral, written and non-verbal methods of communication that demonstrate respect and understanding in a complex global society.

- **Clarify purpose and perspective**: Explore one's life purpose and meaning through transformational experiences that foster an understanding of and respect for self, relationships, and diverse global perspectives.

- **Practice citizenship**: Apply principles of ethical leadership, collaborative engagement, socially responsible behavior, respect for diversity in an interdependent world, and display a service-oriented commitment to advance and sustain local and global communities.

For expanded Program Learning Outcomes, please visit the Honors web page at www.sunyorange.edu/honors.

Students who already possess a first Honors degree may not seek a second should they pursue a second degree at SUNY Orange.

Students who are not in the Honors Program but are interested in taking an honors course should contact the Honors Program Coordinator.
Admission Criteria

The SUNY Orange Honors Program uses a holistic process to determine who is accepted. We seek well-rounded candidates who want to earn an honors designation, experience a more collegial academic environment, are prepared to engage actively in the opportunities we offer, and meet the program’s requirements. We help individuals develop into life-long learners who think critically and innovatively, solve problems creatively, understand diverse viewpoints, communicate effectively, and work collaboratively. We will review all application files until our available seats are filled.

ALL applicants must:
• complete the Honors Program application;
• take the required College Placement Assessment in English and math and place into Freshman English 1 without support module OR otherwise be placed into Freshman English 1; **
• provide one letter of recommendation from faculty, counselors, administrators, or qualified community leaders; ***
• attend an honors interview / roundtable meeting.

We also recommend (but do not require) having one of the following:
• a 90+ high school GPA;
• a high school ranking within the top 10% of the class;
• an SAT score of 1200+ on math & verbal sections;
• an ACT score of 27+;
• a 3.30+ cumulative college GPA.

Please note: This does not mean only candidates with one of these scores will be accepted. Rather, these are suggestions. If you would like to join us but have a significantly lower than recommended score, apply and provide a short letter explaining your situation, strengths in other areas, and intent.

** Students who already have college credit for ENG 101 and / or ENG 102 need not retake those courses. However, the Honors Program requirement of three or six honors English credits must be made up through other writing-intensive honors courses, as determined by the Honors Program Coordinator.

*** Current SUNY Orange students may replace the formal letter with a short, emailed recommendation from one of their SUNY Orange professors.

We welcome students of all backgrounds and experiences, including (but not limited to): GED holders, home schooled students, veterans, adult learners, part-time, and international students. Please speak with the Admissions office and Honors Program Coordinator to determine eligibility and / or alternative documentation.

Transfer Opportunities

Completion of the Honors Program may enhance transfer and scholarship opportunities to more selective colleges and universities and prepare students for the academic work required for continued pursuit of undergraduate and graduate degrees.

Our students have successfully transferred to many prestigious schools including:
• Smith College
• Clemson University
• Rensselear Polytechnic Institute (RPI)
• Vassar College
• Emerson University
• American University
• Cornell University
• Bard College
• Johns Hopkins University

Requirements for Honors Designation

In order for students to show the Honors Designation on their transcripts and seal on their diplomas upon graduation, they must have been accepted to and have attained the following in the Honors Program:
1. Completion of all degree requirements;
2. Achievement of a 3.5 GPA at the time of graduation, with no semester GPA less than 3.0.

  PED 111 Substance Abuse and Health

Program Description

The Associate in Science degree program in Human Services prepares graduates to transfer and complete a bachelor’s degree in human services, psychology or sociology. Because of the broad liberal arts component, concentration in psychology and sociology with field experiences in at least two human services agencies, the program also prepares the graduate for employment as a direct care worker.

The primary goal of the curriculum is the development of critical thinking and clinical problem solving skills as they relate to populations served by human service agencies. The program offers introductory coursework in human services, psychology and sociology, writing skills directly related to the human services field, and field experiences in at least two human service agencies. Most courses are offered each year, often in the Fall, Spring and Summer semesters. Field Studies in human services are offered each year: Field Studies 1 in the Fall semester, and Field Studies 2 in the Spring. The course of study may be pursued on a part-time basis, daytime or evening.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admissions process for all applicants.)

Students may begin taking the required program courses upon completion of all required developmental courses. Students are also required to:

- complete two field placement courses, each requiring 48 hours of observation/interaction in at least two human service settings, with a grade of C or better. If required by the site, a student may need to have a background check, physical, and/or drug test completed before he/she can begin his/her internship.
- have an overall C average upon completion of all coursework.
- successful internships require communication with the Internship Coordinator prior to the beginning of the semester.

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Human Services
Degree Awarded: Associate in Science

Program Learning Outcomes
Students will:
• Develop a comprehensive portfolio that demonstrates an application of theory, goals, and objectives associated with effective helping strategies and techniques in Human Services.
• Demonstrate appropriate critical thinking and problem solving skills necessary to continue their education toward a four-year degree or effectively gain entry level employment in a human service agency.
• Demonstrate an ability to effectively interact with recipients, families, and/or professionals in a manner that demonstrates an application of their academic preparation, and also demonstrates heightened cultural awareness.

Career Opportunities
• In-patient and out-patient mental health and rehabilitation facilities such as AHRC, Occupations Inc., RSS and MHA.
• State facilities such as MPC, Mid-Hudson and Crystal Run.
• Social services agencies.

Transfer Opportunities
Many of our graduates transfer to upper-level colleges and universities to pursue advanced degrees in the nursing profession. Successful transfer depends on the courses taken and the student's grade point average. SUNY Orange has special relationships with a number of colleges and universities.

  - BUS 207 Intro to International Business

## Program Description

The Associate in Arts degree program in International Studies provides students with a range of studies that emphasize the interconnections among global political, economic, social, and cultural events and processes. As globalization literally makes the world a smaller place, International Studies helps prepare students to take advantage of those changes, both in terms of their personal growth and career opportunities. The degree is designed to prepare students for transfer and continued academic success within a liberal arts setting, especially one dedicated to the study of international and global events. This program also features a solid grounding in liberal arts education.

The curriculum is designed to include a broad range of courses with international themes in the humanities and social sciences. In addition to core courses in the liberal arts common to many programs, International Studies requires students to take classes in foreign languages, international relations, world history and international literature. Through these courses, students will develop critical learning skills, a foundation of knowledge about the international system and the ability to clearly write, analyze and communicate about concepts in the discipline.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are homeschooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Upon successful completion of this program, students will be able to:

• demonstrate foundational knowledge of and an appreciation for the cultural, social, and natural worlds.
• recognize the diversity of human experience, values, and perspectives.
• demonstrate an understanding of the forms of artistic expression and their creative processes.
• apply critical thinking and systematic reasoning skills.
• demonstrate information management, quantitative skills, and an understanding of the role of empirical measurement.
• use effective oral and written communication skills.
• transfer to, and succeed at, an upper-level institution.
• understand the processes that contribute to globalization and increased interdependence among people, governments and states.

Career Opportunities

- language interpreter
- high school teacher
- international business
- international law
- government or diplomatic work
- export-import work

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:

• four-year SUNY units
• a variety of public and private four-year colleges with whom articulation agreements are under development

- **Biology Concentration**
  - **Required:**
    - BIO 101 (GE 2) and BIO 102 (GE 2)
  - **Choose one (1) of the following courses:**
    - BIO 143 (GE 2)
    - BIO 146
    - BIO 148 (GE 2)
  - **And choose one (1) of the following courses:**
    - BIO 201
    - BIO 202
    - BIO 204 (GE 2)
    - BIO 205 (GE 2)

- **English Concentration**
  - **Choose one (1) of the following courses:**
    - ENG 207
    - ENG 208

- **History Concentration**
  - **Choose three (3) in addition to the history courses required to satisfy GE requirements:**
    - HIS 101 (GE 4)
    - HIS 102 (GE 4)
    - HIS 121 or HIS 122 (not both)
    - HIS 231 (GE 5)
    - HIS 233 (GE 5)
    - HIS 235 (GE 5)
  - **Mathematics Concentration**
    - **Required:**
      - MAT 205 † and MAT 206
    - **Choose one (1) of the following courses:**
      - MAT 120
      - CSC 101
  - **Spanish Concentration**
    - **Choose three (3) consecutively in addition to the two (2) Foreign Language requirements (GE 9):**
      - SPN 201
      - SPN 202
      - SPN 203
      - SPN 204
Program Description

The Associate in Arts or Associate in Science degree in this Jointly Registered Teacher Education Program (JRTEP) is primarily for students who plan to transfer to SUNY New Paltz or another SUNY school and become certified to teach in New York State in either Early Childhood, Childhood or Adolescent Education. Developed by Orange County Community College and SUNY New Paltz, this jointly registered liberal arts/teacher education program has been approved by the New York State Education Department. Students in this program are, at the same time, given priority status for admission consideration into The College at New Paltz. Upon successful completion of the A.A. or A.S. degree at SUNY Orange, with a minimum 3.0 grade point average, students who are accepted will transfer to SUNY New Paltz with full junior standing in order to complete the bachelor’s degree.

The primary focus of the JRTEP concentration is to develop and integrate critical thinking, problem solving, and creative skills with information and theories about education. Coupled with a broad general liberal arts foundation, JRTEP students will experience between 10 and 80 hours of observation in local schools and centers. This field work provides excellent practical application opportunities.

Students planning to transfer to other institutions or SUNY four-year schools may also benefit from these courses. They should see their advisor and check transfer credits with transfer school if other than SUNY New Paltz.

Admissions Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College's 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Before beginning their coursework, JRTEP students must choose an age level: birth to sixth grade (B-6), or seventh to twelfth grade (7-12).

Then, students must choose an educational concentration:

- Biology (available in B-6 or 7-12)
  OR
- English (available in B-6 or 7-12)
  OR
- History (available in B-6)
  OR
- Mathematics (available in B-6 or 7-12)
  OR
- Social Studies (available in 7-12)
  OR
- Spanish (available in B-6 or 7-12)

Note: Because teacher education programs and the New York State Education Department certification regulations are precisely defined, it is essential that JRTEP students work closely with both their SUNY Orange advisor and their New Paltz advisor, who is on the SUNY Orange campus by appointment.

Career Opportunities

- public school classroom teacher (pre-K through grade 12)
- positions in related educational fields, such as special education teacher, and guidance counselor

Transfer Opportunities

JRTEP is specifically designed to transfer seamlessly to SUNY New Paltz. Other SUNY and non-SUNY schools with teaching preparatory programs may accept all or a large percentage of credits (see transfer criteria below left).

When JRTEP students successfully complete the A.A. or A.S. at SUNY Orange, they may apply for transfer to SUNY New Paltz to complete the bachelor’s degree. JRTEP applicants are given priority review and the highly academically prepared student will be accepted first.

Jointly Registered Teacher Education Program (JRTEP)

Degree Awarded: Associate in Arts, Associate in Science

Program Learning Outcomes

Students will:

• Demonstrate an awareness of and a beginning understanding of the teaching profession and articulate a beginning philosophy of education that incorporates an understanding of developmentally appropriate practices, relevant theories and models of education.

• Students will demonstrate an understanding of diversity and its role in education.

• Demonstrate foundational knowledge and skills in one's chosen area of academic concentration.

• Demonstrate foundational knowledge of and an appreciation for the cultural, social, and natural worlds.

• Demonstrate college level proficiency in written and oral communication, critical thinking, and analytical, mathematical, and scientific reasoning.

Transfer Criteria:

To be eligible for admission to SUNY New Paltz, SUNY Orange JRTEP students must:

• Complete all SUNY Orange degree program requirements.

• Complete SUNY-mandated General Education Requirements.

• Maintain a minimum cumulative GPA of 3.0.

• Earn a grade of “B” or better in ENG 101 and ENG 102.

• Earn a grade of “B-” or better in EDU 103, EDU 109, and EDU 201.

• Math concentrations must earn a “B-” or better in either MAT 134 or MAT 205 and MAT 111.

• Must earn a grade of C or better in EDU 207, PSY 221, GEO 101, and MAT 111.

• Earn a grade of “C-” or better in all other courses.

• Complete a separate application and/or procedures for SUNY New Paltz or other transfer institution.

• Submit a writing sample to be completed at SUNY New Paltz prior to acceptance.

• Show evidence of clearance of fingerprinting on NYS Education Department TEACH account.

Program Description

The Law Enforcement/Security certificate program is designed for students who are interested in a career in law enforcement or industrial security. The program provides an analysis of the close relationship between the public and private sector and their importance in providing a secure and safe environment for our citizens. The program emphasizes the methods, procedures and techniques that are utilized in the area of private security and current security-related issues such as loss prevention, disaster preparation, business continuity and homeland security. The program provides the student with an in-depth knowledge of police-related issues such as criminal law, patrol operations and criminal investigations.

Students who complete this program will be certified to seek employment as security officers with local or state security agencies.

Admissions Requirements

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Learning Outcomes

Students will:

• identify and assess current issues in security and security management.
• be able to identify relevant issues of constitutional, procedural, and substantive law and their impact on security systems.
• be able to understand the importance of crime scene protection and be able to demonstrate the proper methods of gathering and presenting evidence properly.
• provide specific courses which meet New York State requirements for certification as a security officer.

Career Opportunities

• uniformed security officer
• plainclothes security officer
• loss prevention analyst
• risk analyst
• hotel security
• industrial security
• executive protection

Transfer Opportunities

Although this is a certificate program designed for immediate entry into the workplace, credits can be applied to further college study. Consult a department advisor for more information.

***MAT 102 or higher. Lab science not required.

See SUNY Transfer Path link for information about recommended courses –

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.

## Program Description

The Liberal Arts: Humanities and Social Science Associate in Arts degree program is a transfer degree that provides a broad-based foundation for students to pursue a variety of academic interests. A liberal arts degree focused on humanities and social sciences includes study of humankind’s intellectual, historical and creative endeavors and the implications of how humans interact. The value of a strong grounding in the liberal arts is that students will be equipped with broad perspectives, tools to analyze challenging problems, and skills to seek and communicate solutions.

This Associate in Arts degree program is similar to the first two years of many baccalaureate degree programs, in that it prepares students to think and write critically about a range of subject matter. The coursework is designed to flexibly balance exploration of ideas and subjects with transfer preparation.

Students in this degree program will take specific required courses and also have the opportunity to choose from categories of courses and electives. The choice of several electives provides students freedom to customize and focus on a specific discipline, area of interest, or pursuit of specific coursework that is recommended by transfer destinations.

By fulfilling a minimum of 30 General Education credits and a minimum of seven of SUNY’s general education categories, students are prepared for smooth transfer within the SUNY system and beyond. The General Education categories of the State University of New York (SUNY) are math, natural sciences, social sciences, American history, western civilization, world civilizations, humanities, the arts, foreign language and communication.

An Associate in Arts degree is an excellent choice for students who plan to transfer but may not have all the next steps clearly mapped out. Liberal Arts degrees position students to pursue careers in the social sciences, arts, humanities, communication, education, advocacy, policy and law and many other avenues.

Students should consult regularly with their advisors to determine the best course of study for their particular area of interest and to update their academic plans.

## Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 11 for more details on the admission process for all applicants.)

For students with more defined career goals, see the four-semester sequences in select disciplines that follow.
Program Learning Outcomes

Students will:

- demonstrate foundational knowledge of and an appreciation for the cultural, social, and natural worlds.
- recognize the diversity of human experience, values, and perspectives.
- demonstrate an understanding of the forms of artistic expression and their creative processes.
- apply critical thinking and systematic reasoning skills.
- demonstrate information management, quantitative skills, and an understanding of the role of empirical measurement.
- use effective oral and written communication skills.
- transfer to, and succeed at, an upper-level institution.

Career Opportunities

The Associate in Arts degree program serves as a foundation for students who will complete their bachelor’s degree at a four-year institution. They may then pursue careers in a number of areas, including:

- the social sciences
- the arts
- the humanities
- education and communication

In addition, successful completion of a bachelor’s degree can also lead to continued study on the graduate level. For a more complete list of career opportunities, consult the individual Associate in Arts program descriptions in this catalog.

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer.

These transfer institutions include:

- four-year institutions in the State University of New York (SUNY) system
- private NYS and national four-year institutions

To provide for a smooth transfer, students should consult with both their academic advisors and the potential transfer institutions for academic course selection and guidance as soon as possible.

Tracks within the Liberal Arts: Humanities and Social Science Associate in Arts Program

Seven discipline-specific tracks have been developed in the Liberal Arts: Humanities and Social Science Associate in Arts degree program. Students who follow these tracks will benefit by taking the courses as sequenced and will build a body of knowledge about a specific discipline.

Embedded within the course sequencing of each track are specific courses that align with advising guides (also known as transfer paths) developed by the SUNY system to ensure seamless transfer to baccalaureate degree programs.

The curricula ensure that students will fulfill a minimum of thirty general education credits, seven of ten SUNY general education categories, and coursework in the first two years of study in specific disciplines, thereby ensuring junior-level status when transferring to a school within the SUNY system.

Each track has specific faculty advisors and discipline-related activities that take place throughout the academic year. The seven tracks are Anthropology, English, History, Music Industry, Political Science, Psychology and Sociology.

Program Description

Anthropology seeks to document and understand the breadth of the human experience and cultural diversity. The Registered Track in Anthropology provides a thorough foundation in disciplinary concepts and methods, preparing a student to transfer directly into upper division coursework to complete a bachelor’s degree at a four year institution. Anthropology is a flexible major with broad application to many fields and students may take their studies further and pursue careers in academia, business, government, community building, and the non-profit sector.

Program Description

English is a broad area of concentration which prepares you to transfer to a four-year college or university. Following the registered track in English prepares you for a variety of programs that emphasize writing, research, reading, and critical thinking. Students in this concentration gain creativity as well as communications and interpersonal skills, qualities sought after by many employers. Graduates with degrees in English have many options for careers, including education, advertising, public relations, publishing, technical writing, media, law, public service, and more.

Program Description

The study of history prepares students for careers in education, government service, museum and archives administration, and the, the legal professions, while at the same time, honing the communication and critical thinking skills sought by 21st century employers. Designed for Seamless transfer to four-Year-SUNY Colleges, the History Transfer Path not only allows students to complete the initial coursework in the discipline, it also provides students the opportunity to study with published authors and experts from fields of American, Greco-Roman, European, World, and Asian history and culture.

Program Description

Students following the Music Industry track of the Associate in Arts program complete a blend of general education courses enabling them to transfer more easily to four-year colleges and music classes that provide a firm foundation for further study in the field. Music Industry students have two options. One includes a basic music theory course (MUS 121 - Fundamentals of Music), the other a more in-depth course providing a variety of necessary skills in the areas of theory, ear training, keyboard harmony and sight singing (MUS 123 – Basic Musicianship) along with a co-requisite piano class. Music courses required in the program may be supplemented by other music courses selected in coordination with students’ academic advisors.

### Program Description

Psychology seeks to better understand human sensation, perception and behavior with an eye toward assisting individuals facing mental and behavioral challenges. The Registered Track in Psychology provides a thorough foundation in disciplinary concepts and methods, preparing a student to transfer directly into upper division coursework to complete a bachelor’s degree at a four year institution. Psychology is a flexible major with broad application to many fields and students may take their studies further and pursue careers in mental health, education, business and community agencies.

### Program Description

The Associate in Science degree program in Individual Studies is a transfer degree program designed for those students whose goals are not adequately addressed by one of the College’s other programs. Its purpose is to allow students to shape a program to meet their individual needs.

The program is divided into three components: core requirements, concentration area and electives. Core requirements are intended to provide students with a firm general education foundation through exposure to the three traditional areas of liberal arts study—humanities, social science and sciences—and development of communication and computational skills. The concentration area is comprised of course work reflecting the individual’s educational objectives. The elective component provides the student with the flexibility to build upon the special area of study.

### Admission Criteria

Prior to the sophomore year (30 credits), the student is required to submit an Individual Studies Program Plan. This form, available in the Advising and Counseling Center, requires a 250 word statement of the student's educational, transfer and career objectives. Based on these objectives, the student and advisor will select the courses to fulfill the concentration and elective component of the degree. The Program Plan will then be submitted to the appropriate Associate Vice President in Academic Affairs. On approval of the plan, a faculty advisor whose academic background is appropriate to the student’s area of concentration will be assigned to assist in the next phase of study.

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

This program can be completed in its entirety at either the Middletown campus or the Newburgh campus.
Program Learning Outcomes
Students will:
• demonstrate their broad base of knowledge in the liberal arts and sciences by evoking critical thinking skills in drawing reasonable conclusions from evaluated data.
• develop a foundation of essential knowledge about the cultural, social and natural worlds, and individual well-being.
• demonstrate a mastery of communication skills, both written and oral.
• understand the commonalities and diversity of the human experience, values and opinions.
• apply systematic reasoning and develop information management quantitative skills.
• be prepared to transfer to an upper-level institution.

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

Career Opportunities
The Individual Studies degree program serves as a base for students who plan to continue their education at a four-year institution.
Because of the flexibility of the degree, students have the option of developing a career path of their choice early in their educational experience.

Transfer Opportunities
SUNY Orange has special relationships with upper-level colleges and universities for transfer.
These institutions include:
• four year institutions in the State University of New York (SUNY) system
• private state and national four-year institutions

Total Credits: 60

* SUNY American History (GE 4) or Western Civilization (GE 5) or Other/World Civilization (GE 6) lists
# SUNY Arts (GE 8) or Foreign Language (GE 9) lists
+ Minimum credit value for this course is 3 credits.
Students may fulfill this requirement with a course of a higher credit value.

A minimum of 30 credits of math and science combined is required for this degree. At least 6 credits of math must be College Algebra (MAT 121) or higher, at least 3 credits of which must be a SUNY Math and at least 6 credits of science must be from the SUNY Natural Science list.

Program Description

The Associate in Science degree program in Liberal Arts and Sciences with a Mathematics and Science emphasis is designed specifically for students to transfer, with junior status, to the appropriate upper-level college or university of their choice, where they can complete the B.S./B.A. degree in their chosen field of study. As such, the program provides core courses and general education requirements that would be included in the first two years of study at four-year institutions. This degree gives mathematics/science students the flexibility to match a program to their individual goals, backgrounds and talents. The various curricula provide the opportunity to pursue a variety of academic and career interests in mathematics and in the natural/physical sciences.

The course distribution in mathematics and science is designed to provide a solid foundation in the basics of natural and physical sciences/mathematics: future advanced coursework will build on this foundation. The general education elective credits round out the curriculum in this degree program. Students should consult the appropriate department chairperson and faculty for specific advice about pursuing a particular discipline within this area. Such consultation will facilitate the correct level of course choice and rigor required to match the student’s transfer plans as they work toward a bachelor’s degree.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Before initiating study for this A.S. degree a student must have achieved a mathematical proficiency which includes intermediate level algebra. At SUNY Orange, this means that a student must have tested beyond Intermediate Algebra (MAT 102) to begin progress toward this degree. If this is not the case the student must speak with an advisor in order to choose the proper preparatory courses.

For students with more defined career goals, see the four-semester course sequences in selected disciplines that follow.
Program Learning Outcomes

Students will:

• demonstrate essential and foundational knowledge in the natural sciences and liberal arts.

• demonstrate understanding of the methods scientists use to explore natural phenomena, including observation, hypothesis development, measurement and data collection, experimentation, evaluation of evidence, and employment of mathematical analysis.

• perform mathematically with proper notation and vocabulary commensurate with chosen field of study.

• demonstrate ability to apply systematic reasoning and critical thinking skills.

• demonstrate effective communication both oral and written.

Career Opportunities

• professional degrees or working in private sector firms in the various fields.

• R&D or laboratory opportunities in private and public sector.

• positions in education on primary or secondary level.

• excellent background for other fields requiring mathematics/science proficiency, including:
  • biology
  • pre-professional training for medicine, dentistry, veterinary science, pharmacy, etc.
  • environmental sciences
  • Teaching or research

• chemistry

• geology

• mathematics

• physics/astronomy

Transfer Opportunities

SUNY Orange has special relationships with upper-level colleges and universities for transfer. Students regularly transfer with junior status to colleges and universities in the State University of New York System as well as to private and state colleges and universities across the country.

**Liberal Arts: Mathematics and Science**

Degree Awarded: Associate in Science

---

**Tracks within the Liberal Arts: Mathematics and Science Associate in Science Program**

Two discipline-specific tracks have been developed in the Liberal Arts: Mathematics and Science Associate in Science degree program: Mathematics and Chemistry.

SUNY has defined recommended coursework to be taken in the first two years of study to ensure seamless transfer to baccalaureate degree programs within the system. That recommended coursework is referred to as a transfer path. Each track aligns with a different SUNY transfer path. The four-semester sequences ensure that students will fulfill seven SUNY general education categories and necessary coursework in the first two years of study in specific disciplines, thereby ensuring junior-level status when transferring to a four-year school within the SUNY system.

**Program Description**

The chemistry track at SUNY Orange will provide students with the skills and knowledge to begin a career in the field of chemistry or for transfer to upper division universities. There, students will be prepared to study chemistry and related fields required for professional schools, including medical, dental, law and business programs.

  - MAT 214 Differential Equations

**Program Description**

The Mathematics registered track will provide students the opportunity to explore mathematics careers and prepare them for successful transfer to a four-year school. Transfer and career paths include statistics, artificial intelligence, actuarial science, teaching, cryptology, mathematical modeling, finance, economics, and more.

*It is strongly recommended that students with at least a 2.50 CGPA register for MGT 220. Approval of the department chair is required to register for this course.**Students with sufficient keyboarding ability who pass the keyboarding waiver exam will fulfill this requirement; they do not need to replace the 1 credit.

Program Description

The Associate in Applied Science degree program in Marketing prepares graduates for immediate entry into positions ranging from entry level to marketing management. Students develop interpersonal and conceptual skills such as communication, decision making and problem solving.

The primary focus of the curriculum is on marketing strategy, selling techniques, advertising procedures and international marketing. This well-balanced program includes a marketing core, accounting, computer information systems, law and liberal arts courses. Students will be involved in developing marketing plans, creating advertising, presenting sales presentations, and participating in both group and individual projects designed to enhance their skills.

Business Department faculty are well-trained and experienced in their areas of expertise, and highly motivated to work with students, helping them to succeed in their quest for a job. Many students complete this degree and transfer to four-year colleges to earn a bachelor’s degree; however, students who have this objective are advised that they may suffer transfer credit losses due to the concentration of business courses.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Learning Outcomes

Students will:

• demonstrate knowledge of marketing principles and applications.
• demonstrate the ability to identify, analyze, and evaluate market segments and strategies.
• express business information effectively in both oral and in written forms.

Career Opportunities

- advertising
- marketing and manufacturing
- marketing service
- marketing research
- public relations
- sales
- customer service

Transfer Opportunities

While the A.A.S. is a degree leading to immediate job placement upon graduation, SUNY Orange has special relationships with Franklin University for transfer to a B.S. degree in marketing, business administration or human resource management.

Other transfer opportunities exist with:

- Franklin University
- Mount St. Mary College
- Ramapo College
- SUNY Empire State

Program Description

The Associate in Applied Science degree program in Medical Laboratory Technician prepares students to become certified and licensed as medical laboratory technicians.

A medical laboratory technician is a healthcare professional who performs general testing on biological specimens such as blood, urine, various body fluids and tissues in the medical laboratory. The results of these analyses are utilized to determine the presence, absence, progress and causes of disease. A medical laboratory technician, also known as a clinical laboratory technician, enjoys science, problem solving and investigation, and performs his/her work accurately, efficiently and responsibly. The medical laboratory technician must be able to perform several duties simultaneously, work well in a fast-paced laboratory and be self-motivated.

The Medical Laboratory Technician Program curriculum corresponds to the program’s mission: it provides each student with educational experiences and knowledge to develop the critical thinking, technical and interpersonal skills required to be a successful clinical laboratory scientist. The program will integrate knowledge gained from general education, biological science and clinical laboratory science so that the future laboratory professional will exercise good judgment, ethics and appropriate decision-making abilities to serve the needs of the community and the profession.

Students will take courses in the following disciplines: medical physiology, clinical chemistry, hematology, urinalysis, immunology, immunohematology and microbiology. Students study laboratory safety, microscopy and clinical instrumentation and apply the principles in the laboratory. As part of the program, a clinical rotation is assigned at one of the clinical affiliates.

The program begins in the fall semester of each year and the courses must be taken in the sequence in which they are offered. A grade of C (2.00) or better is required in all MLT courses for progression in the program and graduation with an A.A.S. degree in Medical Laboratory Technician. Once you begin taking MLT courses, the degree must be completed within three years.

Students who are considering this program must provide their own transportation to and from the college and clinical sites. They must also have a yearly physical examination and tuberculin skin test (TST). Upon admission to the program, students will need to successfully complete a urine drug screen as well as a criminal background check. The Hepatitis B vaccine is strongly recommended. An individual who has charges pending or has ever been convicted of a felony or misdemeanor and/or has been found guilty of professional misconduct or negligence may not be eligible for licensure. Contact the Office of Professional Discipline, New York State Education Department prior to applying to this program.
Medical Laboratory Technician
Degree Awarded: Associate in Applied Science

Admission Criteria

Academic Requirements
• High school diploma or high school equivalency (HSE) diploma
• Eligible to take Freshman English I (ENG 101)
• Eligible to take Elementary Algebra (MAT 101) or have successfully completed Fundamentals of Algebra (MAT 020)
• Students must attain a minimum cumulative GPA of 2.0

Department-Specific Requirements:
• Attendance at a pre-admission orientation. At this orientation, students will receive and sign off on information pertaining to health forms, drug testing, and criminal record policies.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CGPA and credits completed towards the degree, Orange County residency and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester.

Program Learning Outcomes
Students will:
• properly collect, process and analyze biological specimens.
• safely and accurately perform analytical procedures, recognize factors affecting results and take the appropriate action.
• Be eligible for national certification as a Medical Laboratory Technician by successfully completing the examination given by the American Society for Clinical Pathology Board of Certification.
• be eligible to sit for the NYS Certified Clinical Laboratory Technician Licensing Examination.

Note: Several essential movement, observational, communication, intellectual and behavioral functions are required to complete the objectives of the courses in the program and to perform the necessary duties required of a medical laboratory technician. A detailed listing of these essential functions is included in the MLT admissions packet and is discussed at the pre-admission orientation session.

Career Opportunities

• hospitals
• doctors’ offices
• reference laboratories
• food/cosmetic industries
• pharmaceuticals
• veterinary laboratories
• research
• sales and marketing
• industry
• forensics
• teaching
• management
• field service
• I.T.

Transfer Opportunities
This degree program prepares students for immediate entry into the workplace. Consult the department for more information regarding further educational opportunities in this profession.

Total Credits: 60-62

**+** Special medical projects are provided in OFT 109, OFT 207, and OFT 214 for students in this program.  
**+** Another course must be added to complete the degree such as CPR, First Aid, Stress Management, Concepts of Physical Wellness, or a business elective. Please see the department chair for other suggestions.  
**+** Students need approval of the department chair to register for this course, and at least a 2.0 CGPA.

### Program Description

The Associate in Applied Science degree program in Medical Office Management prepares graduates to begin their careers in medical organizations. Emphasis is placed on developing office skills and knowledge of medical terms.

The medical office manager provides office support to medical facilities including records management, medical report production, patient interface, insurance and billing responsibilities, telephone interaction, and confidentiality.

Students take a sequence of office skill courses including various levels of Keyboarding, Microsoft Word and PowerPoint, Excel and Access, Transcription Skills, Medical Terminology, Physiology, and Medical Coding. Special medical projects are provided in Advanced Office Applications, Transcription Skills and Excel and Access.

### Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

This degree has been approved by ACBSP and SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Learning Outcomes

Students will:

• demonstrate the ability to keyboard in correct form medical correspondence, which includes letters, memos, forms, reports, tables and statements.
• demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.
• effectively communicate both orally and in written documents.
• understand and apply proper medical codes.
• learn critical thinking skills through an analytical business report project.

Career Opportunities

Medical office assistant positions exist in the following fields:

• hospitals
• long-term care
• community agencies
• health maintenance organizations
• government and industry
• physicians' offices
• outpatient services
• military-medical services
• medical laboratories
• imaging centers

Transfer Opportunities

While the A.A.S. is a degree leading to immediate job placement upon graduation, SUNY Orange has a special relationship for transfer to a B.S. degree in Applied Management with Franklin University.

Other transfer of courses exist with:

• Franklin University (to another related degree)
• Mount St. Mary College
• Ramapo College
• SUNY Empire State College

Program Description

The purpose of the New Media Program is to prepare SUNY Orange students with the skills needed to pursue a career in the field of video, audio, and/or digital film production. Graduates of this program will be proficient in visual composition using different forms of digital media such as video, photography, web design and art. Graduates will also be proficient in audio production, specifically, digital radio production, sound design, and audio engineering. This course of study is designed for students seeking career opportunities in television production, film production, audio production, screenwriting, news broadcasting, and media development. Students may also transfer to a four-year institution upon graduation.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency (HSE) diploma. If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Students will:

• Demonstrate knowledge of communication theories and history of mass media
• Utilize creative software that is standard in the media industry
• Demonstrate a working knowledge of the audio and video production process from pre-production and production to post-production
• Demonstrate a working knowledge of the individual functions of a production crew and exhibit proficiency in each role.
• Demonstrate the application of video/audio synchronization and composition
• Demonstrate fundamental understanding of media business practices
• Develop a personal writing process that culminates in the creation of a short film, scripted, taped, edited and produced by the student
• Create a portfolio containing work developed throughout the program

Career Opportunities

• television production
• film production
• audio production

Transfer Opportunities

While the A.A.S. degree leads to immediate employment, SUNY Orange students have successfully transferred. Please check with the intended transfer school for details.

Program Description

The Associate in Applied Science degree program in Nursing prepares students to become registered nurses. It provides for the development of those competencies expected of registered nurses in general nursing practice at the technical level. Emphasis is on direct client care within a career in nursing.

Through study in the humanities, biological and social sciences, and the experience of academic life, the student gains an understanding of the value of the individual and their contribution to society. This curriculum combines general education courses and nursing courses with laboratory and clinical experiences, during which students have the opportunity to care for clients in a variety of healthcare settings. Due to limited availability of clinical experience in some areas, students may be assigned to evening and/or weekend clinical experiences. Evening students may also be assigned to attend a day clinical during the semester. Students’ personal schedules will have to be adjusted to allow for these required opportunities. Students gain clinical experience in long-term care, medical-surgical, maternal/child and mental health nursing. A variety of teaching methods is employed to integrate the classroom with the clinical experience.

Program Learning Outcomes

• The student will utilize the nursing process reflecting sound nursing judgment and critical thinking skills to resolve clinical and professional problems

• The student will demonstrate effective use of interpersonal skills and informatics to ensure effective communication with patient/families and the members of the health care team.

• The student will apply evidence-based standards of nursing practice to provide safe quality care to a diverse population across a multitude of settings.

• The student will demonstrate responsibility and accountability for self-growth with a commitment to the profession, exhibiting a spirit of inquiry and a passion for excellence.

Program Outcomes

• The NCLEX passing rate will exceed or be equal to the mean for New York State and the Nation.

• Program completion rate will be 70% within 3 years of admission into the nursing program.

• At least 90% of the graduates responding to the graduate survey will report satisfaction with the nursing program.

• At least 90% of the alumni responding to the alumni survey will value lifelong learning as evidenced by their stated intention to be enrolled in a BSN program.

• At least 90% of the alumni responding to the alumni survey will be employed in nursing within 9-12 months after graduation.

• At least 90% of the employers responding to the employer survey distributed within one year after graduation will indicate satisfaction with graduate performance.
Admission Criteria

Academic Requirements:

- High school diploma or high school equivalency (HSE) diploma
- Eligible to take Freshman English I (ENG 101)
- Eligible to take Intermediate Algebra (MAT 102), or have completed Elementary Algebra (MAT 101) or equivalent with a 2.0 or higher
- Eligible to take Anatomy and Physiology I (BIO 111) – may be met by successful completion of one of the following: Intro to Biology (BIO 110) with a 2.0 or higher; or High School AP Biology (score of 3, 4, or 5); or a passing grade on the Biology CLEP examination.
- Successful completion of High School Regents Chemistry, or its equivalent with a grade of 75 or higher; or High School AP Chemistry (score 3, 4 or 5); Intro to Chemistry (CHM 100); or college Chemistry course (with lab) with a grade of 2.0 or higher; or passing grade on the Chemistry 1 CLEP examination within 10 years of application deadline. *(Please note: SUNY Orange does not offer credit for the Chemistry CLEP, but it can be submitted as evidence of meeting this criteria).
- Students must attain a minimum cumulative GPA of 2.75

Department-Specific Requirements:

- Completion of an online pre-admission seminar. By viewing this presentation, students will receive information pertaining to health forms; program standards and policies; mandatory CPR certification; and criminal record & drug screening policies. All students must submit to a criminal background check and urine drug screening. The online seminar is available at www.sunyorange.edu/nursing/preadmission.shtml.
- Applicants for the Nursing program will be required to take the ATI Test of Essential Academic Skills (ATI TEAS). A score of BASIC is required for admission consideration. A score of PROFICIENT or higher is recommended. Visit www.sunyorange.edu/testing/services.shtml for test information, and scheduling.
- The Nursing Department will review transcripts of those students who have been enrolled in a health professions program at SUNY Orange or another college.
- All students must submit to a criminal background check and physical examination which includes required immunizations, a tuberculosis test, and urine drug screening.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific eligibility requirements, highest combination of science GPA, total GPA, TEAS score and credits completed towards the degree, and seat availability.

All requirements must be completed and a program application form must be submitted to the Admissions Office before February 1 for the fall semester at the Middletown Campus and October 1st for the spring semester at the Newburgh campus.

Accepted students must attend an in-person orientation session in order to register for classes.

Effective June 2019, legislation was passed in NY State that requires RNS to obtain a BSN within 10 years of licensure in order to continue practicing. Therefore, students are strongly encouraged to begin planning to continue their education as soon as possible.
Guidelines for Advanced Placement for Licensed Practical Nurses

In order to be eligible to apply through either of the pathways below, students must:

- Complete A&P (BIO 111), and Microbiology (MLT 106) with a grade of C or higher within 5 years of application
- Complete English 1 (ENG 101)
- Complete Elementary Algebra (MAT 101), or equivalent, or place into MAT 102 or higher on the placement test
- Complete high school Regents chemistry or college-prep chemistry with a grade of 75 or higher; high school AP chemistry (score 3, 4, or 5); or college chemistry course with a lab with a grade of c or better; or passing grade on Chemistry 1 CLEP within 10 years of application
- Take ATI TEAS exam with a minimum score of basic
- Successful completion of Nursing Bridge Course (N3029).

Information regarding this course will be provided once you are accepted into the LPN/RN program. The course is taken after acceptance into the program and prior to beginning nursing classes during the Winter recess for Spring entrants and during the Summer recess for Fall entrants.

Transfer from a Practical Nursing Program through the SUNY Orange Articulation Agreement with OU BOCES and Ulster BOCES School of Practical Nursing.

Graduates of these programs may transfer into NUR 102 – Nursing 2: Fundamentals based on the following criteria:

- Meet the college and nursing program admission criteria which can be found at www.sunyorange.edu/nursing/fed_mobility.html
- Attainment of an overall GPA of 85% in the LPN program
- Graduation within the previous five years
- Have a letter of recommendation from an OU BOCES or Ulster BOCES practical nursing program instructor
- Pass the NY State Licensed Practical Nurse Examination

Advance Standing into the Second Semester through the Excelsior College Examination

Licensed Practical Nurses who do not meet the transfer requirements from an articulation agreement, may apply for admission to NUR 102 – Nursing 2: Fundamentals. The application will be reviewed when the individual has met the college and nursing program admission criteria and the following has been achieved:

- Successful completion of an NLN accredited and/or state registered LPN program
- A minimum score of B on the Excelsior College Examination for Fundamentals of Nursing. (score may not be more than three years old). Information is available at www.excelsior.edu

Advance Standing into the Fourth Semester

Licensed Practical Nurses, who have successfully completed NUR 102 – Nursing 2: Fundamentals, may be considered for advanced standing into NUR 202 – Nursing 4: Physical and Mental Illness after completing the following requirements:

- Notification of the Nursing department chairperson of your intention to seek advanced standing to NUR 202 by May 1st for Fall semester
or Nov 1st for the Spring semester
- PN transcript review demonstrates a minimum of 70 clinical hours in Maternal and Child Nursing
- A Minimum Score of B on the Excelsior College Examination in Maternal and Child Nursing (baccalaureate) (Official transcripts must be submitted to the Records and Registration Office)
- Completion of NUR 205: Pharmacology and the Human Body with a C or better

Credit for Nursing 101 will be granted after successful completion of Nursing 102 with a grade of C (2.0) or higher. Credit for Nursing 201 will be granted after successful completion of Nursing 202 and 203 with a grade of C (2.0) or higher. Minimum passing grade in all core nursing courses is 75. Nursing 2 and 4 are offered in the Spring semesters on the Middletown campus and in the fall on the Newburgh campus. The offering of these courses out of sequence is never guaranteed & at the discretion of the nursing department based on enrollment & clinical placement availability.

Students will be considered for acceptance into the Nursing Program based on the admission criteria in effect at the time of the request. Please be advised that certain general education requirements are co-requisites with nursing courses. A&P 2 must be taken with or prior to Nursing 2. Introduction to Psychology and Pharmacology must be taken prior to Nursing 4.

LPN to RN program application forms are to be submitted by October 1st to be considered for acceptance into the program for the spring semester in Middletown, and May 1st for admission consideration for the fall semester on the Newburgh campus.

Progression Through The Program

A minimum grade of 75% (C) in each nursing course is required for progress in and graduation in nursing. A minimum grade of C is required in all laboratory science courses for progression in the nursing program. Nursing students must complete Freshman English 1 & 2 prior to enrollment in Nursing 3. Required nursing courses must be taken in the prescribed sequence. A student may repeat only one required nursing course one time. Once students are enrolled in the core nursing courses, they are to complete the program in three years. Students interested in admission to the evening nursing program are advised that this is a part-time program limited to 11.5 credits each semester. In order to meet this requirement, all non-clinical courses should be completed prior to starting this part-time program. The day program is two academic years in length if pursued on a full-time basis. Because of the intense nature of the Nursing Program, the student may find that part-time study is more appropriate.

Nursing Readmission

Students who withdraw from, fail or receive a grade below "C" in any one of the required nursing courses may apply for readmission to the Nursing program. A student is only allowed to do this one time. Additionally, the program is to be completed within three years from the start of the first nursing course. A student seeking readmission must meet the program requirements in effect at the date of re-entry. Readmission is neither guaranteed nor is it an automatic process. Students requesting to be considered for readmission to Nursing 101 are to do so through the Admissions Office of the college. Students requesting to be considered for readmission to Nursing 102, 201, 202 or 203 must inform the nursing department chairperson in writing. Written requests must be submitted by May 15th for the Fall semester and December 15th for the Spring semester. Prior to readmission, students are required to successfully complete a special bridge course. To be considered for readmission, a student must have a minimum cumulative GPA of 2.75.

Licensure

Graduates of the nursing program are eligible to apply for the National Council Licensing Examination for Registered Nurses (NCLEX). Completion of the Nursing program does not assure admittance to attempt the RN licensure exam. When submitting an application for licensure and first registration, the applicant is required to report any history of a felony or misdemeanor. The state boards of nursing will review all applicant information submitted and determine if the applicant is eligible for licensure.

Career Opportunities

- hospitals
- long-term care settings
- community agencies
- health maintenance organizations
- government
- physicians' offices
- industry
- military
- education
- nursing specialties

Transfer Opportunities

Many of our graduates transfer to upper-level colleges and universities to pursue advanced degrees in the nursing profession. Successful transfer depends on the courses taken and the student's grade point average. SUNY Orange has special relationships with a number of colleges and universities.

- Adelphi University
- Chamberlain College
- Dominican College
- Excelsior College
- Mercy College
- Mount St. Mary College
- Pace University
- Russell Sage College
- SUNY Binghamton
- SUNY Delhi
- SUNY Empire State

### Program Description

The Associate in Applied Science degree program in Occupational Therapy Assistant prepares graduates to obtain New York State licensure and to take the National Certification Board for Occupational Therapy exam* to become Certified Occupational Therapy Assistants (COTA). Certified Occupational Therapy Assistants work under the supervision of, and in collaboration with, Registered Occupational Therapists (OTR). Occupational therapy practitioners provide service to children, adults and seniors whose abilities to engage in their occupations (tasks) of living are impaired by physical injury or illness, developmental delays, the aging process or psychological and social disability.

The COTA’s responsibilities include providing purposeful and meaningful activity to restore lost or impaired physical, cognitive and psychological skills; development and use of assistive technology; adapting home, play and work environments and activities to ensure successful and safe performance. The COTA may design adapted toys and games for a child with physical limitations; provide handwriting adaptations for students within a school setting to enhance their learning process; evaluate and design home adaptations to enhance independence in self-care activities such as feeding, bathing, shaving, cooking and dressing; encourage the elderly client to participate in leisure activities and to maintain personal independence.

The primary focus of the curriculum is on the development of critical thinking and clinical problem-solving skills, and on essential elements in designing and applying therapeutic interventions for the clients served by COTAs. The program includes classroom instruction, laboratory and community-based fieldwork rotations. Occupational therapy assistant courses are offered once each year. Courses must be taken in the sequence in which they are offered. A minimum grade of C is required in all occupational therapy assistant courses. The course of study may be pursued on a part-time basis. All program requirements must be completed within six consecutive semesters from the time of enrollment in the first OTA course. Individualized part-time schedules can be developed between the student and the OTA faculty advisor.

*Note: Graduates of the OTA program are required to apply for NBCOT® certification. Candidates applying for the Certification Examination must notify the NBCOT's Qualifications Review Committee (QRC) if they have ever been charged with or convicted of a felony. A felony conviction may prevent the candidate from taking the examination. Please consult the department chair if this may be an issue in successfully pursuing a career in occupational therapy.
Admission Criteria

Academic Requirements:
- High school diploma or HSE
- Eligible to take Freshman English I (ENG 101)
- Eligible to take Elementary Algebra (MAT 101) or have successfully completed Fundamentals of Algebra (MAT 020)
- Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or Introduction to Biology or Anatomy & Physiology 1 with a grade of 2.0 or better (within 5 years of program entry)
- Students must attain a minimum cumulative GPA of 2.4

Department-Specific Requirements:
- Watch assigned videos of Occupational Therapy in three different practice settings, including Physical Disabilities, Pediatric/Developmental, and Mental Health. Write a reflection paragraph on each setting.

The required Pre-Admission Observation Form must be completed to document observations. (Pre-admission observation forms are available online at: www.sunyorange.edu/admissions/healthforms.shtml).
- Interview with Dept. Chair and selected OTA faculty, a group problem-solving activity and related essay.
- Attendance at a pre-admission orientation (includes interview, problem solving activity and discussion). At this orientation, students will receive and sign off on information pertaining to health forms, drug testing, and criminal record policies. Dates for pre-admission orientation are posted on Admissions and OTA Dept. websites.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CGPA and credits completed towards the degree, and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester.

Program Learning Outcomes

Students will:
- learn problem-solving and clinical reasoning.
- build on knowledge, practice skills, theory and critical thinking applications.
- apply these multiple skills and insights to adapt to and cope in this novel and diverse world.
- think and act with flexibility, to think “outside the box.”
- welcome change and growth in themselves, their clients and the organizations they serve.

Career Opportunities

- hospitals, inpatient and outpatient mental health facilities
- rehabilitation centers and skilled nursing facilities
- schools, developmental disabilities service sites
- home and community health agencies
- accessibility and home modification specialists
- assistive technology specialists
- health and wellness centers
- advancement to OTR

Transfer Opportunities

While the A.A.S. is a degree leading to immediate job placement upon graduation and successful completion of the National Certification exam, SUNY Orange has special relationships with weekend college programs for transfer to a B.S./M.S. degree at:
- Dominican College
- Mercy College

Office Technologies

Degree Awarded: Associate in Applied Science

Program Description

The Associate in Applied Science degree program in Office Technologies prepares graduates to begin their careers as office assistants. Three special emphasis areas are provided: legal office assistant, office manager, and secretary/information processor. Specialized courses combine with the common core courses to prepare graduates to enter the office support staff.

The office assistant provides office support to employers in a wide variety of settings. This support includes document production, computer software capability, records management, telephone interaction, customer service, keyboarding and data entry.

Students learn to use modern office equipment and, through internships, are exposed to realistic office situations. The internship experience includes 90 hours of office work with a cooperating employer along with weekly meetings with the College instructor. Topics for these meetings include: minute-taking instruction, telephone techniques, human relations issues, problem solving, the resume and interview, and the creation of a professional portfolio.

Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Students without sufficient keyboarding ability will be required to take Elementary Computer Keyboarding. Students with sufficient keyboarding ability to pass the waiver for Intermediate Computer Keyboarding fulfill this requirement with a business elective.

Program Learning Outcomes

Students will:

• demonstrate the ability to keyboard in correct form business correspondence, which includes letters, interoffice memos, forms, reports, tables, legal documents and financial statements.

• demonstrate the ability to keyboard straight copy for five minutes with a maximum of three errors.

• effectively communicate both orally and in written documents.

• understand the concepts of current information and word processing functions through the successful completion of learning exercises, application problems and exams at a microcomputer workstation.

• learn critical thinking skills through an analytical business report project.

Performing Arts: Music

Degree Awarded: Associate in Applied Science

Program Description

The Associate in Applied Science degree program in Performing Arts: Music prepares graduates for employment in a field connected with music or possible transfer to a bachelor’s degree music program. Students select one of three emphasis areas: Music Performance, Jazz and Commercial Music or Music Business. For those seeking transfer, an articulation with SUNY Purchase has been established giving students the opportunity for seamless transition to a four-year program.

The program includes core courses in music history, theory and related musicianship skills, piano, instrumental or vocal performance, acoustics, and music business. Performing ensembles enable students to learn in active, collaborative settings and offer ongoing service and enrichment to the College and community through a variety of musical performances. Courses in arranging and improvisation are required for students choosing the Jazz and Commercial option. Students selecting the Music Performance or Jazz and Commercial options must complete four credits of private music instruction with a department-approved teacher and are responsible for the private instructor’s fee. Detailed course descriptions appear in the course description section of this catalog. Please note that not all courses are offered in the evening.

An ongoing visiting artist series enables students to learn directly from some of the best contemporary performing artists in workshops featuring musicians such as Cindy Blackman, Randy Brecker, Bob Mintzer and Kenny Barron. Many of the courses required in the program fulfill New York State general education requirements and thus are easily transferable within the SUNY system.

Admission Criteria

Admission to this program requires that students be high school graduates or have a high school equivalency (HSE) diploma. If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)

Note: Although this is an open admissions program, music placement assessment is required for registration into certain courses. Consult with Arts and Communication Department music faculty.

Program Learning Outcomes

Students will:
• demonstrate proficiency in music theory, notation, harmony and part-writing.
• apply their knowledge of music theory, notation and harmony at the keyboard.
• demonstrate proficiency in sight reading on their instrument and sight singing.
• notate musical materials from dictation.
• demonstrate proficiency on the piano through the performance of standard repertory.
• perform in an instrumental or vocal ensemble.
• demonstrate knowledge of music history, musical styles, genres and composers.
• demonstrate fundamental understanding of music business.
• demonstrate fundamental understanding of acoustics.
Graduates of the Physical Therapist Assistant program are eligible to apply for certification in the state where they plan to practice. This process includes providing a history of possible existing criminal convictions and/or professional misconduct. Criteria for determination of good moral character varies from state to state, therefore, completion of the program does not guarantee acceptance by that state’s regulatory entity to become certified or licensed.

**Program Description**

The Associate in Applied Science degree program in Physical Therapist Assistant (PTA) is designed to provide students with both the academic knowledge and clinical skills to become certified/licensed PTAs. The field of Physical Therapy is demanding. Graduates are required to meet all program requirements which are guided by the Commission on Accreditation in Physical Therapy Education. Many states, including New York, also require that students pass the national licensing examination as part of the certification/licensure process.

The PTA works with, and under the direction and supervision of the physical therapist who plans the patient care program; the PTA then helps to carry out this program. Duties of the PTA include monitoring of vital signs, lifting of patients and equipment, training of patients in therapeutic exercises and activities of daily living, wound care, use of whirlpool and electrical stimulation during treatment procedures, application of heat and cold modalities, patient and family education, wheelchair activities, use of walkers and crutches, assisting the physical therapist in performing patient assessments and complex treatment procedures. The PTA also monitors the patient’s responses to treatment, documents relevant aspects of patient care and maintains ongoing communication with the patient, family, supervising physical therapist and other health care professionals.

The primary focus of the curriculum is to develop a strong clinician who possesses critical thinking and problem-solving skills. To accomplish this, the program provides the clinical training as well as a broad general education background. Courses include both core classes and non-core classes (general education courses). The core Physical Therapist Assistant courses are offered once each year beginning in the fall semester.

All program requirements must be completed within six consecutive semesters from the time of enrollment in the first PTA course. These courses must be taken in the sequence in which they are offered. The curriculum includes classroom instruction, laboratory time and clinical experiences. However, general education courses may be taken on a part-time basis during the day or evening, and may be completed over a longer period of time than the four semesters. But they must be completed no later than the semester in which they fall into sequence with the core courses.

A minimum grade of C is required in all PTA courses and a minimum grade of C is required in each of the following courses: Anatomy and Physiology 1, Anatomy and Physiology 2, and Basic Exercise Physiology.
Admission Criteria

Academic Requirements:
- High school diploma or high school equivalency (HSE) diploma
- Eligible to take Freshman English I (ENG 101)
- Eligible to take Intermediate Algebra (MAT 102) or equivalent with a 2.0 or higher or have completed Elementary Algebra (MAT 101)
- Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or Introduction to Biology or Anatomy & Physiology 1 with a grade of 2.0 or better (within 5 years of program entry)
- Minimum cumulative GPA of 2.0

Department-Specific Requirements:
- Submit Physical Therapy practitioner observation form with essay (48 hour min. with documentation).
- View the Pre-Admission Orientation Power Point located on the program website and complete the survey. Once completed, you must print the completed survey and submit it to the Admissions Department.
- Most qualified candidates will be invited to attend a program interview.
- If invited, schedule and attend an interview with the Department Chair.

Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of program credits completed and cumulative GPA towards the degree, Orange County residency and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester. If seats remain available after February 1, students will be assessed as they apply.

Program Learning Outcomes

Students will:
- possess entry-level skills as determined by the Commission on Accreditation in Physical Therapy Education.
- be able to work under the direction and supervision of a licensed physical therapist in an ethical, legal, safe, and effective manner becoming an integral member of the healthcare team.
- demonstrate appropriate critical thinking and problem-solving skills in their role as a Physical Therapist Assistant.
- demonstrate an understanding of the New York State Education Law as it relates to the provision of Physical Therapy services.
- successfully complete the National Physical Therapy Exam for PTAs.
- develop the skills necessary to pursue lifelong learning needed for personal and professional growth.
- be aware of their responsibility to promote the profession through membership in the APTA, attending local and national meetings and conferences, and participation in community events.

Career Opportunities

- hospitals, nursing homes
- private offices
- rehabilitation centers
- schools
- fitness centers
- home care settings

Transfer Opportunities

The A.A.S. degree is primarily intended to prepare students for immediate employment; however, transfer opportunities exist in some areas.

If a student plans to pursue a Physical Therapy doctorate program, he or she should see the department chair or a faculty advisor as soon as possible.

### Program Description

The Associate in Science degree program in Public Health is designed specifically for students to transfer to the appropriate upper-level college or university of their choice, where they can complete a B.S degree in Public Health or their chosen field of study. As such, the program provides core courses in Public Health and general education requirements that would be included in the first two years of study at four-year institutions. This degree program provides students with foundational knowledge in public health that can also be used in a wide range of professions and many other health-related fields. Public Health professionals work within a variety of settings including state and local health departments, hospitals, workplace wellness programs, government agencies, educational institutions, research organizations, and international development agencies.

### Admission Criteria

Admission to this program requires that students be high school graduates or have high school equivalency diplomas (HSEs). If students are not high school graduates, they may be eligible for admission to the College’s 24 Credit Hour Program. If students are home schooled, they may be eligible for admission. (See pages 7 through 13 for more details on the admission process for all applicants.)
Program Learning Outcomes

Students will:

• Define public health and related roles and responsibilities of government, non-government agencies, and private organizations.

• Describe risk factors and modes of transmission for infectious and chronic diseases and how these diseases affect both personal and population health.

• List the leading causes of mortality, morbidity, and health disparities among local regional, and global populations.

• Discuss the role of gender, race, ethnicity, and other evolving demographics in affecting population health.

• Discuss major local, national, and global health challenges.

• Describe how the methods of epidemiology and surveillance are used to safeguard the population’s health.

• Communicate health information to a wide range of audiences through an array of media.

• Conduct a literature search on a health issue using a variety of academic and public resources.

• Recognize the impact of policies, laws, and legislation on both individual and population health.

• Analyze ethical concerns and conflicts of interest that arise in the field of public health.

Offered through the Hudson Valley Educational Consortium

### Program Description

The Associate in Applied Science degree program in Radiologic Technology prepares students to apply to take the Registry examination in Radiography offered by the American Registry of Radiologic Technologists to become a radiographer. An essential member of the healthcare team, the radiographer positions body parts accurately and manipulates radiographic equipment to produce a quality diagnostic image with the least amount of radiation necessary.

The Radiologic Technology program is dedicated to providing each student with the educational activities necessary to develop the required critical thinking and technical and interpersonal skills of the radiographer. The highly skilled radiographer is educated in properly caring for the patient’s needs during the radiographic examination, manipulates radiographic and computerized equipment, as well as adheres to protocols in bedside and operating room areas, selects technical factors and diagnostic parameters, instructs and assists the patient in order to obtain the necessary positioning, demonstrates appropriate application of radiation safety principles of “time, distance and shielding,” in order to protect the patient, self and others, exhibits care and accuracy in the administration, preparation and disposal of drugs and contrast agents.

Note: The Radiologic Technology program, as well as the field of radiologic technology, is a rigorous one. Program standards are not altered for disabled students. The College will make every effort to provide reasonable accommodations to students with disabling conditions.

### Admission Criteria

#### Academic Requirements:

- High school diploma or HSE
- Eligible to take Freshman English I (ENG 101)
- Eligible to take College Algebra (MAT 121), or have completed Intermediate Algebra (MAT 102) or equivalent with a 2.0 or higher
- Completed High School AP Biology (score of 3, 4, or 5) or a passing grade in the Biology CLEP examination; or introduction to Biology or Anatomy & Physiology 1 with a grade of 2.0 or better (within 5 years of program entry)
- Minimum cumulative GPA of 2.5

#### Optional Group Interview: All applicants found eligible during the admissions process will have the opportunity to interview in order to earn an additional 15 points maximum towards a seat in the program. Eligible students will be contacted in early March. Should an eligible student choose not to participate, the student forfeits the opportunity to earn additional points in the review process. Points earned stand for 3 years after which students can interview again. For more information, please see the department home page www.sunyorange.edu/di/index.shtm
Department-Specific Requirements:

- Attendance at a pre-admission orientation. At this orientation, students will receive and sign off on information pertaining to the Radiologic Technology program including technical standards, health forms, and criminal record policies.

  Note: Admission to this program is selective. In addition to an application to the College, students must apply for acceptance into this program through the Admissions office. Consideration for admission is based on the completion of all mandatory academic and departmental-specific requirements, highest combination of CGPA and credits completed towards the degree, and seat availability. All requirements must be completed and an eligibility form must be submitted to the Admissions Office before February 1 in order for a student to be considered for acceptance into this program for the Fall semester.

  At the time prospective students submit their applications to the American Registry of Radiologic Technologists and the New York State Department of Health, they must make a statement about their conviction record, if any. If they would have to answer "yes" to a question about a felony conviction, they should contact the NYS Department of Health (518) 402-7580 AND The American Registry of Radiologic Technologist (651) 687-0048. Both of these agencies MUST be contacted to determine if students will be eligible to sit for the certification exam and/or to be licensed.

Program Goals

1. Students will demonstrate critical thinking skills
2. Students will demonstrate clinical competence in relation to their knowledge and technical skills
3. Students will exhibit professional behavior
4. Students will demonstrate effective written and oral communication skills

Student Learning Outcomes

- Students will perform routine radiography exams
- Students will perform non-routine radiology procedures
- Students will evaluate radiographs for diagnostic quality
- Students will demonstrate knowledge through Clinical Test Exams
- Students will practice patient safety and radiation protection
- Students will demonstrate professional behavior
- Students will demonstrate effective oral language skills
- Students will demonstrate effective writing skills

Career Opportunities

- hospitals, clinics, medical imaging centers, doctors’ offices, educational facilities and equipment manufacturers as:
  - radiographers and special procedures technologists
  - mammographers, CT technologists and MRI technologists
  - nuclear medicine technologists, PET/CT technologists
  - radiation therapists
  - sales personnel, educators, clinical instructors and hospital administrators

Transfer Opportunities

The A.A.S. degree is primarily intended to prepare students for immediate employment; however, some graduates have gone on to further study in radiation therapy, nuclear medicine, cardiac catheterization and education.

| _____ SUNY General Education course* | 3 |
| _____ SUNY General Education course* | 3 |

++Local daytime observations beyond college classroom are required. Students will be placed according to their employment/school needs.

* Each elective must be chosen from the following SUNY General Education categories: Mathematics (GE1), Natural Sciences (GE2), American History (GE4), Western Civilization (GE5), Other World Civilizations (GE6), Humanities (GE7), Arts (GE8), or Foreign Languages (GE9), with at least ONE from either Category 4, 5, or 6. Do not take more than one elective from the same category.

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Certification Requirements

New York State Requirements

- See New York State Education Department website for the requirements for NYS Teaching Assistant Certification (www.nysed.gov).

Program Learning Outcomes

Students will:

- Communicate effectively both in oral and written formats.
- Articulate a beginning philosophy of education, and demonstrate an awareness of the role of diversity in education.
- Exhibit a beginning understanding of child development
- Demonstrate foundational knowledge of and an appreciation for the cultural, social, and natural worlds

Career Opportunities

Entry-level teaching assistant or paraprofessional in:

- birth to second grade
- first to sixth grade
- seventh to twelfth grade

Transfer Opportunities

All of the courses in the Teaching Assistant Certificate are applicable toward an Associate in Arts and Associate in Sciences degree AND the Jointly Registered Teacher Education Program.

Total Credits 63-64

Program Description

The Associate in Applied Science degree program in Visual Communications Technology: Graphic Arts/Printing prepares graduates in all aspects of visual communications and graphic design. These include layout, production, typography, commercial print processes, illustration and computer graphics for entry level positions in graphic design, printing, publishing, desktop publishing, advertising, marketing, presentation graphics, game design, animation, multimedia and communications. As a result, the program prepares students for successful portfolio reviews leading to acceptance into B.A. or B.F.A. programs.

Beginning with Visual Communications 1, students are introduced to Visual Communications theories, graphic design principles, elements, typography, influential persons and contemporary digital media. The curriculum offers sequential Visual Communications and Graphic Design courses, complemented by a broad offering of studio art and art history courses. After taking core courses in the first year, the student selects a concentration area in either Photography, Painting, Figure Drawing, or Web Design in the second year. Concurrently, the student completes the Visual Communications course sequence culminating with Viscom 4, the portfolio development course. Our Practicum course offers the Viscom student the opportunity to experience an internship with local businesses or departments within the College.

Through an articulation agreement, qualified BOCES candidates can enter the A.A.S. degree program, and receive credit for certain first-year courses. After completing the program, students may either enter the workforce or transfer into a bachelor’s degree program (see next page). Detailed course descriptions appear in the course description section of this catalog.

Please note that not all courses are offered in the evening.

This degree has been approved by SUNY NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.
Program Learning Outcomes

Upon successful completion of this program, students will be able to:

• assume entry-level positions in visual communications and/or placement in upper-level programs of study.
• demonstrate fundamental concepts and processes of visual communications and graphic design.
• demonstrate an understanding of the visual communications industry and career opportunities in the field of visual communications.
• demonstrate proficiency in industry-standard technology including hardware and page layout, digital imaging, vector drawing, presentation and web design software.
• produce a portfolio appropriate for entry-level roles in visual communications and/or continuing education in upper-level programs.

Career Opportunities

• graphic design, advertising design and marketing
• publishing, desktop publishing and printing
• game design, web design, animation and multimedia
• art direction, illustration, digital photography and color correction

Transfer Opportunities

Although the Associate in Applied Science degree is designed primarily as a professional degree, many students do transfer to baccalaureate programs at other colleges. Many of the courses in the program fulfill New York State general education requirements and thus are easily transferable within the State University of New York system. Presently SUNY Orange has an articulation agreement with Cazenovia College.

Many other students have successfully transferred to

• Fashion Institute of Technology
• Parsons The New School for Design
• SUNY Albany
• SUNY New Paltz
• SUNY Oneonta
• SUNY Purchase
• School of Visual Arts

## SUNY General Education Course Listing

Any graduate of an A.A. or A.S. program (except A.S. Engineering Science) transferring to a SUNY institution must fulfill 7 of the following 10 categories.

### GE 1. MATHEMATICS
- MAT 102 Intermediate Algebra
- MAT 111 Foundations of Elementary School Math
- MAT 113 Math for the Liberal Arts
- MAT 120 Introduction to Statistics
- MAT 121 College Algebra
- MAT 122 College Trigonometry
- MAT 131 Pre-Calculus
- MAT 205 Calculus 1
- MAT 206 Calculus 2
- MAT 207 Calculus 3

### GE 2. NATURAL SCIENCES

#### Biology
- BIO 101 General Biology 1
- BIO 102 General Biology 2
- BIO 110 Introduction to Biology
- BIO 141 Diversity of Life
- BIO 143 Field Biology
- BIO 148 Environmental Conservation
- BIO 201 Genetics
- BIO 204 General Botany
- BIO 205 General Ecology
- BIO 210 Study of Biological Habitats

#### Clinical Laboratory Science
- MLT 209 General Microbiology

#### Chemistry
- CHM 101 General Chemistry 1
- CHM 102 General Chemistry 2
- CHM 103 Applied Chemistry 1
- CHM 104 Applied Chemistry 2
- CHM 201 Organic Chemistry 1
- CHM 202 Organic Chemistry 2

#### Physical Sciences
- AST 120 Astronomy
- CHM 100 Introduction to Chemistry
- GLG 101 Earth Science
- GLG 110 Physical Geology
- GLG 210 Historical Geology
- PSC 125 Physical Science/Physical World
- PSC 140 Physical Science/The Environment

#### Physics
- PHY 101 General Physics 1
- PHY 102 General Physics 2
- PHY 103 Physics for Science & Engineering 1
- PHY 104 Physics for Science & Engineering 2
- PHY 105 General Physics with Calculus 1
- PHY 106 General Physics with Calculus 2
- PHY 108 Acoustics
- PHY 111 Architectural Physics
- PHY 203 Physics for Science & Engineering 3
- PHY 204 Modern Physics

### GE 3. SOCIAL SCIENCES

#### ANT 101 Cultural Anthropology
#### ANT 102 Human Evolution
#### ANT 103 Archaeology and Prehistory
#### ECO 201 Macro-Economics
#### ECO 202 Micro-Economics
#### GEO 102 Human Geography
#### POL 101 Introduction to Political Science

### GE 4. AMERICAN HISTORY

#### Domestic History
- HIS 101 United States History 1
- HIS 102 United States History 2
- HIS 107 Diversity and Inclusion: The American Experience
- HIS 203 History of African Americans*

#### International and Comparative History
- HIS 204 American Civil War and Reconstruction
- IDS 114 American Civil Rights Movements
- POL 103 U.S. Government – National

*only for students scoring 85 or above on NYSS American History Regents

### GE 5. WESTERN CIVILIZATION

#### Classical History
- HIS 230 The Greek & Roman World
- HIS 231 Medieval & Renaissance Europe
- HIS 232 The Age of Revolutions
- HIS 233 Modern Europe

### GE 6. OTHER/WORLD CIVILIZATIONS

#### World History
- HIS 121 World History 1
- HIS 122 World History 2
- HIS 219 Ancient Asia
- HIS 220 Modern East Asia: China, Japan and Korea
- HIS 221 Modern India & Southeast Asia
- HIS 222 The Middle East
- HIS 223 Latin American History
- HIS 224 Africa: Past & Present
- HIS 234 History of Russia and Eastern Europe

### GE 7. HUMANITIES

#### Art History
- ART 127 History of Western Art 1
- ART 128 History of Western Art 2
- ART 201 American Art 1700 - 1945
- ART 203 Modern Art – the 20th Century
- ART 205 Women in Art History
- ART 207 Non-Western Art History
- COM 105 Media and Society
- ENG 102 Freshman English 2
- ENG 120 Introduction to Mythology
- ENG 203 World Literature: Ancient World through the Renaissance
- ENG 204 World Literature: Enlightenment to the Modern Age
- ENG 205 Drama: Ibsen-O'Neill
- ENG 206 Drama: Contemporary
- ENG 207 English Literature: 14th-18th Centuries
- ENG 208 English Literature: 19th-20th Centuries
- ENG 209 American Literature: To the Civil War
- ENG 210 American Literature: 1865 to the Present
- ENG 213 Journalism: Survey of Mass Media
- ENG 215 Shakespeare
- ENG 216 Children's Literature
- ENG 217 Film & Literature
- ENG 220 Women Writers
- ENG 221 Contemporary Short Story
- ENG 222 Contemporary Novel
- ENG 223 Contemporary Poetry
- ENG 225 International Literature: Non-European
- ENG 226 Fantasy Fiction
- ENG 230 African-American Literature

* Only for students scoring 85 or above on NYS American History Regents
+ these courses have a prerequisite
The following list is intended to provide guidance in selecting courses that must fall within specific categories to meet degree requirements. This list is not to be confused with degree requirements that state a specific SUNY General Education course must be taken. For example, if your degree requires you to take a SUNY Math, SUNY Social Science, etc., you must follow the SUNY General Education course listing.

Also, if you are pursuing the A.A. Liberal Arts degree, the Social Science requirements are restricted to those courses listed within specific (A-D) categories.

Note: When just a department is noted as meeting the requirement (for example ACC) and there is no number after this designation, this means that all course numbers preceded by ACC meet the requirement.

**Social Science Elective**

ANT (except ANT 220), CRJ 101, CRJ 103, CRJ 105, CRJ 109, CRJ 111, CRJ 210, ECO, GEO 102, HIS (except HIS 104), IDS 114, POL, PSY, SOC

**Math Elective**

Any MAT or CSC courses.

**Business Elective**

ACC, BUS, MGT, MKT, OFT

**Liberal Arts Science**

AST, BIO, CHM, GEO 101, GLG, MLT 101, MLT 110, MLT 209, PHY, PSC

**Liberal Arts Elective**

ANT (Except ANT 220), ARC 215, ARC 216, ART, AST, BIO, BUS 105, BUS 203, CHM, CHN, CCS 100, CCS 101, CIT 100, COM, CSC 101, CSC 102, CSC 103, CRJ 101, CRJ 103, CRJ 105, CRJ 109, CRJ 111, CRJ 210, ECO, EDU 207, ENG, FLD, FRE, GEO, GLG, HIS, HON, HMS 101, HUM, IDS, ITA, MAT, MLT 101, MLT 106, MLT 110, MLT 209, MUS, PHL, PED 111, PED 112, PSC, PHY, POL, PSY, SOC, SPN, THE

**General Elective**

Any course including PES courses up to 3 credits.

*Developmental courses are not applicable toward any degree program.*

Course Descriptions

Each course is identified by an alpha numeric code. The first three characters identify the subject code, the next three or four digits identify the catalog number. The department code indicates division or department sponsorship of the course. See column to the right for a listing of the department codes. The catalog number indicates the level of the course. Courses described in this section are listed in alphabetical order.

Read the description of the course carefully before you register for it, noting any prerequisite, corequisite, and the number of class hours. Each description lists the required number of student contact hours per week for a 15 week semester. For example, PHY 101 General Physics 1, 3 lect., 3 lab., 4 cr., meets for three lecture hours and three laboratory hours each week, over a semester of 15 weeks. Four credits are received on successful completion of the course. Consult your faculty advisor if you have any questions about the level or the content of a course.

Due to academic and fiscal considerations, not all courses can be offered each semester of every year. Courses taught only in the fall or spring semesters are so identified; otherwise, courses may be taught both semesters. Therefore, this catalog should not be considered a contractual offer from the college to any prospective student.

Frequency and Timing of Course Offerings

Unless specific semesters are listed, courses are offered on an occasional basis. The college reserves the right to not offer a course when scheduled, based upon budgetary or staffing needs.

Course Index

The following course categories, subject codes, and catalog numbers are listed here only as a quick advising guide. There are exceptions. Please refer to the course descriptions for complete information.

Online Learning

SUNY Orange currently offers several courses online through the internet each year. In addition, students may take courses which are "web-enhanced," "hybrid," or fully "online." Students may access these courses from home, on campus, or wherever they can obtain internet access.

Web-enhanced

Students should expect to be exposed to academic technologies as part of their educational experience at SUNY Orange. Many courses make use of Internet technology to support the distribution of course materials and student access to additional resources. This can include graded assignments that require participation in an online activity or activities in addition to the required meeting time on campus. Students should consult with their faculty if they have questions about any of the assignments within their courses or need assistance with an assignment that requires the use of technology.

Hybrid

Hybrid courses make use of educational technology to deliver instructional content and reduce the amount of time a student is required to be physically present in the classroom. The hybrid instructor may deliver one-third to three-quarters of the instructional content of the course in an online format. On-campus presence of a student enrolled in a hybrid course is still required, though reduced.

Online

A full online course is one that can be accessed anywhere and anytime, via the internet, with a web browser. It supports all the other services mentioned previously, as well as builds a learning community with the course taking place completely on-line, including live chats, bulletin board discussions and advising.

To participate in online learning, students must have internet access (a broadband connection is recommended) and use a current software browser (Firefox, Microsoft Edge, Safari or Chrome). In addition, pop-up blockers must be disabled and cookies and javascript must be enabled. Adobe Acrobat Reader (a free download) is also recommended. Students must use their SUNY Orange email accounts.

It is strongly recommended that students use a desktop or laptop computer for viewing or completing assignments in online coursework as the course experience can be significantly different when viewed on a cell phone, a mobile app, or a tablet.

For more information about online learning at SUNY Orange including courses being offered, FAQs, etc., please visit www.sunyorange.edu/ol.
Accounting
(Business Department)

ACC 101—Accounting Principles 1
4 cr. (Fall/Spring)
This is an introduction to accounting practice and theory using the model of the sole proprietorship in a service business. The accounting process for recording, summarizing, and reporting financial data is analyzed. Specialized systems in cash controls, payroll, and the use of multipurpose combination journals are examined. Emphasis is placed on identifying and correcting errors and omissions and understanding their impact on financial statements. Course objectives are reinforced through the use of manual and/or computerized applications.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 102—Accounting Principles 2
4 cr. (Fall/Spring)
This is a continuation of accounting practice using the model of the sole proprietorship in a merchandising business. Use of special purpose journals and related subsidiary ledgers in support of merchandising operations and an analysis of payables, receivables, and inventory valuation unique to this area are examined. Additional content in the areas of note financing, long-term assets and payroll are included. The topic of corporations and the specific equity issues related to them are discussed. Course objectives are reinforced through the use of manual and/or computerized applications.
Prerequisite: ACC 101

ACC 103—Personal Finance
3 cr. (Spring)
The course examines important aspects of consumer decision making. Emphasis is on practical consumer finance areas such as: personal financial planning, budgeting, consumer protection, purchasing, taxes, credit and investments. The course provides the skills to develop a life-long financial plan for the individual.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 153—Financial Accounting
4 cr. (Fall/Spring)
This course provides a solid foundation in basic accounting concepts and methodology of financial accounting. This includes the rules and procedures used by financial accountants in preparing external financial reports. Emphasis is placed on the chart of accounts, the accounting environment, the accounting cycle, cash flow, the income statement and the balance sheet. This course provides students with an understanding of financial accounting in a corporate environment, methods used to perform analysis of financial statements, and insights into the financial accounting decision making process.
Prerequisite: MAT 020 or placement into MAT 101 or higher

ACC 154—Managerial Accounting
4 cr. (Fall/Spring)
This course introduces students to managerial accounting as an information system that provides managers with a basis for decision making. Topics include basic C-V-P analysis, estimating costs, job and process costing, break-even analysis, standard costing, short and long term decision making, responsibility accounting, operating budgets, and flexible budgeting. Emphasis is placed on the needs of managers to use internal accounting information to make business decisions.
Prerequisite: ACC 153 or ACC 101 and ACC 102

ACC 201—Intermediate Accounting 1
4 cr. (Fall)
Special emphasis is placed on accounting standards. Topics include: a review of generally accepted accounting principles; recognition, valuation and disposition issues; cash and receivables; inventory flow procedures; plant and intangible assets; and revenue recognition.
Prerequisite: ACC 154 and BUS 161 or permission of department

ACC 202—Intermediate Accounting 2
4 cr. (Spring)
Continued emphasis is placed on accounting standards. Topics include: temporary and long-term investments, current liabilities, stockholders equity, bonds and miscellaneous long-term liabilities, pension plans, leases, cash flows, financial statement analysis, earnings per share, and an introduction into the objective characteristics and elements of financial reporting.
Prerequisite: ACC 201

ACC 205—Accounting with Spreadsheet Applications
3 cr. (Fall/Spring)
Spreadsheet and time value of money software are introduced and developed as support tools for topics in managerial, financial, and income tax accounting. Topics include budgeting, depreciation, debt amortization, cost/volume/profit analysis, financing, and profit planning. Emphasis is placed on both proper application of theory and quality of report presentation.
Prerequisite: ACC 102 and BUS 161 or ACC 153 and BUS 161

ACC 211—Federal Income Tax Procedures
3 cr. (Fall)
Course emphasis is placed on the current status of Federal income Taxes as they relate to individuals. The history of Federal Income taxation as well as the Federal taxation of business income is also covered. After completion of the course, the student will be able to prepare an individual Federal Income Tax return. The course materials include valuable reference tools.
Prerequisites: ACC 101
Accounting / Anthropology / Architectural Technology

ACC 214—Accounting Practice

4 cr. (Spring)

Topics include issues related to new company configuration. Accounting applications are in the areas of bank reconciliation, payroll programming and reporting, sales and excise tax reporting, and management of payables, receivables, and cash. Emphasis is placed on the skills needed to assume a office bookkeeping position. QuickBooks Accounting software will be introduced in this course.

Prerequisites: ACC 102 and BUS 161 or ACC 153 and BUS 203

ACC 220—Accounting Internship

3 cr. (Spring)

Students enrolled in this course will intern at organizations appropriate to learning about accounting and accounting-related fields. Students will integrate classroom theory in a monitored and supervised work experience. Periodic meetings with a faculty advisor and written assignments are required. Evaluations by workplace supervisors are also required. The student intern is required to work a minimum of 90 hours during the semester.

Prerequisites: Permission of instructor or ACC 102 or ACC 153; ACC 214, ACC 205; and BUS 203. A minimum CGPA of 2.5 is also required.

NOTE: Students must comply with all policies, procedures, and regulations of the internship/fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

ANT 101—Cultural and Social Anthropology

3 cr. (Fall/Spring)

A cross-cultural approach to the nature of culture as humanity’s means of existence, focusing on such topics as the method of scientific research in cultural anthropology, the basis of language, a comparative study of events of the human life cycle, family and kinship, religion and ritual, and theories of social change and development. Fulfills category C. (GE 3)

ANT 102—Human Evolution

3 cr. (Fall)

This course applies Darwinian evolutionary theory to an examination of the position of the human species within the animal kingdom, the characteristics of primates, the evolutionary origins of human behavioral patterns, the fossil record of human evolution, the study of race, and continuing human evolution. Fulfills category C. (GE 3)

ANT 103—Archaeology and Prehistory

3 cr. (Spring)

This course investigates the contribution made by archaeological science to an understanding of the process by which human society evolved from earliest forms to the emergence of complex civilizations in various parts of the world prior to historical times. Fulfills category C.

ANT 104—Archaeological Field Experience

1 lect., 6 lab., 3 cr.

This course is designed to provide students with experience conducting archaeological research. Students will participate in all aspects of the field process including laying out a grid, excavating test pits, mapping, photographing, documenting the archaeological record and recovering artifacts and features. Instructor led lecture and discussion will begin each field day so that students are able to understand the larger context of the work they are doing. In addition, select field trips and guest speakers will provide additional context for the specific site to be investigated. Length of time in the field will be a minimum of 90 hours over four weeks.

ANT 220—Indians of North America

3 cr. (Spring)

This course is an analysis of Native American cultures north of Mexico from early times to the modern era. Ecological, historic and ethnographic data are utilized to review the various cultural areas. The southwest, plains, northwest, southeast and northeast cultures.

Architectural Technology

(Science, Engineering and Architecture Dept.)

ARC 101—Architectural Graphics

2 lect., 3 lab., 3 cr.

An introduction to architectural graphics standards. Topics include general drafting terminology, using mechanical drafting equipment, the communicative role of lineweights and scales, and the roles of plans, sections and elevations. Laboratory work using instruments and specialized software provides hands-on experience. Drawings will be discussed and demonstrated in lecture and applied in lab assignments and projects. Emphasis is on drafting and line quality and successful communication through architectural drawings. Lab assignments will include both two-dimensional and three-dimensional drawings along with an introduction to shade and shadows.

Corequisite: concurrent enrollment in or completed WRT 040

ARC 102—Advanced Architectural Graphics

2 lect., 3 lab., 3 cr.

An advanced course in architectural graphics with an emphasis on mixed media. Topics include coordination of two and three dimensional drawings, the use of color and fonts, composition of presentation boards, the role of freehand sketching in presentations, and Adobe software applications. Emphasis is on composition and successful communication through architectural drawings.

Prerequisite: ARC 101

ARC 105—Building Materials and Methods 1

2 lect., 2 cr.

The description and analysis of building materials and their use in construction: foundations, structural
elements, and floor, roof, and wall systems. This course primarily focuses on building component and structural terminology, identification and variations of building materials, and methods of wood construction. Steel, concrete and masonry construction will be introduced.

*Corequisite: concurrent enrollment in or completed WRT 040*

**ARC 106—Building Materials and Methods 2**
2 lect., 4 lab., 4 cr.

The description and analysis of building materials and methods and their use in masonry, steel and reinforced concrete construction. Sustainable building principles will be introduced. Methods are clarified through the development of drawings such as wall sections, window details, plan details, etc.

*Prerequisite: ARC 101, ARC 105, CAD 101*

**ARC III—Architectural Design I**
2 lect., 3 lab., 3 cr.

An introduction to the basic elements of architectural design -scale, proportion, rhythm, mass, textural effects, contrast, unity, sequential spatial experience. Execution of two and three dimensional design projects. An exploration of nature of art and architecture.

*Corequisite: concurrent enrollment in or completed WRT 040*

**ARC 112—Architectural Design 2**
1 lect., 4 lab., 3 cr.

The place of function, structure, and expression of ideas in architecture will be explored through the lecture and lab component of this course. In lecture, case studies will be presented. In lab, the execution and criticism of architectural design problems will take place. Presentation techniques will be in various media, with a concentration on model building.

*Prerequisite: ARC 101, ARC 111*

**ARC 201—Digital Portfolio**
3 lab., 1 cr.

A structured environment in which students prepare and orally present a portfolio that demonstrates the body of their work produced in courses in the Architectural Technology Program. Students also produce a cover letter, resume and personal essay on architecture.

*Prerequisite: CAD 102, ARC 102, ARC 112*

**ARC 205—Working Drawings 1**
2 lect., 3 lab., 3 cr.

This course is an introduction to architectural working drawings. Basic principles of preparing and organizing necessary components of a working drawings set will be covered. Students will prepare a set of drawings for a small wood structure using Autocad software. Correctness of construction techniques and CAD draftsmanship will be emphasized. Quantifying building materials from the students' prepared sets will be introduced.

*Prerequisite: ARC 106, CAD 102*

**ARC 206—Working Drawings 2**
1 lect., 6 lab., 4 cr.

This is the capstone course of the building materials and methods sequence of the A.A.S. Arch. Tech. Program. Advanced working drawings of a building of steel construction will be produced. Emphasis is placed on draftsmanship, coordination, and accuracy plus development of building construction details. Autocad is used as the drafting medium. The complex relationships between owner, architect and contractor as well as the role of specifications will be introduced.

*Prerequisite: ARC 205*

**ARC 211—Architectural Design 3**
1 lect., 4 lab., 3 cr.

A continuation of the design course sequence in which students explore programmatic requirements, precedents and architectural form. In lecture, case studies will be presented. In lab, the execution and criticism of architectural design problems will take place. Presentation techniques will be in various media and oral presentation is required.

*Prerequisite: ARC 102, ARC 112, CAD 102*

**ARC 212—Architectural Design 4**
2 lect., 4 lab., 4 cr.

This is the capstone course to the design sequence of the A.A.S. Architectural Technology Program. The scope of design is expanded beyond building to outdoor spaces and land planning. A survey of town planning through out history with emphasis on 19th and 20th century. Execution of several design projects involving outdoor spaces, site, town and subdivision layouts, and a building in context on an actual site in the community.

*Prerequisite: ARC 211, ARC 201*

**ARC 215—Architecture to the 18th Century**
3 lect., 3 cr.

A survey of the development of Western architecture through the 18th century. Physical characteristics, form, interior spaces, construction materials, and structural systems from ancient Egypt through the eighteenth century will be covered. The relationship between built form and a society's institutions and culture, level of technology, and environment will be considered.

**ARC 216—Architecture from the 19th Century**
3 lect., 3 cr.

A survey of modern architecture. Form and space, aesthetic philosophy, material usage, and structural systems of architecture from 1850 to the present will be explored. The influence of technology, society, and the environment on architectural form will be explored.

**ARC 220—Mechanical and Electrical Equipment for Buildings**
3 lect., 3 cr.

Description, analysis, and basic design of heating, ventilating, plumbing, and electrical systems and equipment, fire protection, vertical transportation and acoustics in buildings, with a focus on sustainable mechanical and electrical systems.
Art

(Arts & Communication Department)

ART 101—Introduction to Art
3 cr. (Fall/Spring/Summer)
A beginner’s course for those interested in learning how to look at, appreciate and enjoy the visual arts. Weekly lectures introduce theoretical concepts that are reaffirmed with discussion and corresponding studio assignments. Students will explore basic concepts of line, shape, mass, color, balance, texture and composition by way of in-class critiques and hands-on projects. A museum trip may be included in this course. (GE 8)

ART 103—Drawing I
1 lect., 2 lab., 2 cr. (Fall/Spring/Summer)
Drawing exercises and projects emphasizing development of perceptual, manual and conceptual abilities. Objective drawing in line and tone lead the beginning student to understand structure imaging, and execution. Studies introduce basic perspective methods. Various drawing media and materials are used. (GE 8)

ART 104—Drawing 2
1 lect., 2 lab., 2 cr. (Fall/Spring/Summer)
Drawings as finished art are developed from preliminary works. Study of media-image, form-content relationships. Develop more complex and subjective drawings. (GE 8)
Prerequisite: ART 103

ART 107—Design 1
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
An introduction to the vocabulary and elements of two dimensional design including line, shape, texture, color and typography. Students learn basic design elements and media and master manual dexterity and “craft” through hands-on practice completing drawing, painting, and multimedia projects. Students work with a variety of media in a studio setting, employing fundamental design principles to create successful two-dimensional designs as well as participating in collective and individual critiques and working cooperatively on group design projects. (GE 8)

ART 108—Design 2
2 lect., 2 lab., 3 cr. (Spring)
Continuing study of design concepts and development of complex studio projects in various media. Studio methods and processes are discussed and demonstrated. (GE 8)
Prerequisite: ART 107

ART 111—Color
1 lect., 2 lab., 2 cr. (Fall/Spring)
This studio course has students assess psychological as well as physical effects of light and color relationships. Additionally, students will examine color content and its use in art, architecture and personal effects. Weekly lectures introduce theoretical concepts that are reaffirmed with corresponding studio projects. A museum trip may be included in this course. (GE 8)

ART 113—Painting 1
1 lect., 4 lab., 3 cr. (Fall/Spring/Summer)
Fundamentals of painting techniques and materials are learned while student composes from still life setups reflecting various modes and historical perspectives. (GE 8)

ART 114—Painting 2
1 lect., 4 lab., 3 cr. (Spring)
Continuing work in still life painting using more complex formal and contextual means of organizing the pictorial surface and space. (GE 8)
Prerequisite: ART 113

ART 117—Figure Drawing 1
2 lect., 4 lab., 4 cr. (Fall)
Drawing from the model—proportion, gesture, form and structure. Work in anatomy and rendering. Various media are employed. (GE 8)
Prerequisite: Permission of instructor

ART 118—Figure Drawing 2
1 lect., 4 lab., 3 cr. (Spring)
Drawing from the model—extended studies, the draped figure, light and shade as structure and content. Lectures and demonstrations of various media and papers. (GE 8)
Prerequisite: ART 117

ART 119—Photography 1*
1 lect., 3 lab., 3 cr. (Fall/Spring/Summer)
A workshop course for the novice photographer covering camera basics, negative development, enlargement, and contrast control. Considerable darkroom work with criticism as well as discussion of the history of photography are emphasized. (GE 8)

ART 120—Photography 2*
1 lect., 3 lab., 3 cr. (Spring)
A workshop course consisting of considerable darkroom work as a basis for learning more advanced print control techniques which include bleaching, spotting, and mounting prints. Emphasis is placed on individual creativity through personalized assignments and critiques. Studies in the history of photography are continued. (GE 8)
Prerequisite: ART 119

*Students are required to have a 35 mm or larger camera. Lab space, enlargers, and chemicals for paper treatment provided. Students should expect to spend approximately $200 for film and film development supplies and materials.

ART 121—Digital Photography 1
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
This course provides the student with an introduction to the techniques used to create and manipulate photographs in a digital darkroom, using image manipulation software. The convergence of photography and digital media is explored through projects, readings and critiques. Topics covered include basic digital camera functions, scanning, manipulation of photographs, composition, color correction and printing.
Students are required to have their own digital camera of at least 5 megapixels. (GE 8)
Prerequisite: MAT 010 or placement into MAT 020 or higher

ART 122—Digital Photography 2
2 lect., 2 lab., 3 cr. (Spring/Summer)
Students will continue to explore creative areas while building on more specific technical skills required for professional
ART 123 — Visual Communications & Graphic Design 1
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
Explore the idea that memorable visual messages with text have the greatest power to inform, educate, and persuade an individual. Learn about current Visual Communications theories, graphic design principles, elements, typography, influential persons, and contemporary digital media, including page layout software (Quark XPress and Adobe InDesign) as well as Adobe Photoshop. (GE 8)

Prerequisite: ART 121 or permission of instructor

ART 124 — Visual Communications & Graphic Design 2
2 lect., 2 lab., 3 cr. (Spring/Summer)
The Viscom 2 student will learn the fundamentals of visual communications and graphic design through Viscom problem solving, graphic design projects, and exploration into the graphic communications industry today. Digital media skills will be acquired through projects and exercised utilizing page layout (Quark XPress and Adobe InDesign), digital imaging (Adobe Photoshop), and vector drawing software. (GE 8)

Prerequisite: ART 123 or permission of instructor and department chair

ART 125 — Sequential Art: Comics Illustration
2 lect., 2 lab., 3 cr. (Fall/Spring)
Sequential Art: Comics Illustration offers instruction in the creation of comic books and comic strips as well as topical discussion on the operation of the comic book industry. Students learn about the pitfalls of working in comics, their rights as creators, and how to approach publishers. Course material includes the design of comic book characters, comics illustration and storytelling, self-publishing, submitting work to editors, comic book Creator's Rights, webcomics, and strong emphasis on comic book inking. (GE 8)

Prerequisite: ART 103 or Permission of Instructor.

ART 127 — History of Art 1
3 cr. (Fall/Spring)
A survey course covering the major movements of art from prehistoric times through the beginning of the early Italian Renaissance. Architecture, painting, decorative arts, sculpture and textiles will be studied within social, political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 128 — History of Art 2
3 cr. (Fall/Spring)
A survey course that addresses the major movements of art from the early Italian Renaissance to Post-Modernism of the late twentieth century. Architecture, painting, sculpture and photography will be studied within social, political and religious context. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 131 — History of Animation
1 cr. (Fall/Spring)
A five-week survey of the history of animation traced from early twentieth century origins based in photography. The seminar will culminate with an examination of computer-generated animation. Special attention will be paid to traditional methodology of classic cartoon production, full-length features as well as non-traditional animators and avant-garde animation techniques.

ART 201 — American Art 1700 to 1945
3 cr. (Spring)
A survey course examining the development of American painting, sculpture, architecture, folk art and decorative arts begins with the tribal art of Native Americans, encompasses the artistic adaptations of early American settlers and concludes with Modern American art of the 1940s. Special attention will be paid to evolution of style, technique and medium over the course of American history. A museum trip may be included in this course. (GE 7)

ART 203 — Modern Art: The 20th Century
3 cr. (Fall/Summer)
An in depth, chronological examination of the art movements of the twentieth century as shaped by the age of technology and information. Subject matter will be presented decade by decade with attention paid not only to developing technology but also to social and cultural issues. Specific examples of architecture, painting, graphic art, sculpture and photography will be set in perspective to the world events that have helped shape modern artist's approach to art and creativity in the twentieth century. A museum trip may be included in this course. (GE 7)

ART 205 — Women in Art History
3 cr. (Spring)
This survey of women artists throughout history begins by examining images of females of antiquity as represented in art and then examines the social, economic and political context of women artists in art history concluding with working women artists of the twenty-first century. Works of painting, sculpture, textile, decorative arts, and photography and installation art created by women with careful consideration of the political, social, economic and religious constraints women artists have faced. Special attention will be paid to evolution of style, technique and medium. A museum trip may be included in this course. (GE 7)

ART 207 — Non-Western Art
3 cr. (Fall/Spring)
This survey course focuses on the history, development and current influences of non-western art. Particular emphasis is on objects, images and architecture from South East Asia, China, Korea, Japan, the Islamic world, Native North and South America, African and the Pacific Basin as well as contemporary Latin art. A museum trip may be included in this course. (GE 7)

ART 223 — Visual Communications & Graphic Design 3
2 lect., 2 lab., 3 cr. (Fall)
The Viscom 3 student will develop a personal approach to visual communication in this experiential problem solving course. More advanced technical skills will be achieved using a flatbed scanner, Adobe Photoshop, Adobe Illustrator, and Quark XPress, presentation and page layout software. (GE 8)

Prerequisite: ART 124 or permission of instructor and department chair
ART 224—Visual Communications & Graphic Design 4

1 lect., 2 lab., 2 cr. (Spring)

The Viscom 4 student will produce a professional portfolio for entry level employment in visual communications or for further education. The student will complete one semester-long multidisciplinary group project and will hone personal style in visual communication and refine technical skills in using page layout, vector-based and image manipulation graphics software. (GE 8)

Prerequisite: ART 223 or permission of instructor and department chair

ART 225—Web Design 1

2 lect., 2 lab., 3 cr. (Fall/Spring)

Students master the key design strategies of the best professional web designs and design and build fully functional web pages and web sites using Adobe Dreamweaver. Course covers both design concepts and practical, technical abilities, including psychology of perception, color theory and human vision, typography, interface design, technology and new trends in this fastest-moving of all media. Class projects include surfing the web, finding great examples of both good and bad web pages, and learning what works—and what doesn't work—in the real world.

Prerequisite: ART 225

ART 226—Web Design 2

2 lect., 2 lab., 3 cr. (Fall/Spring)

Students design, create and build fully functional web sites incorporating moving graphics, sound and video using Adobe Flash and Dreamweaver. Emphasis is placed on merging the creative process and design skills with the technical aspects of producing Web sites. Course includes both drawing vector art and writing ActionScript code to make interactive banner ads and games.

Prerequisite: ART 225

ART 230—Arts and Communication Practicum

1 lect., 3 lab., 2 cr. (Fall/Spring)

Students develop and complete individual projects/internships in music, art, graphic design, communication, media and theatre. Projects may be performed on campus or by arrangement in community facilities. The course includes a lecture component which involves portfolio building, presentation, and marketing. (GE 8)

Students may repeat this course for a total of four credits.

Prerequisite: permission of instructor and department chair

**Astronomy**

(Science, Engineering & Architecture Dept.)

AST 120—Astronomy

2 lect., 3 lab., 3 cr.

The relationship of physical laws to the structure and size of the universe is the means by which the methods of observational astronomy are studied. The role of gravity in the formation of stars, galaxies, and clusters is emphasized. Current study of cosmology is placed in the historical context. Besides observing sessions, the laboratory emphasizes the methods of observational astronomy. (GE 2)

Prerequisite: AP Biology, BIO 110 or BIO 101 and 102

BIO 101—General Biology 1

3 lect., 3 lab., 4 cr. (Fall/Summer)

Topics include a study of the nature and scope of science in general and biological science in particular: the chemical and physical basis of life; the structures and functions of the cell with an emphasis on photosynthesis, respiration, functions of DNA, and the processes of mitosis and meiosis. The course concludes with the genetic and evolutionary consequences of meiosis and reproduction. (GE 2)

BIO 102—General Biology 2

3 lect., 3 lab., 4 cr. (Spring)

A study of the plant and animal organism with an emphasis on the vertebrate animal and the flowering plant. Comparative systems are studied. The relationships between organisms and the environment are also covered. (GE 2)

Prerequisite: BIO 101

BIO 110—Introduction to Biology

2 lect., 3 lab., 3 cr. (Fall/Spring/Summer)

A introductory course covering the scientific method, basic chemistry, cell biology, structure and function of the vertebrate body, biochemical pathways, cellular division, genetics, diversity and biological systems. (GE 2)

Prerequisite: The course is designed for students with little or no academic background in biological sciences and want to pursue a career in the health professions or biology.

BIO III—Anatomy and Physiology 1

3 lect., 3 lab., 4 cr. (Fall/Spring/Summer)

An introduction to the structure and function of human systems. Study begins with the organization of the body from the molecular to the organ/organ system level of function and continues through the Integumentary, Skeletal, Muscular, Respiratory, Digestive, Nervous, Endocrine systems. Laboratory work includes cellular structure and function, histology, and gross anatomical analysis of the skeletal, muscular, and nervous systems. The laboratory experience includes use of human bones and dissection of the cat, sheep eye and brain as well as use of human anatomical models of organs and structures related to the above systems.

Prerequisite: AP Biology, BIO 110 or BIO 101 and 102

BIO 112—Anatomy and Physiology 2

3 lect., 3 lab., 4 cr. (Fall/Spring/Summer)

Continues the study of the structure and function of human systems begun in BIO 111 (Anatomy and Physiology 1). Included are the Circulatory, Lymphatic, Immune, Respiratory, Digestive, Urinary and Reproductive systems. Acid-base, fluid and electrolyte balance are also discussed, and functional inter-relationships and homeostasis are stressed throughout.
Laboratory work includes analysis of the structure and function of the above systems at the histological, gross anatomical and organ system levels. The laboratory experience includes dissection of the cat and beef and sheep hearts as well as prepared histological specimens, human anatomical models and computer/video presentations related to the above systems. Laboratory experiments also expose students to related clinical techniques/topics such as blood typing, ECG, blood pressures, pulse determination, heart and lung sounds, spirometry, and urinalysis.

Prerequisite: BIO 111

BIO 113—Neurobiology  
2 lect., 2 lab., 3 cr. (Fall)

This course is designed for students of Massage Therapy, Physical Therapist Assistants, Occupational Therapy Assistants, and other Health Sciences. It will provide the student with a foundation for understanding neurological dysfunction. Integration, rather than segregation, between structure and function are emphasized. This course will enable the student to be conversant in the structure and function of the nervous system, with emphasis on sensorimotor integration and neuromuscular physiology. The organizing theme is the regulation of body function, how the nervous system is influenced during development, learning, and by disease, or trauma. This is illustrated in a multidisciplinary fashion: morphology, physiology, biochemistry and clinical manifestations. Examples of pathological, occupational and environmental causes of neurological disease are highlighted through lectures and student presentations. The different approaches used in diagnosis and understanding physical impairment are stressed as essential components of devising effective therapy.

Prerequisite: BIO 112

BIO 115—Human Biology  
3 lect., 3 lab., 4 cr. (Fall)

Human anatomy, physiology and pathology are discussed in lectures. Laboratory work includes microscopic study of tissues and a dissection of the cat. The anatomy of the cat is correlated with human anatomy.

Prerequisite: BIO 110 or BIO 101

BIO 120—Biology for Today  
3 lect., 0 lab., 3 cr. (Spring)

The biological aspects of contemporary problems and issues will be explored. Selected topics will be chosen from the areas of Medicine and the Environment. Students will participate in discussions and class activities that will assess decision-making criteria relative to the issues being presented.

BIO 120 DL—Biology for Today  
3 lect., 0 lab., 3 cr. (Spring)

The biological aspects of contemporary issues will be explored. Selected topics will be chosen from areas of the environment, human anatomy and physiology, inheritance, evolution, and genetic engineering. Proctored exams will be administered at an SUNY Orange campus or an approved site arranged by the student.

BIO 123—Prehistoric Life  
3 cr. (Fall/Spring/Summer)

A survey of the diversity of prehistoric life including the dinosaurs, mammals, birds, reptiles, amphibians, fish, invertebrates and plants of the past. An overview of other relevant topics such as fossilization, evolution, extinction, vertebrate anatomy and ecosystem structure will be presented. The course will include a trip to the Museum of Natural History. Students are responsible for their own transportation. The course does not include a laboratory component.

BIO 123 DL—Prehistoric Life  
3 lect., 0 lab., 3 cr. (Fall/Spring/Summer)

A survey of the diversity of prehistoric life including dinosaurs, mammals, birds, reptiles, amphibians, fish, invertebrates, and plants of the past. An overview of other relevant topics such as fossilization, evolution, extinction, and vertebrate anatomy will be presented. The course will include a trip to the Museum of Natural History. Students are responsible for their own transportation. The course does not include a laboratory component. Proctored exams will be administered at an SUNY Orange campus or an approved site arranged by the student.

BIO 125—Nutrition  
3 cr. (Fall/Spring/Summer)

Students study carbohydrate, fat, protein, mineral and vitamin requirements; an overview of the chemical and biological body functions, nutrient metabolism and deficiencies, food safety legislation, functions of the Food and Drug Administration and the USDA. Students conduct a caloric self-study.

BIO 141—The Diversity of Life  
2 lect., 3 lab., 3 cr. (Fall/Spring)

This course offers the non-science major an opportunity to study representatives of the major groups of bacteria, protistans, plants, fungi, and animals in both lecture and lab. Emphasis will be placed on the major characteristics of each group. The inter-relationships among these organisms will be studied both through discussion and through field trips to local sites. The global loss of biodiversity and its significance will be discussed. Students are responsible for their own transportation on field trips. (GE 2)

BIO 143—Field Biology  
2 lect., 3 lab., 3 cr. (Fall)

This course will acquaint students with the plants and animals of the Orange County area, with emphasis on ecological relationships between them and their environment. Weekly field trips within the area will identify organisms found and conduct outdoor studies to better understand interactions among them. Real data will be collected and analyzed to answer scientific questions concerning the natural history of the county's biodiversity. Students are responsible for their own transportation. (GE 2)
BIO 146—Avian Biology
2 lec., 3 lab., 3 cr. (Spring-alternate years)
A study of the birds of the Mid-Hudson Region, emphasizing field identification, migration, flight and ecological adaptations, voice and behavior, distribution and classification. Lectures and weekly field trips to diverse habitats are included. Students are responsible for their own transportation. 

Prerequisite: one year of biological science, including BIO 101

BIO 148—Environmental Conservation
2 lec., 3 lab., 3 cr. (Spring)
This course will explore local, regional, national, and global issues of water quality and usage, such as types and sources of pollutants and their effects on humans and wildlife, surface and ground water overuse, and conservation of water resources. The expanding human population and its creation of resource conflicts and their resolutions are presented and discussed. Lab experiences will focus on monitoring the quality of nearby waterbodies, with the collection of real data that will be used by Orange County in their formulation of a watershed management plan. Students are responsible for their own transportation to off-campus sites. (GE 2)

BIO 201—Genetics
3 lec., 3 lab., 4 cr. (Fall)
This is a survey course which introduces students to the various fields of modern genetics. Topics include the diverse forms of inheritance, the structure of chromosomes, the nature of function of genes, the regulation of gene activity, mutation, biotechnology, and evolution. Special reference is made to human genetic disorders and cancer. Lab work includes observing the inheritance traits in fruit flies and plants, mapping genes to regions of chromosomes, transformation, conjugation, plasmid DNA isolation, DNA gel electrophoresis, and protein gel electrophoresis. Students will learn techniques for the handling of bacteria and bacteriophage. (GE 2)

Prerequisite: one year of biological science including BIO 101

BIO 202—Comparative Vertebrate Anatomy
3 lec., 3 lab., 4 cr. (Spring)
The morphology, physiology, evolutionary development, and adaptations of major organ systems in vertebrate animals are studied. Laboratory work includes histology and dissection of vertebrate animals.

Prerequisite: one year of biological science, including BIO 101

BIO 204—General Botany
3 lec., 3 lab., 4 cr. (Spring)
This is a general botany course that will study plant morphology and physiology of herbaceous and woody plant divisions within the plant kingdom as well as other related plant-like organisms. Topics covered include plant structure and function, plant growth, transpiration, photosynthesis, evolution, and reproductive cycles. The course concludes with the diversity of flowers and plant life. Laboratory work includes: microscopic examination of cells and tissues of typical plants, set up and monitoring of a hydroponics experiment that will utilize the scientific method and allow for continual plant growth observations. Students will also be assigned seeds from differing plant families to germinate and tend to until plant maturity. The course will also require a plant collection prepared by each student. (GE 2)

Prerequisite: one year of biological science, including BIO 101

BIO 205—General Ecology
3 lec., 3 lab., 4 cr. (Fall)
Ecology is the branch of science studying interactions and relationships between organisms and their environment. Topics include a study of individual, population, community and ecosystem ecology. Applications of ecology and the influence of humans on the biosphere will also be addressed. (GE 2)

Prerequisite: one year of college-level biological science including BIO 101 or permission of the instructor

BIO 210—Study of Biological Habitats
2 lec., 2 lab., 3 cr. (Fall/Spring)
A 10 to 15 day field experience in a marine, fresh water or terrestrial habitat at an off campus location. The ecological interactions of flora and fauna, with their habitats, are examined in detail. The Catskills, Maine, the Southwest Desert Biome, and Tropics are among the habitats studied. Fee charged for transportation and living expenses. (GE 2)

Prerequisite: One year of college biological science or permission of the instructor

Business
(Business Department)

BUS 101—Business Mathematics
3 cr. (Fall/Spring)
This course is required by various A.A.S. degrees in business and can be used as an elective in others. This course will emphasize the use of business terminology and the solving of business problems using decimals and percentages. Topics that are covered in this course include, but are not limited to, the following: gross and net payroll calculations; markup and markdown; trade discounts and cash discounts; simple interest, compound interest, and ordinary annuities.

Note: This course cannot be used to fulfill the Math/Science requirement for any degree.

Prerequisite: MAT 020 and RDG 080

BUS 103—Introduction to Business
3 cr. (Fall/Spring)
In this analysis of current business practices, the following topics are examined: a comparison of economic systems, forms of ownership, small business, social responsibility, management and organization, finance and investment, marketing, human resources, and international business. Topical issues are used to reinforce terminology and concepts. It is advised that business students take this course in their first semester as it is designed to provide a foundation for other business courses.
BUS 105—Business and Society

Emphasis is placed on current business economic policy issues as applied to the roles of government and the consumer. The course is structured to help both enlighten and sharpen the student's awareness of current economic problems and business issues in today's dynamic environment. Major emphasis is placed on inflation, unemployment, social security, health care, deficits, debt, global trade, and monetary and fiscal policy.

BUS 111—E-Business Principle

Electronic business provides a foundation for conducting business on the Internet worldwide. Electronic business involves the use of Internet technology to transform key business processes in order to maximize customer value and facilitate the exchange of goods and services between buyers and sellers. Topics include: business to business (B2B) and business to customer (B2C) electronic commerce; advertising, market research, privacy and security issues on the Internet. Emphasis is placed on real-world application and Internet exercises. Each student will complete an Internet project.

BUS 161—Computer Applications for Business

(Formerly CIT 101 Microcomputer Applications) This course focuses on how communication, decision-making and critical thinking can be facilitated by the use of Microsoft Office Software. Students learn to use the computer as a tool using Microsoft Office applications—Word, PowerPoint, Excel and Access. Concentration is on Excel and Word. The Internet is used as a research and communication tool. Students create and use a variety of spreadsheets, word processing documents, mail merge documents, databases, electronic presentations and reports as part of a simulated business environment. This course supports the concepts needed in other required business courses. This course requires computer use outside the classroom.

Prerequisite: MAT 020 or placement into MAT 101 or higher

BUS 201—Business Law 1

Emphasis is placed on the principles and language of the law governing business transactions. Topics include the background of law, the law of contracts, and the law of agency.

BUS 202—Business Law 2

This course deals with negotiable instruments; partnerships and corporations; and real and personal property.

Prerequisite: BUS 201

BUS 203—Business Communications

This course provides a managerial approach toward practice in solving business and professional communication problems, in making decisions involving selection and organization of content and in choosing an appropriate method for presentation of information. The use of technology and collaboration to enhance the effectiveness of business communications is explored. An oral presentation, written business report or proposal, and numerous letters are required.

BUS 205—Business Statistics

This course is required for various AS degrees in business. The course concentrates on using statistics for business world applications. The following topics are covered: descriptive statistics including measures of central tendency, and measures of dispersion, probability theory including binomial probabilities and the normal curve, inferential statistics including sample size determination, confidence intervals and hypothesis testing. Correlation and regression are also discussed. Particular attention is given to the analysis of results using real-world tools such as spreadsheets.

Prerequisites: BUS 161 or permission from the department. Test into MAT 102 or higher or successful completion of MAT 101.

BUS 207—Introduction to International Business

This course will introduce students to the challenges and problems involved in conducting business in global markets. Initial emphasis will be on concepts and theories of international trade, foreign investment and economic development. After an overview of international agencies and the international monetary system, students will consider the effects of financial economic, socio cultural, legal and political forces on the foreign business environment. Course concludes with an examination of international management practices in various areas, including marketing and labor relations.

Prerequisite: MAT 020 or placement into MAT 101 or higher

Chemistry

(Science, Engineering & Architecture Dept.)
(see also: Physical Science, Physics)

CHM 103—Applied Chemistry 1

A study of the fundamental concepts of inorganic chemistry and techniques to be used in clinical laboratories. Topics include the nature of matter, the mole concept, nomenclature, redox reactions, solutions, chemical equilibrium, acids and bases, and the gas laws. Laboratory work stresses skills and techniques useful to the laboratory technician. This course is closed to students who have completed or are currently enrolled in CHM 105, 106, 201 or 202. (GE 2)

Corequisite: MAT 101 or Math Placement test into MAT 102 or higher

CHM 104—Applied Chemistry 2

Continuation of CHM 103. Topics include acid base chemistry, nuclear chemistry, organic chemistry with an emphasis on nomenclature, simple chemical reactions, boiling points/ solubility in water, and organic functional families. Laboratory work emphasizes quantitative techniques. The use of periodicals is required. (GE 2)

Prerequisite: CHM 103 or permission of department chair
Chemistry / Chinese

CHM 105—General Chemistry 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer I)
A study of the fundamental principles of chemistry. Topics include: stoichiometry, gases, atomic structure, periodic properties, ionic and covalent bonding, Lewis structures, liquids and solids. Laboratory work is the application of these principles with emphasis on quantitative relationships. The keeping of a laboratory notebook is required. (GE 2)
Prerequisite: MAT 102 or Math Placement test into MAT 121

CHM 106—General Chemistry 2
3 lect., 3 labs., 4 cr. (Fall/Spring/Summer II)
Topics include: Chemical equilibrium, acid-base theories, solubility equilibria, thermochemistry, thermodynamics, chemical kinetics, nuclear reactions, electrochemistry, an introduction to organic chemistry and some representative biomolecules. Laboratory work includes the above topics, plus qualitative analysis of select cations, and chromatography. The keeping of a laboratory notebook and the writing of formal reports is emphasized. (GE 2)
Prerequisite: C of better in CHM 105

CHM 110—General and Biological Chemistry
3 cr. (Fall)
Fundamental concepts of inorganic, organic, and biological chemistry essential for a thorough understanding of principles and techniques in clinical dental hygiene and nutritional counseling.
Prerequisite: either high school Regents Chemistry, CHM 120, or permission of department chair

CHM 120—Elements of Chemistry and Physics
2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)
A survey of the fundamental principles of chemistry and related physical laws. Only elementary mathematics is used. Topics include: safety in the laboratory, measurement, atomic structure, the periodic table, chemical equations, solutions, electrolytes, acid-base reactions, pH, the gas laws, main organic functional groups, nuclear physics and radioisotopes, and an introduction to mechanics. Not open to students who have successfully completed CHM105, 106, 201 or 202. (GE 2)
Prerequisite: tested into MAT 101 or higher or completed MAT 020

CHM 201—Organic Chemistry 1
3 lect., 3 lab., 4 cr. (Fall)
An integrated presentation of the chemistry of aliphatic compounds with special emphasis on structure, nomenclature, mechanism and stereo-chemistry. Spectroscopy will be introduced. Laboratory work includes basic characterization techniques, basic synthesis, and keeping a laboratory notebook. (GE 2)
Prerequisite: C or better in CHM 106

CHM 202—Organic Chemistry 2
3 lect., 3 lab., 4 cr. (Spring)
Continuation of CHM 201. Topics include IR spectroscopy, NMR spectroscopy, and a continuation with the reactions of aliphatic and aromatic compounds, heterocyclic compounds and biologically active compounds. Laboratory work involves use of modern techniques in the synthesis, separation and purification of organic compounds, and keeping a laboratory notebook. (GE 2)
Prerequisite: CHM 201

Chinese
(Global Studies Department)

CHN 101—Elementary Chinese 1
3 cr. (Fall)
Elementary Chinese 1 is an introductory course in spoken and written Mandarin Chinese that aims to develop the student's vocabulary, pronunciation, and mastery of simple conversations. Using an interactive approach to build student confidence in listening, speaking, reading and writing the Chinese language, the course introduces students to the predominant dialect of Mainland China and at the same time offer students insight into Chinese culture.

CHN 102—Elementary Chinese 2
3 cr. (Spring)
Elementary Chinese 2 represents the second half of the introductory course in spoken and written Mandarin Chinese. In addition to providing students with knowledge of Chinese culture, the course aims to develop further the students' vocabulary, pronunciation, and mastery of simple conversation. The course will utilize an interactive approach to build student confidence in listening, speaking, reading, and writing the Chinese language.

CHN 201—Intermediate Chinese 1
3 cr. (Fall)
The Intermediate Chinese I course further develops the language and cultural foundations that were set in Elementary Chinese I & II, including vocabulary, pronunciation, mastery of simple conversations, and use of Chinese in social situations. An interactive and multimedia approach continues to be a key part of the effort to improve students' ability in listening, speaking, reading, and writing Chinese.

CHN 202—Intermediate Chinese 2
3 cr. (Spring)
Intermediate Chinese II is the second-semester continuation of Intermediate Chinese I. It further develops language and cultural experiences through listening, speaking, reading and writing activities. An intensified interactive and multimedia approach will be used to enhance student conversational and reading skills.
CHN 211—Chinese Conversation and Composition  3 cr. (Fall/Spring)

This course is designed for students who have completed Intermediate Chinese 1 and 2. It further develops linguistic command of modern Chinese and cultural experiences through listening, speaking, reading, and writing activities.

Prerequisite: CHN 201, CHN 202, or instructor placement.

College and Career Skills  
(Interdepartmental) (Interdisciplinary)

CCS 100—Career Planning  1 cr.

This course is designed to improve self-awareness and knowledge of the career decision-making process. Topics include self-exploration, career and career theory study, decision-making skills, information gathering from library and community resources, and the skills required to look for a job. Lecture, films, individual and group exercises, reading and writing assignments, and worksheet activities will be used to provide students with an in-depth career planning experience. For additional information contact Office of Career and Internship Services.

CCS 101—College Success Seminar  2 cr.

This is an interdisciplinary course designed to assist the student in making the transition to college, and to promote the development of a successful college experience. Students will determine ways in which they are responsible for their own experiences in college. Topics include: setting goals, managing time, identifying cognitive styles, understanding relationships, accessing college and community resources, employing critical thinking, planning careers, appreciating diversity, clarifying values, achieving wellness, and incorporating information resources in the college experience. For additional information contact the Advising and Counseling Center at 341-4070.

CCS 102—College Life Skills  1 cr.

This course is designed to bring together strategies and skills to increase the student’s probability of success in a wide variety of goals. Based on established theory and practice in many academic disciplines, students will have the opportunity to apply these techniques to the tasks they face in a college setting. This course is not open to students who have completed CCS 101—College Success Seminar.

Communication  
(Arts & Communication Department)

COM 101—Foundations of Communication  3 cr. (Fall/Spring/Summer)

This survey course is designed to introduce students to the theoretical and practical aspects of communication. Students examine the basic principles of the communication process including communication theory, perception, using verbal and nonverbal communication, and listening. Emphasis is placed on the application of these principles to interpersonal, small group, public, intercultural, and mass communication contexts. Students will also research and present formal speeches. (GE 10 when combined with ENG 101)

This course is one of two required to satisfy the Basic Communication General Education category.

COM 103—The Speaking Voice  3 cr. (Fall/Spring)

This introductory course in voice and speech is intended for but not limited to students who want to develop effective voice and speech habits, students who seek refinement of speech skills, and students who are studying English as a second language. The course provides intensive study of the theoretical bases of speech production, along with a range of practical experiences in achieving optimum speech potential. Emphasis is placed on articulation; developing a pleasant vocal quality; building adequate loudness; achieving effective vocal variation, pitch, and speaking rate; correcting pronunciation; and recognizing regional dialects. (GE 8)

COM 105—Media and Society  3 cr. (Fall/Spring)

A survey of American radio and television including historical and technological development and the effects of broadcasting and corresponding technologies on society. Programming concepts and industry structure, ethical considerations in broadcasting, current and future directions in broadcast technology, and the changing nature of this industry are also considered. (GE 7)

Prerequisite: ENG 101

COM 107—Introduction to Media Production  3 cr. (Fall/Spring)

Students will gain hands-on experience in remote television production. Specific areas of concentration include camera operations, digital editing, lighting, audio, scripting, editing for social media, programming and production concepts. (GE 8)

COM 108—Digital Video Post-Production  3 cr. (Spring)

An advanced, hands-on production course designed to deal with the various elements of television production. In addition to expanding the skills acquired in COM 107, emphasis is placed on developing and producing “ready for air” productions. Topics include an introduction to television graphics, set design, and advanced editing techniques. (GE 8)

Prerequisite: COM 107

COM 111—Digital Radio Production  2 lect., 2 lab, 3 credits (Fall/Spring)

This hands-on course will provide students with an overview of digital audio techniques. Students will learn how to use digital technology to effectively create radio programs that will air over the Internet on the SUNY Orange college radio website. It will explore the different types of radio production (PSAs, drops, teases, and vo-sots) using current digital audio tools, and will also show students how to cater a program to specific target audiences. Students must be able to work in a group production setting and have time available for on-campus projects. (GE 8)
relationships and affects all aspects of our lives. The goal of COM 203—Interpersonal Communication is to better understand interpersonal communication, the process of interpersonal communication and its impact on the development and maintenance of human relationships. This course will be to better understand interpersonal communication both as a concept and as something we experience in our everyday lives. This course is designed to assist students in becoming more thoroughly acquainted with the process of interpersonal communication and its impact on the development and maintenance of human relationships.

Prerequisite: COM 101

COM 205—Small Group Communication

3 cr. (Fall/Spring)

Human beings have always been creatures who collaborate. Our social nature results in our participation in groups and teams of all kinds. Communication makes it possible for groups and teams to exist and function. This introductory small group communication course examines the theory and practice in assuming membership and leadership roles in decision-making groups. The course places emphasis on both classic and current theories that focus on "how groups work" and practical information that explores "how to work in groups." Group process is investigated as it relates to the individual's ability to communicate, and thus interact more effectively.

Prerequisite: COM 101

COM 207—Public Speaking

3 cr. (Fall/Spring/Summer)

This course is designed to introduce students to the theoretical and practical requirements of different types of public presentations. Students will learn to prepare and deliver informative speeches, persuasive speeches and commemorative speeches. Special consideration will be given to audience analysis, research, message composition, delivery, building credibility, the effective use of language and using evidence and reasoning. In addition to developing their speaking skills, students will also learn how to successfully reduce and manage their speaking apprehension.

Prerequisite: COM 101

COM 209—Debate

3 cr. (Spring)

Emphasis is on methods of argumentation and advocacy including proposition analysis, building the case, developing the brief, rebuttal and refutation. Various forms of debate are introduced with directed experience and application. (GE 8)

Prerequisite: COM 101

COM 211—Intercultural Communication

3 cr. (Spring)

Students study different cultures and the unique ways in which they communicate verbally and non-verbally. Includes the interdisciplinary study of cross-cultural communication theories, practices, and case study analysis.

Prerequisite: COM 101

COM 213—Popular Culture and the Media

3 cr. (Fall/Spring)

While building on a foundational overview of the evolution of popular culture, this course examines the growth and influence of American popular culture through the latter half of the twentieth century to the present. In addition to examining various historical critiques of popular culture, students will explore the different levels of popular culture, the technological forms that deliver and influence its content, the economic and social underpinnings of popular culture, and the groups and sub-groups that create, borrow, and consume popular culture in the United States. Case studies in television, music, film and print will be offered.

Prerequisite: COM 101

COM 215—Conflict Resolution

3 cr. (Fall/Spring)

This course assists students in learning ways to resolve conflicts in various settings by examining communication skills in dealing with these conflicts.

Prerequisite: COM 101

COM 221—Cinematography

3 cr. (Fall/Spring)

Student will learn the art of Cinematography and how it relates to the "mise-en-scène" of a film. Specific areas of concentration include structuring a scene, lighting, video production, and editing. (GE 8)

Prerequisite: COM 107 or Permission of Instructor or Department Chair

COM 223—Screenwriting

3 cr. (Fall/Spring)

This course provides a foundation for understanding the constructs of story, character, plot/theme and script development. Students are exposed to methods of screenwriting for both television and film. The course will focus on the basics of structure and will offer...
opportunities to evaluate published work as well as original script development. (GE 8)
Prerequisite: ENG 101 and ENG 102

COM 225—Sound Design
2 lct., 2 lab., 3 cr. (Fall/Spring)
Students will gain experience in sound design and how it is incorporated into different media. Emphasis is placed on creation and manipulation of audio utilizing industry standard software. (GE 8)
Prerequisite: COM 107

COM 227—Visual Effects
2 lct., 2 lab., 3 cr. (Fall/Spring)
This course is designed to introduce the art and science of visual effects for broadcast and digital filmmaking. Emphasis is placed on visual effects workflow, video technology, image processing, creating mattes, tracking, and compositing using After Effects. (GE 8)
Prerequisite: COM 107 and COM 108

Computer Aided Drafting (CAD)
(Science, Engineering & Architecture Dept.)

CAD 101—Introduction to CAD
2 lct., 3 lab., 3 cr.
An introduction to drafting using Autocad software. Emphasis is placed on drafting, annotating and dimensioning two dimensional drawings and composing sheets to be plotted. Emphasis is also placed on training students to follow verbal directions. Achieving appropriate lineweight distinctions when plotting is stressed.
Prequisite: ARC 101, concurrent enrollment in or completed WRT 040
Prerequisite: MAT 020 or placement into MAT 101 or higher

CAD 102—CAD 2
1 lct., 2 lab., 2 cr.
This is an intermediate course using Autodesk software. Emphasis is placed on data manipulation and three dimensional drawing, both modeling and surfacing. Students will also use Revit software to produce drawings.
Prequisite: CAD 101

CAD 103—Management Information Systems
3 lct., 3 cr. (Fall/Spring)
An introductory course in Management Information Systems that includes such topics as organization and dissemination of business information, fundamentals of a computer system, storage and retrieval devices, the systems development life cycle, the Internet, and E-Commerce. Coverage will also include security, privacy and ethical issues as they relate to information systems.

CAD 104—Data Communications & Introduction to Networking
2 lct., 2 lab., 3 cr. (Fall/Spring)
This is an introductory course in data communications and networking. Topics, which are emphasized in this course, include communication mediums, communication equipment, network topologies, protocols, and the OSI model.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CAD 105—Introduction to C++ Programming
2 lct., 2 lab., 3 cr. (Fall/Spring)
This course involves classroom lectures and hands-on exposure to programming in C++. Topics include: Fundamental features of C++. Operators, Arrays and Loops, Pointers, Control Statements, Disk Files and Libraries, Structures for Lists, Sorting and Searching.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CAD 106—Computer Hardware and Software
3 lct., 3 lab., 4 cr. (Spring)
This course involves classroom lectures and hands-on exposure to advanced microcomputer software and hardware. Topics include: current hardware technology, microcomputer operating systems, fixed disk management, communications, and local area networks.
Prerequisite: MAT 020 or placement into MAT 101 or higher

Computer Information Technology (CIT)
(Computer Science and Technology Department)

CIT 100—Computer Literacy
3 lct., 3 cr. (Fall/Spring)
This course is designed to give the student an overview of computer technology, concepts, terminology, and the role of computers in society. There will be discussions of the social and ethical issues related to computers and the Internet. It will provide the student with research and critical thinking skills and introduce the student to relevant emerging technologies. The student will use word-processing, spreadsheets, database and presentation software when presenting their findings.
Prerequisite: MAT 010 or math placement into MAT 020 or higher

CIT 101—Microcomputer Applications
(For Business majors—see BUS 161 Computer Applications for Business)

CIT 102—Introduction to Visual Basic
2 lct., 2 lab., 3 cr. (Fall/Spring)
This is a hands-on computer programming course to introduce the student to the Visual Basic programming language. The student will use important programming tools such as flowcharting, pseudo code, testing data and testing modules and will learn how to use Visual Basic for both stand-alone programs and scripting modules for use on the Internet. Entering students should have a basic knowledge of microcomputers and Windows.
Prerequisite: MAT 020 or placement into MAT 101 or higher
Computer Information Technology

CIT 116—Networking 1

This course will introduce students to the organization and design of networks. It contains the background information students would need to take the second part of the CCNA certification; however, certification preparation is not included in this course. Topics include networking media, networking topologies, the OSI reference model, TCP/IP protocol suite, subnets, routers, switches, and basic networking concepts. Students will learn industry standards and terminology.

Prerequisite: C IT 105

CIT 117—Introduction to Unix/Linux

This is a computer-based course that will introduce the student to the UNIX and LINUX operating system. Assignments will include installation, basic operation, file management, administration, and configuration of LINUX. Various editions of UNIX/LINUX will be discussed. Students may wish to use this course to prepare for the CompTIA Linux+ certification.

Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 118—Operating Systems

This course is an overview of microcomputer operating systems, which includes installation, configuration, maintenance, and efficiency. Installation and management of peripheral devices such as hard disk, USB flash drives, floppy drives, printers, and monitors will be covered. Customizing the operating system environments, troubleshooting, evaluating system performance, and system utilities of operating systems are covered. Both client and server operating systems will be discussed including but not limited to Microsoft Windows (Server, XP, and Vista), Linux, and DOS. Students will learn industry standards and terminology.

Prerequisites: C IT 100—Computer Literacy

CIT 203—Networking 2

This course builds on the foundation developed in CIT 116—Networking 1 and extends the students’ capability to understand and manage data networks. It contains the background information students would need to take the second part of the CCNA certification; however, certification preparation is not included in this course. Topics include LAN and WAN design, VLANs, Frame Relay, ISDN, and network administration. Students will learn industry standards and terminology.

Prerequisites: C IT 116

CIT 206—Networking Security

This course is an introduction to networking security, which includes securing an organization’s critical data and systems from both internal and external threats. It contains the background information students would need to take the CompTIA's Security+ certification; however, certification preparation is not included in this course. Topics include general security concepts, security threats, authentication, attacks, malicious code, remote access, email considerations, and web security. Students will learn industry standards and terminology.

Prerequisites: C IT 116

CIT 208—Flash Programming

This course introduces the student to Macromedia Flash, which allows the student to add animations, special effects, sound and much more to their Web Pages. The student will learn how to create Flash objects. Assignments will provide experience in the use of Macromedia Flash.

Prerequisites: C IT 111, MAT 020 or placement into MAT 101 or higher

CIT 211—Systems Analysis

Emphasis is placed on feasibility studies and analysis of new system requirements. A semester-long project is required to be completed by small groups working outside of the classroom. The group is required to present a written and oral presentation at the end of the semester.

Prerequisite: C IT 103, MAT 020 or placement into MAT 101 or higher; prerequisite or concurrent enrollment in C IT 225

CIT 212—Systems Design

Emphasis is placed on designing a new system; file organization, hardware selection, programming specifications, installation requirements and follow-up procedures. A Case project is required to be completed by small groups. The Case Project will require a written and oral presentation at the end of the semester.

Prerequisite: C IT 211 and C IT 225

CIT 215—Web Site Management

This course introduces the student to web site management. The student will learn how to identify a project, build a team, plan the project, and develop a design. Assignments provide experience in management of projects, people, and process.

Prerequisite: C IT 111, MAT 020 or placement into MAT 101 or higher

CIT 216—Internet Security

This is a computer-based course which introduces the student to security issues as well as programming secure applications for the Internet. The student will cover topics including, general concepts, terminology, Java security, Servlet and JSP security, cryptography, and security for web services. Assignments provide experience in the use of the scripting/programming languages to build secure enterprise infrastructure containing Java-based enterprise applications.

Prerequisite: C IT 205

CIT 217—Introduction to Unix/Linux

This is a computer-based course that will introduce the student to the UNIX and LINUX operating system. Assignments will include installation, basic operation, file management, administration, and configuration of LINUX. Various editions of UNIX/LINUX will be
discussed. Students may wish to use this course to prepare for the CompTIA Linux+ certification.
Prerequisite: MAT 020 or placement into MAT 101 or higher

CIT 218—Systems Analysis & Design
2 lect., 2 lab., 3 cr. (Fall)
This course investigates the development of contemporary information systems. Emphasis is placed on feasibility studies and analysis of new system requirements, designing a new system, hardware selection, programming specific, installation requirements, and follow-up procedures. A case project is required to be completed by small groups. The case project will require a written and oral presentation at the end of the semester.
Prerequisite: MAT 020 or placement in MAT 101 or higher
Prerequisite or concurrent enrollment in CIT 225

CIT 225—Database Fundamentals & Design
2 lect., 2 lab., 3 cr. (Fall)
This course presents fundamental concepts of database design. Topics include input/output processing, file organization, relational database requirements, SQL, QBE, switchboard/menu design, applications development, data security, and automating tasks with macros. This course involves a semester-long group project.
Prerequisite: CIT 103 or CIT 105 or CIT 117 or concurrent enrollment or placement by department, and MAT 020 or placement into MAT 101 or higher

CIT 228—System Administration
2 lect., 2 lab., 3 cr. (Spring)
Introduces the students to Windows and Linux system administration and related topics, including installation, configuration, user management, file system management and security, hardware configuration, network configuration, firewalls, monitoring, and application installations. Students will participate in lecture as well as hands on labs to gain practical knowledge in various aspects of day to day system administration.
Prerequisite: CIT 117 (formerly CIT 217)

CIT 230—CIT Internship
3 cr. (Spring)
Students are assigned to a work study experience in an appropriate technology field at an off-campus site or provided with on-campus project work. The particular interests of the student in the field are considered in arranging the field experience. Enrollment by permission of the department chair.

Computer Science
(Computer Science and Technology Department)
The following courses do not satisfy the laboratory science requirement for the Associate Degrees. These courses will satisfy the math requirement for the A.A. and A.S. degrees.

CSC 101—Computer Science 1
3 lect., 3 lab., 4 cr. (Spring)
An introduction to structured programming using the C++ language. Students will be presented with methodologies for developing, testing and communicating plans for computer solutions of practical problems. Topics include top down programming, flow block diagrams, input/output structures, choice and loop structures, functions, strings, streams and stream processing and an introduction to classes. While designed as a first course for Computer Science majors, it would be open to any student who might desire to learn programming techniques.
This course fulfills the math requirement for the A.S. degree
Prerequisite: math placement of MAT 121 or higher

CSC 102—Computer Science 2
3 lect., 3 lab., 4 cr. (Fall)
A continuation of structured programming using the Java language. Students will design and test algorithms for computer solutions. Topics include user defined data classes, arrays, files, algorithm analysis and software engineering concepts.
This course fulfills the math requirement for the A.S. degree
Prerequisite: CSC 101 or permission of the department chair

CSC 108—Web Programming 1
2 lect., 2 lab., 3 cr. (Spring)
This is a computer based course that introduces the student to client-sided Internet web page program-ming. The student will cover topics including, general concepts, terminology, XHTML, JavaScript, DHTML, and XML. Assignments provide experience in the use of the scripting/programming languages utilized to create web pages.
Prerequisites: CIT 111, MAT 020 or placement into MAT 101 or higher

CSC 130—Computers and Computing
2 lect., 2 lab., 3 cr. (Fall/Spring)
Designed for students who desire an introduction to computers and computer programming, with "hands on" lab experience. Object oriented programming (Visual Basic) is taught using microcomputers with applications drawn from such fields as education, mathematics, and science.
Prerequisite: MAT 102 or by permission of instructor

CSC 138—Scripting
2 lect., 2 lab., 3 cr. (Fall/Spring)
Students will be introduced to basic scripting in a current language (e.g. Python). Topics include the interpreter, variables and expressions, conditional branching, loops, objects, and basic data structures. Laboratory assignments will utilize problem-solving techniques to develop complete scripts and concentrate on practical solutions for a variety of administrative and programming tasks.

CSC 201—Data Structures
2 lect., 3 lab., 3 cr. (Spring)
A course in Data Structures. Arrays and records are reviewed and abstract data structures and their implementations are introduced using recursion and dynamic storage where appropriate. Structures studied include linked lists, stacks, queues, trees, and graphs.
This course fulfills the math requirement for the A.S. degree
Prerequisite: CSC 102
CSC 204—Computer Organization and Assembly Language
2 lect., 2 lab., 3 cr. (Fall)
An introduction to the organization of digital computers. Topics include information representation, system architecture, instruction sets, addressing modes, input/output techniques, and subroutine linkage considerations. Students write Intel 80286 microprocessor assembly language programs. Prerequisite: CSC 101

CSC 205—Web Programming 2
2 lect., 2 lab., 3 cr. (Fall)
This is a computer based course which introduces the student to server-sided Internet web page programming. The student will cover topics including, general concepts, terminology, IIS, Apache, SQL, ASP, XML, Perl, CGI, and PHP. Assignments provide experience in the use of the scripting / programming languages utilized to create interactive web pages. Prerequisite: CIT 108

CSC 227—JavaScript
2 lect., 2 lab., 3 cr.
Students will be introduced to the JavaScript programming language. Topics include variables and expressions; conditional branching; loops; objects; and basic data structures. This class will concentrate on acquiring a working knowledge of the Document Object Model (DOM), and developing interactive web components. JavaScript libraries will be reviewed. A JavaScript framework will also be introduced, and server-side JavaScript will be discussed. Laboratory assignments will concentrate on practical strategies for interactive website development. Prerequisite: CIT 111, CIT 138

CSC 232—Mobile Application Development
2 lect., 2 lab., 3 cr.
This course introduces students to programming technologies, design, and development related to mobile applications for smartphones and tablets. Topics include mobile device architecture, programming languages, software engineering, user interface design, and app distribution. Students will learn how to build apps from start to finish, utilize tools that programmer teams use, proper version control, and collaborative programming. This is a project-based course. Prerequisite: CSC 101

Criminal Justice
(Criminal Justice Department)

CRJ 103—Understanding the Juvenile Offender
3 cr.
This course studies the causes, types and prevention of juvenile delinquency. The legal aspects and responsibilities in handling the juvenile offender are thoroughly analyzed and discussed. The course features an overview of the history and theoretical development of the American juvenile justice system as well as the treatment of the juvenile offender. Fulfills category C.

CRJ 105—Police-Community Relations
3 cr.
The course focuses on the issues relative to policing in a multi-cultural society. The course includes an analysis of prejudice and discrimination as sources of tension between law enforcement officials and private citizens. The role of the Police and the diverse communities they serve is thoroughly explored and critically assessed. Fulfills category C.

CRJ 106—Patrol Operations
3 cr.
This course explores the purpose, methods, and types of police patrol and operational functions. The course provides an overview of police administration, police patrol and analyzes the relevant issues that impact modern police systems. The course will explore the origins of policing and compare and contrast the major eras of policing with particular emphasis on community policing, problem solving and the Compstat process. Prerequisite/Corequisite: CRJ 101

CRJ 107—Industrial and Private Security
3 cr.
This course provides an overview of industrial and private security systems. The methods, procedures and techniques that are utilized in the area of private security are studied and reviewed. Security issues such as loss prevention, disaster preparation, accident control, identity theft, cyber security, fire prevention, business continuity and homeland security are discussed and evaluated. The course provides an in depth analysis and definition relative to the organizational structure of security organizations, proprietary organizations, and contract organizations. Security problems at the industrial, retail and government level are analyzed and assessed.

CRJ 109—Critical Issues in Law Enforcement
3 cr.
This is an overview of current issues in law enforcement that combines both the social science and legal approach to controversial issues in criminal justice and criminology. The course analyzes current issues in law enforcement such as police stress, corruption, brutality, police response to diverse communities, search and seizure, gun control, sentencing, hate groups, terrorism and homeland security.

CRJ 111—I criminology
3 cr.
This course explores the development of criminology as a discipline. Contemporary criminological theories relative to the causes of criminal behavior and victimization are studied. Students are expected to study these sociological, psychological and anthropological explanations of crime and critically discuss their relevancy to the modern world.
CRJ 113—Corrections, Probation and Parole
3 cr.
This course provides a study of the structure and theory of correctional systems. A comprehensive study of correctional theory and the development of the prevention and treatment of adult and juvenile offenders. The course provides an overview of probation, parole, state training schools and community based correctional systems.
Prerequisite: CRJ 101 or permission of department chair

CRJ 115—Constitutional Law and Criminal Procedure
3 cr.
This course provides an analysis of the historical development of the relationship of the states to the Bill of Rights. The effect of the due process clause of the Fourteenth Amendment on the application of the Bill of rights to the states is examined through a study of the leading Supreme Court decisions relating to criminal justice. The focus will be on the 1st, 4th, 5th, 6th, 8th, and 14th Amendments to the U.S. Constitution, including their historical development and application to the states and their current effect on criminal procedure. Students will review selected court decisions to aid with their understanding of the law.
Prerequisite: CRJ 101

CRJ 210—Terrorism and Society
3 cr. (Fall)
This course explores the origins and motivations of modern day terrorists and their activities. Students will examine the societal impact that terrorism has on individuals, communities and nations and will conduct assessments of contemporary terrorist threat levels. Institutional strategies to prevent, deter, mitigate, and respond to terrorist acts will also be scrutinized and students will critically assess the legal, financial and logistical challenges that confront various counterterrorist efforts.
Prerequisite: This course is open to students who have taken Criminal Justice 101 or Sociology 101.

CRJ 211—Criminal Law
3 cr.
This course presents an overview of the philosophical development of our system of criminal law. The course focuses on the definitions and classification of crimes, criminal liability, and the development of controversial issues in criminal law such as the insanity defense, culpability, and jurisdiction etc. The course utilizes actual court cases to illustrate major legal concepts.
Prerequisite: CRJ 101

CRJ 213—Police Organization and Administration
3 cr. (Spring)
This course comprises an analysis of the organizational structure of municipal police departments including an examination of the major divisional components and operational units. The course will focus on the major organizational, managerial and supervisory principles of administration as they relate to law enforcement agencies. The course will also review and critically assess police organizational ethics, corruption, police brutality, investigation and training.
Prerequisite: CRJ 101

CRJ 215—Criminal Investigation 1
3 cr.
This course provides an overview and introduction to basic criminal investigations. The course will provide instruction on proper note taking, report writing, interviewing techniques, crime scene searches, suspect identification, crime scene photography, composite sketch drawing, and court preparation. The investigative function and the relationship between investigators and the District Attorney are explored. Legal issues relative to the investigative function such as search and seizure, Miranda warnings, informant processing, undercover operations, wiretapping and surveillance are discussed and evaluated.
Prerequisite: completion or concurrent enrollment CRJ 101

CRJ 216—Criminal Investigation 2
3 cr.
The investigation of specific crimes and the exploration of methods utilized in specific criminal investigations. The course will explore specific crimes such as arson, narcotics, sex crimes, child abuse, domestic violence, assaults, burglary, larceny, homicide, auto theft, organized crime, domestic and transnational terrorist groups and cyber investigations. An emphasis on the types of evidence that are critical to the successful investigation of the above listed crimes will be thoroughly reviewed and analyzed. Court room preparation of these specific investigations will be thoroughly presented and discussed.
Prerequisite/Corequisite: CRJ 215

CRJ 226—Criminalistics
2 lect., 2 lab., 3 cr.
This course emphasizes the scientific investigation of crime. The importance of crime scene preservation and laboratory examination of forensic evidence as critical steps in the investigative process are emphasized. The processing of evidence in the field and laboratory are performed during in-class lectures and in laboratory settings. Specific areas that will be covered during this class include crime scene searches; recording and securing forensic evidence; developing and recording latent fingerprints; examination of body fluids, hairs and fibers; and the microscopic examination of evidence.
Prerequisite: CRJ 101, CRJ 215

CRJ 230—Criminal Justice Internship
3 cr. (Spring)
This course provides students with an opportunity to acquire practical “hands-on” experience under the direct supervision of professionals in a field or area which interests them. The internship affords opportunities for academically related field work in a wide range of criminal justice, correctional, government agencies, social service programs, cultural organizations, businesses, research and non-profit institutions.
The internship requires 80 hours of supervised field work and 15 hours of class work for a total of 95 hours per semester.

**Prerequisite:** Student must be a criminal justice major, have completed 30 credits or more, have a CGPA of 2.5 or higher and have the permission of the department chair.

---

**Cyber Security**

(Computer Science and Technology Department)

**CFR 221—Computer Forensics**

2 lect., 2 lab; 3 cr.

This course will introduce the student to the accepted methods of properly conducting a computer forensics investigation, beginning with a discussion of ethics while mapping to the objectives of the International Association of Computer Investigative Specialists (IACIS) certification. Students should have a working knowledge of hardware and operating systems (OSs) to maximize their success on projects and exercises throughout the text. Specific topics covered include: computer forensics and investigations as a profession, understanding computer investigations, the investigator’s office and laboratory, current computer forensics tools, processing crime and incident scenes, digital evidence controls, working with windows and DOS systems, Macintosh and Linux boot processes and disk structures, data acquisition, computer forensic analysis, recovering image files, network forensics, e-mail investigations.

**Prerequisite:** CIT 112, CIT 118

**CFR 222—Network Forensics**

2 lect., 2 lab, 3 cr.

This course will introduce the student to the accepted methods of properly conducting a forensics investigation over a network. Students should have a working knowledge of networks, hardware, and operating systems (OSs) to maximize their success on projects and exercises throughout the text. Specific topics covered include: network forensics investigation overview, the Microsoft network structure, processing crime and incident scenes, digital evidence controls, data acquisition, forensic analysis, recovering image files, the registry structure, registry evidence, presenting the results.

**Prerequisite:** CIT 112, CIT 118

**CSS 223—Information Security**

3 cr.

This course is designed to familiarize the student with the foundation utilized by most organizations in developing a management framework that will implement a secure, predictable and dependable system throughout the organization. In addition, it will help students preparing to take the Certified Information Systems Security Professional Exam (CISSP). This is a first course in the introduction and study of Information security.

A broad view of the field is provided along with enough detail to facilitate an understanding of the topic as a whole. All pertinent terminology is covered, along with the field's history and an overview of how to implement and manage an information security plan.

Readings and cases are provided to further enable a student to master the text material while bringing realistic security issues to the forefront. Readings from current periodicals in the information security will also be reviewed.

**Prerequisite:** CIT 116

**CSS 224—Network Perimeter Security**

2 lect., 2 lab, 3 cr.

This course introduces firewalls and the network security components that can work together to provide an in-depth defensive perimeter around a local area network. Accordingly, this course examines firewalls in context with the other elements needed for effective perimeter security as well as security within a network. These include packet filtering, authentication, proxy servers, encryption, bastion hosts, virtual private networks, log file maintenance, and intrusion detection systems. Different firewall configurations will also be examined.

**Prerequisite:** CIT 203

**CSS 226—Cyber Crime Investigations**

2 lect., 2 lab, 3 cr.

This course is designed to provide the student with foundational knowledge of common techniques used by most cyber crime investigators. Procedural approaches and documentation will be covered. These procedures identify the accepted approaches to protect a digital crime scene/incident, process the collected data/information, ensure and document the integrity of the entire process. The cyber crime investigative procedures will be scrutinized to identify potential problems. The student will be instructed in how the procedures and outcomes of those procedures create supporting documentation for a legal case.

**Prerequisite or concurrent enrollment in CFR 222**

---

**Dental Hygiene**

(Dental Hygiene Department)

**NOTE:** Students must comply with all policies, procedures, and regulations of the internship fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

**Note:** A minimum grade of C (75%) is required in all DNT courses to maintain enrollment in the program.

**DNT 101—Preventive Oral Health Services 1**

2 lect., 9 lab., 5 cr. (Fall)

An introduction to the profession of dental hygiene and to the scientific principles of practice are core topics presented in this preclinical course. Didactic concepts and clinical techniques are integrated and applied in laboratory and clinical practice. Fundamental patient assessment procedures, instrumentation skills and infection control protocols are the major foundational concepts presented. These will prepare the novice clinician to begin the provision of dental hygiene services to patients in the clinical setting. [R-1]

Corequisites: ENG 101, BIO 115, CHM 110, DNT 103, CPR certification

**DNT 102—Preventive Oral Health Services 2**

2 lect., 9 lab., 5 cr. (Spring)

The emphasis of this course is on the role of the dental hygienist in the care of medically compromised patients
Dental Hygiene

DNT 106—Oral Health Education
2 cr. (Spring)

Students develop skills in health promotion and disease prevention, focused primarily at the clinical, private practice setting. Topics include principles of patient education, communication, psychology of oral health care, patient management, evidence based decision making (EBDM), cultural competence, oral physiotherapy, patient assessment for preventive education and treatment, tobacco cessation and prevention, therapeutics and topics in advanced caries prevention. Didactic concepts and clinical application are coordinated with clinical practice. Specific health education/preventive topics are assigned.

Prerequisites: DNT 101, BIO 115, CHM 110, DNT 103
Corequisites: DNT 102, DNT 104, DNT 108, ENG 102, MLT 106

Prerequisites: CPR certification, DNT 101, BIO 115, CHM 110, DNT 103
Corequisites: ENG 102, DNT 104, DNT 106, DNT 108, MLT 106

DNT 103—Maxillofacial Anatomy and Oral Histology
3 lect., 3 lab., 4 cr. (Fall)

This course includes the study of the anatomy, embryology, histology and function of the structures of the orofacial complex and neck as foundational knowledge for the study of dental hygiene. Detailed anatomy of the teeth and periodontium and of local anesthesia is provided. Other topics include osteology, musculature, circulation, lymphatics, glands, and cranial nerves of the head and neck region.

Corequisites: ENG 101, DNT 101, BIO 115, CHM 110

DNT 104—Dental Radiology
2 lect., 3 lab., 3 cr. (Spring)

Dental Radiology is the application of the principles of radiology in the study of the teeth and their surrounding structures. The students will study in lecture the history and principles of radiation physics, radiation biology, radiation safety, radiographic quality assurance, image theory, and alternative imaging modalities. The laboratory will provide demonstrations and practical application in the fundamentals of intraoral and extraoral radiographic techniques, processing, mounting and interpretation. Throughout the dental hygiene program, students will continue to integrate both didactic and preclinical skills by practical application in the clinic and extended clinical settings. [R-1]

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 103
Corequisites: ENG 102, DNT 102, DNT 106, DNT 108, MLT 106

Prerequisites: CPR certification, DNT 101, DNT 102, DNT 104, DNT 106, DNT 108, MLT 106

DNT 108—Pharmacology
2 cr. (Spring)

The composition, dosage, therapeutic action, use and effects of drugs related to clinical dentistry and dental hygiene are studied. This course is designed to provide the dental hygiene student with the necessary knowledge of pharmacology to assess for medical illnesses, adverse reactions and drug interactions that may interfere with dental treatment and oral health care. The dental hygienist will use this knowledge to work in concert with the dentist to provide appropriate therapy to the patient.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 103
Corequisites: DNT 102, DNT 104, DNT 106, ENG 102, MLT 106

DNT 110—Pain Management in Dentistry
2 lect., 2 lab., 2 cr. (Summer 1)

This course is designed to teach the management of pain control through the administration of local anesthetic agents and nitrous oxide/oxygen for conscious sedation. Topics for the course include: related anatomy and physiology, behavioral considerations, pharmacology of the drugs including indications/contraindications for their usage and the treatment of possible complications and/or medical emergencies.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 103, DNT 104, DNT 106, DNT 108, MLT 106, CPR certification

Prerequisites: CPR certification, DNT 101, DNT 102, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106

DNT 201—Preventive Oral Health Services 3
1 lect., 15 lab., 5 cr. (Fall)

Advanced dental hygiene theory and skills are presented in this course and integrated into the clinical experience. Periodontal instrumentation skills including ultrasonic scaling, implant care, and advanced assessment procedures are covered. Emphasis is placed on the implementation and evaluation phases of the Dental Hygiene Process of Care. The role of the dental hygienist in the dental specialty areas of prosthodontics and orthodontics is also included. The student will continue to develop clinical skills, advancing towards beginner level. [R-1]

Prerequisites: DNT 102, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106, CPR certification
Corequisites: BIO 125, DNT 203, DNT 205, DNT 207

Prerequisites: DNT 102, DNT 104, DNT 106, DNT 110, DNT 108, MLT 106, CPR certification
Corequisites: BIO 125, DNT 203, DNT 205, DNT 207

DNT 202—Preventive Oral Health Services 4
1 lect., 15 labs., 5 cr. (Spring)

This course is designed to prepare the student to begin dental hygiene practice. The major topics include: Ethical and Legal Considerations of Dental Hygiene, Licensure, Professional Development, Seeking Employment and Practice Management. The clinical experiences emphasize the Evaluation and Documentation phases of the Dental Hygiene Process of Care. Students will continue to develop the knowledge, skills and attitudes necessary to achieve clinical competency. [R-1]

Prerequisites: BIO 125, DNT 110, DNT 201, DNT 108, DNT 203, DNT 205, DNT 207, CPR certification
Corequisites: COM 101, DNT 206, PSY 111, SOC 101
DNT 203—Oral Pathology

2 cr. (Fall)

The study of the branches of biologic sciences dealing with the nature of disease, its causes, processes and effects with an emphasis on the manifestations of the disease in the oral cavity. This lecture course integrates both basic and clinical sciences to prepare the dental hygienist to detect, identify, describe and differentiate from normal any abnormalities found in the head and neck region.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 103, DNT 104, DNT 106, DNT 108, DNT 110, MLT 106

Corequisites: B1O 125, DNT 201, DNT 203, DNT 205

DNT 205—Periodontology

2 cr. (Fall)

This course is designed to study the dental specialty of Periodontics and the role of the dental hygienist in the prevention, detection, treatment and maintenance of periodontal diseases. The content of the lectures will be applied to the clinical process of dental hygiene care including assessment, treatment planning, non-surgical periodontal instrumentation, and evaluation of the periodontium during supportive periodontal therapy.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 103, DNT 104, DNT 106, DNT 108, DNT 110, MLT 106

Corequisites: B1O 125, DNT 201, DNT 205, DNT 207

DNT 206—Community Dental Health

1 lect., 3 lab., 2 cr. (Spring)

Students gain understanding of health promotion and disease prevention at the community level. The course focuses on knowledge and skills necessary for various roles in community oral health. Topics include basic epidemiology, assessment tools, dental health education strategies, basic statistical and research concepts, evidence based decision making (EBDM), the evaluation of dental literature, application of disease prevention and control principles at the community level, cultural competence issues and access to care. Participation in field experience is required.

Prerequisite: BIO 125, DNT 108, DNT 201, DNT 203, DNT 205, DNT 100, DNT 207

Corequisite: COM 101, PSY 111, SOC 101, DNT 202

DNT 207—Dental Bio-Materials and Advanced Functions

2 lect., 3 lab., 3 cr. (Fall)

The study of structure, properties, uses, manipulation and care of materials used in the prevention and treatment of oral disease. This course will prepare the student to perform to clinical proficiency those functions recognized by the New York State Dental Practice Act for Dental Hygienists. Other functions will be limited to conceptual proficiency. Emphasis will be placed upon the development of independent and inter-dependent decision making skills and applications of these skills to the successful manipulation of dental materials.

Prerequisites: BIO 115, CHM 110, DNT 101, DNT 102, DNT 103, DNT 104, DNT 110, DNT 108, MLT 106

Corequisite: BIO 125, DNT 201, DNT 203, DNT 205

---

Economics

(Global Studies Department)

ECO 100—Introduction to Economics

3 cr. (Fall/Spring)

This is an introductory level survey course of basic economics for non-Business majors. The course will provide the foundation for higher-level economic courses. Concepts to be investigated include consumer and producer behavior; the relationship between supply, demand, and profit; the role of government in the economy; and the importance of market mechanisms in determining income and wealth distribution. International economic issues such as international trade; global warming; and global competition will also be discussed. Fulfills category A. (GE 3)

Please note: This course may be applicable to several programs. Consult your advisor and refer to the SUNY Orange catalog (which contains additional information relating to this course and to your program) to ensure that this course is applicable to your chosen program of study

ECO 201—Macro-Economics

3 cr. (Fall/Spring)

Topics include the central problems of every economic system, individual and family income, business organization and income, fiscal and monetary policy, the national income measurement, the banking system, the business cycle, international economics, and the economic role of government. Fulfills category A. (GE 3)

ECO 202—Micro-Economics

3 cr. (Fall/Spring)

Topics include alternative economic systems, wages, interest rent and profits in our society, economic theory of business costs and revenues, determination of price by the forces of supply and demand, the psychological factors in economic behavior, ethics as related to our economic system and the nature of competition in contemporary American business. Fulfills category A. (GE 3)

ECO 203—Economic Development

3 cr. (Fall/Spring)

Economic development is concerned with the efficient allocation of science resources in relationship to sustained economic growth over time with emphasis on such underdeveloped regions of the world as Africa, Asia, and Latin America. The economic, political, historical, cultural and geographical factors which have contributed to economic underdevelopment will be analyzed, and these mechanisms, necessary to bring about improvements for the impoverished populations of these regions will be stressed. Fulfills category A.

Prerequisite: ECO 202 or ECO 201

---

Education

(Education Department)

NOTE: Students must comply with all policies, procedures, and regulations of the fieldwork site. Failure to do so will result in immediate removal from the fieldwork site and failure of the course.
A grade of C (2.00) or better is required in all EDU courses for progression in the program and graduation with an A.A.S. or Certificate in Early Childhood.

EDU 101—Child Development 3 cr. (Fall/Spring)
This course provides study of human development and behavior from infancy through early childhood. Topics include: physical, cognitive, social, emotional, and language development; biological and experiential influences on development; development exceptionalities; and relevant child development and learning theories. Up to four (4) hours of directed observation beyond classroom hours are required. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 103—Introduction to Early Childhood / Child Development Education 3 cr. (Fall/Spring)
For JRTEP students or students in A.A./A.S. Liberal Arts with Foundations of Education/Teaching Careers. This course offers a broad look at the historical, philosophical, and cultural roots of education in America, focusing on early childhood and childhood, birth through sixth grade. Basics of child development, learning theories, appropriate environments and curricula, educational issues and trends, diversity, multiculturalism, inclusion, family partnership, and the multi-faceted role of the early childhood/childhood professional will be addressed. The NYS Learning Standards and NAEYC guidelines will be included. Twenty (20) hours of guided field work at two diverse settings is required. A grade of B- or better is required for SUNY New Paltz. 
Corequisite: ENG 101

EDU 105—Preparing to Teach Young Children 2 cr. (Fall/Spring)
This course addresses the skills and concepts necessary for the classroom teacher of young children. Emphasis is placed on putting theory into practice. Such topics as daily schedule, lesson planning, transitions, balancing individual and small group work, communication strategies, classroom guidance, evaluation techniques, and portfolio preparation will be included. Personal learning and teaching styles, one's philosophy of excellent education, and developing as a professional will also be examined. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 107—Protecting Children’s Well-Being 1 cr. (Fall/Spring)
This course provides training in both the identification and reporting of child abuse and maltreatment, and in school violence prevention and intervention. Intended primarily for school administrators, teachers, instructional aides, and child care professionals, other mandated reporter categories for whom this course may apply include: all health practitioners, EMTs, foster parents, social workers, law enforcement, probation and parole officers, film and photographic print processors, clergy, firefighters, animal control and humane society officers, child visitation monitors, and others. This course also provides training in DASA (Dignity for All Students Act). Upon successful completion of the course, students will receive State Education Department Certificate forms for use in documenting their satisfactory course work.

A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 109—Language and Literacy Development in the Young Child 3 cr. (Fall/Spring)
This course presents the progressive, interwoven development in early childhood of the four language arts: listening, speaking, reading, and writing. Both the natural processes of language arts development and the educator's role in providing a supportive environment will be discussed. Adaptation suggestions for children with disabilities, English as an additional language, or limited literacy experiences will be explored. Learning appropriate techniques will utilize major authors, illustrators, and examples of young children's literature. A grade of B- or better is required for SUNY New Paltz. A grade of C is required to continue and graduate in the A.A.S./Certificate program.
Prerequisite: ENG 101

EDU 111—Childhood Health and Safety 3 cr. (Fall, Spring)
Topics include: physical and emotional needs of infants and children; development of healthy physical self-concept; chronic and communicable diseases, immunizations; first aid; teething and dental health; accident prevention; recognition and prevention of sexual abuse; identifying problems and screening techniques for vision and hearing; nutritional needs; appropriate menus and meal planning. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

EDU 201—Observation and Assessment 2 lect., 2 lab., 3 cr. (Fall/Spring)
This interactive course combines the observation and assessment of children, preschool through second grade, in all developmental areas. By using a variety of professional techniques and tools during weekly field work, students will objectively and accurately observe and record children's behavior. Corresponding theory, appropriate practices, environments, and curricula will be related to field work. Use of NAEC guidelines will be included. Twenty-four (24) hours of field work in diverse settings is required. A grade of B- or better is required for SUNY New Paltz. A grade of C or better is required in the A.A.S./Certificate program. 
Prerequisite: EDU 101, EDU 102, PSY 111

EDU 202—Infant and Toddler Development and Curriculum 2 lect., 2 lab., 3 cr. (Spring)
Study, education, and care of children, pre-natal through age three, according to basic development principles and current research will be explored. Techniques to stimulate cognitive, language, physical, social, and emotional growth, and to create appropriate environments, curricula, and care will be studied. Preparation for the diverse roles of the infant/toddler professional are included. Guidelines from NAEC are used. Thirty-two (32) hours of field work in diverse settings is required. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program. 
Prerequisite: EDU 101, EDU 111, PSY 111 
Corequisite: EDU 102
EDU 203—Child Care Curriculum Development and Field Experience 1

The student gains experience in early childhood through supervised participation in local facilities where, over the course of a year, they take increasing responsibility in the various roles of early childhood professionals. In a weekly seminar/lecture, students discuss their field experiences, and learn to develop early child education curricula including these areas: Art and Creative Experiences, Music, Movement, Physical Activities, Creative Play, Language Arts, Beyond Books, Discipline and Classroom Management*. A grade of C is required to continue and graduate in the A.A.S. program.

Prerequisite: EDU 101, EDU 102, EDU 105, EDU 111 and permission of instructor/coordinator Corequisite: EDU 201

*NOTE: As per state regulations, students in EDU 203 and EDU 204 are required to provide documentation of a satisfactory physical examination, negative tuberculin test, fingerprinting through the Office of Children and Family Services, and clearance through the State Central Register.

EDU 204—Child Care Curriculum Development and Field Experience 2

A continuation of EDU 203 including Blocks, Science, Math, Culturally Inclusive Classrooms, Special Needs Populations, Modern Issues, Transitions, Thematic Webs, Parent Interactions, Professional Preparation.* Requires local site observations beyond college attendance. A grade of C or better is required to continue and graduate in the A.A.S. program.

Prerequisite: EDU 109 and EDU 203

*NOTE: As per state regulations, students in EDU 203 and EDU 204 are required to provide documentation of a satisfactory physical examination, negative tuberculin test, fingerprinting through the Office of Children and Family Services, and clearance through the State Central Register.

EDU 206—Administration and Management of Child Care Centers

This course is designed to acquaint advanced students in the early childhood curriculum with practical matters involved in establishing and maintaining an early childhood facility. It includes topics such as determining the need for, and structure of, an early childhood facility; legal requirements for child care centers and staff; child selection and grouping; staff recruitment, development and evaluation; funding and budget management; interactions with parents and community organizations; and an introduction to management techniques. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

Prerequisite: EDU 101, EDU 102, EDU 201, EDU 203

EDU 207—Social and Philosophical Foundations of Education in America

This course examines the social, cultural, philosophical, historical, and ethical and practical aspects of education in the United States. Current issues, such as economics and school equity, areas of bias, school achievement, policies, practices and reform initiatives will be addressed. Ten hours of field observation beyond the college classroom are required. Two meetings of field experience reflection groups will be scheduled in addition to college classroom hours. Location and time of these meetings will be student-scheduled to accommodate the groups’ needs. A grade of C or better is required for SUNY New Paltz.

Prerequisites: ENG 101

EDU 208—Home, School and Community: Families and Teachers as Partners

This course will address issues in communication, barriers to effective dialogue, active listening, conflict resolution, and classroom expectations of families and teachers. Parenting styles, skills and community, as well as local resources and referrals will be considered. Diversity and multicultural awareness and importance will be stressed and celebrated. A grade of C or better is required to continue and graduate in the A.A.S./Certificate program.

Prerequisite: EDU 101

Pre/Corequisite: EDU 102

Electrical Technology—Telecommunications

(Computer Science and Technology Department)

EET 104—Digital Electronics 1

This course begins with a basic understanding of digital fundamentals such as binary and hex numbers, basic logic functions, Boolean Algebra, logic minimization and simple combinational logic circuits. Additional topics such as electrical characteristics of TTL and CMOS logic are discussed. The student will then explore a few basic designs using CAD programs. The student will explore combinational logic functions, arithmetic circuits, sequential logic, programmable logic architectures, counters and shift registers, state machine design, logic DAC and ADC. The student will be introduced to CPLD applications and VHDL.

Prerequisite: MAT 020 or placement into MAT 101 or higher

EET 110—Computer Applications & Graphics

This entry level course is designed to introduce the student to computer graphical concepts and the visual display of information. Topics include layouts, charts, drawings, illustrations, computer aided design, image manipulation and enhancement, and graphic presentations. Projects include graphical techniques and analysis for graphic arts, medical imaging, and the sciences. Applications used include word processing, spreadsheet, databases, graphical presentation, photo editing, illustrating and computer aided design.
Engineering
(Science, Engineering & Architecture Dept.)

**EGR 101—Introduction to Engineering Design**
2 lect., 2 lab., 3 cr. (Fall)

An introduction to Engineering as a career with emphasis on communication skills. Topics to be presented include engineering graphics, technical report writing, computer graphics, 3D graphics modeling, 2D physical modeling and introduction to spreadsheets.

**Prerequisite:** concurrent enrollment in **MAT 121** or **MAT 131** or higher

**EGR 102—Programming for Engineers**
2 lect., 2 lab., 3 cr. (Spring)

An introduction to engineering calculations involving the use of the digital computer. A structured object-oriented language such as C++ or Java is taught. Problems are drawn from DC-AC-digital circuit theory, numerical methods. A programming language course where problems are also solved using spreadsheets, math processors circuits modeling program, and visualization applications.

**Prerequisite:** concurrent enrollment in **MAT 121** or **MAT 131** or higher

**EGR 205—Statics**
4 cr. (Fall)

Deals with forces in static equilibrium, including frictional forces. Introduces matrices to solve equations of more than one unknown. Thorough treatment of centroids and second moments. Maximum and minimum second moments; principal axis.

**Prerequisite:** C or better in **PHY 104**

**Corequisite:** **MAT 207**

**EGR 206—Dynamics**
4 cr. (Spring)

Kinematics—absolute and relative motion. Force, mass, and acceleration. Work and energy, Impulse and momentum. Mechanical vibrations. Modern use of vector analysis throughout the course.

**Prerequisites:** C or better in **EGR 205**

**EGR 212—Circuit Theory**
3 cr. (Spring)

**Prerequisite:** **PHY 203**

**EGR 214—Thermodynamics**
3 cr. (Summer)

A study of the first and second laws of thermodynamics, open and closed energy systems, properties, and work systems. Includes application to compressors, pumps, turbines, heat exchangers, and nozzles.

**Prerequisites:** **PHY 104** or **PHY 105** and **MAT 206**

**EGR 216—Engineering Computations**
2 cr. (Spring)

A survey of the mathematical methods used in electricity and magnetism, and mechanics. The goal of the course is to introduce the gradient divergence, curl, and Laplacian. Application to the wave equation.

**Prerequisites:** **MAT 207**, completed or concurrent enrollment in **MAT 214**

**EGR 218—Materials Science**
3 cr. (Fall)

A study of the relationship between the structure and properties of metallic, organic, and ceramic compounds. The physical structure of materials and their limitations are related to use in the areas of science and engineering.

**Prerequisite:** **CHM 106** and **(PHY 104 or PHY 106)**

**EGR 220—Solid Mechanics**
3 cr. (Spring)

Analysis of stress and strain due to axial, torsional, thermal and flexural loads; elastic deformation and buckling applied to beams, shafts and columns. The course will address statically determinant and indeterminant problems. The concepts of principal stresses, principal strains and Mohr's Circle will be presented as well as shear and moment diagrams.

**Prerequisites:** **EGR 205** and **MAT 207**

English
(English Department)

**ENG 120** and all 200-level English courses fulfill the Humanities requirement for the A.A. and A.S. degree. **ENG 120** and **ENG 130** do NOT fulfill the 200-level English requirement.

**WRT 020—English-As-A-Second Language**
3 lect., 1 lab., 3 units (Fall/Spring)*

An intensive course in the structure, basic vocabulary, and idioms of the English language. Through exercises, reading, oral and written composition, the student will develop the command of English needed to understand instruction in academic courses. A weekly lab hour is required.

*not applicable to associate degrees or certificate programs

**WRT 030—Basic Writing Skills 1**
3 lect., 1 lab., 3 units (Fall/Summer)*

This course is designed to help students develop very basic writing skills through extensive writing practice. By writing simple narrative and descriptive paragraphs, students learn the composing process and begin to control sentence construction, word choice, fluency, spelling of commonly used words, and end punctuation. A grade of Pass (P) indicates that the student is ready for Basic Writing Skills 2. An individually scheduled, weekly lab hour is required in the Writing Center.

*not applicable to associate degrees or certificate programs
WRT 040—Basic Writing Skills 2

3 units (Fall/Spring/Summer)*

In this course, students develop the writing skills required to begin college-level composition. Students learn control and development of the paragraph. They review the composing process, as well as word and sentence skills. Students also develop some control of internal punctuation, modifiers, and sentence variety. A grade of Pass (P) indicates that the student is ready for Freshman English 1.

Prerequisite: placement by the English Dept. or successful completion of WRT 030

*not applicable to associate degrees or certificate programs

RDG 060—ESL Reading

3 lect., 1 support module, 4 units*

This course is specifically designed to offer low-intermediate to intermediate ESL students the opportunity to develop efficient reading skills and strategies necessary to function successfully in a native speaking reading class. Through instructor-guided whole class instruction, individualized instruction and extensive reading, both in class and outside of class, students will be able to practice and acquire those reading skills and strategies presented in the course. In addition to three lecture class meetings each week, students will register for a one-hour per week support module.

RDG 061—Support Module

The support module allows the students to further practice the skills learned in class and to receive one-on-one instruction from the instructor. A grade of P (Pass) indicates that the student is ready to enter the required RDG 070 (Reading and Study Skills 1) reading course.

Prerequisite: Placement by the English Department, based on placement testing or by recommendation of the admissions office.

*not applicable to associate degrees or certificate programs

RDG 070—Reading and Study Skills 1

3 lect., 1 lab, 3 units (Fall/Spring/Summer)*

Using high-interest novels and short stories, this course is designed to stimulate an interest in reading and to offer an opportunity to improve and strengthen basic reading skills. In addition, the course introduces basic study techniques which help increase students’ potential for academic success. Much of the course is individualized. A grade of Pass (P) indicates that the student is ready for RDG 080. An individually scheduled, weekly lab hour is required in the Reading Lab.

Prerequisite: placement by the English Dept. or by recommendation of the Admissions Office.

*not applicable to associate degrees or certificate programs

RDG 080—Reading and Study Skills 2

3 lect., 1 lab, 3 units (Fall/Spring/Summer)*

Designed to help students develop the necessary reading and study skills needed for dealing with college-level study. Extensive reading of novels and short stories furthers vocabulary growth and helps develop higher-level comprehension skills, i.e., analysis, synthesis, etc. Study techniques such as note-taking, studying a textbook, exam preparation are also developed. Weekly lab hour is required in the Reading Lab.

Prerequisite: placement by the English Dept., recommendation of the Admissions office, or successful completion of RDG 070

*not applicable to associate degrees or certificate programs

RDG 090—Integrated Reading and Writing

4 lect., 1 lab, 4 units (Fall/Spring)

In this course, students develop critical reading, writing, and thinking abilities in preparation for success in college-level courses. In academic paragraphs and essays, students develop ideas in relation to challenging and complex texts. Students are required to attend the Reading and/or Writing Center(s) throughout the semester for a total of 13 50-minute sessions.

Prerequisite: placement by the English Department in RDG 080 and WRT 040 or recommendation of the Admissions Office.

*not applicable to associate degrees or certificate programs

ENG 098—Support Module for ENG 101

2 cr. (Fall/Spring/Summer)

This is a mandatory co-requisite course for Freshman English 1 (ENG 101) for students who place into WRT 040 and/or RDG 080 on the college placement test. This module is designed to provide the support for students with this placement to be successful in ENG 101. Students will spend class time working in a small group context and have the opportunity through skill review, peer workshops, and writing assignments for additional practice in writing and research processes as well as techniques of effective reading.

* Students enrolled in ENG 098 must pass this course in order to pass ENG 101, but passing ENG 098 does not guarantee that a student will also pass ENG 101. A required maximum of 10 completed hours in the Reading and/or Writing Support Center(s) will be required based on the instructor’s assessment.

ENG 101—Freshman English 1

3 cr. (Fall/Spring/Summer)

This first course in the Freshman English sequence introduces college-level writing and revision, construction of expository essays, and research skills. Reading and class discussion center on the formal and informal essay. Research essay is required. (GE 10 when combined with COM 101)

Note: Students who have placed into any developmental reading or writing courses must complete them before taking ENG 101.

ENG 102—Freshman English 2

3 cr. (Fall/Spring/Summer)

In this second course in the sequence, students learn to read critically, to organize supporting details, and to develop coherent oral and written arguments. Fiction, drama and poetry are used as common texts. An analytical research paper is required. (GE 7)

Prerequisite: ENG 101

ENG 120—Introduction to Mythology

3 cr.

Introduces the student to the major myths of the Greeks and Romans, examines the definitions and functions of mythology, and attends carefully to several
of the most important and influential classical works, including Homer’s *Odyssey* and Ovid’s *Metamorphoses*. In addition, the course provides interdisciplinary background valuable for further courses in literature, history, the visual arts, and philosophy, as well as increasing cultural literacy in general. Some research required. (GE 7)

Prerequisite: concurrent enrollment in or completion of ENG 101

**ENG 130—Writing for Media**

3 cr.

An introductory course that familiarizes students with the basic principles and techniques of writing for the media, including TV news, commercials, Public Relations, magazine, and newspaper reporting.

Prerequisite: C or better in ENG 101 (This course counts as a general elective.)

**ENG 160—ENG 161—Technical Writing Module**

3 lab. 1.5 cr.

Combined with designated program-specific courses, these modules teach students to transfer and apply technical writing skills to particular situations, formats and language requirements of their co-requisite program courses and professional workplace situations. Collaborating with the program course instructor, the technical writing instructor works closely with students to complete customized technical writing assignments through lecture, small group, and individual instruction. Students may earn a maximum of one and a half credits per module. These modules do not fulfill the humanities requirements for the A.A. degree.

Prerequisite: concurrent enrollment in a Writing Consultancy-related designated program course; ENG 101, or concurrent enrollment in ENG 101, or by permission of the instructor.

For all of the following electives, ENG 101 and ENG 102 Freshman English 1 and 2 are the prerequisites of all 200-level courses in English.

**ENG 203—World Literature: Ancient World Through The Renaissance**

3 cr.

A survey of world masterpieces from the ancient world through the Renaissance, presenting literature as a reflection of time, place, and thought. Major works are examined in depth. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 204—World Literature: Enlightenment to the Modern Age**

3 cr.

A survey of world masterpieces from the Seventeenth to the Twentieth century, presenting literature as a reflection of time, place and thought. Major works are examined in depth. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 205—Drama: Ibsen to O'Neill**

3 cr. (Fall)

A study of the development of modern drama from Ibsen to O'Neill. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 206—Drama: Contemporary**

3 cr. (Spring)

A study of contemporary dramatists beginning at the time of Brecht and continuing to the present. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 207—English Literature: 14th Through 18th Century**

3 cr. (Fall)

Introduction to the works of significant English prose writers and poets, from the Old English period through eighteenth-century Neo-Classicism. Literary forms, trends, and backgrounds are studied as aids to the development of critical judgment and aesthetic appreciation. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 208—English Literature: 19th and Early 20th Century**

3 cr. (Spring)

An introductory study of the works of significant English authors, from the Romantic Movement to the early twentieth century. Critical judgment and aesthetic appreciation are fostered, through consideration of literary forms, trends, and backgrounds. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 209—American Literature: To The Civil War**

3 cr. (Fall)

A survey of American literature from the Puritan era through the Romantic Movement presenting literature as a reflection of time, place, and thought. The course emphasizes major authors. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 210—American Literature: 1865 to the Present**

3 cr. (Spring)

A survey of American literature from the late nineteenth century to the present, emphasizing literature as a reflection of time, place and thought. Major authors are examined in depth. Some research required. (GE 7)

Prerequisite: ENG 101 and ENG 102

**ENG 211—Creative Writing: Fiction**

3 cr. (Fall)

An advanced writing course designed to help students develop skill in writing fiction. In addition to writing, the student will evaluate the work of fellow students and other assigned works. Some research required. (GE 8)

Prerequisite: ENG 101 and ENG 102

with grade of C or higher

**ENG 212—Creative Writing: Poetry**

3 cr. (Spring)

This course provides opportunity for the student to develop skill in writing poetry. Classroom discussions are devoted to both student work and outside readings. Some research required. (GE 8)

Prerequisite: ENG 101 and ENG 102

with grade of C or higher
ENG 213—Journalism: Survey of Mass Media  
3 cr. (Fall)  
A study of journalism theory, emphasizing the principles and the responsibilities that newspapers, radio, and television share in conveying information and in developing public opinion. Writing about the media is required. Some research required. (GE 7)  
Prerequisite: ENG 101 and ENG 102

ENG 215—Shakespeare  
3 cr.  
A close reading of selected plays and some sonnets, together with lectures on the Elizabethan way of life, the playhouse, and stage-craft. Some research required. (GE 7)  
Prerequisite: ENG 101 and ENG 102

ENG 216—Children's Literature  
3 cr.  
Survey of children's literature: What makes it last? How did it develop? What does it show about the culture and age that produce it? How does it connect to a child's developmental stages? An adult's? What are representative types of the literature, writers and works? How does it handle special issues like multiculturalism, bias, censorship? Readings include picture books, fairy/folk tales, to fiction (historical, realistic, fantasy); representative writers like "Mother Goose" and Brothers Grimm to Sendak, Potter, Carroll, Lowry. Group and individual projects further explore the field. Some research required. (GE 7)  
Prerequisite: ENG 101 and ENG 102

ENG 217—Film and Literature  
3 cr.  
A literary approach to cinema, with emphasis on story, plot, theme, characters, and symbols. The relationships between literary works and their screen adaptations are examined. Basic film terminology is considered to assist the student to become a reflective viewer. Some research required. (GE 7)  
Prerequisite: ENG 101 and ENG 102

ENG 220—Women Writers  
3 cr.  
A survey of the works of representative women writers focusing on human relationships and society from a woman's perspective as revealed in their poetry, drama, and prose. Works by such authors as Bronte, Woolf, Chopin, Mansfield, and O'Connor may be included. Some research required. (GE 7)  
Prerequisite: ENG 101 and ENG 102

ENG 221—Contemporary Short Story  
3 cr.  
Careful reading, analysis, and interpretation of short stories, emphasizing varied approaches, characteristics and styles, with some attention to development of the form in the 19th century. Some research required. (GE 7)  
Prerequisites: ENG 101 and ENG 102

ENG 222—Contemporary Novel  
3 cr.  
Careful reading, analysis, and interpretation of several significant novels that vary in style and that suggest how the form has developed during this century. Some research required. (GE 7)  
Prerequisites: ENG 101 and ENG 102

ENG 223—Contemporary Poetry  
3 cr.  
Careful reading, analysis, and interpretation of poetry, emphasizing varied approaches, characteristics and styles. Some research required. (GE 7)  
Prerequisites: ENG 101 and ENG 102

ENG 225—International Literature: Non-European  
3 cr.  
A survey of the works of representative international writers. Readings will focus on human relationships and man/woman's place in his/her society as revealed in novels, short stories, non-fiction and poetry. Works by such authors as Rigoberta Menchu, Gabriel Garcia Marquez, Chinua Achebe, Nagib Mahfouz, Jamaica Kincaid and Bharati Mukherjee may be included. Some research required. (GE 7)  
Prerequisites: ENG 101, ENG 102

ENG 226—Fantasy Fiction  
3 cr.  
This course introduces the student to the genre of fantasy fiction, gives background on the major figures in the area, and provides extended attention to the tales, characters, and important topics in either Arthurian Legend or the works of Tolkien. Some research required. (GE 7)  
Prerequisites: ENG 101, ENG 102

ENG 230—African-American Literature  
3 cr.  
Reading and discussion of novels, plays, essays, and poems written by African Americans. Course will include works by authors like Ralph Ellison, James Baldwin, Lorraine Hansberry, Imamu Amiri Baraka, Toni Morrison and August Wilson. Some research required. (GE 7)  
Prerequisite: ENG 101 and ENG 102

ENG 297—Special Studies in Literature  
3 cr.  
Presented on the sophomore level, this 200-level literature course offers students the opportunity to explore current or emerging topics or types of literature or to focus on specific writers. Two particular course options are Science Fiction and Coming to America and are offered on a rotating basis. Additional topics may be added by the department. Some research required. (GE 7)  
Prerequisites: ENG 101 and ENG 102

ENG 297—Special Studies in Literature: Latin American Literature  
3 cr.  
This survey course introduces students to the richness of Latin American literature. All readings from the Colonial Period through the Contemporary Period are in English and may include non-fiction, short stories, poetry, and a novel. Slides and music enhance the course, and the student is
required to connect these and other resources to the works read. Significant writers may include De Las Casas, García de la Vega, Pablo Neruda, Borges, Julia Alvarez, Arguedas, Carlos Fuentes, Gabriel García Márquez, Mario Vargas Llosa, Rosario Ferre, Julio Cortazar, and Rigoberta Menchú, an indigenous writer. All reflect Latin America’s diversity. Some research required. (GE 7)

Prerequisites: ENG 101 and ENG 102

Field Studies: Travel
(Global Studies Department)

FLD 110—Field Studies 3 cr.

This course is designed to be taken in conjunction with International Trips offered in the Fall, or Spring terms. The course is comprised of 1 credit of seminar/lecture and 2 lab credits of in-country activity and experience. In lecture/seminar, students will gain deeper appreciation of the destination country, including, but not limited to: study of the history, culture, politics, and intellectual traditions. In the field—through such activities as museums and site visits, performances, and lectures—students will engage in direct experience with the cultural expressions, traditions, politics, and history of the region.

Fire Protection Technology
(Hudson Valley Educational Consortium)

FIR 101—Introduction to Fire Protection Technology 3 cr.

This course is an essential component within the Fire Protection Technology core group. The student is introduced to the field of fire protection technology through a review of tragic fires of yesterday to provide a historical perspective on the development of fire safety practices in place today. Students are introduced to the chemistry and behavior of fire in order to develop an understanding of how technology is applied to detect, control and suppress fire today.

FIR 102—Introduction to Fire and Emergency Services Administration 3 cr.

The premise of the course is to provide an introductory understanding of the administrative, management and leadership skills that are required in today’s fire and emergency services. To accomplish this goal, the history and past practices of the Fire Service will be examined. An overview of the administration, financial management, human resources, customer service, training, educational requirements, and health and safety issues of the Fire and Emergency service will be explored.

FIR 103—Principles of Building Construction 3 cr.

This course is part of the Fire Protection Technology core group. It is designed to introduce the student to methods and techniques of building construction and how building construction impacts both fire behavior and the life safety of building occupants. Students are also introduced to the causes of building failures (structural collapse) and the role of interior finish in fire spread and toxic gas production.

FIR 111—Fire Hazard Properties of Materials 3 cr.

This course will introduce the student to various chemical and physical properties of solid, liquid, and gaseous materials that contribute to their potential for fire and explosion. Reactivity and health hazards will also be examined. The student will review basic combustion chemistry and chemical terminology. The student will be introduced to identification systems for hazardous materials, transportation practices, storage practices, and fire control strategies for a wide range of flammable and combustible substances.

FIR 203—Fire Protection and Detection Systems 3 cr.

A study of the various types of fire detection and extinguishing systems. Portable fire extinguishers, sprinkler systems and special agent systems are discussed. The operation of municipal and private alarm systems, automatic fire detection systems and guard services are also examined.

FIR 207—Legal Aspects of the Fire and Emergency Services 3 cr.

The focus of this course is the exploration of the many legal issues associated with fire and emergency services. Issues confronting today’s fire and emergency services include legal and civil liability, Occupational Safety and Health Administration (OSHA) compliance, workers compensation, physical abilities testing, negligence, discrimination and sexual harassment. These are but a few of the pivotal issues confronting today’s fire and emergency services.

FIR 211—Investigation and Detection of Fire Incidents 3 cr.

This course examines the causes of incendiary and accidental fires. In the study of intentional fires and explosions the scientific method is the analytic process now used that leads to accurate and defensible conclusions in fire investigation. The course will focus on the application of this process and create a sound basis for the student to use when evaluating fire scenes, preparing reports, gather evidence and offer testimony in an arson investigation case. Topics discussed include: investigation techniques, interrogation, reports, court procedures, testimony, legal opinions and processing of criminal evidence. State and local statutes related to the crime of arson are examined.

French
(Global Studies Department)

Elementary level foreign language courses can be used to meet the humanities requirement for the A.A. and A.S. degrees if a minimum of two semesters of study of the same language is completed. Only one semester of an intermediate level foreign language course is necessary for humanities credit.

FRE 101—Elementary French 1 3 cr.

A beginning study of the language for students who have not previously studied French, or those who have no more than one year of high school French. Although emphasis is placed on the language as it is heard and spoken, reading
French / Green Building Maintenance and Management / Geography / Geology

and writing skills are also developed. (GE 9)

Note: Students who are proficient in French may be placed in a more advanced course.

FRE 102—Elementary French 2

Additional practice in conversation is combined with the development of reading and writing skills. Readings pertain to cultural topics. (GE 9)

Prerequisite: FRE 101 or two years of high school study or placement by the instructor

FRE 201—Intermediate French 1

This course increases the student's ability to use the language through practice in conversation, reading, and writing. It includes a systematic review of the essentials of grammar. Readings pertain to contemporary cultural topics. (GE 9)

Prerequisite: FRE 102 or instructor placement

FRE 202—Intermediate French 2

Emphasis is given to cultural or literary readings and to free oral expression. Grammatical structures, including the subjunctive, are reviewed. (GE 9)

Prerequisite: FRE 201 or instructor placement

FRE 203—Advanced French 1

Literary works of twentieth century French authors are studied and oral fluency is further developed through practice in conversation. Grammar is reviewed as needed. (GE 9)

Prerequisite: FRE 202 or instructor placement

FRE 204—Advanced French 2

Readings in twentieth century prose and poetry are discussed, as well as other topics of cultural interest. Compositions are occasionally required. (GE 9)

Prerequisite: FRE 203 or placement by the instructor

Green Building Maintenance and Management

(Hudson Valley Educational Consortium)

GRB 1100—Introduction to Green Buildings

In this course, students study the principles, methods, and equipment associated with sustainable building systems and design. Topics include ecological design, energy efficiency, passive and renewable energy, water conservation and treatment, sustainable site selection, green building materials, indoor and outdoor environmental quality, and building assessment tools.

GRB 1200 - Intro to Renewable Energy Systems

In this course, students study the principles, methods, and equipment associated with renewable energy systems. Topics include solar, wind, biomass and biofuels, fuel cells, hydropower, oceanic energy, geothermal, and energy storage. Nonrenewable energy sources, climate change, and the economics and politics of energy are also discussed.

GRB 2100 - Building Automation & Controls

In this course, students learn the basic principles of building automation and controls for energy management. Topics include control devices, signals, logic, and applications for various systems, such as electrical, lighting, HVAC, plumbing, fire protection, security, access control, voice-data-video, and elevator systems.

GRB 2200 - Solar & Wind Systems

In this course, students learn the basic principles of photovoltaic and wind generated power, with an emphasis on how to maintain and manage these technologies, as well as the buildings with which they are associated. The key components and principles, site issues, and economic considerations of solar and wind systems are covered.

GRB 2300 - Commercial Electrical

In this course, students learn about the essential components of the electrical systems of commercial buildings. Topics include reading commercial building plans and specifications, computing electrical loads, branch circuits and components, and electronic service equipment. Electrical considerations specific to renewable energy systems are also covered.

Geography

(Behavioral Science Department)

GE 101 fulfills the mathematics or natural science requirement for the associate degrees. Further, those courses which fulfill the social science requirement for the A.A. degree are identified by requirement category at the end of the course description.

GEO 101—Elements of Physical Geography

The study of the origin and distribution of the major physical features on the earth's surface. Topics include an introduction to globes and maps, earth-sun relationships, weather, climate, land forms, soils and natural vegetation.

GEO 101 fulfills the mathematics and natural science requirement for associate degrees not requiring a lab science. It does not fulfill the social science requirement for any degree.

GEO 102—Human Geography

The origin, distribution, differences and ecology of the world's population along with cultural activities are studied. Topics include race, world religions, languages, agricultural and industrial development, and the rise of urban centers as human responses to the physical environment. Fulfills category C. (GE 3)

Geology

(Science, Engineering & Architecture Dept.)

(See also: Physics/Physical Science)

GLG 101 – Earth Science

A first course for students interested in planet Earth. The four basic areas of study are: geology, meteorology, oceanography and astronomy with particular emphasis on the physical
processes of the planet. Discussions include the composition of the Earth and its structure, terrestrial processes, resources, and geologic hazards such as earthquakes. Laboratory work is supplemented by field trips and self-guided research. (GE 2)

**GLG 110—Physical Geology**

3 lect., 2 lab., 4 cr.

A study of geologic processes and features with emphasis on plate tectonics. Topics include origin of magma, plutons, volcanoes, earthquakes, metamorphism, sediments, rivers, ground water, glaciation and Earth's interiors. Laboratory study emphasizes mineral and rock identification and topographic map reading. One field trip is generally taken. (GE 2)

**GLG 210—Historical Geology**

3 lect., 3 lab., 4 cr. (Spring)

The principles of geological interpretation are emphasized through a study of earth history. Special attention is given to the geological development of North America. Topics include geologic time, paleontology, structural geology, sea-floor spreading and continental drift, and mountain building. Labs, include studies of invertebrate fossils, geologic structures and paleogeography. Several field trips are taken. (GE 2)

*Prerequisite: GLG 101 or GLG 110*

**GLG 220—Environmental Geology**

3 cr. (Fall)

A lecture-seminar approach is used in studying selected environmental problems related to geology, such as geologic hazards, waste disposal, energy resources and their recovery, engineering problems, environmental alterations, and land-use planning.

*Prerequisite: GLG 110 or GLG 210 or GLG 101 with permission of the chair*

---

**Health**

*(Interdisciplinary)*

**HLT 101—Introduction to the Health Professions**

2 Cr.

The course is designed to provide the learner an opportunity to explore and understand the variety of health professions. The concepts of "health" and "professionalism" will be examined for self and others. The college library and internet will be used to find journals and other professional sources of information. Students will compare standards of care, subspecialization, levels of practice and educational preparation within the various disciplines. Healthy self care interventions will be practiced as part of professional development. Trans-disciplinary concepts and scientific principles will be applied in practicing skills such as hand washing and use of personal protective equipment. Interdisciplinary care models will be observed in site visits to local agencies.

*Prerequisite: placement in Writing 040 or higher*

---

**History**

*(Global Studies Department)*

**HIS 101—United States History 1**

3 cr. (Fall/Spring)

A study of the political, intellectual, economic and cultural development of the United States from earliest colonial settlements to the Civil War. Topics include the Puritan mind, regional cultural patterns, the evolution of constitutional law, the struggle for independence, the Hamiltonian and Jeffersonian perspectives, expansion, slavery, and the Civil War. *Fulfills category A.* (GE 2)

**HIS 102—United States History 2**

3 cr. (Fall/Spring)

Course surveys the Reconstruction Era within the context of the 13, 14, and 15 Amendments, their impacts and interpretations. An examination of the issues inherent in the change from an agrarian to an industrial society, the course focuses on dislocations in rural America, the rise of cities, immigration, and the labor movement. An assessment of twentieth century U.S. participation in world events, and the balance of power between the superpowers and Third World nations are included. *Fulfills category A.* (GE 4)

**HIS 107—Diversity and Inclusion: The American Experience**

3 cr. (Fall/Spring)

This course utilizes experiences to the social history of diversity and inclusion in the United States. It provides students with a deeper understanding of the historical, political, cultural, and theoretical bases of diversity, inclusion, and exclusion. It also challenges students to consider US history from the perspective of groups traditionally excluded, marginalized, or written out of the American narrative, while recognizing those forces who have worked to foster inclusion. *Fulfills category A.* (GE 4)

**HIS 121—World History 1**

3 cr. (Fall/Spring)

This course introduces the student to the major civilizations of the world prior to 1500 A.D. The various civilizations of Europe, Asia, Africa and the Americas are analyzed separately, emphasizing the unique contributions of each. Emphasis is also placed on cross-cultural contacts and connections to illustrate the diversity and unity of the human condition in the world society. *Fulfills category D.* (GE 6)

**HIS 122—World History 2**

3 cr. (Fall/Spring)

This course traces the major developments of world history since 1500, with special emphasis on the theme of the rise of western European civilizations, its penetration of other cultures around the world, and developments in those cultures as they responded to European expansion. Twentieth century trends and problems including world wars, nuclear weapons, the global economy, overpopulation and other environment-mental issues are explored. *Fulfills category D.* (GE 6)

**HIS 203—History of African-Americans**

3 cr. (Fall/Spring)

A survey of the cultural and historical background of the African-Americans from their African inheritances to their present roles in American society. Former title History of Afro-Americans in the USA. *Fulfills category A.* (GE 3 only for students scoring 85 or above on NYS American History Regents)
History

HIS 204—The American Civil War and Reconstruction 3 cr. (Fall/Spring)
This course examines political, economic, and social developments in the United States from 1850 to 1877. The causes of increasing sectional tensions leading to succession, the diplomatic, military, and technological aspects of the conflict and the controversies inherent in the reconstruction process will be emphasized.
Liberal Arts or General Elective credit only. Fulfills category A. (GE 4)

HIS 205—Science, Technology, and Society 3 cr. (Fall/Spring)
This course is an introduction to the histories of science and technology and their relationships to global society. Emphasis is placed on the interactions among science and technology and the corresponding economic, social, and political developments rather than on the internal histories of science and technology. Former course number 23190. Fulfills category D.

HIS 219—Ancient Asia 3 cr. (Spring)
This course provides a historical introduction to the ancient civilizations of India, China, and Japan. The great empires and dynasties of these countries will be explored along with the religious, philosophical, and cultural traditions that developed in ancient India, China, and Japan. Fulfills category D. (GE 6)

HIS 220—Modern East Asia: China, Japan and Korea 3 cr. (Fall)
A study of the modern history of East Asia, primarily China, Japan and Korea. Topics stressed are: religion; social, political and cultural traditions; and the role of East Asian countries and cultures in our contemporary world. Fulfills category D. (GE 6)

HIS 221—Modern India and Southeast Asia 3 cr. (Spring)
A study of the histories of India and Southeast Asia in general with emphasis on the modern period. Topics stressed are: religion; social, political, and cultural traditions; economic development; the Vietnam War; China and the United States in Southeast Asia. Fulfills category D. (GE 6)

HIS 222—The Middle East 3 cr. (Fall/evening)
The course is a survey of Middle East civilizations. Emphasis is placed upon the major historical, cultural, social and political themes that form the basis for an understanding of the modern Arab world, Israel, and Iran. Fulfills category D. (GE 6)

HIS 223—Latin American History 3 cr. (Spring/evening)
A survey of pre-colonial and colonial Latin America, including discovery and conquest by the Europeans and the subsequent blending of the civilizations. Emphasis is given to cultural elements of the various races, to the period from 1800 to the present, and to the topics of nationalism and revolutions. Fulfills category D. (GE 6)

HIS 224—Africa: Past and Present 3 cr. (Fall/evening)
A study of the development of the African world from the earliest cultures to the emergence and problems of the modern African states. Close attention is paid to the influences of geography, indigenous cultural systems, and cultural exchanges between Africa and the rest of the world. Fulfills category D. (GE 6)

HIS 230—The Greek and Roman World 3 cr. (Fall/Spring)
A basic history course which provides the beginning student with the fundamental conceptual and factual information necessary for the understanding of our ancient traditions. The course begins with the earliest civilizations of the Middle East but focuses primarily on the histories of Greece and Rome. Fulfills category D. (GE 5)

HIS 231—Medieval and Renaissance Europe 3 cr. (Spring)
An introductory course which deals with the Medieval and Renaissance periods in European history. The course begins with the post-Roman world and ends with the Protestant Reformation. Emphasis is on the political, social, cultural, and economic developments of the period. Topics to be considered are feudalism, manorialism, the life of the peasant, monarchy, the development of the nation-state, the medieval church, the Renaissance, Protestantism. Fulfills category D. (GE 5)

HIS 232—The Age of Revolutions 3 cr. (Fall)
An introductory course which deals with the important political, economic, social and scientific developments of the seventeenth and eighteenth centuries in Europe. The course begins with the post-Reformation religious wars and carries through the French Revolution of 1789-1795 and the Napoleonic Era. Some topics included are the English Revolution, the Scientific Revolution, the Enlightenment, the Industrial Revolution, urbanization, the rise of the middle class, and political revolution. Fulfills category D. (GE 5)

HIS 233—Modern Europe 3 cr. (Fall/Spring)
This course begins with the Congress of Vienna and extends to the present time. Some topics considered are nationalism, imperialism, Communism, Fascism, the two World Wars, the Cold War, and united Europe. Emphasis is on the social, economic, cultural, and political developments, centering on the theme of humanity’s disillusionment with the promises of earlier generations. Fulfills category D. (GE 5)

HIS 234—The History of Russia and Eastern Europe 3 cr. (Fall/evening)
This course surveys Russian and Eastern European history from the late Roman Era to the present, including the migrations of Slavs, Hungarians, Jews, and others, tensions between Catholic, Orthodox and Protestant Christianity, the development of a distinctive Jewish culture and its eventual destruction in the Holocaust, the situation of other minorities such as the Roma (Gypsies), Tatars and Karaites, the effects of nationalism, wars and invasions on the region, and the rise and fall of the empires of Lithuania,
Honors

Permission of Honors Program Coordinator is required for registration in all honors courses.

All courses are offered on a rotating basis. See Honors Program Coordinator.

General Education courses with Honors Designation:
The honors sections of courses offer enrichment through alternative texts, outside readings, research projects and abstract concept development beyond the traditional section. Course objectives include: to expand student’s ability to analyze and apply concepts to current events, to transcend gender, culture, race and socio-economic issues, to work cooperatively, to communicate effectively and to enhance communication and leadership qualities. Courses come from the departments of English, arts, communication, math, biology, social sciences, and movement science.

HON 120H—Honors Service Learning

0 lect., 2 lab, 1 cr. (Fall)

This two-semester service course, required of all Honors Program students, provides an opportunity to gain service learning experiences both within the college and in the broader community. Students maintain logs and provide an essay of activities and learning experiences. This independent study course involves forty-five contact hours, is graded pass/fail and carries one credit. It may be repeated once for credit.

HON 201H—Honors Seminar

1 cr.

Cross disciplinary in nature, the honors seminar provides students an opportunity to study a topic from various academic perspectives. The topics change each semester and cover at least four academic disciplines. Students participate in class discussions, maintain journals and do a variety of projects. Some of the seminar topic descriptions are listed below: Completion of three seminars is required in the Honors Program; each holds one academic credit.

SAMPLE HONORS SEMINAR TOPICS:

"And, but, so": Post-Modern America—The term “postmodernism” is a time reference (after modernism) and catch-all referring to the architectural, artistic, literary, and philosophical changes in specifically American culture since the end of WWII. Hallmarks include lack of a singular, universal Truth and a resistance to binary structures, such as male/female, rich/poor, straight/gay, black/white, acknowledging possible overlaps and outliers. In the 21st century, acknowledging that the reality of “grey” areas is vital. This seminar looks at the artistic moves to multi-genre representation, introduces postmodernism through the arts, and applies those ideas to a greater, more general societal landscape.

1900: The End and the Beginning—This seminar explores the architecture, music, philosophy and science that became “modern” in fin-de-siècle Europe and America. Emphasis is on how the makers of modern culture faced the challenges in finding function and meaning in their world at the turn of their century.

1968 Explosions—Social, Military, Literary—This seminar examines many of the significant social, political, and historical events of the year 1968, including media, art and pop culture. Section One focuses on the social and political upheaval of the time, paying particular attention to the assassinations of Martin Luther King, Jr. and Robert Kennedy and the emergence of pop culture. Section Two focuses on events in the Vietnam War. Section Three discusses some of the important books of the year.

Actions Count!—This seminar explores the concept that actions speak louder than words. Students will explore and employ project based learning from inception to completion via hand on experience. They will identify problems of interest to them and then devise, plan and implement workable solutions.

American Gangsters—This seminar explores the impact of lawlessness in American history. Beginning in the American West in the post-Civil War Era (post-bellum era) with the lives of men like Billy the Kid and the Dalton Gang, as they struggled to readjust to life without war and spiraled into bank robbing, it continues into the early 20th century, examining the rise of organized crime in the era of World War I and Prohibition. Men like George "Bugs" Moran, Alfonse "Al" Capone and Benjamin "Bugsy" Siegel transformed cities like New York, Chicago and Las Vegas. The seminar explores the sociological, physiological and historical aspects of how these individuals transformed into criminal lifestyles and their overall impact on American history.

Ancient Aliens & Alternative Archeologies—This seminar will explore some of the more fantastic explanations that have been provided for some of spectacular archaeological ruins left behind by ancient societies. Through the examination of these cases, we will discuss and analyze how scientists and scholars know what they know vs. the more suspect claims put forward by fringe commentators.

Anthropology of Disease—Human beings are simultaneously biological, social and cultural creatures. Infectious disease represents a particularly salient factor in the biological experience of human beings and has been a focus of intensive study in the medical sciences. For a fully comprehensive examination understanding of the role of disease in human life, however, a more holistic perspective is needed. Without losing sight of present biological aspects of infectious disease, this seminar shifts focus toward the evolutionary, social and cultural dynamics experienced by humans in the context of disease, through the lens of anthropology, the discipline most concerned with holistic and contextual understandings of the species.

Arts in New York City—Through lecture, discussion and participation in metropolitan events, participants experience and respond to human cultural and creative expression in art, music, architecture and theater. Students attend up to five major arts events and participate in pre- and post-event lectures and discussions. Note: Most events are on Saturday or Sunday. Students are responsible for ticket expenses.
Body Bugs-The Good, The Bad & The Ugly--Microbiomes' Influence on Life—The human microbiome consists of all the microorganisms that live on and in the human body. Recent genetic research has allowed us to identify and learn how these organisms influence our lives in often unexpected ways. Our metabolism, immune system, diet and even mental health have been linked to the microbiome. This seminar explores the scientific research regarding the human microbiome. We learn how to read and evaluate the science, explore what it means for our own physical and mental health, and look at the economic, social and ethical implications of these discoveries. We also examine how antimicrobial resistance is developed and its implications for our health and society.

The Brain—This course will overview the brain and how it works. Studying the history of the brain will allow us to discover how the current understanding of the brain developed, and evaluation of select brain regions and systems will permit investigation of topics such as consciousness, emotion, and the pleasure pathway. Impacts of psychosocial pressures as well as personal behaviors and wellness practices on brain regions and internal brain connections will also be explored.

Bum Rush the Teen Age Riot: Exploring Underground & Alternative Music Histories of the Last 50 Years—This seminar explores artist and social histories of a number of underground or non-mainstream music styles and genres of the late 20th and early 21st Centuries. Topics include the early histories of hip-hop and punk rock as well as those selected through student interest

Censorship and Self-Expression—This seminar explores the history and current state of censorship in the United States. It will examine how censorship exists in a country founded on free expression in speech, the arts, music, digital media, etc., focusing on where the gray areas are and the differences between government and private censorship.

Civil Discourse: How to Have Hard Conversations About Controversial Topics—This seminar explores how to approach and engage in civil conversations about otherwise difficult topics. It examines current issues that engender public debate and media, and social media coverage with an eye toward parsing the truth and allowing for differences of opinion based on fact. Class interests determine subject matter.

Climate Change and its Impacts—A cross-disciplinary examination of climate change and its present and projected future impacts on economic sections in the United States. Through research, evaluation, and classroom discussion, students consider challenges and opportunities of climate change on their own chosen professional field.

Conflict Without End: The Crusades & the Battle for the Holy Land—This seminar explores the 1095 call to recapture the Holy Land for the old Byzantine Empire that led to one of the most cataclysmic cultural conflicts in history, the impact of which is still impacting the modern world. It Examines the desires of men and the belief in God that led to the Crusades.

Conspiracy Theory in American History—With the expansion of both the modern state and modern technology, reliance on, and devotion to, conspiracy theory has, arguably, never been as powerful as it is today. This seminar examines a selection of conspiracy theories from the colonial period to the present to attempt to understand why this thinking has been, and continues to be, so attractive to many different groups in American life.

Culture Wars in America—Ever wonder why modern conservatives and liberals in the U.S. fight like cats and dogs? Is it the inevitable fallout of a two-party system which lends itself to polarization and conflict? And yet, Since the 1960s, Republicans and Democrats can't seem to get along on anything. This seminar explores the history behind the culture wars, the main figures in the media and politics responsible for this divisiveness, and solutions to find more common ground between the left and right as American politics moves deeper into the new century.

Debating the Vikings—This seminar surveys the history of the Vikings from approximately 800 to 1100 CE, from their early raiding and trading activities to their conquest and colonization of territories from Russia to Iceland to the North American coast. The positive and negative aspects of Viking society, culture and way of life will be evaluated, with special attention to Viking religion and mythology. The stereotyped view of the Vikings as bloodthirsty, rapacious barbarians will be checked against actual records and opened to critique and discussion.

Deviance Unleashed: Am I Normal?—Are you a deviant person? Are you a follower of social norms or are you the person who stands out in a crowd? Is it possible for anyone to claim "normalcy?" This seminar explores deviant behavior and normalcy from an interdisciplinary perspective. Major topics include: cyber deviance, death/dying, corporate/political crimes, sexual deviance, mental disorders, and positive deviance. Specific/additional topics will be determined based on the unique interests of the class.

Entertain Us!—When humans aren’t in school or working, what activities bring them joy, pleasure, and fulfillment? How do these activities relate to historical time and cultural norms? How do larger social forces impact what we “choose” as entertainment? This seminar explores the world of entertainment from an interdisciplinary perspective. Major topics include: digital communication, music, books, television & film, sports, games (board and video), and travel. Additional topics will be added based on the unique interests of the class.

Ethics and Criminal Justice—This seminar explores ethical issues in the criminal justice system as faced by law enforcement practitioners and society at large.

Ethics and Human Relations—This seminar explores ethical issues in the differing relationships in which humans are engaged. Relationships may include familial, marital, employment, friendships as well as those based on gender, age, and others.

Everything Falls Apart—Why do human civilizations seem to inevitably fall apart? Is our own society headed for a similar collapse? Why do we find stories of social destruction so
fascinating? In this seminar, we begin by examining a number of archaeological and historic case studies to determine how and why complex societies break down and what happens to the people left in their wake. Using this background, we then explore the potential scenarios of collapse for our own society through an analysis of the popular media structured on narratives of the end of the world.

**Exploring the Criminal Mind**—The seminar will study crime causation theories including street crime, serial offenses, mass shootings and terrorism. We will also explore crime prevention policies including citizen civic responsibility in the reduction of crime.

**Fibonacci Sequence: From Rabbits to Pinecones**—This seminar explores the fascinating, beautiful, and often unexpected ways that this particular pattern of numbers occurs in the world around us. Originally described using the breeding habits of rabbits, this sequence tur up in many man-made and naturally occurring situations. Representative examples will be explored from mathematics, biology, music, and more. Come and be surprised!

**The First Crusade and the Birth of Modern History**—The First Crusade was a pivotal moment in European history, the first time Latin Christians expanded outside of Europe to explore and settle other lands. We will not explore the political or economic effects of the First Crusade but the historiographical and intellectual implications. The First Crusade dramatically changed the nature of history writing in Europe, from chronicles and annals to in-depth analysis of a contemporary event. History does not just mean dry documentary sources: in the Middle Ages, much like this class, the past was represented in song, art, architecture, and text, all of which give different perceptions of the past.

**From Chaos to Order: Creation Myths**—Our cultures are erected upon the foundations of creation myths. We are protected from chaos by our culturally determined beliefs, by the stories we share. These stories tell us how to maintain the shared values that compose our ordered world. This seminar explores creation myths from major geographical regions of the world in an effort to better understand how creation myths explain varied cultural beliefs and behavior.

**From Gothic to Goth**—This seminar explores the history, art, architecture, music, literature, philosophy and religions of the gothic period. It then explores the correlation between these mediums and theories and those of the gothic subculture of the late 20th century to the present.

**Frontiers in Biology**—This seminar covers three areas of current biology: discovery of new species and habitats, biotechnology, and the challenge of living sustainably on earth. Readings, discussions, case-studies and guest speakers expose participants to new scientific findings and the ethical challenges that these discoveries bring.

**Gender Roles: Past, Present and Future**—This seminar explores various issues in gender studies from past to present and future trends from interdisciplinary viewpoints. Theory will be balanced with group discussion and collaboration. Students direct their analysis of gender dynamics through use of critical thinking and readings and other media sources.

**Graphic Novels**—This seminar is a study of the graphic novel as a form of literature and arts, focusing on its history, major contributors to the form, and the various techniques used to create them. The seminar illustrates how the graphic novel combines a variety of disciplines including literature, art, history, psychology, sociology, political theory, ethics and philosophy.

**Guns in America: 2nd Amendment**—This semester explores the role of guns in American society and the seemingly never-ending debate surrounding the right to bear arms. From the ratification of the U.S. Constitution to modern day court cases and recent events that have helped shape the conversation, we will strive to clearly understand the social, economic and political aspects of the gun rights polemic.

**Has Freud Slipped? Examining Classic Psychoanalytic Theory in a Modern Context**—This seminar focuses on reading selected works of Sigmund Freud and discussing their relevance today. We examine and interpret Freud’s ideas using present-day understanding of brain function, psychology, sociology, etc., with the goal of determining which aspects of Freudian theory are enduring, and which may be obsolete.

**History of the Future**—This seminar examines how the future becomes reality. By looking at early technologies, ideas and trends, students follow the evolution of past cultural and technological changes from the point of ideation to the reality of societal acceptance. Students examine the evolution of specific areas including: journalism, space exploration, computer mediated technologies, and fads, focusing on how new ideas are generated, how they move towards fruition, and what forces may impact them.

**The Holocaust**—This seminar explores the ideological development and actual implementation of the Holocaust. It will examine the rise of the National Socialist (Nazi) party in Germany and the government’s execution of racial laws, eventually leading to the killing of approximately six million Jews and five million “enemies” of the Reich, inclusive of the mentally and physically disabled, partisans, homosexuals, religious objectors, gypsies, Socialists and Communists. Additionally, the seminar explores how the genocide was initiated and implemented and looks closely at the lives of all the people who were involved (victims and perpetrators).

**Humanitarian Architecture: Design Responses to Displacement**—One of the greatest humanitarian challenges we face today is that of providing shelter. In this seminar, students will be introduced to the environmental, geographic, political and historical context of humanitarian architecture. Developments will be examined through in-depth case studies, and students will design their own response to a theoretical humanitarian situation.

**I’m Happy...Maybe. Are You?**—Are you happy? Unhappy? What is happiness? Can we measure it? Does it exist at the individual level, the societal level, or both? Happiness is highly valued in most parts of the world, but varies greatly based on time and place. This interdisciplinary exploration will include: defining happiness, relationships, money & happiness, the advantages & disadvantages of a happy life, the pursuit of happiness (or unhappiness), and
Imagination and the Utopian Vision—This seminar explores the tradition of utopian thinking in a diverse range of fields including architecture, urban planning, the arts, film, literature and cultural studies. Through the examination and analysis of case studies, students will understand the role of imagination in the utopian vision and critically evaluate solutions to healthy living environments, the development of urban planning models, ideal forms of governments, and the appropriate use of technology. Specific/ additional topics will be determined based on the unique interests of the class.

Latin American Culture—This seminar studies the countries, culture and people of Latin American, including song, dance, music, art, food, history, politics, geography, religion, sociology, architecture and literature.

Lost Gen: Beautiful Fools & All that Jazz—This seminar examines the expatriates in Paris in the 1920s. Due to distaste in a post-WWI America, many American writers, artists, and musicians alienated themselves and found their way to Europe, living lives of decadence and experimenting with various art forms: writing, visual arts, music. These artists came to be called “The Lost Generation” by Gertrude Stein when she said to Ernest Hemingway, “All of you young people who served in the war. You are a lost generation.” Writers, namely Hemingway and Fitzgerald, worked in concert with artists and musicians to create a world that has not been replicated since. All pieces of art, literary, visual, and musical, will be looked at in their historical and social contexts.

Machiavelli: Prince of Evil—This seminar familiarizes the student with one of the great political thinkers and treatises in western history. Niccolo Machiavelli thought more deeply about power than most who have lived. Furthermore, his work Il Principe straddles the line between ancient and modern thoughts, providing a gateway to our understanding of modern politics. Students will develop an appreciation of Machiavelli, of political philosophy and of the role that power plays in all our lives—political and personal.

Man, Tree, Saw: Environmental Ethics—This seminar examines the true-life mystery of a man who saws down a sacred tree and consider the roles of culture, economics, science, religion, mythology, and aesthetics in approaching environmental ethics for today. We ask what the relationship should be between humans and nature. Are natural resources just that, a commodity primarily for human consumption? Should we see the environment as a living system or organism worthy of care? Is nature to be revered? What value does nature have for humans, or in and of itself? Answers to questions such as these may contribute to the development of ethics towards the environment relevant to our current times and the future.

Man vs. Nature: Floods, Plagues & Shark Attacks—This seminar will examine How nature in all its forms has impacted human history.

Modern Paganism and Other New Religious Movements—In America and around the world, new forms of religion constantly develop. New Religious Movements (NRM)s are often viewed with suspicion and labeled as “cults,” but their proliferation demonstrates a widespread yearning for alternative forms of religion and spirituality. We will explore Asian-based NRM such as the Hare Krishna (ISKCON) movement, the Japanese group Aum Shinrikyo, Afro-Caribbean-based NRM such as Santería and Vodou (voodoo), and European-derived Pagan religious movements such as Asatru, Druidry and Wicca. We will seek to understand the social and cultural causes of these NRM, their value to their followers and their effects upon society.

Monopoly Power—This seminar explores the monopoly power of businesses within the context of: a) history and development over time; b) the market structure, conduct, and performance within an economy; c) the ethical decisions and social responsibilities faced by businesses with monopoly power; and d) the political effects of both public and private monopolies.

Net Gen: The Brave New World of Social Networks—This seminar surveys the history, business model, end uses and cultural contexts of social networking tools such as MySpace, Facebook, Twitter, Second Life and other social networking sites. Development of terminology will be reviewed.

Nietzsche & Nihilism—This seminar investigates the writings of the late 19th century philosopher Friedrich Nietzsche. His theories of the superman, eternal return and will to power, while seemingly strange, have profoundly impacted global thought and policy - for better and for worse. We will read selections from Nietzsche’s writings, as well as secondary sources, to investigate the meaning and significance of this enigmatic thinker.

Oh, The Horror!—What has, for centuries, crafted our obsession with the gothic, the horrific, the macabre? What makes us both crave and revile that which frightens us the most? This seminar looks at a variety of horror mediums from the past couple of centuries and examines what makes us—individually and societally—crave to be afraid. (Optional field trip)

Peace and War—This seminar explores the social science surrounding questions of why humans kill each other, but also how they forge peace in the aftermath of violence. Questions explored include: Are humans naturally violent? Are humans naturally cooperative and peaceful? Are warriors born or made? How old is war? How old is peace? How do people give meaning to lives in the context of war? How do people make peace? and others generated by the class.

Problem of Evil—This seminar investigates different answers to the questions people have been asking about evil for thousands of years: What is evil? What is its origin? How can evil exist in a world created by an all-powerful and benevolent god? How does our understanding of evil changed over the millennia as our understanding of what it means to be human has changed to include our knowledge of genetics, biochemistry, psychology, sociology? We will approach these questions through the examination of significant works in the history of philosophy and religion and elsewhere from the ancient world to the present day, with special attention to questions about the relationship between evil and good and the vast gray area in between these two concepts that makes simple definitions of such powerful terms impossible.
Race, Racism & Misuse of Science—This seminar traces the history and ‘theory’ of scientific racism from its medieval religious antecedents to its modern genomic research. Special attention will be paid to the emergence of racial typologies in the Enlightenment; pre- and post-Darwinian theories of differentiation; American and European eugenics movements; efforts to quantify and racialize intelligence; the intersection of scientific racism and education; and contemporary issues of race-based science, healthcare, and government policies.

Railroads, Rapids, and Revolution: Discovering the Delaware River—Railroads, rapids, and revolution are three of the features of the Delaware River that we study. The Erie Railroad, kayakers, and George Washington have all crossed it! Flowing just a half an hour from our campus, the Delaware River is an important waterway for our geographical region. In this seminar, students investigate the history of the river, comprehend the diverse human cultures, flora, and fauna that it sustains, and learn to better appreciate its beauty and that of the natural landscape, history of art, and architecture that surround it.

The Real CSI—This seminar will provide an overview of forensic science as it pertains to law enforcement crime scene investigation. Students will understand the difference between how crime scene investigation is portrayed on television compared to real crime scene procedures and challenges. Students will learn and practice the precise steps involved in crime scene documentation, evidence gathering and crime scene reconstruction. The overview will conclude with an actual crime scene investigation conducted by participating students working together in a group setting.

Riots, Revolutions & Reformations: The History of Protest—This seminar will take an in depth look at protest movements throughout the modern era; included in this study will be the French Revolution, the Civil Rights Movement, Solidarity, the Arab Spring and many others. We will be looking at motivations, similarities, differences and long term impacts of these major historic events.

Science and Society—This seminar explores the close relationship between scientific/technological innovations and society, examining important innovations relative to the existing political, social, economic and intellectual background, and how important innovations influence the society from which they came. Concepts include: The Agricultural Revolution, China’s Contributions to Technology, the Scientific Revolution in Early Modern Europe and the transition from alchemy to chemistry.

Science, Pseudoscience & Skepticism—This seminar looks at real-life examples of pseudoscience, and explores how the scientific method and healthy skepticism can help us become better critical thinkers and more informed global citizens.

Sea Dogs, Swashbucklers & Scalawags: The History of Piracy—This seminar takes an in-depth look at the history of piracy, including: Pirates of the Ancient World, the Golden Age of Piracy, Privateers, Female Pirates, Pirates and Race Relations, Modern Piracy and Pirates in popular culture. We will examine motivations, similarities, differences and long term impacts of historic lawbreakers.

The Sixties—This seminar explores the decade of the 1960s, specifically looking at the political, social and cultural components that combined to create one of the most dynamic decades in American history.

Selfies: Identity Age Social Media—This seminar course will examine the relationship between perception and identity management through the use of social media. Students will learn and understand the perception process in communication, identity management of private vs. public images, and the use and impact of social media for online identity formation. This course will aid in exploration of online identities, social media communities, and their users.

Swords & Sandals: The Ancient World in Hollywood’s Imagination—This seminar examines the interconnection between ancient texts, social history and pop culture in American cinema. Through watching “sword & sandal” films, will engage the foundation for these cinematic creations while investigating the social and cultural influences that shaped the production and reception of these movies. Ultimately, we will gain a clearer view of our world through the lens of moviemakers who mimic and distort history for artistic, commercial, or editorial purposes.

Talkies, Tellys & the Flying Trapeze—A History of Modern Entertainment—This seminar will trace the history of modern entertainment from the classic Variety shows of Vaudeville to the dawn of cable television. Over the course of the semester students will examine Hollywood’s silent era, come to understand the power of the Radio, witness the rise of Sports as an entertainment and follow the birth of Television.

Terrorism and Society—In this seminar, students: discuss the historical perspective of terrorism and the current threat and challenges it imposes; identify major terrorist groups and their ideology, strategies and tactics; discuss the limits on political, military and civil authority; identify jurisdictional, constitutional and legislative issues and the role of federal, state, and local law enforcement in combating terrorism; the use of anti and counterterrorist operations, techniques and intelligence gathering; implementation of terrorist crisis command and control, logistics and support; prevention of and planning for terrorist attacks.

That Light Bulb Moment: Studies in Creativity—This seminar explores creativity and the creative process from interdisciplinary perspectives. Students examine various examples of creativity and creators in different contexts and explore their own creativity through exercises, traditional and non-traditional writing assignments, etc.

This Is Your Brain On Nature—This seminar introduces students to the full sweep of what is currently meant by the term ecopsychology. Students immerse themselves in an emerging field of academic study in the restorative and healing power of nature; the latest research concerning the relationship between psychology and nature; the changes that take place in the brain as a result of time in nature; and treatment efficacy and practical applications for time spent in nature.
Tropical Forests of Latin America—This seminar examines the complex issues surrounding tropical forests of Latin America. Through readings, discussions and writing, students explore the ecological characteristics of tropical forests, and the anthropogenic forces that are driving changes in these ecosystems, examine the trends of current land-use and possible future scenarios. Students also investigate what can be done to influence the nature of change to these ecosystems.

Truth, Justice & What Sources Say—This seminar is designed to stimulate critical thinking and group discussion of received information on any variety of subjects via abundant media channels. Students examine the generalized subject of "the media," what it is, what comprises it and how it influences the lives and convictions of not just average citizens, but those who have been elected to represent them. Emphasis is placed on ethics in media, especially as it concerns slant, bias, conflicts of interest, objectivity and choice or limitation of sources or censorship and on practical application in deciphering such to formulate justifiable and workable conclusions.

Understanding Self and Others—This seminar includes reviewing the major theories that explain human behavior and discussing a person's ability to successfully adapt to life's challenges. This course creates opportunities for students to not only learn techniques of understanding and helping others, but also focuses on self-reflection and the application of course material to foster greater self-understanding.

Unlocking Personal Potential—A long healthy life is a universal desire. So how does one achieve it? Students will examine the eight components of wellness through historical, medical, sociological, and psychological perspectives to determine effective methods to nurture one's own optimal potential. By probing personal beliefs and commonly accepted health & fitness practices, student attempt to answer three basic questions: 1. How can I make a difference? 2. Does it really matter? 3. What changes are necessary to avoid these challenges in the future?

Viennese Culture and Rise of Modernism—This seminar explores the influence of developments in Vienna 1900 on thought, architecture, art, music, and writing, as well as, politics and our world today.

Visions of the Hudson Valley—This seminar begins with a focus on the geology, biology, ecology and history of the Hudson Valley. The historical section looks at political and economic developments. The seminar then moves to representations of the valley in the literature, painting, and cinema, plus architecture, music, drama and the arts.

Wellness—Unlocking Personal Potential—A long healthy life is a universal desire. How does one achieve it? Students examine the eight components of wellness through historical, medical, sociological, and psychological perspectives to determine effective methods to nurture one’s own optimal potential. By probing personal beliefs and commonly accepted health & fitness practices, students attempt to answer three basic questions: 1. How can I make a difference? 2. Does it really matter? 3. What changes are necessary to avoid these challenges in the future?

Who Are You? Perspectives on Personality Psychology—An exploration of historical and contemporary personality theories, including the influence of culture on "ideal" personality traits. Popular personality type theories will be discussed alongside current academic models.

Wonders of Water—Climate change, gas wells, nitrogen pollution, aging water-treatment systems are all issues impacting the water that we need to survive. Is there a global water crisis? In this seminar we explore key impacts on the quality and quantity of water that sustains us, and investigate what is being done to address these issues.

HON 288H—Honors Capstone I: Planning and Research

This course (the first half of a two-semester capstone sequence required of all Honors Program students) provides an opportunity to synthesize knowledge and skills acquired in the program. Each student declares an individual topic, and weekly class meetings acquaint students with the skills and process necessary to develop a research-based project and presentation. Meetings with assigned faculty mentors provide individual guidance in the subject area. This course focuses on planning, research and drafting.

Prerequisites: ENG 101; ENG 102, cumulative GPA of 3.2 or permission of Honors Program Coordinator

HON 289H—Honors Capstone II: Writing and Presentation

This course (the second half of a two-semester capstone sequence required of all Honors Program students) continues the process of synthesizing knowledge and skills acquired in the program. Weekly class meetings support students in completing their Capstone projects and preparing a public presentation. Meetings with assigned faculty mentors provide ongoing individual guidance.

Prerequisites: ENG 101; ENG 102, HON 288H; cumulative GPA of 3.2 or permission of Honors Program Coordinator

Human Services

Behavioral Sciences Department

HMS 101—Introduction to Human Services 3 cr.

This course is an introduction to the history, theories, policies and methods of human service delivery systems. Designed for those students interested in a career in the helping professions, this course will introduce the student to society’s responses to social problems which arise when individuals’ basic needs cannot be met independently. Considering both theory and practical application, the class will explore the models and organization and management of human service agencies, the role of client and professional and ethical considerations.

*This course may be used as a liberal arts elective only; it does not fulfill the Social Science requirement for any degree nor any SUNY General Education requirement.

HMS 201—Field Experience 1 2 cr. (Fall)

This course is designed to allow the student interested in the
field of Human Services an opportunity to apply Psychological and Sociological terms, concepts and theories to a practical situation. The purpose of this first field placement is to introduce the student to six intra and interpersonal skills and competencies involved in direct care positions within the human service field. These include: Empowerment, communication, assessment, self-development, crisis intervention, and advocacy. Students will be given assignments to direct their field experiences. Students will be responsible for arranging their site placements with the assistance of the instructor or field placement coordinator. A grade of C is required to continue on to Human Services Practicum 2/or graduate.

Four hours of off campus site observation/participation per week is required.

Prerequisites: C or better in HMS 101 and placement into ENG 101 and permission of department chair or coordinator.

**HMS 202—Field Experience 2**

This course is designed to allow the student interested in the field of Human Services an opportunity to continue to apply theory and knowledge to a practical situation. The purpose of this course is to introduce the student to six family, community, group, and organizational skills and competencies involved in direct care positions within the human services field. These include: Networking: Community and Service Systems, facilitation of services, vocational, educational and career support, organizational participation and documentation. Students will be given assignments to direct their field work observations and participation. Students will be responsible for arranging their site placements with the assistance of the instructor or field placement coordinator. Placements in this second practicum must involve a different client population from the first placement (e.g. mental health mental retardation; children/adult populations) A grade of C is required to graduate.

Four hours of off campus site observation/participation per week required.

Prerequisites: C or better in HMS 201, and permission of department chair or coordinator.

**Human Services / Interdisciplinary Studies**

(Interdisciplinary Studies Department)

**IDS 114—American Civil Rights Movements**

This interdisciplinary course offers students the opportunity to analyze the major civil rights movement in the United States. Broadly, the course explores the historic and ongoing struggles on the part of minority and marginalized groups to dismantle the social, cultural, political and economic barriers that prevent them from fully enjoying the promise of American democracy. Using African Americans’ struggle for freedom and rights as a framework, the course considers similar movements by women, indigenous people, immigrants, LGBT persons, prisoners, veterans, (dis)abled persons, workers, and other persons of color to achieve recognition, rights and citizenship. Drawing on the range of fields including history, literature, sociology, political, science, the arts, and economics, the course will enable students to examine the development of these movements, their major historical and philosophical underpinnings, and key leaders. Additionally, the course offers the opportunity to assess the source and consequence of racism, discrimination, prejudice, misogyny, homophobia, and other ideas of difference that create and foster inequality. (GE 4)

**IDS 115—Introduction to Gender**

This is an introductory and foundational course on the key concepts, themes and theories of study of gender and sexuality. It will examine gender as an outcome of biological, social and cultural systems. This course will introduce students to basic concepts such as gender, sex, sexuality, gender differences and gender socialization. It will then explore how gender concepts and behaviors shape and are shaped by larger social institutions, including class divisions, ethnicity, media, philosophy/religions, educational and economic systems, and governments (GE 7).

**IDS 151—Introduction to Sustainability**

This course will explore meanings of the sustainability concept, including its historical context and application to the contemporary global society. Environmental impacts of resource use in the context of conventional economic growth will be assessed in the areas of energy, technology, production of goods, and transportation, and the nature of these impacts will be detailed. Tradeoffs associated with various strategies for mitigating impacts will be analyzed with the intent of proposing solutions to the challenges of achieving economic and environmental sustainability at local, regional and global scales.

**HUM 201—Introduction to Humanities 1: Ancient to Early Renaissance**

This course is a survey of the development of Western culture, from early man to the early Renaissance, with a focus on its beginnings in classical antiquity, including the study of the other important influences, from Asia, Africa, the Middle East and the Americas, on social and cultural development. It will examine the ideas, theories, and social and cultural artifacts (including the arts, literature, philosophy, religion and law) that led to, resulted from and helped define these times and places. Students experience the humanities by observing, reading, listening and reasoning. (GE 7)

NOTE: Class field trips are required, students are responsible for transportation and fees.

Prerequisite: ENG 101

**HUM 202—Intro to Humanities 2: Renaissance to the 1900**

This course is a survey of the development of Western culture from the Renaissance to 1900, including a study of other important influences from Africa, Asia, the Middle East, and the Americas, on social and cultural development. It will examine the ideas, theories and cultural artifacts (including the arts, literature, philosophy, religion and law) that helped define these times and places. Students experience the humanities by observing, reading, listening and reasoning. (GE 7)

NOTE: Class field trips are required, students are responsible for transportation and fees.

Prerequisite: ENG 101
HUM 203 – Introduction to Humanities 3: 1900 to the Contemporary
This course is a survey of the development of Western culture from the turn of the 20th century to the present, contemporary era, including the study of other important influences from Africa, Asia, Europe, the Middle East, and the Americas, on social and cultural development. It will examine the ideas, theories, and cultural artifacts (including arts, literature, philosophy, religion, and law) that helped define these times and places. Students experience the humanities by observing, reading, listening and reasoning. (GE 7)

NOTE: Class field trips are required; students are responsible for transportation and fees.
Prerequisite: ENG 101

Italian
(Global Studies Department)

ITA 101-102—Elementary Italian
For beginners. A basic course in grammar, punctuation, conversation, and reading. Contemporary Italian culture is discussed. (GE 9)

ITA 201—Intermediate Italian 1
This course increases students' ability to use the language through advanced grammar study and continued reading, writing & speaking. Students do basic review, then study more complex patterns, verb tenses, including subjunctive. Reading, writing and speaking focus on contemporary Italian culture and events.
Prerequisite: ITA 102 or instructor placement

ITA 202—Intermediate Italian 2
This course continues to focus on reading, writing, speaking related to contemporary Italian cultural issues. Advanced grammatical structures, including passive and subjunctives, are presented. Particular emphasis on idiomatic expressions and advanced conversational fluency.
Prerequisite: ITA 201 or instructor placement

Japanese
(Global Studies Department)

JPN 101—Elementary Japanese 1
A first-year, introductory level course in spoken Japanese for students who have not previously studied the language. The class utilizes an interactive approach to develop students' listening, speaking, reading, and writing skills, as well as basic vocabulary. The class also explores cultural ad historical factors that are relevant to understanding the language. General Elective, Liberal Arts Elective (GE 9)

Management
(Business Department)

MGT 201—Principles of Management
3 cr. (Fall/Spring)
The theory and applications of management techniques are examined. The essential processes necessary for the practice of management are developed. Within the framework of the functions of management, such topics are covered: Managing Change, Organizational Communication and Structure, Making Decisions, Strategic Planning, Leadership, Work Groups, Ethics and Social Responsibility. Cases and projects enrich the student's class experience.
Prerequisite: MAT 020 or placement into MAT 101 or higher

MGT 203—Entrepreneurship
3 cr. (Fall/Spring)
This course is designed for individuals who wish to start a business, for those who are already in business for themselves, and for those who seek entrepreneurial opportunities in an established company. Emphasis is placed on strengthening the organizational skills of the business manager. The issues of business entrepreneurship are analyzed through discussions and business plan development.
Prerequisite: MAT 020 or placement into MAT 101 or higher

MGT 205—Human Resource Management
3 cr. (Fall/Spring)
The student is introduced to an overview of this complex human resource management function as it applies to both the small and large business organization. The major thrust of the course is devoted to the basic personnel practices involved in employee recruitment selection, training, appraisal, affirmative action, labor relations, compensation, safety, and career planning.

MGT 220—Internship: Business
3 cr. (Fall/Spring)
An internship is an on-site, academically-related learning experience in an industry setting aligned to a student's personal career interests and academic course of study. This is a hybrid course. The student meets bi-weekly with the instructor in a seminar class setting to review reports and discuss class concepts. The student also meets weekly in an online setting to post to their job experience folder and interact with other students' job experiences. A research paper and internship portfolio must also be submitted. This is a fourth semester course.
Prerequisite: Approval of the Business Management Department Chair plus a CGPA of 2.5 or higher. Open to Business Management and Marketing majors.

NOTE: Students must comply with all policies, procedures, and regulations of the internship fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.
**Marketing**  
*(Business Department)*

**MKT 101—Principles of Marketing**  
3 cr. (Fall/Spring)

The thrust of this course is the “marketing concept” which stresses the organization’s first goal—customer satisfaction. Students use a systems approach to integrate the major marketing areas such as: Marketing Plan, Marketing Research, Consumer Buying Behavior, Product/Service Concepts, Promotion, Ethics and Social Responsibility. Marketing applications are developed through the strategic marketing process, which identifies the target market and its support of the marketing mix. Student exercises include customer service and Internet projects.  
*Prerequisite: MAT 010 or placement into MAT 020 or higher*

**MKT 115—E-Marketing Principles**  
3 cr. (Fall)

This course explores how web-based applications, services, and social networks are used to identify and target customers. E-Marketing integrates online and offline strategies. Students will learn data mining techniques and develop a social media marketing campaign.

**MKT 201—Principles of Advertising**  
3 cr. (Fall)

Students learn to identify the role of advertising and how it reflects society. Emphasis is placed on the need for strategic planning in order to determine creative tactics - visualization, copywriting and layout - and use of media (traditional, electronic, print and new) vehicles. Current materials from today's Advertising Agency departments are utilized.  
*Prerequisite: MAT 010 or math placement into MAT 020 or higher*

*NOTE: Introduction to Business (BUS 103) and Marketing (MKT 101) are the recommended pre- or co-requisite courses for Business majors.*

**MKT 202—Salesmanship**  
3 cr. (Spring)

Emphasis is placed on application of selling principles, various sales roles and motivational factors. Topics include: electronic commerce, prospecting, preparing the sales presentation, obtaining the appointment, the demonstration, and meeting objections and the use of the Internet in sales. Students participate in role-playing, dialogue, case analysis, and formal presentation.

**MKT 203—Marketing Management**  
3 cr. (Fall)

A study of the application of the principles underlying effective marketing management. The student examines the impact of marketing management decisions on such major areas as market research, product development, industrial marketing, promotion, pricing, and distribution. A field study market research project is included.  
*Prerequisite: MKT 101*

**MKT 204—Problems in Marketing**  
3 cr. (Spring)

Marketing problems are analyzed by use of the case study approach. This approach emphasizes the interrelationship of marketing management to the areas of accounting, economics, mathematics, and statistics toward the solution of problems. Topics include: product development and trend policy, channels of distribution, market research, pricing, advertising, and selling.  
*Prerequisite: MKT 101*

**Mathematics**  
*(Mathematics Department)*

**MAT 010—Fundamentals of Arithmetic**  
3 units* (Fall/Spring/Summer)

Designed for students who need a review of arithmetic, including addition, subtraction, multiplication and division of whole numbers, fractions, mixed numbers, decimals, and percents. Areas of geometric figures are investigated. The course is both intended to alleviate mathematics anxiety and avoidance and to develop self-confidence to continue study in mathematics.  
*Prerequisite: math placement test*  
*not applicable to associate degrees or certificate programs*

**MAT 020—Fundamentals of Algebra**  
3 units* (Fall/Spring/Summer)

Designed for students who need a review of beginning algebra. Topics include addition, subtraction, multiplication, and division of signed numbers, solutions of linear equations and inequalities, exponents, combining polynomials, literal equations, and applications of linear equations. Students learn to develop skills in reading of mathematics.  
*Prerequisite: MAT 010 or math placement test*  
*not applicable to associate degrees or other certificate programs*

**MAT 030—Fundamentals of Mathematical Reasoning**  
4 units*(Fall/Spring)

Designed for students who are non-STEM majors. This course focuses on math for everyday life. Topics include fluency with numbers, proportional reasoning, data interpretation, algebraic reasoning, modeling, and communicating quantitative information. Mathematical concepts are investigated through group problems and class discussions based on real-life contexts of citizenship, personal finances, and medical literacy. This course is not intended for students who plan to major in math, science, engineering, technology or business. This course does NOT satisfy the prerequisite for MAT 101.  
*Prerequisite: Eligible to take MAT 020, Eligible to take RDG 080 or higher, Eligible to take WRT 030 or higher.*  
*not applicable to associate degrees or other certificate programs*

**MAT 101—Elementary Algebra**  
3 cr. (Fall/Spring/Summer)

An elementary algebra course. Topics include operations on polynomials and rational expressions, laws of exponents, factoring, graphing of linear equations and inequalities, and...
systems of equations. A knowledge of operations on signed numbers and solutions to linear equations is required. Emphasis is placed on developing the skills necessary for further study of algebra.

Prerequisite: MAT 020 or math placement test
   Not open to students who have successfully completed MAT 102 or higher numbered courses. MAT 101 may only be used as the liberal arts elective credit in A.A., A.S., and A.S. Individual Studies degrees.

MAT 102—Intermediate Algebra

3 cr. (Fall/Spring/Summer)

An intermediate algebra course. Topics covered: include absolute value equations and inequalities; additional factoring techniques; radical expressions; complex numbers; quadratic equations; functions; graphing techniques; coordinate geometry; mathematical modeling; applications and problem solving. (GE 1)

Prerequisite: C or better in MAT 101 or math placement test
   Not open to students who have successfully completed MAT 121 or higher numbered courses. MAT 102 may only be used as math credit in the A.A. degree and only as elective credit in the A.S. or A.S. Individual Studies degrees.

MAT 107—Technical Math

3 cr. (Fall)

A basic operations approach to the study of algebra and trigonometry for students entering technical programs. Scientific calculators are used for applied problem solutions.

Prerequisite: C or better in MAT 101

MAT III—Foundations of Elementary School Mathematics

3 cr. (Fall/Spring)

This course is designed to provide a clear understanding of and ways of communicating the major concepts and skills taught in elementary school math. Concepts covered include problem solving; set theory; logic; different base number systems; whole number integers, rational numbers, and real numbers; number theory; statistics; and probability. This course is only for students interested in teaching elementary school. (GE 1)

Prerequisite: C or better in MAT 102 OR placement on math assessment of MAT 121 or higher

MAT 113—Mathematics for the Liberal Arts

3 cr. (Spring)

A liberal arts mathematics survey course. Topics are drawn from the areas of sets, logic, rational and real numbers, numeration systems, statistics, probability, patterns of numbers, and modular systems. (GE 1)

Prerequisite: successful completion of MAT 030 or C or better in MAT 101 or placement on the math placement of MAT 102 or higher

This course is not recommended for students who desire to progress towards the study of calculus. MAT 113 does not fulfill the 6-8 credits in math required in the A.S. degree.

MAT 120—Introduction to Statistics

3 cr. (Fall/Spring/Summer)

This course examines the general elements and principles of statistics used in the fields of education, consumerism, quality control, allied health, physical sciences, & social sciences. Course is broken into two parts; descriptive statistics and inferential statistics. Topics include: methods of summarizing and presenting data; measures of center, spread, and position; probability; binomial probability distribution; normal probability distribution; t-test; chisquare test; confidence intervals, hypothesis testing; and linear regression. (GE 1)

Prerequisite: successful completion of MAT 030 or C or better in MAT 101 or placement on the math placement of MAT 102 or higher

MAT 121—College Algebra

3 cr. (Fall/Spring/Summer)

College Algebra is the first course for students who plan to continue on toward the study of Calculus. Topics include: a thorough treatment of the concept of functions and their graphs, linear and quadratic functions, polynomial and rational functions, inverse functions, exponential and logarithmic functions and conic sections. (GE 1)

Prerequisite: C or better in MAT 102 or math placement test

MAT 122—College Trigonometry

3 cr. (Fall/Spring/Summer)

College Trigonometry is the second course for students who plan to continue on toward the study of Calculus. Topics include trigonometric functions, graphing techniques, right triangle applications, trigonometric identities, inverse functions, and oblique triangles. (GE 1)

Prerequisite: C or better in MAT 121

MAT 131—Pre-Calculus

4 cr. (Fall/Spring/Summer)

A course designed to review advanced techniques in algebra and trigonometry that are necessary for the study of calculus. The major areas of study are: algebra, manipulations, analytic geometry, exponentials, trigonometry, transforms and problem solving. (GE 1)

MAT 131 is not open to students who have completed MAT 121 or MAT 122.

Prerequisite: math placement test

MAT 134—Mathematical Reasoning and Proof

3 cr. (Spring)

Special Topics Course—Mathematical Reasoning and Proof is designed for students who plan to continue their studies in mathematics, mathematics education or science. This course will foster the ability to read and write mathematically correct proofs. Using some of the classic proofs and mathematical patterns, the course familiarizes the student with many of the foundational topics of mathematics as well as some of the current areas of research. The course includes Euclidean Geometry, Mathematical Induction, Strict Arithmetic Proof, and Elementary Number Theory Proofs, among others. The course also explores the developments in mathematics that gave rise to Computer Science.

Prerequisite: C or better in MAT 131, or MAT 122

MAT 136—Introduction to Discrete Mathematics

3 cr. (Fall/Spring)

Discrete mathematics deals with the analysis of discontinuous (separate, distinct, unconnected) phenomena. This branch of mathematics provides much of the underlying methodology for the use of computers. This branch of mathematics has applications in the fields of engineering, physical sciences,
Mathematics / Medical Laboratory Technician

MAT 205—Calculus 1
4 cr. (Spring/Fall/Summer)
Analytic geometry topics are introduced as needed to carry out the orderly development of the calculus. Topics include limits, continuity, derivatives & differentiation, implicit differentiation, Rolles’ Theorem and Mean Value Theorem, applications of differentiation (related rate problems, optimization problems), First & Second Derivative Tests (relative extrema & increasing/decreasing intervals), points of inflection & concavity, limits at infinity (horizontal asymptotes), curve sketching, differentials, antidifferentiation, area of bounded region using summations, Riemann Sums, the definite integral and the Fundamental Theorem of Calculus. (GE 1)
Prerequisite: C or better in MAT 122

MAT 206—Calculus 2
4 cr. (Spring/Fall/Summer)
A continuation of the calculus which builds on the basic concepts of derivatives and integration to include calculus of exponentials, logarithms, trigonometric functions, inverse trigonometric functions and hyperbolics, the area of a region between two curves, solids of revolution, application problems, integration, Trapezoidal rule, Simpson’s Rule, L’Hospital’s Rule, Taylor and Maclaurin polynomials, sequences and series, and power series. (GE 1)
Prerequisite: C or better in MAT 205

MAT 207—Calculus 3
4 cr. (Spring/Fall/Summer)
Covers three areas of discourse: vector analysis, partial differentiation and multiple integration. Specific topics include: conic sections, analysis of vectors in two and three space as well as their development as vector functions, directional derivatives, gradients, tangent planes, surface extremes, exact differentials, volume, surface area, moments, Green’s theorem, and line integrals. (GE 1)
Prerequisite: C or better in MAT 206

MAT 211—Linear Algebra
3 cr. (Fall/Spring/Summer)
Designed primarily for students planning to specialize in mathematics, computer science, or engineering. Topics include: vectors in R², R³, and Rⁿ, systems of linear equations, determinants and matrices, vector spaces, linear independence and basis, linear transformations, eigenvalues and eigenvectors, and diagonalizations.
Prerequisite: C or better in MAT 205

MAT 214—Differential Equations and Series
4 cr. (Spring/Summer)
The following differential equations topics are covered: equations of first order, linear equations of the second order, operators, and an introduction to partial differential equations.
Prerequisite: C or better in MAT 207

Medical Laboratory Technician
(Clinical Laboratory Science Department)

NOTE: Students must comply with all policies, procedures, and regulations of the internship/fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

NOTE: A grade of C (2.0) or better is required in all MLT—series courses for progression in the program and graduation with an A.A.S. degree in Medical Laboratory Technician. Completion of this A.A.S. degree is a requirement for national certification and NYS licensure examinations.

A physical examination as well as a tuberculin skin test is required prior to the beginning of the fall semester each academic year while enrolled in the Medical Laboratory Technician Program. The initial physical and admissions criteria also require a urine drug screen and a criminal background check which must be successful for entry into the program. Completed physical examinations, urine drug screen and criminal background checks must be on file at the college before the student is permitted to enter the clinical affiliate. Students are responsible for their own transportation to and from the college and to and from the clinical affiliate.

MLT 101 fulfills the liberal arts science requirement (without laboratory component) for the associate degrees. MLT 101 (with laboratory) can be applied to the liberal arts science requirement for associate degrees or the Medical Laboratory Technician program.

MLT 101—Fundamentals of Medical Physiology for MLT Majors
3 lect., 2 lab., 4 cr. (Fall)
Overview of the ten systems of the human body in health and disease with emphasis on cardio-vascular and respiratory physiology of the human. Laboratory exercises relate structure to function. Human materials and models are used. [R-1]

MLT 102—Urinalysis and Body Fluids
2 lect., 2 lab., 3 cr. (Spring)
This course provides a study of the urinary system, its structure and function and the processes that result in the formation of urine. The course will explore the collection of urinary samples and the analysis of the urinary samples with regard to physical, chemical and microscopic components. The clinical significance of urinary test results will be discussed as well as their correlation with disease states. The course will also explore body fluids and the analysis methods used in the laboratory. [R-1]
Prerequisite: MLT 101
Medical Laboratory Technician

MLT 103—Immunology 2 lect., 2 lab., 3 cr. (Fall)

The immune system; its components, and their functions. Antigen-antibody reactions, cell-mediated immunity, the complement system, and pathological conditions are discussed. [R-1]  

MLT 104—Hematology 3 lect., 3 lab., 4 cr. (Spring)

Topics include blood cell formation, function, pathological states both physiological and genetic, hemoglobinopathies, coagulation theory and factors. Laboratory exercises correlate basic tests with lecture topics. Test proficiency is developed utilizing manual and both automated and semiautomated techniques. [R-1]  

MLT 105—Introduction to Laboratory Science 1 lect., 2 lab., 2 cr. (Fall)

A survey of the clinical laboratory profession with emphasis on basic skills as it applies to the instrumentation used. Lecture topics include safety, specimen handling, basic instruments, solution-making, and quality assurance. [R-1]  

MLT 106—Microbiology for Health Professionals 2 lect., 2 lab., 3 cr. (Fall/Spring/Summer)

Overview of bacteria, yeasts, molds, protozoa and viruses in relation to the Allied Health Professions. Lectures deal with host-microorganism relationships. Laboratory includes use of the microscope, culture methods and destruction of micro-organisms. Sterile technique is stressed. [R-1]

Prerequisite: one semester of a biological science or corequisite: concurrent enrollment in BIO 111

MLT 109—Phlebotomy 6 lect., 4 lab., 7 cr. (Fall/Spring)

A 210-hour course where the student is trained in drawing and handling blood samples for laboratory testing in hospitals, doctors’ offices, and large service laboratories. Training includes a minimum of 120 hours of clinical experience and a minimum of 100 successful unaided collections. Students learn a variety of collection techniques, have contact with various patient types, and learn in a variety of settings. Approved methods, safety, medical terminology, anatomy, laboratory procedures, and professional conduct are discussed in lecture. Students are eligible to sit for the ASCP National Certification Examination upon successful completion of the NAACLS-approved course of study.

See Medical Laboratory Technician course sequence pages for NAACLS address and phone number.

Prerequisite: high school diploma or GED is required. Attendance at a pre-admissions orientation and permission of department chair

MLT 110—Fundamentals of Medical Physiology 3 lect., 3 cr. (Spring)

Overview of the ten systems of the human body in health and disease with emphasis on cardiovascular and respiratory physiology. This course does not include a laboratory component fulfills the liberal arts science requirement for associate degrees.

MLT 200 – Clinical Applications and Review 2 lect., 2 cr. (Spring)

This course is designed to be a capstone course that allows the student to apply the knowledge gained in the program and review pertinent material for the licensure/certification examinations. The student will research and present various case studies related to all of the laboratory disciplines, statistics, instrumentation and ethics. The student will review mock certification exams which will be discussed in class. [R-1]

Prerequisite: MLT 102, MLT 103, MLT 104, MLT 105, MLT 203, MLT 207, MLT 209 and MLT 251

Corequisite: MLT 208, MLT 212, MLT 252 or completion of all professional courses

MLT 203 —Immunohematology 2 lect., 3 lab., 3 cr. (Fall)

Detailed study of basic concepts of inheritance and heredity with respect to human blood factors. Blood-bank procedures such as typing, immune antibody screening and identification, titre level determination, medicolegal exclusions and transfusion procedures are performed. [R-1]

Prerequisite: MLT 103, MLT 104

MLT 207—Clinical Chemistry 1 2 lect., 2 lab., 3 cr. (Fall)

Study of the composition and methods of assay of body fluids. Lecture stresses the physiologic basis of human metabolites in health and disease. Laboratory emphasizes analytical methodologies, basic instrumentation and quality control. Carbohydrate metabolism, NPN, electrolytes and proteins are studied in detail. [R-1]

Prerequisite: CHM 103, CHM 104 or CHM 105, CHM 106

MLT 208—Clinical Chemistry 2 2 lect., 2 lab., 3 cr. (Spring)

Continued study of the composition and methods of assay of body fluids. Lipids, enzyme kinetics, liver function tests, renal function, cardiac assessment hormone levels and toxicology are discussed in lecture and performed in the laboratory. [R-1]

Prerequisite: MLT 207

MLT 209—General Microbiology 3 lect., 3 lab., 4 cr. (Fall)

Classification, nomenclature and identification of micro-organisms. The physiology of micro-organisms, pathogenic organisms and organisms of economic importance are considered. Industrial microbiology and agricultural bacteriology are included. Laboratory exercises stress sterile technique, staining methods, culture of microorganisms and biochemical tests used in identification. [R-1] (GE 2) This course is open to MLT majors only. Permission of the department chair is required for other students.

Prerequisite: one semester of a biological science

MLT 212—Clinical Microbiology 2 lect., 3 lab., 3 cr. (Spring)

The identification and quantification of pathologic and non-pathologic organisms encountered in human specimens. Treatment and handling of specimens are
discussed. Methods in mycology, parasitology and serology as applicable to the clinical laboratory are taught. [R-1]

Prerequisite: MLT 209

MLT 216—Histology

2 lect., 3 lab., 3 cr. (Spring)

The microscopic study of vertebrate cells, tissues and organs, stressing the relationship of structure to function. Laboratory work includes the preparation of stained slides for light microscopic study and study of prepared slides of cells, tissues and organs to enable the student to identify basic tissues. [R-1]

Prerequisite: one semester of a biological science

MLT 251—Clinical Training 1

0 lect., 7 lab., 2 cr. (Fall)

Under the supervision of clinical proctors, students practice medical laboratory techniques. [R-1]

Prerequisite: MLT 101, MLT 102, MLT 104, MLT 103

Corequisite: MLT 207

MLT 252—Clinical Training 2

0 lect., 15 lab., 5 cr. (Spring)

Continuation of clinical experience. Under the supervision of clinical proctors, students gain additional experience in developing technical skills. [R-1]

Prerequisite: MLT 203, MLT 209

Corequisite: MLT 208 and MLT 212, or completion of all professional courses

Music

(ARTS & Communication Department)

MUS 101—Introduction to Music

3 cr. (Fall/Spring/Summer)

Enjoyment of music through the study of basic musical concepts and acquisition of listening skills. Examines a wide variety of musical styles within their cultural contexts. (GE 7)

MUS 103—History of Western Music to 1750

3 cr. (Fall)

A survey of the music of ancient cultures including Greece and Rome and the Early Christian, Medieval, Renaissance, and Baroque periods. Social, political, historical, and cultural influences are considered. This course includes extensive classroom listening to the music of the great composers culminating in the works of Bach and Handel. (GE 7)

MUS 104—History of Western Music from 1750

3 cr. (Spring)

A survey of the music of the Classical, Romantic, and Twentieth century periods. Social, political, historical, and cultural influences are considered. This course includes extensive classroom listening to the music of the great composers from Mozart and Beethoven to contemporary artists. (GE 7)

MUS 105—History of Jazz

3 cr. (Fall/Spring)

A study of jazz from its origin to the present. An examination of the important musicians, styles, and influences through recorded examples of ragtime, blues, Dixieland, swing, bop, progressive jazz, third stream, and contemporary trends. (GE 7)

MUS 107—History of Rock Music

3 cr. (Fall/Spring/Summer)

A survey of rock music from its origins in African-American and Anglo-American folk styles through the present. Examines the entire phenomenon of rock music, its relationship to other musical styles, the influence of social factors on the music, and the influence of the music, in turn, on society. (GE 7)

MUS 109—Music Business

3 cr. (Fall/Spring)

An introductory course exploring practical, legal, and procedural problems encountered in the music industry. A variety of career areas are surveyed to provide an orientation for students preparing for a career in music as well as those planning to transfer to four-year programs in the music business and other fields.

MUS 111—Audio Engineering and Design for the Arts

2 lect., 2 lab, 3 cr. (Fall/Spring)

This is a hands-on course designed to give students a basic working knowledge of sound technologies in the performing and presentational arts. Students will focus on the nature and physics of sound and its effect on the performance environment, the equipment that enhances and augments sound, and the design and implementation of sound in different performance media.

MUS 113—Introduction to Audio Recording

2 lect., 2 lab, 3 cr. (Fall/Spring)

Introduction to the basic tools and techniques used in audio recording. Areas of study include signal path; microphone characteristics and application; Pro Tools software; outboard equipment; and the practical application of studio procedures in tracking, mixing, and editing a recording.

MUS 121—Fundamentals of Music

3 cr. (Fall/Spring/Summer)

This course provides thorough groundwork in the rhythmic, melodic, and harmonic elements of music.

Topics include pitches in different clefs, accidentals, rhythm, simple and compound meter and meter signatures, major and minor scales and key signatures, the circle of fifths, intervals, chords, and chord progressions. This course is not required for and cannot be counted toward the A.A.S. Performing Arts: Music degree, but does prepare students for that program. May be used toward fulfillment of the SUNY Arts or elective credit requirements for A.A. and A.S. degrees. (GE 8)
MUS 123—Basic Musicianship 1
3 lect., 4 lab., 5 cr. (Fall)
An intensive course designed to enhance comprehension of musical concepts and develop skill in the handling of musical materials. Includes a review of music fundamentals, basic principles of part-writing, harmonization, and analysis. Studies integrate music theory, ear training, keyboard harmony, and sight singing to lay the groundwork for future study. (GE 8)
Prerequisite: MUS 121 or departmental placement
Corequisite: enrollment in a piano course

MUS 124—Basic Musicianship 2
3 lect., 4 lab., 5 cr. (Spring)
A continuation of Basic Musicianship 1. Topics include triad inversion, secondary chords in a key, seventh chords, and nonharmonic tones correlated with more advanced ear training, keyboard harmony, and sight singing materials. (GE 8)
Prerequisite: MUS 123
Corequisite: enrollment in a piano course

MUS 131—Elementary Piano 1
2 cr. (Fall/Spring)
Class instruction for beginners with no previous musical training and for those wishing a refresher in piano fundamentals. Emphasizes the development of basic keyboard skills, sight reading, and the use of basic chord patterns. (GE 8)

MUS 132—Elementary Piano 2
2 cr. (Fall/Spring)
A continuation of MUS 131 which concentrates on the performance of more advanced materials. (GE 8)
Prerequisite: MUS 131

MUS 141—Group Voice 1
2 lect., 0 lab., 2 cr. (Fall)
An introductory level course designed to develop vocal potential by learning proper vocal technique, studying musical notation and performing folk, musical theater and art songs in an individual setting. (GE 8)

MUS 142—Group Voice 2
2 lect., 0 lab., 2 cr. (Spring)
An intermediate level course designed to continue individual vocal development by learning advanced vocal technique, increasing musical vocabulary and performing musical theater and foreign language art songs and arias in an individual setting. (GE 8)
Prerequisite: MUS 141 or permission of instructor

MUS 151—Chorus
0 lect., 2 lab., 1 cr. (Fall/Spring)
This course provides choral performance experience. The repertoire includes selections from major choral works, music representing a variety of styles, and pieces in different languages. No audition is required. Participation in all concerts is mandatory. Students may repeat course for a total of four credits. (GE 8)

MUS 153—Madrigal Singers
0 lect., 2 lab., 1 cr. (Fall/Spring)
A select vocal ensemble that performs a variety of advanced a cappella and accompanied pieces from choral repertoire composed throughout the centuries. Required audition is held the first week of each semester. Participation in concerts is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor
Corequisite: MUS 151

MUS 155—Orchestra
0 lect., 2 lab., 1 cr. (Fall/Spring)
This course will provide a wide variety of instrumental experiences for those who enjoy playing an orchestral instrument. Standard orchestral repertoire will be studied, ranging from those to light to classical selections. Participation in public performances is mandatory. May be repeated for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 159—Band
0 lect., 2 lab., 1 cr. (Fall/Spring/Summer)
The SUNY Orange Symphonic Band offers the student a variety of instrumental experiences. Music programmed during the semester explores a variety of original and arranged works for symphonic and concert band, from traditional and contemporary classical concert works to more popular numbers as well as suites from Broadway and Hollywood scores.
The minimum performance level expected is NYSSMA Level 3. Participation in performances is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 160—Vocal Jazz Ensemble
0 lect., 2 lab., 1 cr. (Fall/Spring)
Students will study and perform compositions in the vocal idiom. Principles of group performance are presented with emphasis on balance, intonation, dynamics, articulation, phrasing, expression, interpretation and stage presence. Participation in all performances is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: permission of instructor

MUS 161—Jazz Ensemble
0 lect., 2 lab., 1 cr. (Fall/Spring)
The study of performance of compositions in the jazz idiom. Principles of group performance are presented with emphasis on balance, phrasing, interpretation and other factors important to the development of jazz performance techniques. Participation in performance is mandatory. Students may repeat course for a total of four credits. (GE 8)
Prerequisite: audition and permission of instructor

MUS 163—Jazz Improvisation 1
2 cr. (Fall)
Basic techniques of jazz improvisation. Chord usage, scales, arpeggios are used to color standard tunes and strengthen weak progressions. Students are expected to bring their instruments to class and practice assignments at home.
Class time is allocated for individual and group instruction and analyzing recorded solos by noted artists. (GE 8)

MUS 164—Jazz Improvisation 2  
2 cr. (Spring)  
Improvisation approached as spontaneous composition with emphasis on melodic and rhythmic principles. The ability to read music is necessary. Students explore different stylistic approaches to reading and phrasing. Listening, discussion, demonstration and performance are required. (GE 8)  
Prerequisite: MUS 163 or permission of instructor

MUS 165—Jazz Keyboard Harmony  
2 lect., 0 lab, 2 cr. (Spring)  
This is a functional keyboard class designed primarily to assist students with the assimilation of concepts and skills taught in Jazz Improvisation and Elements of Arranging, but is open to any student with permission of the instructor. The course focuses on jazz harmonization techniques with an emphasis on harmonizing and performing tunes from the standard jazz repertoire at the piano.  
Prerequisite: MUS 123 Intermediate Piano 1 or permission of instructor

MUS 167—Jazz/Commercial Guitar 1  
2 lect., 0 lab, 2 cr. (Spring)  
A study of Jazz/Commercial Guitar styles covering nomenclature, modes, diatonic and altered chord voicings, improvisation, chord melody and basic repertoire.  
Prerequisite: permission of instructor or department chair

MUS 169—Jazz/Commercial Drumming  
2 lect. 0 lab, 2 cr. (Spring)  
A study of jazz and commercial drumset styles covering nomenclature, sticking and brush patterns, phrasing, coordination techniques, rhythm reading and drum chart reading, with an emphasis on current swing, Latin, fusion and ballad styles.  
Prerequisite: permission of instructor or department chair

MUS 170-MUS 177—Private Instruction  
1 cr. (Fall/Spring)  
Students are responsible for arranging private music lessons with an instructor approved by the Arts and Communication Department and for paying an additional fee to the instructor. Forms available from the Arts and Communication Department must be obtained during the first week of classes and completed no later than the third week.  
End-of-semester jury examination is required of all Private Instruction students  
May be repeated progressively. Special fee. (GE 8)  
Prerequisite: Music major or permission of course coordinator or department chair

MUS 221—Songwriting  
1 lect., 2 lab., 2 cr. (Spring)  
An introduction to the art and craft of songwriting. Includes analysis of existing songs written in various styles in terms of the fundamental musical elements: rhythm, form, melody, harmony, timbre, dynamics, texture and text. Analytic and creative exercises and projects enable students to acquire skill in evaluating and critiquing songs and in producing original work.  
Prerequisite: Music major or permission of instructor

MUS 223—Advanced Musicianship 1  
3 lect., 2 lab., 4 cr. (Fall)  
Advanced harmony, ear training, sight singing, harmonization at the keyboard and writing of original compositions. (GE 8)  
Prerequisite: MUS 124  
Corequisite: enrollment in a piano course

MUS 224—Advanced Musicianship 2  
3 lect., 2 lab., 4 cr. (Spring)  
A continuation of Advanced Musicianship I. Topics include chorale harmonization, ninth chords, altered chords, modulation to distant keys. Score analysis and composition projects. (GE 8)  
Prerequisite: MUS 223  
Corequisite: enrollment in a piano course

MUS 226—Elements of Arranging  
3 cr. (Spring)  
Emphasis is placed on the fundamentals of scoring for various instrumental combinations with particular attention to range, color, transposition, and technical capabilities of individual instruments. The course includes planning and writing arrangements for various ensembles with focus on the jazz idiom. Creative projects to be performed when possible by SUNY Orange ensembles. (GE 8)  
Corequisite: MUS 224

MUS 231—Intermediate Piano 1  
2 cr. (Fall/Spring)  
Materials are drawn from classic, romantic and contemporary composers. (GE 8)  
Prerequisite: MUS 132

MUS 232—Intermediate Piano 2  
2 cr. (Fall/Spring)  
Emphasis on technique, sight reading, pedaling, phrasing and interpretation. (GE 8)  
Prerequisite: MUS 231

MUS 233—Advanced Piano 1  
2 cr. (Fall/Spring)  
Materials of medium grade difficulty. Compositions for piano ensemble. Technical studies. Memorization of at least two selections. (GE 8)  
Prerequisite: MUS 232

MUS 234—Advanced Piano 2  
2 cr. (Fall/Spring)  
Materials of increasing difficulty for solo and ensemble. (GE 8)  
Prerequisite: MUS 233

Nursing

(Nursing Department)

NOTE: Students must comply with all policies, procedures and regulations of the preceptorship clinical site. Failure to do so will result in immediate removal from the site and automatic failure of the course.  
NOTE: A letter, A through F, may immediately follow the last digit of the catalog number; it merely serves to identify course sections on the student's transcript.

209
NUR 010—Support Module for Nursing 1
1 unit*

This course is designed to assist the student in understanding the principles and practices presented in Nursing 1: Fundamentals. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 1 students.

Corequisite: NUR 101: Fundamentals
* not applicable to associate degree or certificate programs

NUR 020—Support Module for Nursing 2
1 unit

This course is designed to assist the student in understanding the principles and practices in Nursing II: Fundamentals. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 2 students.

Corequisite: NUR 102: Fundamentals

NUR 030—Support Module for Nursing 3
1 unit

This course is designed to assist the student in understanding the principles and practices in Nursing 3: Caring for the Growing Family. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 3 students.

Corequisite: NUR 201: Caring for the Growing Family

NUR 040—Support Module for Nursing 4
1 unit

This course is designed to assist the student in understanding the principles and practices in Nursing 4: Physical and Mental Illness. Various forms of supplemental material, such as worksheets and case studies, are used to reinforce the information and concepts required of Nursing 4 students.

Corequisite: NUR 202: Physical and Mental Illness

NUR 101—Nursing 1: Fundamentals
4 lect., 9 lab., 7 cr.

This course introduces students to the various roles of the associate degree nurse. This semester the growth and development of the older adult is the focus of study. The physiological and psychological needs of members of this population are introduced. The nursing process, a model for decision making, is presented. The student is guided in the gathering of data, planning and implementation of nursing care. [R-1]

Corequisites: BIO 111, MLT 106

NUR 102—Nursing 2: Fundamentals*
6 lect., 12 lab., 10 cr.

This course builds on previous knowledge, giving the student further insight into the various roles of the associate degree nurse. The growth and development of the middle adult is the focus of study. The basic needs of the middle adult with a common health problem are introduced. The student uses the nursing process in planning and implementing the client's care. [R-1]

Prerequisites: BIO 111 with C or higher; MLT 106 with C or higher; grade of 75% (C) or higher in NUR 101; completed or concurrent enrollment in BIO 112

NUR III—Basic Clinical Calculations for Medication Administration 1
1 lect., 1 cr.

This course introduces the calculations used for the safe administration of oral and parenteral medications in the health care setting. Dimensional analysis is the method used to assist the learner to obtain answers with accuracy.

Prerequisites: tested into MAT 101 Basic Math I, or by permission of the instructor

Corequisite: NUR 101

NUR 112—Basic Clinical Calculations for Medication Administration 2
1 lect., 1 cr.

This course reviews Dimensional Analysis and the conversion between the various systems of measurement. The student will receive practice in calculating the safe administration of complex oral and parenteral medications in the health care setting. The safe administration of intravenous fluids and medications will be introduced.

Prerequisite: completion of NUR 111 or NUR 101

Corequisite: NUR 102

NUR 201—Nursing 3: Caring for the Growing Family
4 lect., 9 lab., 7 cr.

This course is designed to promote understanding of the various roles of the associate degree nurse related to family development. This semester the growth and development of individual members of the family is studied in relation to their basic needs. The student refines skills in using the nursing process to assess the needs and provide care for the maternity client, as well as the child, in health and illness [R-1]

Prerequisites: ENG 101-2, BIO 112 with C or higher, MLT 106 with C or higher, and grade of 75% (C) or higher in NUR 102

Corequisite: PSY 111, NUR 205

NUR 202—Nursing 4: Physical and Mental Illness*
6 lect., 13** lab., 9 cr.

This course prepares the student for entry into practice as an associate degree nurse. The course is structured to promote a secure knowledge base in chronic and complex physical and mental illness that affect individuals of all ages. The student demonstrates skill in using the nursing process to make and evaluate nursing care decisions. [R-1]

Prerequisites: PSY 111 and grade of 75% (C) or higher in NUR 201 and NUR 205

**NOTE: A grade of 75% (C) or higher in NUR 202 is required to graduate with an A.A.S. degree in nursing. An A.A.S. degree in nursing is required for certification to take the National Council Licensure Examination (NCLEX) for Registered Professional Nurse (RN).

**13 weeks.

NUR 203—Nursing 5: Transition to Practice
1 cr.

This course focuses on the role transition of student to staff nurse. The student will work with a registered nurse preceptor and faculty members as part of a health care team. Emphasis will be placed on the duties and responsibilities of the beginning staff nurse in planning, prioritizing, coordinating and implementing client care activities. The objectives will include increased skill in applying the nursing
process, as well as an increased ability to evaluate self-performance and heightened levels of self-confidence.

Prerequisite: NUR 101, NUR 102, NUR 201, NUR 202, NUR 205

NUR 205—Pharmacology and the Human Body 3 cr.

An introduction to medications used to maintain health and/or treat diseases and disorders. The course includes beginning concepts in the origins of medications, how commonly used medications act in the body, how they are changed in the body and how their effects are produced. Toxic effects, side effects and adverse reactions to commonly used drugs are included as well as the effects of medications in all stages of human development.

Prerequisite: BIO 112, NUR 101
Corequisite: enrollment in the Nursing Program

NUR 207—Advanced Clinical Calculations for Medication Administration 1 lect., 1 cr.

This course is designed to assist the student to perform the preparation and administration of medications safely in complex and diverse clinical situations. Dimensional analysis is the method used to assist the learner to obtain answers with accuracy.

Prerequisites: NUR 112 or NUR 102 or permission of instructor

Physical Examination

Physical examination is required upon admission to the program within a three-month period prior to the beginning of classes in nursing and at the beginning of classes in nursing of the second year. Students will not be allowed in the clinical area without a completed physical examination, required immunizations and negative drug screening on file with the college. Criminal background check clearance is also required upon admission to the program and prior to registering for nursing classes.

Transportation Costs

Students must make their own arrangements, at their own expense, for transportation on days when classes are held off campus.

Uniforms

Nursing student uniform must be worn whenever class meets off campus.

Basic Life Support

Basic Life Support (BLS) by the American Heart Association is required throughout all Nursing courses.

*All nursing courses combine classroom theory with clinical experience in the hospitals and community agencies throughout the local area.

Occupational Therapy Assistant

(Occupational Therapy Assistant Department)

NOTE: Students must comply with all policies, procedures, and regulations of the internship/fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

NOTE: A grade of C or higher is required in all OTA—series courses to graduate with an A.A.S. Occupational Therapy Assistant degree.

Nursing / Occupational Therapy Assistant

Failure to pass BIO 111 and/or BIO 112 may prevent progression in the Occupational Therapy Assistant course sequence. Students who fail or withdraw from either of these courses must receive special permission from the department chairperson to continue in the program sequence.

NOTE: R-1 indicates those academic courses that may be repeated for credit only once with OTA faculty and department chair review and approval. Department Chairs, with approval of the appropriate Associate Vice President, may waive this policy, and appeals for denials will be processed using the Academic Grievance Process.

OTA 101—Fundamentals of Occupational Therapy I 2 lect., 3 lab., 3 cr. (Fall)

This course is an introduction to the basic concepts of occupational therapy. Content includes history, philosophy, role delineation, ethics, cultural issues, standards of practice and professional associations. The OT process, practice framework, principles and application of group dynamics, therapeutic use of self and the importance of delivering evidence-based practice are emphasized. A Level I fieldwork component provides exposure to the practice of OT in a variety of practice settings. Students must pass both Level I field observation evaluations in order to pass this course. (*Malpractice insurance fee applied) [R-1]

Prerequisite: Admission to OTA Program
Corequisite: BIO 111, ENG 160, OTA 103, OTA 107

OTA 102—Fundamentals of O.T. II 2 lect., 2 lab., 3 cr. (Spring)

Course provides the student with practical experience in a variety of treatment techniques utilized in occupational therapy. Units on splinting, transfer techniques, activities of daily living techniques and adaptive equipment, are included. (*Lab fee applied) [R-1]

Prerequisites: BIO 111, OTA 101, OTA 103, OTA 107
Corequisites: BIO 112, OTA 104, OTA 106

OTA 103—Occupational Performance I 3 hour lab - 1 cr. (Fall)

Emphasis is on the understanding of occupation in one's daily life and the impact of physical, emotional and developmental challenges to carrying out activities of daily living. Basic problem-solving skill techniques and activities are learned as well as their therapeutic application to a variety of disability areas. Students actively engage in the teaching and learning-process which is essential in occupational therapy practice. Students are required to learn specific craft activities in a group setting, as a form of treatment intervention in the delivery of occupational therapy services. Principles of activity analysis, therapeutic application, and group and dyadic presentation techniques are covered. (*Lab fee applied)

Prerequisite: Admission to the OTA Program
Corequisites: BIO 111, ENG 160, OTA 101, OTA 107

OTA 104—Occupational Performance II 3 hour lab - 1 cr. (Spring)

This is the second in a series of three clinical skills courses, following Occupational Performance I and preceding Clinical Reasoning Skills. The occupational performance course builds upon the foundation of occupation and the Occupational Therapy Practice Framework established in the preceding course. The course
also addresses a variety of intervention techniques including adapted and therapeutic games, computers and assistive technology. Emphasis is on service learning community projects, problem-based learning and evidence-based practice research projects. (*Lab fee applied) [R-1]

Prerequisite: BIO 111, OTA 101, OTA 103, OTA 107
Corequisite: BIO 112, OTA 102, OTA 106

OTA 106—Medical Conditions

This course presents the etiology and symptoms of medical and psychological clinical conditions across the lifespan that are commonly referred to occupational therapy services. Course content emphasizes the effects of trauma, disease, and congenital conditions on the biological, psychological, and social domains of occupational behavior. An exploration of cultural perspectives on disease and wellness will be included. [R-1]

Prerequisite: BIO 111 and OTA 101
Corequisite: BIO 112, OTA 102, OTA 104

OTA 107—Principles of Occupational Therapy in Geriatrics and Gerontology

This course gives the student a working knowledge of the social, emotional, physical, and psychological aspects of aging. The student is made aware of services available to older adults in the community and the principles of occupational therapy as they relate to the older adult patient. [R-1]

Prerequisite: Admission to OTA Program
Corequisite: ENG. 160, OTA 101, OTA 103

OTA 110—Introduction to Assistive Technology

This project-based and experiential course will introduce students to the field of Assistive Technology and the various tools/supports and resources available. Students will engage in assignments that will help to broaden their understanding of how technology may be used to improve function and independence in people with various disabilities. Students will be expected to attend face-to-face classes as well as participate in weekly on-line learning activities. This is a hybrid course involving classroom and on-line lecture and learning activities. [R-1]

OTA 201—Principles of OT in Pediatrics & Developmental Disabilities

The student is introduced to the various conditions that interfere with normal development, and the occupational therapy treatment techniques used with the developmentally and intellectually disabled. Students are presented with a problem-based learning case study and client to develop throughout the semester. This project culminates in the development of an individualized intervention plan, as well as an adapted/assistive technology application designed to meet the needs of the client. (*Malpractice insurance fee applied) [R-1]

Prerequisite: PSY 220, BIO 111, OTA 102, OTA 104, OTA 106
Corequisite: OTA 203, OTA 205, OTA 207, OTA 209

OTA 203—Clinical Reasoning Skills

The emphasis in this course is on the application of clinical reasoning skills applied to the diverse OT practice areas. A series of clinical reasoning/role playing modules encourage students to simulate intervention approaches and treatment activities. Group process is an integral component as students are assigned to community connections project groups.

The community outreach projects, problem-based learning and evidence-based practice research projects initiated in OTA 104 (OP II) are continued in this course. (*Malpractice insurance fee applied) [R-1]

Prerequisites: OTA 102, OTA 104, OTA 106
Corequisites: OTA 201, OTA 205, OTA 207, OTA 209

OTA 205—Principles of Occupational Therapy in Mental Health

This course addresses the critical mental health component in all areas of occupational therapy service provision; physical, developmental and psychiatric. The emphasis is on addressing remediation, and compensation for mental, cognitive, perceptual, behavioral skills and sensory functions across a wide spectrum of physical, developmental and mental health issues. A study of the theoretical basis for DSM-IV Classifications is reviewed and applied to occupational therapy intervention techniques. Students are guided through a series of self-reflection activities to develop the essential aspects of therapeutic use of self. (*Malpractice insurance fee applied) [R-1]

Prerequisite: BIO 112, OTA 102, OTA 104, OTA 106
Corequisites: OTA 201, OTA 203, OTA 207, OTA 209, PSY 230

OTA 207—Principles of Occupational Therapy in Physical Disabilities

A study of the theoretical basis for occupational therapy treatment techniques in physical disorders. The student is introduced to specific techniques and skills utilized in the area of physical dysfunction. (*Malpractice insurance fee applied) [R-1]

Prerequisites: OTA 102, OTA 104, OTA 106
Corequisites: OTA 201, OTA 203, OTA 205, OTA 209

OTA 209—Documentation in Occupational Therapy

This course will provide knowledge of documentation and the quality assurance process used in occupational therapy practice, with a focus on electronic health records. Modules will address legal and ethical issues related to documentation and reimbursement. Students will review various documentation formats that are used in practice and how the appeals process works when claims are denied. The role of the OTA in case management will also be described. Students will be assigned to fieldwork affiliation sites during the semester to increase their observational and documentation skills. [R-1]

Prerequisites: OTA 102, OTA 104, OTA 106
Corequisites: OTA 201, OTA 203, OTA 205, OTA 207

OTA 217—Clinical Practice 1

This course provides a supervised eight week clinical
experience in an occupational therapy treatment setting. The student may elect to work with the physically challenged, emotionally challenged, developmentally challenged population or an emerging area of practice. The student is expected to use knowledge and skills, acquired through previous course work, to carry out prescribed treatment programs. Evaluation, treatment intervention and treatment documentation are the major components of the fieldwork experience. (*Malpractice insurance fee applied) [R-1]

Prerequisites: OTA 201, OTA 203, OTA 205, OTA 207, OTA 209, All Academic Coursework

OTA 218—Clinical Practice II  
This second eight-week clinical experience follows the successful completion of Clinical Practice I and occurs in a setting that services a different client population than the first clinical course. Evaluation, treatment intervention and treatment documentation are the major components of the fieldwork experience. The student is expected to apply knowledge and skills acquired through course work and the preceding clinical experience. (*Malpractice insurance fee applied) [R-1]

Prerequisites: OTA 217

*See Tuition and Fees section for current lab and malpractice insurance fees.

## Office Technologies  
(Business Department)

### OFT 103—Medical Coding
3 cr. (Fall/Spring)

This course will introduce students to the characteristics and conventions of the current CPT and ICD-CM coding. Format and correct coding practices will be taught. The importance of using accurate coding conventions to maximize reimbursement in the medical office will be stressed.

Prerequisite: MAT 010 or math placement into MAT 020 or higher

### OFT 106—Keyboarding
.5 lect., 1 lab., 1 cr. (Fall/Spring)

This course concentrates on building skills over a period of one-half semester. Students learn the use of alphabetic and numeric keys. In order to complete the course with a passing grade of C, students will be expected to work at a minimum speed of 20-25 words per minute for three minutes with reasonable accuracy using the touch method (without looking at the keys). This course meets three hours per week for eight weeks.

Students who already have acceptable skill levels, should take the departmental examination for possible waiver of the course. OFT 107 or higher may be substituted for OFT 106.

### OFT 107—Elementary Computer Keyboarding
2 lect., 2 lab., 3 cr.

The course objective is mastery of the typewriter/computer keyboard. Topics include the parts and functions of the workstation, personal and business letter arrangements, manuscript writings, and basic centering and tabulation problems. For a grade of C on straight copy writings, the student must achieve a minimum speed of 30 words per minute with a maximum of 5 errors on a five-minute writing.

### OFT 108—Introduction to Keyboarding and Office Applications
2 lect., 2 lab., 3 cr.

This course teaches students to master the “touch” (without looking at the keys) method of alphabetic, numeric, and symbol keys. Professional competency is developed in keying business documents using Microsoft Word software. Students learn to format memos, letters, tables, reports, and other business documents. Emphasis is placed on correct keyboarding, formatting, and proofreading techniques. For a grade of C, the student must achieve minimum speed on straight-copy, five-minute writings of 35 words per minute with a maximum of 3 errors.

Prerequisite: OFT 108

### OFT 109—Advanced Office Applications
2 lect., 2 lab., 3 cr. (Spring)

Emphasis is placed on learning advanced details and building production skills on letters, tables, reports, and other business documents using Microsoft Word software. For a grade of C, the student must achieve minimum speed on straight-copy, five-minute writings of 50 words per minute with a maximum of 3 errors.

Prerequisite: OFT 108 or placement by department

### OFT 110—Legal Documents and Terminology
3 cr.

This course presents classroom knowledge in preparing the legal documents used in a legal office setting. They include: pleadings and related documents, separation and dissolution of marriage papers, criminal law papers, wills and trusts, contracts, corporation and partnership forms, and real estate transactions. Students will learn legal terminology as they progress through each topic. They will also develop speed on straight-copy keyboarding.

Prerequisite: OFT 108

### OFT 201—Records/Information Management
3 cr. (Spring)

This is a survey course which provides an overview of records/information management as a system. The role of the records manager and the records management staff within the system are emphasized. Other areas of emphasis include inventories, developing retention schedules, active/inactive records management, archives management, disaster prevention and recovery, and manual preparation. An introduction to Microsoft Access is included.

Prerequisite: MAT 010 or math placement into MAT 020 or higher

### OFT 207—Transcription Skills
2 lect., 2 lab., 3 cr. (Fall)

The student transcribes business communications and/or medical and legal documents from a voice transcript. Emphasis is placed on the rapid production of mailable copy. Office procedures, basic grammar rules, spelling, punctuation, and proofreading are reviewed.

Prerequisite: OFT 108, MAT 010 or math placement into MAT 020 or higher

### OFT 209—Microsoft Word and PowerPoint
2 lect., 2 lab., 3 cr. (Fall)

Hands-on instruction in Microsoft Word and PowerPoint is provided to the student. Emphasis is
Office Technologies / Philosophy & Religion / Physical Education

placed on creating, revising, formatting, enhancing, proof reading, printing, and merging of numerous business documents. Decision-making skills are exercised in the selection of formats and procedures. Preparation for MOUS Certification in Word is available.
Prerequisite: OFT 108 or placement by department

OFT 211—Medical Transcription 2 lect., 2 lab., 3 cr.
The student transcribes communications documents such as: letters, case histories, medical evaluations, medical reports, and summaries from a voice transcriber. Most medical specialties are included. Emphasis is placed on the correct medical terminology and spelling, medical form format, and rapid production of mailable copy. Office procedures, basic grammar rules, spelling, punctuation, and proofreading are reviewed.
Prerequisite: OFT 108 or placement by department, MAT 020 or placement into MAT 101 or higher

OFT 214—Excel and Access 2 lect., 2 lab., 3 cr. (Spring)
This course provides hands-on training in the use of Excel and Access. Medical, legal and business projects help students learn to process specialized documents. Group assignments aid in the development of teamwork and decision-making skills. Preparation for MOUS Certification in Excel and Access is available.
Prerequisite: OFT 108 or placement by department, MAT 020 or placement into MAT 101 or higher

OFT 220—Office Internship 1 lect., 4 lab., 3 cr. (Spring)
Students work in an approved part-time office position with a cooperating employer. The work assignment is under the dual guidance of the employer and the college coordinator and the student will be evaluated by each. Students are required to attend a weekly one-hour seminar to discuss office procedures and to submit reports on their work experience.
Prerequisites: completion of OFT 108, BUS 203, and OFT 209 plus CGPA of 2.0 or departmental permission
NOTE: Students must comply with all policies, procedures, and regulations of the internship fieldwork site. Failure to do so will result in immediate removal from the internship site and automatic failure of the course.

Philosophy & Religion

(English Department)

The following courses in this area fulfill the humanities requirement for the A.A. and A.S. degrees: PHL 220, PHL 111, PHL 112, PHL 210, PHL 230.

PHL 210—Philosophy 3 cr.
An introduction to the main questions raised by philosophers concerning knowledge of human nature and the universe. Emphasis is placed on the methods of Western philosophers in their responses to these questions. (GE 7)
Prerequisite: ENG 101 or concurrent enrollment

PHL 220—Ethics 3 cr.
The course introduces students to basic ethical theories and explores the values behind moral decision-making. Readings are drawn from classical and modern sources; classroom discussion centers on ethical issues in such areas as medicine, health, business, education, the arts, and law. (GE 7)
Prerequisite: ENG 101 or concurrent enrollment

PHL 230—Concepts of World Religions 3 cr.
The development of world religions from primitive times to the present day. Attention is given to the history and culture of the people whose religions are studied. (GE 7)
Prerequisite: ENG 101 or concurrent enrollment

Physical Education/Exercise Studies/Health

(Movement Science Department)

NOTE: PED 111 and PED 112 fulfill the liberal arts requirement for the associate degrees. Courses with subject PED do not satisfy the Physical Education requirement for graduation.

PED 100—Introduction to Physical Education 2 cr. (Fall/Spring)
Designed for students interested in careers in physical education or exercise science. Topics include the history of physical education and sport, the objectives of physical education and sport, the meaning of biological fitness, a survey of various programs and their importance, and career opportunities in teaching, coaching, exercise science and sports medicine.

PED 101—Introduction to Exercise Science 2 cr. (Fall)
The course provides a broad-based introduction to exercise science as an academic discipline which integrates anatomy, biochemistry, epidemiology, molecular biology, physics, physiology and psychology. The course will examine the history of exercise science and its affect on society as well as professional development, relationships to other health care professions, and trends for the future.
Prerequisite: placement into MAT 101

PED 111—Substance Abuse and Health 3 cr. (Fall/Spring)
An introduction to substance abuse that considers the physiological and psychological aspects of licit and illicit recreational drugs. Students develop an understanding of the importance and limitations of prescriptive medication.

PED 112—Contemporary Health 3 cr. (Fall/Spring)
Topics include stress management, violence in society, planning diet and fitness programs, and adapting to aging and
Students are able to make informed decisions concerning their personal physical and emotional states of health.

**PED 114—Stress Management**
2 lect., 1 cr. (Fall/Spring)
Stress management is a course that approaches stress as a function of life over which we do have control. Emphasizing the relationship between stress and wellness, classes explore means of intervention to better manage common sources of stress. Course does not satisfy the physical education requirement for the associate degrees.

**PED 145—Group Fitness Instructor**
1 lec., 2 lab., 2 cr. (Fall/Spring)
This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in group fitness instruction. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the instructor-participant relationship, the principles of motivation to encourage adherence in the group fitness setting, effective instructor-to-participant communication techniques, methods for enhancing group leadership, and the group fitness instructor’s professional role.

**PED 150—First Aid and Safety**
1 lec., 2 lab., 2 cr. (Fall/Spring)
This responding to emergencies course presents principles of safety awareness and accident-illness prevention, as well as practice in the techniques of first aid care for most common accident and sudden illness situations. American Red Cross certification for responding to emergencies and CPR/AED is granted upon successful completion of requirements.

**PED 151—Lifeguard Training**
1 cr. (Spring/Summer)
This course meets twice a week for eight weeks. Trains individuals who have an interest in life-saving skills. Includes the additional skills and knowledge required to develop effective lifeguard systems at swimming pools and waterfronts. Certification will include Lifeguard Training and AED upon successful completion. Satisfies Physical Education requirement.

Prerequisite: Must be at least 15 years old, swim 300 yards continuously using the front crawl, breaststroke for at least 100 yards each. Must submerge to minimum depth of 7 feet, retrieve a 10 pound object and return using legs only.

**PED 152—Water Safety Instructor**
1 cr. (Spring/Summer)
Covers the skills necessary to teach the following courses: Progressive Swimming Course, Longfellow’s Whale Tales, Infant/Pre-School Aquatic Program, Basic Water Safety, Emergency Water Safety, and Safety Training for Swim Coaches. Course does not satisfy the physical education requirement and requires a minimum of 52 hours to receive certification.

Prerequisite: 1) Be at least 16 years old at the start of the Instructor course (driver’s license or birth certificate as proof), 2) Pass the Instructor Candidate Training certificate or a current American Red Cross Health and Safety instructor authorization, and 3) Successfully pass the precourse written and skills tests.

*The Written Comprehensive Test is based on information in the American Red Cross Basic Water Safety program (minimum score 80% to meet ARC standards).*

**PED 155—CPR**
1 cr. (Fall/Spring)
Methods of dealing with respiratory emergencies and cardiac arrest for the adult, child, and infant are covered in this half-semester course. American Red Cross CPR certification for the Professional Rescuer is granted upon successful completion of requirements.

**PED 156—Infant and Child First Aid and CPR**
1 cr. (Fall/Spring)
This First Aid and CPR course presents principles of safety awareness and accident-illness prevention, as well as practice in the techniques of First Aid care for infants and children. American Red Cross certification is granted upon successful completion of requirements.

**PED 201—Introduction to Bio-Mechanics of Human Movement**
2 lect., 2 lab., 3 cr. (Spring)
A qualitative approach to the principles and components of movement and their application to various forms of movement; daily living, work tasks, sport skills and dance are explored. Emphasis is placed on gaining an understanding of movement as a phenomenon, the forces and human variables that shape it, and the principles to be applied in refining movement behavior.

Preco-requisite: BIO 111

**PED 202—Basic Exercise Physiology**
2 lect., 2 lab., 3 cr. (Fall/Spring)
A study of the functions of the human body during physical activity. Topics include: physiological responses of the body during exercise in relation to the percentage of body fat, cardiac output, energy expenditure, temperature regulation, gender, and physical working capacity. Laboratory work provides practical experience in assessing human performance.

Co-requisite: BIO 112

**PED 203—Physical Fitness and Exercise Prescription**
3 cr. (Spring)
Designed for students interested in the importance of physical fitness in today’s mechanical society. This course focuses on the components of physical fitness; the role of fitness in disease prevention; factors that affect individual physical fitness and training levels; and how to evaluate and develop a fitness program according to individual goals, needs, and objectives.

Prerequisite: PED 202 Corequisite: PED 204

**PED 204—Lab/Field Fitness Assessment**
1 cr. (Spring)
Assessment and evaluation of different areas of physical fitness through various measurement techniques used in the field of exercise science for testing and exercise programming. Students will be active participants in this course. A practical exam will be given at the end of this course.

Co-requisite: PED 203 and PED 204 MUST be taken together.
PED 205—Personal Training  
2 lect., 1 lab, 2 cr. (Spring)

This course is designed to provide theoretical knowledge and practical skill in preparation for the National Council on Strength and Fitness Personal Training Certification exam. The course will cover the most up to date fitness conditioning principles and assessment methods, provide students essential knowledge for developing client-trainer relationships, and effective implementation of fitness program and individual exercise instruction.

Pre-requisites: BIO 111 Anatomy and Physiology I and PED 201 Exercise Physiology.

PED 224—Introduction to Exercise Principle  
1 lec., 2 lab., 2 cr (Spring)

This course provides a broad-based introduction of fitness testing & assessment and the science of exercise prescription. The components of health-related and skill-related fitness will be investigated including measurement procedures, interpretation of results, and application toward recommendations for exercise programs. Various exercise modalities will be explored, practiced & modified. Students will practice proper physiological supports and external spotting techniques. Additionally, the course will present the components of personal wellness including: positive stress management techniques, a positive self-image, quality sleep patterns, and a balanced nutritional program.

PED 230—Exercise Studies Practicum  
2 cr.

Students will meet weekly as a class to explore topics of professionalism, market survey, trouble shooting, motivation, supervision and initiative as well as developing web site pages, newsletters, and designing bulletin boards. Students will also document experiences to meet the requirement of 45 hours in an applied work setting. Develop skills, abilities, competencies and organizational and administrative techniques while working under direct supervision of selected professionals in their chosen area of interest: exercise physiology, personal training, exercise leadership, athletic training, nutrition, recreation, teaching, and coaching.

Prerequisites: PED 202 Basic Exercise Physiology, PED 201 Human Movement, PED 203 Fitness & Exercise Prescription (can be taken concurrently). Cumulative GPA 2.5 or Chair permission.

PED 280—Exercise Studies Capstone  
2 cr. (Fall)

The capstone course in the program of study provides a student the opportunity to synthesize, analyze, and apply knowledge acquired over different courses in the program. Students will choose a project, plan and implement the project, write a scholarly paper with research into the topic, discuss the detailed process of the project and present their findings and experiences to the Movement science faculty, peers and other college/public individuals interested. The course will provide students the opportunity to assess their interests and talents as they relate to the professional areas of study in the field of physical education, nutrition, exercise studies, personal training, health and fitness professional, recreation, athletic training, and/ or health education. All projects MUST be pre-approved by faculty and completed during the registered semester.

PHYSICAL EDUCATION SKILLS:
1 credit each for a full semester, unless otherwise noted. The skills courses are designed for those majoring in Exercise Studies, or the suggested study area of Physical Education in the Liberal Arts degrees. However, if a student outside these areas wishes to enroll in these courses to fulfill the physical education requirement they can do so only with Department Chair approval. Skills courses are graded A through F; the grades are based on skill and knowledge level of the material presented. Written tests are required. For physical education courses graded either A through F or graded on a pass/fail basis, see PES—Physical Education.

PES 100—Concepts of Physical Wellness  
1 lect., 1 lab., 1 cr.

A theory/discussion course designed to introduce students to the basic fundamental building blocks of physical wellness and how this body of knowledge relates to their own personal wellness. Course focus is on physical wellness which will include the components of physical fitness, exercise, nutrition and weight management, disease prevention, personal safety, stress management, and current consumer issues relevant to physical wellness. This course ensures students to begin designing a lifetime personal wellness program that suits their own personal wellness goals and objectives. Students will participate in various labs to assess current fitness levels and practice exercise prescription principles through various forms of activity. All physical activity is modified to challenge the student within the individual's ability.

PES—Physical Education  
1/2 cr. each, 1/2 semester each

Students may be required to take PES 100. Please refer to individual program requirements for specific requirements.

In addition, students who are required to take PES 100 must choose an additional 1 credit from a wide variety of activities offered in the following areas: individual sports, team sports, aquatics, gymnastics, dance and physical fitness.

These courses fulfill the physical education requirement. They are graded A through F, or students may choose the option of taking them as pass or fail. Upon choosing this option, students will have two weeks to decide whether they want to receive a pass/fail or a letter grade for their physical education course. Requirements for both grading procedures will be the same. Students should not postpone taking these courses. To do so may jeopardize their timely graduation. (See course listing below.)*

Repeating Physical Education Courses
A student may take a maximum of one credit of any
course in physical education when fulfilling the two-credit graduation requirement. The “Concepts of Physical Wellness” course can only be taken once. A student may repeat a course to change a grade.

**Physical Education Credit for Varsity Participation**

A student may earn 1/2 credit in PES physical education, up to a maximum of 1 credit, when he/she participates in a varsity sport. All student-athletes must complete the season in order to receive credit. In case of injury, the student must have completed no less than 15 hours of participation.

Transfer students who want to receive physical education credit for varsity athletic participation must first fill out an athletic participation transfer form. Forms and information may be received from the Director of Athletics. Transfer students may receive up to 1 credit of physical education depending on their varsity athletic participation.

*Note: Matriculated students who graduated from Police Academies or Correctional Training Academies within the last ten years and have completed PES 100—Concepts of Physical Wellness may request 1 P.E. activity credits. Students who have completed basic training in the U.S. armed forces may qualify for two (2) physical education credits. For more information call the Veterans’ representative at 341-4071.

PES 170- Aerobic Fitness
PES 171- Step Aerobics

---

**Physical Sciences**

(Science, Engineering & Architecture Dept.)

(See also: Astronomy, Chemistry, Geology)

PSC 125—Physical Science: The Physical World 2 lect., 2 lab., 3 cr.

Topics are drawn from the fields of Physics, Chemistry, Geology, Meteorology and Astronomy with emphasis on how the scientific method guides the various disciplines. Laboratory work enhances and develops the lecture material. (GE 2)

Prerequisite: tested into MAT 101 or completed Fundamentals of Algebra MAT 020

PSC 140—Physical Science: The Environment 2 lect., 2 lab., 3 cr.

A study of the interaction between the physical environment and man. Concepts in natural sciences are introduced as a basis for discussion of current environmental issues. Local environmental issues are discussed. (GE 2)

Prerequisite: tested into MAT 101 or completed Fundamentals of Algebra MAT 020

---

**Physical Therapist Assistant**

(Physical Therapist Assistant Department)

NOTE: Students must comply with all policies, procedures, and regulations of the clinical education site. Failure to do so will result in immediate removal from the clinical education site and automatic failure of the course.

NOTE: A grade of C or higher is required in all PTA series
Physical Therapist Assistant

courses and A&P 1, A&P 2 and Basic Exercise Physiology to graduate with an A.A.S. Physical Therapist Assistant degree.

NOTE: Transportation costs: students must make their own arrangements, at their own expense for transportation.

NOTE: A physical examination is required annually prior to the beginning of classes each September while enrolled in the Physical Therapist Assistant Program. The initial physical examination includes a 10-panel urine drug screen. Students who receive a positive drug test will not be allowed to begin the PTA Program. Attempted readmission to the PTA program will be possible only when the course is offered again and only if the student then successfully passes the urine drug test. Failure to successfully pass a drug test for a second time will result in permanent removal from the PTA program. Additionally, students will not be allowed to participate in clinical areas without completed physical examinations on file with the college and appropriate current CPR Certification.

PTA 010—Clinical Applications for the PTA

1 lect., 1 unit* (Fall)

This course is designed to assist the student in understanding the concepts presented in first semester Physical Therapist Assistant courses. Discussion, demonstrations, worksheets, and small group activities are used to reinforce the information provided in Intro to Physical Therapy, Medical Conditions for the PTA and PTA I.

Corequisite: BIO 111, PTA 101, PTA 103, PTA 105

*not applicable to associate degrees or certificate programs

PTA 012—Kinesiology Support Module

1 lab., 1 unit* (Spring)

This course is designed to assist the student in understanding the concepts presented in Kinesiology (PTA 104). Discussion, demonstrations, worksheets, and small group activities are used to reinforce the information provided in Kinesiology.

Prerequisite: BIO 111, PTA 101, PTA 103, PTA 105

Corequisite: BIO 112, PTA 102, PTA 104

*not applicable to associate degrees or certificate programs

PTA 101—Physical Therapist Assisting 1

3 lect., 3 lab., 4 cr. (Fall)

This is the first in a sequence of four procedures courses. Topics include: universal precautions, infection control, basic first aid and safety procedures, monitoring of vital signs, basic wounds care and bandaging techniques, proper body mechanics, patient positioning and transfers, spinal cord injuries, amputees, CVA, and gait training. [R-1]

Corequisite: BIO 111, PTA 103, PTA 105

PTA 102—Physical Therapist Assisting 2

3 lect., 3 lab., 4 cr. (Spring)

In this second course in the sequence of four procedures courses, the basic principles of massage and application of modalities are emphasized; practice of specific skills includes various techniques of massage, hot and cold packs, paraffin, whirlpool, contrast baths, ultrasound, diathermy, electrical stimulation, ultraviolet, infrared and cold laser therapy. Principles and procedures related to the Hubbard tank, therapeutic pool, intermittent compression, spinal traction and wound healing are also presented. An overview of pharmacology as it relates to rehab completes the course. [R-1]

Prerequisite: BIO 111, PTA 101, PTA 103, PTA 105

Corequisite: BIO 112, PTA 104

PTA 103—Introduction to Physical Therapy

2 lect., 2 cr. (Fall)

An introductory course to Physical Therapy which covers the history, scope of practice, role of the PT and PTA, preferred practice relationship between the PT & PTA, role of other health care providers, communication skills, documentation, ethical and legal principles, structure and organization of health care systems, and cultural diversity. [R-1]

Corequisite: BIO 111, PTA 101, PTA 105

PTA 104—Kinesiology

3 lect., 3 lab., 4 cr. (Spring)

A study of basic human motion, including biomechanics, emphasizing the nervous, muscular and skeletal systems with particular emphasis on joint structure, movements, and muscle position in relationship to the joint. Course will also include the analysis of normal and pathological gait patterns. [R-1]

Prerequisite: BIO 111, PTA 101, PTA 103, PTA 105

Corequisite: BIO 112, PTA 102

PTA 105—Medical Conditions for the Physical Therapist Assistant

3 lect., 3 cr. (Fall)

This course serves to describe specific systems pathology across the life span, including medical/surgical management, as they relate to the field of Physical Therapy. [R-1]

Corequisite: BIO 111, PTA 101, PTA 103

PTA 201—Physical Therapist Assisting 3

3 lect., 3 lab., 4 cr. (Fall)

In this third course in the sequence of four procedures courses, the principles and techniques of therapeutic exercise are presented. Students study specific neurological, orthopedic, medical, and surgical conditions, and their PT management. [R-1]

Prerequisite: BIO 112, PTA 102, PTA 104

Corequisite: PED 202, PTA 205, PTA 207

PTA 202—Physical Therapist Assisting 4

3 lect., 3 lab., 4 cr. (Spring)

This course is the final course in a series of four procedures courses in which the student defines, discusses, and demonstrates advanced Physical Therapy treatment techniques. Topics include: joint mobilization, proprioceptive neuromuscular facilitation, lumbar stabilization, pediatrics, cardipulmonary rehab, head trauma rehab, amputee rehab, women’s health issues, and geriatric rehab. [R-1]

Prerequisite: PED 202, PTA 201, PTA 205, PTA 207

Corequisite: PTA 206, PTA 208

PTA 205—Clinical Education 1

16 lab., 3 cr. (Fall)

Students spend two full days per week in a clinical facility under the direction and supervision of a physical therapist. The actual hours will be determined by the facility and may include evening hours. This assignment is designed to allow students to observe, assist, and acquire skills in application of all procedures studied. [R-1]

Prerequisite: PTA 102, PTA 104

Corequisite: PED 202, PTA 201, PTA 207
PTA 206—Clinical Education 2
3 lect., 3 lab., 4 cr. (Spring)
Students spend two full days per week in a clinical facility under the direction and supervision of a physical therapist. The actual hours will be determined by the facility and may include evening hours. This assignment is designed to allow students to observe, assist, and acquire skills in application of all procedures studies. [R-1]
Prerequisite: PED 202, PTA 201, PTA 205, PTA 207
Corequisite: PTA 202, PTA 208

PTA 207—Test and Measurement for the PTA
3 lect., 3 lab., 4 cr. (Fall)
The principles and techniques of appropriate assessment, test, and measurement skills to assist a supervising physical therapist in monitoring and modifying the plan of care within the limits of practice are presented. Major topics include: ROM, MMT, balance, coordination, sensation, posture, pain and ADL assessment. [R-1]
Prerequisite: BIO 112, PTA 102, PTA 104
Corequisite: PED 202, PTA 201, PTA 205

PTA 208—Contemporary Practice for the PTA
3 lect., 3 cr. (Spring)
This course is a culminating course to explore current concepts and trends in Physical Therapy. Legal, fiscal, administrative, professional, and ethical issues are explored as they relate to the Physical Therapist Assistant. This course places heavy emphasis on self-directed learning and classroom participation through the use of the Internet, case scenarios, classroom discussion, and independent assignments. Throughout the core courses, each student is required to attend two APTA meetings or two continuing education seminars OR one APTA meeting AND one continuing education seminar which count toward a portion of this course. [R-1]
Prerequisite: PTA 201, PTA 205, PTA 207
Corequisite: PTA 202, PTA 206

PTA 220—Clinical Education 3
40 lab., 3 cr. (Summer I or III)
Students spend six weeks full time working in a clinical facility under the direction and supervision of a physical therapist. This externship provides a comprehensive clinical experience which allows the student to apply all skills acquired to date. The actual hours will be determined by the facility and may include evening hours. [R-1]
Prerequisite: Completion of course series PTA 101 through PTA 208

Physics
(Science, Engineering & Architecture Dept.)

Note: The keeping of a laboratory notebook and the writing of formal laboratory reports are required.

PHY 101—General Physics 1
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer I)
This course covers the concepts of classical physics from introductory mechanics through thermo-dynamics. Topics include: kinematics, Newton’s Laws-particle dynamics, statics, fluid statics and dynamics, heat and thermodynamics. (GE 2)
Prerequisite: MAT 102 or math placement test into MAT 121

PHY 102—General Physics 2
3 lect., 3 lab., 4 cr. (Fall/Spring/Summer II)
A continuation of PHY 101. A treatment of wave motion, harmonic motion and sound, electricity and magnetism, optics, relativity, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: C or better in PHY 101

PHY 103—Physics for Science & Engineering 1
3 lect., 3 lab., 4 cr. (Fall)
The science of measurement; vector analysis; rectilinear motion; Newton's laws and their application to particle dynamics, conditions for equilibrium; rotational kinematics and dynamics and angular momentum; conservation of energy; linear and angular momentum; introduction to relativistic kinematics. (GE 2)
Prerequisite: completed or concurrent enrollment in MAT 205 is required

PHY 104—Physics for Science & Engineering 2
3 lect., 3 lab., 4 cr. (Spring)
A continuation of PHY 103. Topics include: gravitation, electrostatics, hydrostatics and fluid dynamics; oscillations and simple harmonic motion; traveling waves; vibrating systems and sound; temperature and heat measurement, heat transfer, kinetic theory of gases; first and second law of thermodynamics; introduction to nuclear structure. (GE 2)
Prerequisite: PHY 103, completed or concurrent enrollment in MAT 205 is required. A minimum grade of C- in PHY 103 is required.

PHY 105—General Physics 1 with Calculus
3 lect., 3 lab., 4 cr. (Fall)
A calculus-based course in general physics. The course covers the concepts of classical physics from introductory mechanics through thermodynamics. Topics include: kinematics, particle dynamics, statics, fluid statics and dynamics, thermodynamics. (GE 2)
Prerequisite: MAT 205

PHY 106—General Physics 2 with Calculus
3 lect., 3 lab., 4 cr. (Spring)
A continuation of PHY 105. A calculus-based treatment of wave motion, electricity and magnetism, optics, relativity, quantum theory, atomic and nuclear physics. (GE 2)
Prerequisite: C or better in PHY 105
Corequisite: MAT 206

PHY 108—Acoustics
2 lect., 2 lab., 3 cr. (Spring)
An introduction to the fundamentals of sound. Topics include: elementary principles of wave motion; analysis of musical sounds from varied sources including voices, instruments, oscillators, synthesizers, and recording media. Emphasis is placed on those factors which permit performer and listener to understand and control musical sounds. (GE 2)
Prerequisite: MAT 101 or by permission of instructor
**Political Science / Psychology**

**PHY 111—Architectural Physics**
2 lect., 2 lab., 3 cr. (Fall)

An algebra based introductory course for students interested in architecture and building design. Topics include vectors, kinematics, stress and strain, statics, dynamics, energy, heat measurement, fluids, waves, electricity and sound. (GE2)

Prerequisite: MAT 107 or MAT 121 or higher is required.

**PHY 203—Physics for Science & Engineering 3**
3 lect., 3 lab., 4 cr. (Fall)

Treatment of electro and magneto-statics, Gauss' Law, Faraday's Law, Ampere's Law; resistance inductance and capacitance applied to circuits. Transient and steady state analysis of RC, RL and RLC circuits. Resonance, electromechanical analogues; Maxwell's equations, electromagnetic waves and light; geometric and physical optics, gratings and spectra, polarization. (GE 2)

Prerequisite: completed or concurrent enrollment in MAT 207; minimum grade of C- in PHY 104

**PHY 204—Modern Physics**
3 lect., 3 lab., 4 cr. (Spring)

Study of the development of physics since 1900. Study of waves in light and matter. Includes comparison of Galileo's and Einstein's relativistic kinematics and dynamics; wave-particle duality, black body radiation and Planck's constant; introduction to quantum theory and wave mechanics; introduction to molecular and solid state physics; atomic structure and the periodic table; nuclear reactions and energy. Elementary particles and the Standard Model; applications to cosmology. (GE 2)

Prerequisite: PHY 102 or PHY 106 or PHY 203

**Political Science**

(Global Studies Department)

**POL 101—Introduction to Political Science**
3 cr. (Fall/Spring)

The course introduces basic concepts used by political scientists such as power, authority, the state, and analyzes major political ideologies of the contemporary world. General types of political systems and components of political systems are explained and compared. Major policy issues, especially those with global significance, are covered in connection with international politics. Fulfills category D. (GE 3)

**POL 102—U.S. Government—State and Local**
3 cr. (Fall/Spring)

The changing role of state and local governments in America is examined. An emphasis is placed upon what state governments actually do, how they are structured, and the problems they face. Part of the course is devoted to the study of cities and metropolitan areas. Fulfills category A. (GE 3)

**POL 103—U.S. Government—National**
3 cr. (Fall/Spring)

A survey of the U.S. political system at the national level including treatment of the historical background, central concepts and revisions of the constitutional framework, examination of the presidency, congress, federal bureaucracy, judicial structure and process, political parties, interest groups, the media, and current public issues. Fulfills category A. (GE 4)

**POL 104—Introduction to Political Thought**
3 cr.

An introductory course in the history of political theory with an emphasis on understanding political ideas and concepts and applying them to perennial issues of political life. Students will read selected original texts by theorists such as Plato, Aristotle, Machiavelli, Hobbes, Rousseau, Adam Smith, Marx, Nietzsche, and Max Weber. Fulfills category D.

**POL 220—Comparative Governments**
3 cr. (Spring)

An introduction to political processes in nations other than the United States. The course uses the comparative method to analyze such topics as political culture, developed vs. developing nations, the organization of governments, political parties, and the operation of interest groups. Fulfills category D. (GE 3)

**POL 221—International Relations**
3 cr. (Fall)

A study of the principles used to describe the political relations among nations. Topics include the growth of nationalism, imperialism, decolonization, the balance of power concept, the role of international organizations such as the U.N. Fulfills category D. (GE 3)

**Psychology**

(Behavioral Sciences Department)

**PSY 100—Psychology of Adjustment**
3 cr. (Fall, Spring, Summer)

An introductory psychology course, with emphasis on understanding the elements of a healthy personality. Topics include dynamics of adjustment the problems that the individual faces in adjusting to family, school, peers and job, and the techniques of readjustment such as counseling and psychotherapy. Fulfills category B.

**PSY 111—Introduction to Psychology**
3 cr.

The foundations for a scientific understanding of human behavior are examined. Topics include: scientific methods, statistical analysis, physiological aspects of behavior, growth and development, learning and memory, sensation and perception, motivation and emotion, personality, gender and sexuality, and psychological disorders and therapy. (GE 3)

**PSY 220—Developmental Psychology**
3 cr. (Fall/Spring/Summer)

A study of the stages of human development: prenatal, infancy, childhood, adolescence, adulthood, and old age which influence psychological growth and change. Fulfills category B. Prerequisite: PSY 111

**PSY 221—Child Psychology**
3 cr. (Fall/Spring/Summer)

A study of human development and behavior from
conception to adolescence. Subjects considered are the interdependence of the emotional, intellectual, social, and physical growth of the child. Fulfills category B.
Prerequisite: PSY 111

**PSY 222—Psychology of Adolescence**

3 cr. (Fall/Spring)

A study of growth and adjustment problems of young people and their struggle to attain maturity. Topics include health, personality, home and family, social status, sex and heterosexual relationships, and school problems. This course is designed for secondary education majors and adults working with adolescents. Fulfills category B.
Prerequisite: PSY 111

**PSY 230—Abnormal Psychology**

3 cr. (Fall/Spring/Summer)

This course involves the study of past and present understandings of psychological abnormality. Contemporary psychological thinking relative to mental health and individual functioning reveals the range of forms of psychological abnormality. The diagnostic system that is utilized by mental health professionals in this country is examined. Social contexts and consequences of the diagnosis of psychological abnormality are identified.
Prerequisite: PSY 111

**PSY 240—Social Psychology**

3 cr. (Spring)

A study of group behavior and the influence of groups on the perception, thinking and behavior of the individual. Topics included are: socialization, conflict, attitudes, prejudice and leadership. Fulfills category B.
Prerequisite: PSY 111

**PSY 250—Human Sexuality**

3 cr.

The sexual aspects of human activity are studied through the disciplines of sociology, psychology, biology, and philosophy. Historical, cross-cultural, and current research form the basis for the development of an individual perspective on human sexuality.
Prerequisite: PSY 111 or SOC 111

**PSY 260—Introduction to Counseling**

3 cr.

The foundations for an integrated approach to counseling for the helping professional are introduced, as well as the nature of the helping process. Basic communication skills and interviewing, as well as an examination of the therapeutic relationship, formation of healthy professional boundaries, and importance of maintaining professionalism are covered. In addition, students will be exposed to a variety of theoretical approaches to counseling, including the psychodynamic, humanistic, cognitive-behavioral, and existential orientations. Integrated and trans-theoretical models will also be examined, including stage-wise theory of human change, motivational interviewing, and multimodal therapy models.
Prerequisite: PSY 111

---

**Public Health**

(Movement Science Department)

**PBH 101—Introduction to Public Health**

3 cr. (Fall/Spring/Summer)

A general introduction to what public health is, its importance for everybody’s health, and how it functions as a combination of science and politics. The role of the public health system will be illustrated by describing issues confronting New York State and what is being done about them.

**PBH 102—Promoting Healthy People and Communities**

3 cr. (Fall/Spring/Summer)

This course focuses on how health promotion strategies influence healthy behaviors, healthy people, and healthy communities. Current public health issues will guide us in examining key health promotion concepts, health concerns at different ages, and the causes of different health behaviors. Health inequalities and mass media’s role will also be highlighted.

**PBH 203—Concepts of Epidemiology**

3 cr. (Fall/Spring/Summer)

This course is designed to introduce students to the science of epidemiology. Specific subjects will include causal thinking, the epidemiologic framework, and study designs used in epidemiologic studies and the role of epidemiology in public health. Examples of famous studies will be discussed, including outbreak investigations and major studies that have identified risk factors for the more common diseases in the country and world today.
Prerequisite: MAT 125 or Concurrent enrollment

**PBH 204—Global Health**

3 cr. (Fall/Spring)

The environment affects our health, economics, and quality of life. Globalization has made the earth a much smaller place so that we can no longer focus merely on issues in the United States. This course will address global environmental concerns and their impact on human health. Students will discuss various affecting factors (e.g. urbanization, population pressure, climate change, atmospheric pollution, sanitation, etc.) within the context of their impacts on population throughout the world.

**PBH 205—U.S. Health Care System**

3 cr. (Fall/Spring)

This course will introduce the students to important issues underlying the US Health Care System – including issues of contemporary importance such as health care cost, health care quality, access to care, increasing number of uninsured, patient safety, prescription drugs policies, physician-patient interaction, adoption and use of health care technologies, and end-of-life care. The course is intended to provide students with an understanding of the various actors, stakeholder interactions, and functions of the US health care system, through a case-based approach interweaving real world events, practice experience, and research on the above issues.
Radiologic Technology

(Diagnostic Imaging Department)

NOTE: Students must comply with all policies, procedures and regulations of the internship fieldwork site. Failure to do so may result in immediate removal from the internship site and failure of the course.

NOTE: An overall cumulative average of 2.5 with a minimum grade of 75% (C+) in each Radiologic Technology course is required for progression within and graduation from the Radiologic Technology Program.

RAD 101—Principles of Radiographic Exposure 1
3 lect., 2 lab., 4 cr. (Fall)
Introduction to the radiographic environment is presented. Evaluating and viewing radiographs, controlling the quantity and quality of the x-ray beam, controlling scatter, film, screens and grids are presented. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 103, RAD 105, RAD 107

RAD 102—Principles of Radiographic Exposure 2
3 lect., 2 lab., 4 cr. (Spring)
Advanced concepts of radiographic technique are covered. Physical characteristics of x-ray film and film processing, geometry of the radiographic image, technique problems and principles of digital radiography are included. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 104, RAD 106, RAD 111, RAD 108

RAD 103—Introduction to Radiography
1 cr. (Fall)
The course provides an overview of radiography and its role in health care delivery. Students are oriented to the academic and administrative structure, key departments, and personnel, responsibilities as students, and to the profession as a whole. Time management learning styles, test-taking strategies, study skills, and other skills necessary to "survive" the freshman year are discussed. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 105, RAD 107

RAD 104—Radiation Protection
1 cr. (Spring)
The course presents general methods in radiation protection when exposing patients to ionizing radiation. Skills and knowledge critical to the safety of the patient and radiographer are emphasized. Demonstration of such is required of all students. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 103, RAD 105, RAD 107

RAD 105—Radiographic Positioning 1
3 lect., 2 lab., 4 cr. (Fall)
Basic concepts of positioning. Nomenclature of positioning, instruction and practice in positioning of extremities, shoulder girdle, hip joint, pelvic girdle, chest and abdomen. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 103, RAD 107

RAD 106—Radiographic Positioning 2
3 lect., 2 lab., 4 cr. (Spring)
Radiographic lines and points of the skull; instruction and practice in positioning of cranium, facial bones, mandible, nasal bones, paranasal sinuses, spine, digestive, urinary systems and mammography. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 104, RAD 111, RAD 108

RAD 107—Methods of Patient Care 1
2 lect., 2 lab., 2 cr. (Fall)
An introduction to the care of patients in the clinical setting. This course includes: patient assessment, history taking; body mechanics, patient transfer techniques, medical emergencies, vital signs, infection control, non-aseptic techniques, preparation of medications, injection, patient interactions, and development of the professional self. [R-1]
Prerequisite: acceptance into the Radiography program
Corequisite: RAD 101, RAD 103, RAD 105

RAD 108—Methods of Patient Care 2
1 lect., 1 lab., 1 cr. (Spring)
This course is a continuation of RAD 107 Methods of Patient Care 1. This course includes: medical charting, venipuncture, assisting in the administration of contrast materials, sterile gowning, gloving, patient interaction skills, human diversity, and an overview of medical ethics and law. In addition, patient preparation and placement of EKG leads along with a basic EKG interpretation. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 104, RAD 106, RAD 111

RAD 111—Clinical Practicum 1
1 lect., 15 lab., 1 cr. (Spring)
This course gives the student an opportunity to apply those concepts learned in lecture and lab in the clinical setting. Students have a chance to participate in general, barium enema, upper gastrointestinal, intravenous pyelogram, mobile, and trauma radiographic procedures. [R-1]
Prerequisite: RAD 101, RAD 103, RAD 105, RAD 107
Corequisite: RAD 102, RAD 104, RAD 106, RAD 108

RAD 112—Clinical Practicum 2
1 lect., 39 lab., 2 cr. (Summer)
A continuation of Clinical Practicum 1 plus operating room. [R-1]
Prerequisite: RAD 102, RAD 104, RAD 106, RAD 111, RAD 108

RAD 209—Radiographic Physics
4 cr. (Fall)
The course focuses on the principles of x-ray generation, properties of x-rays, x-ray tube, and circuitry. In addition, advanced concepts of image production, are covered. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 213, RAD 217, RAD 221

RAD 210—Quality Assurance
1 lect., 1 lab., 1 cr. (Spring)
The course provides an introduction to the evaluation of radiographic systems to assure consistency in the production of quality images. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 112, RAD 216, RAD 214, RAD 219
RAD 213—Clinical Practicum 3
1 lect., 23 lab., 1.5 cr. (Fall)
A continuation of Clinical Practicum 2 plus Computed Tomography and special radiographic procedures. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 217, RAD 221, RAD 209

RAD 214—Clinical Practicum 4
1 lect., 23 lab., 1.5 cr. (Spring)
A continuation of Clinical Practicum 3. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 210, RAD 112, RAD 216, RAD 219

RAD 215—Clinical Practicum 5
1 lect., 39 lab., 2 cr. (Summer)
A continuation of Clinical Practicum 5. [R-1]
Prerequisite: RAD 210, RAD 218, RAD 216, RAD 214, RAD 219

RAD 216—Advanced Imaging Modalities
3 cr. (Spring)
The course deals with different modes of imaging the human body. Special attention is given to fluoroscopy, angiography, bronchography, hystero-salpingography, arthrography and sialography. In addition, advanced skull radiography is included. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 210, RAD 112, RAD 214, RAD 219

RAD 217—Radiographic Positioning 3
2 cr. (Fall)
Introduction to contrast studies including myelography, angiography, bronchography, hystero-salpingography, arthrography and sialography. In addition, advanced skull radiography is included. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 213, RAD 221, RAD 209

RAD 218—Radiation Biology
2 cr. (Spring)
The biological effects of ionizing radiation and the basic mechanism of short-term and long-term effects of ionizing radiation are covered. [R-1]
Prerequisite: RAD 213, RAD 217, RAD 221, RAD 209
Corequisite: RAD 210, RAD 216, RAD 214, RAD 219

RAD 219—Medical Terminology
1 cr. (Spring)
This course is designed to provide terminology for those in the health professions including medical personnel, transcriptionists, librarians, insurance examiners and the layperson.
Prerequisite: Placement in ENG 101

RAD 221—Radiographic Pathology
3 cr. (Fall)
The disease processes of the body systems and related radiographic techniques are emphasized. Cross-sectional anatomy is included. [R-1]
Prerequisite: RAD 112
Corequisite: RAD 213, RAD 217, RAD 209

Physical Examination
Physical examination is required upon admission to the program within a one-month period prior to the beginning of classes in radiologic technology and at the beginning of classes in radiologic technology of the second year. Students will not be allowed in the clinical area without a completed physical examination on file with the College.

Clinical
Radiologic technology clinical courses are competency based and combine classroom theory with practical application. Students complete a series of over 50 competency evaluations as they progress through the program. Completion of these evaluations are required for graduation.

A detailed description of the clinical education requirements, pregnancy policy and costs are available upon request from the program office.

In Clinical Practicums 4 and 5, a one week evening rotation is required.

A drug screening and criminal background check are required once a student has been accepted. Some clinical sites require a second criminal background check before the start of the second year.

Transportation Costs
Students must make their own arrangements, at their own expense, for transportation on days when classes are held off campus at hospital clinical sites.

Uniforms
Radiologic technology student uniform must be worn whenever class meets off campus. The cost of uniforms is approximately $200 and is the student’s responsibility.

Sociology
(Behavioral Sciences Department)

SOC 101—Introduction to Sociology
3 cr. (Fall/Spring/Summer)
This course explores those forces in our culture and social structure that lie beyond the individual’s control or direct awareness, but which shape what we are, how we behave, and what we think.

Basic sociological concepts are used to develop insights and understanding. Topics such as culture, social structure, socialization, social control, groups, stratification, research methods and statistical analysis are discussed. Fulfills category C. (GE 3)

SOC 120—Social Problems
3 cr. (Fall/Spring/Summer)
Using primarily a scientifically and statistically based sociological perspective, a variety of American social problems are examined. Included are the increasing levels of interpersonal violence and other types of deviant behavior, racism and sexism, threat of war, poverty and the welfare system, and the consequences of economic inequality. Analysis of these problems includes description, causative relationships, individual and societal dimensions, and alternative social policy responses. Fulfills category C.
SOC 202—Social Inequality

This sociology course examines the tensions and conflicts generated by the struggle for power and between the defenders of tradition and the forces of change, research evidence and statistical analysis are used to see how race, class, and gender are used as fundamental reference points for understanding how power and resources are distributed in American Society. While a cross-cultural perspective is sometimes used for comparative purposes, the primary focus is on the surging changes that have swept through American institutions since World War II. The American family, schools, economy, political life, military, sports world and religious life will be studied. Fulfills category C. (GE 3)

SOC 220—Race, Ethnicity and Society

3 cr. (Fall/Spring)

This course will explore the basic dynamics and processes of race and ethnic relations from a sociological perspective. Such topics as dominant-minority relations, prejudice, discrimination, assimilation, racism and antisemitism will be explored. The primary focus will be upon American society but examples from other societies will be explored as well; i.e., Brazil, Canada and Eastern Europe.

Prerequisite: one course in sociology

SOC 231—The Family

Using a sociological perspective, the institution of the family is analyzed in terms of its relationship to the changing society in which it exists. Of special interest is how these changes affect individuals within families. Topics such as mate selection, sex roles, romance and love, sexuality, communication, conflict, violence, divorce and remarriage are discussed. Fulfills category C.

Prerequisite: one course in sociology

SOC 242—Sociology of Religion

3 cr.

This course is an introduction to the sociological study of religion, exploring religious beliefs, practices, and institutions in different societies through the lens of sociological theories that examine religion as a social phenomenon.

This entails attending to society’s impact on religion as well as religion’s effect on society. Examining the social dynamics of religion in other societies will help us better understand the nature and function of religion in American society.

Spanish

(GLOBAL STUDIES DEPARTMENT)

SPN 101—Elementary Spanish 1

3 cr.

For beginners or those who have no more than one year of high school Spanish. Emphasis is placed on the language as spoken and heard. Grammar study deals mainly with the formation and use of verbs in the present tense. Situational dialogues serve as the basis for learning pronunciation, vocabulary and idioms. (GE 9)

Note: Students who are proficient in Spanish may be placed in a more advanced course.

SPN 102—Elementary Spanish 2

3 cr.

Additional vocabulary and tenses of verbs are introduced until all basic constructions, including the subjunctive, have been examined. (GE 9)

Prerequisite: SPN 101 or two years of high school Spanish or placement by instructor

SPN 201—Intermediate Spanish 1

3 cr.

Study of the language through a continuation of audio-lingual learning, with emphasis on review of basic grammatical patterns, improvement of reading and writing skills. Reading exercises offer insights into Spanish and Spanish-American culture. (GE 9)

Prerequisite: SPN 102 or instructor placement

SPN 202—Intermediate Spanish 2

3 cr.

Emphasis is given to advanced grammatical patterns, such as the subjunctive mood and the passive voice. Conversation based on everyday vocabulary is encouraged, to help students develop further their listening and speaking abilities. (GE 9)

Prerequisite: SPN 201 or instructor placement

SPN 203—Spanish Conversation and Composition

3 cr. (Fall)

Conversation based on readings chosen for their contemporary colloquial usage of active vocabulary. Students write compositions based on models of Spanish prose or poetry. (GE 9)

Prerequisites: SPN 201-SPN 202 or three years of high school study or instructor placement

SPN 204—Introduction to Spanish Literature

3 cr. (Spring)

Masterworks of Spanish and Spanish-American literature are read and discussed in Spanish. (GE 9)

Prerequisite: SPN 203 or instructor placement
Theatre Arts
(Arts & Communication Department)

THE 101—Introduction to Theatre
3 cr. (Fall/Spring)
This course explores the process of theatrical creation. Lecture-demonstrations introduce the student to contemporary and historical modes of production. Class projects focus on the collaborative work of the Director, Actor, Designers and support staff. Attendance at theatre events is required. (GE 7)

THE 103—Acting 1: Fundamentals
3 cr. (Fall/Spring)
Study and practice in principles and techniques of acting; developing the actor's instrument. Exercises, improvisation, scene study, monologues, and audition methods are among the areas studied. (GE 8)

THE 104—Acting 2: Text and Scene
3 cr. (Spring)
Skills acquired in Acting 1 are further developed and applied to scene work. Students will be introduced to the American method (Meisner, Hagen) and apply it to the analysis of the text in the development of scenes performed in class and to the audition situation. The goal of the course is to teach actors to make effective choices that are firmly grounded in text. This course requires intensive work and commitment, including memorization of scenes and monologues and extensive rehearsals within and outside of class time. Students will perform in every class. Selected students will appear in a performance showcase at the end of the semester.
Prerequisite: Acting 1 or permission of instructor

THE 105—Improvisation for the Theatre
3 cr. (Fall/Spring)
This course is an examination of the theory and practice of improvisation as a performing art. Students will learn improvisational theatre games and exercises intended to develop the principles of improvisation, particularly in the tradition of Keith Johnstone. The course is intended to develop skills that supplement the techniques of scripted performance. (GE 8)

THE 107—Puppetry/Object Performance Theatre
2 lect., 2 lab., 3 cr. (Spring)
An introductory performance lab for puppetry and object theatre. The course covers world puppet history, object performance and ritual (mask, puppet, shadow, object), and exposes students to mature theatre works that incorporate puppet and object theatre as a powerful visual vocabulary in live performance art. Traditional puppetry disciplines will be explained and explored, and students will work on all facets of puppet theatre creation (writing, design, construction, scoring, manipulation, direction), culminating in a public performance showcasing their work in group projects and individual performances. Videos of performances by master puppeteers and contemporary object theatre artists will be shown to inform and inspire students. Course may be repeated once for a total of six credits. (GE 8)

THE 109—Stage Make-Up
2 lect., 2 lab., 3 cr. (Fall/Spring)
Beginning course in principles, techniques, and materials of theatre make-up. Students must purchase a basic stage make-up kit. Play production hours outside of class will be required. (GE 8)

Jennifer Binnie (2011)  
*Instructor—English*  
B.A., SUNY New Paltz

Bruce Bleach (1992)  
*Professor—Arts and Communication*  
A.A., SUNY Orange; B.F.A., University of Hartford;  
M.F.A., SUNY New Paltz

Thomas Blon (1992)  
*Assistant Professor—Science, Engineering, and Architecture*  
B.S., Pennsylvania State University, M.A., City College of New York

Stephanie Bosco-Ruggerio (2019)  
*Instructor—Behavioral Science*  
B.A., Vassar College; M.A., University of Delaware

Martin Borko (1965)  
*Professor—Biology*  
B.S., SUNY Albany; M.S., Cornell University

Darlene Bowser (1996)  
*Associate Professor—Biology*  
A.S., SUNY Orange; B.A., Vassar College; M.S., New York University

Nancy Boylan (2012)  
*Assistant Professor—Mathematics*  
B.S., SUNY Binghamton; M.S., Mount Saint Mary College

Karl Brabenec (2010)  
*Assistant Professor—Global Studies*  
B.A., Mount Saint Mary College; M.P.A., John Jay College of Criminal Justice

Angela Braselmann (2014)  
*Instructor—English*  
B.A., SUNY Binghamton; M.A., SUNY New Paltz

Joseph Britto (2012)  
*Assistant Professor—Global Studies*  
B.A., Manhattan College; M.A., Brooklyn College; M.S., St. John’s University

Patricia Brown (2012)  
*Assistant Professor—Science, Engineering & Architecture*  
B.A., SUNY Plattsburgh; M.S., University of New England

Sarah Brown (2020)  
*Instructor—Nursing*  
A.A.S., SUNY Orange; B.S.N., Mercy College

Nancy Bruscino (2010)  
*Assistant Professor—Behavioral Sciences*  
A.A., SUNY Orange; B.A., Mount Saint Mary College; M.S., SUNY New Paltz

Sandra Bush-Kratz (2017)  
*Instructor—Nursing*  
A.A.S., College of Staten Island; B.S.N., SUNY New Paltz

Kathy Butsko (2010)  
*Instructor—Arts & Communication*  
A.A, Pennsylvania College of Technology; B.S., M.A., Marist College

Anita Campbell (2018)  
*Instructor—Computer Science & Technology*  
B.B.A., Pace University; M.S., Iona College

Brenda Capuano (2003)  
*Assistant Professor—Business*  
A.A., B.S., M.A., Centenary University
Adjunct Faculty

Jennifer Carroll (2013)
Instructor—English
B.A., SUNY Potsdam; M.S.Ed., SUNY Cortland

Kathleen Castore (2005)
Instructor—English
B.A., South Hampton College

Gerardo Castro (2017)
Instructor—Arts and Communication
B.F.A., New Jersey City University; M.F.A., Pratt Institute

Michele Cervone-Richards (2014)
Assistant Professor—Mathematics, Biology
B.S., St. Thomas Aquinas College; M.S., Fairleigh Dickinson University

Instructor—Biology
B.S., SUNY Oswego; M.A. SUNY New Paltz; M.S.Ed., Elmira College

Patricia Chisamore (2003)
Instructor—Biology
A.A.S. Dutchess Community College; B.S., Univ. of Georgia

Brian Clark (2019)
Professor—Arts and Communication
A.S., SUNY Broome; B.Mus., SUNY Potsdam; M.Mus., Houghton College

Thomas Clarke (1969)
Associate Professor—Economics
A.A., SUNY Orange; B.S., M.S., SUNY New Paltz

Jonathan Clemmons (2009)
Associate Professor—Mathematics
A.S., SUNY Orange; B.A., SUNY New Paltz; M.A., NYIT

Nolly Climes (2004)
Assistant Professor—Behavioral Sciences
M.A., Marist College; B.S., Mercy College

Kimberly Coffey (2005)
Associate Professor—Mathematics
B.A., Harwick College; M.A., Teachers College

David Cohen (2000)
Instructor—Arts and Communication
A.S., SUNY Orange; B.A., SUNY New Paltz

Christopher Collins (2003)
Instructor—Science, Engineering & Architecture
A.A.S., SUNY Orange; B. Arch., Wentworth Institute

Andrew Cook (2018)
Instructor—Science, Engineering & Technology
B.S., SUNY Cortland; M.A., SUNY New Paltz; Adv. Graduate Cert., Pace University

Robert Conflitti (2015)
Instructor—Criminal Justice
B.A., Wayne State University; J.D., Georgetown University Law Center

Thomas Confrey (2003)
Instructor—Accounting
B.A., Baruch College

Jodi Conklin (2002)
Assistant Professor—Movement Science
B.S., SUNY Brockport

Rachael Connington (2016)
Instructor—Biology
M.D., American University of the Caribbean

John Cosco (2005)
Assistant Professor—History
B.A., SUNY New Paltz; M.A., University of Massachusetts

Lori Cramer (2007)
Instructor—Diagnostic Imaging
A.A.S., SUNY Orange

John Cummins (1968)
Professor—Physics
B.A., St. Bonaventure; M.S., Notre Dame; M.A. Whitefriars; M.S., Ph.D., Penn State University

Stanley Curtis (1969)
Associate Professor—Arts and Communication
B.A., SUNY Buffalo; M.A., Columbia University

Clifford Cymrot (2012)
Instructor—Clinical Laboratory Science
A.A.S. SUNY Orange; B.S. University of Cincinnati; M.H.A., University of Cincinnati

Jacqueline Davis (2017)
Instructor—Physical Therapist Assistant
A.A.S. SUNY Orange; B.S., Hunter College

Joy Daniels Bueti (2008)
Assistant Professor—English
B.A., M.S., SUNY New Paltz

Naomi Daven (2008)
Associate Professor—Mathematics
B.A., Mount Saint Mary College; M.S., Stevens Institute of Technology

David Davies (2003)
Professor—Science & Engineering
B.S., Michigan State, M.A., SUNY New Paltz

Anne DeAnni (2018)
Instructor—Nursing
A.A.S., SUNY Sullivan; B.S.N., Chamberlain College

Gaetanina Dekan (2001)
Instructor—English
B.A., Nazareth College of Rochester; M.A., SUNY New Paltz

Diane del Olmo (2019)
Professor—Global Studies
B.A., M.S., SUNY New Paltz; Cert. in Translation, New York University

Professor—Mathematics
B.A., St. John's University, M.S. & C.A.S., SUNY New Paltz

Terry DiGirolamo (2008)
Assistant Professor—Mathematics
A.S., SUNY Orange; B.A., M.S., SUNY New Paltz

Jeffrey B. Doolittle (2019)
Assistant Professor—Global Studies
B.A., Ramapo College; M.A., Cardiff University; A.B.D, Fordham University
Adjunct Faculty

Deborah Dorwitt (2009)
Associate Professor—Biology
B.S., City College of New York; M.D., SUNY Upstate Medical Center

Cecilia Dos Santos (2008)
Instructor—English
B.A., Mercy College; M.S., Fordham University

Phil Dressner (2014)
Instructor—Computer Science & Technology
B.B.A., Baruch College; M.S., Pace University; M.B.A. University of Phoenix

Gerrit Dross (1968)
Associate Professor—Movement Science
B.S., SUNY Brockport; M.A., Bowling Green

Lisa Dyer (2019)
Instructor—Nursing
A.A.S., SUNY Rockland; B.S.N., SUNY Empire; M.S.N., Excelsior College

Betty Ann Easton (2011)
Assistant Professor—Nursing
B.S.N., Vermont College; M.Ed., Nursing Education-Teachers College, Colombia University

James Emery (2012)
Instructor—Arts & Communication

Abdel Aziz Farah (2002)
Professor—Global Studies
B.S., University of Khaartoum; M.A., University of Leeds, England; Ph.D., Colorado State University

Joanne Fedilicio (2011)
Instructor—Nursing
B.S. Nursing, Chinese General Hospital College of Nursing; M.S. Nursing, Long Island University

Richard Feinberg (1965)
Professor—Engineering
M.S.E.E., Columbia University; B.S.E.E., Rensselaer

Victoria Fife (2018)
Instructor—Mathematics
B.S., University of Houston

Kathleen Flessa (2020)
Instructor—Nursing
A.A.S., SUNY Orange; B.S.N., M.S.N., Chamberlain College

Joel Flowers (2014)
Instructor—Arts and Communication
B.Mus., Furman University; M.S., Vanderbilt University

Mary Ford (2009)
Instructor—English
B.A., SUNY Binghamton; M.A., City College of New York

Assistant Professor—Science, Engineering & Architecture
B.S., Queens College, M.S., Butler University

Barry Fruchter (2007)
Instructor—English
A.B., Bard College; M.A., Ph.D., SUNY Stony Brook

Gregory Gaetano (1992)
Assistant Professor—Criminal Justice
A.S., SUNY Dutchess Community College; B.S., Mercy College; M.P.A., John Jay College

Tiffany Gagliano (2014)
Instructor—Criminal Justice
B.A., Mount Saint Mary College; J.D., Pace University Law

Jarrett Galeno (2008)
Instructor—Arts and Communication
A.A., Suffolk Community College; B.F.A., CW Post

Sharon Gandarilla-Javier (2019)
Instructor—Behavioral Science
B.S., John Jay College; M.S.W., Fordham University

Janice Garzione (2009)
Instructor—English
B.A., M.S., SUNY New Paltz

Nicholas Garzione (2013)
Instructor—English
A.A., SUNY Orange; B.A., SUNY New Paltz; M.S., SUNY New Paltz

Leah Giles (2004)
Instructor—Movement Science
B.A., SUNY Potsdam

Polly Giragosian (2009)
Associate Professor—Arts & Communication
B.A., Smith College; M.F.A., University of Arizona

Mary Beth Gleason (2004)
Assistant Professor—Occupational Therapy Assistant
A.A.S., SUNY Orange; B.S., Dominican College; M.S., Mount Saint Mary College

Dolores Gomez (2017)
Instructor—Nursing
B.S.N., City College of New York

Patricia Gould (2009)
Instructor—Biology
B.S., SUNY Binghamton; M.S., Long Island University

Scott Graber (2000)
Assistant Professor—Mathematics
A.S., SUNY Orange; B.S., SUNY Environmental Science & Forestry; M.S., Syracuse University

Catherine Graney (2014)
Assistant Professor—Behavioral Sciences
B.A., SUNY New Paltz; M.A. SUNY Binghamton; M.A. University of Massachusetts - Lowell

Jan Gray (2018)
Instructor—Mathematics
B.S., SUNY Oneonta; M.S., Iona College

David Green (1985)
Assistant Professor—Criminal Justice
B.S., Mercy College

Stephen Grodnick (2008)
Assistant Professor—Global Studies
B.A., SUNY Albany; M.A., University of Virginia
Adjunct Faculty

Laura Guerra (2017)
Instructor—Nursing
A.A.S., SUNY Rockland; B.S.N., Thomas Edison State University; M.S.N., Mount Saint Mary College

Richard Guertin (2006)
Associate Professor—Business Management
A.A., SUNY Orange; B.A., Hamilton College; J.D., NYU School of Law; 2016 SUNY Chancellor’s Award for Excellence in Adjunct Teaching

Jamie Gutierrez (2014)
Instructor—College Skills & Career Planning
A.A., SUNY Orange; B.A., Mount Saint Mary College; M.P.S., SUNY New Paltz

Janet Haas Broda (2001)
Assistant Professor—Science, Engineering & Architecture
A.A.S., Rockland Community College; B.S., Pace University; M.S., Long Island University

Leland Hach (2015)
Instructor—Mathematics
B.S., University of Valley Forge

Clara Haecker (2019)
Instructor—Business
B.S., M.S., SUNY Albany

Cynthia Hallock (2004)
Assistant Professor—Clinical Laboratory Science
A.A.S. SUNY Orange; B.S. SUNY Albany; M.S., University of Phoenix

Jennifer Harker (2017)
Instructor—Nursing
A.A.S., SUNY Orange; B.S.N., Chamberlain College

Todd Hassler (2008)
Instructor—Science, Engineering & Architecture
A.A.S., SUNY Orange; B.Arch., New York Institute of Technology

Stephen Heddonert (2010)
Assistant Professor—Arts & Communication
B.S., SUNY New Paltz; M.S., Iona College; Cert. in Digital Marketing, University of Georgia

Deborah Hewitt (2019)
Instructor—Mathematics
B.S., Pace University; M.S., SUNY New Paltz

Darryl Hey (2006)
Assistant Professor—Arts & Communication
B.A., M.M.Ed., Western Connecticut University; D.Music, Canterbury University

Michael Higgins (2019)
Instructor—Biology
B.A., Vassar College; Ph.D., SUNY Stony Brook

Irene Hilao (2009)
Instructor—English
B.A., Miriam College; M.S., Ateneo de Manila University and Touro College

David Hoovler (2016)
Instructor—Criminal Justice
B.A., University of Maryland; J.D., Michigan State University College of Law

Ireta Hunter (2017)
Instructor—Nursing
B.S.N., Dominican College

Maureen Hyde (1987)
Assistant Professor—Mathematics
A.A., SUNY Orange; B.A., M.S., SUNY New Paltz

Mary Lou Ingles
Clinical Proctor
B.S., Russell Sage College; M.A., College of St. Rose

Jane Innella (2015)
Instructor—Clinical Laboratory Science
A.A.S., SUNY Orange; B.S., Empire State College

Varada Iruvanti (2010)
Instructor—Science, Engineering & Architecture
B.Sc., University of Bombay; M.Sc & Ph.D, University of Hyderabad

Eileen Israel (1994)
Assistant Professor—English
B.A., M.A., Montclair State College

Robert Isseks (2009)
Instructor—English
B.A., Syracuse University; M.A., Colgate University; J.D., Fordham University School of Law

William Istone (2001)
Professor—Science, Engineering & Architecture
B.A., LaSalle University; Ph.D., University of Pittsburgh

Santina Jannotti (2011)
Instructor—English
B.A., SUNY Plattsburgh; M.A., Simmons College

Raymond Jarosz (2007)
Instructor—Mathematics
B.S., Syracuse University

Dori Johnson (2018)
Instructor—Science, Engineering & Architecture
B.A., M.S., SUNY New Paltz

Tammy Jollie (2015)
Instructor—Nursing
A.A.S., SUNY Orange; B.S., Chamberlain College

Kimberly Jordan (2008)
Instructor—Biology
B.S., Manhattan College; M.A., City College of New York

Emily Kahoud-Welch (2017)
Instructor—Biology
B.S., Boston College; M.S., Rutgers University; Certificate, Post-Baccalaureate Program in Health Studies, Cornell University

Roger Kalin (2014)
Instructor—English CCCHS
B.A., SUNY Binghamton; M.S., SUNY New Paltz

Robert Karstadt (2019)
Instructor—Arts & Communication
B.F.A., School of Visual Arts; M.F.A., Cranbrook Academy of Art
Adjunct Faculty

Barry D. Kass (1969)
Professor—Behavioral Sciences
B.A., Harper College; M.A., SUNY Binghamton

Elizabeth Kaylor (2014)
Instructor—Dental Hygiene
A.A.S., Hudson Valley Community College; B.S., Farmingdale State College

William Keller III (2008)
Instructor—Clinical Laboratory Science
A.A.S., B.A., SUNY Alfred University

Dennis Kelly (2012)
Instructor—Behavioral Sciences
B.A., Boston State College; M.S., Springfield College; Ph.D., CUNY

Kenneth Kempsey (2016)
Instructor—Computer Science & Technology
B.S., SUNY Buffalo

Theresa Kilgore-Dering (1990)
Associate Professor—Clinical Laboratory Science
A.A.S., SUNY Orange; B.S., SUNY Geneseo; M.S., New School for Social Research

Evelyn Kinbar (1997)
Counselor—Educational Opportunity Program
M.S., University of Scranton

Michael King (2010)
Assistant Professor—Business
A.A.S., SUNY Orange; B.S., M.B.A., Mount Saint Mary College

Kaylyn Kinney (2000)
Assistant Professor—Arts & Communication
B.A., Oberlin College; M.A., Peabody Institute of The Johns Hopkins University

Elizabeth Kissam-Horaz, (2005)
Assistant Professor—Movement Science
A.S., SUNY Orange

Elizabeth Knight (2020)
Instructor—Nursing
A.A.S., SUNY Orange; B.S.N., M.S.N., Grand Canyon University

Charles Kocsis (2007)
Assistant Professor—Science, Engineering & Architecture
M.S., Georgia Institute of Technology

Inokentiy Kodilov (2016)
Instructor—Computer Science & Technology
B.S., SUNY New Paltz

Susan Kohler (2010)
Assistant Professor—English
B.A., College of St. Rose; M.A., SUNY Albany

Joseph Konecko (2019)
Instructor—Mathematics
A.S., SUNY Orange; B.S., SUNY Stony Brook; M.S., UCLA

Kristen Kozlak (2012)
Instructor—Business
B.S., Manhattan College; M.B.A, Mount Saint Mary College

Jay Krass (2016)
Instructor—Arts and Communication
B.A., Hunter College; M.A., City College of New York; C.A.S., SUNY New Paltz

Suzanne Krissler (1981)
Professor—Business
A.A.S., SUNY Broome; M.S., Ed.S., SUNY Albany

Judith LaBarge (2019)
Instructor—Biology
B.A., Brooklyn College; D.C., Logan University College of Chiropractic

Marcelene Lamendola (2007)
Instructor—Diagnostic Imaging
A.A.S., SUNY Orange

Thomas LaRosa (2009)
Assistant Professor—Biology
B.S., SUNY Oneonta; D.C., Palmer College of Chiropractic

John Lauro (2011)
Instructor—Movement Sciences
B.S., Indiana State University

Anne Lavelle (1973)
Assistant Professor—Nursing
B.S.N., Boston College; M.A. Nursing, Columbia University, Teachers College

Heidi Lawrence (2008)
Assistant Professor—Mathematics
B.A., M.S., SUNY Plattsburgh

Hector Leal (2014)
Instructor—Mathematics
A.A., SUNY Orange; B.S., Mount Saint Mary College

Carla Lehmann-Terwilliger, PTA (2019)
Instructor—Physical Therapy Assistant
A.A.S., SUNY Orange

Robert M. Lee (1999)
Instructor—English & Foreign Languages
B.A., SUNY New Paltz; M.A., Vermont College of Norwich University

Courtney Leslie (2020)
Instructor—Nursing
B.S.N., Elmira College; M.S.N., Dominican College

Pak Leung (1993)
Professor—Science, Engineering & Architecture
B.Sc., National Taiwan University; M.A., Ph.D., Columbia University

Qiaoyun Li (2016)
Instructor—Mathematics
B.A., Maruch College; M.A., Western Connecticut University

Diane Liporace (2018)
Instructor—Mathematics
B.S., Mercy College; M.S., Montclair State University

Leonard LoBreglio (1982)
Assistant Professor—Diagnostic Imaging
B.S., Manhattan College; M.S., Iona College
Adjunct Faculty

Donn Lord (1994)
Instructor—Computer Science & Technology
B.S., University of Massachusetts

Scott Lyons (2010)
Assistant Professor—English
B.A., Marist College; M.A., M.F.A., Wilkes University

Vivien Lyons (2006)
Instructor—English
A.A., SUNY Orange; B.S., Empire State College

Sarah MacDonald (2011)
Instructor—Global Studies
B.A., Brandeis University; MAT, SUNY Stony Brook; Foreign Language Certification, SUNY New Paltz

Andrew Magnes (2011)
Instructor—Science, Engineering & Architecture
B.F.A., University of Florida; M.A., Architecture, Parsons School of Design

Joseph Martellaro (2014)
Assistant Professor—Arts & Communication
B.Mus.Ed., Ithaca College; M.S., Western Connecticut State University

Matthew Mascarelli (2018)
Instructor—Mathematics
A.S., SUNY Westchester; B.S., SUNY New Paltz

Marsha Massiy Varriano (2009)
Instructor—English
B.A., Georgetown University; M.A., Columbia University

Janette McCoy-McKay (2002)
Assistant Professor—Global Studies
B.A., M.A., St John's University

Kim McCly (2018)
Instructor—Diagnostic Imaging
A.A.S., SUNY Orange; B.A., Mount Saint Mary College

Kevin McGee (1977)
Professor—Physical Science
B.A., Marist College; M.S., Manhattan College

Denise McGovern (2018)
Instructor—Nursing
B.S.N., SUNY Binghampton; M.S.N., Mount Saint Mary College

Evan McGuire (2020)
Instructor—Nursing
A.A.S., SUNY Rockland; B.S.N., M.S.N., Pace University

Corie McLaughlin (2014)
Instructor—Global Studies
B.A., Coastal Carolina University; M.A., St. John's University; D.A., St. John's University

Tara McNally (2018)
Instructor—Diagnostic Imaging
A.A.S., SUNY Orange

David Melchionne Martinez (2019)
Instructor—Occupational Therapist Assistant
A.A.S., SUNY Orange; B.A., LeMoyne College; M.A., CUNY School of Professional Studies

James Melendez (2005)
Assistant Professor—Computer Science & Technology
B.A., Mount Saint Mary College, A.C., Pace University,
M.S., Pace University

David Miele (2005)
Associate Professor—Arts and Communication
A.S., SUNY Orange; B.A., SUNY New Paltz; M.A., SUNY Purchase; M.A., Manhattanville College

Susan Müller (1999)
Professor—Arts and Communication
B.F.A., SUNY New Paltz; M.F.A., University of North Texas

Mariyanka Milusheva (2017)
Instructor—Dental Hygiene
A.A.S., SUNY Orange; M.S., Electical Engineering, Bulgaria

Sue Misiak (2002)
Instructor—Radiologic Technology

Jeannie M. Montama-Badou (2019)
Instructor—Dental Hygiene
A.A.S., SUNY Orange

Jessie M. Moore (2017)
Instructor—Public Health
B.A., SUNY New Paltz; M.P.H., New York Medical College

Virginia Moore (1989)
Professor—Science, Engineering & Architecture
B.S., SUNY Stony Brook; M.S., SUNY New Paltz

Lana Moravus (1994)
Associate Professor—Mathematics
A.A., SUNY Orange; B.A., Mount Saint Mary College; M.S., Canisus College and Long Island University

Jane Morton (2010)
Assistant Professor—Mathematics
B.S., Fairleigh Dickinson; M.A., City College of New York

B.S., SUNY New Paltz

Thomas Reape (1991)  
_assistant professor—English  
B.A., Manhattan College; M.A., University of Pittsburgh

Shanita Reynolds (2020)  
_instructor—Nursing  
B.S.N., Lehman College; M.S.N., Sacred Heart University

Amanda Rhinehart (2015)  
_instructor—Diagnostic Imaging  
A.A.S., SUNY Orange

_assistant professor—Global Studies  
B.A., M.S., Long Island University

Thomas Rickard (1998)  
_associate professor—Mathematics  
A.A., SUNY Orange; B.S., Dominican College; M.S., Iona College

Kathleen Rifkin (2008)  
_assistant professor—Science, Engineering and Architecture  
B.P.S., M.Arch., SUNY Buffalo

Luis Rios (2011)  
_assistant professor—Behavioral Sciences  
B.S., Rutgers University; M.S., Texas A & M University
Adjunct Faculty

Jessica Rissler (2017)
Instructor—Dental Hygiene
A.A.S., SUNY Orange; B.S., SUNY New Paltz; M.S., Texas Womens University

Yesenia Rivera (2018)
Instructor—Dental Hygiene
A.A.S., SUNY Orange; B.S., M.S., Massachusetts College of Pharmacy & Health

Fabian Riviere (2014)
Instructor—Global Studies
B.A., University of Toulouse, France; M.A., University of Toulouse, France

Jill Ross (2010)
Instructor—Diagnostic Imaging
B.S., Long Island University-C.W. Post

Mary Roth (2017)
Instructor—Arts & Communication
B.A., Rice University; M.F.A., City College of New York

Christopher Ruckdeschel (2010)
Instructor—English
B.A., SUNY New Paltz; M.S., Mount Saint Mary College

Catherine Ruiz (2018)
Instructor—Nursing
B.S.N., Lehman College; M.S.N., University of Phoenix

Colleen Russell (2012)
Instructor—Mathematics
B.S., SUNY Oswego; M.S., SUNY New Paltz

Alyson Rutigliano (2016)
Instructor—Clinical Laboratory Science
A.A.S., SUNY Oswego; B.S., SUNY Albany; M.A., John Jay College of Criminal Justice

Michael Ryder (2019)
Instructor—Behavioral Science
B.S., Molloy College; M.S., Capella University

Stephen Sager Jr. (2012)
Instructor—Criminal Justice
B.S., Mercy College; M.P.A., John Jay College

Martin Saint Martin (2002)
Instructor—Arts and Communication
B.F.A., Cooper Union

Dana Salkowsky (2006)
Instructor—Arts and Communication
B.A., Pace University; M.S., Iona College

Jeff Sarett (2002)
Instructor—Criminal Justice
B.A., John Jay College of Criminal Justice

John H. Sargent III (2014)
Instructor—Computer Science & Technology
A.A.S., Lyons Technical Institute; B.S., New Jersey City University; M.S., Staten Island College

Sabrina Sargent (2005)
Associate Professor—Mathematics
A.A., SUNY Orange; B.A., SUNY New Paltz; M.S., Mercy College

Robert Sassi (1997)
Assistant Professor—History
B.A., Siena College; M.S., SUNY New Paltz

Edward Sattler (2016)
Instructor—Biology
B.S., Iona College; M.S., Rutgers University

Marisa Scandell-Colson (2002)
Instructor—Movement Science
B.S., St. John's University; J.D., Brooklyn Law School

James Scharfenberger (1990)
Professor—Arts and Communication
B.S., New York University; M.A., Graduate School of Arts & Science, NYU; M.B.A., Baruch College, CUNY

Gary Schuster (2017)
Instructor—Arts and Communication
B.A., Lehigh University; J.D., Fordham University School of Law

Samantha Seeley (2016)
Instructor—Arts & Communication
A.A.S., SUNY Orange; B.A., SUNY Empire State College

Nicole Sewell (2019)
Instructor—Nursing
A.A.S., SUNY Orange; B.S.N., M.S.N., Kaplan University

Karen Sferlazzo (2014)
Instructor—Criminal Justice
A.S., Rockland Community College; B.A., SUNY Binghamton; J.D., Pace Law School

John Shepherd (2012)
Assistant Professor—Biology
A.S., Herkimer Community College; B.S., Cornell University; M.S., SUNY Albany

Christopher Sherwood (1991)
Assistant Professor—Criminal Justice
B.S., Mercy College; M.P.A., John Jay College

Felisa Sheskin (2019)
Instructor—Global Studies
B.A., University of Maryland; M.A., University of North Carolina at Chapel Hill

Assistant Professor—Business
A.A.S., SUNY Orange; B.B.A., Siena College; M.B.A., University of South Carolina

David Siegel (2015)
Instructor—English
B.A., Prescott College; M.F.A., Vermont College

Rich Simons (2017)
Instructor—Arts and Communication
B.Mus., University of South Carolina; M.Mus., Hartt School of Music

Lisa Skinger (2013)
Instructor—English
B.A., Mount Saint Mary College

Patricia Slesinski (1984)
Professor—Nursing
R.N., A.A.S., SUNY Orange; B.S., Mount Saint Mary College; M.S., Hunter College

</tbody>
</table>

**NOTE:** In recent years, the College has operated on a summer schedule during the months of June and July. During those months the College is closed on Fridays, and open extended hours on Monday thru Thursday. The decision on whether or not to operate on this summer schedule is made during the Spring semester. Please check the SUNY Orange website for the latest information on the College’s operating summer schedule.
Best Routes to Middletown Campus
115 South Street, Middletown, NY 10940

From Monroe and points south: Take Route 17 west to exit 123 (Middletown). Follow 17M which becomes Dolson Avenue. Continue on Dolson Avenue to Bennett Street. Turn left on Bennett to the top of the hill.

From Newburgh and points east and north: Take Interstate 84 west to exit 3W (Middletown) then follow directions below from Exit 3W.

From Sullivan County and points northwest: Take Route 17 east to exit 121W. Take Interstate 84 west to exit 3W (Middletown) then follow directions below from Exit 3W.

From Port Jervis and points west: Take Interstate 84 east to exit 3W (Middletown) then follow directions below from Exit 3W.

From Exit 3W: Follow Route 17M west toward Middletown. Route 17M becomes Dolson Avenue. Continue on Dolson Avenue to Bennett Street. Turn left on Bennett to the top of the hill.

Best Routes to Newburgh Campus
One Washington Center, Newburgh, NY 12550

From Middletown: Take Interstate 84 East to Exit 10. At bottom of exit ramp, turn right onto Route 9W South and immediately get into left lane. At stoplight, turn left onto North Street which becomes Marine Drive (also named LeRoy Place, Water Street). Continue on Marine Drive through 2 stop lights.

About ½ mile past the second stoplight, turn right on to Colden Street. At the first stop sign make a right onto Broadway. Continue on Broadway, and make the first right on to Grand Street; the Newburgh Campus will be on the right. (The entrance to the Newburgh Campus parking garage is on 1st Street and Grand.)

From Upstate New York or New York City/New Jersey area (NYS Thruway): Take New York State Thruway to Exit 17 (Newburgh). After toll booths, bear right and follow signs for Interstate 84 East. Follow directions from Middletown (above).

From Dutchess County & Connecticut: Take Interstate 84 West over the Newburgh/Beacon Bridge to Exit 10. On exit ramp stay to right and merge onto North Plank Rd. At the first stoplight, turn right on to Route 9W South and immediately get into left lane. At the 2nd stoplight, turn left onto North Street which becomes Marine Drive (also named LeRoy Place, Water Street). Continue on Marine Drive through 2 stop lights. About ½ mile past the second stoplight turn right on to Colden Street. At the first stop sign make a right onto Broadway. Continue on Broadway, and make the first right on to Grand Street; the Newburgh Campus will be on the right. (The entrance to the Newburgh Campus parking garage is on 1st Street and Grand.)
