  - Chapter 12: Spirituality
  - Refer to assigned readings in MSL lab guide
  
- Halter
  - Chapter 6: Legal & Ethical Considerations
  - Chapter 10: Stress
  - Chapter 15: Anxiety
  - Chapter 22: Substance & Addictive Disorders
  
- Davis' Drug Guide
  - Please refer to MSL drug lists for appropriate drugs related to content area
  
- Davis's Guide to Lab & Diagnostic Tests
  - Refer to appropriate diagnostic tests related to content area

## *OUTLINE*

- I. Baseline data (Week 1)
  - A. Role of nursing profession
  - B. Quality and safety initiatives- IOM, TEAM STEPPS, QSEN, Joint Commission: National Patient Safety Goals (NPSGs), and SBAR for reporting
  - C. Nursing Process & Critical Thinking/ SUNY Orange Framework
  - D. Ethics
  - E. Medical/Surgical Nursing
  - F. Delegation
  - G. Health promotion
  - H. Culture and culturally competent care
  - I. Stress/Anxiety
  - J. Substance Use disorder
  
- II. Nursing Process (Week 1)
  - A. Assessment: Data Collection
  
  - B. Data Analysis: common nursing diagnosis
    - i. Anxiety R/T threat to self-concept
    - ii. Disturbance of sleep pattern R/T irritability, tremors
    - iii. Altered nutrition: less than body requirements R/T inadequate nutritional intake
    - iv. Risk for injury R/T impaired sensory/perceptual function

- C. Expected outcomes R/T nursing diagnosis
- D. Nursing interventions/rationale
  - i. Education
  - ii. Emotional support
  - iii. Anticipatory guidance
- E. Evaluation

## **Week 2: Alteration in Biological Safety: Needs of the Client with an Immune Disorder**

### *Readings:*

- Hinkle & Cheever
  - Chapter 32: Assessment of Immune Function
  - Chapter 33: Management of Patients with Immune Deficiency Disorders
  - Chapter 34: Assessment and Management of Patients with Allergic Disorders
  - Chapter 35: Assessment and Management of Patients with Inflammatory Rheumatic Disorders—content in SLE, RA, Gout p. 933-948 and p. 953-955
- Wilkinson & Treas
  - Chapter 20: Promoting Asepsis & Preventing Infection
  - Refer to assigned readings in MSL lab guide
- Davis' Drug Guide
  - Please refer to MSL drug lists for appropriate drugs related to content area
- Davis's Guide to Lab & Diagnostic Tests
  - Refer to appropriate diagnostic tests related to content area

### **OUTLINE**

- III. Baseline data (Week 2)
  - A. Immune system review
  - B. Immunologic deficiencies-Primary vs. Secondary
  - C. HIV infection, AIDS and AIDS-related opportunistic infections
  - D. Hypersensitivity disorders
  - E. Immunologic problems—Rheumatoid Arthritis, SLE, Gout/gouty arthritis
- IV. Nursing Process (Week 2)
  - A. Assessment: Data Collection
    - i. Diagnostic tests
    - ii. Needs assessment of a client with an immune system disorder

- B. Data Analysis: common nursing diagnosis
  - i. Ineffective family coping R/T uncertainty of future
  - ii. Fatigue R/T side effects of drug therapy
  - iii. Risk for infection R/T compromised host defenses
- C. Expected outcomes R/T nursing diagnosis
- D. Nursing interventions/rationale
  - i. Self-care management
  - ii. Pharmacological management
  - iii. Prevention of infection
  - iv. Controlling fatigue
- E. Evaluation

### **Week 3: Alteration in Safety: Needs of the Perioperative Client**

#### *Readings:*

- Hinkle & Cheever
  - Chapter 9: Pain Management
  - Chapter 14: Preoperative Nursing Management
  - Chapter 15: Intraoperative Nursing Management
  - Chapter 16: Postoperative Nursing Management
  -
- Wilkinson & Treas
  - Chapter 32: Skin Integrity & Wound Healing
  - Chapter 36: Caring for the Surgical Patient
  - Refer to assigned readings in MSL lab guide
- Davis' Drug Guide
  - Please refer to MSL drug lists for appropriate drugs related to content area
  -
- Davis's Guide to Lab & Diagnostic Tests
  - Refer to appropriate diagnostic tests related to content area

#### *OUTLINE*

- V. Baseline data (Week 3)
  - A. Preoperative needs
    - i. Assessment

- ii. Categories of surgical procedures
- iii. Informed legal consent
- iv. Pre-Operative teaching
- v. Pre-operative Interventions
- vi. Joint Commission Goals

B. Intraoperative needs

- i. Admittance to operating room/surgical team/checklist
- ii. Roles of surgical team members
- iii. Surgical Asepsis
- iv. Hazards
- v. Positioning for surgery
- vi. Types of anesthesia
- vii. Intra-operative complications

C. Postoperative needs

- i. Post-anesthesia care unit/purpose
- ii. Post-operative needs
- iii. Wound healing/drains
- iv. Complications

VI. Nursing Process (Week 3)

A. Assessment: Data Collection

- i. Diagnostic tests—preoperative

B. Data Analysis: common nursing diagnosis

- i. Knowledge deficit R/T preoperative, postoperative care expectations/life style changes.
- ii. Ineffective airway clearance R/T laryngeal spasm.
- iii. Impaired skin integrity R/T surgical wound.
- iv. Acute pain R/T inflammation or injury of surgical area.

C. Expected outcomes R/T nursing diagnosis

D. Nursing interventions/rationale

- i. Preoperative
- ii. Intraoperative
- iii. Postoperative

E. Evaluation
