

# SUNY Orange Policy Manual

## Introduction

The SUNY Orange Policy Manual establishes an operational foundation for the College and provides a framework for effective day-to-day management of the College. To efficiently conduct its business, the College must rely upon the adoption of courses of action (policies) and implementation of processes (procedures) that exemplify the College's mission, embody its values and embrace its vision.

The Board of Trustees has adopted the policies herein to provide the College President with a clear and firm set of guidelines in his/her daily leadership of SUNY Orange. Accordingly, The Board of Trustees directs the President to develop such procedures, as necessary, to fairly implement the policies in this document.
