## Faculty SLO Sustainability Survey FALL 2018

8	The theatre is a "waste intensive" activity. As a matter of tradition and economic sense, we recycle as much of the waste product ( wood, props, paint, costumes, miscellaneous) as we can, to be used in subsequent productions. We are limited by space and the fact that each production has unique requirements which may or may not be able to be met with "stock" items. We keep a collection of stock scenery and props which are standard to the theatre.	10/31/2018 1:17 PM
