RAD TECH Q&A

Learn about Radiologic Technology

Interested in a career in Radiologic Technology but not sure where to start? Thinking about a field in healthcare but not sure which is right for you? Join the Diagnostic Imaging Department May 29th to learn about the AAS degree in Radiologic Technology at SUNY Orange. Get an overview of the field, learn what exactly a technologist does, hear what local employers have to say about the profession and growth, then ask whatever questions you have!

No registration / college enrollment required – Open to the public

See our website for program information
