

NEW BENEFIT: LIFE INSURANCE

AFLAC'S GOT YOU COVERED – YOUR SPOUSE & KIDS TOO

AFLAC understands that life insurance is a topic that's not only hard to talk about, but it can also be confusing and hard to understand. That's why:

- We keep it simple by offering 2 different types of policies for you and your family. Whole life provides a cash value & covers you for a lifetime; Term life covers you for a specific period of time providing a death benefit only.
- You can choose AFLAC as your main source of coverage or use it to enhance the coverage you already have.
- AFLAC belongs to you, not your company – so you can take it with you whenever you leave.
- There's no waiting period requiring you to work a certain length of time to become eligible for benefits.
- Our premiums are stable – so you know how much it is going to cost. That never changes as long as you pay your premium.
- Unlike some other insurance plans, AFLAC covers not only you, but offers coverage options for your spouse and children.
- It's offered through convenient payroll deduction.

*Getting life insurance is one of the most important financial decisions a person can make.
It helps protect your family and other people who depend on you for financial support;
should something ever happen to you.*

Life Insurance..... It is essential for those you love!

If you are interested in learning more about this new benefit, Please join us for a presentation:
