

Our Vision

The Liberty Partnerships Program (LPP) is a state grant hosted by SUNY Orange in collaboration with The Newburgh Enlarged City School District and Newburgh community agencies including The Boys and Girls Club of Newburgh.

A New York State Education Department grant-funded initiative, Liberty Partnerships Program is a comprehensive academic excellence program designed for middle and high school students. Our purpose is to ensure that the students of the Liberty Partnerships Program graduate from high school and enter post-secondary education and the workforce as highly competent and compassionate young adults.

Liberty Partnerships Program

For Newburgh Enlarged City School District students enrolled at South Middle School, Heritage Middle School, or NFA Main or North High Schools

Providing in-school, after-school, and summer enrichment programs to middle and high school students in the Newburgh Enlarged City School District

SUNY ORANGE
LIBERTY PARTNERSHIPS

The SUNY Orange Liberty Partnerships Program offers the following:

- ◆ After-school programs at our Newburgh campus for Heritage and South Middle School students
- ◆ In-school case management focused on workforce development and college exploration for NFA Main and North High School students
- ◆ In-school academic intervention services for select students at South Middle School
- ◆ A 2-4 week academic-driven Summer Enrichment program for Heritage and South Middle School students, as well as NFA Main and North High School students

All applicants and a parent/guardian are required to attend at least one LPP information session upon applying for the after school and summer program components.

SAMPLE OF PREVIOUS SUMMER PROGRAM OFFERINGS

Middle School Program

Marble Roller Coaster

Students will gain a better understanding of the principal of energy conservation through the design and implementation of their own roller coasters.

Oil Spills & The Environment

Students will embark on an experiment to understand how oils spills happen, as well as the chemical components needed to safely contain and clean the spill. Students will examine the effects that oils spills have on the environment.

Solar Oven

Students will design, build and test the efficiency of their own solar ovens. Students will gain an understanding of how solar energy works and its ability to be a sustainable resource.

Magnetic Slime

Students will gain an understanding of how magnets work through other materials. Students gain an understanding of compound materials and how to handle them.

High School Program

This program, designed specifically for high school students, will cover a variety of topics including: what to expect in high school, positive self- body image, preparing for college and the workforce, and teen dating safety. Programming will take place through interactive workshops and invited speakers.

Our Mission

SUNY Orange LPP provides students with a range of services structured to facilitate their ability to persist through high school completion and admissions as competitive candidates for postsecondary education and the workforce.
